Defendants.

Case No.: 3:19-cv-01226-L-AHG

Hon. M. James Lorenz and Magistrate
Judge Allison H. Goddard

**DECLARATION OF MATTHEW
JONES IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Matthew Jones, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am a 20-year-old resident of Santee, California. I do not have any
6 criminal history, nor am I a member of the armed services or law enforcement.
7

8 3. I do not have a California hunter's licence issued by the Department of
9 Fish and Wildlife. I have no interest in hunting.

10 4. I do not currently own any firearms. However, I would like to purchase a
11 firearm for self-defense and other lawful purposes.
12

13 5. On April 23, 2019, I went to AO Sword, a gun shop in El Cajon,
14 California, to buy a firearm for self-defense and other lawful purposes. I said to the
15 employee behind the counter I wanted to buy a gun; and he asked me if I was 21 years
16 old. I told him I was 20 years old.
17

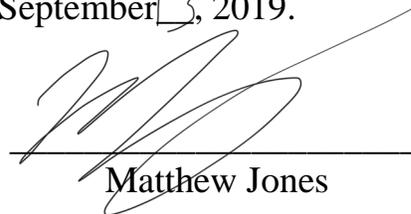

18 6. Once I told the employee that I was 20, he informed me that due to my
19 age, he would not be able to sell me any type of firearm. He said this was not a store
20 policy, but rather a requirement under state law that recently increased the minimum
21 purchasing age for firearms to 21. Because I was prohibited from purchasing any kind
22 of firearm, I left the shop.
23
24

25 7. I wanted to buy a gun for self-defense and other lawful purposes, but was
26 prevented from doing so because of the California law. As a result, I was denied the
27 ability to exercise my Second Amendment rights, including my right to purchase, use,
28

1 and retain a firearm for self-defense and other lawful purposes. This unlawful
2 prohibition and infringement on my Second Amendment rights will continue until I
3 am 21 years old. But for the California law, I would have purchased a firearm.
4 However, due solely to my age, I cannot purchase a firearm without fear of being
5 criminally prosecuted for violating the law.
6

7
8 8. I have no interest in purchasing a firearm in order to hunt; I do not have a
9 valid, unexpired hunting license issued by the California Department of Fish and
10 Wildlife; and have no need for or interest in attending a hunter's safety course or
11 paying unnecessary and burdensome fees associated with these classes and licenses. I
12 am also not an active or retired peace officer or federal officer, nor am I a current or
13 retired member of the armed forces. However, I am old enough to serve in the U.S.
14 armed forces and vote.
15

16
17 I declare under penalty of perjury that the foregoing is true and correct.
18 Executed within the United States on September 13, 2019.

**DECLARATION OF THOMAS
FURRH IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Thomas Furrh, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am a 20-year-old resident of Vista, California, where I live in an
6 apartment with four roommates.
7

8 3. I do not have a criminal history, nor am I a member of the armed
9 services or law enforcement.
10

11 4. I do not have a California hunter's licence issued by the California
12 Department of Fish and Wildlife and I have no interest in hunting.

13 5. Currently, I do not own any firearms. However, I would like to purchase
14 a firearm for self-defense and other lawful purposes.
15

16 6. On May 15, 2019, I entered the gun shop Beebe Family Arms and
17 Munitions (Beebe Arms) in Fallbrook, California, to purchase a firearm for
18 self-defense and other lawful purposes.
19

20 7. I told the employee behind the counter I wished to purchase a firearm.
21 He asked me if I was 21 years old. I told him I was 20 years old.
22

23 8. Once I told the employee that I was 20, he immediately informed me
24 that due to a recent change in California law, they were prohibited from selling or
25 transferring any type of firearms to me due solely to my age.
26

27 9. I asked if I could legally purchase a firearm from an individual rather
28 than from a gun shop. The employee told me that since all firearms transfers are

1 required to go through a federally licensed dealer, Beebe Arms was also prevented
2 from conducting a private party transfer of any type of firearm to me. Because I was
3 prohibited from purchasing any kind of firearm, I left the Beebe Arms.
4

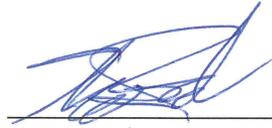

5 10. I wanted to buy a gun for self-defense and other lawful purposes, but
6 was prevented from doing so because of the California law. As a result, I was denied
7 the ability to exercise my Second Amendment rights, including the right to purchase,
8 use, and retain a firearm in self-defense and other lawful purposes. This unlawful
9 prohibition and infringement on my Second Amendment rights will continue until I
10 am 21 years old. But for the California law, I would have purchased a firearm.
11 However, due solely to my age, I cannot purchase a firearm without fear of being
12 criminally prosecuted for violating the law.
13
14
15

16 11. I have no interest in purchasing a firearm in order to hunt; I do not have
17 a valid, unexpired hunting license issued by the California Department of Fish and
18 Wildlife; and have no need for or interest in attending a hunter's safety course or
19 paying for irrelevant and burdensome fees associated with these classes and licenses.
20 I am also not an active or retired peace officer or federal officer, nor am I a current or
21 retired member of the armed forces. However, I am old enough to serve in the U.S.
22 armed forces and vote.

**DECLARATION OF KYLE
YAMAMOTO IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Kyle Yamamoto, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am a 19-year-old resident of Hacienda Heights, California.

6 3. I do not have a criminal history, nor am I a member of the armed services
7 or law enforcement.
8

9 4. I do not have a California hunter's licence issued by the Department of
10 Fish and Wildlife as I have no interest in hunting.
11

12 5. Currently, I do not own any firearms. However, I would like to purchase
13 a firearm for self-defense and other lawful purposes.

14 6. On June 2, 2019, I attended the Crossroads of the West Gun Show (Gun
15 Show) at the Orange County Fair and Event Center in Costa Mesa, California, in order
16 to purchase a rifle for self defense and other lawful purposes.
17

18 7. At the Gun Show, I visited several booths operated by various licensed
19 firearms dealers. To my knowledge, all dealers are required to follow all federal and
20 state firearms regulations and all possessed valid licenses to deal in firearms and
21 ammunition in the State of California.
22

23 8. At one of these booths occupied by licensed dealer, I found a rifle that I
24 was interested in purchasing. Once I informed the dealer that I wanted to purchase the
25 rifle, he asked for my California Driver's License. I provided my driver's license and
26
27

28

1 was immediately informed that I could not purchase the rifle due to a recent change in
2 California law. The dealer told me that since I was not 21, they were prohibited from
3 selling or transferring any firearm to me unless I was law enforcement, military, or
4 possessed a valid hunter's license. I informed the dealer that I did not fall under any
5 of these exceptions. Because I was prohibited from purchasing any kind of firearm, I
6 left the booth immediately afterward.
7
8

9 9. I subsequently asked several other dealers at the Gun Show about the
10 recent change in the law. They all confirmed what the first dealer had told me.
11 Because I was not able to purchase any kind of firearm, I left the Gun Show.
12

13 10. I wanted to buy a gun for self-defense and other lawful purposes, but was
14 prevented from doing so because of the California law. As a result, I was denied the
15 ability to exercise my Second Amendment rights, including the right to purchase, use,
16 and retain a firearm in self-defense and other lawful purposes. This unlawful
17 prohibition and infringement on my Second Amendment rights will continue until I
18 am 21 years old. But for California law, I would have purchased a firearm. However,
19 due solely to my age, I cannot purchase a firearm without fear of being criminally
20 prosecuted for violating the law.
21
22
23

24 11. I have no interest in purchasing a firearm in order to hunt; I do not have a
25 valid, unexpired hunting license issued by the California Department of Fish and
26 Wildlife; and have no need for or interest in attending a hunter's safety course or
27
28

1 paying for irrelevant and burdensome fees associated with these classes and licenses.

2 I am also not an active or retired peace officer or federal officer, nor am I a current or
3 retired member of the armed forces. However, I am old enough to serve in the U.S.

**DECLARATION OF JOHN
PHILLIPS IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, John Phillips, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am the owner of Poway Weapons and Gear (PWG), a firearms range
6 and retailer in Poway, California. PWG is the largest indoor range in California,
7 serving just under 200,000 visitors per year and supporting almost 4,000 members that
8 are roughly 65 percent male and 35 percent female. PWG employs 37 full-time
9 employees as well as additional seasonal staff as needed.
10

11 3. PWG is also a 5-Star range/retailer as certified by the National Shooting
12 Sport Foundation. At PWG, we take the sale and responsible use of firearms very
13 seriously. We provide firearms training to over 8,000 students per year and interact on
14 our ranges with countless more people. Since opening our range and training center in
15 2014, we have helped educate over 50,000 students. PWG is a strong supporter of our
16 nation's Second Amendment rights and proudly complies with every step in the
17 regulatory process to meet our own 5-Star standards relative to reputable firearms
18 sales. We take great pride in our record of compliance with local, state, and federal
19 laws and regulations, while also helping ensure the local community can benefit from
20 PWG's efforts through firearms legal education.
21
22
23
24

25 4. Since Penal Code section 27510 went into effect on January 1, 2019,
26 PWG business activities have been significantly and adversely impacted because
27
28

1 PWG employees have been forced to refuse firearms sales, transfers, and handling to
2 otherwise qualified adults 18 to 20 years of age.

3
4 5. Because PWG is both a range and a retail store, PWG also has been
5 forced to prohibit otherwise qualified young adults from using rental firearms and
6 taking part in lawful shooting at the range, or face substantial criminal penalties.
7
8 Because California’s age-based gun ban prohibits a licensed dealer from selling,
9 supplying, delivering, or giving *possession or control* of a firearm to any person under
10 21 years of age,” PWG cannot even deliver a rental firearm to someone who is *over*
11 *the age of 21* when they are accompanied by someone who is under 21 as PWG
12 cannot lawfully “*supply*” a firearm to an individual who we know intends to shoot
13 with their older partner.
14

15
16 6. In addition to being forced to deny individuals firearms purchase,
17 transfers, and rentals, PWG has had to deny numerous otherwise qualified young
18 adults customers from attending or taking part in PWG’s firearms classes. Most PWG
19 classes require students to handle firearms in some manner. Because PWG is
20 prohibited from allowing even “possession or control” of any firearm to adults ages
21 18 to 20, PWG has had to deny all adults in that age range from attending our firearms
22 classes.
23
24

25 7. California’s age-based gun ban also prevents PWG from offering
26 hunter’s education classes to anyone under the age of 21, let alone adults ages
27 18 to 20. Anyone under 21, including those adults ages 18 to 20 who wish to comply
28

1 with Penal Code section 27510's exemption — which allows individuals over 18 to
2 acquire long guns (*e.g.* shotguns, rifles) if they possess a valid, unexpired hunting
3 license issued by the Department of Fish and Wildlife — are unable to take PWG's
4 classes. Because law prohibits licensed dealers from selling, supplying, delivering, or
5 giving *possession or control* of a firearm to any person under 21 years of age, PWG
6 cannot lawfully allow individuals under 21 *take control of a firearm for a safe*
7 *handling demonstration*; however, this is a requirement for the hunter's safety course
8 — which is the only exemption available to the general public.

11
12 8. Thus, California's age-based gun ban prohibits PWG from selling and
13 renting firearms to otherwise qualified, Young Adults. It also requires PWG to
14 prevent anyone *over 21* from renting a PWG firearm if that person is accompanied by
15 another person *under 21* – due to the exposure to criminal prosecution for supplying a
16 firearm to someone under the age of 21.

18 I declare under penalty of perjury that the foregoing is true and correct.

19 Executed within the United States on September 12, 2019.

Case No.: 3:19-cv-01226-L-AHG

Hon. M. James Lorenz and
Magistrate Judge Allison H. Goddard

**DECLARATION OF DARIN PRINCE
IN SUPPORT OF PLAINTIFFS'
MOTION FOR PRELIMINARY
INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Darin Prince, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am the co-owner and co-operator of North County Shooting Center, Inc.
6 (NCSC), a federally-licensed firearms dealer and gun range located at 1440 Descanso
7 Avenue, in San Marcos, California 92069.
8

9 3. NCSC is both an S-Corp and a federal-and state-licensed firearms retailer
10 and range owned by Stanley Tuma and me. As a full-service shooting range and gun
11 store, NCSC sells firearms, ammunition, and other related accessories. As part of its
12 range activities, NCSC provides firearms for rental use within its indoor shooting
13 range. NCSC also provides various firearms training courses that take place on
14 NCSC's premises.
15
16

17 4. Due to California's age-based gun ban, NCSC has been directly and
18 adversely harmed by halting all otherwise lawful sales and deliveries of firearms to
19 young adults under the age of 21.
20

21 5. Further, NCSC has been forced to prohibit, and has prohibited, young
22 adults ages 18 to 20 from attending various firearms classes hosted by NCSC. As a
23 direct result, NCSC has sustained financial injury, harm, and losses from the sale and
24 rentals of otherwise lawful goods and services. NCSC also faces substantial criminal
25 penalties for the violation of the new law.
26
27
28

1 6. A major part of NCSC’s business activities include renting firearms to
2 customers who use those firearms at the NCSC range. Due to California’s age-based
3 gun ban prohibiting licensed dealers from selling, supplying, delivering, or giving
4 *possession or control* of a firearm to any person under 21 years of age, NCSC has
5 been forced to deny numerous otherwise qualified young adults from *purchasing,*
6 *renting, or even handling* a firearm of any kind from NCSC’s store and range, or risk
7 substantial criminal penalties.
8

9
10 7. In addition, NCSC has had to deny numerous adult customers, ages 18 to
11 20, from attending or taking part in NCSC’s firearms classes. Most NCSC classes
12 require students to handle firearms in some manner. Because NCSC is prevented
13 from allowing even possession or control of any firearm to young adults ages
14 18 to 20, NCSC has had to deny all adults in that age range from attending our
15 firearms classes who would otherwise be permitted – even when accompanied by a
16 person over 21 years of age.
17
18

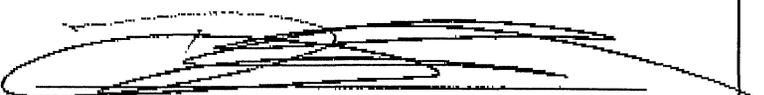

19
20 8. California’s age-based gun ban also prevents NCSC from offering hunter
21 education classes to adults ages 18 to 20 who wish to comply with Penal Code section
22 27510’s exemption. The exemption allows individuals 18 and over to acquire long
23 guns (*e.g.,* shotguns, rifles) if they possess a valid, unexpired hunting license issued
24 by the Department of Fish and Wildlife; however, to obtain a hunter’s license, other
25 California laws require the prospective license holder to take hunter education class.
26 Consistent with California law, the hunter’s education class requires that students
27
28

1 handle and demonstrate the safe handling of a firearm. Because California's age-
2 based gun ban prevents NCSC from selling, supplying, delivering, or giving
3
4 *possession or control* of a firearm to anyone under 21 years of age, NCSC cannot
5 lawfully provide the necessary instruction because of the law's prohibition on
6 possessing and controlling firearms – elements essential to the hunter education class.

7
8 9. Thus, California's age-based gun ban prohibits NCSC from selling and
9 renting firearms to otherwise qualified, Young Adults. It also requires NCSC to
10 prevent anyone *over 21* from renting an NCSC firearm if that person is accompanied
11 by another person *under 21* – due to the exposure to criminal prosecution for
12 supplying a firearm to someone under the age of 21.

13
14 10. NCSC brings this case on behalf of itself, and as a representative of a
15 class of similar entities consisting of licensed California retailers too numerous to
16 individually name or include as parties to this action. They are licensed firearms
17 retailers and shooting ranges in California that are injured because they are now
18 prohibited from selling, supplying, delivering, or giving possession or control of a
19 firearm to any person under 21 years of age, who would otherwise be permitted to
20 lawfully purchase, rent, possess, control, and acquire firearms.

21 I declare under penalty of perjury that the foregoing is true and correct.

Case No.: 3:19-cv-01226-L-AHG

Hon. M. James Lorenz and Magistrate
Judge Allison H. Goddard

**DECLARATION OF MATTHEW
BEEBE IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Matthew Beebe, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am 39 years old, resident of Fallbrook, California. I am the owner and
6 operator of the federally-licensed firearms dealer, Beebe Family Arms and Munitions
7 (Beebe Arms), located at 1032 South Main Avenue, in Fallbrook, California 92028.
8 As owner and operator of Beebe Arms, I am authorized to speak on behalf of the
9 company.
10

11 3. Due to Defendants' enforcement of the prohibition against selling,
12 supplying, delivering, or giving possession or control of a firearm to any person under
13 21 years of age, and my fear of criminal prosecution, Beebe Arms has been directly
14 and adversely harmed by not being able to lawfully sell any firearm to young adults
15 ages 18 to 20. For example, Beebe Arms has been forced to prevent Plaintiff Thomas
16 Furrh from purchasing a firearm for self-defense and other lawful purposes. Further,
17 Beebe Arms has been forced to prohibit, and has prohibited, other young adults ages
18 18 to 20 from purchasing firearms and attending various firearms classes hosted by
19 Beebe Arms, or risk substantial criminal penalties. As a direct result, Beebe Arms has
20 sustained financial harm, injury, and losses from the sale of otherwise lawful goods
21 and services. Beebe Arms brings this action on behalf of itself, and other similarly
22 situated licensed firearms retailers in California.
23
24
25
26
27
28

1 5. California’s age-based gun ban also prevents Beebe Arms from offering
2 hunter education classes to adults ages 18 to 20 who wish to comply with Penal Code
3 section 27510’s exemption. The exemption allows individuals over 18 to acquire long
4 guns (*e.g.*, shotguns, rifles) if they possess a valid, unexpired hunting license issued
5 by the Department of Fish and Wildlife; however, to obtain a hunter’s license, other
6 California laws require the prospective license holder to take a hunter education class.
7 Consistent with California law, the hunter’s education class requires that students
8 handle and demonstrate the safe handling of a firearm. Because California’s
9 age-based gun ban prevents Beebe Arms from selling, supplying, delivering, or giving
10 *possession or control* of a firearm to anyone under 21 years of age, Beebe Arms
11 cannot lawfully provide the necessary instruction because of the law’s prohibition on
12 possessing and controlling firearms – elements essential to the hunter education class.
13
14
15
16

17 6. Beebe Arms has had to deny numerous potential customers due solely to
18 their age from purchasing firearms and from taking any of our firearms education
19 courses. As long as this law is in effect, Beebe Arms is unlawfully forced to deny
20 individuals their Second Amendment rights.
21

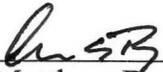

22 7. Beebe Arms brings this case on behalf of itself, and as a representative of
23 a class of similar individuals consisting of licensed California retailers too numerous
24 to individually name or include as parties to this action. They are licensed firearms
25 retailers in California that are injured because they are now prohibited from selling,
26 supplying, delivering, or giving possession or control of a firearm to any person under
27
28

1 21 years of age, who would otherwise be permitted to lawfully purchase, rent, possess,
2 control, and acquire firearms.

3
4 I declare under penalty of perjury that the foregoing is true and correct.

Hon. M. James Lorenz and Magistrate
Judge Allison H. Goddard

**DECLARATION OF ANTHONY
WILLIAMS IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019
Time: 9:00 a.m.
Courtroom: Dept. 5B

1 I, Anthony Williams, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am a 31-year-old resident of Fallbrook, California. I am currently
6 employed as a store clerk and gunsmith at Beebe Family Arms and Munitions (Beebe
7 Arms), located at 1032 S. Main Avenue, Fallbrook, California 92028.
8

9 3. As a store clerk, I hold a Certificate of Eligibility issued by the State of
10 California. With this certificate, I am permitted to sell firearms and ammunition.
11

12 4. Since January 1, 2019, when SB 1100 went into effect and raised the
13 minimum age requirements to purchase firearms to 21, Beebe Arms has made it a
14 store policy to immediately ask the age of any potential purchaser of a firearm or
15 ammunition.
16

17 5. Based on my experience, many individuals that have come into Beebe
18 Arms to purchase a firearm are still unaware that the California law has changed.
19 Thus, I routinely determine the age of the potential purchaser as soon as they state
20 they are interested in purchasing a firearm.
21

22 6. On May 15, 2019, I was working behind the counter at Beebe Arms
23 when a male individual, later identified as Thomas Furrh, came into the shop and
24 indicated that he wanted to purchase a firearm.
25

26 7. I immediately asked Mr. Furrh how old he was. Mr. Furrh told me that
27 he was 20 years old. I told Mr. Furrh the laws had recently changed and that
28

1 California increased the minimum age to purchase a firearm to 21-years-old. I told
2 Mr. Furrh that since he was not 21, he would not be able to purchase any kind of
3 firearm unless he was law enforcement, military, or possessed a valid hunting license
4 issued by the California Department of Fish and Wildlife. Otherwise, as a licensed
5 dealer, Beebe Arms is prohibited from selling or transferring him any firearm; or risk
6 substantial criminal penalties for violating the law.
7
8

9 8. Mr. Furrh told me he did not fall under any of the exceptions and was not
10 looking to purchase a firearm in order to hunt.
11

12 9. Mr. Furrh asked if it was possible to purchase a firearm if it wasn't
13 purchased from a gun shop. I told him all firearms transfers must go through a
14 licensed dealer, even private-party transfers. Thus, Beebe Arms was also prohibited
15 from conducting a private-party transfer to Mr. Furrh.
16

17 10. Mr. Furrh left Beebe Arms shortly thereafter.
18

19 11. Because Penal Code section 27510 prohibits licensed dealers from
20 selling, supplying, delivering, or giving possession or control of a firearm to any
21 person under 21 years of age, I, as an employee of Beebe Arms, have had to deny
22 several individuals their ability to exercise their Second Amendment rights, including
23 the right to purchase, use or possess a firearm in self-defense or other lawful purposes.

**DECLARATION OF BRANDON
COMBS IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION**

Complaint Filed: July 1, 2019

Amended Complaint Filed: July 30, 2019

Date: Monday, November 18, 2019

Time: 9:00 a.m.

Courtroom: Dept. 5B

1 I, Brandon Combs, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am the President of the Institutional Plaintiff Firearms Policy Coalition,
6 Inc. (FPC), a non-profit organization incorporated under the laws of Delaware, with
7 its principal place of business in Sacramento, California. FPC's members and
8 supporters reside both within and outside the State of California, including in San
9 Diego County, California. FPC serves its members, supporters, and the public through
10 direct legislative advocacy, grassroots advocacy, litigation, legal and policy efforts,
11 research, education, outreach, and other such programs. The purposes of FPC include
12 defending the United States Constitution and the people's rights, privileges, and
13 immunities deeply rooted in this Country's history and tradition, especially the
14 fundamental right to acquire, keep, and bear arms under the Second Amendment.
15
16
17

18 3. In addition to the individually-named Plaintiffs, who are each and every
19 one of them FPC members, FPC has other members and supporters in California or
20 who may move into California, who possess all the indicia of membership —
21 individuals of more than 18 and less than 21 years of age who, but for the challenged
22 law, are not otherwise legally prohibited from acquiring or possessing firearms but
23 who are not exempt from the challenged law and Defendants' policies, practices, and
24 customs that infringe on their fundamental, individual rights ("Constitutionally
25
26
27
28

1 Injured Legal Adults”)(“Young Adults”). FPC also has members and supporters that
2 will become Constitutionally Injured Legal Adults in the near future.

3
4 4. FPC strongly opposed the legislation, Senate Bill 1100, (2017-2018 Reg.
5 Sess.) (“SB 1100”) that led to enactment of the challenged law and Defendants’
6 policies, practices, and customs that infringe on the fundamental, individual rights of
7
8 Constitutionally Injured Legal Adults. As an institutional Plaintiff, FPC represents its
9 Constitutionally Injured Legal Adult members and supporters, and similarly situated
10 members of the public, who include gun owners throughout California and others
11 affected by California’s unconstitutional and burdensome gun control schemes, such
12 as licensed firearm retailers, who were and are adversely and directly harmed and
13 injured by Defendants’ enforcement of the challenged law, policies, practices, and
14
15 customs.

16
17 5. The challenged law and Defendants’ actions and omissions have caused
18 FPC to expend and divert resources that would otherwise be available for other
19
20 purposes to protect the rights and property of its members, supporters, and the general
21 public, including by and through this litigation.

22
23 6. I obtained and reviewed the available legislative history of SB 1100.
24 Attached hereto as **Exhibit 1** is a true and correct copy of the California Department
25 of Finance Department SB 1100 finance analysis, summary, and comments. The
26 Department’s analysis for fiscal years 2018-19 and 2020-21 shows estimated adverse
27
28 fiscal impacts to California with the passage of this new law. Specifically, for those

1 fiscal periods, the Department estimated incurring increase costs of more than
2 \$1.5 million, plus the need for three additional staff positions to administer “the
3 expected increase in arrest prints, update departmental documentation and procedures,
4 and [support] the ongoing maintenance...for the required systems.” (Ex.1, p. 2.) The
5 Department also anticipated annual revenue losses of more than \$235,000.00, from
6 special accounts and funds due to lost sales resulting from increasing “the minimum
7 age to purchase firearms.” (*Ibid.*)

10 7. Further, the Department *opposed* SB 1100 “because it expands an
11 existing crime which would lead to additional cases entering the court system,
12 increase the statewide adult jail population, and impact the ability of counties to
13 manage their offender population....” (Ex. 1, p. 3.) The Department also pointed out
14 that the new law will “impose additional criminal sanctions [which] will further strain
15 the local criminal justice system...[and create] General fund cost measures that are not
16 included in the Administration’s fiscal plan.” (Ex. 1, pp.2-3.)

20 8. The challenged law (Penal Code section 27510(a)) and Defendants’
21 policies, practices, and customs apply to *any* person or entity licenced by the federal
22 and state government, to sell or transfer firearms.

24 9. In short, anyone who engages in the highly regulated, licensed firearms
25 business is barred from selling, supplying, delivering, transferring, or giving
26 possession or control of, *any* firearm to Constitutionally Injured Legal Adults who
27

1 have an individual right to acquire, keep, and bear arms for lawful purposes, including
2 but not limited to self-defense.

3
4 10. In spite of the State of California’s clear animus towards it and those who
5 exercise it, the Second Amendment right to keep and bear arms is not a second-class
6 right. I am not aware of any other constitutionally enumerated, fundamental,
7 individual right – particularly a ‘negative right’ against government infringement –
8 that would be subject to a ban, or even significant restrictions, for legal adults under
9 the age of 21 who are not adjudicated as mentally defective, incarcerated, imprisoned,
10 subject to probation or parole, or the like. Other fundamental rights, including the
11 right to freedom of speech, protest, assembly, due process, speedy trial, and worship,
12 for example, are all fully available to law-abiding legal adults over the age of 18 and
13 under the age of 21. A ban on such rights, affecting law-abiding legal adults over the
14 age of 18 and under the age of 21, would almost certainly be fiercely rejected and
15 enjoined from enforcement.
16
17
18
19

20 11. The challenged law, including Penal Code section 27510, and
21 Defendants’ policies, practices, and customs, have denied, and will continue to deny,
22 millions of Constitutionally Injured Legal Adults their fundamental, individual right to
23 acquire, keep, and bear arms secured under the Second and Fourteenth Amendments
24 to the United States Constitution.
25
26
27
28

1 12. Attached hereto as **Exhibit 2** is a true and correct copy of the Senate
2 Committee on Public Safety (April 17, 2018) from the legislative history of the
3 challenged law (SB 1100).
4

5 13. Attached hereto as **Exhibit 3** is a true and correct copy of the Assembly
6 Committee on Public Safety, Background Information Request from the legislative
7 history of the challenged law (SB 1100).
8

9 14. Attached hereto as **Exhibit 4** is a true and correct copy of the Assembly
10 Committee on Public Safety (June 19, 2018) from the legislative history of the
11 challenged law (SB 1100).
12

13 15. Attached hereto as **Exhibit 5** is a true and correct copy of the Department
14 of Justice letter to Hon. Anthony Portantino (August 3, 2018) from the legislative
15 history of the challenged law (SB 1100).
16

17 16. I have also reviewed the Joint Case Management Statement (“CMS”)
18 submitted on October 1, 2019. Dkt. No. 11. In the CMS, Defendants’ counsel states
19 that “SB 1100’s amendments to Section 27510 provide *ample* avenues for responsible
20 adults between the ages of 18 and 20 to purchase or receive long guns by transfer.”
21 Dkt. No. 11, p. 11 (emphasis added). First, this statement highlights that section
22 27510 bans the sale, supply, delivery, and giving possession or control of *any*
23 handgun *and* any long guns (e.g., rifles, shotguns) to *any* Constitutionally Injured
24 Legal Adult 18 years of age or older who is not otherwise prohibited from acquiring
25 or possessing firearms for lawful purposes. Said differently, this constitutes an
26
27
28

1 absolute ban applicable to all ordinary, law-abiding Constitutionally Injured Legal
2 Adults in California. Second, as explained below, the exemptions listed in section
3 27510 are not “ample.” Instead, as shown below, the few section 27510 exemptions
4 amount to window dressing to blur the *de facto* ban enacted by the Legislature and
5 enforced by Defendants against all ordinary, law-abiding Constitutionally Injured
6 Legal Adults.
7
8

9 17. Section 27510 permits selling, supplying, delivering, or giving possession
10 or control of *only* rifles and shotguns to a person 18 years of age or older who:

11
12 (i) “possesses a valid, unexpired hunting license issued by the
13 Department of Fish and Wildlife;”

14 (ii) is “[a]n active peace officer . . . who is authorized to carry a firearm
15 in the course and scope of his or her employment;”

16 (iii) is “[a]n active federal officer or law enforcement agent who is
17 authorized to carry a firearm in the course and scope of his or her
18 employment”;

19 (iv) is “[a] reserve peace officer, as defined in Section 832.6, who is
20 authorized to carry a firearm in the course and scope of his or her
21 employment as a reserve peace officer;”

22 (v) is “[a] person who provides proper identification of his or her active
23 membership in the United States Armed Forces, the National Guard, the
24 Air National Guard, or active reserve components of the United States;”
25 or

26 (vi) is “[a] person who provides proper identification that he or she is an
27 honorably discharged member of the United States Armed Forces, the
28 National Guard, the Air National Guard, or the active reserve
components of the United States.”

Cal. Pen. Code § 27510(b)(1) and (b)(2) (A)-(E).

1 18. Based on my review of publically available information regarding the
2 application requirements of the various law enforcement agencies and the U.S.
3 Military, these so-called “exemptions” are not “ample” exemptions for
4 Constitutionally Injured Legal Adults to exercise a fundamental, individual right
5 (e.g., buying a firearm). As shown below, the so-called “exemptions” are a statutory
6 illusion the State fabricated in order to say that the State’s ban is not a ban, when in
7 fact the ban is indeed quite clearly an unconstitutional ban that denies
8 Constitutionally Injured Legal Adults their fundamental, individual right to keep and
9 bear arms.
10
11

12
13 19. For example, in California, based on my review of local law
14 enforcement agencies webpages, it appears that many law enforcement agencies
15 require that individuals be at least 20 years old before they are *even eligible to apply*
16 for the initial pre-hiring testing and screening requirements for law enforcement
17 training. Attached hereto as **Exhibit 6** is a true and correct copy of the San Diego
18 Sheriff’s Department “Sheriff’s Hiring Process” found on the San Diego Sheriff’s
19 website. It states the minimum age for a Deputy Sheriff Patrol position is “20 ½ years
20 of age at time of application; 21 years of age at time of appointment.” Attached
21 hereto as **Exhibits 7, 8, 9, and 10** are true and correct copies of other California law
22 enforcement agencies hiring requirements and application processes (e.g., San Diego
23 Police Department, Chula Vista Police Department, Los Angeles Police Department,
24 and Los Angeles Sheriff Department). Each of these agencies also have a minimum
25
26
27
28

1 age requirement *over 18* and as high as 20 just *to apply* for a position, and a
 2 minimum age of 21 at graduation. Additionally, after calling the California Highway
 3 Patrol (CHP) recruiting office (online at [https://www.chp.ca.gov/CHP-](https://www.chp.ca.gov/CHP-Careers/Officer)
 4 [Careers/Officer](https://www.chp.ca.gov/CHP-Careers/Officer)) at (888) 843-3275, I spoke with a CHP representative and learned
 5 that the CHP requires CHP officer applicants to be 20-years-old at the time of initial
 6 application, and cannot join their force until a qualified candidate is 21.
 7
 8

9 20. Further, San Diego Sheriff applicants must take part in and pass
 10 testing/screening to even be accepted into training.¹ For example, as a part of the San
 11 Diego Sheriff Department's application process, applicants must:
 12

- 13 (1) Fill out the initial online application;
- 14 (2) Wait for and then answer a subsequent questionnaire with 27
supplemental questions;
- 15 (3) Watch a mandatory video;
- 16 (4) Register and take a written exam;
- 17 (5) Wait 3-to-6 weeks for exam results;
- 18 (6) Upon passing the exam, applicants are placed on an "eligibility list
for one year" and if selected, they are invited to meet with a
19 background investigator to move on to the next step of the
application process;
- 20 (7) Applicants then fill out a "Prescreen Questionnaire (Personal
History Statement) and watch an additional mandatory video;
- 21 (8) Undergo and pass a comprehensive "background investigation;"
- 22 (9) Take and pass a "Computer Voice Stress Analysis" ... or
polygraph test;
- 23 (10) Take and pass an Employment Interview or "Lieutenant's
Interview;"
- 24 (11) Take and pass a "Physical Agility Test ... ;"
- 25

26 _____
 27 ¹ Based on my review of a number of California law enforcement agency websites, other
 28 law enforcement agencies also have similar application and hiring processes. *See Exhibits
 7-10.*

- 1 (12) Take and pass a “Psychological Evaluation,” which includes a
 - 2 written exam and a meeting with a psychologist;
 - 3 (13) Take and pass a medical exam; and
 - 4 (14) Applicants can then *wait to potentially receive a job offer* and be
 - 5 assigned to an academy where they will undergo further training
 - 6 only after all such requirements have been completed and passed.
- Exhibit 6.**

7 21. Completion of all the above *does not guarantee* that the applicant will

8 become an active law enforcement officer. Thus, completion of all these

9 requirements does not even guarantee the ability to purchase a firearm.

10 22. Further, for an ordinary law-abiding Constitutionally Injured Legal

11 Adult to make use of this so-called “exception,” they would have to *potentially*

12 *switch careers, apply for, and obtain a highly dangerous job that could result in their*

13 *death*. All for the ability to exercise their fundamental rights to purchase and acquire

14 a firearm for self-defense and other lawful purposes. This could hardly be considered

15 a proper exemption to Section 27510’s ban.

16 23. Similar, if not *more extreme* requirements, are required to meet another

17 section 27510 exemption — namely, becoming an “active federal officer or law

18 enforcement agent.” Attached hereto as **Exhibit 11** is a true and correct copy of the

19 eligibility and employment requirements from FBI Jobs.gov. This publicly available

20 website lists the minimum requirements to become an active special agent with the

21 Federal Bureau of Investigation (FBI). Notably, for a special agent position,

22 applicants must be at least 23 years old. **Exhibit 11.**

23

24

25

26

27

28

1 24. Moreover, similar requirements, testing, and *binding* contracts and oaths
2 are required in order to apply for and become an active member of the armed
3 services. Attached hereto as **Exhibit 12** is a true and correct copy of “Today’s
4 Military – Enlisting in the Military”, which depicts the general requirements to enlist
5 in the military. For example, to enlist in the military, applicants must:
6

- 7
- 8 (1) Visit a Military Entrance Processing Station (MEPS). “The MEPS
9 is a joint service organization that determines an applicant’s
10 physical qualifications, aptitude and moral standards as set by
11 each branch of military service.” Each MEPS is staffed with
12 military and civilian professionals who carefully screen each
13 applicant to ensure they meet the physical, academic, and moral
14 standards set by each Service.” **Exhibit 12.**
 - 15 (2) Take the Armed Services Vocational Aptitude Battery (ASVAB).
16 The ASVAB is a 3-hour multiple choice exam that “helps
17 determine the careers for which an individual is best suited” and
18 “has questions about standard school subjects like math, English,
19 writing, and science.” **Exhibit 12.**
 - 20 (3) Take and pass the physical exam
 - 21 (4) Meet with a service enlistment counselor to find a job specialty.
 - 22 (5) Take the Oath of Enlistment. “In this statement, you vow to
23 defend the United States Constitution and obey the Uniform Code
24 of Military Justice (UCMJ).” Specifically, it states:
25 *I, (name), do solemnly swear (or affirm) that I will support and
26 defend the Constitution of the United States against all enemies,
27 foreign and domestic; that I will bear true faith and allegiance
28 to the same; and that I will obey the orders of the president of
the United States and the orders of the officers appointed over
me, according to regulations and the Uniform Code of Military
Justice. So help me God.*
 - (6) Afterwards, applicants will do one of two things, depending on the
terms of their enlistment: (i) *Direct Ship*: Report to basic training
shortly after completing MEPS testing requirements. (It varies
based on job assignment and branch.) A recruiter will provide
instructions on transportation to basic training at this time; or (ii)
Delayed Entry Program (DEP): Commit to basic training at a
time in the future, generally within one year. **Exhibit 12.**

1 25. Depending on the applicant’s job assignment and branch of the armed
2 services, they will have to complete, at minimum, some form of basic training.

3
4 26. I have also reviewed publically available information regarding basic
5 training in the U.S. Army. Attached hereto as **Exhibit 13** is a true and correct copy
6 of Military.com - “What to Expect In Army Boot Camp.”

7
8 27. The requirements to take and pass Army basic training are extremely
9 extensive and dangerous. For example, Army basic training is a 10-week course in
10 which applicants learn Army rules, regulations and processes in classroom
11 instruction. They are required to conduct daily physical fitness, marksmanship
12 training, as well as courses on map reading and first aid. Additionally, applicant must
13 take and pass the “Basic Rifle Marksmanship Qualification Course” and “Fit to Win
14 Obstacle Course.” Later, hand grenade training, live fire exercises, and foot marching
15 are all tested in the “Confidence Course.” In Week 8, applicants take part in “combat
16 skill development” right before taking part in the final test of a three-day field retreat
17 to Victory Forge. After 10 weeks of training, applicants may graduate and then can
18 be assigned to any part of the country for service. **Exhibit 13.**

19
20
21
22 28. Again, this could hardly be considered an “ample” exemption. This
23 exemption requires a binding military service contract that can last for years, weeks
24 of initial training that is both demanding and dangerous, and potential to be relocated
25 anywhere in the country for service. It also has the potential of requiring the
26 individual to take part in and fight in wars. Again, all of this is required for a
27
28

1 Constitutionally Injured Legal Adult to meet one of the State’s illusory exemptions in
2 order to buy a gun. As shown above, the section 27510 exemptions are extremely
3 narrow, and inapplicable to all ordinary, law-abiding Constitutionally Injured Legal
4 Adults in California.
5

6 29. Section 27510 also permits “[a] [Constitutionally Injured Legal Adult] who
7 provides proper identification that he or she is an honorably discharged member of
8 the United States Armed Forces, the National Guard, the Air National Guard, or the
9 active reserve components of the United States” to purchase a firearm. However, that
10 individual must still complete the numerous requirements and tests stated above, *and*
11 *then be honorably discharged* in order to be able to use this exemption. Again, this
12 does not apply to ordinary, law-abiding Constitutionally Injured Legal Adults.
13 Further, by the time that individual is honorably discharged, they are likely over 21
14 years of age, rendering the exemption an illusion.
15
16
17

18 30. Thus, 5 of 6 of the State’s illusory emptions to the section 27510 ban
19 have: (i) minimum age requirements, (ii) minimum education requirements, (iii)
20 physical fitness requirements, (iv) binding Military Service commitments (which are
21 subject to criminal penalties if violated), (v) mandatory involvement in highly
22 dangerous activities and training, (vi) psychological testing, (vii) and relocation. This
23 list is not exhaustive. And more, even if a Young Adult applicant were to meet the
24 requirements and pass the tests, they could still not obtain the desired position and,
25 therefore, not meet the illusory section 27510 exemptions. To be sure, these are not
26
27
28

1 actual and accessible exemptions, but rather *additional restrictions and tests* required
2 by the State and enforced by Defendants to exercise the fundamental right to keep
3 and bear arms for self-defense and other lawful purposes—and thus unconstitutional
4 restrictions under the Second Amendment.
5

6 31. Even Section 27510’s “most accessible”² exemption – i.e., meeting all
7 of the requirements, making all payments for costs and fees, and passing tests – to
8 “possesses a valid, unexpired hunting license issued by the Department of Fish and
9 Wildlife” is irrelevant and inapplicable to the ordinary, law-abiding Constitutionally
10 Injured Legal Adult who wishes to purchase a firearm for self-defense in the home
11 and other lawful purposes, including but not limited to proficiency training and
12 competition at shooting ranges.
13
14
15

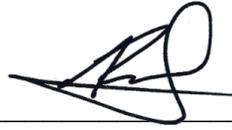

16 32. A person cannot merely go and purchase a hunting license “over the
17 counter” without meeting significant requirements and requiring the individuals
18 significant time and money. *See Bogan Declaration* filed concurrently herewith.
19 Constitutionally Injured Legal Adults should not have to feign an interest in, pay for,
20 and take a *hunting safety and conservation course* or acquire a hunting license when
21 they have no interest or intent to hunt.
22
23
24
25

26 ² In this instance, the term “most accessible” is only used to identify that the
27 exemption listed in section 27510(b)(1) — requiring a valid hunting license — *is the*
28 *only exemption that does not require a Constitutionally Injured Legal Adult to enter*
into a highly dangerous career.

1 I declare under penalty of perjury that the foregoing is true and correct.

2 Executed within the United States on October 3, 2019.

AMENDMENT DATE: 06/28/2018
POSITION: Oppose

BILL NUMBER: SB 1100
AUTHOR: Portantino, Anthony

BILL SUMMARY: Firearms: transfers.

This bill prohibits the sale or transfer of any firearm by a licensed dealer to any person under 21 years of age, except as specifically exempted.

FISCAL SUMMARY

The Department of Justice estimates costs of \$342,000 and 3.0 positions in fiscal year 2018-19, \$654,000 in 2019-20, and \$556,000 in 2020-21 and ongoing to administer this bill. Specifically, the California Justice Information Services Division requires 3.0 positions and additional staff time to address the expected increase in arrest prints, update departmental documentation and procedures, and the ongoing maintenance support for the required systems. The Bureau of Firearms also requires additional staff time to update existing regulations. The Dealers' Record of Sale Special Account, which collects fees imposed on firearm purchasers, currently has a structural deficit and is unable to cover the costs of this bill. Therefore, this bill creates a General Fund cost pressure to fund these activities. Any request for additional resources will be evaluated through the annual budget process.

The Department of Justice anticipates annual revenue loss of \$152,000 to the Dealers' Record of Sale Special Account, \$75,000 to the Firearms Safety and Enforcement Special Fund, and \$8,000 to the Firearm Safety Account due to a reduction in Dealers' Record of Sale submissions and Firearms Safety Certificates resulting from the increased minimum age to purchase firearms. The major revenue sources for these funds are fees imposed on the firearms purchasing process, course fees, duplicate certificate fees, and test fees.

By expanding the definition of an existing crime, this bill would have an impact on the county jail population. Under certain circumstances, the California Constitution requires the state to reimburse local entities for the increased costs associated with a state-imposed program that requires local entities to implement a new program or provide a higher level of service. Any local government costs resulting from the mandate in this measure would not be state-reimbursable because the mandate only involves the definition of a crime or the penalty for conviction of a crime. We note this measure could, however, impose new costs and workload on counties, which creates additional fiscal pressure on the local criminal justice system.

COMMENTS

The Department of Finance is opposed to this bill because it expands an existing crime which would lead to additional cases entering the court system, increase the statewide adult jail population, and impact the ability of counties to manage their offender population since certain lower-level offenders now serve their sentence in county jails and/or are supervised by county probation departments. To successfully implement public safety realignment, counties must have maximum flexibility in allocating their public safety resources. New laws that impose additional criminal sanctions at this critical time will further strain the

COMMENTS (continued)

local criminal justice system by imposing additional fiscal pressure on county public safety resources. In addition, this bill creates General Fund cost pressures that are not included in the Administration's fiscal plan.

Existing law prohibits the sale or transfer of a handgun, except as specifically exempted, to any person under 21 years of age. Existing law also prohibits the sale or transfer of a firearm, other than a handgun, except as specifically exempted, to any person under 18 years of age. This bill would prohibit the sale or transfer of any firearm by a licensed dealer, except as specifically exempted, to any person under 21 years of age.

Existing law also requires a person who wishes to manufacture or assemble a firearm to first apply to the Department of Justice for a unique serial number or other identifying mark. Applicants must be at least 18 years of age for a firearm that is not a handgun, and at least 21 years of age for a firearm that is a handgun. This bill instead requires an applicant to be at least 21 years of age for any firearm, except that applications made before February 1, 2019, can be granted for an applicant who is at least 18 years of age but less than 21 years of age for a firearm that is not a handgun.

This bill also includes specific exemptions to these prohibitions, including, among others, an active peace officer who is authorized to carry a firearm in the course and scope of his or her employment.

According to the author's office, raising the age limit to 21 years of age to purchase a firearm insures we as Californians are taking proper steps toward public safety.

SENATE COMMITTEE ON PUBLIC SAFETY

Senator Nancy Skinner, Chair

2017 - 2018 Regular

Bill No: SB 1100 **Hearing Date:** April 17, 2018
Author: Portantino
Version: March 19, 2018
Urgency: No **Fiscal:** Yes
Consultant: GC

Subject: *Firearms: Transfers*

HISTORY

Source: Author

Prior Legislation: AB 1674 (Santiago), 2015, vetoed
AB 202 (Knox), Ch. 128, Stats. of 1999

Support: California Chapters of the Brady Campaign; Giffords Law Center to Prevent Gun Violence

Opposition: Firearms Policy Coalition

PURPOSE

The purpose of this bill is to extend the prohibition on purchasing more than one handgun a month to include all firearms and increases the age from 18 to 21 years for a person to purchase a firearm from a licensed dealer.

Existing law prohibits a person from making more than one application to purchase a handgun within any 30-day period. (Pen. Code § 27535.)

Existing law prohibits a firearms dealer from delivering a handgun to a person whenever the dealer is notified by the Department of Justice that within the preceding 30-day period the purchaser has made another application to purchase a handgun that does not fall within an exception to the 30-day prohibition. A violation of that delivery prohibition by the dealer is a crime. (Pen. Code § 27540.)

This bill extends the prohibition on purchasing more than one handgun a month to all firearms, including long guns.

Existing law exempts the following from the one handgun a month prohibition: (Pen. Code, § 27535, subd. (b).)

- Any law enforcement agency.
- Any agency duly authorized to perform law enforcement duties.
- Any state or local correctional facility.

- Any private security company licensed to do business in California.
- Any person who is properly identified as a full-time paid peace officer and who is authorized to, and does carry a firearm during the course and scope of employment as a peace officer.
- Any motion picture, television, or video production company or entertainment or theatrical company whose production by its nature involves the use of a firearm.
- Any person who may make a valid claim an exemption from the waiting period set forth in Section 27540.
- Any transaction conducted through a licensed firearms dealer pursuant to Chapter 5 (commencing with Section 28050).
- Any person who is licensed as a collector and has a current certificate of eligibility issued by the Department of Justice.
- The exchange of a handgun where the dealer purchased that firearm from the person seeking the exchange within the 30-day period immediately preceding the date of exchange or replacement.
- The replacement of a handgun when the person's handgun was lost or stolen, and the person reported that firearm lost or stolen prior to the completion of the application to purchase to any local law enforcement agency of the city, county, or city and county in which the person resides.
- The return of any handgun to its owner.
- A community college that is certified by the Commission on Peace Officer Standards and Training to present the law enforcement academy basic course or other commission-certified law enforcement training.

This bill adds the following exceptions to the one gun a month prohibition:

- The purchase of a firearm, other than a handgun, by a person who possesses a valid, unexpired hunting license issued by the Department of Fish and Wildlife.
- The acquisition of a firearm, other than a handgun, at an auction or similar event conducted by a nonprofit public benefit or mutual benefit corporation to fund the activities of that corporation or local chapters of that corporation.

Existing law prohibits the sale or transfer of a handgun, except as specifically exempted, to any person below the age of 21 years. (Pen. Code § 27510.)

Existing law also prohibits the sale or transfer of a firearm, other than a handgun, except as specifically exempted, to any person below the age of 18 years. (Pen. Code § 27510.)

This bill prohibits the sale or transfer by a licensed dealer of a long gun to a person below the age of 21 years, increasing the age from 18 years to 21 years of age. The bill exempts long gun purchases or transfers when the purchaser or transferee has a valid, unexpired hunting permit.

COMMENTS

1. Need for This Bill

According to the author:

While handguns are used in the majority of gun deaths, long guns have been used to perpetrate many of the largest mass shootings in U.S. history, including the tragic event that took place in San Bernardino, California.

California is home to the most stringent gun laws in the county. One example is requiring an individual to be 21 years of age in order to purchase a handgun. Another is the general limitation on a gun dealer delivery of only one handgun to an individual in a 30 day period.

Since these laws have taken effect, data shows that there has been a successful reduction in the incidence of gun trafficking while not burdening legitimate gun owners or persons who wish to acquire guns.

In order to be uniformly consistent, California should apply the 30 day delivery period and 21 year age limit to long guns.

Firearms will not be delivered whenever the dealer is notified by the DOJ that within the preceding 30-day period the purchaser has made another application to purchase a firearm. In addition, because of the interaction of state and federal law, receivers or frames (the gun minus the barrel) are also applicable to the 30-day purchase period. This bill will also define a frame or a receiver of a firearm.

Lastly, this bill would also prohibit the sale or transfer of any firearm by a licensed dealer, except as specially exempted, to any person below the age of 21 years.

2. One Gun a Month

According to the Senate Public Safety Analysis of Assembly Bill 202 (Knox, of 1999), which created the one-handgun-a-month law in California:

The State of Virginia enacted a "one-handgun-a-month" law in 1993 (before the Federal Brady Bill, which required at least a five day waiting period plus a background check for states without such requirements). That state had weak restrictions on handgun sales and it has been stated that gun traffickers from New York City routinely traveled to Virginia to purchase quantities of weapons to take back for illegal sale in other states. Purchases of more than one handgun per 30-day period in Virginia is allowed upon completion of an "enhanced" background check when the purchase is for lawful business or personal use, for purposes of collectors, bulk sales and purchases from estates, to replace a lost or stolen weapon, and similar situations.

Supporters of limits on purchases of handguns assume that the Virginia limits and the limits in this bill would only affect a very small proportion of legitimate handgun purchasers. A family of two adults could still purchase 24 handguns a year under the provisions of both this bill and the Virginia law.

Virginia repealed this law in 2012. But, according to the Law Center to Prevent Gun Violence:

Virginia's one-gun-a-month law – which was in effect from 1993 to 2012 and prohibited the purchase of more than one handgun per person in any 30-day period – significantly reduced the number of crime guns traced to Virginia dealers. Virginia initially adopted its law after the state became recognized as a primary source of crime guns recovered in states in the northeastern U.S. After the law's adoption, the odds of tracing a gun originally acquired in the Southeast to a Virginia gun dealer (as opposed to a dealer in a different southeastern state) dropped by:

- 71% for guns recovered in New York;
- 72% for guns recovered in Massachusetts; and
- 66% for guns recovered in New Jersey, New York, Connecticut, Rhode Island and Massachusetts combined.

(<http://smartgunlaws.org/multiple-purchases-sales-of-firearms-policy-summary/> [footnotes omitted].)

Other states that have limits on the number of firearms that can be sold in one month include:

- California: California law prohibits any person from purchasing more than one handgun within any 30-day period. In addition, a licensed firearms dealer may not deliver a handgun to any person following notification from the California Department of Justice that the purchaser has applied to acquire a handgun within the preceding 30-day period. Finally, firearms dealers must conspicuously post in their licensed premises a warning, in block letters at least one inch in height, notifying purchasers of these restrictions.
- District of Columbia: A person may not register more than one handgun in the District during any 30-day period. Since every handgun must be registered, this amounts to a purchase and sale limitation of one handgun per 30-day period. . .
- Maryland: Maryland prohibits any person from purchasing more than one handgun or assault weapon within a 30-day period. Under limited circumstances, a person may be approved by the Secretary of the Maryland State Police to purchase multiple handguns or assault weapons in a 30-day period. Maryland also penalizes any dealer or other seller who knowingly participates in an illegal purchase of a handgun or assault weapon. . .
- New Jersey: New Jersey prohibits licensed firearms dealers from knowingly delivering more than one handgun to any person within any 30-day period. With limited exceptions, no person may purchase more than one handgun within any 30-day period. New Jersey requires a handgun purchaser to obtain a separate permit for

each handgun purchased, and present the permit to the seller. The seller must keep a copy of each permit presented.

(<http://smartgunlaws.org/multiple-purchases-sales-of-firearms-policy-summary/>[footnotes omitted].)

Senate Bill 1674 (Santiago), of 2015: Veto Message

The Governor stated in his veto message of Senate Bill 1674, which would have prohibited any person from making an application to purchase more than one firearm within any 30-day period:

This bill generally prohibits the purchase of more than one firearm within any 30-day period. It should be noted that California already bans the purchase of more than one handgun per month.

While well-intentioned, I believe this bill would have the effect of burdening lawful citizens who wish to sell certain firearms that they no longer need.

Given California's stringent laws restricting gun ownership, I do not believe this additional restriction is needed.

3. Increasing the Age for Purchase of Long Guns

This bill would increase the minimum age from 18 to 21 years for a person to purchase all firearms in California. The age restriction would also impact the ability to transfer a weapon. Under current law a person must be 21 years of age to purchase a handgun, and this bill applies those same rules to the purchase and transfer of all firearms (including long guns). The bill creates an exception to this rule when the purchaser or transferee has a valid, unexpired hunting license issued by the Department of Fish and Wildlife.

On February 14, 2018 Nikolas Cruz shot and killed seventeen people and wounded an additional seventeen people at Marjory Stoneman Douglas High School in Parkland, Florida. The perpetrator was 19-years old at the time of the incident, and he used assault rifles. Following the incident Florida passed legislation to increase the minimum age for buying rifles to 21-years. The National Rifle Association challenged the law and filed a lawsuit in the United States District court for the Northern District of Florida alleging that the ban on gun sales to people under 21 years of age is unconstitutional because it violates their rights under the Second and Fourteenth Amendments to the U.S. Constitution because 18-year-olds are classified as adults.

On March 1, 2018 George Skelton wrote an editorial for the LA Times¹ on this bill. He stated the following regarding this provision:

In Sacramento, state Sen. Anthony Portantino (D-La Cañada Flintridge) proposes taking an even bigger step. He introduced legislation Wednesday to increase the legal age to 21 in California for buying any gun, including a shotgun or rifle with low ammo capacity. A shooter with a hunting license would be exempt because he'd taken a gun safety course.

¹ <http://www.latimes.com/politics/la-pol-ca-skelton-guns-schools-teachers-20180301-story.html>

What about a skeet shooter? Or someone who just likes to plink tin cans out by the barn?

Doesn't make sense that an 18-year-old can enlist in the Army and be armed with an automatic M-16 to fight terrorists, but can't buy a bolt-action plinker back home until he's 21.

In Florida, where the gun lobby usually prevails in the Legislature, a House committee bucked the NRA on Tuesday and approved a bill to raise the rifle-buying age from 18 to 21. This came after emotional testimony from parents of students killed in the school shooting.

The committee also voted to allow arming of teachers. But it rejected a ban on assault weapons.

Everyone needs to get their priorities straight: Let the teachers teach. Treat 18-year-olds like adults. Get rid of all assault weapons.

However, there are a number of instances when lawmakers have limited the ability of person's under the age of 21 to engage in activities which are otherwise lawful. Notably, persons under the age of 21 are not allowed to ingest alcohol or marijuana under California law.

4. California Hunting Licenses

This bill creates an exemption from the prohibition on persons under the age of 21 purchasing or receiving a long gun if the person under the age of 21 has a valid, unexpired hunting license. In order to obtain a hunting license in California a person must:

- Complete the California Hunter Education Certification requirements
- Choose the correct type of hunting license.
- Purchase a license through the California Department of Fish and Wildlife website or a California approved agent.

The Official California Hunter Safety Course is an online course that costs \$28.95. There is no minimum age for the course. The course requires a follow-up course that is a 4-hour review of the online course with a certified hunter education instructor. The course includes a student demonstration of safe firearm handling and a test. Following completion of the follow-up course the enrollee receives a Hunter Education Certificate.

5. Argument in Support

According to the California Chapters of the Brady Campaign:

The California Brady Campaign generally believes that handguns and long guns (rifles, shotguns and lower receivers) should be subject to the same laws. Modern sporting rifles are often high powered semi-automatic weapons with exchangeable magazines that can pose a greater threat than handguns. In the early 1990s, it was thought that handguns made up an overwhelming share of crime guns, but the data shows that is no longer the case. Of the 26,682 crime guns entered into the

Department of Justice Firearms Systems database in 2009, 11,500 were long guns.ⁱ

Existing law prohibits the sale or transfer of a handgun to a person below the age of 21 years. SB 1100 will similarly prohibit, with exceptions, the sale or transfer of a long gun by a licensed firearm dealer to a person under age 21. Additionally, the bill will require those who manufacture or assemble a long gun to be at least 21 years old in order to obtain a serial number for the firearm and register it with the California Department of Justice. These provisions makes sense as those under age 21 are disproportionately linked to crime. In 2015, 23.4 percent of those arrested for murder and non-negligent manslaughter in the U.S. were under 21ⁱⁱ and 26.5 percent of those arrested for “weapons carrying, possession, etc.” were under age 21.ⁱⁱⁱ Individuals age 18 to 20 comprise only 4% of the population but commit 17% of gun homicides.^{iv}

Maturity, impulsive or reckless behavior, and responsibility vary greatly among 18-20 year olds. This is recognized in other areas – those under age 21 cannot buy alcohol, rent a car, or purchase a handgun – and the same age restriction should apply to long guns.

Additionally, SB 1100 will limit purchases of long guns from licensed firearms dealers in California to no more than one gun per person per 30-day period, with appropriate exemptions. This is current law for handguns and is a recognized strategy for curbing the illegal flow of guns by taking the profit out of selling guns from bulk purchases on the black market. It stands to reason that a person buying large quantities of guns at one time may be acting as a straw purchaser or gun trafficker. Moreover, many of these bulk purchases are for lower receivers, which can be built up into military-style weapons and sold for a big profit. Firearms acquired in bulk are frequently used in crime. A University of Pennsylvania report found that a quarter of all guns used in crime were purchased as part of a multiple-gun sale and that guns purchased in bulk were up to 64% more likely to be used for illegal purposes than guns purchased individually.^v Limiting multiple-gun sales within a short period of time for all firearm, including long guns, is clearly in the interest of public safety.

AB 3 (Bonta) -2018

AB 1674 (Santiago)-2015

AB 202 (Knox) – 1999

BACKGROUND:

1) What is the problem or deficiency in existing law which this bill will remedy?

While handguns are used in the majority of gun deaths, long guns have been used to perpetrate many of the largest mass shootings in U.S. history, including the tragic event that took place in San Bernardino, California.

California is home to the most stringent gun laws in the country. One example is requiring an individual to be 21 years of age in order to purchase a handgun. Another is the general limitation on a gun dealer delivery of only one handgun to an individual in a 30 day period.

Since these laws have taken effect, data shows that there has been a successful reduction in the incidence of gun trafficking while not burdening legitimate gun owners or persons who wish to acquire guns.

In order to be uniformly consistent, California should apply the 30 day delivery period and 21 year age limit to long guns.

Firearms will not be delivered whenever the dealer is notified by the DOJ that within the preceding 30-day period the purchaser has made another application to purchase a firearm. In addition, because of the interaction of state and federal law, receivers or frames (the gun minus the barrel) are also applicable to the 30-day purchase period. This bill will also define a frame or a receiver of a firearm.

Lastly, this bill would also prohibit the sale or transfer of any firearm by a licensed dealer, except as specially exempted, to any person below the age of 21 years.

2) If there has been an interim committee report, study, news article, statistic or other evidence on the bill, please submit copies and/or links of these materials to the Committee.

none.

3) Are there any similar federal legislation or related bills or laws in other states? Please attach or provide any information and links, as appropriate.

4) Please include an author's statement as you wish it to appear on the committee analysis:

Raising the age limit to 21 years of age to purchase a firearm and having the one gun a month law apply to all firearms insures we as Californians are taking proper steps toward public safety. While Washington continues to be unable to pass prudent gun legislation it is imperative that California steps up. Young people across America are demanding that legislators respond to the crisis of gun violence on campuses. As a dad and a legislator I am determined to build on their leadership and help California act appropriately.

ASSEMBLY COMMITTEE ON PUBLIC SAFETY
Reginald Byron Jones-Sawyer, Sr., Chair

SB 1100 (Portantino) – As Amended June 11, 2018

SUMMARY: Increases the age for which a person can purchase a long-gun from a licensed dealer from 18 to 21 years of age, except as specified. Specifically, **this bill:**

- 1) Exempts the sale of a firearm, that is not a handgun, to the following persons that are 18 years of age or older:
 - a) A person who possesses a valid, unexpired hunting license issued by the Department of Fish and Wildlife;
 - b) An active peace officer, who is authorized to carry a firearm in the course and scope of his or her employment;
 - c) An active federal officer, or law enforcement agent, who is authorized to carry a firearm in the course and scope of his or her employment;
 - d) A reserve peace officer, who is authorized to carry a firearm in the course and scope of his or her employment; and,
 - e) An active member of the United States Armed Forces, the National Guard, the Air national Guard, or the active reserve components of the United States, where the individuals in these organizations are properly identified. Proper identification includes the Armed Forces Identification Card or other written documentation certifying that the individual is an active or honorably retired member.
- 2) Makes conforming changes to the age requirements for an application for the granting of serial number by DOJ to persons wishing to manufacture or assemble a firearm.

EXISTING LAW:

- 1) Prohibits the sale or transfer of a handgun, except as specifically exempted, to any person below the age of 21 years. (Pen. Code § 27510.)
- 2) Prohibits any person from making an application to purchase more than one handgun within any 30-day period. (Pen. Code, § 27535, subd. (a).)
- 3) Exempts from the above 30-day prohibition any of the following:
 - a) Any law enforcement agency;

- b) Any agency duly authorized to perform law enforcement duties;
 - c) Any state or local correctional facility;
 - d) Any private security company licensed to do business in California;
 - e) Any person who is a peace officer, as specified, and is authorized to carry a firearm in the course and scope of employment;
 - f) Any motion picture, television, video production company or entertainment or theatrical company whose production by its nature involves a firearm;
 - g) Any authorized representative of a law enforcement agency, or a federally licensed firearms importer or manufacturer;
 - h) Any private party transaction conducted through a licensed firearms dealer;
 - i) Any person who is a licensed collector and has a current certificate of eligibility issued by the Department of Justice (DOJ);
 - j) The exchange, replacement, or return of a handgun to a licensed dealer within the 30-day period; and,
 - k) A community college that is certified by the Commission on Peace Officer Standards and Training (POST) to present law enforcement academy basic course or other commission-certified training. (Pen. Code, § 27535, subd. (b).)
- 4) Prohibits a handgun from being delivered when a licensed firearms dealer is notified by the DOJ that within the preceding 30-day period the purchaser has made another application to purchase a handgun and the purchase was not exempted, as specified. (Pen. Code, § 27540, subd. (f).)
- 5) Provides that the penalties for making more than one application to purchase a handgun within any 30-day period is as follows:
- a) A first violation is an infraction punishable by a fine of fifty dollars (\$50);
 - b) A second violation is an infraction punishable by a fine of one hundred (\$100); and,
 - c) A third violation is a misdemeanor. (Pen. Code, § 27590, subd. (e)(1)-(3).)

FISCAL EFFECT: Unknown

COMMENTS:

- 1) **Author's Statement:** According to the author, "Raising the age limit to 21 years of age to purchase a firearm and having the one gun a month law apply to all firearms insures we as Californians are taking proper steps toward public safety. While Washington continues to be unable to pass prudent gun legislation it is imperative that California steps up. Young people

across America are demanding that legislators respond to the crisis of gun violence on campuses. As a dad and a legislator I am determined to build on their leadership and help California act appropriately."

- 2) **Argument in Support:** According to the *California Chapters of the Brady Campaign to Prevent Gun Violence*, "Existing law prohibits the sale or transfer of a handgun to any person below the age of 21 years. SB 1100 will similarly prohibit, with exceptions, the sale or transfer of a long gun by a licensed firearm dealer to a person under age of 21. Additionally, the bill will require those who manufacture or assemble a long gun to be at least 21 years old in order to obtain a serial number for the firearm and register it with the California Department of Justice. These provisions makes sense as those under age 21 are disproportionately linked to crime. In 2015, 23.4 percent of those arrested for murder and non-negligent manslaughter in the U.S. were under 21 and 26.5 percent of those arrested for "weapons carrying, possession, etc." were under age 21. Individuals age 18 to 20 compromise only 4% of the population but commit 17% of gun homicides. "Maturity, impulsive or reckless behavior, and responsibility vary greatly among 18-20 year olds. This is recognized in other areas – those under age 21 cannot buy alcohol, rent a car, or purchase a handgun – and the same age restriction should apply to long guns.

- 3) **Argument in Opposition:** According to the *Outdoor Sportsmen's Coalition of California*, "SB 1100 would needlessly raise the age for purchasing a rifle or shotgun from 18 to 21onth.

"Rather than raise the minimum age for lawful individuals to purchase a rifle or shotgun, or limit such purchases to one firearm per month, experience with mass homicides and other crimes involving firearms has clearly shown that the focus should be on preventing criminals and individuals suffering from mental illness from acquiring firearms, not on those who are not a part of the problem.

"Persons who have an intent to commit such crimes, or other illegal acts involving the use of a firearm, will always be able to obtain firearms through unlawful sources without going through a licensed firearms dealer.

"The restrictions proposed in SB 1100 will not prevent it.

- 4) **Related Legislation:** AB 3 (Bonta) is similar to this bill in that it prohibits the sale of any firearm to a person under 21 years of age. AB 3 is pending hearing in the Senate public Safety Committee.

The Honorable Anthony Portantino
State Capitol, Room 3086
Sacramento, CA 95814

RE: Minimum Age Requirement for Long Guns (SB 1100): SUPPORT

Dear Senator Portantino:

On behalf of Attorney General Xavier Becerra, I am pleased to inform you that the California Department of Justice (DOJ) supports SB 1100 (Portantino). This bill would help protect our schools and communities by prohibiting a person under 21 from purchasing or possessing long guns, such as semi-automatic rifles.

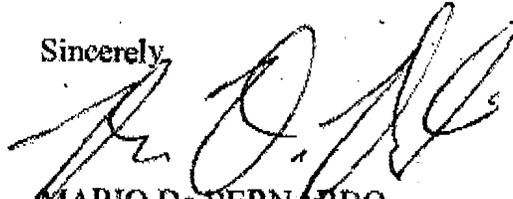

Under California law, the minimum age requirement to purchase or possess a handgun is 21 years of age. However, the minimum age requirement to purchase or possess a long gun is 18. While handguns are used in the majority of gun deaths, long guns have been used to carry out many of the largest mass shootings in U.S. history. Moreover, mass shootings carried out at schools are generally committed by people under 21—e.g., Nikolas Cruz (Stoneman Douglas High School, 17 killed); Dimitrios Pagourtzis (Santa Fe High School, 10 killed); Adam Lanza (Sandy Hook Elementary School, 27 killed); Jeff Weise (Red Lake High School, 9 killed); and Eric Harris and Dylan Klebold (Columbine High School, 13 killed).

Our country's tragic history of mass shootings clearly demonstrates that long guns are as dangerous as handguns, especially in the hands of minors. In recognition of this, SB 1100 would bring parity to California's gun laws by setting the minimum age requirement to purchase or possess a long gun to 21—the same requirement for handguns.

The Attorney General is honored to support this common sense measure. If you have any questions or comments for DOJ, please do not hesitate to contact me.

The Honorable Anthony Portantino

Join the
San Diego County Sheriff's Department (/index.html)

Sheriff's Hiring Process

STEP 1. Fill out online application/Complete Questionnaire/View Video. It is highly suggested that you apply for both positions IF YOU QUALIFY so check both positions on the application. The County of San Diego Department of Human Resources will send you an email inviting you to fill out a questionnaire with 27 supplemental questions along with instructions on how to view a mandatory video with words from the Sheriff. (Please note: The Apply links in the left column will bring you to the County of San Diego Department of Human Resources web site).

NOTE: Upon successful completion of viewing the video and answering the questionnaire, your application will be submitted, processed and validated to ensure you meet the minimum requirements. This can take several weeks.

STEP 2. Written Exam (Relative weight 100%). Upon successful completion of STEP 1 the County of San Diego Department of Human Resources will contact you via email inviting you to register for the California P.O.S.T. written exam. The email notice will have instructions on how to register. It is one exam for both positions, so register for one exam only! Results take approximately 3-6 weeks. Upon passing the exam, you will be placed on the eligibility list for one year. If selected, you will be invited to meet with a background investigator to complete the next step (STEP 3).

STEP 3. Prescreen questionnaire/Personal History Statement. The County of San Diego Department of Human Resources will send you an email inviting you to fill out a Prescreen Questionnaire (Personal History Statement) and instructions on how to view an additional mandatory video with words from the Sheriff.

STEP 4. Comprehensive Background Investigation. You will be assigned a Background Investigator.

STEP 5. Computer Voice Stress Analysis (CVSA) and Employment Interview. Truth verification exam (type of polygraph) and employment interview (Lieutenant's Interview).

STEP 6. Physical Agility Test (PAT). See FAQ page for details.

STEP 7. Psychological Evaluation. You will fill out a written exam and meet with a psychologist.

STEP 8. Medical Exam

STEP 9. Job Offer. You receive a job offer and be assigned to attend an academy and attend a new hire orientation.

STEPS 5 - STEPS 8 may not be completed in numerical order due to scheduling of events.

Minimum Requirements

Deputy Sheriff Patrol:

- 20 ½ years of age at time of application; 21 years of age at time of appointment. (There is no maximum age limit)
- U.S. citizen *or* Resident Alien in the process of becoming a U.S. citizen
- U.S. High School graduate or G.E.D.
- No felony convictions. Not on Probation. Misdemeanors may be disqualifying depending on the number, type of violation, and date of the violation.
- Vision: 20/100 uncorrected, corrected to at least 20/30
- Valid California Drivers License prior to appointment. Valid photo ID to take the written exam.
- Effective oral and written communications in English.

Deputy Sheriff Detentions/Courts:

- 18 years of age at the time of the test. (There is no maximum age limit)
- U.S. citizen *or* Resident Alien in the process of becoming a U.S. citizen
- U.S. High School graduate or G.E.D.
- No felony convictions. Not on Probation. Misdemeanors may be disqualifying depending on the number, type of violation, and date of the violation.
- Vision: 20/100 uncorrected, corrected to at least 20/30

Police

Police Officer Requirements

Before you begin the process for [Police Officer \(/police/recruiting/opportunities/policeofficer/\)](/police/recruiting/opportunities/policeofficer/), carefully review the [hiring process \(/join-san-diego-police-department/\)](/join-san-diego-police-department/).

- [Possible Disqualifiers for Police Officers/Recruits \(/sites/default/files/legacy/police/pdf/possibledisqualifiers.pdf\)](/sites/default/files/legacy/police/pdf/possibledisqualifiers.pdf)

General

U.S. citizenship or permanent resident who is eligible and has applied for U.S. citizenship prior to the application for employment.

Minimum Age

20 years of age on the day you take the Written Test; 21 at time of Academy graduation (No maximum age limit).

Education

- Graduation from a high school located within the United States or a U.S. territory;
- OR passage of the California High School Proficiency Examination OR G.E.D. with scores that meet the California standard established by the American Council on Education;
- OR possession of a two- or four-year degree from an accredited college or university. (Accreditation must be from an institutional accrediting body that has been recognized by the Council on Post-secondary Accreditation.)

Candidates screened by the Police Department must present proof of education when they submit their "Personal History Statement" ([Word \(/sites/default/files/legacy/police/pdf/phs.doc\)](/sites/default/files/legacy/police/pdf/phs.doc) [PDF \(/sites/default/files/legacy/police/pdf/phs.pdf\)](/sites/default/files/legacy/police/pdf/phs.pdf)).

License

A valid California Class C Driver's License, which permits you to drive an automobile, will be required at the time of hire.

Typing Certificate

Since Police Officers routinely use laptop computers, candidates must demonstrate typing ability. An ORIGINAL typing certificate indicating the ability to type at a corrected speed of 30 words per minute on a typewriter or computer keyboard must be submitted during the Police Department's Background Investigation Process. The certificate must be issued under International Typing Contest Rules and specify the net and gross speed, the number of errors and that the test was five minutes or longer. Certificates specifying more than five errors will not be accepted. Individuals who are serving or have served in City of San Diego job classifications that meet or exceed the minimum typing requirements need not submit a typing certificate. Internet typing tests will not be accepted.

Typing tests are given at, but you are not limited to, the following locations: (Call individual centers for further information.)

Opening Date/Time: Sat. 09/14/19 12:00 AM Pacific Time

Closing Date/Time: Fri. 12/13/19 11:59 PM Pacific Time

Salary: \$5,268.27 - \$5,531.67 Monthly

Job Type: Permanent, Full-Time

Location: Chula Vista, California

Department: Police

[Print Job Information](#) | [Apply](#)

Description and Essential Functions	Benefits	Supplemental Questions
<p>To learn and participate in established curriculum and subsequently pass all tests given by training staff, including academics and manipulative skills such as defensive tactics, firing weapons with accuracy, and driving at high speeds on a set test course while maintaining control. Police Recruit is the entry-level position to a career in municipal law enforcement. After successfully completing the Police Academy, the Police Recruit will then automatically promote to the classification of Peace Officer.</p>		
<p>Essential Functions: Functions may include, but are not limited to, the following: learn and participate in all classroom and field activities while attending the police academy; write/type reports and complete all assignments; participate in daily physical training at the same intensity as the majority of the group, or as directed by academy training staff; run up to six miles at an eight minute/mile pace; perform up to sixty sit-ups straight; perform sixty push-ups straight; spar with training staff and/or fellow recruits; fire weapons; drive vehicles; talk on radio; build and maintain positive working relationships with co-workers, other City employees and the public using principles of good customer service; and perform other related duties and physical training activities as assigned.</p>		
<p>Minimum Qualifications: Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be: must be at least 20 years of age at time of application and 21 years of age at time of appointment; must have a valid California Driver's License at time of appointment; must meet citizenship requirements as defined under California Government Code Sections 1031(a) and 1031.5.</p>		
<p>Education - Per Government Code section 1031(e), United States high school graduation, or passage of the General Education Development (GED) test, or attainment of a two-year or four-year degree from an accredited college or university. NOTE: Verification at time of hire is required. Additional college course work in Police Administration and/or Criminal Justice is highly desirable.</p>		
<p>Knowledge, Skills and Abilities / Physical Demands and Working Conditions:</p>		
<p>Knowledge, Skills and Abilities: Knowledge of: customer service; modern office practices and procedures; computer equipment and software applications related to assignment; basic mathematics; English usage, spelling, grammar, and punctuation. Ability to: participate in all physical training exercises; learn and participate in classroom lectures; prioritize and coordinate several activities/assignments; learn and apply procedures and techniques learned in the police academy; use initiative and sound independent judgment within established guidelines; communicate clearly and concisely, both orally and in writing; establish and maintain effective working relationships with those contacted in the course of work; and work with various cultural and ethnic groups in a tactful and effective manner.</p>		
<p>Physical Demands and Working Conditions: The Physical Agility Test (PAT) is designed to be a specific measure of the physical capabilities necessary to perform the duties of a Peace Officer. Test events are designed to simulate actual areas of police work. The events include: 1) a 1.5-mile run to be completed in 14 minutes or less; 2) an agility course to be completed in 3.5 minutes or less. Lift up to 150 lbs. Must be able to see a target up to 50 yards away and focus enough on it to accurately fire a weapon at it. Must be able to hear voices of training staff over other loud noises such as gunfire and yelling. Some of the work is performed indoors in a classroom setting, and some of the work takes place outside while performing the physical training exercises.</p>

<p>RECRUITMENT NO. 19507109</p>		

EXHIBIT 8

0034

Description and Essential Functions	Benefits	Supplemental Questions
<p>To be considered for this position, applicants must submit a City Application and Supplemental Questionnaire by the closing date listed. Candidates whose applications indicate the required education and experience most directly related to the position will be invited to participate in the selection process. All notices will be sent via e-mail.</p> <p>Unless otherwise noted, a passing score must be achieved at each step of the recruitment process in order to have your name placed on the eligibility list for hiring consideration. The eligibility list established as a result of this recruitment will be for a duration of twelve (12) months, unless otherwise extended. Please note: The examination materials for this recruitment are validated, copyrighted, and/or inappropriate for review.</p> <p>Employees in the Police Recruit position are represented by the Association of Chula Vista Employees (ACE) and receive benefits afforded to ACE-represented employees. After successfully completing the Police Academy, the Police Recruit will automatically promote to the classification of Peace Officer, a position represented by the Chula Vista Police Officers' Association (POA) and receive benefits outlined in the POA Memorandum of Understanding. Click here to view POA benefit summary information.</p> <p>Personal Qualifications Please click here for a list of disqualifying criteria.</p> <p>Must possess a good character and reputation; superior self-command, alertness, and judgment; ability to establish and maintain good working and public relations. Conviction of a serious offense, repeated or numerous convictions for minor offenses, conviction of an offense involving moral turpitude, or discharge from the military service under other than honorable conditions may be disqualifying. Candidates will be subject to a thorough background investigation, a voice stress analysis, and after a conditional offer of employment, a psychological and medical evaluation.</p> <p>Recruitment and Selection Process - Applicants must pass ALL of the following assessments:</p> <p>Application Review Applications will be reviewed to ensure that candidates meet the age, licensing, citizenship, and education requirements. All statements made in the application materials are subject to verification; false statements will be cause for disqualification or discharge.</p> <p>Written Examination - Tentatively scheduled for January 4, 2020 The written examination is a California Peace Officer Standards and Training (POST) Entry-Level Test Battery that has two components: 1. Reading Component - measures reading comprehension 2. Writing Component - measures clarity, vocabulary, and spelling</p> <p>The written exam takes approximately 3.5 hours to administer. This includes thirty minutes for the proctor to read the test instructions and for the applicants to code demographic information on machine-readable forms. The scoring procedure is automated thus requiring the applicants to code their names, addresses, social security numbers, etc., on the forms. Two and one-half (2.5) hours are allowed for actual completion of the test battery.</p> <p>POST scores the written examination. Results are released 2 - 3 weeks after the written exam. Successful candidates are eligible to continue in the selection process. Candidates who are unsuccessful on the written exam will not be eligible to continue in the selection process, however may re-apply, and test at a future date.</p> <p>The Applicant Preparation Guide for the POST Entry-Level Test Battery provides a thorough overview of the test, practice test items, and test taking strategies. For more information go to www.POST.CA.gov.</p> <p>POST 30-Day Rule: Applicants must wait for a period of one month (30 calendar days) before taking a subsequent exam. If you have taken or will take the POST PELLETB exam 30 days prior to our scheduled exam, you are INELIGIBLE to take the written exam.</p> <p>Exception for Written Test: If you possess POST PELLETB written exam results from another agency AND the letter is dated within 6 months prior to our test date; you may submit these results with your application or via email to amatsuhiro@chulavistaca.gov by 12/13/19. Only applicants with a Tscore of 50 and above will be invited to continue in the process.</p> <p>Officer Pre-Background Questionnaire This confidential questionnaire is designed to assist the Police Department in conducting a preliminary suitability screening. This confidential questionnaire will be provided at the written examination. You are required to pass both the written examination and the Officer Pre-Background questionnaire to continue in the selection process.</p> <p>Physical Agility Test (PAT) - Tentatively scheduled for February 1, 2020 The Physical Agility Test (PAT) is developed to assess fitness and agility capabilities necessary to perform the duties of a Peace Officer. Test events are designed to simulate actual areas of police work. The PAT is comprised of two timed events:</p>		

EXHIBIT 8

0035

Description and Essential Functions	Benefits	Supplemental Questions
<p>1. 1.5 mile run to be completed in 14 minutes or less 2. Obstacle/agility course to be completed in 3.5 minutes or less</p>		
<p>The PAT is a pass/fail test with no numeric score. Candidates are verbally notified immediately after the PAT if they passed or failed. Successful candidates are eligible to continue in the selection process.</p>		
<p>Oral Board Interview - Tentatively scheduled for the week of February 10, 2020 The oral board interview will consist of questions regarding candidate's education, experience, interest, and personal qualifications to determine suitability for law enforcement service. The oral board panel will have members from the Human Resources Department and ranking members from the Police Department.</p>		
<p>Passing the interview requires a score of 70 or higher. The score you receive will determine your rank on the eligibility list. The City of Chula Vista certifies the top three ranks, plus any ties, to the department for continuation in the background process. Candidates will be notified if they are eligible to proceed to the background investigation.</p>		
<p>Background Investigation Peace Officers are responsible for protecting and serving the public and are entrusted with substantial authority to carry out these responsibilities. As such, the California Peace Officer Standards and Training (POST) requires that the history of peace officer applicants be thoroughly investigated to make sure that nothing in their background is inconsistent with performing peace officer duties. Failure to pass the background investigation will result in removal of the candidate's name from the eligibility list.</p>		
<p>Chief's Interview</p>		
<p>Psychological Evaluation and Medical Examination California Government Code 1031(f) requires all California peace officers to be free from any emotional, or mental condition that might adversely affect the exercise of the powers of a peace officer. Peace officers must also be free from any physical condition that might adversely affect the exercise of peace officer powers.</p>		

CHULA VISTA POLICE DEPARTMENT

RECRUITING FAQ

Q: Are you currently hiring/testing?

A: We hire police recruits and lateral police officers on an ongoing basis.

Q: What are the minimum requirements?

A:

- Be 21 years of age with a high school diploma (no upper age limit).
- Have vision correctable to 20/40 and be physically fit.
- Have a valid California driver's license.
- Be a U.S. citizen or obtain citizenship within three years of applying.
- Have good moral character.

Q: Where is the police academy?

A: Selected candidates will attend a six-month regional police academy at Miramar College. Uniforms, equipment, and books will be provided.

Q: What is the testing process?

A:

- The written examination includes reading comprehension, English grammar, sentence structure, vocabulary, and spelling.
- A Physical Agility Test (PAT) is required for police officer recruits; 1.5 mile run within 14 minutes; obstacle course within 3:30 minutes.
- An oral interview.
- A background check, to include truth verification, psychological examination, and medical examination.

Q: What should I study for the written exam?

A:

- The public library or local bookstores have literature on Entry Level Law Enforcement Officer examinations.
- Improving reading comprehension is a key component of the exam.
- Read each question carefully. Choose the best possible answer. Try to answer every question; those left blank will be incorrect.
- For more information, visit www.post.ca.gov.

Q: How long does it take to get hired?

A: Completion of the hiring process averages between four to six months.

FAQ's →

There are seven steps to the application process:

Online Application and Personal Qualifications Essay (PQE) written test

STEP
1

All applicants must complete the **Online Application**. You must complete BOTH sections, which will take approximately 5 minutes to complete. You **MUST** submit the Online Application and print a copy to bring with you to the written test. **For testing calendar click [here.](https://personline.lacity.org/apps/testingcalendar/)**

The **Personal Qualifications Essay (PQE)** consists of essay questions related to judgment and decision making and behavioral flexibility. Your written communication skills will also be evaluated.

Personal History Statement (PHS)

EXHIBIT 9
0040

Completion and submittal of a **Personal History Statement (PHS)** is the first step of the Background Investigation. The PHS requires compilation of extensive biographical information, fingerprinting, and an interview with a background investigator. The investigation will also include checks of employment, police, financial, education, and military records, and interviews with family members, neighbors, supervisors, co-workers, and friends.

STEP 2

The Physical Fitness Qualifier and Continuous Physical Preparation

In order to better prepare for the exam and the physical demands of the academy, you are **required to attend** the Candidate Advancement Program (CAP) **and** complete the Physical Fitness Qualifier (PFQ). You **must** complete the PFQ **at least once** prior to appointment.

The PFQ consists of four events: 1) maximum sit-ups in on minute, 2) 300-meter sprint, 3) maximum push-ups in one minute, and 4) 1.5 mile-run. This is the same physical fitness test that academy recruits take the third day of the Police Academy.

The Physical Fitness Qualifier (PFQ) and Candidate Advancement Program (CAP)

STEP 3

In order to better prepare for the exam and the physical demands of the academy, you are **required to attend** the Candidate Advancement Program (CAP) **and** complete the Physical Fitness Qualifier (PFQ). You **must** complete the PFQ **at least once** prior to appointment. Your goal is to score 50 or higher on the PFQ and you are encouraged to take it as many times as you like. If you are struggling to reach the goal of 50 you must attend CAP to get tips and training from our recruitment officers.

The PFQ consists of four events: 1) maximum sit-ups in on minute, 2) 300-meter sprint, 3) maximum push-ups in one minute, and 4) 1.5 mile-run. This is the same physical fitness test that recruit officers take the third day of the Police Academy.

The [Academy Physical Training Program \(http://joinlapd-d7-prod.us-west-2.elasticbeanstalk.com/academy-physical-training-program\)](http://joinlapd-d7-prod.us-west-2.elasticbeanstalk.com/academy-physical-training-program) is intense and demanding, the first physical fitness test occurs during the first week of the Academy. It is critical that candidates don't wait until they are in the Academy to get into good physical shape. It is recommended to begin a physical conditioning program as soon as you apply.

Polygraph Examination and Department Interview

STEP 4

The **Polygraph Examination** is conducted to confirm information obtained during the selection process.

The **Department Interview** will be conducted by a panel to assess your personal accomplishments, job motivation, instrumentality, interpersonal skills, continuous learning orientation, and oral communication skills. Only those candidates who pass this part of the process will receive a Conditional Job Offer.

Medical Evaluation

The Medical Evaluation is thorough and it is essential that you be in excellent health with no conditions which would restrict your ability to safely perform the essential functions of the Police Officer job. Good physical condition is necessary, as training in the Academy is rigorous. Failure to be in **excellent** physical condition may delay or disrupt training and result in a dismissal from the Academy.

STEP 5

Field Investigation

STEP 6

The **Field Investigation** includes checks of employment, police, financial, education, and military records and interviews with family members, neighbors, supervisors, co-workers, and friends. You will be evaluated on your past behavior and the extent to which your behavior demonstrates positive traits that support your candidacy for Police Officer. The Field Investigation provides you the time and opportunity to get in shape for the Academy. You have very few active responsibilities during this step of the process, so we encourage you to attend as

many CAP sessions as possible and to continue to take the Physical Fitness Qualifier.

Psychological Evaluation

STEP 7

The **Psychological Evaluation** consists of an oral interview and evaluation by a City psychologist on factors related to successful performance in the difficult and stressful job of Police Officer. The information evaluated includes the written psychological tests along with information obtained in the background investigation process.

Requirements

To apply for a Deputy Sheriff Trainee position, the following is required:

- Be at least 19.5 years old to apply / 20 years old at appointment
- A U.S. citizen or eligible resident alien awaiting citizenship application decision
- A U.S. High school graduate or GED, or passed a U.S. high school proficiency test
- Valid Class C driver's license (Out-of-state applicants can use a valid license from their home state while filing, but will need a valid California Class C license at the time of hire)
- Be in good physical condition and free from any medical conditions that would interfere with the responsibilities of a Deputy Sheriff
- Have at least 20/70 vision in each eye, correctable to 20/30 with only minor color impairment
- No major hearing impairment (no more than 25 db loss in the better ear and 35 db loss in weaker ear)
- No felony convictions or currently on probation; misdemeanors may be disqualifying, depending on the number, type of violation, and date of the violation
- IV – Arduous Physical Class (Must be able to lift 25 lbs while bending, twisting or working on irregular surfaces and may require extraordinary physical exertion)

Additionally, a successful candidate will have these attributes to become a Deputy Sheriff:

- Possess and demonstrate integrity
- Demonstrated ability to use good judgment and problem solving
- Capacity for empathy and compassion
- Capacity to multi-task
- Ability to demonstrate courage and to take responsibility
- Ability to be resourceful and show initiative
- Demonstrating assertiveness
- Capacity for engaging in teamwork and ability to collaborate

EXHIBIT "11"

Major Duties

The FBI Special Agent (SA) position requires significant commitment and dedication. Special Agents must:

- Adhere to the highest standards of conduct, especially in maintaining honesty and integrity.
- Be available for worldwide assignment on either a temporary or a long-term basis. Not sure about the transfer process?
- Work a minimum of 50 hours a week (which may include irregular hours) and be on call 24/7, including holidays and weekends.
- Maintain a high level of fitness necessary to complete FBI Academy at Quantico training and throughout your career.
- Carry a firearm and be willing to use deadly force, if necessary.
- Be willing and able to participate in arrests, execution of search warrants and other dangerous assignments, all of which pose the risk of personal bodily harm.

FBI Employment Requirements for All Positions

- Must be a U.S. Citizen.
- Must be able to obtain a Top Secret SCI (Sensitive Compartmented Information) clearance.
- Must be in compliance with the FBI Drug Policy.

See more about FBI employment requirements (/working-at-FBI/eligibility).

APPLY NOW ([HTTPS://APPLY.FBIJOBS.GOV/PSC/PS/EMPLOYEE/HRMS/C/HRS_HRAM_FL_HRS.CG_SEARCH_FL.GBL?PAGE=HRS_APP_JBPST_FL&ACTION=U8F0CUS=APPLICANT&SITEID=16J0BOPENINGID=22187&POSTINGSEQ=1](https://apply.fbijobs.gov/psc/ps/employee/hrms/c/hrs_hram_fl_hrs_cg_search_fl.gbl?page=hrs_app_jbpst_fl&action=U8F0CUS=APPLICANT&SITEID=16J0BOPENINGID=22187&POSTINGSEQ=1))

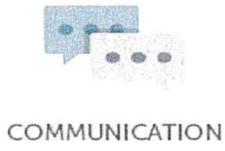

Employment Requirements for the Special Agent Position

To be eligible for the FBI Special Agent position, applicants must meet the following minimum qualifications at the time of application:

- Be between 23 and 36 years of age.
 - FBI Special Agents have a mandatory retirement age of 57. In order to achieve the required 20 years of service for retirement, Special Agents must enter on duty no later than the day before their 37th birthday. Applicants must apply for the Special Agent position prior to their 36th birthday to allow adequate time to complete the Special Agent Selection System. The FBI may disqualify applicants at any time if it is determined that they will reach age 37 before appointment.
 - Current FBI employees must apply prior to their 39th birthday and must be appointed and assigned to the FBI Academy no later than the month of their 40th birthday.
- Have a minimum of a bachelor's degree from a U.S.-accredited college or university.
- Have at least two years of full-time professional work experience; or one year if you have earned an advanced degree (master's or higher).
- Possess a valid driver's license and have six months of driving experience.
- Meet the Special Agent physical fitness standards (see the Physical Requirements (/career-paths/special-agents/physical-requirements) page).
- Be available to report to one of the FBI's 56 Field Offices (<https://www.fbi.gov/contact-us/field-offices>) for interviews and testing several times throughout the application process. You are responsible for your own travel to and from the Field Office. Applicants who reside overseas must be available for travel to the United States for testing and processing at an FBI Field Office at your own expense; you may choose a Field Office (<https://www.fbi.gov/contact-us/field-offices>) that is most convenient for you. While travel from an overseas location to the Processing Field Office (PFO) is the responsibility of the applicant, any additional travel for Phase II testing from the PFO will be incurred by the FBI.
- If you are currently on active duty in the military, you must be within one year of completing your service before submitting your application.

Core Competencies

**EXHIBIT 11
0048**

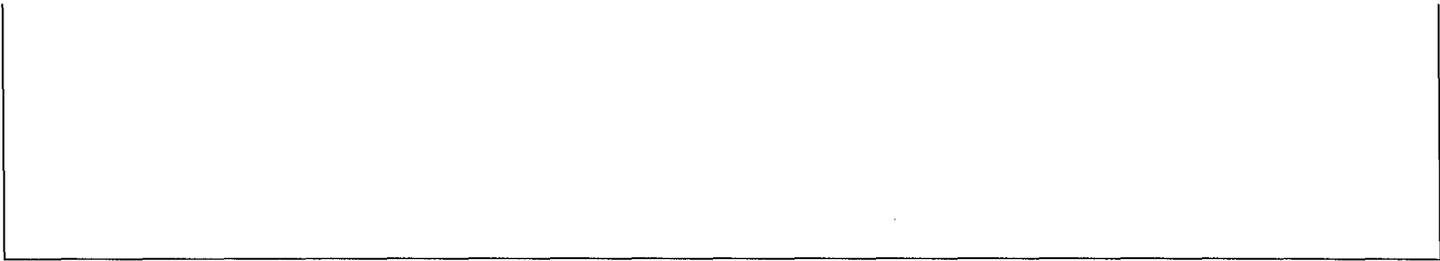

FBI Special Agents are required to adhere to strict standards of conduct and exemplify the FBI's Core Competencies listed above. Please explain how you have demonstrated these competencies in real-life situations within your resume. Provide as much information as possible. Use the Situation, Action, Result format to describe the situation, the actions you took and the resulting outcomes.
Definitions of the FBI Core Competencies (/sites/default/files/FBI_Core_Competerencies_Definitions.pdf).

EMPLOYMENT ELIGIBILITY

In order to be eligible for employment with the FBI, applicants must violate none of the automatic employment disqualifiers, and adhere to the FBI's pre-employment drug policy. Please ensure you meet these standards before submitting an application. All of these disqualifiers are extensively researched during the FBI Background Investigation Process.

EMPLOYMENT DISQUALIFIERS

Below are specific elements that will automatically disqualify job candidates for employment with the FBI. These include:

- Non-U.S. citizenship
- Conviction of a felony (Special Agent candidates only: conviction of a domestic violence misdemeanor or more serious offense)
- Violation of the FBI Employment Drug Policy (please see below for additional details)
- Default on a student loan insured by the U.S. Government
- Failure of an FBI-administered urinalysis drug test
- Failure to register with the Selective Service System (for males only, exceptions apply – please click here (<https://www.sss.gov/Portals/0/PDFs/WhoMustRegisterChart.pdf>) to find out more)
- Knowingly or willfully engaged in acts or activities designed to overthrow the U.S. government by force
- Failure to pay court ordered child support
- Failure to file federal, state, or local income tax returns

Please note that if you are disqualified by any of the above tests, you are not eligible for employment with the FBI. Please make sure you can meet FBI employment requirements and pass all disqualifiers before you apply for an FBI position.

EMPLOYMENT DRUG POLICY

The FBI is firmly committed to a drug-free society and workplace. Applicants for employment with the FBI who are currently using illegal drugs, misusing or abusing legal drugs or other substances at the time of the application process will be found unsuitable for employment. While the FBI does not condone any prior unlawful drug use by applicants, the FBI realizes some otherwise qualified applicants may have used illegal drugs at some point in their past. The guidelines set forth in this policy should be followed for determining whether an applicant's prior drug use makes him or her unsuitable for employment, balancing the needs of the FBI to maintain a drug-free workplace and the public integrity necessary to accomplish its law enforcement and intelligence missions by hiring the most qualified candidates to fill the FBI's personnel needs.

A candidate will be found unsuitable for employment and automatically disqualified if he/she deliberately misrepresents his or her drug history in connection with his or her application for employment. Additionally, candidates are automatically disqualified under the following criteria:

Marijuana Usage:

Candidates cannot have used marijuana within the three (3) years preceding the date of their application for employment, regardless of the location of use (even if marijuana usage is legal in the candidate's home state). The various forms of marijuana include cannabis, hashish, hash oil, and tetrahydrocannabinol (THC), in both synthetic and natural forms.

A candidate's use of marijuana in its various forms for medical reasons, regardless of whether or not it was prescribed by a licensed practicing physician, cannot be used as a mitigating factor.

Illegal Drugs:

Candidates cannot have used any illegal drug, other than marijuana, within the ten (10) years preceding the date of the application for employment.

Additionally, candidates cannot have sold, distributed, manufactured, or transported any illegal drug or controlled substance without legal authorization.

Prescription Drugs/Legally Obtainable Substances:

Candidates cannot have used anabolic steroids without a prescription from a licensed practicing physician within the past ten (10) years preceding the date of the application for employment.

Finally, candidates cannot have sold, distributed, manufactured, or transported any prescription drug without legal authorization.

FBI BACKGROUND INVESTIGATION

All FBI employees must undergo an FBI Background Investigation and receive an FBI Top Secret security clearance. Once you have received and accepted a conditional job offer, the FBI will initiate an intensive background investigation. You must go through this background investigation, and you must pass, before moving forward with employment. The preliminary employment requirements include a polygraph examination; a test for illegal drug use; credit and records checks; and extensive interviews with former and current colleagues, neighbors, friends, professors, etc. Before applying for any FBI position, please make sure that the FBI Employment Disqualifiers do not apply to you.

Enlisting in the Military

Once you have talked to a recruiter, you'll set a date to visit a Military Entrance Processing Station (MEPS) to finish the enlistment process. The MEPS is a joint Service organization that determines an applicant's physical qualifications, aptitude and moral standards as set by each branch of military service. There are MEPS locations all over the country.

On This Page

MEPS VISIT TIPS

STEPS TO ENLISTING

EXHIBIT 12

Military Entrance Processing Station (MEPS) Overview

Military Entrance Processing Station (MEPS) Overview

Each MEPS is staffed with military and civilian professionals who carefully screen each applicant to ensure they meet the physical, academic and moral standards set by each Service.

LENGTH 2:56 | [VIEW TRANSCRIPT](#)

Related Videos

<p>A Day at the Military Entrance Processing Station (MEPS)</p>	<p>Taking the Oath of Enlistment</p>
---	--------------------------------------

MEPS Visit Tips

Here are a few things you should keep in mind for the visit:

- Bring a Social Security card, birth certificate and driver's license
- Remove piercings, and do not wear clothing with obscene images
- Bring glasses or wear contacts, and bring along an eyeglass or contact lens case and solution
- Get a good night's sleep and arrive early

You'll officially complete the process of joining the Military once you meet all of the Service requirements assessed at the MEPS. The process typically takes one to two days, with food and lodging provided.

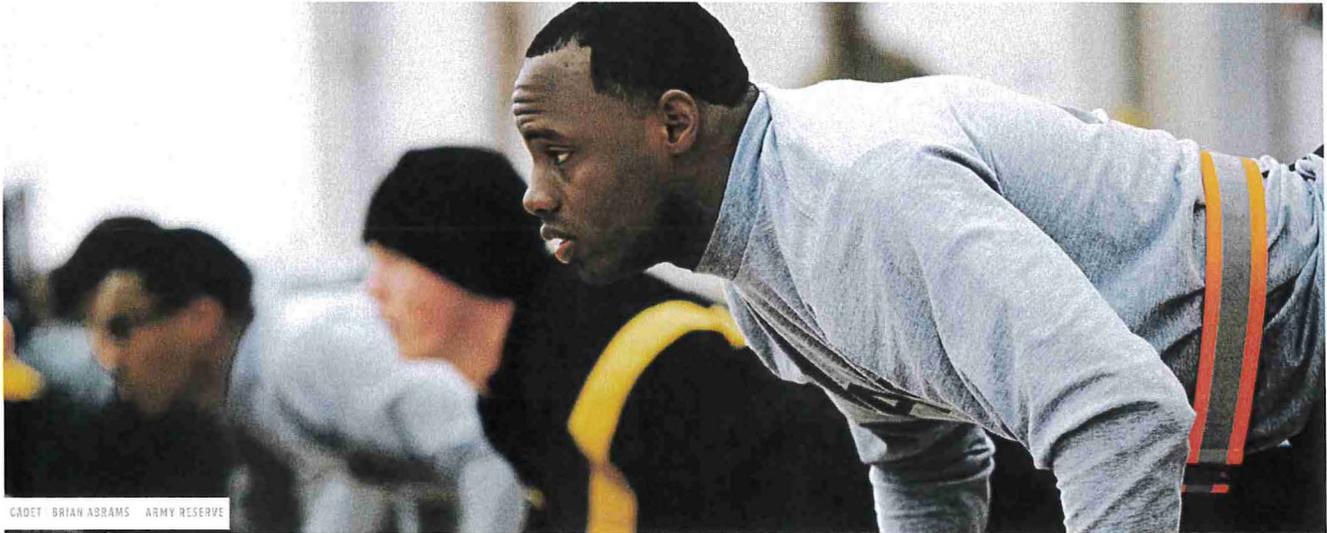

PRIVATE 1ST CLASS | KEEGAN LEWINS | ARMY NATIONAL GUARD

Step 1: Take the Armed Services Vocational Aptitude Battery (ASVAB)

The **ASVAB** is a multiple-choice exam that helps determine the careers for which an individual is best suited. Both traditional pen-and-paper exams and a computer-based version are available. The ASVAB takes approximately three hours to complete and has questions about standard school subjects like math, English, writing and science. Each Service uses a custom combination of ASVAB results to produce scores related to different career fields. Alternatively, recruits may take the PICAT, or Prescreen Internet Based Computerized Adaptive Test, which is an untimed, unmonitored version of the ASVAB that can be taken online.

In addition, some high schools offer and administer the ASVAB test to their students. If you have taken the test already, you should inform your recruiter and see if your results are still valid.

GADET | BRIAN ABRAMS | ARMY RESERVE

Step 2: Pass the Physical Examination

A recruiter will discuss physical **eligibility requirements** with you beforehand. The physical is a regular medical exam, similar to what you would receive from a family doctor. Some recruiters may conduct a short physical training (PT) test with potential recruits as well.

Examinations include:

- Height and weight measurements
- Hearing and vision examinations
- Urine and blood tests
- Drug and alcohol tests
- Muscle group and joint maneuvers
- Specialized test if required (pregnancy test for women, body fat percentage test for those who are overweight, tests relating to any unusual medical history)

EXHIBIT 12

Step 3: Meet With a Counselor and Determine a Career

At this point, a service enlistment counselor meets with you to find the right job specialty. A few different factors contribute to career selection:

- Needs of the Service
- Job availability
- ASVAB score
- Physical requirements (for example, a recruit needs normal color vision for some careers)
- Recruit preference

LEARN MORE: EXPLORE CAREERS

The service enlistment counselor will also go over the enlistment agreement. It is important to understand this fully before signing. When you sign this agreement, you are making a serious commitment to the Military.

At this time, you will also be fingerprinted for your file, which is required for background checks and security clearances.

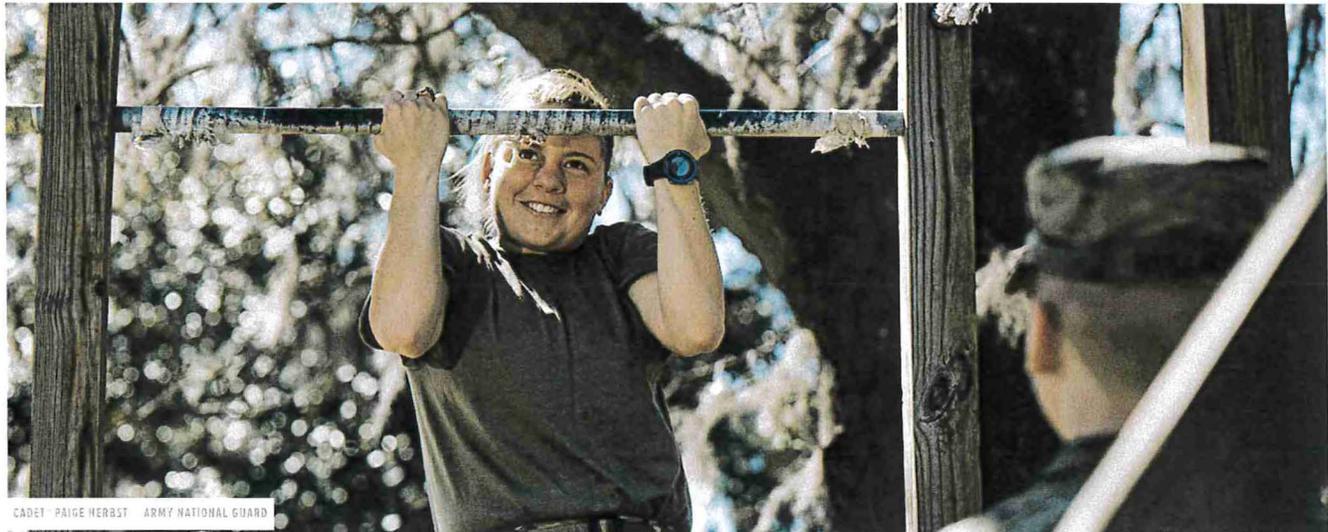

FIRST LIEUTENANT | STEVE RUGACKI | ARMY

Step 4: Take the Oath of Enlistment

Once your career has been determined, you are ready to take the Oath of Enlistment. In this statement, you vow to defend the United States Constitution and obey the Uniform Code of Military Justice (UCMJ). Family members are invited to watch and take photos.

I, (name), do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; and that I will obey the orders of the president of the United States and the orders of the officers appointed over me, according to regulations and the Uniform Code of Military Justice. So help me God.

CADET | PAIGE HERBST | ARMY NATIONAL GUARD

Step 5: After the MEPS

You'll do one of two things, depending on the terms of your enlistment:

- Direct Ship: Report to Basic Training shortly after completing MEPS testing requirements. (It varies based on job assignment and branch.) A recruiter will provide instructions on transportation to Basic Training at this time.
- Delayed Entry Program (DEP): Commit to Basic Training at a time in the future, generally within one year. Most recruits enter DEP before shipping, including those who enlist before completing high school. Recruits enrolled in DEP may return to their homes until the time comes to report for duty.

Remember, a recruiter can answer any additional questions you may have about the enlistment process.

QUESTIONS TO ASK A RECRUITER

More In How To Join

Get ready for Army Basic Training Schedules & Timelines - Army Army Basic Training is an intense 10 week program. The breakdown is as follows:

ZERO WEEK: RECEPTION

This is where your transformation for civilian life to the Army world begins—from bidding farewell to your civilian clothes, getting your Army haircut and getting ready to become physical fit.

WEEK 1: FALL IN

Once Reception Week completes, it's now time to get down to business, lots to learn in a short period of time, new rules, regulations and processes involved in being in the Army. Classroom instruction begins.

WEEK 2: DIRECTION

Your environment is your Drill Sergeant. Leaving the classroom for the field. It's time to test your physical and

Complaint Filed: July 1, 2019
Amended Complaint Filed: July 30, 2019

Date: November 18, 2019
Time: 9:00 a.m.
Department: 5B (5th Flr.)

1 I, Alan Gottlieb, declare as follows:

2 1. I have personal knowledge of the facts stated herein and, if called as a
3 witness, could and would competently testify to such facts.
4

5 2. I am the founder of the Second Amendment Foundation (SAF). Acting
6 in this role within the organization, I am familiar with SAF's membership, which
7 includes members that are 18-to-20 years of age (Young Adults). SAF also has
8 members that are under the age of 18 that will become Young Adults in the future.
9 Finally, SAF acquires new members in this age group each year.
10

11 3. The SAF is a non-profit educational foundation incorporated under the
12 laws of Washington with its principal place of business in Bellevue, Washington.
13 SAF seeks to preserve the effectiveness of the Second Amendment through
14 educational and legal action programs. SAF has over 650,000 members and
15 supporters nationwide, including thousands of members in California. The SAF's
16 purpose includes education, research, publishing, and legal action focusing on the
17 constitutional right to own and possess firearms under the Second Amendment, and
18 the consequences of gun control. The Court's interpretation of the Second
19 Amendment directly impacts SAF's organizational interests, as well as SAF's
20 members and supporters in California, who enjoy exercising their Second Amendment
21 rights.

Bureau of Justice Statistics Special Report

July 1997, NCJ-162031

Age Patterns of Victims of Serious Violent Crime

By Craig A. Perkins
BJS Statistician

Vulnerability to violent crime victimization varies across the age spectrum. The victimization rate increases through the teenage years, crests at around age 20, and steadily decreases through the remaining years. This pattern, with some exceptions, exists across all race, sex, and ethnic groups.

For 1992-94, the rate of serious violent crime ranged from 37 per 1,000 persons age 12 to 14, to 50 per 1,000 persons age 18 to 21, to 3 violent crimes per 1,000 persons age 65 or older. Crime rates for individuals age 18 to 21 were 17 times higher than for persons age 65 or older.

This report examines serious violent crime across different age groups, focusing on persons younger than 25 from 1992 through 1994. It highlights key facts about serious violent crime, grouped by age, race, and sex.

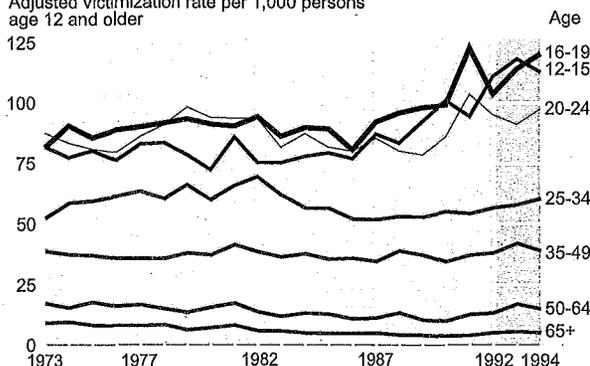

Serious violent crimes include rape and sexual assault, robbery, and aggravated assault, as measured by the National Crime Victimization Survey (NCVS), and murders from data reported by law enforcement agencies to the FBI.

Highlights

- Persons age 12 to 24 comprised: 22% of the population, 35% of murder victims, and 49% of serious violent crime victims.
- Persons age 25 to 49 constituted: 47% of the population, 53% of murder victims, and 44% of serious violent crime victims.
- Persons age 50 or older made up: 30% of the population, 12% of murder victims, and 7% of serious violent crime victims.
- Persons age 18 to 21 were the most likely to experience a serious violent crime, and blacks in that age group were the most vulnerable: 72 victimizations per 1,000 blacks, 50 victimizations per 1,000 Hispanics, and 46 victimizations per 1,000 whites.
- More than 52% of all rape/sexual assault victims were females younger than 25.
- Almost 1 in 10 murder victims age 18 to 21 were black.

Violent crime rates by age

Adjusted victimization rate per 1,000 persons age 12 and older

Note: Violent crimes included are homicide, rape, robbery, and both simple and aggravated assault. The light gray area indicates that because of changes made to the victimization survey, data prior to 1992 are adjusted to make them comparable to data collected under the redesigned methodology. The adjustment methods are described in *Criminal Victimization 1973-95*.

The Bureau of the Census, under the supervision of the Bureau of Justice Statistics (BJS), conducts the NCVS which interviews approximately 50,000 households. Annually the NCVS measures crimes not reported as well as those reported to police.

Each year between 1992 and 1994, U.S. residents age 12 or older experienced about 4.3 million serious violent victimizations on average. Persons age 12 to 24 suffered about 49% (2 million) of the total, although they made up less than a quarter of the U.S. population age 12 or older. Individuals age 40 or older were 47% of the general population but sustained 19% of the serious violent victimizations.

Persons younger than 25 were the most vulnerable to serious violent crime, regardless of how age patterns were analyzed. Rates controlling for population show the young with the highest number of victimizations per 1,000 individuals. Considering only adolescents and adults, the average age of violent crime victims is almost 11 years below the average age of the whole population, because of the overrepresentation of the young among crime victims.

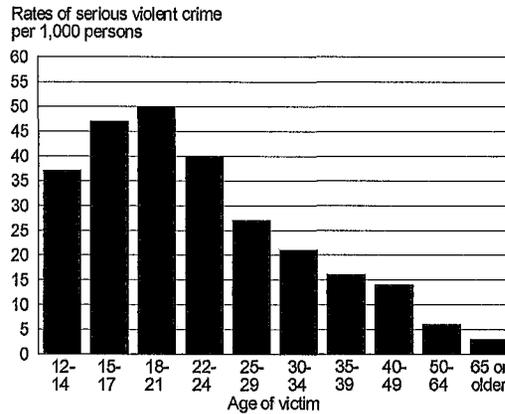

The *Highlights* graph of trends presents age categories usually used in BJS reports; however, the remaining findings have age groupings identified with stages of life in the United States. This modified grouping is meant to help account for different life styles:

- Persons age 12 to 14 are generally in junior high school.
- Youth age 15 to 17 are in high school.
- Ages 18 to 21 include persons who have left high school and are enrolled in college or technical school or are seeking or starting jobs.
- Young adults age 22 to 24 are those individuals who have left college and are just beginning a career.
- Persons age 65 or older represent residents who have probably retired.

Also, there are too few sampled cases to analyze the age distribution of minority victims of rape or sexual assault (an estimated 1.1 million rapes of white non-Hispanic females, 236,000 rapes of black non-Hispanic females, and 121,000 rapes of Hispanic females for the 3-year period).

Although Hispanics are not a race, they are presented as a separate category within the racial categories.

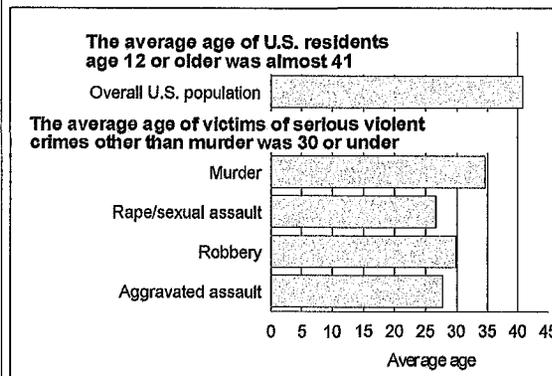

All serious violent crimes: Murder, rape, sexual assault, robbery, and aggravated assault

Rates of serious violent crime for 18-21 year olds — 17 times higher than for persons age 65 or older.

Persons between ages 12 and 24 — less than a fourth of the U.S. population age 12 or older, almost half of all serious victimizations.

Persons age 40 or older — almost half of the population age 12 or older, less than a fifth of the serious violent victimizations.

On average each year, from 1992 to 1994, about 1 in 50 persons fell victim to a serious violent crime; among persons age 12 to 24, 1 in 23.

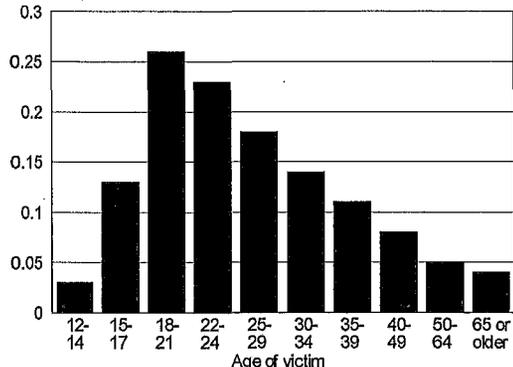

Age of victim	Number of persons in the population for each victim				
	All serious violent crime	Murder	Rape/sexual assault	Robbery	Aggravated assault
Total	50	9,241	416	164	86
12 to 24	23	5,945	168	83	39
25 to 34	42	6,170	378	132	73
35 to 49	67	10,891	591	219	116
50 or older	424	23,376	4,272	494	424

 Indicates victimization information other than that about age patterns of victims.

2 Age Patterns of Victims of Serious Violent Crime

Murder

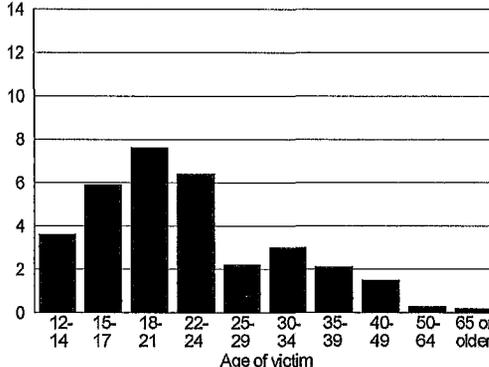

Rates of murder per 1,000 persons

Persons under age 25 — 22% of the general population — account for 35% of murder victims. The youngest and oldest of the population had the lowest rates of murder — less than 0.05 per 1,000 persons. The pattern of murder victims resembles that of victims of other serious violent crimes — rates increasing from the very young, cresting at ages 18 to 21, then decreasing.

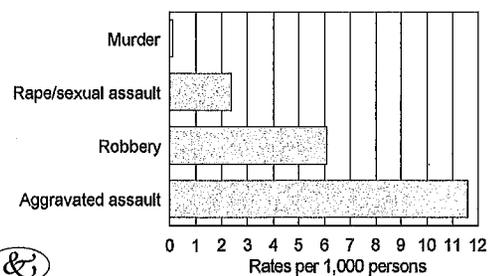

Rape or sexual assault

Rates of rape or sexual assault per 1,000 persons (male and female)

Slightly more than a fifth of all rape/sexual assault victims were age 18 to 21. The average age for victims was 27. Rates of rape/sexual assault for individuals 18 to 21 were almost 2½ times higher than those for age 25 to 29. Persons age 50 or older — almost a third of the general population age 12 or older — comprised 3% of rape/sexual assault victims.

Murder, the least frequent violent crime, victimized fewer than 1 in 1,000 persons, age 12 or older

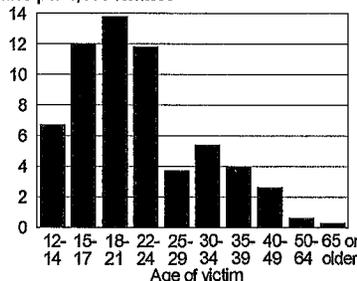

Victims of murder, on average, were the oldest of serious violent crime victims. Over half of all murder victims were age 30 or younger (compared with age 25 for victims of other serious violent crimes).

Serious violent offense	Median age of victim
Murder	29
Rape/sexual assault	23
Robbery	26
Aggravated assault	25

Rape or sexual assault (female)

1 in 89 females 12-24 were rape/sexual assault victims

Rates per 1,000 females

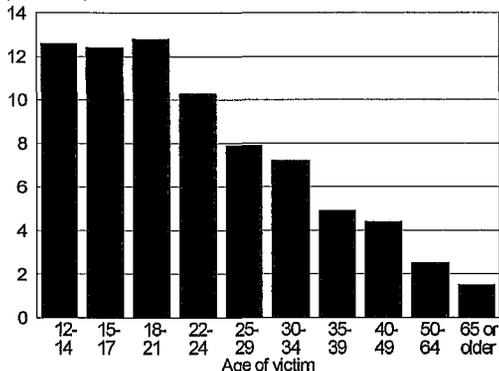

Persons under 25 made up almost 50% of every-one suffering a serious violent crime and almost 56% of rape/sexual assault victims.

Age of victim	Percent of population	Percent of victims		
		All violent crime	Rape/sexual assault	Robbery
Total	100%	100%	100%	100%
12 to 14	5%	10%	8%	11%
15 to 17	5	12	12	10
18 to 21	7	17	21	14
22 to 24	5	11	14	9
25 to 29	9	13	9	12
30 to 34	11	11	13	12
35 to 39	10	8	9	8
40 to 49	17	12	10	12
50 to 64	16	5	2	6
65 or older	15	2	1	4

Age Patterns of Victims of Serious Violent Crime 3

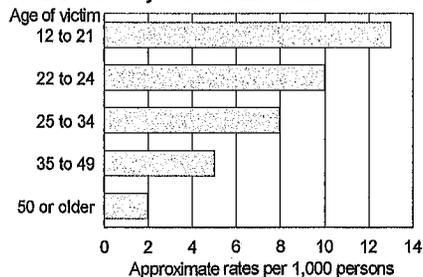

Robbery

Rates of robbery per 1,000 persons

Robbery is completed or attempted theft, directly from a person, by force or threat of force, with or without a weapon, and with or without injury. Half of all robbery victims were age 26 or younger; the most vulnerable to robbery were the young. Persons age 21 or younger — slightly less than a fifth of the general population — suffered close to half of all robberies.

Age patterns of robbery victims fall into 5 distinct ranges: The 12-21 robbery rate is 6 times that of 50 or older.

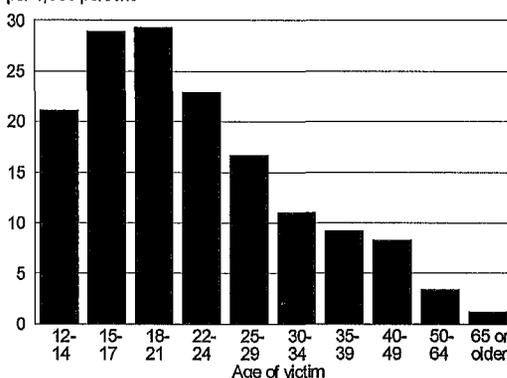

1 in every 79 persons age 12 to 21 were robbery victims, compared to 1 in every 211, age 22 or older. Between 1992 and 1994, U.S. residents age 12 or older experienced an annual average of about 1.3 million robberies. The average number of robberies each year was —
 457,000 among persons age 12-21
 118,000 for age 22-24
 319,000 for age 25-34
 263,000 for age 35-49, and
 130,000 for age 50 or older.

4 Age Patterns of Victims of Serious Violent Crime

Aggravated assault

Rates of aggravated assault per 1,000 persons

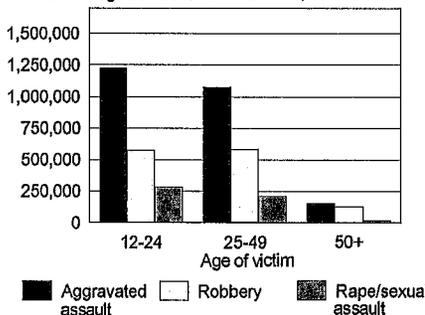

Aggravated assault includes attacks with a weapon, with or without injury and attacks without a weapon that result in serious injury such as broken bones, loss of teeth, internal injuries, or loss of consciousness — or an undetermined injury requiring 2 or more days of hospitalization.

Aggravated assault, the most frequent serious violent crime, made up over half of all such crimes. On average between 1992 and 1994, about 1 in every 2 persons who reported an aggravated assault was younger than 25.

Persons age 50 or older — almost a third of the population over age 11 — were 6% of aggravated assault victims.

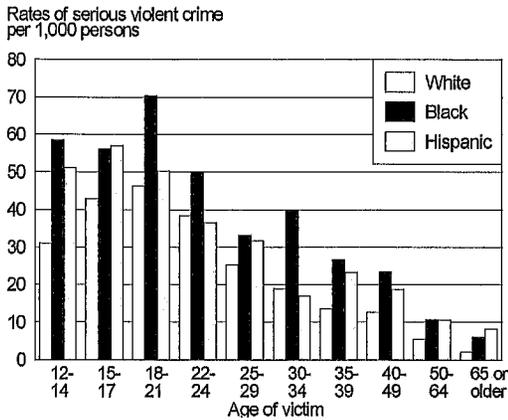

Each year 1992-94, on average, persons age 12 to 24 sustained about 1,200,000 aggravated assaults, compared to 1,100,000 for persons age 25 to 49, and 151,000 for those 50 or older.

Annual average number of victimizations, 1992-94

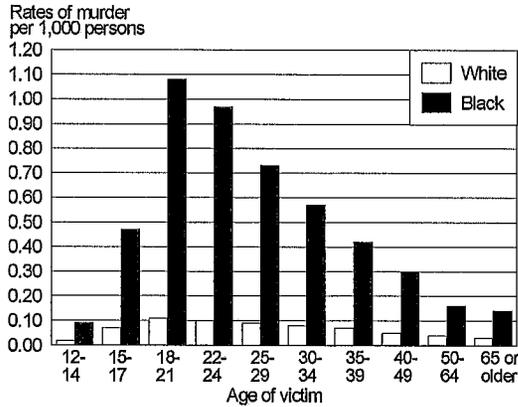

Murder (not shown): 8,021, 12,129, and 2,743 victims for each age category.

Serious violent crime, by race and Hispanic origin

Blacks and Hispanics across all age groups were more at risk from violence than whites of comparable age — 1 in 30 blacks, 1 in 35 Hispanics, and 1 in 58 whites, from 1992 to 1994. For 18-to-21 year olds, 1 in 14 blacks, 1 in 20 Hispanics, and 1 in 22 whites experienced a serious violent victimization.

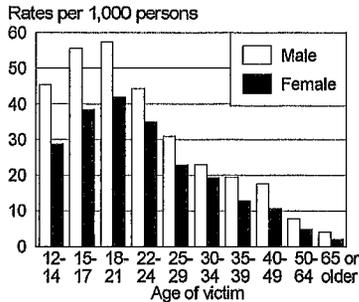

Murder, by race

For whites and blacks, persons 18 to 21 were most at risk of becoming a murder victim. Murder rates for blacks were 8 times higher than for whites — 1 in every 894 and 1 in every 7,334 persons, respectively. Blacks, about 12% of general population, comprised 51% of murder victims. Almost 1 in 10 of black murder victims were age 18 to 21.

Serious violent crime, by sex of victim

1 in 41 males and 1 in 62 females were violent crime victims

Blacks and to a lesser degree Hispanics were over-represented among victims, relative to their proportion of the general population age 12 or older.

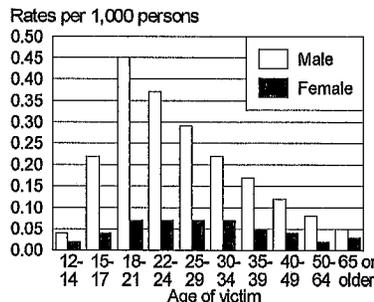

Racial/ethnic groups	Percent		Rates per 1,000
	Population age 12 or older	Victims of serious violence	
Total	100%	100%	20
White	77%	65%	17
Black	12	20	34
Other	3	4	24
Hispanic	8	12	29

Note: Whites, blacks, and others exclude Hispanics.

Murder, by sex of victim

1 in 10 murder victims were males, 18 to 21

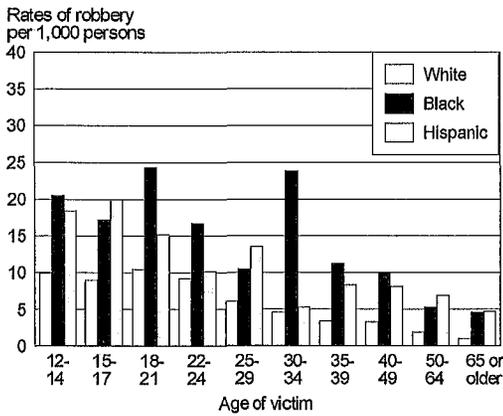

Murder rates for males 18 to 21 were 6 times higher than for their female counterparts. Rates for men 65 or older were 1½ times higher than for their female counterparts.

The average age for male murder victims was 32, compared to the female murder victim's average age of 37.

White murder victims had an average age of 35, while black murder victims had an average age of 30. Over half of black murder victims were 29 or younger, compared to over half of white victims, 32 or older.

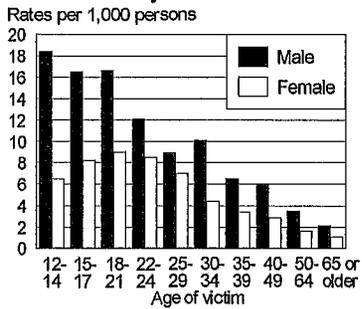

Robbery, by race and Hispanic origin

Blacks and Hispanics under age 22 had robbery rates approximately twice those for whites — 1 in 48, 1 in 57, and 1 in 101 respectively, from 1992 to 1994. Robbery rates for blacks peaked twice, for ages 18 to 21 and 30 to 34, at 24 robberies per 1,000 blacks — at 5 times the rate for age 50 or older, 5 per 1,000. The average age for robbery victims was about 30 for whites and blacks, and 28 for Hispanics.

Robbery, by sex of victim

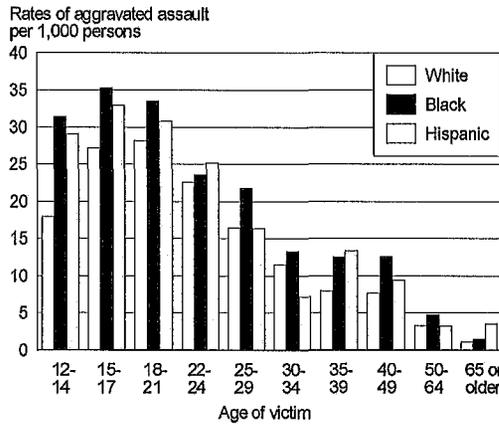

Almost 1 in 10 robbery victims were males 18 to 21

Boys 12 to 14 and young women 18 to 21 reported the highest rates for robbery. About 1 in every 54 boys age 12 to 14 was a robbery victim, compared to 1 in every 473 men age 65 or older. The average ages for male and female robbery victims were at least 10 years younger than the average age of males and females in the general population.

	Average age	
	Male	Female
General population 12 or older	40 yrs	42 yrs
Robbery victims	30	31

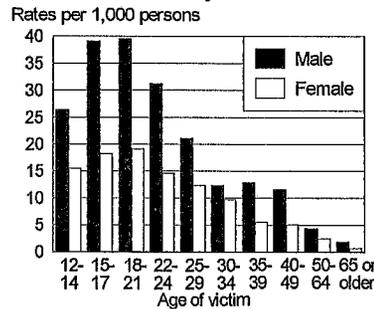

Aggravated assault, by race and Hispanic origin

Slightly more than 1 in every 60 blacks, 1 in every 63 Hispanics, and 1 in every 96 whites were aggravated assault victims. Blacks and Hispanics — 20% of the general population — were about 28% of aggravated assault victims. The average age of aggravated assault victims was 25 for Hispanics, 26 for blacks, and 29 for whites.

Aggravated assault, by sex of victim

For 18 to 21, men twice as likely as women to be victimized

Minority victims of aggravated assault were relatively younger than white victims.

Aggravated assault victims' race and age	Percent of population		Rates per 1,000
	General	Victim	
White	100%	100%	10
12 to 24	20	47	24
25 to 34	19	25	14
35 to 49	27	21	8
50 or older	33	7	2
Black	100%	100%	17
12 to 24	28	53	31
25 to 34	22	23	17
35 to 49	27	20	13
50 or older	23	5	3
Hispanic	100%	100%	16
12 to 24	33	61	29
25 to 34	26	19	12
35 to 49	24	17	11
50 or older	17	4	3

Methodology

Except for homicide data provided by the Uniform Crime Reports, the tables in this report include data from the redesigned National Crime Victimization Survey (NCVS) for 1992, 1993, and 1994. The NCVS obtains information about crimes, including incidents not reported to police, from a continuous, nationally representative sample of households in the United States. Approximately 50,000 individuals age 12 or older are interviewed for the survey annually.

Calculations of NCVS rates

The rates in this report were annual average rates for 1992-94. The numerator of a given rate was the sum of the estimated victimizations that occurred for all three years for each respective demographic group; the denominator was the sum of the annual population totals for these same years and demographic groups.

Calculations of NCVS ratios

The ratios in this report were annual average ratios. The numerator of the given ratio was the sum of the annual population totals for all 3 years for each respective demographic group; the denominator was the sum of the estimated victimizations that occurred for all 3 years for each demographic group.

Application of standard errors

The results presented in this report were tested to determine whether the observed difference between groups was statistically significant. Comparisons mentioned in the report passed a hypothesis test at the .05 level of statistical significance (or the 95-percent confidence level), meaning that the estimated difference between comparisons was greater than twice the standard error of the difference.

Although the data in this report were collected over 3 years, some estimates were based on a relatively small number of sample cases, particularly for certain demographic groups.

Caution should be used when comparing estimates not discussed in the text because since seemingly large differences may not be statistically significant.

The Bureau of Justice Statistics is the statistical agency of the U.S. Department of Justice. Jan M. Chaiken, Ph.D., is director.

BJS Special Reports address a specific topic in depth from one or more datasets that cover many topics.

Craig A. Perkins wrote this report. Patsy Klaus provided analytical and programming assistance; Cathy Maston provided statistical review; and Diane Craven reviewed the computer programs. Rhonda Keith produced and edited the report, supervised by Tom Hester. Marilyn Marbrook, assisted by Jayne Robinson and Yvonne Boston, administered final production.

July 1997, NCJ-162031

Violent crime rates by ageAdjusted victimization rate per 1,000 persons,
age 12 and older

Year	Age of victim						
	12-15	16-19	20-24	25-34	35-49	50-64	65+
1973	81.8	81.7	87.6	52.4	38.8	17.2	9.1
1974	77.5	90.6	83.5	58.6	37.5	15.5	9.5
1975	80.3	85.7	80.9	59.5	36.9	17.8	8.3
1976	76.4	88.8	79.7	61.5	35.9	16.1	8.1
1977	83.0	90.2	86.2	63.5	35.8	16.8	8.0
1978	83.7	91.7	91.1	60.5	35.8	15.0	8.4
1979	78.5	93.4	98.4	66.3	38.2	13.6	6.2
1980	72.5	91.3	94.1	60.0	37.4	15.6	7.2
1981	86.0	90.7	93.7	65.8	41.6	17.3	8.3
1982	75.6	94.4	93.8	69.6	38.6	13.8	6.1
1983	75.4	86.3	82.0	62.2	36.5	11.9	5.9
1984	78.2	90.0	87.5	56.6	37.9	13.2	5.2
1985	79.6	89.4	82.0	56.5	35.6	13.0	4.8
1986	77.1	80.8	80.1	52.0	36.0	10.8	4.8
1987	87.2	92.4	85.5	51.9	34.7	11.4	5.2
1988	83.7	95.9	80.2	53.2	39.1	13.4	4.4
1989	92.5	98.2	78.8	52.8	37.3	10.5	4.2
1990	101.1	99.1	86.1	55.2	34.4	9.9	3.7
1991	94.5	122.6	103.6	54.3	37.2	12.5	4.0
1992	111.0	103.7	95.2	56.8	38.1	13.2	5.2
1993	118.4	114.2	91.2	57.9	42.1	17.0	5.6
1994	113.0	120.5	97.7	60.4	39.1	15.1	5.1

Note: Violent crimes included are homicide, rape, robbery, and both simple and aggravated assault. The light gray area indicates that because of changes made to the victimization survey, data prior to 1992 are adjusted to make them comparable to data collected under the redesigned methodology. The adjustment methods are described in Criminal Victimization 1973-95.

All serious violent crimes: Murder, rape, sexual assault, robbery, and aggravated assault

Rates of serious violent crime per 1,000 persons

Victims' age	Rate
12 to 14	37
15 to 17	47
18 to 21	50
22 to 24	40
25 to 29	27
30 to 34	21
35 to 39	16
40 to 49	14
50 to 64	6
65 or older	3

- The average age of U.S. residents age 12 or older was almost 41.
- The average age of victims of serious violent crimes other than murder was 30 or under.

	Mean	Median
Overall U.S. population	40.9	39
Murder	34.6	30
Rape/sexual assault	26.6	23
Robbery	29.9	26
Aggravated assault	27.8	25

Murder

Rates of murder per 1,000 persons

<u>Victims' age</u>	<u>Rate</u>
12 to 14	0.03
15 to 17	0.13
18 to 21	0.26
22 to 24	0.23
25 to 29	0.18
30 to 34	0.14
35 to 39	0.11
40 to 49	0.08
50 to 64	0.05
65 or older	0.04

Murder, the least frequent violent crime, victimized fewer than 1 in 1,000 persons, age 12 or older.

<u>Violent crime</u>	<u>Total</u>
Murder	0.11
Rape/sexual assault	2.4
Robbery	6.1
Aggravated assault	11.6

Rape or sexual assault

Rates of rape or sexual assault
per 1,000 persons

Victims' age	Rate
12 to 14	3.6
15 to 17	5.9
18 to 21	7.6
22 to 24	6.4
25 to 29	2.2
30 to 34	3.0
35 to 39	2.1
40 to 49	1.5
50 to 64	0.3
65 or older	0.1

Rape or sexual assault

1 in 89 females 12-24 were rape/sexual assault victims

Rates per 1,000 females

Victims' age	Rates
12 to 14	6.7
15 to 17	12
18 to 21	13.8
22 to 24	11.8
25 to 29	3.7
30 to 34	5.4
35 to 39	4.0
40 to 49	2.6
50 to 64	0.6
65 or older	0.3

Robbery

Rates of robbery per 1,000 persons

<u>Victims' age</u>	<u>Rate</u>
12 to 14	12.6
15 to 17	12.4
18 to 21	12.8
22 to 24	10.3
25 to 29	7.9
30 to 34	7.2
35 to 39	4.9
40 to 49	4.4
50 to 64	2.5
65 or older	1.5

Age patterns of robbery victims fall into 5 distinct ranges: The 12-21 robbery rate is 6 times that of 50 or older.

Approximate robbery rates per 1,000 persons

Victim's age	Rate
12 to 21	13
22 to 24	10
25 to 34	8
35 to 49	5
50 or older	2

Aggravated assault

Rates of aggravated assault
per 1,000 persons

Victims' age	Rate
12 to 14	21.1
15 to 17	28.9
18 to 21	29.3
22 to 24	22.9
25 to 29	16.7
30 to 34	11.0
35 to 39	9.2
40 to 49	8.3
50 to 64	3.4
65 or older	1.2

Annual average number of victimizations, 1992-94

Age	Aggravated assault	Robbery	Rape/sexual assault	Murder
12 to 24	1,225,517	575,131	284,402	8,021
25 to 49	1,075,742	582,215	209,027	12,129
50+	151,236	129,798	15,006	2,743

Serious violent crime, by race and Hispanic origin

Victims' age	Rates of serious violent crime per 1,000 persons		
	White	Black	Hispanic
12 to 14	31.0	58.6	51.2
15 to 17	42.9	56.7	57.0

MESSAGE FROM THE DIRECTOR

In response to the acts of targeted violence occurring in this Nation, the U.S. Secret Service National Threat Assessment Center (NTAC) has published this research report titled, **Mass Attacks in Public Spaces – 2018**. The study was conducted for the specific purpose of identifying key information that will enhance efforts to prevent these types of attacks. The report is NTAC's second analysis of mass attacks carried out in public spaces, building upon the findings identified in its 2017 report.

These acts have impacted the safety and security of the places where we work, learn, dine, and conduct our daily activities. Each new tragedy, including the attack on a bank in Sebring, FL; a synagogue in Poway, CA; a university in Charlotte, NC; and the municipal center in Virginia Beach, VA; serves as a reminder that we must continue to research and provide robust training and awareness to help prevent these tragic outcomes.

NTAC's research and publications directly support our agency's protective mission, as well as the missions of those responsible for keeping our communities safe. Through this report, NTAC aims to assist law enforcement, schools, public agencies, private organizations, and others in understanding the motives, behavioral indicators, and situational factors of those who carry out mass attacks.

Empowering public safety professionals to combat this ever-evolving threat is a priority for our agency. I commend our community partners for their continued efforts, commitment, and determination to prevent targeted violence within the Homeland.

James M. Murray
Director

The U.S. Secret Service's National Threat Assessment Center (NTAC) was created in 1998 to provide guidance on threat assessment both within the U.S. Secret Service and to others with criminal justice and public safety responsibilities. Through the Presidential Threat Protection Act of 2000, Congress formally authorized NTAC to conduct research on threat assessment and various types of targeted violence; provide training on threat assessment and targeted violence; facilitate information-sharing among agencies with protective and/or public safety responsibilities; provide case consultation on individual threat assessment investigations and for agencies building threat assessment units; and, develop programs to promote the standardization of federal, state, and local threat assessment processes and investigations.

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

INTRODUCTION

On May 31, 2019, 12 innocent people were killed at the Virginia Beach Municipal Center in Virginia Beach, VA by an attacker who had reportedly resigned from his position at the municipal center earlier that day. While little else is yet known publicly about the attacker or his motive, this act of mass violence is the most recent example of targeted violence affecting a public space in the United States. Mitigating the risk of mass casualties from such an event requires the efforts of everyone with a role in public safety, a responsibility that is not limited to law enforcement. Other community stakeholders may also be in a position to intervene, including workplace managers, school administrators, local officials, and the mental health community, each of whom has a unique role to play in keeping communities safe.

To support these prevention efforts, the Secret Service National Threat Assessment Center (NTAC) is tasked with delivering research, training, consultation, and information sharing on threat assessment and the prevention of targeted violence, including targeted attacks directed at workplaces, houses of worship, schools, and other public spaces. The research and information produced by NTAC guides not only the Secret Service's approach to preventing assassinations, called *threat assessment*, but also informs the communitywide approach needed to prevent incidents of targeted violence.¹

This report is NTAC's second analysis of mass attacks that were carried out in public spaces, and it builds upon *Mass Attacks in Public Spaces – 2017* (MAPS-2017). In MAPS-2017, NTAC found that attackers from that year were most frequently motivated by grievances related to their workplace or a domestic issue. All of the attackers had recently experienced at least one significant stressor, and most had experienced financial instability. Over three-quarters of the attackers had made threatening or concerning communications, and a similar number had elicited concern from others. Further, most had histories of criminal charges, mental health symptoms, and/or illicit substance use or abuse.

With this latest report, *Mass Attacks in Public Spaces – 2018* (MAPS-2018), the Secret Service offers further analysis and operational considerations to our partners in public safety.² Between January and December 2018, 27 incidents of mass attacks – in which three or more persons were harmed – were carried out in public spaces within the United States.³ In total, 91 people were killed and 107 more were injured in locations where people should feel safe, including workplaces, schools, and other public areas.⁴ The loss of life and traumatic nature of these attacks had a devastating impact on the victims and their families, local communities, and the entire nation.

What is Threat Assessment?

In the 1990s, the U.S. Secret Service pioneered the field of threat assessment by conducting research on the targeting of public officials and public figures. The agency's Threat Assessment Model offered law enforcement and others with public safety responsibilities a systematic investigative approach to identify individuals who exhibit threatening or concerning behavior, gather information to assess whether they pose a risk of harm, and identify the appropriate interventions, resources, and supports to manage that risk.

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

Regardless of whether these attacks were acts of workplace violence, domestic violence, school-based violence, or inspired by an ideology, similar themes were observed in the behaviors and circumstances of the perpetrators,⁵ including:

- Most of the attackers utilized *firearms*, and half *departed the site on their own* or *committed suicide*.
- Half were motivated by a *grievance* related to a domestic situation, workplace, or other personal issue.
- Two-thirds had histories of *mental health symptoms*, including *depressive, suicidal, and psychotic symptoms*.
- Nearly all had at least one *significant stressor* within the last five years, and over half had indications of *financial instability* in that timeframe.
- Nearly all made *threatening or concerning communications* and more than three-quarters *elicited concern* from others prior to carrying out their attacks.

The violence described in this report is not the result of a single cause or motive. The findings emphasize, however, that we can identify warning signs prior to an act of violence. While not every act of violence will be prevented, this report indicates that targeted violence may be *preventable*, if appropriate systems are in place to identify concerning behaviors, gather information to assess the risk of violence, and utilize community resources to mitigate the risk.

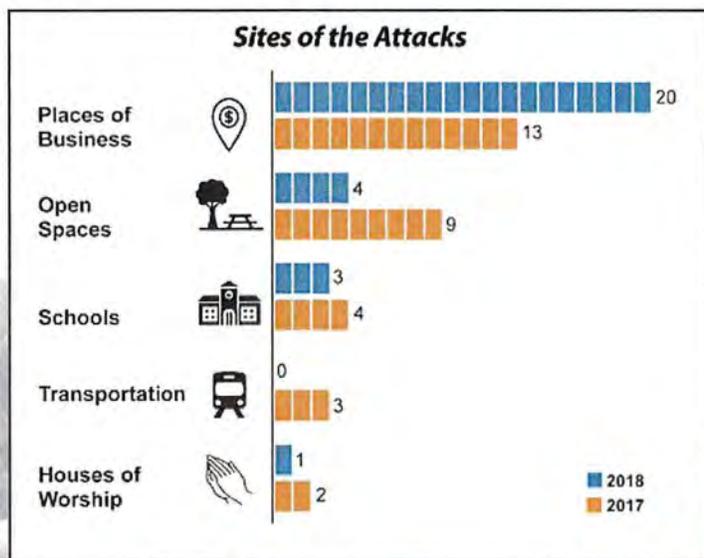

United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER

THE INCIDENTS

THE WEAPONS: Though most of the attacks were carried out using a firearm ($n = 24, 89\%$), three attackers used vehicles to cause harm (11%).⁶ Of the 24 who used firearms, at least 10 possessed their weapon illegally at the time of the incident. Two of those ten were minors. The remaining eight had felony convictions, were the subjects of protective orders, or had some other factor present that would have prohibited them from purchasing or possessing a firearm based on federal or state laws.⁷

THE PUBLIC SITES: The 27 incidents were carried out in 18 states, at 28 different sites, with most ($n = 20, 70\%$) occurring at places of business (see Figure 1). Those that took place in open spaces ($n = 4$) represented 14% and included such locations as a public sidewalk, street, and parking lot. Three attacks (11%) were carried out at high schools. One attack (4%) took place in a house of worship.

**United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER**

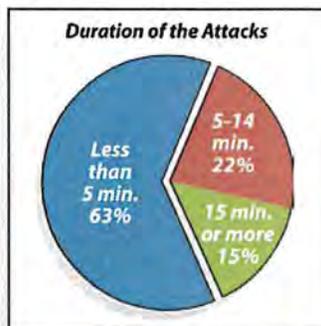

THE TIMING: The attacks took place in every month except December and occurred on every day of the week (see Figure 2). Over half ($n = 16$, 59%) took place between the hours of 7:00 a.m. and 3:00 p.m. More than half ($n = 17$, 63%) of the attacks ended within 5 minutes from when the incident was initiated (see Figure 3).

END OF THE ATTACKS: The most common ways the attacks ended were either by the attacker committing suicide at the scene ($n = 7$, 26%) or departing on their own ($n = 7$, 26%). Three of those who departed the scene on their own committed suicide soon after. Law enforcement intervention at the site brought six attacks to an end (22%). In four of these incidents, the attacker was killed. Other attacks ended when the weapon used became inoperable ($n = 4$, 15%) or due to bystander intervention ($n = 2$, 7%).

Figure 2.

Figure 3.

Attacks Perpetrated By Current Employees

On September 12, 2018, an employee shot and killed his ex-wife and two co-workers near his workplace. Though divorced that April, the ex-wife had recently filed for additional support. The attacker fled the scene and later committed suicide when confronted by police.

On September 19, 2018, an employee opened fire inside his employer's offices, injuring four before being fatally shot by police. The attacker's targets appeared to be random, and his motive is unknown.

On September 20, 2018, a temporary employee opened fire at a distribution center, killing three people and injuring three others before committing suicide. The attacker's motive may have been related to a grievance with co-workers.

On November 12, 2018, an employee shot and injured three individuals at a food distribution warehouse. After fleeing the scene, the attacker called police and reported that his actions were motivated by mental illness. He later committed suicide.

United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER

THE ATTACKERS

GENDER AND AGE: While most of the attackers were male ($n = 25$, 93%), there was one female and one individual in the process of gender reassignment. Their ages ranged from 15 to 64, and the average age was 37 (see Figure 4).

YOUNGEST: *On January 23, 2018, a 15-year-old sophomore began shooting students randomly in a common area at his high school, killing two and injuring ten. When the attacker ran out of bullets, he abandoned his gun and joined other students who had been hiding. After the students were moved to another room, police identified the attacker and arrested him. The student had planned the attack for about a week, and he did not target any particular students, describing his attack as "an experiment."*

OLDEST: *On March 7, 2018, a 64-year-old male walked into a local cafe and asked to see the owner, with whom he had a disagreement weeks prior. When the owner appeared, the attacker shot him several times with a rifle, killing him. He then proceeded to shoot cafe patrons, injuring two and killing one. After the attacker ran out of bullets, he fled to his nearby home and barricaded himself inside. He eventually surrendered to police.*

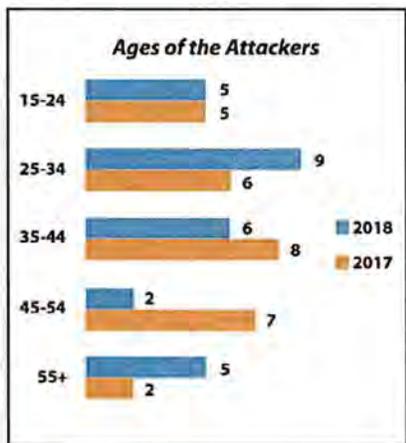

SUBSTANCE USE: Nearly one quarter of the attackers ($n = 6$, 22%) were found to have a history of illicit drug use and/or substance abuse.

CRIMINAL CHARGES AND DOMESTIC VIOLENCE: Approximately half of the attackers ($n = 13$, 48%) had histories of criminal charges beyond minor traffic violations. Those charges included both non-violent ($n = 10$, 37%) and violent ($n = 6$, 22%) offenses.

Looking specifically at the issue of domestic violence, eight attackers (30%) were found to have had such histories, with only some of those instances resulting in criminal charges or arrests.⁸

On September 19, 2018, a man shot and injured his wife, two bystanders, and a police officer in a municipal building. At the time of the attack, he was subject to a protective order resulting from incidents in which he assaulted and threatened to kill his wife because she wanted a divorce. About a month prior to his attack, he was arrested after he threatened to kill his wife and choked her with a belt. A judge agreed to issue a protective order; however, he denied the wife's request that her husband be ordered to relinquish his firearms.

Figure 4.

**United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER**

MENTAL HEALTH: Two-thirds of the attackers ($n = 18$, 67%) experienced mental health symptoms prior to their attacks. The most common symptoms observed were related to depression and psychotic symptoms, such as paranoia, hallucinations, or delusions. Suicidal thoughts were also observed (see Table 1). Nearly half of the attackers ($n = 12$, 44%) had been diagnosed with, or treated for, a mental illness prior to their attacks.

On May 24, 2018, a man opened fire on the patrons of a restaurant, injuring one adult and two children. His motive for the attack is not known, but he was demonstrating symptoms of a mental illness, including suicidal thoughts and paranoid delusions about being taunted by demons and watched by a drone. In videos posted online shortly before the attack, the man said that everyone was against him and he felt tortured and alone. He said, "My life is in danger...Satan is after me."

Table 1.

Mental Health Symptoms	2017	2018
	<i>n</i>	<i>n</i>
Depression	4	10
Psychotic Symptoms	9	10
<i>Paranoia</i>	6	9
<i>Delusions</i>	2	5
<i>Hallucinations</i>	6	1
Suicidal Thoughts	6	8

NATIONAL THREAT ASSESSMENT CENTER**

MOTIVES, BELIEFS, & TARGETING

MOTIVES: The violence in this study resulted from a range of motives, with some attackers having multiple motives. In half of the incidents ($n = 14$, 52%), grievances appeared to be the main motivating factor. In these cases, the attackers were retaliating for perceived wrongs related to their domestic situations ($n = 6$, 22%), workplaces ($n = 3$, 11%), or other personal issues ($n = 6$, 22%), for example, losing a video game competition or having an argument with an owner of a retail establishment (see Table 2).⁹

Beyond grievances, some motives were related to the attackers' mental health symptoms ($n = 5$, 19%), while others were connected to ideological beliefs ($n = 2$, 7%). Of the two perpetrators motivated by an ideology, one was motivated by anti-abortion beliefs while the other was motivated by anti-Semitic beliefs. Additionally, one attacker appeared to have been motivated by the desire for fame or notoriety. For the remaining incidents ($n = 6$, 22%), a motive was not identifiable given information that was publicly available.

Table 2.

Components to Motive	2017	2018
Grievances	46%	52%
<i>Domestic</i>	18%	22%
<i>Personal</i>	7%	22%
<i>Workplace</i>	21%	11%
Mental Health/Psychosis	14%	19%
Ideological	21%	7%
Fame	4%	4%
Political	4%	0%
Unknown	14%	22%
<i>*Percentages exceed 100 as some attackers had more than one motive.</i>		

BELIEFS: While only two of the attacks were primarily motivated by an ideology, nearly one-third of the attackers ($n = 8$, 30%) appeared to have subscribed to a belief system that has previously been associated with violence. Often the attackers' beliefs were multifaceted and touched on a range of issues, including white supremacy, anti-Semitism, conspiracy theories, sovereign citizens, animal rights, and the "incel" movement. Incels, or involuntarily celibates, are members of an Internet-based subculture of heterosexual males who view themselves as undesirable to females and therefore unable to establish romantic or sexual relationships to which they feel entitled.

Mass Attacks in Public Spaces - 2018

LIMITED TO OPEN SOURCE INFORMATION

7

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

FIXATIONS: Two-fifths of the attackers ($n = 11$, 41%) exhibited a fixation, defined as an intense or obsessive preoccupation with a person, activity, or belief to the point that it negatively impacted aspects of their lives. The focuses of these fixations included an ex-girlfriend, wife, or other females in the subjects' lives; perceived injustices; delusions; sociopolitical ideologies; and video games. The behaviors that demonstrated these fixations included, but were not limited to, posting written material or videos online, stalking or harassing others, and filing lawsuits or complaints to police.

On June 28, 2018, a man shot and killed five employees in a newspaper office. Six years prior, he had sued the newspaper and some of its employees for alleged defamation. He became fixated on the case, stating in 2013 that it had "become [his] life." He created social media profiles to impersonate people involved in the court proceedings. After the lawsuit was dismissed, he continued to file related court documents.

TARGETING: In 11 cases (41%), the attacker appeared to have pre-selected targets in mind. Seven of those attacks resulted in harm to both the targeted person and random bystanders, and in three cases the harm was restricted to just those specifically targeted. In the remaining case, when the attacker could not find his intended targets at their workplaces, he randomly fired at other people associated with the office. In nearly two-thirds of the attacks ($n = 16$, 59%) harm was directed at persons indiscriminately.

On October 27, 2018, a man opened fire indiscriminately inside a synagogue. Eleven people were killed and six more were wounded before he was shot and apprehended by police. The attacker had previously accused a Jewish-founded refugee advocacy group of helping to transport refugees, whom he referred to as "invaders," from Central America into the United States. When he later attacked the synagogue, he reportedly targeted a specific Jewish congregation in the building that had previously partnered with that refugee aid group.

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

KEY INVESTIGATIVE THEMES

SIGNIFICANT STRESSORS WITHIN FIVE YEARS: Most ($n = 23$, 85%) attackers had at least one significant stressor occur in their lives in the five years preceding the attack. For three-quarters of the attackers ($n = 20$, 74%), the stressors they experienced occurred within one year of the attack. Beyond the criminal charges described earlier, the stressors most often faced by the attackers were related to:

- **Family/romantic relationships**, such as the death of a loved one, divorce, a broken engagement, or physical or emotional abuse.
- **Work or school**, such as being denied a promotion, losing a job, or being forced to withdraw from school.
- **Contact with law enforcement that did not result in arrests or charges**, including law enforcement responding to reports of inappropriately touching women, domestic violence, or engaging in other violent acts towards others.
- **Personal issues**, such as homelessness or losing a competition.

Over half of the attackers ($n = 15$, 56%) experienced stressors related to *financial instability* in the five-year period prior to their attacks. These financial stressors were evidenced through the inability to sustain employment, losing civil judgements in court, filing for bankruptcy, loss of income, or having to rely on others for income.

On April 3, 2018, a female opened fire at the headquarters of a video sharing website, injuring three people. The attacker had supported herself financially using the ad revenue generated by videos that she posted to the company's website, some of which had received hundreds of thousands of views. Prior to the attack, the woman had expressed her anger at the company over recent policy changes that resulted in a loss of income. Following the attack, her father reported that she had been angry for weeks and complaining that the company had ruined her life.

THREATS AND OTHER CONCERNING COMMUNICATIONS: Nearly all of the attackers ($n = 25$, 93%) engaged in prior threatening or concerning communications. One-third had threatened someone ($n = 10$, 37%), including threats against the target in six cases (22%). Most of those who made threats against the target had a direct relationship with them, as a co-worker, domestic partner, classmate, member of the same treatment facility, or peer in a competition. Though the presence of prior threats to the target is unusual for some forms of targeted violence (e.g., assassination), threats are often seen in cases motivated by domestic or workplace issues, which together represent one-third of these mass attacks ($n = 9$, 33%).

All but four attackers ($n = 23$, 85%) made some type of communication that did not constitute a direct threat, but should have elicited concern. Some of these concerning communications included expressing interest in previous attackers, racist and misogynistic comments, referencing a desire to purchase a gun, and comments that suggest an aspiration to commit future violence.

On February 14, 2018, a former student opened fire at his prior high school, killing 14 students and 3 staff, and wounding an additional 17. The attacker had a long history of behavioral problems and concerning communications. While enrolled at the targeted high school, he was known by classmates to make racist and anti-Semitic comments and to speak openly about

**United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER**

his guns. A year prior to the attack, someone who knew the attacker contacted local law enforcement to report that the attacker had posted on Instagram a photo of himself holding a gun and a statement similar to, "I am going to get this gun when I turn 18 and shoot up the school." Another concerned individual notified law enforcement of the attacker's concerning social media posts about a month before the shooting.

HISTORY OF ELICITING CONCERN: Most of the attackers ($n = 21$, 78%) in this report exhibited behaviors that caused concern in others. Those who were concerned had various degrees of association with the attackers, from those who were close to them, to strangers in the community who may have never met the attacker before.

The Behaviors that Elicited Concern

- Social media posts with alarming content
- Escalating anger or aggressive behavior
- Changes in behavior and appearance
- Expressions of suicidal ideations
- Writing about violence or weapons
- Cutting off communications
- Inappropriate behavior toward females
- Stalking and harassing behaviors
- Increased depression
- Increased drug use
- Erratic behavior
- Purchasing weapons
- Threats of domestic violence
- Acting paranoid

The responses from others to these behaviors varied from more passive activities like avoiding the attacker, to more active efforts like transporting the person for a mental health evaluation. The ways in which people responded to their concerns included:

- Mothers and fathers seeking therapy for the attacker, calling police, confiscating weapons, or searching for the person when they could not be reached.
- Family and friends making efforts to spend more time with the attacker.
- Online community members calling police.
- Fellow students telling school staff about their concerns.
- Law enforcement getting the attacker to undergo a mental health evaluation, revoking firearms licenses, or asking family to consensually restrict access to weapons.
- Employers firing them or calling their family members to express concern.
- Co-workers checking on them or suggesting counseling.
- Members of the community asking them to leave business establishments or treatment programs, sometimes resorting to calling law enforcement.

Who Was Concerned

- Mothers & Fathers
- Romantic Partners
- Siblings & Children
-
- Friends & Neighbors
-
- School Staff & Classmates
-
- Supervisors & Coworkers
-
- Mental Health Professionals
-
- Law Enforcement
- Judges & Attorneys
- Community Services
-
- Community Members
- Religious Leaders
-
- Online Community

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

For the majority of the attackers ($n = 19$, 70%), the concern others felt was so severe that they feared specifically for the safety of the individual, themselves, or others. Some of those concerned for their own safety acted on that fear by filing for divorce, ceasing communications, filing for restraining or protection orders, asking loved ones to stay with them out of fear, changing their daily routines, moving, or warning their own family and friends about their concerns. In one case, a person shared photos of the attacker so that others could remain alert and call the police if needed.

On November 2, 2018, a man opened fire inside a yoga studio, killing two and injuring five. From adolescence, others had expressed concerns about his behavior around women and girls. According to police investigative records and other sources, his conduct had resulted in the man being discharged from the Army, fired from two teaching jobs, reported to law enforcement, arrested and investigated by police on multiple occasions, banned from a university campus, asked to leave a child's party, and avoided by acquaintances and former friends.

United States Secret Service
NATIONAL THREAT ASSESSMENT CENTER

**MASS ATTACKS IN PUBLIC SPACES
2017 & 2018**

Many of the key findings in both the 2017 and 2018 reports reflect similarities among the incidents and the attackers. For example, attacks occurred across the country and attackers predominantly used firearms. The majority of attackers elicited concern in others and two-thirds had histories of mental health symptoms or treatment. A majority of the attackers had recently experienced significant stressors, with just over half of the attackers experiencing financial instability in that same timeframe.

Table 3.

General Backgrounds	2017	2018
Gender - Male	100%	93%
Age: Range	15-66	15-64
<i>Average</i>	37	37
Illicit drug use or substance abuse	54%	22%
History of criminal charge(s)	71%	48%
<i>Non-violent</i>	57%	37%
<i>Violent</i>	54%	22%
History of domestic violence	32%	30%
Overall history of violence	64%	44%

Elicited concern	79%	78%
<i>Concern about safety</i>	46%	70%

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

CONSIDERATIONS

Like the year before, 2018 saw incidents of mass violence impact the places where we work, learn, worship, or otherwise conduct our daily activities. Consistent with previous research from the Secret Service, these attacks were found to be motivated by a variety of goals, grievances, and ideologies. The attackers varied widely on demographic factors, and while there is no single profile that can be used to predict who will engage in targeted violence, focusing on a range of concerning behaviors while assessing threats can help promote early intervention with those rare individuals that pose such a risk.

- **Mental health and mental wellness** – Mental illness, alone, is not a risk factor for violence, and most violence is committed by individuals who are not mentally ill. Two-thirds of the attackers in this study, however, had previously displayed symptoms indicative of mental health issues, including depression, paranoia, and delusions. Other attackers displayed behaviors that do not indicate the presence of a mental illness, but do show that the person was experiencing some sort of distress or an emotional struggle. These behaviors included displays of persistent anger, an inability to cope with stressful events, or increased isolation. A multidisciplinary approach that promotes emotional and mental wellness is an important component of any community violence prevention model. For example, a robust employee assistance program (EAP) can help to promote mental wellness in the workplace, whether that involves facilitating mental health treatment or assisting with other personal problems, like substance abuse, financial struggles, or problems in a personal relationship.
- **The importance of reporting** – Since three-quarters of the attackers had concerned the people around them, with most of them specifically eliciting concerns for safety, the public is encouraged to share concerns they may have regarding coworkers, classmates, family members, or neighbors. Such reports could be made to workplace managers, school administrators, or law enforcement, as appropriate. While over-reporting is not the goal, a reasonable awareness of the warning signs that can precede an act of violence may prompt community members to share their concerns with someone who can help. Systems can be developed to promote and facilitate such reporting, and people should be encouraged to trust their instincts, especially if they have concerns for someone's safety. For example, several states have recently developed statewide reporting infrastructures that allow students and others to utilize a smartphone app to submit anonymous tips to a call center staffed by law enforcement. This type of program can facilitate not only a law enforcement response to reported threats, but also a community-level response to reports of bullying, suicidal ideation, self-harm, or depression.
- **"...Do Something"** – Since 2010, the Department of Homeland Security has effectively promoted the "If You See Something, Say Something" national campaign, originally developed by New York City's Metropolitan Transportation Authority, which encourages the reporting of suspicious activity. In many of these cases from 2018, members of the general public successfully performed their role in the "See Something, Say Something" process, by reporting their concerns to someone with a role in public safety. At that point, the responsibility is on the public safety professionals to "Do Something," namely assessing the situation and managing as needed. By adopting a multidisciplinary threat assessment approach, that standardizes the process for identifying, assessing, and managing individuals who may pose a risk of violence, law enforcement and others are taking steps to ensure that those individuals who have elicited concern do not "fall through the cracks."

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

- **Law enforcement partnerships** – While law enforcement has a key role to play in the prevention of community violence, intervening with individuals who may pose a risk is not the responsibility of law enforcement alone. Particularly in those instances where a concerning individual has not broken a law, the relationships between law enforcement and other community resources become paramount. Law enforcement personnel are encouraged to continue developing close partnerships with the mental health community, local schools and school districts, houses of worship, social services, and other private and public community organizations. The mission of law enforcement in the United States is public service oriented, and that mission will be most effectively executed through multidisciplinary and collaborative community efforts.

Targeted violence has a profound and devastating impact on those directly involved and a far reaching emotional impact to those beyond. Because these acts are usually planned over a period of time, and the attackers often elicit concern from the people around them, there exists an opportunity to stop these incidents before they occur. *Threat assessment* is one of the most effective practices for prevention. Many of the resources to support this process are already in place at the community level, but require leadership, collaboration, and information sharing to facilitate their effectiveness at preventing violence.

The Importance of Threat Assessment

“Threat assessment” refers to a proactive approach to violence prevention. It is an investigative model originally developed by the U.S. Secret Service to prevent assassinations, but has since been adapted to prevent all forms of targeted violence, regardless of motivation. This includes K-12 school shootings and acts of workplace violence. When implemented effectively, a threat assessment generally involves three key components:

Identify → Assess → Manage

Research indicates that the majority of perpetrators of targeted violence elicit concern in others prior to the attack. We rely on those people who observe such concerns to *identify* the individual to law enforcement or to someone else with a public safety responsibility. In educational settings or workplaces, concerns may be reported to a multidisciplinary threat assessment team that works in conjunction with law enforcement when needed. The responsible public safety entity is then tasked to *assess* the situation to determine how they can *manage* any risk of violence posed by the individual. With a focus on early intervention, this systematic approach is an important component of any safety plan. It allows communities to respond appropriately to a broad range of situations, from those individuals who are displaying a low-level concerning behavior to those who may pose an immediate and imminent risk of violence.

United States Secret Service NATIONAL THREAT ASSESSMENT CENTER

THE INCIDENTS

- 1) On January 23, a student fatally shot two and injured ten at a high school in Benton, KY.
- 2) On January 28, a gunman fatally shot four in a parking lot in Melcroft, PA.
- 3) On February 14, a former student fatally shot 17 and injured another 17 at a high school in Parkland, FL.
- 4) On February 14, a man drove a truck into a clinic, injuring three in East Orange, NJ.
- 5) On March 7, a gunman fatally shot two and injured two inside a restaurant in Hurtsboro, AL.
- 6) On March 9, a gunman fatally shot three at a treatment facility in Yountville, CA.
- 7) On April 3, a woman shot and injured three at the headquarters of a video sharing website in San Bruno, CA.
- 8) On April 22, a gunman fatally shot four and injured four others in a restaurant in Antioch, TN.
- 9) On May 18, a student fatally shot 10 and injured 13 at a high school in Santa Fe, TX.
- 10) On May 20, a man drove a vehicle into a restaurant, killing two and injuring three in Bessemer City, NC.
- 11) On May 24, a gunman injured three in a restaurant in Oklahoma City, OK.
- 12) On May 25, a man drove a vehicle onto a sidewalk, injuring three in Portland, OR.
- 13) On June 1, a gunman killed two at a law firm, followed by one at a psychologist's office, in Scottsdale, AZ.
- 14) On June 28, a gunman killed five in a newsroom in Annapolis, MD.
- 15) On July 5, a gunman injured six in the street near the oceanfront in Virginia Beach, VA.
- 16) On August 26, a gunman fatally shot two and injured nine at a video game competition in Jacksonville, FL.
- 17) On September 6, a gunman fatally shot three and injured two at a bank in Cincinnati, OH.
- 18) On September 12, a gunman fatally shot three in front of a trucking company in Bakersfield, CA.
- 19) On September 19, a gunman injured four at a municipal center in Masontown, PA.
- 20) On September 19, a gunman injured four in an office building in Middleton, WI.
- 21) On September 20, a gunman fatally shot three and injured three at a warehouse in Aberdeen, MD.
- 22) On October 27, a gunman fatally shot 11 in a synagogue in Pittsburgh, PA.
- 23) On November 2, a gunman fatally shot two and injured five in a yoga studio in Tallahassee, FL.
- 24) On November 5, a gunman fatally shot one and injured two at a drug treatment center in San Rafael, CA.
- 25) On November 7, a gunman fatally shot 11 and injured at least two at a bar in Thousand Oaks, CA.
- 26) On November 12, a gunman injured three at a food distribution warehouse in Albuquerque, NM.
- 27) On November 19, a gunman fatally shot three at a hospital in Chicago, IL.

¹ Additional threat assessment resources and publications from the National Threat Assessment Center are available on the U.S. Secret Service website, located at <https://www.secretservice.gov/protection/ntac/>.

² The limitations of open source information should be considered when reviewing the findings contained in this report. Since information for a few of the offenders was limited, it is likely that a larger number than reported here may have displayed the behaviors, symptoms, and other background elements described here.

³ The incidents included in this report were identified and researched through open source reporting (e.g., media sources and released law enforcement records); therefore, it is possible that more incidents took place than were discovered at the time of this writing. Though there is much debate as to what defines a *mass attack*, for the purpose of this report we included acts of intentional violence in public spaces (e.g., parks, community events, retail establishments) or semi-public places (e.g., workplaces, schools, religious establishments) during which significant harm was caused to three or more persons. We excluded violence related to criminal acts (e.g., gang or drug activity), failed attempts at a mass attack, and spontaneous violence.

⁴ In two incidents, the attackers harmed additional persons that were not included in the total number killed and injured, based on the criteria for this report. In one case, the attacker killed two individuals at a private residence following his attack in a public space. In another case, the attacker had killed one person the day prior to the mass attack. Further, the total of those harmed only included individuals that were harmed as a direct result of the subject's actions. Injuries sustained while fleeing the scene, for example, were not included.

⁵ This report was prepared for educational and research purposes. The background and behaviors reported herein are of those individuals who: 1) were arrested for the act; 2) died at the scene; or 3) died immediately following the attack. Actions attributed to individuals who have been arrested, indicted, or charged in these incidents are merely allegations, and all are presumed innocent until proven guilty beyond a reasonable doubt in a court of law.

⁶ In one attack, the attacker used a combination of a firearm and smoke/flash-bang grenades. In another attack, the subject brought explosives to the school, but they were not used in the attack and were determined to be inoperable.

⁷ Though illegal drug use within the previous year is one of the disqualifying factors for possessing a firearm under federal law, it was not considered in this review as information was not available to confirm active use within one year of the incident.

⁸ For the purpose of this report, *domestic violence* was defined as physical force or the threat of imminent bodily harm inflicted on a romantic partner, parent/guardian, or child (of the assailant or romantic partner). If an attacker was classified as having a history of domestic violence against a parent or child, the perpetrator and the victim must have resided at the same location.

⁹ One subject had both domestic and personal grievances as part of his motive for the attack.

U.S. Department of Education
Office for Civil Rights

2015-16 CIVIL RIGHTS DATA COLLECTION SCHOOL CLIMATE AND SAFETY

DATA HIGHLIGHTS ON SCHOOL CLIMATE AND SAFETY IN OUR NATION'S PUBLIC SCHOOLS

What's the 2015-16 Civil Rights Data Collection?

The 2015-16 Civil Rights Data Collection (CRDC) is a survey of public schools and school districts in the United States. The CRDC measures student access to courses, programs, staff, and resources that impact education equity and opportunity for students. The CRDC has long provided critical information used by the Department of Education's Office for Civil Rights in its enforcement and monitoring activities.

In addition, the CRDC is a valuable resource for other federal agencies, policymakers, researchers, educators, school officials, parents, students, and other members of the public who seek data on student equity and opportunity. To further explore the CRDC data through the use of data tools, please visit the CRDC Reporting Website at ocrdata.ed.gov. To download the CRDC data, visit crdc.ed.gov.

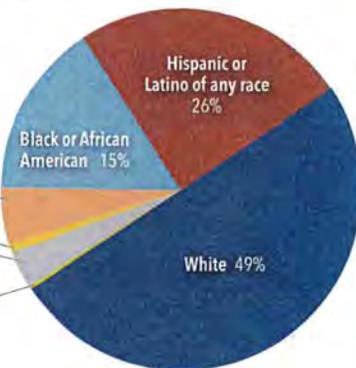

Who's in the 2015-16 CRDC?

Number of school districts: 17,337
Number of schools: 96,360
Total number of students: 50.6 Million

Nationwide Student Demographics:

Race/Ethnicity:¹

- Asian 5%
- American Indian or Alaska Native 1%
- Two or more races 3%
- Native Hawaiian or Other Pacific Islander 0.4%

Boys: 51% Girls: 49%

English Learners: 10%

Students with Disabilities: 14%

- Students with disabilities served under the Individuals with Disabilities Education Act (IDEA): 12%
- Students with disabilities served only under Section 504 of the Rehabilitation Act, as amended: 2%

SCHOOL CLIMATE AND SAFETY†

School climate generally refers to interrelated aspects of the quality and character of school life. This issue brief focuses on one element of school climate: safety. To evaluate how safe students are at school, the CRDC collects data on serious offenses, law enforcement referrals and school-related arrests, harassment or bullying, restraint and seclusion, and school discipline.

Serious Offenses

Figure 1 shows the number of incidents of serious offenses.² During the 2015-16 school year, nearly 1.1 million incidents of serious offenses were reported in public schools across the nation.³

The categories of (a) physical attack or fight *without* a weapon, and (b) threats of physical attack *without* a weapon, accounted for 94 percent of all reported incidents of serious offenses. About 787,200 (75 percent) incidents of physical attack or fight *without* a weapon, and about 197,900 (19 percent) incidents involving a threat of physical attack *without* a weapon were reported.

School districts also reported approximately 22,600 (2 percent) incidents of robbery *without* a weapon, and 11,700 (1 percent) incidents of a physical attack or fight *with* a weapon. Each of the other offenses accounted for less than 1 percent of the total.

FIGURE 1: Number of incidents of serious offenses

Type of incident	Number
Physical attack or fight <i>without</i> a weapon	787,200
Threats of physical attack <i>without</i> a weapon	197,900
Robbery <i>without</i> a weapon	22,600
Physical attack or fight <i>with</i> a weapon	11,700
Threats of physical attack <i>with</i> a weapon	10,400
Sexual assault (other than rape)	9,300
Possession of a firearm or explosive device	5,900
Threats of physical attack <i>with</i> a firearm or explosive device	3,400
Physical attack or fight <i>with</i> a firearm or explosive device	2,800
Rape or attempted rape	400
Robbery <i>with</i> a weapon	620
Robbery <i>with</i> a firearm or explosive device	250

SOURCE: U.S. Department of Education, Office for Civil Rights, Civil Rights Data Collection, 2015-16.

In addition to the foregoing incidents of serious offenses, for the first time, the CRDC required schools to report on school-related shootings and school-related homicides. Nearly 230 schools (0.2 percent of all schools) reported at least 1 incident involving a school-related shooting, and over 100 schools (0.1 percent of all schools) reported a school-related homicide involving a student, faculty member, or staff member. About 1 out of every 100,000 students was enrolled in a school that reported a school-related shooting or school-related homicide during the 2015-16 school year.

Note: The total number of school-related shootings or the total number of school-related homicides are not reported. The data reflect the number of schools that had at least one incident of a school-related shooting or school-related homicide.

Law Enforcement Referrals and School-Related Arrests

Referral to law enforcement is an action by which a student is reported to any law enforcement agency or official, including a school police unit, for an incident that occurs on school grounds, during school-related events, or while taking school transportation. School-related arrest refers to an arrest of a student for any activity conducted on school grounds, during off-campus school activities (including while taking school transportation), or due to a referral by any school official.⁴ All arrests are considered referrals to law enforcement. During the 2015-16 school year, over 290,600 students were referred to law enforcement agencies or arrested.

REFERRALS TO LAW ENFORCEMENT AND ARRESTS BY RACE AND SEX

Figure 2 presents the percentage distribution of students referred to law enforcement or subjected to school-related arrests, by race. During the 2015-16 school year, black students represented 15 percent of the total student enrollment, and 31 percent of students who were referred to law enforcement or arrested – a 16 percentage point disparity.⁵ During the 2013-14 school year, black students had an 11 percentage point disparity (black students were 16 percent of the student enrollment and 27 percent of students referred to law enforcement or arrested). During the 2015-16 school year, white students represented 49 percent of the total student enrollment, and accounted for 36 percent of those referred to law enforcement or arrested. During the 2013-14 school year, white students were 50 percent of the student enrollment and 38 percent of students who were referred to law enforcement or arrested.

During the 2015-16 school year, American Indian or Alaska Native students, Native Hawaiian or Other Pacific Islander students, and students of two or more races were referred to law enforcement or arrested at rates approaching their overall student enrollment. Together, these students represented almost 5 percent of the total student enrollment, and accounted for 8 percent of students who received a referral to law enforcement or were arrested. During the 2013-14 school year, American Indian or Alaska Native students, Native Hawaiian or Other Pacific Islander students, and students of two or more races had a collective enrollment of 5 percent and were 10 percent of students referred to law enforcement or arrested.

Latino, Asian, and white students were not referred to law enforcement or arrested at a percentage higher than their overall student enrollment during the 2015-16 school year.⁶ This is consistent with the 2013-14 school year, where these students were not referred to law enforcement or arrested at a percentage higher than their overall enrollment.

Male students were referred to law enforcement or arrested more than female students. Males represented 51 percent of all enrolled students, and 69 percent of those who received a referral to law enforcement or were arrested during the 2015-16 school year. Males were 51 percent of the student enrollment and 71 percent of students referred to law enforcement or arrested during the 2013-14 school year.

FIGURE 2: Percentage distribution of students referred to law enforcement or subjected to school-related arrests, by race

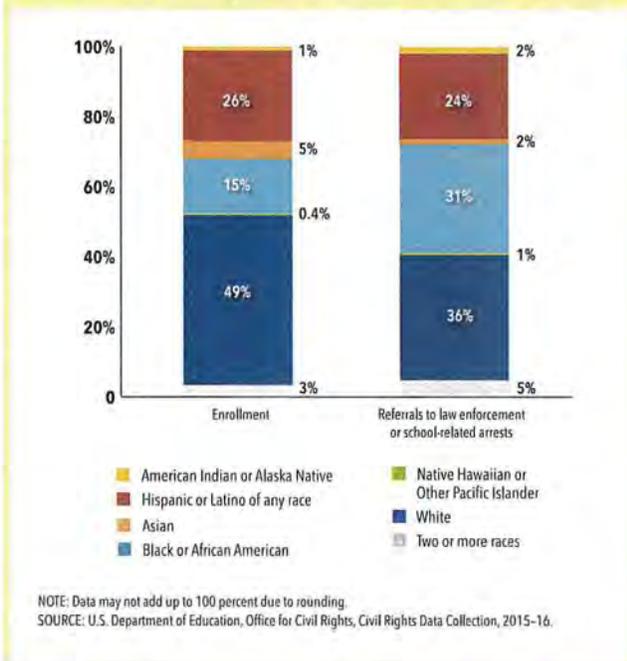

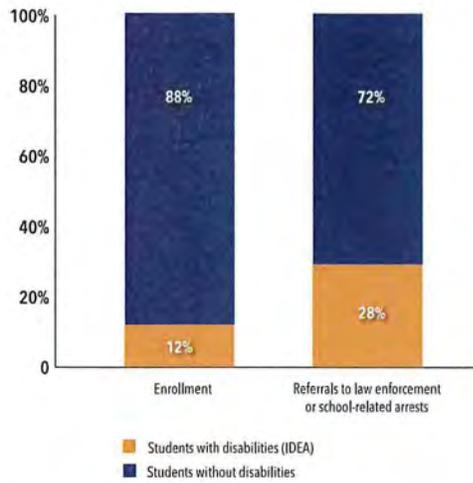

FIGURE 3: Percentage distribution of students referred to law enforcement or subjected to school-related arrests, by disability (IDEA)

SOURCE: U.S. Department of Education, Office for Civil Rights, Civil Rights Data Collection, 2015-16.

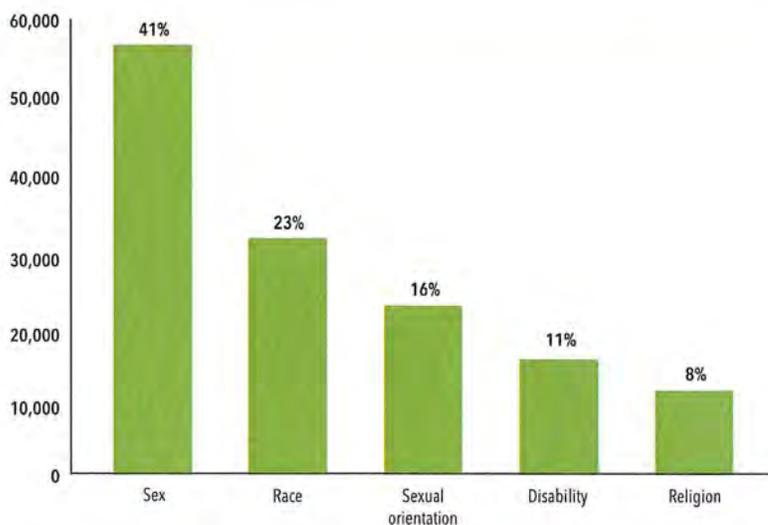

REFERRALS TO LAW ENFORCEMENT AND ARRESTS BY DISABILITY (IDEA)

Approximately 82,500 of the 290,600 total students referred to law enforcement or arrested were students with disabilities (IDEA).⁷ **Figure 3** shows the percentage distribution of students referred to law enforcement or subjected to school-related arrests, by disability (IDEA). Students with disabilities (IDEA) represented 12 percent of the overall student enrollment and 28 percent of students referred to law enforcement or arrested.

Harassment or Bullying

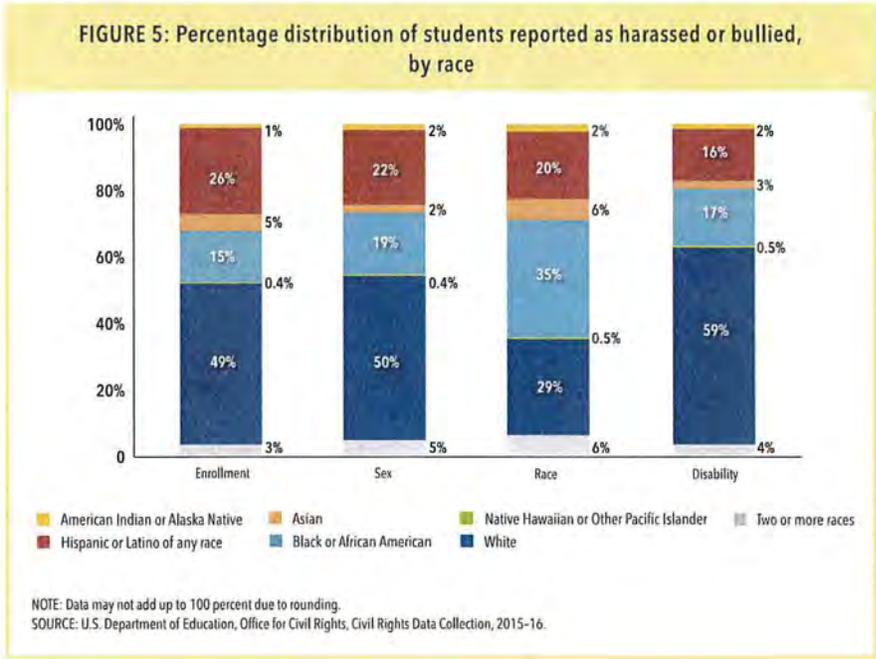

Harassment or bullying is intimidation or abusive behavior toward a student from another student, school employee, or non-school employee third party. It can take many forms, including verbal name-calling, insults, or intimidation, as well as non-verbal acts or behavior such as graphic or written statements, or conduct that is physically threatening, harmful, or humiliating. The CRDC collects data on allegations of harassment or bullying on the basis of sex; race, color, or national origin;⁸ disability; sexual orientation; and religion. In addition, the CRDC includes data on students reported as harassed or bullied and students disciplined for harassment or bullying on the basis of sex, race, and disability.

FIGURE 4: Percentage distribution of allegations of harassment or bullying, by basis

NOTE: Data may not add up to 100 percent due to rounding.
 SOURCE: U.S. Department of Education, Office for Civil Rights, Civil Rights Data Collection, 2015-16.

Overall, approximately 135,200 individual allegations of harassment or bullying on the basis of sex, race, sexual orientation, disability, or religion were reported during the 2015-16 school year. **Figure 4** presents the percentage distribution of allegations of harassment or bullying, by basis. Forty-one percent of these allegations involved harassment or bullying on the basis of sex – which includes sexual and other sex-based harassment or bullying. Twenty-three percent of these allegations involved harassment or bullying on the basis of race; 16 percent involved allegations on the basis of sexual orientation; 11 percent involved allegations on the basis of disability; and 8 percent involved allegations on the basis of religion.

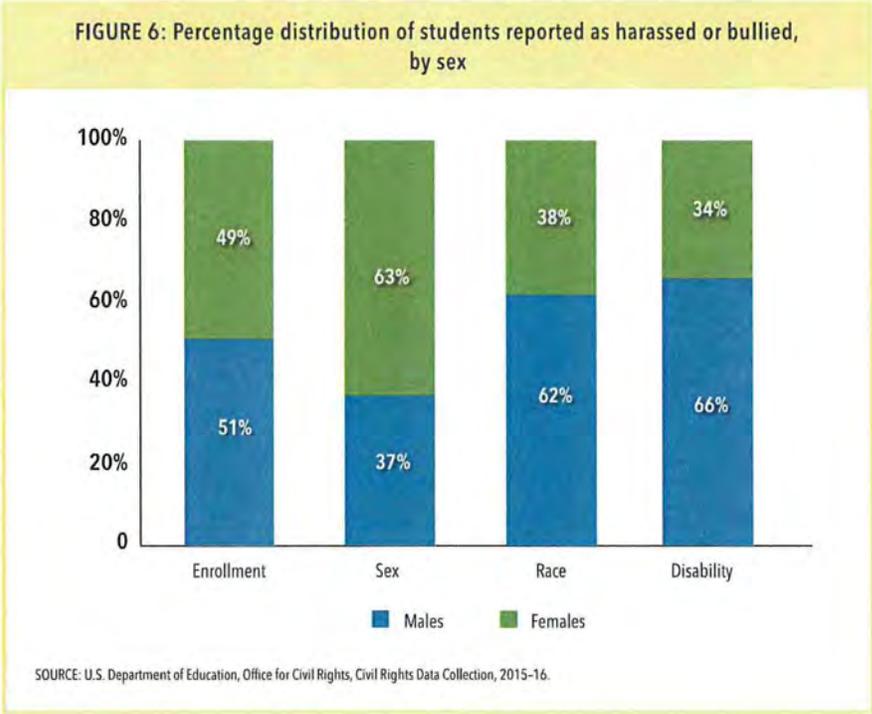

HARASSMENT OR BULLYING REPORTS BY RACE

In addition to allegations of harassment or bullying, the CRDC collects data on which students were reported as harassed or bullied. During the 2015-16 school year, about 102,300 students (approximately 0.2 percent of all enrolled students) were reported to have been harassed or bullied on the basis of sex, race, or disability.

Figure 5 presents the percentage distribution of students reported as harassed or bullied, by race. Black students were 15 percent of overall student enrollment and 19 percent of students harassed or bullied on the basis of sex, 35 percent on the basis of race, and 17 percent on the basis of disability. American Indian or Alaska Native students were 1 percent of student enrollment and 2 percent of students harassed or bullied on each basis. Students of two or more races were 3 percent of the overall student enrollment, 5 percent of students harassed or bullied on the basis of sex, 6 percent on the basis of race, and 4 percent on the basis of disability.

White students were 49 percent of the student enrollment, 50 percent of students harassed or bullied on the basis of sex, 29 percent of students harassed or bullied on the basis of race, and 59 percent of students reported as harassed or bullied on the basis of disability. Asian students were 5 percent of the student enrollment, 2 percent of students harassed or bullied on the basis of sex, 6 percent of the students who were reported as harassed or bullied on the basis of race, and 3 percent of students harassed or bullied on the basis of disability.

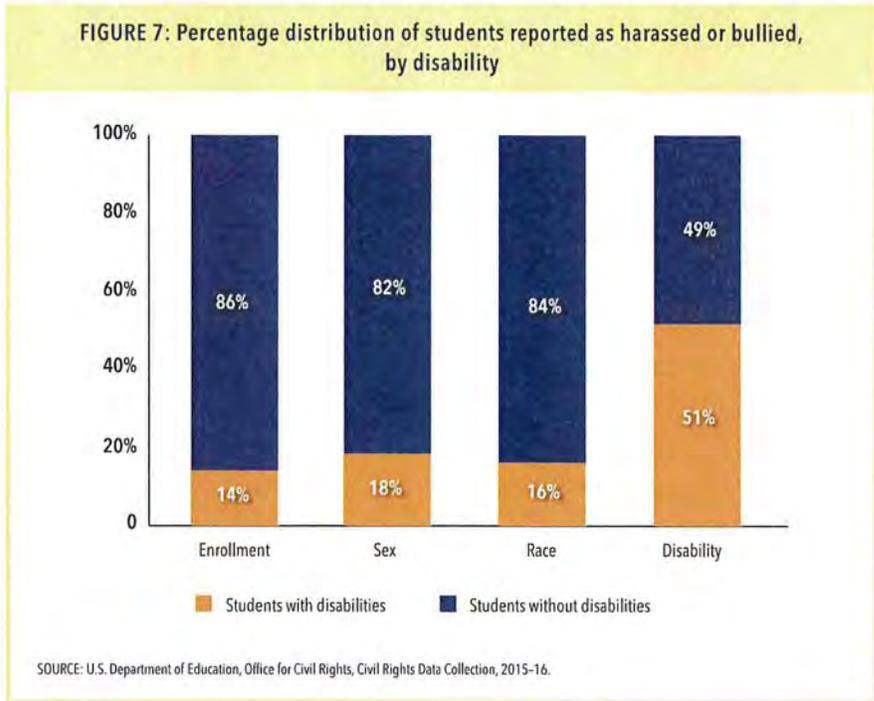

Native Hawaiian or Other Pacific Islander students were reported as harassed or bullied on the basis of sex, race, and disability at rates comparable to their student enrollment rate.

THE TYPE OF BULLYING OR HARASSMENT REPORTED BY MALE AND FEMALE STUDENTS DIFFERS

CRDC data indicate differences in the most common bases for which female students and male students were reported as harassed or bullied. **Figure 6** shows the percentage distribution of students reported as harassed or bullied, by sex. Female students (49 percent of total enrollment) accounted for 63 percent of students reported as harassed or bullied on the basis of sex, 38 percent of students harassed or bullied on the basis of race, and 34 percent of students reported as harassed or bullied on the basis of disability.

Male students (51 percent of total enrollment) accounted for 37 percent of students reported as harassed or bullied on the basis of sex, 62 percent of students reported as harassed or bullied on the basis of race, and 66 percent of students reported as harassed or bullied on the basis of disability.

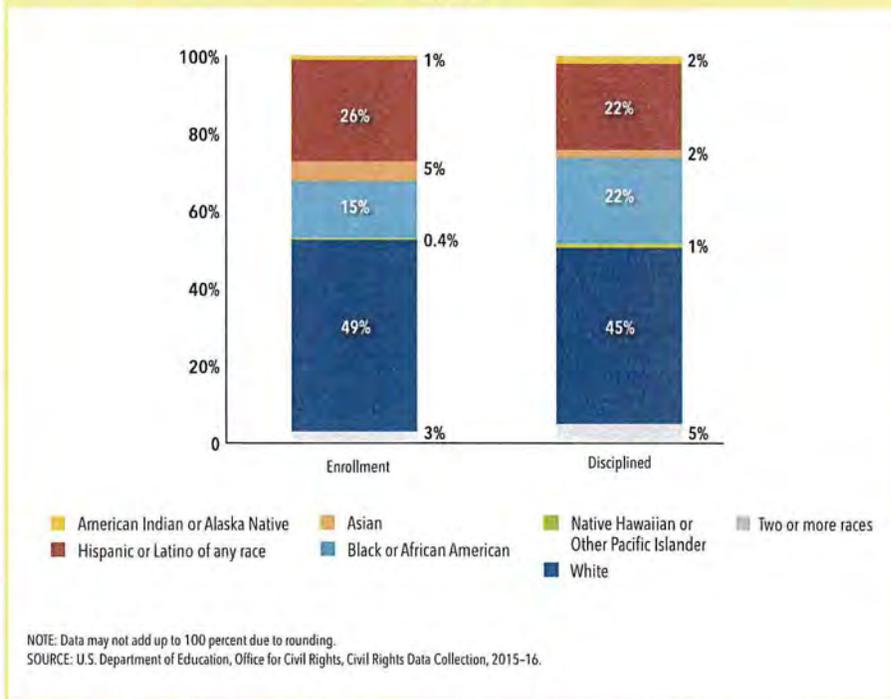

HARASSMENT OR BULLYING REPORTS BY DISABILITY

As used in this report, the term “students with disabilities,” in regards to harassment or bullying, includes both students with disabilities (IDEA) and Section 504-only students.⁹ **Figure 7** illustrates the percentage distribution of students reported as harassed or bullied, by disability. Students with disabilities were harassed or bullied based on sex, race, and disability at rates higher than their representation in the total school enrollment. Students with disabilities comprised 14 percent of the total student enrollment, but were 18 percent of students harassed or bullied on the basis of sex, 16 percent of the students harassed or bullied on the basis of race, and 51 percent of the students harassed or bullied on the basis of disability.

In comparison, students without disabilities represented 86 percent of the total student enrollment, but were 82 percent of students harassed or bullied on the basis of sex, 84 percent on the basis of race, and 49 percent of the students harassed or bullied on the basis of disability.¹⁰ The basis of disability includes disabilities under IDEA, disabilities under section 504, perceived disabilities, and any other disabilities.

FIGURE 8: Percentage distribution of students disciplined for harassment or bullying, by race

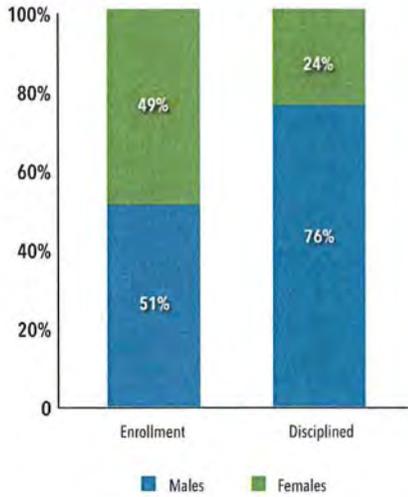

STUDENTS DISCIPLINED FOR HARASSMENT OR BULLYING BY RACE, SEX, AND DISABILITY

Nearly 114,600 students (approximately 0.2 percent of the total number of enrolled students) were disciplined for incidents of harassment or bullying on the basis of sex, race, or disability during the 2015-16 school year.

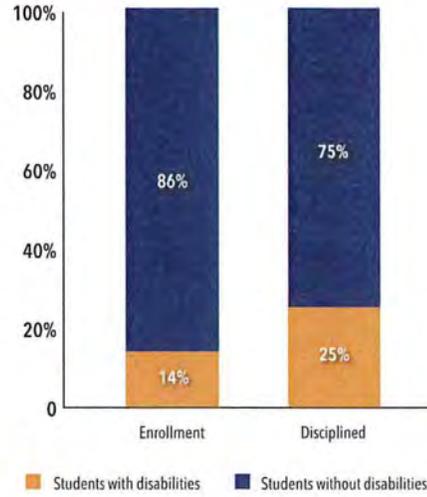

Figure 8 illustrates the percentage distribution of students disciplined for harassment or bullying, by race. Black students represented 15 percent of all students enrolled, and accounted for 22 percent of those disciplined for harassment or bullying; white students represented 49 percent of students enrolled and 45 percent of those disciplined; Latino students represented 26 percent of students enrolled and 22 percent of those disciplined; Asian students represented 5 percent of students enrolled and 2 percent of those disciplined; Native Hawaiian or Other Pacific Islander students represented 0.4 percent of students enrolled and 1 percent of those disciplined; and students of two or more races represented 3 percent of students enrolled and 5 percent of those disciplined.

FIGURE 9: Percentage distribution of students disciplined for harassment or bullying, by sex

FIGURE 10: Percentage distribution of students disciplined for harassment or bullying, by disability

SOURCE: U.S. Department of Education, Office for Civil Rights, Civil Rights Data Collection, 2015-16.

Figure 9 presents the percentage distribution of students disciplined for harassment or bullying, by sex. Male students were 51 percent of students enrolled and 76 percent of students disciplined for harassment or bullying. Female students were 49 percent of students enrolled and 24 percent of students disciplined.

Figure 10 shows the percentage distribution of students disciplined for harassment or bullying, by disability. Students with disabilities comprised 14 percent of student enrollment and 25 percent of the students disciplined for harassment or bullying.

Restraint and Seclusion

The CRDC collects data on the physical and mechanical restraint of students and seclusion of students. Generally, physical restraint refers to restricting the student's ability to freely move his or her torso, arms, legs, or head. Mechanical restraint refers to the use of any device or equipment to restrict a student's freedom of movement. Seclusion refers to involuntarily confining a student alone in a room or area from which he or she cannot physically leave.

During the 2015-16 school year, 124,500 students (approximately 0.2 percent of all students enrolled) across the nation were physically restrained, mechanically restrained, or secluded. Nearly 87,000 of those students were subjected to physical or mechanical restraint, and over 37,500 were subjected to seclusion.

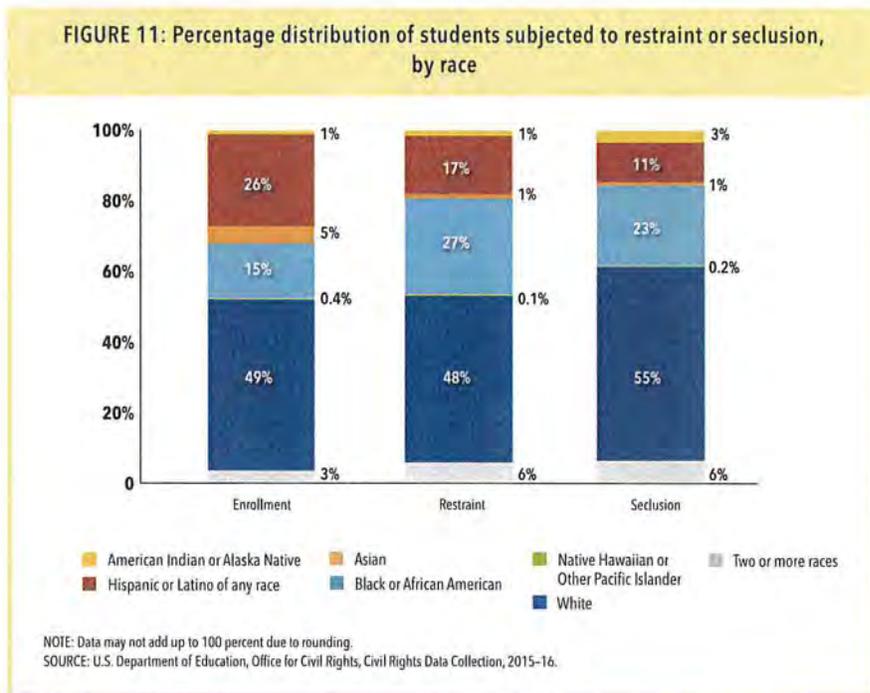

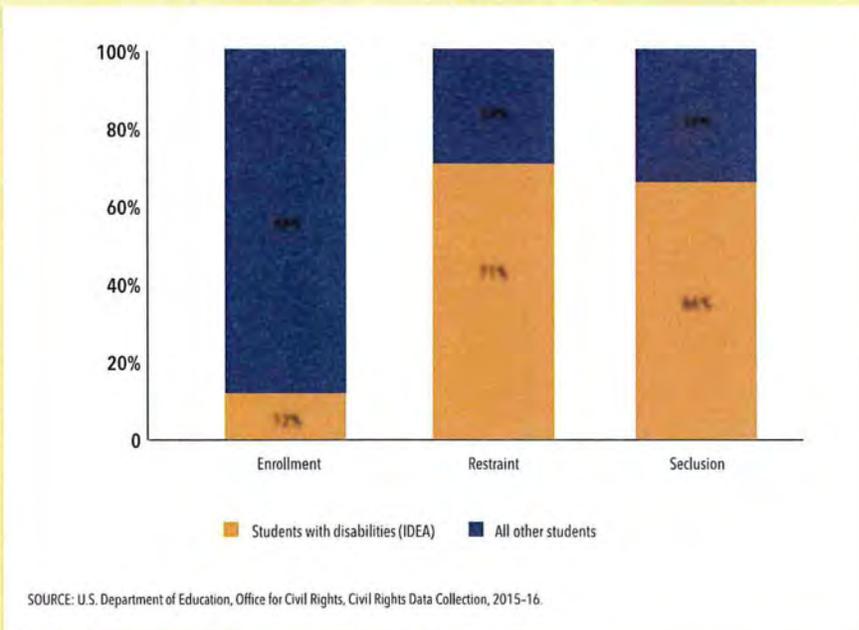

Figure 11 displays the percentage distribution of students subjected to restraint or seclusion, by race. Black students were 15 percent of all students enrolled, 27 percent of students restrained, and 23 percent of students secluded. White students were 49 percent of all students enrolled, 48 percent of students restrained, and 55 percent of students secluded. American Indian or Alaska Native students were 1 percent of students enrolled, 1 percent of students restrained, and 3 percent of students secluded.

Asian students (5 percent of enrolled students) comprised 1 percent of students restrained and secluded. Latino students (26 percent of enrolled students) comprised 17 percent of students restrained and 11 percent of students secluded. Native Hawaiian or Other Pacific Islander students (0.4 percent of enrolled students) comprised 0.1 percent of students restrained and 0.2 percent of students secluded.

FIGURE 12: Percentage distribution of students subjected to restraint or seclusion, by disability (IDEA)

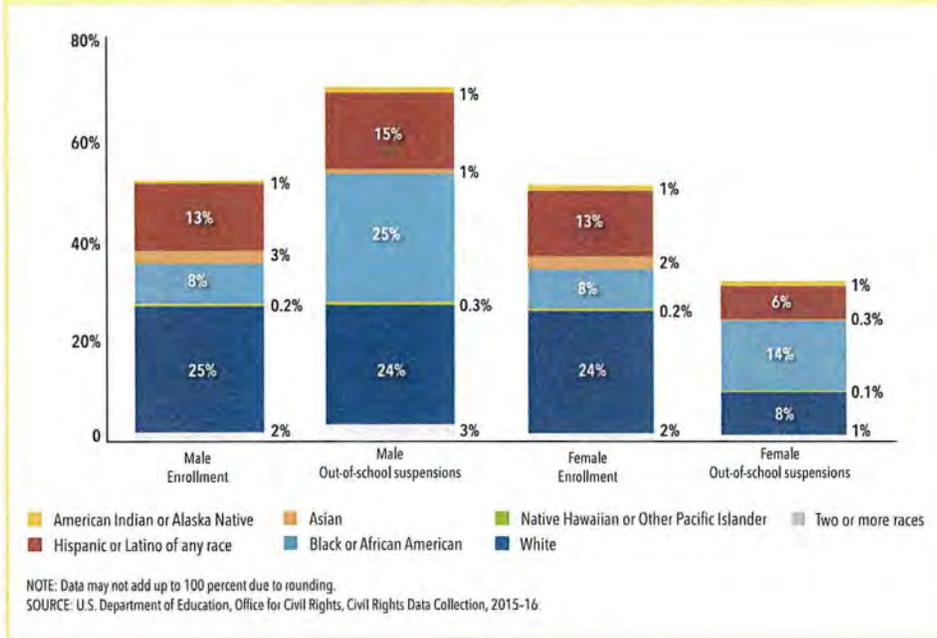

Most students restrained and secluded were students with disabilities (IDEA), who comprised 12 percent of all students enrolled. **Figure 12** illustrates the percentage distribution of students subjected to restraint or seclusion, by disability (IDEA). Students with disabilities (IDEA) represented 71 percent of all students restrained and 66 percent of all students secluded.

School Discipline

The CRDC collects information about exclusionary discipline practices including out-of-school suspensions and expulsions. Out-of-school suspension is an instance in which a child is temporarily removed from his or her regular school for at least half a school day for disciplinary purposes. Expulsion refers to removing a child from his or her regular school for disciplinary purposes. An expulsion can occur with or without educational services provided to the student.

FIGURE 13: Percentage distribution of students receiving one or more out-of-school suspensions, by race and sex

SUSPENSIONS BY RACE AND SEX

About 2.7 million (between 5 and 6 percent) of all K-12 students received one or more out-of-school suspensions during the 2015-16 school year. **Figure 13** shows the percentage distribution of students receiving one or more out-of-school suspensions, by race and sex.

Black male students represented 8 percent of enrolled students and accounted for 25 percent of students who received an out-of-school suspension. Black female students represented 8 percent of the student enrollment and accounted for 14 percent of students who received an out-of-school suspension. Latino male students represented 13 percent of student enrollment and 15 percent of students who received an out-of-school suspension. Latina female students represented 13 percent of student enrollment and 6 percent of students who received an out-of-school suspension.

American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and male students of two or more races collectively represented 3 percent of students enrolled, and 4 percent of students who received an out-of-school suspension. In comparison, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and female students of two or more races accounted for 3 percent of students enrolled and 2 percent of students who received an out-of-school suspension.

Asian male students accounted for 3 percent of students enrolled and 1 percent of students who received an out-of-school suspension. Asian female students constituted 2 percent of student enrollment and less than 1 percent of students who received an out-of-school suspension. White male students represented 25 percent of students enrolled and 24 percent of students who received an out-of-school suspension. White female students represented 24 percent of students enrolled and 8 percent of students who received an out-of-school suspension.

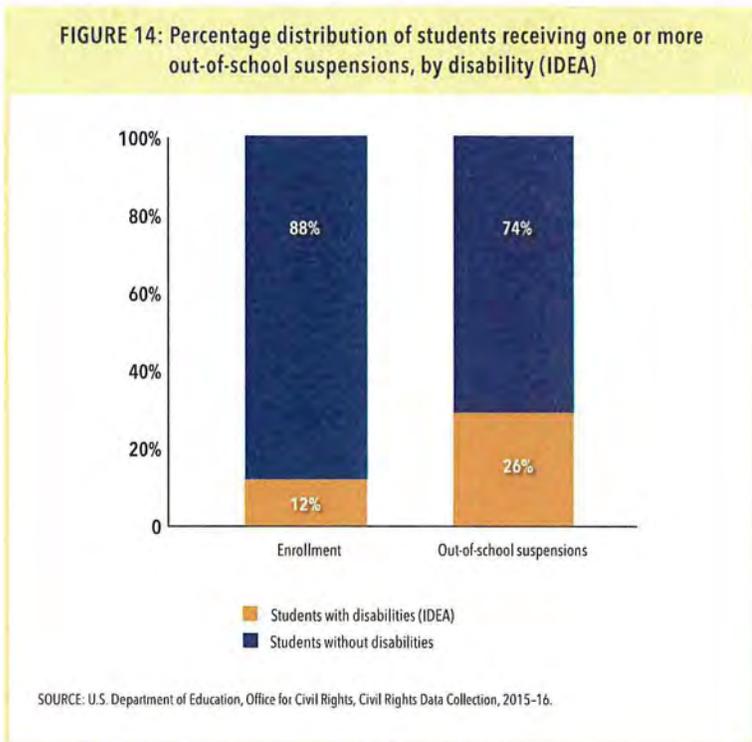

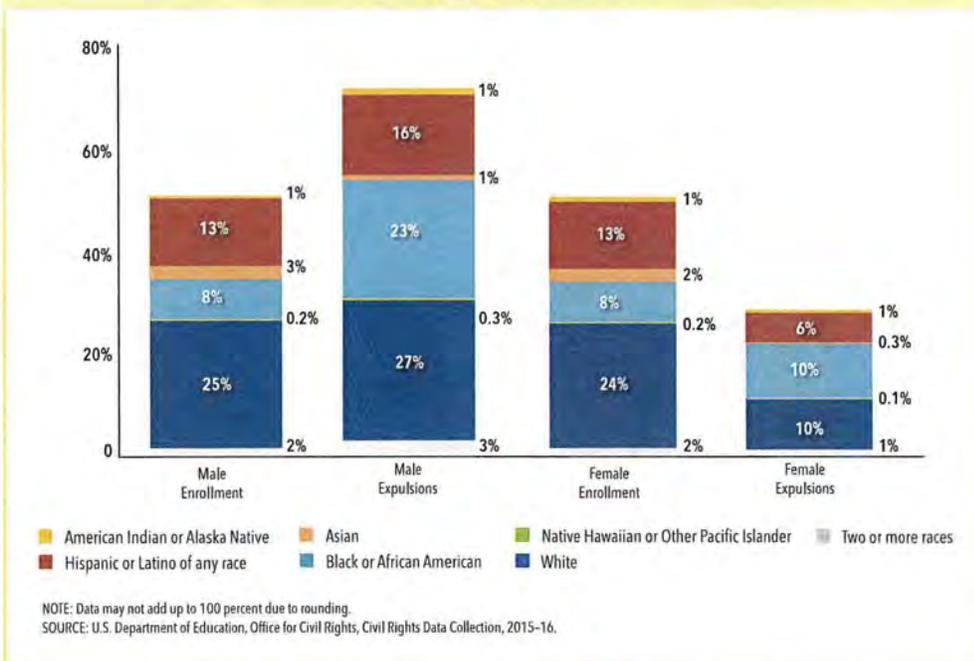

Figure 14 illustrates the percentage distribution of students receiving one or more out-of-school suspensions, by disability (IDEA). Students with disabilities (IDEA) represented 12 percent of students enrolled and 26 percent of students who received an out-of-school suspension.

FIGURE 15: Percentage distribution of students receiving expulsions, by race and sex

EXPULSIONS BY RACE AND SEX

During the 2015-16 school year, approximately 120,800 students (about 0.2 percent of the total number of students enrolled) received an expulsion with or without educational services. **Figure 15** shows the percentage distribution of students receiving expulsions, by race and sex.

White male students represented 25 percent of students enrolled and 27 percent of students who were expelled. White female students represented 24 percent of students enrolled and 10 percent of students who were expelled. Asian male students accounted for 3 percent of students enrolled and 1 percent of the students who were expelled. Asian female students constituted 2 percent of the student enrollment and less than 1 percent of the students who were expelled.

Black male students represented 8 percent of enrolled students and accounted for 23 percent of students expelled. Black female students represented 8 percent of the student enrollment and accounted for 10 percent of students who were expelled. Latino male students accounted for 13 percent of students enrolled and 16 percent of students who were expelled. Latina female students accounted for 13 percent of student enrollment and 6 percent of students who were expelled.

American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and male students of two or more races collectively represented 3 percent of students enrolled, and 4 percent of students who were expelled. In comparison, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and female students of two or more races accounted for 3 percent of students enrolled and 2 percent of students who were expelled.

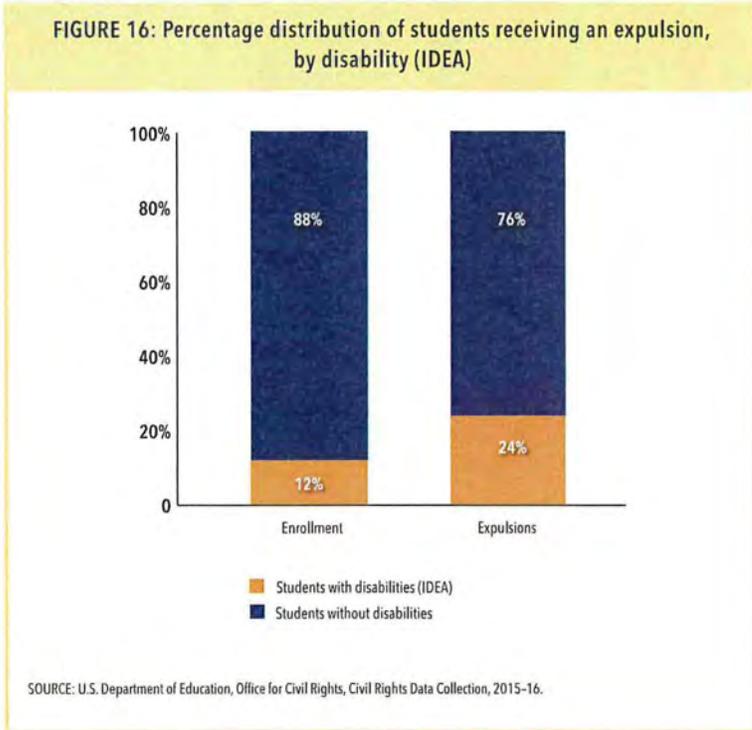

Figure 16 displays the percentage distribution of students receiving expulsions, by disability (IDEA). Students with disabilities (IDEA) represented 12 percent of the total students enrolled, and 24 percent of those students who were expelled.

Data Highlights

† Note: Except where the percentage is below 1 percent, the percentages listed in these data highlights are rounded to the nearest whole number. Counts of 1,000,000 or greater are rounded to the nearest hundred thousand. Counts of 1,000 or greater are rounded to the nearest hundred. Counts of less than 1,000 are rounded to the nearest ten. For the survey form and full definitions of all terms mentioned in the report, visit ocrdata.ed.gov/SurveyDocuments.

CRDC Endnotes

- ¹ CRDC data report students using the seven racial/ethnic categories found in the U.S. Department of Education's Final Guidance on Collecting, Maintaining and Reporting Data on Race and Ethnicity. The Final Guidance can be found at <http://nces.ed.gov/pubs2008/rediguide/pdf/appendixA.pdf>. For brevity in this report, the racial/ethnic categories are referred to as "race." Furthermore, for brevity in this report, race, color, or national origin – as referenced in Title VI of the Civil Rights Act of 1964 – is referred to as "race."
- ² Data on offenses reported by the National Center for Educational Statistics (NCES) may differ from the data on offenses reported by the CRDC due to differences in the populations or samples used in the two different data collections.
- ³ For consistency with how questions were asked of school districts completing the survey, "offenses" are referred to as incidents and "harassment or bullying" are referred to as allegations.
- ⁴ For brevity in this report, school-related arrests are referred to as arrests.
- ⁵ The term "black" refers to persons who are black or African American.
- ⁶ The terms "Latino/a" refer to persons who are Hispanic or Latino/a of any race.
- ⁷ As used in this report, the term "students with disabilities (IDEA)" is used to refer to students who receive special education and related services under the Individuals with Disabilities Education Act according to an Individualized Education Program, Individualized Family Service Plan, or service plan. These students may or may not receive related aids and services under Section 504 of the Rehabilitation Act of 1973, amended. 20 U.S.C. §§ 1400-1419; 34 C.F.R. pt. 300. Part B of the IDEA addresses the obligations of States and school districts to provide special education and related services to eligible children with disabilities. The Office of Special Education Programs (OSEP) in the Department's Office of Special Education and Rehabilitative Services (OSERS) administers the IDEA. The national percentages reported by OSEP may differ from those reported by OCR due to differences in the population of students included in the collection. For information about the IDEA, please see osep.grads360.org and www.ed.gov/osers/osep/index.html.
- ⁸ See note 1 above.
- ⁹ The term "Section 504-only" refers to a student who receives related aids and services under Section 504 of the Rehabilitation Act of 1973, as amended, and does not receive special education and related services under IDEA according to an Individualized Education Program, Individualized Family Service Plan, or service plan.
- ¹⁰ Harassment or bullying on the basis of disability includes perceived disability. A student may have a disability and not receive services under IDEA or Section 504. Furthermore, a student may have a disability and not be counted under "students with disabilities" for CRDC purposes.

More About the CRDC

What is the purpose of the CRDC?

Since 1968, the U.S. Department of Education (ED) Office for Civil Rights (OCR), or its predecessor agency, has conducted the Civil Rights Data Collection (CRDC) to collect data on key education and civil rights issues in our nation's public schools.

The CRDC collects a variety of information, including student enrollment and educational programs and services, most of which is disaggregated by race, sex, English learners, and disability.

The CRDC is a longstanding and critical aspect of the overall enforcement and monitoring strategy used by OCR to ensure that recipients of the Department's Federal financial assistance do not discriminate on the basis of race, color, national origin, sex, and disability.

OCR relies on CRDC data from public school districts as it investigates complaints alleging discrimination, initiates proactive compliance reviews to focus on particularly acute or nationwide civil rights compliance problems, and provides policy guidance and technical assistance to educational institutions, parents, students, and others.

In addition, the CRDC is a valuable resource for other Department offices and federal agencies, policymakers and researchers, educators and school officials, parents and students, and other members of the public who seek data on student equity and opportunity.

Under what authority does OCR conduct the CRDC?

Section 203(c)(1) of the 1979 Department of Education Organization Act conveys to the Assistant Secretary for Civil Rights the authority to "collect or coordinate the collection of data necessary to ensure compliance with civil rights laws within the jurisdiction of the Office for Civil Rights." The civil rights laws enforced by OCR include:

- Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color, and national origin;
- Title IX of the Education Amendments of 1972, which prohibits discrimination based on sex; and
- Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability.

OCR's implementing regulations for each of these statutes require recipients of the Department's federal financial assistance to submit to OCR "complete and accurate compliance reports at such times, and in such form and containing such information" as OCR "may determine to be necessary to enable [OCR] to ascertain whether the recipient has complied or is complying" with these laws and implementing regulations (34 CFR § 100.6(b), 34 CFR § 106.71, and 34 CFR § 104.61). Any data collection that OCR determines is necessary to ascertain or ensure compliance with these laws is mandatory.

For further general information about the CRDC, visit the [CRDC FAQ](#) page.

Availability of Alternate Format

Requests for documents in alternate formats such as Braille or large print should be submitted to the Alternate Format Center by calling 202.260.0852 or emailing the Section 508 Coordinator at am_eeos@ed.gov.

Notice to Persons with Limited English Proficiency

If you have difficulty understanding English, you can request free interpretation or translation assistance for Department information that is available to the public. To find out more about these services, please call 1-800-USA-LEARN (1.800.872.5327) (TTY: 1.800.877.8339) or email us at ED.Language.Assistance@ed.gov.

You also can write to U.S. Department of Education, Information Resource Center, LBJ Education Building, 400 Maryland Avenue SW, Washington, DC, 20202.

Document History

This document was originally issued in April 2018. In April 2019, the document was updated to incorporate data corrections submitted by districts. The corrected data resulted in changes to some of the national totals reported for offenses (page 2), referrals to law enforcement and school-related arrests (pages 3 - 4), allegations of harassment or bullying (page 5), students disciplined for harassment or bullying (page 9), restraint and seclusion (page 11) and expulsion (page 15). To learn more about the data corrections, please see the 2015-16 Data Notes

By **John Woodrow Cox, Steven Rich, Allyson Chiu, John Muyskens and Monica Ulmanu**

Updated May 8 at 10:02 a.m.

EXHIBIT 4

0073

The Washington Post has spent the past year determining how many children have been exposed to gun violence during school hours since the Columbine High massacre in 1999.

Beyond the dead and wounded, children who witness the violence or cower behind locked doors to hide from it can be profoundly traumatized.

The federal government does not track school shootings, so The Post pieced together its numbers from news articles, open-source databases, law enforcement reports and calls to schools and police departments.

The children impacted grew with each round of reporting: from 135,000 students in at least 164 primary and secondary schools to more than 187,000 on 193 campuses.

Since March, The Post has taken a closer look at states with fewer local news sources and searched more deeply for less visible public suicides and accidents that led to injury.

The count now stands at more than 228,000 children at 234 schools.

The Post has found that at least 144 children, educators and other people have been killed in assaults, and another 302 have been injured.

In 2018 alone, there have already been 25 shootings — the highest number during any year since at least 1999. Still, school shootings remain rare, and only a tiny percentage of the tens of millions of students in America ever experience them.

The most recent school shooting was 150 days ago.

Source: The Washington Post

Injuries and death tolls do not include the shooters

[Download the data](#) [Read the methodology](#) [Send information](#)

The Post’s search for more shootings will continue, and it’s possible reporters will locate additional incidents from previous years.

Hundreds of outlets cover the deadliest attacks, such as the Feb. 14 rampage at Marjory Stoneman Douglas High in Parkland, Fla., where a 19-year-old man with an AR-15 rifle killed 17 people.

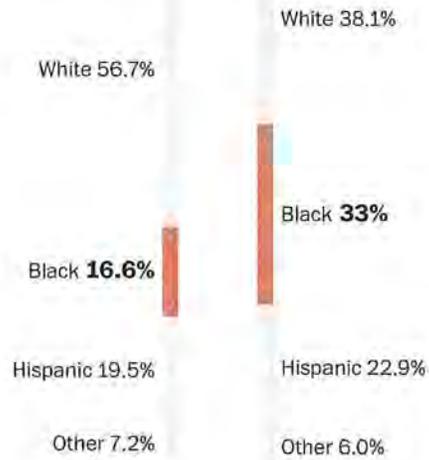

Others are covered by a single newspaper, such as a 2001 shooting at Pearl C. Anderson Middle School in Dallas, where a 14-year-old boy held a revolver to a girl’s chest and asked her whether she was “ready to die” before a bullet fired, grazing her hand.

Even as the list of incidents has expanded, however, the trend lines have remained consistent.

Among The Post’s most important findings: the disproportionate impact of school shootings on children of color.

Black students make up 16.6% of the school population...

...but they experience school shootings at twice that rate.

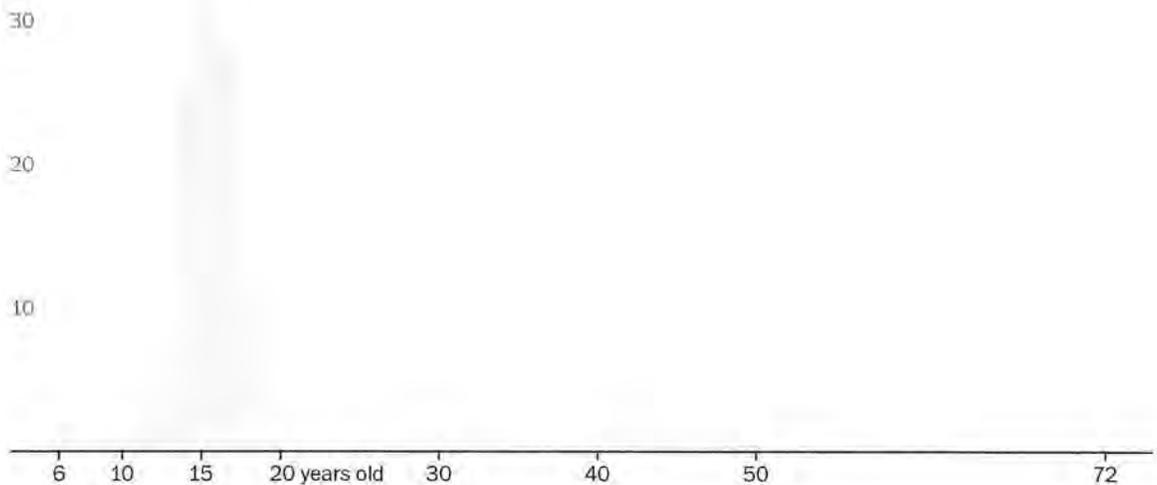

In cases where the source of the gun could be determined, more than 85 percent of shooters brought them from their own homes or obtained them from friends or relatives, according to The Post’s analysis.

The ranks of school shooters include a 6-year-old boy, who killed a classmate after saying he didn’t like her, and a 15-year-old girl, who did the same to a friend for rejecting her romantic overtures.

Seven in 10 of them, however, were under the age of 18, which means that — often because of an adult’s negligence — dozens of children had access to deadly weapons.

The median age of school shooters is 16.

45 shooters with unknown age not included

Alex Horton contributed to this report.

About the methodology

The Washington Post spent a year determining how many children have been affected by school shootings, beyond just those killed or injured. To do that, reporters attempted to identify every act of gunfire at a primary or secondary school during school hours since the Columbine High massacre on April 20, 1999. Using Nexis, news articles, open-source databases, law enforcement reports, information from school websites and calls to schools and police departments, The Post reviewed more than 1,000 alleged incidents but counted only those that happened on campuses immediately before, during or just after classes.

Shootings at after-hours events, accidental discharges that caused no injuries to anyone other than the person handling the gun, and suicides that occurred privately or posed no threat to other children were excluded. Gunfire at colleges and universities, which affects young adults rather than kids, also was not counted.

After finding more than 200 incidents of gun violence that met The Post's criteria, reporters organized them in a database for analysis. Because the federal government does not track school shootings, it's possible that the database does not contain every incident that would qualify.

To calculate how many children were exposed to gunfire in each school shooting, The Post relied on enrollment figures and demographic information from the U.S. Education Department, including the Common Core of Data and the Private School Universe Survey. The analysis used attendance figures from the year of the shooting for the vast majority of the schools. Then The Post deducted 7 percent from the enrollment total because that is, on average, how many students miss school each day, according to the National Center for Education Statistics. Reporters subtracted 50 percent from a school's enrollment if the act of gun violence occurred just before or after the school day. To provide information about school shootings since Columbine that fit The Post's definition, send us an email at schoolshootings@washpost.com.

Fatal Force: 2018 police shootings database

The Washington Post database contains records of every fatal shooting in the United States by a police officer in the line of duty since Jan. 1, 2015.

Mass shootings: How U.S. gun culture compares with the rest of the world

After mass shootings, much debate centers on Americans' relatively easy access to guns. As of 2015, there are more guns than people in the United States, a rate that's far higher than in other developed nations.

The terrible numbers that grow with each mass shooting

The death tolls change, the places change. But the weapons are the common denominator.

Three Decades of School Shootings: an Analysis

A comprehensive review of nearly three dozen mass shootings, including Columbine, reveals some notable similarities

By Tawnell D. Hobbs

Published April 19, 2019, at 10:30 a.m. ET

School shooters typically plan their attacks weeks or months in advance, usually telling someone or hinting at coming violence. Most feel bullied or left out and are seeking revenge. Many have easy access to guns and are fascinated by mass shooters. Many are suicidal or ready to die during their attacks.

Those are the findings of a Wall Street Journal analysis of information about nearly three dozen mass shootings that have taken place at schools since 1990. The deadly shooting at Columbine High School in Colorado, which occurred 20 years ago Saturday, was one of them.

The Journal reviewed information made public by courts or law-enforcement agencies about school shootings that left three or more victims killed or injured. The material included 22 hours of video, 108 minutes of audio and about 10,000 pages of documents—text messages, journals, court records and transcripts of police interviews.

The shooters, 39 in all, left 116 dead and 229 injured. Last year, 77 people in the U.S. died or were injured in mass school shootings that left three or more victims, more than in any other year in the Center for Homeland Defense and Security’s statistics, which go back to 1970.

The Journal's analysis of information about the 39 shooters revealed many common elements.

At least 34 of 39 planned the attack in advance

In the days before 15-year-old Jaylen Fryberg killed four students at Marysville Pilchuck High School in Marysville, Wash., on Oct. 24, 2014, he engaged in ominous text-message exchanges with an ex-girlfriend.

Text messages between Jaylen Fryberg and his ex-girlfriend

Just please talk me out of this...

The guns in my hand..

Please...

Jaylen

Jay

Jaylen's ex-girlfriend

What.

Jaylen

Source: Snohomish County Multiple Agency Response Team

Two days before the rampage, he texted her: "I set the date."

Moments before the first shot, he sent a message to members of his family with details for his funeral and an apology to some parents of students he planned to kill. "I want to be fully dressed in Camo in my casket," it said in part.

Within two minutes, the first 911 calls come from the school. Fryberg had invited three friends and two of his cousins to sit with him at a table in the lunchroom. He shot each of them in the head. Four of them died. Then he killed himself.

There is considerable evidence that Nikolas Cruz, too, did a lot of planning before the school shooting on Feb. 14, 2018, that left 17 dead in Parkland, Fla.

“Hello. My name is Nick and I’m gonna be the next school shooter of 2018,” he said in a cellphone video three days before the attack. “My goal is at least 20 people with an AR-15 and a couple tracer rounds.”

“It’s gonna be a *big* event. You’re all going to die.”

—Nikolas Cruz

Source: 17th Judicial Circuit Court, Broward County, Fla.

Cruz’s cellphone content and search history indicate he researched shooting people months before the attack at Marjory Stoneman Douglas High. The month before the shooting, he made a cellphone note to himself about a “basketball court full of targets.” One day later, he said in another note, “Everything and everyone is happy except for me I want to kill people but I don’t know how I can do it.” The day of the shooting, his internet activity included a search on “school shooter.”

More than a month before the shooting, an unidentified woman had called an FBI tip line to warn about Cruz’s professed desire to kill people and his disturbing social-media posts, saying she worried he would shoot up a school. The FBI didn’t follow up on the tip.

“I just want to, you know, get it off my chest in case something does happen and I do believe something’s going to happen, but...”

—unidentified woman tipping off the FBI about Nikolas Cruz

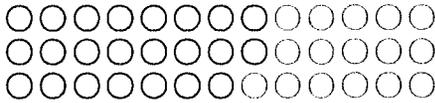

Source: Federal Bureau of Investigation

A state safety commission later found that at least 30 people knew of Cruz’s troubling behavior before the shooting, and they either didn’t report it or their reports weren’t acted upon.

Writings by school shooters recovered by law-enforcement officials.
Source: Courts, law enforcement agencies

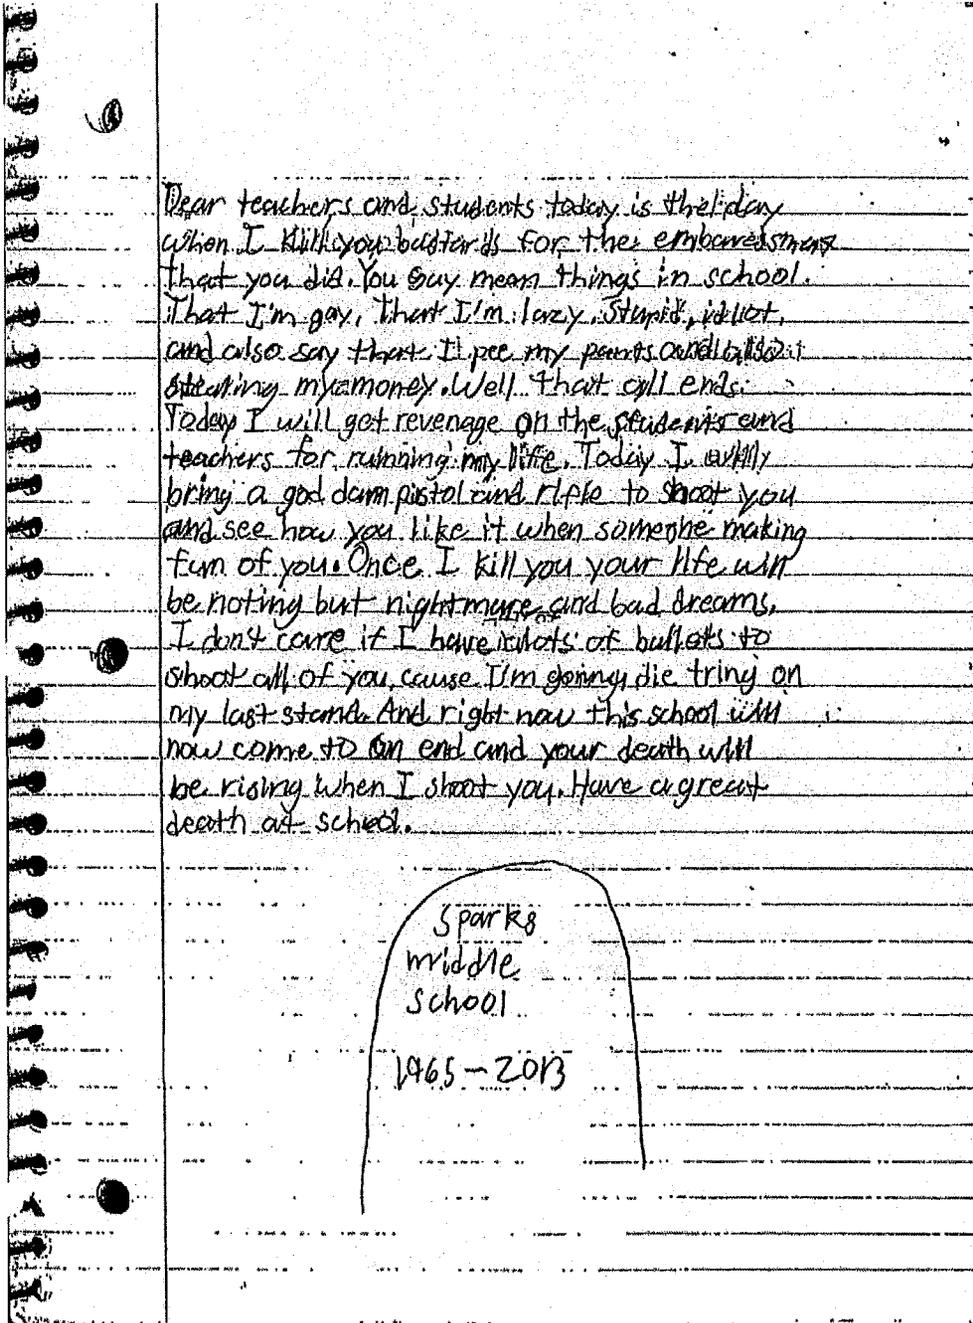

At least 21 of 39

felt bullied, sought revenge

Twelve-year-old Jose Reyes left behind two letters in his backpack after a 2013 attack at Sparks Middle School in Sparks, Nev., that left two students injured and a teacher dead. He also killed himself.

In a letter to teachers and students, he said he was seeking revenge for the mean things they had said, and that "today is the day when I kill you."

Source: Sparks Police Department, Sparks, Nev.

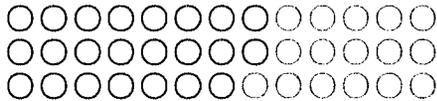

Dear teachers and students today is the day
when I kill you bastards for the embarrassment
that you did. You say mean things in school.
That I'm gay, that I'm lazy. Stupid, idiot,
and also say that I pee my pants and also
stealing my money. Well that all ends.
Today I will get revenge on the students and
teachers for ruining my life. Today I will
bring a god damn pistol and rifle to shoot you
and see how you like it when someone making
fun of you. Once I kill you your life will
be noting but nightmare and bad dreams.
I don't care if I have alots of bullets to
shoot all of you cause I'm going to die tring on
my last stand. And right now this school will
now come to an end and your death will
be rising when I shoot you. Have a great
death at school.

In 1997, 16-year-old Evan Ramsey entered Bethel Regional High School in Bethel, Alaska, with a shotgun hidden under his jacket. He walked into a common area and opened fire, killing one student and injuring two others. He continued on to the main office, where he shot the principal, Ronald Edwards, who died in his office.

A note found in his bedroom after the attack indicated he was seeking revenge against the principal and others. It said he believed he would die after the attack. He lived.

A note found in school shooter Evan Ramsey's bedroom.
Source: Court of Appeals, State of Alaska

At least 22 of 39 told someone or hinted at plans

Many of the shooters told someone or hinted at their plans, either in conversations with friends or in online communications, in some cases in an effort to keep friends safe. In 1998, 13-year-old Mitchell Johnson and 11-year-old Andrew Golden killed five and injured 10 at Westside Middle School in Jonesboro, Ark. In a later deposition, Johnson said he had warned a couple of people the day before the shooting “please don’t come to school” the next day.

In 2016, 14-year-old home-schooler Jesse Osborne took a gun from his father’s nightstand and shot him dead. Then, after kissing his pets, he drove his father’s truck to Townville Elementary School in Townville, S.C., where he killed one person and injured three.

He told the police that a group of people from various countries had encouraged his plan in Instagram exchanges.

Instagram exchange between school shooter Jesse Osborne
and an unnamed person.

Should i shoot up my elementary school or my middle school

The middle school has tons of cops

The elementary doesnt

And the elementary school is 4 mins away from my house

The middle schools 1 hr away

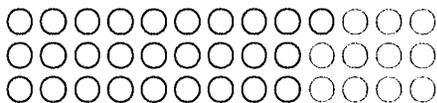

Elementary those **** are just disgusting little kids who grow up to be little **** when they're older

Yep thats what i was thinking

And yeah it's easier to go to the closest

Source: WYFF-TV, Greenville, S.C.

At least 26 of 39 had easy access to guns

The Journal analysis found school shooters mostly used guns owned by family members.

Police found a large number of firearms in the home that Adam Lanza shared with his mother, whom he killed before killing 26 at Sandy Hook Elementary School in Newtown, Conn., in 2012. The socially isolated 20-year-old, who had

been diagnosed with mental illness, had spent time online researching school shootings, including downloading the investigation of the Columbine attack. He kept a detailed spreadsheet on killers, sorted in order of the number killed.

School shooter Adam Lanza kept a spreadsheet of mass killers.
Source: Connecticut State Department of Emergency Services and Public Protection

In the home where Kipland Kinkel lived with his parents, police found a large collection of guns and knives, and ingredients for making explosive devices. The 15-year-old, who was diagnosed with mental-health problems, first killed his parents, then killed two people and injured 26 in a rampage at Thurston High School in Springfield, Ore., in May 1998.

In an interview with a police detective after the shooting, he said that he got his weapons from home.

Kipland Kinkel's Confession to Police

Okay....So your dad has guns, right?

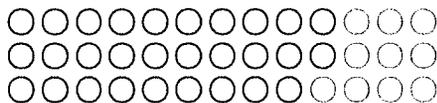

Yes.

And where does he keep his guns?

He usually keeps them in his tennis locker at the swim and tennis club. But we could always shoot it once in awhile and so they were home

Source: Springfield Police Department, Springfield, Ore.

**At least 22 of 39
felt suicidal**

Eric Houston knew it was possible he would die in a 1992 attack on his former school, Lindhurst High School in Olivehurst, Calif. A note was found in the 20-year-old's bedroom after he stormed the school, killing four and wounding

several others. "If I die today please bury me somewhere beautiful," he wrote. He lived, as did 72% of shooters in the incidents reviewed by the Journal.

In February 2012, Thomas Lane, then 17, went on a shooting rampage in the cafeteria of Chardon High School in Chardon, Ohio, killing three students and injuring three others. Afterward, he sat in a ditch about a mile away and loaded a gun to kill himself. He didn't do it.

Nick Walczak had limped from the cafeteria with three gunshot wounds, only to be chased down by Lane and shot in the back. The last shot left him paralyzed.

"None of us were ever mean to him," Mr. Walczak says of the shooter. "If you had asked me a day before, I would have told you that he's a good kid."

Methodology: **Planned in advance** indicates the shooter planned the attack well in advance, including plotting to get weapons, researching other shooters, setting a date for the attack or writing a letter explaining the motive for the attack. **Bullied, sought revenge** indicates the shooter felt bullied or sought revenge for a perceived wrong. **Easy access to guns** indicates the shooter knew where unsecured guns were in the house, had access to home gun safes or purchased the guns themselves. **Told someone** indicates the shooter told at least one person about the coming attack, or alluded to it, verbally or in writings, text messages, video recordings or on social media. **Suicidal** indicates the shooter planned to commit suicide after the attack or be killed by police.

Everything we know about the San Bernardino terror attack investigation so far

Syed Rizwan Farook, left, and a photo of Tashfeen Malik. (FBI)

DEC. 14, 2015
4:03 PM

Here's the latest updates on the investigation into Syed Rizwan Farook and Tashfeen Malik, the shooters who attacked Farook's office holiday party, killing 14 and wounding 22, in what officials believe was an act of terrorism. They were killed in a shootout with police shortly after. Since the Dec. 2 attack, investigators have been piecing together evidence in an effort to pinpoint exactly what motivated the couple, and how their plan went undetected.

Latest in the investigation Farook's friend, Enrique Marquez Jr. was arrested Thursday and charged with conspiring to give material support to terrorists, according to federal documents that allege the two men had talked of attacking Riverside City College and a busy freeway during rush hour. Enrique Marquez, the neighbor

Home in Riverside where Marquez lived next door to Farook. (Los Angeles Times)

Enrique Marquez Jr., a 24-year-old Riverside man who worked as a Wal-Mart security guard, is a central figure in the investigation.

He checked into a mental health facility on the day of the shooting and police searched his Riverside home -- next door to Farook's old residence -- shortly after the shootings. He was said to be good friends with Farook and cemented his connection to his next-door neighbor by marrying the sister of Farook's sister-in-law in 2014. In 2011 or 2012, Marquez bought two of the rifles Farook and Malik used in the attack. A law enforcement source said he converted to Islam at some point, but when is unclear.

Marquez has waived his right to an attorney and been cooperative throughout marathon interviews with federal investigators, a law enforcement source said.

According to a law enforcement source, Marquez told investigators Farook wanted him to buy the guns because he feared he "wouldn't pass a background check" if he attempted to acquire the weapons on his own.

Marquez also told FBI agents Farook had made an earlier attack plan he didn't follow through on, according to a source.

An even bigger attack was planned

Two federal sources told The Times that before the shooting and their subsequent deaths, the couple was in the final planning stages for an assault on a separate building or location “with a lot more people inside,” possibly at a nearby school or college. They based that assessment on data from digital equipment recovered from the couple’s Redlands home, all of which was smashed in an attempt to hide their activities.

The weapons

M&P15 rifle
Smith & Wesson

9mm
Llama

9mm
Springfield Armory

Model 64 F* (.22-caliber rifle)
Savage Arms

DPMS Model A-15 (.223-caliber)

*Not scaled in relationship to the other weapons

Farook and Malik used five firearms during the attack, and left behind three pipe bombs wired to a remote control. They did not detonate.

The shooters fire over 150 rounds during the initial attack and during a gun battle with police afterwards. They had more than 1,400 .223 caliber rounds and more than 200 9-millimeter rounds with them.

Three of the guns were purchased legally by Farook between 2007 and 2012. He bought the handguns at Annie's Get Your Gun in Corona. Two of the rifles were purchased by Farook's friend and former neighbor, Enrique Marquez Jr., in 2011 or 2012.

What we know about the previous attack plan

Farook and possibly others may have planned a terrorist act as early as 2011 or 2012 but dropped it after four men were arrested — three of them in Chino — and ultimately convicted in a plot to kill Americans in Afghanistan, according to a government official.

The official said Farook may have told at least one associate in 2011 or 2012 that he was considering a terrorist plot. It's not clear who the associate was, but Farook friend Enrique Marquez Jr. told investigators about what Farook said, according to the official.

FBI agents believe Farook abandoned his plans to launch the earlier attack after a law enforcement task force arrested the three men in November 2012. The men were later convicted of charges related to providing material support to terrorists and plotting to kill Americans in Afghanistan. Investigators are looking into whether the men had ties to Farook.

They were talking generally about something, but I don't think it made it to anything specific. I don't think it got to a time or a place.

Law enforcement official, on the previous plot

The shooters' online communications

The investigation is in part focused on Malik and Farook's digital lives, including how they communicated early in their relationship, and with terror groups.

The couple jointly pledged allegiance to Islamic State on social media shortly before they were killed in a shootout with police, the FBI has said.

Malik sent at least two private messages on Facebook to a small group of Pakistani friends in 2012 and got a nodding her support for Islamic jihad and savi

Farook used several dating and matrimonial websites, including BestMuslim.com, where he wrote he wanted "Someone who takes her religion very seriously and is always trying to improve her religion and encouraging others to do the same using hikmah (wisdom) and not harshness."

FBI officials said that after the couple began dating online as early as 2013, they spoke to each other about jihad and martyrdom.

Farook had some kind of digital contact with people from at least two terrorist organizations overseas, including the Al Qaeda-affiliated Nusra Front in Syria, a federal law enforcement official said.

Two government sources told The Times Malik used the name of a neighborhood or street near her home in Pakistan, rather than her family’s home address, on her application. Investigators have speculated that she did so to deflect any investigation of her family’s reputed ties to Islamic militants in Punjab.

K-1 applicants, like other visa applicants, undergo extensive counter-terrorism screening that includes checks based on fingerprints and facial recognition software. Questions for the partner seeking to come to the U.S. include: “Do you seek to engage in terrorist activities while in the United States or have you ever engaged in terrorist activities?” and “Have you ever or do you intend to provide financial assistance or other support to terrorists or terrorist organizations?”

Farook worked for the county as a health inspector, and many of the details of the couple's finances are not yet known. But in the weeks before the San Bernardino massacre, the husband-and-wife assailants got a \$28,500 loan, which authorities believe may have helped them acquire last-minute firearms, ammunition and components to build explosives.

The couple received the loan from San Francisco online lender Prosper Marketplace, according to Fortune and Bloomberg News.

Prosper is a leading player in the burgeoning world of online, peer-to-peer lending, acting as a middleman matching borrowers and investors who fund their loans.

8 Attorney for Plaintiffs

9 **UNITED STATES DISTRICT COURT**
10 **SOUTHERN DISTRICT OF CALIFORNIA**

11 MATTHEW JONES; THOMAS FURRH;
12 KYLE YAMAMOTO; PWGG, L.P.
13 (d.b.a. POWAY WEAPONS AND GEAR
14 and PWG RANGE); NORTH COUNTY
15 SHOOTING CENTER, INC.; BEEBE
16 FAMILY ARMS AND MUNITIONS
17 LLC (d.b.a. BFAM and BEEBE FAMILY
18 ARMS AND MUNITIONS); FIREARMS
19 POLICY COALITION, INC.;
20 FIREARMS POLICY FOUNDATION;
21 THE CAL GUN RIGHTS FOUNDATION
22 (formerly, THE CALGUNS
23 FOUNDATION); and SECOND
24 AMENDMENT FOUNDATION

Plaintiffs,

v.

22 XAVIER BECERRA, in his official
23 capacity as Attorney General of the
24 State of California, et al.,

Defendants

Case No.: 19-cv-01226-L-AHG

Hon. Judge M. James Lorenz and
Magistrate Judge Allison H. Goddard

**DECLARATION OF DAVID T.
HARDY IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PRELIMINARY INJUNCTION
(Part 1 of 4)**

Complaint Filed: July 1, 2019

Amended Complaint Filed: July 30, 2019

Date: November 18, 2019

Time: 9:00 a.m.

Courtroom: Dept. 5B

DECLARATION OF DAVID T. HARDY

28

I, David T. Hardy, declare as follows:

1. I am not a party to the captioned action, am over the age of 18, have personal knowledge of the facts stated herein, and am competent to testify as to the matters stated and the opinions rendered below.

2. I graduated from the University of Arizona with a bachelor’s degree (with honors) in 1972. I received my Juris Doctorate degree with honors at the same institution in 1975. In law school, I served as Associate Editor of the Arizona Law Review.

3. I began my law practice in Tucson, Arizona in 1975. In 1982, I began work as a career attorney with the U.S. Department of Interior in Washington, D.C., ending as a GS-14. In 1992 returned to Tucson and have since practiced law as a sole practitioner. My work has heavily focused on the Second and Fourteenth Amendments.

4. To date, I have published seven books, including the *Origins and Development of the Second Amendment* and *Dred Scott: The Inside Story*. I have published 27 law review articles, most of which concern the Second or Fourteenth Amendments, or arms laws. Two have been cited by the U.S. Supreme Court. See *McDonald v. City of Chicago*, 561 U.S. 742, 763, n. 10 (2010) (plurality), 561 U.S. at 841 (Thomas, J., concurring). One article has been cited by eleven U.S. Circuit Courts of Appeals. I also submitted amicus briefs in *District of Columbia v. Heller*, *McDonald v. City of Chicago*, and *New York State Rifle and Pistol Ass’n v. New York*.

1 5. I published my first law review article on the Second Amendment in 1974.
2 In the 45 years since, I have researched arms-related topics in the Library of Congress,
3 the National Archives, and university libraries at William and Mary and the University
4 of Virginia. My photocopy collection on this topic exceeds nine shelf-feet.
5

6 6. Attached hereto as **Exhibit 1** is a true and correct copy of my Curriculum
7 Vitae. It describes my education, employment background, career experience, and
8 publications.
9

10 7. Based on my education, work experience, research background,
11 publications, and review of the research of others, in my opinion, 18-to-20-year-old
12 adults (which I will hereafter refer to as “Young Adults”) possess the same protection
13 under the Second Amendment as adults 21 and over. Further, in my opinion, any
14 firearm ban on Young Adults, based solely on age, significantly infringes on the core
15 Second Amendment rights of Young Adults.
16
17

18 8. Mirroring the historical inquiry used by the Supreme Court in *Heller*, I
19 conducted a detailed textual and historical review of firearms regulations on Young
20 Adults. As identified in *Heller*, the text, structure, and contemporary drafting
21 documents are the primary historical sources for the Supreme Court’s originalist
22 inquiry. I also reviewed pre-Civil War case law and commentators, whose “intellectual
23 foundations were close to those of the founding generation.” I also reviewed Post-Civil
24 War sources, although bearing in mind that, as the Court taught in *Heller*, that these
25 “do not provide as much insight into [the Second Amendment’s] original meaning as
26
27
28

1 earlier sources.” *Heller*, 554 U.S. at 614.

2 **Colonial and Founding Era Laws**

3 9. Based on my review of Colonial and Founding Era firearms regulations,
4 in my opinion, there were *no* age-based restrictions on the acquisition, purchase, or
5 possession of firearms. Although this period did have what is most accurately described
6 as various firearm safety and storage regulations, none of these regulations were in the
7 same category or equivalent to any age-based firearm restriction. My opinion is
8 supported by other historical analyses cited below.
9

10 10. The historical examples of various Founding Era firearms regulations
11 consist mainly of laws that prevented discharging guns at certain times, or using
12 firearms in an especially dangerous manner such as firing guns in public places or in
13 celebration (which also risked causing a false alarm relating to Indian raids), “fire
14 hunting” (*i.e.*, where participants were likely to hurt themselves needlessly). Attached
15 hereto as **Exhibit 2** is a true and correct copy of Clayton E. Cramer, *Colonial Firearm*
16 *Regulation*, 16 J. of Firearms & Pub. Pol’y 1, 30-34 (2004). Other regulations consisted
17 of gunpowder storage laws that only applied when that volatile explosive exceeded a
18 safe amount. (Urban fires were common in the days of candles and fireplaces, and black
19 powder could be ignited by any drifting spark. It thus made sense to store large
20 quantities in public magazines, designed for protection against fire and sparks. These
21 were brick, had wooden floors secured without nails lest a boot nail strike a spark, and
22 had ventilation screened and baffled to keep out drifting embers from building fires).
23
24
25
26
27
28

1 In my opinion, these firearms safety regulations are nothing like broad prohibitions
2 against the purchase, acquisition, and possession of any firearm for an entire class of
3 ordinary law-abiding people based solely on age. *Heller* specifically rejected such
4 examples because any such restrictions were not germane to an outright ban on keeping
5 firearms for self-defense. In other words, these safety regulations did not interfere with
6 the self-defense “core” right of the Second Amendment. *Heller*, 554 U.S. at 634.
7

8
9 11. Additionally, I reviewed the various firearms regulations that targeted
10 particular groups for public safety reasons, and because they were not seen as members
11 of the body politic. These regulations generally applied to Indians, slaves, sometimes
12 free blacks, Catholics, and (during the Revolution) Loyalists to the Crown. See **Exhibit**
13 **2** (Cramer 2004 at 16-23).
14

15 12. In my opinion, these prejudicial restrictions on Indians, slaves, free blacks,
16 and others are hardly relevant precedent to current, under-21 firearm bans. These were
17 directed at persons seen as outside the body politic. Aside from the moral implications
18 of relying on racist and bigoted laws, the 1st and 13th Amendments, applicable to the
19 states through the 14th Amendment, explicitly abrogated any authority or precedent
20 any of these laws once had. In other words, an historical analysis shows that none of
21 these regulations can justify limits on firearms purchase or possession by Young
22 Adults.
23
24

25
26 13. The regulations that permitted disarming “Loyalists to the Crown”, in my
27 opinion, are also distinct from a categorical age-based firearms prohibition. These
28

1 “Loyalty Test[s]” were meant to disarm persons above a certain age who refused to
2 swear allegiance to the newly-independent states. Their penalties were imposed based
3 on individual conduct, conduct that placed the person outside the new body politic.
4 Those who refused to swear (“non-jurors) were subjected, not just to disarmament, but
5 to a number of other measures that would be seen as clearly unconstitutional today.
6

7 New Jersey issued fines and threatened non-jurors with confiscation. New York
8 confiscated the property of non-signers and exiled them to the British lines. New
9 York non-signers were threatened with the loss of civil rights as well as
10 with fines, punitive taxes, and professional bans in the case of lawyers,
11 apothecaries, doctors, and merchants, was the case in Maryland. Rhode Island
12 and Connecticut deprived non-jurors of their rights to vote and to sue in a court
13 of law.... North Carolina confiscated non-jurors’ property and stripped them of
14 their civil rights; they were to leave the state within thirty days.

15 Holger Hoock, *Scars of Independence* 452 n. 68 (2017).

16 14. Thus, in my opinion, an historical review of Founding Era firearms
17 regulations shows that although various firearms safety regulations existed during the
18 Colonial and Founding Era, they were far from anything remotely similar to a
19 categorical firearms ban based solely on age.

20 15. Further review of the Colonial and Founding Era firearm-related
21 regulations, confirms that an historical-based analysis does not support age-based
22 firearms bans. In fact, the state militia laws explicitly reject such bans and even support
23 a core Second Amendment right applicable to Young Adults.
24

25 **State Militia Statutes**

26 16. I conducted a review of the various Colonial and Founding Era militia
27
28

1 statutes. Importantly, at the time of the passage of the Second Amendment, or shortly
2 thereafter, the minimum age for militia service in every state was eighteen. The year
3 the Second Amendment was ratified — 1791 — is “the critical year for determining
4 the amendment’s historical meaning.” See *McDonald v. City of Chicago*, 130 S.Ct.
5 3020, 3035 and n. 14; *Moore v. Madigan*, 702 F.3d 933, 935 (7th Cir. 2012). Said state
6 militia laws set around the time of ratification of the Second Amendment and the
7 federal Militia Act of 1792 consist of the following:
8

9
10 a. **Connecticut**: “...who is, or shall be of the age of eighteen years...” –
11 Connecticut Acts and Laws, October Session (1792) (following a reprint of the federal
12 militia law, Connecticut provided that militia fines imposed on those who had not yet
13 reached the age of twenty-one would be paid by their parents).
14

15 b. **Delaware**: “... who is, or shall be of the age of eighteen years...” – Ch.
16 XXXVI, An Act for Establishing the Militia In This State, Laws of the State of
17 Delaware (1793).
18

19 c. **Georgia**: “...all the male inhabitants...above the age of eighteen...” - An
20 Act to Revise and Amend the Militia Law of This State, and to Adapt the Same to the
21 Act of the Congress of the United States, Passed the Eighth Day of May, One Thousand
22 Seven Hundred and Ninety-Two, Entitled An Act More Effectually to Provide for the
23 National Defence by Establishing and Uniform Militia Throughout the United States,
24 as contained in Digest of the Laws of Georgia, 460 (1792).
25
26

27 d. **Maryland**: “...who is, or shall be of the age of eighteen years...” - Ch.
28

1 LIII, An Act to Regulate and Discipline the Militia of This State, Laws of Maryland
2 (1793).

3 e. *Massachusetts*: “...who is, or shall be of the age of eighteen years...” -
4
5 Ch. 1, An Act for Regulating and Governing the Militia of the Commonwealth of
6 Massachusetts, and for Repealing All Laws Heretofore Made for That Purpose;
7
8 excepting an Act Entitled, An Act for Establishing Rules and Articles for Governing
9
10 the Troops Stationed in Forts and Garrisons, Within This Commonwealth, and Also
11
12 the Militia, When Called Into Actual Service, Massachusetts Acts and Laws, May
13
14 Session (1793).

15 f. *New Hampshire*: “...who is, or shall be of the age of eighteen years and
16
17 under the age of forty years...” - An Act for Forming and Regulating the Militia Within
18
19 This State, and For Repealing All the Laws Heretofore Made for That Purpose, 441
20
21 (1792).

22 g. *New Jersey*: “...all and every free and able-bodied white male Citizen,
23
24 between the ages of eighteen and forty-five...” - Ch. CCCCXIII, An Act for
25
26 Organizing and Training the Militia of This State, Sec. 4, Acts of the General Assembly
27
28 of the State of New Jersey (1792).

h. *New York*: “...who is, or shall be, of the age of eighteen years... shall
severally and respectively be enrolled in the militia...” - Ch. 45, An Act to Organize
the Militia of This State. Laws of New York (1793).

i. *North Carolina*: “That all freemen and indented servants within this State,

1 from eighteen to fifty years of age, shall compose the militia thereof...” - Ch. XXII,
2 An Act for Establishing a Militia in This State, Laws of North Carolina — 1786, 813
3 (amended by An Act to Carry Into Effect an Act of Congress, Entitled, An Act More
4 Effectually to Provide for the National Defence, by Establishing an Uniform Militia
5 Throughout the United States, Also to Amend an Act, Passed at Fayetteville, in the
6 Year One Thousand Seven Hundred and Eighty Six, Entitled, An Act for Establishing
7 the Militia in This State), Acts of the North Carolina General Assembly 1786-1787,
8 North Carolina General Assembly, 1786, Vol. 24, 783-884 (1793).

11 j. *Pennsylvania*: “...each and every free, able-bodied white male citizen...
12 who is or shall be of the eighteen years of age...” - Ch. MDCXCVI, An Act for
13 Regulating the Militia of the Commonwealth of Pennsylvania, Statutes at Large of
14 Pennsylvania (1793).

17 k. *South Carolina*: “...enroll every citizen who shall, from time to time,
18 arrive at the age of eighteen years...” - An Act to Organize the Militia Throughout the
19 State of South Carolina, in Conformity with the Act of Congress, Statutes at Large of
20 South Carolina, Vol. 8 (1794-1837) (enrolling citizens turning 18 and evidencing a
21 shift from the former militia age of 16).

23 l. *Virginia*: “...young men from eighteen to 25 years of age...” - Ch.
24 CXLVI, An Act for Regulating the Militia of this Commonwealth, Virginia (1792).

26 For further information regarding each of the above militia statutes, please see **Exhibits**
27 **3** through **14**, below.

1 17. Based on the above review of colony-by-colony militia laws during the
2 Colonial and Founding Era (seventeenth or early eighteenth century through the end of
3 the eighteenth century), I have noted common characteristics of such laws among the
4 colonies and states. First, the most common age for militia duty was 16 to 50 years
5 old; and the maximum age often went as high as 60. Second, the minimum age was
6 sometimes 18, and never higher (except for one 19-year period in Virginia).
7

8
9 18. Further, the frequent renewals and revisions of Colonial and early state
10 militia laws reflect the legislatures' continuing determination that persons 18-years-old
11 and over be well-armed. With each revision, Young Adults remained part of the militia,
12 and had the right (indeed, the legal duty) to purchase, acquire, use, and possess
13 firearms.
14

15 19. At first glance, there appears to be two examples of states which chose to
16 enroll only those 21 and older in their militia — New Jersey (in 1779) and Ohio
17 (in 1843). However, neither state set the minimum age to join the militia at 21.
18

19
20 20. Specifically, New Jersey's 1779 Act was not a general militia act, but
21 rather, a specific purpose act of the type states would enact from time-to-time as
22 supplements to their overall militia structure. See Ch. XIII, An Act for the Regulating,
23 Training, and Arraying of the Militia, and For Providing More Effectually for the
24 Defence and Security of the State, Sec. 10, Acts of the General Assembly of the State
25 of New Jersey, 40 (1781) (affirming the age group to be enrolled in the state militia as
26
27
28

1 sixteen to fifty and using twenty-one as the cut-off age for a specific purpose act, but
2 not ruling out the use of those between the ages of sixteen and twenty-one *who were*
3 *still part of the militia*). New Jersey's militia age was 18 in 1792. *See Exhibit 9*
4 (enrolling free, white males from eighteen to forty-five in the state militia). Further, the
5 1779 Act and similar acts addressed a specific need and would sometimes only be in
6 effect for a certain period of time. *See Ch. XI, An Act to Establish a Company of*
7 *Artillery, in the City of New-Brunswick, Acts of the General Assembly of the State of*
8 *New Jersey, 11 (1782)*. Moreover, the 1779 Act does not state that 21 was the minimum
9 age for militia service; instead, it states the officers would make lists of everyone above
10 21, not exempted by some other duties. It laid out a specific number of militiamen to
11 be drafted from each county so that an even 1000 was reached. Finally, the 1779 Act
12 states that "nothing herein contained shall be construed to prevent employing Officers,
13 and enlisting non-commissioned Officers and Privates between the Age of sixteen and
14 twenty-one years." *Ch. XIII, An Act for the Regulating, Training, and Arraying of the*
15 *Militia, and For Providing More Effectually for the Defence and Security of the State,*
16 *Sec. 10, Acts of the General Assembly of the State of New Jersey, 40 (1781)*

21
22 21. With regard to the Ohio statute from 1843, it merely exempted persons
23 under 21 from the militia duties *during times of peace*. Ohio's minimum age changed
24 to twenty-one the following year. *See An Act To Organize and Discipline the Militia,*
25 *Sec. 1, Ohio Statutes (1837) and An Act To Regulate the Militia, Sec. 2, Ohio Statutes*
26 *(1844)*. However, sixteen year olds were still allowed to volunteer for the militia even
27
28

1 after the shift. *Id.* In fact, the militia age in Ohio was eighteen at in 1843. *Id.*

2 22. Thus, based on my historical review of the relevant state militia laws, it
3 could not be more clear, at the crucial point of our nation’s history — Young Adults
4 were always considered part of the militia and always held the right to keep and bear
5 arms.
6

7 **Federal Militia Act**

8
9 23. The federal Militia Act of 1792 (1 Stat. 271) required that a male who “is
10 or shall be of the age of 18 years” “shall, within six months thereafter, provide himself
11 with a good musket or firelock, a sufficient bayonet and belt,” and 24 rounds of
12 ammunition. Attached hereto as **Exhibit 15** is a true and correct copy of the Uniform
13 Militia Act, 1 Stat. 271-72 (1792). The main consideration in raising the age to 18 was
14 better resistance to disease, which was more dangerous than the enemy on military
15 campaigns. Those who chose to carry a rifle instead of a musket were required to
16 possess the rifle and more than twenty rounds of ammunition. *Id.* The Militia Act of
17 1792, with amendments, remained law until repealed in 1903. It did allow States to
18 exempt persons from “militia duty.” See **Exhibit 15** at p. 272. In the 1830s and 1840s,
19 several States generally exempted citizens from this duty. However, these individuals
20 still remained members of the militia, but were not subject to drill, muster, and being
21 “called forth” by the President or their state Governor. *Id.*
22
23
24
25

26 24. The most encyclopedic treatment of militia statutes as they pertain to the
27 Second Amendment right of 18-to-20-year-olds is found in: (1) David B. Kopel &
28

1 Joseph G.S. Greenlee, *History and Tradition in Modern Circuit Cases on the Second*
2 *Amendment Rights of Young People*, 43 Southern Illinois University Law Journal 119
3 (2018) (hereinafter Kopel & Greenlee 2018); and (2) Kopel, David B. and Greenlee,
4 Joseph, *The Second Amendment Rights of Young Adults* (forthcoming in 2019), 43
5 Southern Illinois Law Journal (2019) (hereinafter Kopel & Greenlee 2019).
6

7 25. Attached hereto as **Exhibit 16** is a true and correct copy of Kopel &
8 Greenlee 2018. Attached hereto as **Exhibit 17** a true and correct copy of Kopel &
9 Greenlee 2019.
10

11 26. Additionally, not only were 18-to-20-year-olds able to freely purchase and
12 acquire firearms, they were also *required* to possess them. In fact, “over 250 Colonial
13 and state militia statutes through 1799 mandated that persons,” usually 16 or 18 (and
14 older) serve in the militia using their own arms. See **Exhibit 17** at 33-34. For example,
15 during the Founding Era, Colonial militia laws (with the exception of Pennsylvania,
16 due to objections by its Quaker population) required males to own at least one musket,
17 plus a supply of ammunition for it, and to be present annually for inspection and drill.
18 This duty generally commenced at the person’s 16th birthday. Anyone who failed in
19 their duty were subject to punishment by court-martial. See **Exhibit 15** at 271.
20
21
22

23 27. Many of the earliest Supreme Court rulings on federal preemption of state
24 laws arose from militia court martials. See, e.g., *Houston v. Moore*, 18 U.S. 1 (1820).
25 On that basis, laws prohibiting 18-to-20-year-olds from purchasing or possessing at
26 least long guns (e.g., rifles and shotguns) would have failed under the Supremacy
27
28

1 Clause, prior to the 1903 repeal of the 1792 Militia Act. Federal law *required* 18-year-
2 olds to be armed, and state law could not interfere with that. See *Presser v. Illinois*, 116
3 U.S. 252, 265-266 (1886) (leaving aside the constitutional issue, the citizenry
4 comprises the militia of the U.S. and States cannot prohibit them from keeping and
5 bearing arms so as to “disable the people from performing their duty to the general
6 government”).
7

8 **Founding Era Attitudes**

9
10 28. Although the Colonial and Founding Era regulations and militia statutes
11 prove that Young Adults held the core right to keep and bear arms under the Second
12 Amendment, I also reviewed various and more generalized “Founding Era Attitudes”
13 regarding the Second Amendment Rights of Young Adults. In my opinion, Founding
14 Era attitudes do not support the notion that Young Adults could be categorically
15 disarmed due solely to their age. Rather, Founding Era attitudes explicitly support the
16 Second Amendment rights of Young Adults. Indeed, it was common for American
17 children (under the age of 18) to be familiar with firearms, let alone Young Adults.
18
19

20
21 29. For example, on July 8, 1775, the Continental Congress warned King
22 George III that America’s superiority with arms, due to their training beginning in
23 childhood, would make them a formidable foe: “Men trained to Arms from their
24 Infancy, and animated by the Love of Liberty, will afford neither a cheap or easy
25 Conquest.” Attached hereto as **Exhibit 18** is a true and correct copy of *1 Journals of*
26 *the AM. Congress From 1774-1788*, at 169 (adopted July 8, 1775) (1823). Similarly,
27
28

1 David Ramsey, a legislator from South Carolina and delegate to the Continental
2 Congress stated, “Europeans, from their being generally unacquainted with fire arms
3 are less easily taught to use them than Americans, who are from their youth familiar
4 with these instruments of war.” Attached hereto as **Exhibit 19** is a true and correct copy
5 of 1 David Ramsey, *The History of the American Revolution* 181 (Liberty Fund 1990)
6 (1789). He also noted that “[f]or the defence of the colonies, the inhabitants had been,
7 from their early years, enrolled in companies, and taught the use of arms.” *Id.* at 178.
8

9
10 30. Writings from Thomas Jefferson provide insight into American attitudes
11 of gun ownership of Young Adults. In explaining the events in America to a Scottish
12 friend, Thomas Jefferson stated, “[w]e are all in arms, exercising and training old and
13 young to the use of the gun.” Attached hereto as **Exhibit 20** is a true and correct copy
14 of 3 Am. Archives 4th Ser. (Clark & Force) 621 (1840). Jefferson also opined that
15 during the Revolution, the reasons American battle casualties were so much lower than
16 the British was “our superiority in taking aim when we fire; every soldier in our army
17 having been intimate with his gun from his infancy.” Attached hereto as **Exhibit 21** is
18 a true and correct copy of the letter from Thomas Jefferson to Giovanni Fabbroni (June
19 8, 1778), in “From Thomas Jefferson to Giovanni Fabbroni, 8 June 1778,” Founders
20 Online, National Archives, accessed April 11, 2019,
21 <https://founders.archives.gov/documents/Jefferson/01-02-02-0066>. [Original source:
22 *The Papers of Thomas Jefferson*, vol. 2, 1777-18 June 1779, ed. Julian P. Boyd.
23 Princeton: Princeton University Press, 1950, pp. 195-198.] In precise legal usage,
24
25
26
27
28

1 “infancy” meant the same as “minority.” The word was not used exclusively in the
2 modern sense, in which an “infant” is a child younger than a toddler.

3 31. Although the historical attitudes surrounding Young Adults’ and gun
4 ownership are more subjective than the general firearms regulations and militia statutes
5 of the time, in my opinion, these general attitudes are clear. As Tench Coxe said, “the
6 power of the sword are in the hands of the yeomanry of America from 16 to 60.... Their
7 swords... are the birthright of an American.” Attached hereto as **Exhibit 22** is a true
8 and correct copy of Tench Coxe, *A Pennsylvanian, No. 3, Pennsylvania Gazette*, Feb.
9 20, 1788.

13 **Other Arms-Related Statutes and Duties**

14 32. Other arms-related statutes and duties during this period support the
15 notion that Young Adults held the right to keep and bear arms. These duties required
16 the use of arms and Young Adults were required to take part in them. Specifically,
17 Young Adults (as well as adults over 21) were required to bring their *own arms* to help
18 protect the community in various ways.

19 33. First, all able-bodied men from 15 or 16 to 60 were obliged to join in the
20 “hue and cry” to pursue fleeing criminals. As a part of this duty, deadly force was
21 permitted if necessary to prevent escape. See **Exhibit 17** at 33-34.

22 34. Second, there was “watch and ward” guard duty for towns and villages.
23 See **Exhibit 17** at p. 33, fn. 250. Young Adults took party in this duty to provide
24 security for the towns and villages. Third, Young Adults were expected to

1 participate in the *posse comitatus*. This was the power of the sheriff, coroner,
2 magistrate, or other officials to summon all able-bodied males to assist in keeping the
3 peace. Attached hereto as **Exhibit 23** is a true and correct copy of David B. Kopel,
4 *The Posse Comitatus and the Office of Sheriff: Armed Citizens Summoned to the Aid*
5 *of Law Enforcement*, 104 J. Crim. L. & Criminology 761, 763, (2015) (Kopel 2015).
6 The traditional minimum age for posse service was 15 or 16 years; the upper age limit
7 was 70 by some commentators, while other said there was no limit. *Id.* at 796. Young
8 Adults were required to participate in this posse service. Indeed, James Wilson, shortly
9 before being appointed to the U.S. Supreme Court, stated in 1790, that “No man above
10 fifteen and under seventy years of age, ecclesiastical or temporal, is exempted from
11 this service.” See James Wilson, *Lectures on Law*, in 2 Collected Works of James
12 Wilson 1017 (Kermit L. Hall & Mark David Halls eds., 2007) (Ch. VII, “The Subject
13 Continued. Of Sheriffs and Coroners”). Thus, even at the age of 15 or 16, Americans
14 were expected to use their own arms to help enforce the law (including by defending
15 themselves).

21 **Late 19th-Century Case Law**

22 35. I also reviewed the various early to mid-19th century state firearms laws
23 and regulations to determine if age-based restrictions on firearms were in place. This
24 review consisted of a diligent search for early age-restricting laws, in session laws, case
25 law, and academic articles. From 1800 to at least 1850, there were no age-based
26 firearms regulations. Thus, as in the Colonial period and the Founding Era, there were
27
28

1 no age-based arms restrictions in the early Republic or the Jacksonian period.

2 36. The first age restrictions on firearms appear in the South shortly before
3 the Civil War. In 1856, Alabama prohibited giving handguns to male minors. In 1860,
4 Kentucky outlawed providing handguns to minors, free blacks, or slaves. Other than
5 these two laws, age-based restrictions did not appear until the last quarter of the 19th
6 Century. However, as stated above, late nineteenth century laws “do not provide as
7 much insight into [the Second Amendment’s] original meaning as earlier sources.”
8
9 *Heller*, 554 U.S. at 614. Thus, my analysis must take this into account. Importantly,
10 both of these laws were restrictions on giving handguns to legal “minors” under the
11 age of majority. No law ever restricted all types of firearms for legal adults (who had
12 reached the age of majority) based on their age up to and through this period.

13
14
15 37. In my review of the mid-to-late 19th Century, I found only a handful of
16 States that limited firearm purchases based on age. However, these restrictions applied
17 to children or minors who had not reached the age of majority and were not considered
18 legal adults. Further, the age restrictions applied to individuals well under 18;
19 specifically, ages 14, 15, or 16. First, in 1880, Ohio provided that anyone who “sells,
20
21
22
23
24
25
26
27
28
barters, or gives away to any minor *under the age of fourteen years*, any air-gun,
musket, rifle-gun, shot-gun, revolver, pistol, or firearm” would be guilty of a
misdemeanor. Rev. Stat. of Ohio §6986 (6th ed. 1895) (emphasis added). Second, in
1881, a Pennsylvania law made it illegal to sell “to any person *under sixteen years of*
age, any cannon, revolver, pistol, or other such deadly weapon.’ See *McMilleb v.*

1 *Steele*, 275 Pa. 584, 119 A. 721 (1923). In this instance, the term “deadly weapon” does
2 not appear to have applied to long arms (*e.g.*, rifles and shotguns), and at least as quoted
3 by the court, did not forbid possession. Third, in 1882, New Jersey provided that it
4 would be a misdemeanor for a person to “sell, barter or exchange... any gun, pistol,
5 toy pistol, or fire-arms in this state to any person *under the age of fifteen years.*”
6 (emphasis added). This was amended four weeks later to add a section forbidding
7 persons under 15 to “fire or use” a firearm “except in the presence of his father or
8 guardian, or for the purpose of military drill in accordance with the rules of a school.”
9 See Supplement to the Revision of the Statutes of New Jersey 205-06 (1887).

10
11
12
13 38. None of the above-referenced laws applied to legal adults who had
14 reached the age of majority (at that time generally 21) or individuals under the age of
15 majority who were ages 18-to-20.

16 17 **Modern Federal Age-Based Firearm Restrictions**

18 39. In terms of federal law, the National Firearms Act of 1934; which
19 regulated sale and possession of machine guns and other specialized firearms,
20 contained no age restrictions. See 48 Stat. 1236.

21
22 40. The first federal restriction on ordinary firearms purchase came in the
23 Federal Firearms Act of 1938 (52 Stat. 1250), which forbade firearms sales to those
24 convicted of violent crimes and fugitives from justice, but it contained no age
25 restrictions.

26
27 41. The first federal age restriction appears in the Gun Control of 1968. It set
28

1 the minimum age to purchase rifles and shotguns from licensed dealers at 18 and set
2 the minimum age to purchase handguns from licensed dealers at 21. Handgun transfers
3 between two non-licensed individuals (commonly referred to a “private party transfer”)
4 were not prohibited. Thus, those under 21 who wished to purchase handguns were free
5 to acquire them through private party transfers or through their parents
6

7 42. Additional federal age-based restrictions on firearms did not occur until
8 much later in the 20th Century. The 1993 Youth Handgun Safety Act restricted, but
9 did not ban, juvenile (under 18 years old) handgun possession. See YOUTH
10 HANDGUN SAFETY ACT OF 1993, 1003 Bill Tracking S. 1087. Later, federal law
11 was amended to prohibit juveniles (under 18) from possessing handguns (subject to
12 limited exceptions). 18 U.S.C. 922(x)(2) (2018).
13

14 43. In 2009, the First Circuit upheld the federal ban on juvenile handgun
15 possession in *United States v. Rene E.* 583 F.3d 8 (1st Cir. 2009). However, in my
16 opinion, it provides little support for an age-based firearm ban on the purchase, sale,
17 transfer, and use of any firearm for Young Adults (ages 18-to-20). The statute at issue
18 related to handgun possession by those aged under 18.
19
20
21

22 44. Later, the National Rifle Association challenged the federal law that
23 prohibited federally-licensed firearms dealers from selling handguns to Young Adults
24 under the Second Amendment. On appeal, the Fifth Circuit upheld the lower court’s
25 decision that the prohibition was constitutional under the Second Amendment. The
26 Fifth Circuit applied an “historical analysis” of firearms regulations and determined the
27
28

1 conduct at issue was outside the Second Amendment's protection. However, in an
2 abundance of caution, the Fifth Circuit also applied intermediate scrutiny to uphold the
3 challenged law. *NRA of Am. v. Bureau of Alcohol*, 700 F.3d 185, 205-212 (5th Cir.
4 2012) (*NRA I*).

5
6 45. In my review of *NRA I* and current federal law, the federal handgun law
7 still allows Young Adults to purchase and possess *all types of rifles and shotguns* from
8 licensed dealers, private party transfers, and family transfers. 18 U.S.C.S. § 922(b)(1)
9 and (c)(1). Additionally, Young Adults ages 18 to 20 may still purchase, acquire,
10 transfer, and sell *handguns* through private party transfers and family transfers. These
11 exceptions were explicitly relied on in upholding the law as constitutional. See *NRA I*,
12 700 F.3d at 191-92.

13
14
15 46. In contrast, current California law prevents both dealer and private party
16 sales, transfers, and control or possession of any type of firearm (e.g., handguns, rifles,
17 and shotguns). Penal Code section 27510.

18
19 47. Relatedly, in my opinion and based on other secondary source critiques,
20 the Fifth Circuit's historical analysis of the Second Amendment relative to Young
21 Adults is flawed. See **Exhibit 16** [Kopel & Greenlee 2018] and **Exhibit 17** [Kopel &
22 Greenlee 2019]. My analysis above regarding Colonial and Founding Era firearms
23 regulations and militia statutes, and my analysis of firearms regulations up through
24 1900 are the base for my criticism.
25
26

27
28 **Other State Age-Based Firearm Restrictions**

1 48. In the 20th Century, it is generally accepted that the earliest relatively
2 strict gun law is New York’s 1911 Sullivan Act. 1911 N.Y. Laws ch. 195. It amended
3 section 1897 of the Penal Law to make it a misdemeanor to sell any “gun, revolver,
4 pistol or other firearm” to a person *under the age of 16*, and prohibited possession by
5 those persons. The history that follows is less than clear. Section 1897 had started as a
6 prohibition against those under 18 possessing brass knuckles or “slung shots,” flexible
7 clubs, but did not list firearms. 1908 N.Y. Laws ch. 93. The 1911 law added the
8 “firearms” restriction. A 1913 amendment to section 1897 expanded the list of weapons
9 forbidden to juveniles, but it removed the “firearms” portion of the prohibition. 1913
10 N.Y. Laws ch. 608. The same list of prohibited weapons, sans firearms, was repeated
11 two years later. 1915 NY Laws ch. 390. This was repeated in 1917. 1917 NY Laws
12 ch. 580. Based on my review, it appears that the ban on firearms possession by those
13 under 16 began in 1911, was repealed in 1913, and went unchanged until at least
14 through 1915. This provision, also evidently lasted throughout most of the 20th
15 century. Justice Scalia has noted that in high school (he graduated in 1953) he carried
16 a rifle through the New York City subways without any problem. See Associated Press,
17 Feb. 27, 2008, online at [https://www.deseretnews.com/article/635187836/Young-](https://www.deseretnews.com/article/635187836/Young-Scalia-carried-rifle-while-riding-NY-subway.html)
18 [Scalia-carried-rifle-while-riding-NY-subway.html](https://www.deseretnews.com/article/635187836/Young-Scalia-carried-rifle-while-riding-NY-subway.html).
19
20
21
22
23
24

25 49. New York’s Sullivan Act, which also required a discretionary license to
26 purchase a handgun, did not become popular in other States. To pre-empt its spread, in
27 1924, the United States Revolver Association published a proposed Uniform Act.
28

1 Report of the Committee on a Uniform Act to Regulate the Sale and Possession of
2 Firearms (1924). Section 9 of that proposal would have forbidden sales of handguns to
3 those under the age of 18. It did not restrict handgun sales to Young Adults ages 18
4 and over. Also, it would not have affected sales of rifles or shotguns, nor did it restrict
5 handgun possession by those under 18; the restrictions on possession were limited to
6 felons and non-citizens.
7

8
9 50. The following year, the National Conference of Commissioners on Uniform
10 Laws produced its own version of a uniform law — the Uniform Firearm Act. *See*
11 Second Report of the Committee on a Uniform Act to Regulate the Sale and Possession
12 of Firearms (1925). The Commissioners followed with further drafts in 1926, 1928,
13 and 1930. Section 8 of each draft tracked the 1924 version, forbidding only dealer sales,
14 of handguns, to those under 18. Private transfers of handguns and all transfers of long
15 guns were not subject to an age limit. Young Adults would not have been affected.
16
17

18 **History of California Age-Based Firearm Restrictions**

19
20 51. As of 1917, California law contained no age restrictions on firearm sales
21 or transfers. 1917 CA Statutes ch. 145. In 1923, California largely adopted the Uniform
22 Acts and imposed a minimum of 18 years of age or older on the sale, delivery, or
23 transfer of “any pistol, revolver or other firearm capable of being concealed upon the
24 person....” 1923 CA Statutes ch. 339, § 10. Even then, there was no California ban on
25 the sale, supply, delivery, possession, or control of any long guns based on age
26 (e.g., rifles and shotguns). *Id.*
27
28

1 52. Prior to the enactment of SB 1100, which amended California Penal Code
2 section 27510, existing California law prohibited the sale or transfer of a handgun,
3 except as exempted, to any person under the age of 21 through federally licensed dealer
4 and private party transfers. However, it expressly allowed a person at least 18 years of
5 age to buy or transfer “long guns” (e.g., rifles and shotguns) through both federally
6 licensed dealer sales, private party transfers, and familial transfers.
7

8
9 53. Based on my review of age-based firearms restrictions, California Penal
10 Code 27510 is an extreme outlier. Only five other states have implemented age-
11 restrictions on all types of firearms for Young Adults. Many of these restrictions have
12 only been in place within the last five years.
13

14 54. Attached hereto as **Exhibit 3** is a true and correct copy of Connecticut
15 Acts and Laws, October Session (1792).

17

18 61. Attached hereto as **Exhibit 10** is a true and correct copy of Ch. 45, An Act
19 to Organize the Militia of This State. Laws of New York (1793).
20

21 62. Attached hereto as **Exhibit 11** is a true and correct copy of, Ch. XXII, An
22 Act for Establishing a Militia in This State, Laws of North Carolina — 1786, 813
23 (amended by An Act to Carry Into Effect an Act of Congress, Entitled, An Act More
24 Effectually to Provide for the National Defence, by Establishing an Uniform Militia
25 Throughout the United States, Also to Amend an Act, Passed at Fayetteville, in the
26 Year One Thousand Seven Hundred and Eighty Six, Entitled, An Act for Establishing
27
28

1 the Militia in This State), Acts of the North Carolina General Assembly 1786-1787,
2 North Carolina General Assembly, 1786, Vol. 24, 783-884 (1793).

3 63. Attached hereto as **Exhibit 12** is a true and correct copy of Ch.
4 MDCXCVI, An Act for Regulating the Militia of the Commonwealth of Pennsylvania,
5 Statutes at Large of Pennsylvania, 454-481 (1793).

7 64. Attached hereto as **Exhibit 13** is a true and correct copy of An Act to
8 Organize the Militia Throughout the State of South Carolina, in Conformity with the
9 Act of Congress, Statutes at Large of South Carolina, Vol. 8 (1794-1837).

11 65. Attached hereto as **Exhibit 14** is a true and correct copy of Ch. CXLVI,
12 An Act for Regulating the Militia of this Commonwealth, Virginia (1792).

14 **CONCLUSIONS**

15 66. My research leads me to the following conclusions:

17 67. Age restrictions on the purchase or possession of firearms were utterly
18 unknown in the Colonial Era, Founding Era, and up through at least 1850. Indeed, state
19 militia laws and other regulations (such as *posse* duties) *required* Young Adults to own,
20 possess, and use firearms. From 1792 until 1903, this same requirement to own,
21 possess, and use firearms was imposed by federal law.

23 68. Colonial and Founding Era firearms safety regulations did not contain age
24 restrictions. Many dealt with the then-common fire danger of possessing large
25 quantities of black powder.

27 69. Certain racist and bigoted firearm restrictions that prohibited firearms
28

1 purchases, or disarmed “certain groups” such as Indians, slaves, free blacks, and
2 Catholics, provide no precedent for modern law and are explicitly abrogated by the
3 First, Thirteenth, and Fourteenth Amendments.
4

5 70. Firearms restrictions that prohibited firearm purchases or disarmed the
6 non-virtuous or Loyalists were historically rare, found only during wartime, and based
7 upon personal misconduct: refusal to swear allegiance. They were accompanied by
8 penalties that included loss of civil rights, confiscation of property, and exile. Thus,
9 they provide no support for categorical ban on the acquisition or possession of *any*
10 firearm by Young Adults.
11

12 71. Overwhelming historical evidence, including state militia laws and federal
13 militia requirements, confirms that Young Adults always have been considered part of
14 the militia.
15

16 72. Post-1850, the few age restrictions in place only applied to those under 18
17 and were narrow in that they usually applied only to handguns (e.g., pistols and
18 revolvers). Later restrictions applied only to individuals who had not reached the age
19 of majority and only applied to handguns.
20

21 73. Age restrictions on the purchase or possession of rifles appear to have
22 originated in the 1960s. Prior to that period, even New York, which had the strictest
23 gun laws at the time, did not restrict possession of rifles based on age.
24

25 74. Federal age-based handgun restrictions appear for the first time in 1968.
26 However, they were specific to federally-licensed dealer sales, and of handguns. The
27
28

1 federal restrictions on long guns (e.g., rifles and shotguns) only applied to those *under*
2 18.

3 75. Federal circuit court cases that have exhausted age-based restrictions have
4 only addressed restrictions on handguns, never rifles and shotguns, and never
5 prohibitions on *all* firearms based on age.
6

7 76. Those relevant federal circuit court cases also rely on a flawed historical
8 analysis and have been heavily criticized.
9

10 77. State prohibitions on all types of firearm purchases are extreme outliers
11 that only have been in place in the last several years. Until the mid-20th Century, with
12 the 1968 Gun Control Act, age restrictions on firearms in general were not common. It
13 is only in recent years that these laws have been implemented at both the federal and
14 state level.
15

16
17 I declare under penalty of perjury that the foregoing is true and correct. Executed
18 within the United States on October 4, 2019.

Education

J.D., University of Arizona 1975, with honors. Associate editor, Arizona Law Review, 1st place moot court 1st & 2nd years, won Regionals 3rd year.
B.A., University of Arizona 1972, with high honors & Honors Program (today the Honors College), in 3 years.

Experience

10 years' governmental service, Interior Department, Washington D.C.; 33 years in private practice. Experience ranged from Endangered Species and Administrative Procedure Acts to a death penalty reversal in the Arizona Supreme Court and a 5-4 in the US Supreme Court. (details below).

26 law review articles authored, two cited by the U.S. Supreme Court, and one by eleven U.S. Circuit Courts of Appeals, and another by Larry Tribe's AMERICAN CONSTITUTIONAL LAW. Author of five books, one a NY Times best-seller.

Miscellaneous

Directed a two-hour documentary film on the 2d and 14th Amendments, “In Search of the Second Amendment,” nominated for the ABA’s Silver Gavel Award. Creator of four websites and a blog, www.armsandthelaw.com. President, Tucson Rod and Gun Club.

PRESENTATIONS

In 2018, I have presented at Southern Illinois University’s symposium on “Exploring the Second Amendment: 10 Years after *Heller*,” and at the St. Louis Civil War Roundtable on the *Dred Scott* case. In past years I have given Pima County Bar CLEs on Supreme Court watching and on bringing federal test cases. Back when Barbara Atwood taught Civil Procedure, Leighton Rockafellow and I would give an annual presentation on personal jurisdiction. I have often spoken at the National Firearm Law Symposium; in 2010, due to another speaker’s emergency I had to give two presentations. The audience evaluations rated them No. 1 and 2 of the symposium, with scores of 3.94 and 3.88, where 4 was the highest rating.

I have appeared on ABC Nightline, Book TV, Court TV (twice), Scarborough Country and over a hundred radio shows.

EMPLOYMENT HISTORY

Private Practice, Tucson, Az. 1992 – present

Primarily civil litigation and appeals. Admitted to U.S. Supreme Court, Arizona Supreme Court, 4th, 6th, and 9th Circuits, U.S. District Courts for Arizona, Colorado, and District of Columbia.

Reported decisions include:

- *Mack v. United States*, consolidated with *Pritnz v. United States*, 521 U.S. 898 (1997) (10th Amendment, 5-4 win);
- *State v. Detrich*, 178 Ariz. 380, 873 P.2d 1302 (1994) (5-0 reversal of murder conviction and death penalty);
- *Arizona Libertarian Party v. Board of Supervisors of Cochise County*, 205 Ariz. 345, 70 P.3d 1146 (App. 2003) (election statutes);
- *Arizona Libertarian Party v. Schmerl*, 200 Ariz. 486, 28 P.3d 948 (App. 2001) (First Amendment: successful defense of Arizona electoral system);
- *Arizona Libertarian Party, Inc. v. Bayless*, 351 F.3d 1277 (9th Cir. 2003) (successful First Amendment attack on State electoral system);
- *NRA v. Magaw*, 132 F.3d 272 (6th Cir. 1997) (standing and ripeness);
- *A. Uberti & C. v. Leonardo*, 181 Ariz. 565, 892 P.2d 1354 (1995) (*In personam* jurisdiction in product liability case).

Office of the Solicitor, Dep't of the Interior, Wash. DC, 1982-1992

- Ten years' agency work, mainly representing U.S. Fish and Wildlife Service, occasionally detailed to other federal agencies. GS-14.
- Continuous work under Endangered Species Act, NEPA, etc.
- Chief legal advisor to FWS Law Enforcement Division.
- Litigation: Represented FWS in variety of federal lawsuits, including *US v. Dion*, 476 U.S. 734 (1986) (Eagle Act abrogates Indian hunting rights).
- Mineral, Oil and Gas Rights: Held primary staff responsibility for preparing Interior's legal position on oil, gas and mineral rights underlying Nat'l Wildlife Refuge System (68,000,000 acres) lands.
- Water Rights & Wilderness: Attorney Trish Bangert and I prepared the pivotal Solicitor's Opinion on water rights in designated Wilderness Areas. The position was subsequently adopted by the Attorney General as the position of the entire government.

Partner, Sharp, Sando, Alfred & Hardy, Tucson, 1976-1982

- Was assigned individual rating of "b(v)" by Martindale-Hubbell.
- Small firm general practice, torts, contracts, criminal defense.

Associate, Browning & Wilson-Druke, Tucson, 1975-76

- Left when partners dissolved the firm.

Colonial Firearm Regulation

Clayton E. Cramer

Recently published scholarship concerning the regulation of firearms in Colonial America claims that because Colonial governments distrusted the free population with guns, the laws required guns to be stored centrally, and were not generally allowed in private hands. According to this view, even those guns allowed in private hands were always considered the property of the government. This Article examines the laws of the American colonies and demonstrates that at least for the free population, gun control laws were neither laissez-faire nor restrictive. If Colonial governments evinced any distrust of the free population concerning guns, it was a fear that not enough freemen would own and carry guns. Thus, the governments imposed mandatory gun ownership and carriage laws.

Clayton E. Cramer is an independent scholar who took the leading role in exposing the Michael Bellesiles hoax. His website is www.claytoncramer.com.

I. THE LEGAL SIGNIFICANCE OF COLONIAL FIREARM REGULATION TODAY

In much the same way that an understanding of the limits of free speech in Colonial America may provide insights into the intent of Congress and the states when they adopted the First Amendment, so an understanding of colonial firearms regulation has the potential to illuminate our understanding of the limits of the right protected by the Second Amendment. What types of firearms laws were common, and might therefore have been considered within the legitimate scope of governmental regulation?

In the last several years, widely publicized scholarship by Michael Bellesiles has asserted that the English colonies strictly regulated the individual possession and use of firearms. While acknowledging that the English government ordered the colonists to own firearms for the public defense as a cost-cutting measure, he asserts:

At the same time, legislators feared that gun-toting

freemen might, under special circumstances, pose a threat to the very polity that they were supposed to defend. Colonial legislatures therefore strictly regulated the storage of firearms, with weapons kept in some central place, to be produced only in emergencies or on muster day, or loaned to individuals living in outlying areas. They were to remain the property of the government. The Duke of York's first laws for New York required that each town have a storehouse for arms and ammunition. Such legislation was on the books of colonies from New Hampshire to South Carolina.¹

This assertion—that the Colonial governments distrusted their free people with firearms, and closely controlled their possession in governmental hands—has begun to appear in court decisions concerning the meaning of the right to keep and bear arms provisions contained in the U.S. Constitution and 46 of the state constitutions.²

Then as now, laws were not always obeyed, and were sometimes indifferently or unequally enforced. The evidence from contemporary accounts, from probate records, or even from archaeological digs (which could suggest something about gun ownership levels by recovered artifacts), might provide us with evidence for evaluating how often those laws were followed. Under the best of conditions, however, analysis of this type is complex, and differing interpretative models may come to differing conclusions as to whether those laws were generally obeyed, generally ignored, or perhaps were somewhere in between. By comparison, evaluating the claim that Colonial governments passed laws that restricted firearms ownership and use (regardless of how those laws were actually enforced) is fairly easy.

An examination of the Colonial statutes reveals that, contrary to Bellesiles's claim of distrusted and disarmed freemen, almost all colonies *required* white adult men to possess firearms and ammunition. Some of these statutes were explicit that militiamen were to keep their guns at home; others imply the requirement, by specifying fines for failing to bring guns to musters or church. Colonies that did not explicitly require

firearms ownership passed laws requiring the carrying of guns under circumstances that implied nearly universal ownership.

None of the Colonial militia statutes even *suggest* a requirement for central storage of all guns. None of the Colonial laws in any way limited the possession of firearms by the white non-Catholic population; quite the opposite. Most colonies did, however, pass laws restricting possession of firearms by blacks and Indians. In a few cases, in a few colonies, whites suspected of disloyalty (including Catholics) were also disarmed.

As the statutes demonstrate, colonial governments did not hold that firearms in private hands, “were to remain the property of the government.”³ Indeed, the evidence is largely in the other direction—that colonial governments were often reluctant to seize weapons for public use. When driven by necessity to do so, they compensated owners of those guns.

Colonial regulations that limited the use of firearms were usually for reasons of public safety. These regulations were similar in nature, though generally less restrictive in details, than similar laws today.

II. FIREARMS AND CIVIC DUTY

The laws regulating firearms ownership adopted by the American colonies bear a strong resemblance to each other. This is not surprising, since by 1740, every colony bore allegiance to the English crown, and the laws reflected the shared heritage. The similarity in laws is especially noticeable with respect to the English duty of nearly all adult men to serve in the militia, and to bear arms in defense of the realm.

A. Connecticut

Among the Colonial militia statutes, Connecticut's 1650 code contains one of the clearest expressions of the duty to own a gun: “That all persons that are above the age of sixteene yeares, except magistrates and church officers, shall beare arms...; and every male person with this jurisdiction, above the said age, shall have in continuall readines, a good muskitt or other gunn, fitt for service, and allowed by the clark of the band...”⁴ A less elaborate form of the law appeared in 1636, with reiterations in 1637, 1665, 1673, 1696, and 1741.⁵ Fines varied between two

and ten shillings for lacking firearms or for failure to appear with firearms “compleat and well fixt upon the days of training...”⁶

B. Virginia

Virginia provides another example of a militia statute obligating all free men to own a gun. A 1684 statute required free Virginians to “provide and furnish themselves with a sword, musquet and other furniture fitt for a soldier... two pounds of powder, and eight pounds of shott...”⁷ A similar 1705 statute required every foot soldier to arm himself “with a firelock, muskett, or fusee well fixed” and gave him eighteen months to comply with the law before he would be subject to fine.⁸ There are minor modifications to the statute in 1738 that still required all members of the militia to appear at musters with the same list of gun choices, but reduced the ammunition requirement to one pound of powder and four pounds of lead balls.⁹ A 1748 revision is also clear that militiamen were obligated to provide themselves with “arms and ammunition.”¹⁰ The 1748 statute, however, did acknowledge that all freemen might not be wealthy enough to arm themselves, and provided for issuance of arms “out of his majesty’s magazine.”¹¹ By 1755, all cavalry officers were obligated to provide themselves with “holsters and pistols well fixed...”¹²

C. New York

Another typical colonial militia statute is the Duke of York’s law for New York (adopted shortly after the colony’s transfer from the Dutch), that provided, “Besides the Generall stock of each Town[,] Every Male within this government from Sixteen to Sixty years of age, or not freed by public Allowance, shall[,] if freeholders[,] at their own, if sons or Servants[,] at their Parents and Masters Charge and Cost, be furnished from time to time and so Continue well furnished with Arms and other Suitable Proviton hereafter mentioned: under the penalty of five Shillings for the least default therein[:] Namely a good Serviceable Gun, allowed Sufficent by his Military Officer to be kept in Constant fitness for present Service” along with all the other equipment required in the field.¹³

D. Maryland

Similar to statutes appearing in other colonies, Maryland's "An Act for Military Discipline" enacted in February or March of 1638/9 (O.S.) required "that every house keeper or housekeepers within this Province shall have ready continually upon all occasions within his her or their house for him or themselves and for every person within his her or their house able to bear armes[,] one Serviceable fixed gunne of bastard muskett boare..." along with a pound of gunpowder, four pounds of pistol or musket shot, "match for matchlocks and of flints for firelocks..."¹⁴ A different form of this law, ordering every member of the militia to "appear and bring with him one good serviceable Gun, fixed, with Six Charges of Powder," appears in a 1715 Maryland statute book as well.¹⁵ Cavalrymen were obligated to "find themselves with Swords, Carbines, Pistols, Holsters and Ammunition" with a fine for failure to appear armed at militia muster.¹⁶

Of course, laws were sometimes passed but not enforced in colonial times, just as happens now. But the provisions for enforcement in Maryland would seem likely to encourage enforcement for purely selfish reasons. The officers of the militia were required to verify compliance with the law by "a Sight or view of the said armes and ammunition" every month. People who failed to possess arms and ammunition were to be fined thirty pounds of tobacco, payable to the militia officer responsible for the inspection. Anyone who lacked arms and ammunition was to be armed by their militia commander, who could force payment at "any price... not extending to above double the value of the said armes and ammunition according to the rate then usual in the Country."¹⁷

To make sure that householders moving to the new land were adequately armed, it appears that one of the conditions of receiving title to land in Maryland beginning in 1641 was bringing "Armes and Ammunition as are intended & required by the Conditions abovesaid to be provided & carried into the said Province of Maryland for every man betweene the ages of sixteene & fifty years w[hi]ch shalbe transported thether." The arms required included "one musket or bastard musket with a snaphance lock," ten pounds of gunpowder, forty pounds of bullets, pistol, and goose shot.¹⁸

The Maryland militia law of 1638/9 was revised in 1642

requiring, “That all housekeepers provide fixed gunn and Sufficient powder and Shott for each person able to bear arms.”¹⁹ A 1658 revision of the law required “every householder provide himselfe speedily with Armes & Ammunition according to a former Act of Assembly viz 2 [pounds] of powder and 5 [pounds] of shott & one good Gun well fixed for every man able to bear Armes in his house.” A householder was subject to fines of 100, 200, or 300 pounds of tobacco, for the first, second, and third failures to keep every man in the house armed.²⁰

In 1756, Maryland again made it explicit that “ all and every Person and Persons of the Militia of this Province are as aforesaid, not only liable to the Duties and Services required by this Act, but also if able to find, at their own proper Cost and Charge, Suitable Arms...” At the same time, concerned that those exempted from militia duty who were wealthy were getting an unfair advantage, it ordered that exempts were obligated to “each of them find one good and Sufficient Firelock, with a Bayonet, and deliver the Same to the Colonel or Commanding Officer of the County wherein he shall reside, or pay to the Said Colonel or Commanding Officer the Sum of Three Pounds Current Money in lieu thereof...”²¹

At the start of the Revolution, Maryland still assumed that the freemen of the colony were armed as required by law. The Maryland Convention in 1775 threatened that: “if any Minute or Militia-man shall not appear at the time and place of Muster with his Firelock and other accoutrements in good order, ... he shall forfeit and pay a sum not exceeding five shillings Common money...”²²

E. Massachusetts

Massachusetts adopted a measure March 22, 1630/1 that required all adult men to be armed.²³ Although this measure is not explicit that the arms were *firearms*, it is apparent that guns were not in short supply in Massachusetts, because within 15 years, the Colonial government had made the requirement for guns explicit, and had even become quite demanding as to what type of guns were acceptable for militia duty. An order of October 1, 1645 directed that in the future, the only arms that would be allowed “serviceable, in our trained bands... are ether

full musket boare, or basterd musket at the least, & that none should be under three foote 9 inches....”²⁴ Even those exempt from militia duty were not exempt from the requirement to have a gun in their home. A June 18, 1645 order required “all inhabitants” including those exempt from militia duty, “to have armes in their howses fitt for service, with powder, bullets, match, as other souldiers....”²⁵

Massachusetts Bay Colony, like many modern governments, expressed its concern about the nexus of guns and children. A May 14, 1645 order directed that “all youth within this jurisdiction, from ten yeares ould to the age of sixteen yeares, shalbe instructed, by some one of the officers of the band, or some other experienced souldier... upon the usuall training dayes, in the exercise of armes, as small guns, halfe pikes, bowes & arrows....”²⁶ The duty to be armed meant that even children were required to learn to use a gun.

F. New Haven and Plymouth

Other colonies also required their free adult males to own guns. New Haven Colony passed such laws in 1639, 1643, 1644, and 1646.²⁷ Plymouth Colony did the same in 1632, 1636, and 1671 (although the last statute is less clear than the earlier two as to requiring private ownership).²⁸

G. New Hampshire

A statute in New Hampshire’s 1716 compilation ordered “That all Male Persons from Sixteen Years of Age to Sixty, (other than such as are herein after excepted) shall bear Arms ... allowing Three Months time to every Son after his coming to Sixteen Years of Age, and every Servant so long, after his time is out, to provide themselves with Arms and Ammunition.... That every Listed Souldier and Housholder, (except Troopers) shall be always provided with a well fix’d, Firelock Musket, of Musket or Bastard-Musket bore,... or other good Fire-Arms, to the satisfaction of the Commission Officers of the Company... on penalty of *Six Shillings* for want of Such Arms, as is hereby required....” [emphasis in original] Similar requirements were imposed on cavalrymen.²⁹

H. New Jersey

New Jersey’s 1703 militia statute was similar, requiring all

men “between the Age of Sixteen and Fifty years” with the exception of ministers, physicians, school masters, “Civil Officers of the Government,” members of the legislature, and slaves, to be members of the militia. “Every one of which is listed shall be sufficiently armed with one good sufficient Musquet or Fusee well fixed, a Sword or [Bayonet], a Cartouch box or Powder-horn, a pound of Powder, and twelve sizeable Bullets, who shall appear in the Field, so armed, twice every year....”³⁰

I. Delaware

In 1742, Delaware required, “That every Freeholder and taxable Person residing in this Government (except such as are hereafter excepted) shall, on or before the First Day of March next, provide himself with the following Arms and Ammunition, viz. One well fixed Musket or Firelock, one Cartouch-Box, with Twelve Charges of Gun-Powder and Ball therein, and Three good Flints, to be approved of by the Commanding Officer of the respective Company to which he belongs, and shall be obliged to keep such Arms and Ammunition by him, during the Continuance of this Act...” There was a fine of forty shillings for those who failed to do so.

While “every Freeholder and taxable Person” in Delaware was obligated to provide himself with a gun, not all were required to enlist in the militia, only “all Male Persons, above Seventeen and under Fifty Years of Age” with a few exceptions. The exemptions from militia duty are quite interesting. Quakers were exempted from the requirement to provide themselves with guns, from militia duty, and from nightly watch duty, in exchange for paying two shillings six pence for every day that “others are obliged to attend the said Muster, Exercise, or Watch...”

Others were exempted from militia musters, but not from the requirement to fight, or the requirement to own a gun. “[A]ll Justices of the Peace, Physicians, Lawyers, and Millers, and Persons incapable through Infirmities of Sickness or Lameness, shall be exempted and excused from appearing to muster, except in Case of an Alarm: They being nevertheless obliged, by this Act, to provide and keep by them Arms and Ammunition as aforesaid, as well as others. And if an Alarm happen, then all

those, who by this Act are obliged to keep Arms as aforesaid... shall join the General Militia..." Ministers appear to have been exempted from all of these requirements.³¹

J. Rhode Island

There seems to be no explicit Rhode Island law that required every man to own a gun. There is, however, a 1639 statute that ordered "noe man shall go two miles from the Towne unarmed, eyther with Gunn or Sword; and that none shall come to any public Meeting without his weapon."³² While not an explicit order that every man was required to own a gun, widespread gun ownership was clearly assumed. The Rhode Island city of Portsmouth did impose a requirement to own a gun in 1643, and directed militia officers to personally inspect every inhabitant of the town to verify that they had both bullets and powder.³³

K. South Carolina

Much like Rhode Island, South Carolina's obligation to own a gun is not explicit, but did require "all, and every person and persons now in this Colony" to "appeare in armes ready fitted in their severall Companies..."³⁴ "Armes," of course, might include a sword or other non-firearm weapon, but South Carolina's 1743 requirement to bring guns to church (to be discussed later), suggests that "armes" meant guns.

L. North Carolina

North Carolina passed militia laws in or before 1715 and in 1746 that were similar in form. The earlier statute required every member of the militia (every freeman between 16 and 60) to show up for muster "with a good Gun well-fixed Sword & at least Six Charges of Powder & Ball" or pay a fine.³⁵ The 1746 statute obligated "all the Freemen and Servants... between the Age of Sixteen Years, and Sixty" to enlist in the militia, and further, required all such persons "be well provided with a Gun, fit for Service,... and at least Twelve Charges of Powder and Ball, or Swan Shot, and Six spare Flints...." Failure to have those when called to militia muster would subject one to a fine of two shillings, eight pence, "for Want of any of the Arms, Accoutrements, or Ammunition..." Interestingly enough, unlike other colonies, the definition of militia member under both

statutes did not exclude free blacks.³⁶ According to John Hope Franklin, “free Negroes served in the militia of North Carolina with no apparent discrimination against them.”³⁷

M. Georgia

Georgia’s long and poorly written militia law of 1773 at first appears to provide for the government to arm the militia, since it declares that the governor or military commander may “assemble and call together all male Persons in this Province from the Age of Sixteen Years to Sixty Years... at such times, and arm and array them in such manner as is hereafter expressed....”³⁸ But later the statute directs that, “every Person liable to appear and bear arms at any Exercise Muster or Training... Shall constantly keep and bring with them... one Gun or Musket fit for Service[,] one Catridge [*sic*] Box with at least Nine Catridges filled with Good Gun Powder and Ball that shall fit his Piece[,] a horn or Flask containing at least a Quarter of a Pound of Gun Powder[,] a shot Pouch with half a pound of Bullets....” This is followed by a *very* complete list of tools required to use a gun in the field.³⁹

A member of the militia who was an indentured servant, or otherwise subject to “Government or Command” of another, was not obligated to arm himself, but like New York and other colonies, his master was. He “Shall constantly keep such arms amunition [*sic*] and Furniture for every such Indented Servant....”⁴⁰ The militia statute also provided for enlisting male slaves from 16 to 60 “as [their masters] can Recommend as Capable and faithful Slaves.” Masters were also supposed to arm such slaves when in actual militia service “with one Sufficient Gun... powder Horn and shot pouch....”⁴¹

Failure to appear “completely armed and furnished as aforesaid at any General Muster” could result in a fine of twenty shillings. Militia officers were allowed to appear at the residence of any person obligated to militia duty up to six times a year, “and to Demand a Sight of their arms amunition [*sic*] and accoutrements aforesaid....” Failure to possess the arms and ammunition could result in a five shilling fine.⁴² Similar provisions applied to those who were cavalry militiamen.⁴³

N. Pennsylvania

Pennsylvania is the only colony that does not appear to have imposed an obligation to own guns on its citizens.⁴⁴ It appears that Pennsylvania's exception was because of its Quaker origins and Quaker pacifism.

O. Indentured Servants

As part of requiring the arming of all freemen, several colonies imposed requirements that masters give guns to indentured servants who had completed their term of service. A 1699 Maryland statute (reiterated in 1715) directed what goods the master was to provide a servant completing his term. Along with clothes and a variety of tools, the master was also directed to give a newly freed male servant, "One Gun of Twenty Shillings Price, not above Four Foot by the barrel, nor less than Three and a Half; which said Gun shall, by the Master or Mistress, in the Presence of the next Justice of the Peace, be delivered to such Free-man, under the Penalty of Five Hundred Pounds of Tobacco on such Master or Mistress omitting so to do..." To encourage the newly freed servant to keep his gun, "And the like Penalty on the said Free-man selling or disposing thereof within the Space of Twelve Months..." Starting in 1705, Virginia imposed a similar requirement that freedom dues include a musket worth at least twenty shillings.⁴⁵ A 1715 North Carolina statute gave masters the choice of fulfilling freedom dues with either a suit or "a good well-fixed Gun..."⁴⁶

P. Gunpowder

Gunpowder import records also provide some clues about firearms ownership and use—and suggest that if guns were kept centrally stored, it was no impediment to colonists using those guns. The British Board of Trade recorded quantities of gunpowder imported through American ports for a brief period just before the Revolution. We have surviving records for the years 1769, 1770, and 1771 that show the American colonies imported a total of 1,030,694 pounds.⁴⁷ Of course, this shows only gunpowder imported with knowledge of the Crown; Americans smuggled goods quite regularly during those years, and there was some domestic production of gunpowder as well.⁴⁸

Gunpowder was used not only for civilian small arms, but also for cannon, blasting, and (in extremely small quantities), for

tattooing. It seems likely that at least some of this million pounds of gunpowder was sold to the British military, colonial governments, or the Indians. Nonetheless, the quantity is enormous. Even if only one-quarter of the million pounds of gunpowder was used in civilian small arms, that is enough for eleven to seventeen million shots over those three years—in a nation where, according to some, few Americans owned guns, most guns were stored in central storehouses because of mistrust of the population, and few Americans hunted with guns.⁴⁹

Q. Summary

Common to nearly every colony was the requirement that members of the militia (nearly all free white men) possess muskets and ammunition; the rest, such as Rhode Island and South Carolina, clearly assume it. Some of these statutes are explicit that militiamen are to keep their guns at home; others imply it, by specifying fines for failure to appear with guns at church or militia musters. If the militiaman's gun was stored in an armory, and was issued “only in emergencies or on muster day,” it is strange that the governments fined militiaman for failing to appear with gun and ammunition. None of the Colonial militia statutes even *suggest* a requirement for central storage of all guns. None of these laws in any way regulated the possession of firearms by the white population, except for requiring nearly all white men to own guns.

III. THE OBLIGATION TO CARRY FIREARMS

Another part of the civic duty to be armed included the duty to bring guns to church and other public meetings, or while traveling.

A. Guns in Church

The statute that most clearly states the intent of “bring your guns to church” laws is a 1643 Connecticut order, “To prevent or withstand such sudden assaults as may be made by Indeans upon the Sabboth or lecture dayes, It is Ordered, that one person in every several howse wherein is any souldear or souldears, shall bring a musket, pystoll or some peece, with powder and shott to e[a]ch meeting....” Connecticut found

within a month that, “Whereas it is observed that the late Order for on[e] in a Family to bring his Arms to the meeting house every Sabbath and lecture day, hath not bine attended by divers persons” there was now a fine for failing to do so.⁵⁰

Massachusetts Bay Colony also imposed a requirement to come to church armed, though it was repealed and reinstated several times as fear of Indian attack rose and fell. A March 9, 1636/7 ordinance required individuals to be armed. (Britain and its colonies changed from Julian to Gregorian calendar in 1752; as part of that change, the beginning of the new year changed from March 25 to January 1. What had been January 3, 1751 on the Julian calendar would be January 3, 1752 on the Gregorian calendar. Dates from before March 25, 1752 are typically recorded in a form that shows what year appears in the records—but also what year we would consider that date to have been.)

Because of the danger of Indian attack, and because much of the population neglected to carry their guns, every person above eighteen years of age (except magistrates and elders of the churches) was ordered to “come to the publike assemblies with their muskets, or other peeeces fit for servise, furnished with match, powder, & bullets, upon paine of 12*d.* for every default...”⁵¹

The requirement to bring guns to church was repealed November 20, 1637⁵² (perhaps because of the Antinomian crisis to be discussed below). A May 10, 1643 order that directed the military officer in each town to “appoint what armes to bee brought to the meeting houses on the Lords dayes, & other times of meeting” suggests that this requirement was again back in force. The motivation for the 1643 law appears to have been preventing theft of arms while the inhabitants were attending church.⁵³

Rhode Island’s 1639 law ordered that, “none shall come to any public Meeting without his weapon.” There was a fine of five shillings for failing to be armed at public meetings.⁵⁴ Maryland did likewise in 1642: “Noe man able to bear arms to goe to church or Chappell... without fixed gunn and 1 Charge at least of powder and Shott.”⁵⁵ The Rhode Island town of Portsmouth passed a similar requirement in 1643,⁵⁶ as did New Haven Colony in 1644.⁵⁷

Plymouth’s 1641 law is oddly worded, and might at first be

read as referring to a communal obligation of the township: “It is enacted That every Towneship within this Government do carry a competent number of pieeces fixd and compleate with powder shott and swords every Lord's day to the meetings....” The rest of the sentence clarifies that at least one member of each household was obligated to bring weapons to church during that part of the year when Indian attack was most feared: “one of a house from the first of September to the middle of November, except their be some just & lawfull impedymnt.”⁵⁸ By 1658, Plymouth had reduced the requirement so that only one fourth of the militia was obligated to come to church armed on any particular Sunday.⁵⁹ In 1675, apparently in response to a current military crisis, all were again required to come to church armed “with att least six charges of powder and shott” during “the time of publicke danger....”⁶⁰

The earliest mandatory gun carrying law is a 1619 Virginia statute that required everyone to attend church on the Sabbath, “and all suche as beare armes shall bring their pieeces, swords, pouder and shotte.” Those failing to bring their guns were subject to a three shilling fine.⁶¹ This law was restated in 1632 as: “All men that are fittinge to beare arms, shall bring their pieeces to the church....”⁶²

While the original motivation in colonies both North and South for bringing guns to church was fear of Indian attack, by the eighteenth century, the Southern colonies’ concerns appear to have shifted to fear of slave rebellion. Virginia’s 1619 and 1632 statutes were somewhat vague as whether all white men were required to come armed to church or not, because of the qualification “fittinge to beare arms.” The requirement was more clearly restated in a November 1738 statute that required all militiamen to come to church armed, if requested by the county’s militia commander. Other language in the statute suggests that protection of the white inhabitants from possible slave uprising was now the principal concern.⁶³

South Carolina’s 1743 confusingly worded statute required “every white male inhabitant of this Province, (except travelers and such persons as shall be above sixty years of age,) who [are] liable to bear arms in the militia of this Province... shall, on any Sunday or Christmas day in the year, go and resort to any church or any other public place of divine worship within this Province,

and shall not carry with him a gun or a pair of horse-pistols... with at least six charges of gun-powder and ball, and shall not carry the same into the church or other place of divine worship as aforesaid” would be fined twenty shillings. Other provisions required church-wardens, deacons, or elders to check each man coming in, to make sure that he was armed. The purpose was “for the better security of this Province against the insurrections and other wicked attempts of Negroes and other Slaves....”⁶⁴ A very similar statute appears in Georgia in 1770.⁶⁵

B. Guns for Travelers

Along with the duty to be armed at church, several colonies required travelers to be armed. A 1623 Virginia law (reissued in similar form in 1632) required, “That no man go or send abroad without a sufficient parte will armed.... That go not to worke in the ground without their arms (and a centinell upon them)... That the commander of every plantation take care that there be sufficient of powder and am[m]unition within the plantation under his command and their pieces fixt and their arms compleate....”⁶⁶

Massachusetts imposed a similar requirement in 1631, ordering that no person was to travel singly between Massachusetts Bay and Plymouth, “nor without some armes, though 2 or 3 togeathr.” While the law does not specify that “armes” meant firearms, it would seem likely, considering Massachusetts’s other laws requiring all militiamen to own a gun.⁶⁷ The measure was strengthened in 1636: “And no person shall travel above one mile from his dwelling house, except in places wheare other houses are neare together, without some armes, upon paine of 12*d.* for every default....”⁶⁸

Rhode Island imposed a similar requirement in 1639: “It is ordered, that noe man shall go two miles from the Towne unarmed, eyther with Gunn or Sword....” There was a fine of five shillings for failing to be armed.⁶⁹ Maryland’s 1642 law requiring everyone to come to church armed also dictated, “Noe man able to bear arms to goe... any considerable distance from home without fixed gunn and 1 Charge at least of powder and Shott.”⁷⁰

While the requirements varied from colony to colony, and the motivations changed in the South from fear of Indians to fear of slaves, common to many of the colonies was the duty to

come to church armed. Somewhat less commonly there was an obligation to be armed (sometimes explicitly with a gun) while traveling away from settled areas.

IV. RACE, SLAVERY, & REGULATION

Colonial governments imposed a duty to own guns, but otherwise seem to have imposed few restrictions on gun possession—for whites. For Indians and blacks (either free or slave), colonial laws were much more restrictive.

A. Indians

Colonial concern about Indians acquiring guns is not surprising. Firearms provided a significant advantage to whites because of the novelty of the weapon, because gunfire created fear and confusion, and because a gun could do damage under circumstances where an arrow could not.

William Bradford's account of the Pilgrims' first battle with Indians shows the advantage that guns provided the Europeans. A band of Pilgrims who were exploring the new land in December of 1620 found themselves under attack by Indians armed with bow and arrow. When the Pilgrims began firing muskets, most of the attacking Indians retreated. One brave member of the band, perhaps their leader, stood behind a tree, "within half a musket shot of us," and fired arrows repeatedly at the Pilgrims. He was far enough way, and making sufficiently good use of cover, that Myles Standish, the only professional soldier among the Pilgrim settlers, had little opportunity of hitting him. Finally, Standish, after taking "full aim at him... made the bark or splinters of the tree fly about his ears, after which he gave an extraordinary shriek, and away they went, all of them."⁷¹

When the Pilgrims arrived in 1620, the Indians of Massachusetts had no guns. Only three years later, John Pory's account reported that those Indians unfriendly to the Pilgrims had been "furnished (in exchange of skins) by some unworthy people of our nation with pieces, shot, [and] powder..."⁷² By 1627, the Indians of Massachusetts Bay were believed to have at least sixty guns, largely supplied by Thomas Morton, an Englishman whose trading post, Merrymount, was filled with the

sort of hedonists whom the Pilgrims had hoped to leave behind in England. Morton bartered guns for furs with the Indians, violating a royal proclamation against supplying firearms, powder, or shot to the Indians.⁷³

Even after Morton's banishment to England, there were problems with other Europeans selling guns to the Indians. Governor Bradford's history of Plymouth details the arrest of an Englishman named Ashley for illegal sales in 1631, and complained about French traders selling guns and ammunition to the Indians.⁷⁴

Attempts to regulate gun sales to the Indians appear in many colonies, and the severity of the punishments suggests that not all colonists shared their government's concerns. Much like the modern effort to disarm people who are not trusted, the colonial gun control efforts were a series of very strict bans that could not be enforced, and were sometimes replaced with more realistic laws that sought to control rather than prohibit sales.

The prohibitions vary in the severity of punishments and vigorous of enforcement. In 1640, Springfield, Massachusetts tried a woman accused of selling her late husband's gun to an Indian. Her defense was that she did not sell it, but lent it to the Indian, "for it lay [spoiling] in her [cellar]," and she expected to reclaim it shortly. The judge warned her that she should get it home again speedily, "for no commonwealth would allow of such a misdemeanor."⁷⁵ At the other extreme, a 1642 Maryland law prohibited providing gunpowder or shot to the Indians, and made execution one of the possible punishments.⁷⁶

Massachusetts Bay Colony, to supplement the royal proclamation against providing guns or ammunition to the Indians, passed its own ordinance on May 17, 1637 prohibiting sale of guns, gunpowder, shot, lead, or shot molds to the Indians, or repair of their guns.⁷⁷ In 1642, Massachusetts Bay complained that "some of the English in the eastern parts" who were under no government at all, were supplying gunpowder and ammunition to the Indians. Unsurprisingly, Massachusetts Bay passed laws punishing those sales.⁷⁸

Other evidence of a mistrust based on race can be seen in a pair of orders concerning militia duty. The first, on May 27, 1652, required all "Scotsmen, Negers, & Indians inhabiting with or servants to the English" between 16 and 60 to train with the militia.⁷⁹ In May, 1656, perhaps after the military crisis of the

moment had passed, “no Negroes or Indians... shalbe armed or permitted to trayne...”⁸⁰

Connecticut struggled with unlawful sales of guns to Indians. The very first entry in *Public Records of the Colony of Connecticut* concerns a 1636 complaint that “Henry Stiles or some of the ser[vants] had traded a piece with the Indians for corn.”⁸¹ In 1640, Connecticut ordered George Abbott to pay a £5 fine for “selling a pistol & powder to the Indians...”⁸² A few years later, Robert Slye, George Hubberd, John West, and Peter Blatchford were each fined £10 for “exchanging a gun with an Indian...”⁸³

Connecticut found enforcement of its gun control law prohibiting sales to the Indians⁸⁴ frustrated by other colonies. Because merchants in the Dutch and French colonies were selling guns to the Indians, Connecticut next prohibited sale of guns outside the colony. Finally, Connecticut prohibited foreigners from doing business with Indians in Connecticut; the ban was retaliation for continued sales of guns to the Indians by Dutch and French traders elsewhere.⁸⁵ Connecticut also repeatedly fined colonists for selling ammunition to the Indians.⁸⁶

By the middle of the seventeenth century, either the original fear of the Indians having guns was receding throughout the New England colonies, or the futility of trying to keep them disarmed was becoming apparent. The laws appear to have changed by the 1660s to less restrictive forms. In 1662, a Springfield, Massachusetts court fined two Indians for drunkenness. Not having the money for the fine, one of them, “Left a gun with the County Treasurer till they make payment.”⁸⁷ On April 29, 1668, the Massachusetts General Court decided to license the sale of “powder, shot, lead, guns, i.e., hand guns [small arms]” to Indians “not in hostility with us or any of the English in New England...”⁸⁸ In 1668-69, an Indian sued Francis West in Plymouth for the theft of a hog and a gun. The court ordered West to pay for the stolen hog and return the gun to the Indian.⁸⁹

A similar progression is visible in Connecticut in this same period. In 1660, Connecticut ordered that “if any Indians shall bring in guns into any of the towns” that the colonists were to seize them. The Indians could redeem their seized guns for 10s.

each, with half paid to the Treasury, and the other half paid to the Englishman who seized the gun. Because the Indians could redeem their guns, it seems that the objection was not to the Indians having guns, but bringing them to town.

By the following year, this ban on Indians bringing guns to town was repealed for the Tunxis Indians that lived nearby, who “have free liberty to carry their guns, through the English towns, provided they are not above 10 men in company.”⁹⁰ The Tunxis Indians were apparently trusted enough to come to town (in small numbers) armed.

Virginia provides perhaps the best example of the shifting views of the colonists about the effectiveness of such laws. A March 1658 Virginia statute provided that “what person or persons so ever shall barter or sell with any Indian or Indians for piece, powder or shot, and being lawfully convicted, shall forfeit his whole estate...” Any Virginian who found an Indian with gun, powder, or shot, was legally entitled to confiscate it.⁹¹

By the following year, “it is manifest that the neighboring plantations both of English and [foreigners] do plentifully furnish the Indians with guns, powder & shot, and do thereby draw from us the trade of beaver to our great loss and their profit, and besides the Indians being furnished with as much of both guns and ammunition as they are able to purchase, *It is enacted*, That every man may freely trade for guns, powder and shot: It derogating nothing from our safety and adding much to our advantage...”⁹² [emphasis in original]

In October 1665, Virginia again prohibited the sale of guns and ammunition to the Indians. The statute admitted that New Amsterdam’s sales of guns to the Indians had made the March 1658 law unenforceable. The seizure of New Amsterdam by the Duke of York in 1664 had changed the situation. “[T]hose envious neighbors are now by his majesty’s justice and providence removed from us,” the ban was again in force.⁹³

The ban on gun sales was not obeyed, however. In March 1676, as tensions between whites and Indians escalated into Bacon’s Rebellion, Virginia enacted a new statute, complaining “the traders with Indians by their [avarice] have so armed the Indians with powder, shot and guns, that they have been thereby emboldened...” The new statute made it a capital offense to sell guns or ammunition to the Indians, and also declared that any colonist found “within any Indian town or three miles without

the English plantations” with more than one gun and “ten charges of powder and shot for his necessary use” would be considered guilty of selling to the Indians, and punished accordingly.⁹⁴

In times of tension, of course, colonies might again pass restrictions on sale of guns or ammunition to Indians, but Maryland seems to have followed the model of Virginia—severe restrictions followed by more realistic regulations. A 1638/9 Maryland law made it a felony “to sell give or deliver to any Indian or to any other declared or professed enemy of the Province any gunne pistol powder or shott without the knowledge or licence of the Lieutenant Generall....”⁹⁵ A 1649 statute provided that “noe Inhabitant of this Province shall deliver any Gunne or Gunnes or Ammunicon or other kind of martiall Armes, to any Indian borne of Indian Parentage....”⁹⁶ A 1763 Maryland law prohibited “any Person or Persons within this Province to Sell or give to any Indian Woman or Child any Gun Powder Shot or lead Whatsoever[,] nor to any Indian Man within this Province more than the Quantities of one Pound of Gun Powder and six Pounds of Shot or lead at any one Time[,] and not those or lesser Quantities of Powder or Lead oftener than once in Six Months....”⁹⁷

B. Blacks

Laws disarming blacks were more common in the southern colonies. A 1680 Virginia statute prohibited “any negroe or other slave to carry or arme himselfe with any club, staffe, gunn, sword or any other weapon of defence or offence...”⁹⁸

By May, 1723, however, there seem to have been enough free blacks and Indians in the militia that the law was changed, “That every free negro, mulatto, or indian, being a house-keeper, or listed in the militia, may be permitted to keep one gun, powder, and shot....” Those blacks and Indians who were “not house-keepers, nor listed in the militia” were required to dispose of their weapons by the end of October, 1723. Blacks and Indians living on frontier plantations were required to obtain a license “to keep and use guns, powder, and shot....”⁹⁹ Even the small number of blacks and Indians who were members of the militia were apparently no longer trusted with guns in public by 1738. They were still required to muster, but “shall appear

without arms....”¹⁰⁰

Other southern colonies showed similar mistrust of blacks with guns. A Maryland statute passed in or before 1715 directed, “That no Negro or other slave, within this Province, shall be permitted to carry any Gun or any other offensive Weapon, from off their Master’s Land, without Licence from their said Master....”¹⁰¹ While less clear, Delaware’s 1742 militia statute prohibited all indentured servants and slaves from bearing arms, or mustering in any company of the militia. It is unclear from the statute if this ban applied to free blacks as well.¹⁰²

A Georgia statute of 1768 “for the Establishing and Regulating Patrols” prohibited slaves possessing or carrying “Fire Arms or any Offensive Weapon whatsoever, unless such Slave shall have a Ticket or License in Writing from his Master Mistress or Overseer to Hunt and Kill Game Cattle or Mischievous Birds or Birds of Prey....” Other provisions allowed a slave to possess a gun while in the company of a white person 16 years or older, or while actually protecting crops from birds. Under no conditions was a slave allowed to carry “any Gun Cutlass Pistol or other Offensive Weapon” from Saturday sunset until sunrise Monday morning. The “Patrols” alluded to in the law’s title were for the purpose of “Searching and examining any Negroe house for Offensive Weapons Fire Arms and Ammunition.”¹⁰³

Unlike the white population, blacks and Indians were not generally trusted with guns, and the laws reflected this. While individual whites might be disarmed as punishment for a crime or suspected disloyalty (as will be discussed next), gun ownership was generally unrestricted, except for blacks or Indians.

V. DISARMING THE DISLOYAL

Individual whites were sometimes disarmed if they were perceived as disloyal to the polity.

A. Antinomians

In 1637 Massachusetts, Anne Hutchinson’s Antinomian heresy threatened the social order. Hutchinson’s beliefs had spread rapidly through Puritan society, and “some persons being

so hot headed for maintaining of these sinfull opinions, that they feared breach of peace, even among the Members of the superiour Court... those in place of government caused certain persons to be disarmed in the severall Townes, as in the Towne of Boston, to the number of 58, in the Towne of Salem 6, in the Towne of Newbery 3, in the Towne of Roxbury 5, in the Towne of Ipswitch 2, and Charles Towne 2.”¹⁰⁴

Today we can look with disfavor on this disarming order for a variety of violations of the Constitution: as a bill of attainder; as a violation of due process; for granting favor to one religious point of view. These concerns, of course, are ahistorical. What the disarming order tells us about Colonial Massachusetts strongly indicates that gun regulation was generally *not* restrictive.

While consistent with the claim that Colonial governments disarmed persons who were not trusted, that there was a need to cause “certain persons to be disarmed” suggests that firearms were *not* stored in central storehouses and were not usually under governmental control. Most freemen were armed, as the laws of all the colonies except Pennsylvania required. Only as punishment for a specific crime—heresy—did Massachusetts disarm Hutchinson’s partisans. The number disarmed—77 out of a population then in the thousands—is far less than the percentage legally disarmed in America today.

Virginia’s statutes provide a positive variant of this notion. A 1676/7 statute directed, “It is ordered that all persons have hereby liberty to sell armes and ammunition to any of his majesties loyall subjects inhabiting this colony...”¹⁰⁵ Any loyal subject of the crown was permitted to purchase and own guns.

B. Catholics

Maryland provides a somewhat different example. Catholics were exempted from militia duty because, like Hutchinson’s Antinomians, and blacks almost everywhere in the colonies, they were not completely trusted. In light of the role that Catholics played in the recurring attempts to restore the Stuarts to the throne of England, the distrust is unsurprising.

In exchange for exemption from militia duty, Catholics were doubly taxed on their lands.¹⁰⁶ As part of the same statute, members of the militia were required to swear an oath of

allegiance to King George II. Catholics who refused the oath—thus refusing their legal obligation as British subjects to defend the realm—were not allowed to possess arms or ammunition.¹⁰⁷

The law of Britain concerning Catholics and arms after the accession of William I to the throne is at first glance quite confusing. A 1689 law prohibited Catholics from possessing “any arms, Weapons, Gunpowder, or Ammunition (other than such necessary Weapons as shall be allowed to him by Order of the Justices of the Peace, at their general Quarter sessions, for the Defence of his House or Person).”¹⁰⁸ The law both prohibited Catholics from possessing arms, and yet allowed them, under some restrictions, to have at least defensive arms. Joyce Malcolm argues that, “This exception is especially significant, as it demonstrates that even when there were fears of religious war, Catholic Englishmen were permitted the means to defend themselves and their households; they were merely forbidden to stockpile arms.”¹⁰⁹

At least in times of crisis, the English law would appear to have been the justification for disarming Catholics both in Britain and America. In Britain, for example, the death of the queen in 1714 caused orders that, “The Lords Leiutents of the severall Countrys were directed to draw out the Militia to take from Papists & other suspected Persons their Arms & Horses & to be watchfull of the Publick Tranquillity.”¹¹⁰

Yet there seem to be relatively few incidents that appear in the *Archives of Maryland* that actually involve taking away arms from Catholics, and even these bear careful scrutiny. In 1744, “No Roman Catholick be for the future enrolled or mustered among the Militia of the said County and that if any of the *Publick Arms* be in the Possession of any Roman Catholick, the Colonel of the said County is hereby desired to oblige the Person in whose Custody such Arms are, to deliver the same to him.” [emphasis added]¹¹¹ The law apparently did not order confiscation of privately owned arms owned by Catholics.

By contrast, in 1756, “all Arms Gunpowder and Ammunition of what kind soever any Papist or reputed Papist within this Province hath or shall have in his House or Houses” were ordered seized.¹¹² That the order was adopted when it was, however, suggests that while the 1689 law *allowed* complete prohibition of Catholic gun ownership at the discretion of the government, in Maryland they were not *usually* prohibited from

possession.

Catholics settled mainly in Maryland. In other colonies, there is no evidence that Catholics in general were disarmed.

Georgia provides an example of selective Catholic disarmament. At the start of the French & Indian War, British forces demanded that the French population of Nova Scotia swear an oath of allegiance to the crown. Persons who refused were forcibly removed to other British colonies. Some of these Acadians (the ancestors of the Cajuns) were bound as indentured servants in Georgia. A 1756 law prohibited indentured Acadians “to have or use any fire Arms or other Offensive Weapons otherwise than in his Masters Plantation or immediately under his Inspection....”¹¹³ There seems to be no general prohibition on Catholic ownership of firearms in Georgia; the Acadians were disarmed because they had refused to be loyal subjects of the British government, and the suspicion of disloyalty followed them to Georgia.

VI. PRIVATE VS. GOVERNMENT OWNERSHIP

Regarding Bellesiles’s claim that guns “were to remain the property of the government,”¹¹⁴ the evidence suggests quite the opposite.

A. Guns for the Poor

On any number of occasions, the Colonial governments supplied guns to subjects too poor to purchase them. The laws usually specified that the recipient was to pay for the gun.

For example, a March 22, 1630/1 Massachusetts statute required the entire adult male population to be armed. Every person, including servants, was to own “good & sufficient armes” of a type “allowable by the captain or other officers, those that want & are of abilitie to buy them themselves, others that are unable to have them provided by the town....” Those who were armed by the town under the March 22 statute were to reimburse the town “when they shalbe able.”¹¹⁵ On March 6, 1632/3, the law was amended to require that any single person who had not provided himself with acceptable arms would be compelled to work for a master. The work earned him the cost of the arms provided to him by the government.¹¹⁶

Connecticut's Code of 1650 provided that a person who were required to arm themselves, or arm a dependent, but "cannot purchase them by such means as he hath, hee shall bring to the clark so much corne or other merchantable goods" as was necessary to pay for them. The value of the arms was to be appraised by the clerk "and two others of the company, (whereof one to bee chosen by the party, and the other by the clarke,) as shall be judged of a greater value by a fifth parte, then such armes or ammunition is of..."

Thus, the man who would not purchase a gun and ammunition would have one provided by the government, but at a price as much as twenty percent above the market price. The high price created an incentive to purchase a gun privately.

Another part of the law provided for hiring out any unarmed single men to earn the price of a gun and ammunition.¹¹⁷ Very similar laws appeared in New York¹¹⁸ and New Hampshire.¹¹⁹

A 1673 Virginia law, while less explicit about the process for determining the value of the arms, directed militia officers to purchase guns on the public account for distribution to those who could not afford them, "for them to dispose of the same as there shalbe occasion; and that those to whome distribution shalbe made doe pay for the same at a reasonable rate..."¹²⁰ The law does not directly disprove that guns were "to remain the property of the government." It does, however, seem a bit strange for the government to provide guns to individual militiamen, and then require them to pay for those guns, if the guns were to remain governmental property.

B. Public Arms

Not every Virginia militiaman apparently succeeded in arming himself; a 1748 statute provided "it may be necessary in time of danger, to arm part of the militia, not otherwise sufficiently provided, out of his majesty's magazine and other stores within this colony..." Contrary to the claim that all guns were considered the property of the government, the same statute criminalized embezzlement of "arms or ammunition" that were issued to those who were too poor to arm themselves, and thus drew a distinction between public arms issued from "his majesty's magazine" and other, presumably privately owned firearms.¹²¹

Similarly, a Maryland statute of 1733 passed “to prevent the Embezzlement of the Public Arms” directed “That all the Public Arms shall be Marked with such Marks... to denote such Arms to belong to the Public; after which Marks so made, no Person or Persons whatsoever, shall presume to Sell or Purchase such Arms so Marked....”¹²² If all guns automatically belonged to the government, it seems a bit odd that there was a need to mark them as “Public Arms.”

In 1756, Maryland’s militia officers were ordered to make a diligent search for arms and ammunition, demanding that everyone show what guns they had. The reason would appear to be, “Whereas on many Occasions Arms Ammunition and military Accoutrements of different Kinds have been delivered out of the public Magazines of this Province and are now dispersed among the Inhabitants and have been Sold or Sent from one to another and it is represented that the Locks have been taken of from many of the Said Arms and put to private Use....”¹²³ If all guns were “automatically government property,” the careful search for publicly owned arms, distinguishing them from private property, would make no sense.

Massachusetts at one point directed that, “The surveyar genrall of the armes of the country shall have power to sell any of the country armes for an equall price, either in corne or other country pay, & to p[ro]vide armes againe therew[ith] so soone as may bee, so hee sell them not out of this jurisdiction.”¹²⁴ Publicly owned arms were to be sold (not issued or loaned), as long as they were sold in Massachusetts.

A 1765 Virginia statute is also strong evidence that guns were not regarded as automatically government property. It provided for militia commanders in “each of the counties from which the militia has been sent into service in the pay of this colony shall, within the space of three months after the passing this act, sell, for the best price that be had for the same, all arms, ammunition, provisions, and necessities purchased at the publick expense in the said counties....”¹²⁵ Surplus government guns were clearly sold, not loaned out to militiamen.

C. Private Arms

Other evidence establishes that Colonial governments at least sometimes recognized that guns could be private property,

and were *not* regarded as automatically the property of the government. Connecticut's records provide such evidence. In 1639, after the Pequot War, "a musket with 2 letters I W" was found, "conceaved to be Jno. Woods who was killed att the Rivers mouth. It was ordered for the present [that] the musket should be delivered to Jno. Woods friends until other appeare."¹²⁶ If the Connecticut government regarded a dead man's musket as "government property," it is odd that they delivered it to his friends.

We also have examples of colonists fined for selling guns to the Indians—and with no suggestion that these were publicly owned arms. A 1636 complaint in the Connecticut records shows that "Henry Stiles or some of the ser[vants] had traded a peece with the Indians for Corne."¹²⁷ In 1640, George Abbott is ordered to pay a £5 fine for "selling a pystoll & powder to the Indeans...."¹²⁸ Fines are also repeatedly assessed for selling guns to the Indians, with no hint or suggestion that these were government property.¹²⁹

Were guns privately owned or government property? We have evidence such as a Connecticut lawsuit in 1639 by a "Jno. Moody contra Blachford, for a fowling peece he bought and should have payd for it 40s."¹³⁰ In 1640, also in Connecticut, a William Hill was fined £4 "for buying a stolen peece of Mr. Plums man."¹³¹ There is nothing in the reports of these cases that suggests that these guns were considered government property.

Similarly, in New Haven Colony, a civil suit of 1645 concerns a gun purchased by Stephen Medcalfe from a Francis Linley. The gun was defective, and when it exploded, Medcalfe lost an eye. There is nothing in the description of the suit that suggests that the gun was "property of the government" and no surprise that one person sold a gun to another.¹³²

Bellesiles claims that "the government reserved to itself the right to impress arms on any occasion, either as a defensive measure against possible insurrection or for use by the state. No gun ever belonged unqualifiedly to an individual."¹³³

Yet there are a number of examples that directly contradict this claim. An October 13, 1675 statute of Massachusetts Bay provided for assessments on persons exempt from militia training of "so many fire armes, muskets, or carbines, with a proportionable stocke of [powder] & am[m]unition, as the said

committees respectively shall appoint....” It appears that this was an assessment in kind, not of money. Another part of the statute specified “all such persons as shall be assessed, and shall accordingly provide three fire armes, shall be freed from being sent abroad to the warrs, except in extreame & utmost necessity.”¹³⁴

Thus, the government believed that there were enough people who owned at least three guns that the government was prepared to exempt them from the onerous duty to fight overseas if they offered those guns to the government. As much as the government needed the guns, it did not believe that it had the authority to confiscate them. Instead, it needed to make a deal with the owners. Apparently the government did not believe that all guns were its property.

More evidence that militiamen possessed their *own* arms, and that the arms were not always issued from government magazines for militia service, is Massachusetts Governor William Shirley’s 1755 order to the militia to appear for service. “To such of them as shall be provided with sufficient Arms at their first Muster, they shall be allowed a *Dollar* over and above their Wages, and full Recompence for such of their Arms as shall be inevitably lost or spoiled.”¹³⁵

Clearly, Governor Shirley believed that there were some members of the militia who, contrary to law, did not have firearms appropriate to military service. Just as clearly, Governor Shirley believed that some members would show up appropriately armed, and he was prepared to pay them extra to do so. Most importantly from the standpoint of private vs. public ownership, “full Recompence” shows that militiamen would be compensated for the loss of their privately owned guns; the guns were not “property of the government.”

Maryland’s Governor Sharpe similarly directed calling up of the militia, offering to provide government arms in 1759, but also “That for Every One of such Arms as any of Your men shall bring with them, and that may be Spoiled or Lost in actual Service, I will pay at the rate of Twenty five Shillings a Firelock.”¹³⁶

At the start of the Revolution, a number of colonies made arrangements for additional pay for those soldiers who showed up with their own guns. Connecticut, for example, provided

“that each inlisted inhabitant that shall provide arms for himself, well fixed with a good bayonet and cartouch box, shall be paid a premium of ten shillings....”¹³⁷ Later measures also suggest that militia men showing up with their own guns, and being paid extra, were the rule, not the exception.¹³⁸ Like Governor Shirley’s “full Recompense,” the Connecticut laws provided for compensation for those whose guns were lost in the war. While Connecticut impressed guns from the population for militiamen who did not have their own, the owners were to be paid four shillings for the use of impressed guns, and “the just value of the such gun” if lost.¹³⁹

At the start of the Revolution, the Provincial Congress of Massachusetts purchased firearms from private parties,¹⁴⁰ and requested private citizens to sell their guns to the government: “[I]t is strongly recommended to such inhabitants..., that they supply the colony with same.”¹⁴¹ A request of June 15, 1775 for individuals to sell their arms is also phrased in terms that seem quite voluntary. “*Resolved*, that any person or persons, who may have such to sell, shall receive so much for them, as the selectmen of the town or district in which or they may dwell, shall appraise such arms at....”¹⁴²

Other colonies also purchased guns from private parties—a strange behavior if guns remained “the property of the government.”¹⁴³ Similarly, in November of 1775, with the war well under way, the Pennsylvania government issued a very odd statement, if guns were automatically “property of the government”:

The Committee of Safety are of opinion, that it is not improper for Mr. James Innes to purchase any second hand Arms which he may find in the hands of Individuals of this Province, and therefore have no objection to his buying them; But as they have employed, and are endeavouring to employ, all the Artificers that can be procured in making new arms for the public, they apprehend any application by Mr. Innes to such Artificers, will be attended with bad consequences to the general Cause by enhancing the Price of arms....¹⁴⁴

At the start of the Revolution, the Maryland government confiscated guns from Tories and others suspected of disloyalty

to the Patriot cause. Yet even then, the owners received compensation for the value of their guns.¹⁴⁵ Even disloyalty was not just cause for confiscation without compensation.

Another piece of evidence that guns were not “property of the government” is a 1776 order of the Continental Congress:

Whereas in the execution of the resolve of Congress of the 14th of March, respecting the disarming disaffected persons, many fire arms may be taken, which may not be fit for use to arm any of the troops mentioned therein: Therefore, Resolved, That all the fire arms so taken, being appraised according to said resolve, none of them shall be paid for, but those that are fit for the use of such troops, or that may conveniently be so made, and *the remainder shall be safely kept by the said assemblies, conventions, councils or committees of safety, for the owners, to be delivered to them when the Congress shall direct.*¹⁴⁶ [emphasis added]

The owners were to be paid for guns taken for military use. Government ownership of guns was not assumed. Quite the opposite, private ownership was assumed and respected, even for Tories.

In the days after Lexington and Concord, General Gage was understandably nervous about being attacked from the rear by armed rebels. General Gage consequently ordered the people of Boston to turn in their arms. Many Bostonians were also deeply interested in leaving town, both because of the increasing poverty caused by the Boston Port Act of 1774, and the likelihood that the revolutionary army would attack Boston.

As an incentive, General Gage offered passes to leave Boston to all who turned in their weapons. No weapons or ammunition were allowed to leave Boston. The arms were to be “marked with the names of the respective owners...that the arms aforesaid, at a suitable time, would be returned to the owners.” The marking of the arms demonstrates that at least of some these were personally owned, not public arms. On April 27th, “the people delivered to the selectman 1778 fire-arms, 634 pistols, 973 bayonets, and 38 blunderbusses....”¹⁴⁷

VII. RESTRICTIONS ON PRIVATE USE

There are restrictions on the use of firearms in the Colonial law, and most of these are unsurprising. They are safety and hunting regulations of the same general form, though less restrictive, than current laws.

A. Restrictions on Discharge

The need for such laws strongly suggests that the claim that guns were kept centrally stored is incorrect. A March 1655/6 Virginia statute, for example, prohibited shooting “any guns at drinkeing (marriages and funerals onely excepted)” because gunshots were the common alarm of Indian attack, “of which no certainty can be had in respect of the frequent shooting of gunns in drinking...”¹⁴⁸ Similarly, a 1642 Maryland statute also ordered that, “No man to discharge 3 guns within the space of ¼ hour... except to give or answer alarm.”¹⁴⁹

There are some regulations that appear to have been temporary measures designed to deal with a particular crisis, and we may only speculate as to the motivations. An example is a 1675 Plymouth statute that prohibited shooting except at an Indian or a wolf. Since this measure immediately followed one requiring everyone to come to church armed “during the time of publicke danger,”¹⁵⁰ it seems likely that the law was an attempt to prevent unnecessary alarm, for the same reasons as the Virginia and Maryland laws.

Shooting was apparently a common enough pastime in 1638 Massachusetts that when an Emanuell Downing had “brought over, at his great charges, all things fitting for takeing wild foule by way of [decoy],” the General Court felt it necessary to order “that it shall not bee lawfull for any person to shoote in any gun within halfe a mile of the pond where such [decoy] shalbee placed...”¹⁵¹ The need for such a law suggests that guns were not kept locked in a central storehouse.

The laws were passed not only for the economic benefit of the community as a whole, but also because negligent misuse of firearms was not unknown. An incident from a history of Plymouth Colony described how:

On 1 July 1684 Robert Traves of Scituate, described as a ‘negro,’ was indicted for firing a gun at the door of Richard Standlake, thereby wounding and shattering the leg of Daniel Standlake, which occasioned his death. The jury found the death of Daniel Standlake by ‘misadventure,’ and the defendant, now called ‘negro, John Traves,’ was cleared with admonition and fine of £5.¹⁵²

A statute adopted at the Massachusetts 1713-14 legislative session complained, “Whereas by the indiscreet firing of guns laden with shot and ball within the town and harbour of Boston, the lives and limbs of many persons have been lost, and others have been in great danger, as well as other damage has been sustained...” the legislature prohibited firing of any “gun or pistol” in Boston (“the islands thereto belonging excepted”).¹⁵³

Perhaps for a similar reason—or just to allow the inhabitants to get some sleep—in 1759, Georgia made it unlawful to fire “any great gun or [small] arm in the town or harbour of Savannah after Sun Set without leave or permission from the Governor....”¹⁵⁴

B. Restrictions on Hunting

Hunting with firearms was also sufficiently common for Colonial governments to adopt restrictions. A 1632 Virginia statute licensed hunting wild pigs, but “any man be permitted to kill deare or other wild beasts or fowle in the common woods, forests, or rivers.... That thereby the inhabitants may be trained in the use of their armes, the Indians kept from our plantations, and the wolves and other vermine destroyed.”¹⁵⁵ A March 1661/2 statute prohibited “hunting and shooting of diverse men” on land without the owner’s permission “whereby many injuries doe dayly happen to the owners of the said land....” The statute also provided that it was lawful to pursue game shot elsewhere onto private land without permission.¹⁵⁶ A 1699 statute, “prohibiting the unseasonable killing of Deer,” complained about how the deer population “is very much destroyed and diminished” by killing “Does bigg with young....”¹⁵⁷

Laws regulating hunting appear in at least two colonies by

mid-eighteenth century, and the language in both statutes suggests that hunting was common. A 1722 New Jersey “Act to prevent the Killing of Deer out of Season” prohibited deer hunting from January through June. That same law included a provision prohibiting “Persons carrying of Guns, and presuming to Hunt on other Peoples Land” explaining that it was required because “divers Abuses have been committed, and great Damages and Inconveniencies arisen....” The same act prohibited a slave from hunting or carrying a gun without permission of his master.¹⁵⁸

A 1738 North Carolina “Act, to Prevent killing Deer, at Unseasonable Times” made it unlawful “to kill or destroy any Deer... by Gun, or other Ways and Means whatsoever” from February 15 to July 15.”¹⁵⁹

Virginia temporarily banned deer hunting in 1772, complaining that “many idle people making a practice, in severe frozen weather, and deep snows, to destroy deer, in great numbers, with dogs, so that the whole breed is likely to be destroyed, in the inhabited parts of the colony....” The government’s concern was that, “numbers of disorderly persons... almost destroyed the breed, by which the inhabitants will... be deprived of that wholesome and agreeable food....” Therefore, deer hunting was completely prohibited until August 1, 1776.¹⁶⁰ It is not made explicit that the hunting was with guns, however.

Maryland had a few hunting restrictions as well. A 1648 law complained that because licenses previously issued for “killing of Wild Hoggs [e]mploying Indians to kill deere with Gunnes” both to residents and non-residents of Maryland “hath occasioned some inconvenience & hath given great offence to divers of the Inhabitants of this Province,” all existing licenses were repealed. Unfortunately, the statute failed to explain in what manner this hunting had inconvenienced or offended the “Inhabitants.”¹⁶¹

Two years later, another law prohibited foreigners “either English or Indian” from hunting “in any part of this Province or kill any Venison or other Game” without a license from the governor,¹⁶² again with no explanation of the problem this law was intended to solve.

A 1654 Maryland law sought to prohibit shooting on Sundays: “Noe work shall be done on the Sabbath day but that which is of Necessity and Charity to be done no Inordinate

Recreations as fowling, fishing, hunting or other, no shooting of Gunns be used on that day Except in Case of Necessity[.]” Following immediately upon prohibitions on drunkenness, swearing and gossiping, the statute seems intended to improve morals of the population, and was not specifically directed at guns.¹⁶³ In 1678, the law was expanded to prohibit a larger list of amusements, and still prohibited fishing and hunting.¹⁶⁴

C. Restrictions on Fire-hunting

One particularly destructive practice of Colonial America was “fire-hunting,” well described by a 1760 account explaining why white pines in New York, New England, and New Jersey were protected for the use of the Royal Navy:

This restriction is absolutely necessary, whether considered as securing a provision for the navy, or as a check upon that very destructive practice, taken from the Indians, of fire-hunting. It used to be the custom for large companies to go into the woods in the winter, and to set fire to the brush and underwood in a circle of several miles. This circle gradually contracting itself, the deer, and other wild animals inclosed, naturally retired from the flames, till at length they got herded together in a very small compass.

Then, blinded and suffocated by the smoke, and scorched by the fire, which every moment came nearer to them, they forced their way, under the greatest trepidation and dismay, through the flames. As soon as they got into the open daylight again, they were shot by the hunters, who stood without and were in readiness to fire upon them.¹⁶⁵

Fire-hunting was not confined to the Northeast colonies; there are a number of statutes of Colonial Virginia and Maryland that either directly prohibit fire-hunting with reference to guns,¹⁶⁶ or that license hunting on the frontier in an attempt to control fire-hunting.¹⁶⁷ Doubtless other restrictions on firearms use existed—but if so, those who argue that Colonial governments severely restricted firearms use have yet to produce

them.

CONCLUSION: COLONIAL FIREARMS REGULATIONS WERE
NEITHER *Laissez-faire* NOR RESTRICTIVE

As should be clear from the preceding walk through these laws, the Colonial statutes were not *laissez-faire*; there were many obligations concerning the ownership and carrying of guns adopted for the public good. Neither were they restrictive, at least for whites (with the exception of Catholics in Maryland). There were, it is true, some severe restrictions on firearms ownership in Colonial America, but they applied only to people who were not trusted to be loyal members of the community, particularly Indians and blacks. For the vast majority of people, who were considered loyal members of the community, gun ownership was not only allowed, it was an obligation.

ENDNOTES

1. Michael A. Bellesiles, *Arming America: The Origins of a National Gun Culture* (New York: Alfred A. Knopf, 2000), 73. Similar text, with a subset of the same footnotes, appears at Michael Bellesiles, "Gun Laws in Early America: The Regulation of Firearms Ownership, 1607-1794," *Law & History Review*. 16:575 (1998).

Bellesiles also asserts government ownership of all guns at *Arming America*, pp. 79-80. Because individuals failed to take adequate care of guns in private hands, "The eventual solution to the lack of care devoted to firearms was to make all guns into the property of the state, subject to storage in central storehouses where they could be cleaned and repaired by paid government gunsmiths." Similarly, Bellesiles asserts that while "the colonies supported and subsidized the private ownership of firearms, the government reserved to itself the right to impress arms on any occasion, either as a defensive measure against possible insurrection or for use by the state. No gun ever belonged unqualifiedly to an individual."

165. Andrew Burnaby, “In the Woods” in Albert Bushnell Hart and Mabel Hill, *Camps and Firesides of the Revolution* (New York: Macmillan Co., 1937), 51. See also J. Franklin Jameson, ed., *Johnson’s Wonder-Working Providence: 1628-1651* (New York: Barnes & Noble, Inc., 1959), 85, for what *may* be a description of Indian fire-hunting of deer in seventeenth century New England.

166. Hening, 5:62 is a 1738 statute prohibiting fire-hunting by both colonists and Indians. “And if any Indian be found fire-hunting... it shall and may be lawful, for the owner of such land... to take away the gun of such Indian, and the same to keep to his own use.” *Id.*, 5:431 again punishes fire-hunting.

Archives of Maryland, 28:348-9 is a 1745 statute that prohibits fire-hunting, although it is not explicit that the “hunters” were using guns. *Id.*, 44:21, 36, 39, 173, 180-1, trace the legislative history from the request earlier that year from the backwoods farmers to prohibit fire-hunting and hunting by non-residents to final passage. For reasons not explained, a similar law is debated in 1753 at 50:211 and 251, where it was “referred to the Consideration of next Assembly.”

Connecticut’s 1733 statute regulating “Firing the Woods” at *Public Records of Connecticut*, 7:456-7, is not explicitly about hunting, nor does it ever mention firearms, but may have been motivated by the same concerns.

167. Hening, 3:69.

ACTS AND LAWS.

Militia.

423

ACTS AND LAWS,

Made and passed by the General Court or Assembly of the State of Connecticut, in America, holden at New-Haven, (in said State) on the second Thursday of October, Anno Dom. 1792.

An Act for forming and conducting the military force of this state, conformable to the act of Congress, passed the eight day of May, A. D. 1792, which is as follows:—" An Act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States."

"SECTION I. **B**E it enacted by the Senate, and house of Representatives, of the United States of America, in Congress assembled, That each and every free able bodied white male citizen, of the respective states, resident therein, who is, or shall be of the age of eighteen years, and under the age of forty-five years (except as is herein after excepted) shall severally and respectively be enrolled in the militia, by the captain or commanding officer of the company, within whose bounds such citizen shall reside; and that within twelve months after the passing this act, it shall at all times hereafter be the duty of every such captain, or commanding officer of a company, to enrol every such citizen, as aforesaid; and also those who shall, from time to time, arrive at the age of eighteen years, and under the age of forty-five years (except as before excepted) shall come to reside within his bounds; and shall without delay, notify each citizen of the said enrolment, by a proper non-commissioned officer of the company, by whom such notice may be proved. That every such citizen so enrolled and notified, shall within six months thereafter, provide himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints and knapsack, a pouch with a box therein to contain twenty-four cartridges, suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball; or with a good rifle, knapsack, shot-pouch and powder-horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder; and shall appear so armed, accoutred and provided, when called out to exercise, or into service, except that when called out on company days to exercise only, he may appear without a knapsack. That the commission officers shall severally be armed with a sword or hanger, and espartoon; and that from and after five years from the passing this act, all muskets for arming the militia, as herein required, shall be of bores sufficient for balls of the eighteenth part of a pound: And every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements, required as aforesaid, shall hold the same exempt from all suits, distresses, executions, or sales for debt, or for the payment of taxes."

Militia how & by whom to be enrolled.

How to be armed and accoutred.

"SEC. II. *And be it further enacted,* That the vice-president of the United States, the officers, judicial and executive, of the United States, the members of both houses of Congress, and the respective officers, all custom-house officers, with their clerks, all post-officers, and stage drivers, who are employed in the care and conveyance of the mail of the post-office of the United States, all ferrymen employed at any ferry on the post-road, all inspectors of exports, all pilots, all mariners actually employed in the sea service of any citizen or merchant within the United States, and all persons who are, or may hereafter be exempted by the laws of the respective states, shall be, and are hereby exempted from military duty, notwithstanding their being above eighteen, and under the age of forty-five years."

Executive officers, &c. exempt.

Y y y

SEC. III.

ACTS AND LAWS.

424

Militia.

Militia how to be arranged,
 by whom officered.
 Each battalion to have a company of grenadiers, &c. and a company of artillery.
 Officers how to be armed.
 Troops of horse how officered, &c.
 Artillery and horse of whom to be formed; to be uniformly clad at their own expence.
 What colours &c. and by whom to be furnished.
 Adjutant-general in each state, his duty.
 Rules of discipline.
 Officers how to take rank.

“Sec. III. *And be it further enacted,* That within one year after the passing this act, the militia of the respective states shall be arranged into divisions, brigades, regiments and companies, as the legislature of each state shall direct; and each division, brigade, and regiment, shall be numbered at the formation thereof, and a record made of such numbers in the adjutant general's office in the state; and when in the field, or in service of the state, each division, brigade and regiment, shall respectively take rank according to their numbers, reckoning the first or lowest number highest in rank. That if the same be convenient, each brigade shall consist of four regiments, each regiment of two battalions, each battalion of five companies, each company of sixty-four privates. That the said militia shall be officered by the respective states, as follows, To each division one major-general, and two aids-de-camp, with the rank of major; to each brigade, one brigadier-general, with one brigade inspector, to serve also as brigade-major, with the rank of a major; to each regiment one lieutenant-colonel-commandant; and to each battalion one major; to each company one captain, one lieutenant, one ensign, four sergeants, four corporals, one drummer, one fife or bugler. That there shall be a regimental staff, to consist of one adjutant, one quartermaster to rank as lieutenant, one pay-master, one surgeon and surgeon's-mate, one sergeant-major, one drum-major, and one sife-major.”

“Sec. IV. *And be it further enacted,* That out of the militia enrolled as is herein directed, there shall be formed for each battalion, at least one company of grenadiers, light-infantry, or riflemen; and that to each division, there shall be at least one company of artillery, and one troop of horse. There shall be to each company of artillery, one captain, two lieutenants, four sergeants, four corporals, six gunners, six bombardiers, one drummer, and one fife; the officers to be armed with a sword or hanger, fusée, bayonet and belt, with a cartridge box, to contain twelve cartridges, and each private or matross, shall furnish himself with all equipments of a private in the infantry, until proper ordnance and field artillery is provided. There shall be to each troop of horse, one captain, two lieutenants, one cornet, four sergeants, four corporals, one saddler, one farrier, and one trumpeter. The commissioned officers to furnish themselves with good horses of at least fourteen hands and a half high, and to be armed with a sword and pair of pistols, the holsters of which to be covered with bearskin caps; each dragoon to furnish himself with a serviceable horse, at least fourteen hands and a half high, a good saddle, bridle, mail pillion and valise, holsters, and a breastplate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and a cartridge box to contain 12 cartridges for pistols. That each company of artillery and troop of horse, shall be formed of volunteers from the brigade, at the discretion of the commander in chief of the state, not exceeding one company of each to a regiment, nor more in number than one eleventh part of the infantry; and shall be uniformly clothed in regimentals, to be furnished at their own expence, the colour and fashion to be determined by the brigadier commanding the brigade to which they belong.”

“Sec. V. *And be it further enacted,* That each battalion and regiment, shall be provided with a State and regimental colours by the field officers; and each company with a drum and sife, or bugle horn, by the commissioned officers of the company, in such manner as the legislature of the state shall direct.”

“Sec. VI. *And be it further enacted,* That there shall be an adjutant-general appointed in each state, whose duty it shall be to distribute all orders from the commander in Chief of the State, to the several corps; to attend all public reviews when the commander in chief of the state shall review the militia, or any part thereof; to obey all orders from him relative to carrying into execution, and perfecting the system of military discipline established by this Act; to furnish blank forms of different returns that may be required, and to explain the principles on which they shall be made; to receive from the several officers of the different corps throughout the state, returns of the militia under their command, respecting the actual situation of their arms, accoutrements, and ammunition, their delinquencies, and every other thing which relates to the general advancement of good order and discipline: All which the several officers of the division, of the brigades, regiments, and battalions, are hereby required to make in the usual manner, so that the said adjutant-general may be duly furnished therewith; from all which returns he shall make proper abstracts, and lay the same annually before the commander in chief of the state.”

“Sec. VII. *And be it further enacted,* That the rules of discipline approved and established by Congress in their resolutions of the 29th of March 1779, shall be the rules of discipline, to be observed by the militia, throughout the United States, except such deviations from the said rules as may be rendered necessary by the requisitions of this act, or by some other unavoidable circumstances. It shall be the duty of the Commanding Officer, at every muster, whether by battalion, regiment, or single company, to cause the militia to be exercised and trained, agreeably to the said rules of discipline.”

“Sec. VIII. *And be it further enacted,* That all the commissioned officers shall take rank according to the date of their commissions; and when two of the same grade

ACTS AND LAWS.

Militia.

425

grade bear an equal date, then their rank to be determined by lot, to be drawn by them, before the commanding officer of the brigade, regiment, battalion, company, or detachment."

"Sec. IX. *And be it further enacted*, That if any person, whether officer or soldier, belonging to the militia of any state, and called out into service of the United States, be wounded, or disabled while in actual service, he shall be taken care of and provided for at the public expence." Provision in case of wounds, &c.

"Sec. X. *And be it further enacted*, That it shall be the duty of the brigade-inspector, to attend the regimental and battalion meeting of the militia, composing the several brigades during the time of their being under arms, to inspect their arms, ammunition, and accoutrements; superintend their exercise and manœuvres, and introduce the system of military discipline before described, throughout the brigade, agreeable to law; and such orders as they shall from time to time receive from the commander in chief of the state; to make returns to the adjutant-general of the state, at least once in every year, of the militia of the brigade to which he belongs; reporting therein the actual situation of the arms, accoutrements, and ammunition, of the several corps; and in every other thing which in his judgment relates to their government, and the general advancement of good order and military discipline. And the adjutant-general shall make a return of all the militia in the state, to the commander in chief of the said state, and a duplicate of the same to the President of the United States." Brigade Inspector's duty.

"And whereas sundry corps of artillery, cavalry, and infantry, now exist in several of the said states, which by the laws, customs and usages thereof, have not been incorporated with, or subject to the general regulations of the militia;" Artillery, &c. now existing.

"Sec. XI. *Be it further enacted*, That such corps retain their accustomed privileges, subject nevertheless to all other duties required by this act, in like manner with the other militia." To retain their privileges.

JONATHAN TRUMBULL, *Speaker of the House of Representatives.*

RICHARD HENRY LEE, *President pro tempore of the Senate.*

APPROVED MAY THE EIGHTH, 1792.

GEORGE WASHINGTON, *President of the United States.*

In pursuance of which Act, and to carry the same into execution agreeably to the requirements thereof,

BE it enacted by the Governor, Council, and House of Representatives, in General Court assembled, That the governor of this state, for the time being, shall be captain-general and commander in chief, of all the military force in this state; and that the lieutenant-governor shall be lieutenant-general of the same. Capt. General and Lieut. Gen.

And that all citizens in this state, required by said act of Congress, except members of the council, of the house of representatives, for the time being; the state treasurer, and secretary; justices of the peace; field, commissioned, and staff officers, honorably discharged; ministers of the gospel; the president, professors, and tutors of college, and students, till the time of taking their second degrees; physicians and surgeons; select-men; constant school masters; one miller to each grist-mill, being approved by the select-men, and having a certificate thereof; sheriffs and constables; constant ferrymen; non-commissioned officers, who have removed out of the limits of their command and are not re-appointed, or such as have been honorably discharged; and such non-commissioned officers and soldiers, as enlisted during the war, in the late war, and were honorably discharged; and all such as are exempt by special act or resolve of this assembly; shall be enrolled in companies as therein directed, and formed into regiments, brigades, and divisions, in the following manner, viz.

Those in the town of Hartford, (the governor's company of horse guards, and company of cadets excepted, which shall be under the immediate command of the captain-general) those in the town of Windsor (exclusive of what lies in the society of Turkey-Hills, in said Windsor,) and those in that part of Farmington lying in the society of Wintonbury, shall constitute the first regiment. Persons exempted from military duty.

Those in the town of New-Haven, East-Haven, North-Haven, and Hamden, (except the governor's guard in New-Haven, who are under the immediate command of the captain-general) shall constitute the second regiment. 1st. Regiment.

Those in the towns of New-London and Montville, shall constitute the third regiment. 2d. Regiment.

Those in the towns of Fairfield, Weston, and Reading, shall constitute the fourth regiment. 3d. Regiment.

Those in the towns of Windham, Hampton, (excepting the former bounds of Canterbury) Mansfield and Ashford, shall constitute the fifth Regiment. 4th Regiment.

Those in the towns of Wethersfield and Glastenbury, and that part of Berlin formerly Wethersfield, shall constitute the sixth Regiment. 5th Regiment.

Those in the towns of Saybrook, Killingworth, and Haddam, shall constitute the seventh regiment. 6th Regiment.

Those in the towns of Groton and Preston, (except those in that part of Preston that was formerly part of Norwich) shall constitute the eighth regiment. 7th Regiment.

Those

ACTS AND LAWS.

426

Militia.

- 9th Regiment. Those in the towns of Greenwich and Stamford, (except those in the societies in Canaan, and Middlesex in Stamford) shall constitute the ninth regiment.
- 10th Regiment. Those in the towns of Wallingford, Cheshire, and Durham, shall constitute the tenth regiment.
- 11th Regiment. Those in the towns of Pomfret, Woodstock, Killingly, Thompson, and Brookliu, (excepting the south company and artillery men) shall constitute the eleventh regiment.
- 12th Regiment. Those in the towns of Lebanon, Hebron, and the company in the society of Marlborough in Colchester, and those in the society of Andover, in Coventry, shall constitute the twelfth regiment.
- 13th Regiment. Those in the towns of Woodbury, Southbury, and Bethlehem, (except that part of Southbury included in Oxford company) shall constitute the thirteenth regiment.
- 14th Regiment. Those in the towns of Salisbury, Canaan, and Norfolk, shall constitute the fourteenth regiment.
- 15th Regiment. Those in the towns of Farmington, Berlin, Bristol, and Southington (except the former bounds of Wethersfield and Middletown, in Berlin) shall constitute the fifteenth regiment.
- 16th Regiment. Those in the towns of Danbury, Brookfield, Newtown, New-Fairfield, (except that part which now forms the north company) and Ridgefield, (except that part which now forms the south company) shall constitute the sixteenth regiment.
- 17th Regiment. Those in the towns of Litchfield, Harwinton, and Torrington, shall constitute the seventeenth Regiment.
- 18th Regiment. Those in the towns of Simsbury and Granby, and that part of the town of Windsor lying in the society of Turkey-Hills, and part of Suffield lying West of the mountain, shall constitute the eighteenth regiment.
- 19th Regiment. Those in the towns of East-Hartford, Bolton, East-Windsor, and that part of Ellington lying West of a line running north from the North-west corner of Tolland to Somers, shall constitute the nineteenth regiment.
- 20th Regiment. Those in the towns of Norwich, Bozrah, Franklin, Lisbon, and that part of Preston that was formerly part of Norwich, and that part of Canterbury in Hanover society, shall constitute the twentieth regiment.
- 21st Regiment. Those in the towns of Plainfield, Canterbury, Voluntown, and South Company, with the artillery men in Brooklyn, and that part of Hampton formerly in Canterbury, and the south company in Killingly, (except that part of Canterbury in Hanover society) shall constitute the twenty-first regiment.
- 22d. Regiment. Those in the towns of Tolland, Stafford, Willington, Union, and part of Ellington lying east of a line running north from the north-west corner of Tolland to Somers, and Coventry (except Andover society) shall constitute the twenty-second regiment.
- 23d. Regiment. Those in the towns of Middletown and Chatham, and part of Berlin, formerly Middletown, shall constitute the twenty-third Regiment.
- 24th Regiment. Those in the towns of Colchester and East-Haddam, (except the society of Marlborough in Colchester) shall constitute the twenty-fourth regiment.
- 25th Regiment. Those in the towns of New-Hartford, Hartland, Winchester, Barkhempstead and Colebrook, shall constitute the twenty-fifth Regiment.
- 26th Regiment. Those in the towns of Watertown and Waterbury (except that part of Waterbury included in Oxford company) shall constitute the twenty-sixth regiment.
- 27th Regiment. Those in the towns of Guilford and Branford, shall constitute the twenty-seventh regiment.
- 28th Regiment. Those in the towns of Stratford and Huntington, shall constitute the twenty-eighth regiment.
- 29th Regiment. Those in the towns of Washington, New-Milford, Warren, Kent, and New-Fairfield north society, shall constitute the twenty-ninth regiment.
- 30th Regiment. Those in the town of Stonington shall constitute the thirtieth regiment.
- 31st Regiment. Those in the towns of Suffield, Enfield and Somers, (except that part of Suffield lying west of the mountain) shall constitute the thirty-first regiment.
- 32d Regiment. Those in the towns of Milford, Derby and Woodbridge, and that part of Southbury and Waterbury, in Oxford company, shall constitute the thirty-second regiment.
- 33d Regiment. Those in the town of Lyme, shall constitute the thirty-third regiment.
- 34th Regiment. Those in the towns of Norwalk, and that part of Ridgefield that now includes the south company, and those in the societies of Canaan, and Middlesex, in Stamford, shall constitute the thirty-fourth regiment.
- 35th Regiment. Those in the towns of Sharon, Cornwall, Goshen, and part of Litchfield, and Kent, now forming a company with Goshen and Cornwall, shall constitute the thirty-fifth regiment.

Where companies are divided.

And when by the division of companies into regiments, which hath or shall be made, it shall so happen that a company shall be divided, and part put into one regiment and part into another; in such case the minor part of such company, shall belong to the regiment, to which the major part belongs: Any descriptions or division herein before contained notwithstanding.

That

ACTS AND LAWS.

Militia.

That the first, eighteenth, nineteenth, twenty-second, and thirty-first regiments, shall constitute the first brigade. Brands of the 1st brigade.

That the second, seventh, tenth, twenty-seventh, and thirty-second regiments, shall constitute the second brigade. 2d. brigade.

That the third, eighth, twentieth, thirtieth, and thirty-third regiments, shall constitute the third brigade. 3d. brigade.

That the fourth, ninth, twenty-eighth, and thirty-fourth regiments, shall constitute the fourth brigade. 4th brigade.

That the fifth, eleventh, twelfth, and twenty-first regiments, shall constitute the fifth brigade. 5th brigade.

That the fourteenth, seventeenth, twenty-fifth, and thirty-fifth regiments, shall constitute the sixth brigade. 6th brigade.

That the sixth, sixteenth, twenty-third and twenty-fourth regiments, shall constitute the seventh brigade. 7th brigade.

That the thirteenth, sixteenth, twenty-sixth and twenty-ninth regiments, shall constitute the eighth brigade. 8th brigade.

That the first division shall be composed of the first and seventh brigades. 1st division.

That the second division shall be composed of the second and fourth brigades. 2d. division.

That the third division shall be composed of the third and fifth brigades. 3d. division.

That the fourth division shall be composed of the sixth and eighth brigades. 4th division.

And that all companies of artillery, grenadiers, and light infantry, that now or shall hereafter be raised, and troops of horse hereafter to be raised, shall be attached and annexed to the regiments, brigades and divisions, from which they were raised. And that the establishment of the companies of light dragoons, shall be forty, exclusive of commission officers; and that no officer of such company shall recruit his company of dragoons from any company of artillery, or troop of Horse—nor from any company of infantry, unless the same consist of more than sixty-four rank and file; but may enlist any exempts from military duty. Artillery, grenadiers, light-infantry & troop of horse to be annexed to the regiments, &c. from which they were raised.

And be it further enacted, That each company of artillery shall consist of thirty matrosses, exclusive of commissioned and non commissioned officers; that each troop of horse shall consist of forty exclusive of commission officers; that each barrel of the fire lock, of the infantry shall be at least three feet and a half long, and furnished with a priming wire and brush; and each serjeant and corporal of the infantry, shall furnish himself with a screw driver and worn, more than is required by said act; and the sabres of the horsemen shall be four feet long. Company of artillery to consist of 30 matrosses; and troop of horse of 40.
How furnished.

And be it further enacted, That the general, and field officers, shall be appointed by the legislature, and commissioned by the Governor.—That the captains and subalterns, shall be nominated by their several companies, the commanding officer first giving three days notice to the individuals of their companies, that they are about to lead them to the choice of such commissioned officers; and if approved of by the legislature, shall be commissioned in like manner:—That the non-commissioned officers shall be nominated by their several companies, and shall have a warrant from the commanding officer of the regiment; which commanding officer, upon complaint made, and due notice given, if he finds him guilty of misconduct, or neglect of duty:—That all commissions granted by the governor, or appointments made by the legislature, of officers at one session of the legislature, bear date the same day, (except where two majors are appointed to one regiment) in which case the dates of their commissions shall be according to the priority of their appointments. Officers by whom appointed & commissioned.

Commissions, & appointments, how regulated.

And be it further enacted, That the captain-general of the state, shall appoint the adjutant-general of the state, who shall have the rank of brigadier-general, and be commissioned accordingly:—That the captain-general shall appoint for himself two aids-de-camp, who shall have the rank of lieutenant-colonels; the lieutenant-general shall appoint for himself two aids-de-camp, who shall have the rank of major; each major-general shall appoint his two aids-de-camp; each brigadier-general shall appoint his brigade-inspector, and to serve as brigade-major; all which appointments, from time to time, as may be necessary of aids-de-camp, and brigade-majors and inspectors, shall be published in general orders:—That each commanding officer of a regiment, shall appoint his regimental staff, and a chaplain, whose appointment shall be published in brigade orders; and non-commission staff, whose appointments shall be made in regimental orders. Capt. General to appoint adjutant-gen. & aids.

Lieut. gen. and maj. generals to appoint their aids.

Regimental staff.

And whereas, some regiments now constituted, have more companies than the formation directed by the act of Congress:

Be it further enacted, That the commanding officer of each regiment, constituted by this act, shall form the companies in their regiments as near as may be to an act of congress, for numbers of men and companies; and that where the field officers of any regiment shall judge best, they may take a company already formed to serve as a light infantry or grenadier company, to each battalion of their regiment; or enlist such companies from exempts, or others, not reducing any company, by such enlistment, under the number of sixty-four. Officers commanding regiments to form the companies agreeably to act of Congress.

And be it further enacted, That each non-commissioned officer, horseman, matross, and private of the several companies of horse, artillery, and infantry of the militia Non commission officers & militia

Soldiers unable to furnish themselves, &c.

of this state, shall furnish himself with the arms, ammunition and accoutrements, required by the act of congress, and by this act, upon the penalty of forfeiting and paying a fine of *twelve shillings* lawful money, and the like penalty for every four weeks he shall be unprovided; to be levied and collected by warrant of distress, as hereafter directed; and that a horseman, or dragoon, who shall not furnish and provide himself with a horse and furniture, as required by the said act, shall be returned to, enrolled, and do duty in the infantry company in the limits of which he resides:—That the field and commissioned officers in each regiment, shall be uniformly clothed in regimentals, at their own expence, and to be agreed upon by such officers; that the field officers of each regiment shall furnish state and regimental colours for their regiment and battalions, at the state expence, not exceeding the sum of four pounds ten shillings lawful money, to each regiment.

And be it further enacted, That every commanding officer of a company of militia, shall order out his company or troop, three days in each year, and instruct them in the use of arms and discipline of war; and the days appointed, shall be in the month of March, April, May, September, October or November, and that on the first Monday of May and October annually, such commanding officer shall cause the arms, ammunition and accoutrements, of all under his command, to be reviewed and inspected:—That the commanding officer of each regiment, shall order out his regiment by battalion or regiment, once in each year for regimental exercise, inspection and review. And if any of the privates belonging to any company of horse, artillery or infantry, shall neglect to appear completely armed and equipped on the place of parade, appointed by the commanding officer of his company, being duly warned, he shall forfeit and pay a fine of *nine shillings* for each day: and if any non-commissioned officer, drummer, fifer, or trumpeter, shall neglect to appear as aforesaid, he shall forfeit and pay the fine of *twelve shillings* for each day.—unless any such person shall appear before the commanding officer of such company, within twelve days after such day of exercise or review, and make satisfactory excuse for his non appearance on said day; and the commanding officer of each company, battalion or regiment, shall order the correcting and punishing disorders and contempts, on days of company, battalion, or regimental exercise, inspection or review; the punishment not being greater than riding a wooden horse, for a time not exceeding one hour, or a fine not exceeding *forty shillings* lawful money:—That each commanding officer of a company, battalion, regiment, brigade or division, shall have power and authority, and full power is hereby given to ascertain and fix certain necessary limits and bounds to their respective parades, within which no spectator shall have right to enter, without liberty from said commanding officer; and in case any person shall so intrude or offend, he shall be subjected to be confined in such way and manner as the commanding officer shall direct, during the continuance of the exercise.

And be it further enacted, That all warrants granted by the commanding officer, of any company, battalion or regiment, for any time or times incurred by virtue of this act, or any breach thereof, shall be directed by the officer commanding a company, to the orderly sergeant of his company; which orderly sergeant he shall from time to time appoint, from the sergeants of his company; and the officer commanding a battalion or regiment, to the adjutant or sergeant-major; and to be by them levied on the goods or chattles of the respective delinquents, if upwards of twenty-one years of age.—And for the want of such goods or chattles, against the body of such delinquent, and against the goods and chattles of the parents, master or guardians, of such delinquents as have not arrived to the age of twenty-one years; and for want of such goods and chattles, against the body of parent, master or guardian, and them commit and hold in goal, until such fine or fines shall be paid and satisfied, together with lawful fees for service, as in cases of execution for debt; which fines and forfeitures shall be appropriated for the use of the companies to which such delinquents respectively belong, for purchasing and maintaining colours, trumpets, drums and fifes; and should there be any overplus of fines remaining in the hands of the commanding officers of companies, they shall pay it over to the commanding officer of their regiment to which they belong; which together with the fines collected by virtue of warrants issued by the field officers, shall be applied to keeping colours in repair, and for band-music for the regiment. That whenever any commanding officer of a company shall impose any fine in any of the cases before mentioned in this act, he shall give notice to the person fined, who shall have liberty within ten days to apply to the commanding officer of the regiment, who on giving notice, and hearing the parties, may abate such fines, or any part thereof; and if such commanding officer of the regiment, thinks not proper to abate such fine, the officer imposing the same may proceed to a collection thereof.

Provided nevertheless, That if any soldier shall in the judgment of the select-men of the town to which he belongs, be unable to arm and accoutre himself agreeable to the directions of this act, it shall be the duty of such select-men to certify the same to the commissioned officers of the company to which such soldier belongs, in order

ACTS AND LAWS.

Militia.

order that execution may not issue against him for deficiency in such arms and accoutrements; and also, at the expence of such town to provide such soldier with arms, and the whole or any part of such accoutrements as may be necessary, within forty days from the time of granting such certificate, under penalty of the value of such arms and accoutrements, to be recovered of any, or all of said select-men, by warrant from an assitant or justice of the peace, upon proper information, and proof of such neglect, by said commissioned officers; which warrant shall be directed to any sheriff or constable proper to serve the same, returnable in sixty days, and the fine payable into the treasury of such town; and all arms and accoutrements thus provided, shall be the property of such town, and shall by the commanding officer of the company, be deposited in such places as he shall think proper, to be ready for such soldier, as occasion shall require; and such officer shall stand accountable for such arms and accoutrements, and shall be liable to pay for the same, if lost through his neglect or default.

Provided also, That any of the people called *Quakers*, who shall produce to the commanding officer of the company in which he resides, a certificate from the clerk of the society of *Quakers* to which he belongs, certifying that such person is a *Quaker*, he shall be exempt from equipping himself or doing military duty as required by this act, on his paying the sum of twenty shillings to such officer, at the expiration of each year during such exemption; and in case such *Quaker* refuse to pay said sum of twenty shillings, the same shall be collected and disposed of in the same manner as is heretofore provided for fines incurred by a breach of this act.

And be it further enacted, That each rank and grade of officers, shall furnish themselves with the rules of discipline approved and established by Congress, in their resolution of the 29th of March, 1779, and shall submit themselves to the orders and directions of their superior officers, or their senior officers, of the same grade; and all officers in the staff and orderly departments, shall be vigilant and active in executing and dispatching orders in their respective stations.

That general, field, commissioned, and staff officers, of all grades and ranks, shall be amenable to, and subject to trial by courts martial, according to the usage and practice of war, for all neglects of duty, for contempts or disrespect to a superior officer, for disobedience of orders, and for all un-officer-like conduct; which court martial shall consist of not less than nine, or more than thirteen members—the senior officer of the highest grade to preside—that another officer of the line or staff, to do the duty of judge advocate to the court—that the members composing the court, shall take the following oath, before they proceed on the trial of an officer, viz.

You swear that you will well and truly try and determine according to evidence, the matter depending between the state of Connecticut and the prisoner, or prisoners, now to be tried, that you will not divulge the sentence of the court until the same shall be approved, or disapproved, pursuant to law; neither will you upon any account at any time whatsoever, disclose or discover, the vote or opinion of any particular member of the court martial, unless required by a due course of law. So help you GOD.

The president of the said court martial, is hereby authorized and required to administer an oath to the officer acting as judge advocate, who is hereby required to take the same before he proceeds further on business, viz.—*You do swear that you will not on any account, at any time whatsoever, disclose or discover the vote or opinion of any particular member of the court martial, unless required in a due course of law; and that you will not divulge the sentence of this court, till the same shall be approved or disapproved according to law; and that you will well and truly do the duty of judge advocate, in this court, impartially and uprightly, according to the best of your abilities.——So help you GOD.*

And no other person whatever, shall be admitted to solicit, prosecute or defend the officer arrested; which officer arrested, if under the grade or rank of a field officer, shall have twelve days notice of the articles of charge made against him, by leaving a true and attested copy of the original articles of arrest, under the hand of a superior officer arresting him, and the names of the witnesses to be used against him minuted thereon, lodged with him at his usual place of abode by the officer arresting, or the proper orderly officer; and of the grade and rank of a field officer twenty days notice; and of the rank of a general officer thirty days notice in like manner; which court martial, for the trial of an officer under the rank and grade of a field officer, shall be appointed by the commanding officer of the brigade to which he belongs, and the sentence approved or disapproved by the captain-general of the state—for the trial of an officer of the rank and grade of a field officer, by the commanding officer of the division to which he belongs; and of a general officer by the captain-general of the state, and their sentence approved or disapproved by the legislature of the state. That no sentence of a court martial shall inflict other punishment than a reprimand, suspension from office for a certain term of time, cashiering, and cashiering with a disability of holding any military office in this state; two thirds of the members of any such court agreeing in such sentence.

Warrant to whom directed.

Fines to be paid into the town treasury.

Arms, &c. to be deposited in, &c.

Quakers exempt on paying 20s.

Officers to furnish themselves with the rules of discipline.

ACTS AND LAWS.

430

Missionaries.

Capt. gen. to order out the military force when necessary. *And be it further enacted,* That the captain-general, or in his absence the next commanding officer of the state, is hereby authorized and empowered, as he may judge necessary upon the occasion, on an alarm, invasion, or notice of the appearance of an enemy, either by sea or land, to order the whole, or any part of the military force of this state, to assemble and put the same in warlike order; and the same to lead, order or employ for the assistance, or relieving any of the inhabitants of this state, attacked by an enemy, or in danger thereof; and generally to issue and publish by proper staff or orderly officer, such orders as he shall judge expedient to carry into execution the intent and design of this act. And all subordinate officers are hereby required to yield entire obedience thereto; and the officers severally commanding divisions, brigades, regiments, battalions and companies, are hereby vested with the same power and authority within the limits of their respective commands; provided that when they or any of them find it necessary to order out the force under their command, they shall forthwith dispatch intelligence, and the occasion thereof, together with their movements and operations, to the captain-general of the state, or any other their superior officer, as may be judged most conducive to the public safety; and the officer receiving such intelligence, shall observe the same line of conduct, in order that it may in the most expeditious way, arrive to the captain-general.

Other officers powers to order out those under their command. *And be it further enacted,* That the divisions, brigades, and regiments, may be ordered out for inspection or review, by their commanding officers, at such times as shall be thought expedient and necessary; and whenever a division is out, they shall be reviewed by the captain-general, when a brigade, by a major-general, and when a regiment, by a brigadier-general. And the captain-general shall direct a uniform and badges of office, for the general officers, their aids-de-camp, and brigade-major and inspectors.

To inform the capt. general. *And be it further enacted,* That no private soldier, matross or horseman, or non-commissioned officer, of either of the companies of horse, artillery or infantry, shall be discharged from his company and regiment, for inability, after his enlistment or enrollment in any of the companies, without a certificate from his surgeon; and for any other cause by applying to his captain, and the consent of the commanding officer of his regiment. And that no captain or subaltern officer, shall resign his commission without permission of the captain-general, or such general officers as he may empower for that purpose. And that no field or general officer, shall resign his commission without the acceptance of the legislature; and no officer shall be allowed to resign his commission when under an arrest.

Divisions, &c. to be ordered out for review, &c. By whom. *And be it further enacted,* That any person now holding and sustaining any commission by virtue of any act heretofore made, within any of the brigades, regiments and companies, heretofore, and by this act formed and established, shall continue to hold and exercise the same, with all the powers and authorities vested in such office, by virtue of this act, excepting the officers of such companies as shall be reduced by virtue of this act.

Capt. gen. to direct uniform, &c. *Be it further enacted,* That the laws establishing the cavalry in this state, be, and continue in force until they shall be annexed to the infantry; and that his excellency the governor, be requested and empowered to annex them in such proportion as he shall judge proper, to the several brigades within this state, subject to the orders and command of the brigadier of that brigade to which they shall severally be annexed; and thereafter to be subjected to the acts and regulations of Congress.

Surgeon to give certificate for inability to privates. *And be it further enacted,* That all the laws heretofore made by this state, for regulating and governing the military force thereof, be, and they are hereby repealed.

Captain, &c. by whom discharged. Gen. and field officers, by legislature.

Old commissions continued.

Cavalry laws continued.

To be annexed to the several brigades, &c.

ACTS AND LAWS.

Estates. Perjury. Writs of Error. Equity. N.Haven Bank. 431

An Act in alteration of an Act, entitled, "An Act for the settlement of testate and intestate estates."

BE it enacted by the Governor and Council and house of Representatives, in General Court assembled, That so much of said act as is included under the exception, viz. "Except the eldest son then surviving, where there is no issue of the first born, or of any other elder son, who shall have two shares, or a double portion of the whole," be, and the same is hereby repealed.

Provided nevertheless, That in the settlement of the estate of any person heretofore deceased, or who shall de cease before the rising of the present session of assembly, the court of probate shall proceed, and the rights of the heirs of such deceased person, shall vest in the same manner as if this act had not been passed.

An Act in addition to, and alteration of an Act, entitled, "An Act for the punishment of perjury."

BE it enacted by the Governor and Council, and house of Representatives, in General Court assembled, That it shall be the duty of all proper informing officers in this state, to make present of all breaches of said act, to any court proper to hear and determine the same.

And be it further enacted, That upon conviction for that offence, agreeable to the provisions of this act, the whole sum forfeited by said act, shall be to the public treasury of this state.

An Act, in addition to an Act, for regulating trials on writs of error, and for limiting the time for bringing the same.

BE it enacted by the Governor, Council, and House of Representatives, in General Court assembled, That the courts of this state, having cognizance of writs of error, upon their affirmance of any judgment or decree, or upon any non-suit, or withdrawal made by the plaintiff in error, may, according to their discretion, adjudge and decree to the defendant in error, besides his cost, the interest of the money delayed by such writ of error, and grant execution therefor accordingly.

And be it further enacted, That the authority signing any writ of error, shall take good and sufficient bond, with surety, that the plaintiff in error shall prosecute his writ to effect, and answer all damages, if he fail to make his plea good.

An Act in addition to an Act, entitled, "An Act for regulating proceedings in equity."

BE it enacted by the Governor and Council, and house of Representatives, in General Court assembled, That the superior court of this state be, and they are hereby authorized as a court of equity, on petition brought before them, to authorize, and direct the taking of depositions to perpetuate the evidence of facts, where no suit is depending, agreeably to the rules and usages in chancery proceedings; which depositions so taken, shall be available in any court of law, or equity in this state, in the same manner as depositions taken during the pendency of a suit.

An Act to incorporate the New-Haven Bank.

BE it enacted by the Governor, and Council, and House of Representatives, in General Court assembled, That the subscribers to the New-Haven bank, their successors and assigns, shall be, and are hereby created and made a corporation, and body politick, by the name and style of The President, Directors and Company, of the New-Haven Bank; and by that name shall be, and are hereby made capable in law to have, purchase, receive, possess and enjoy, to them and their successors lands, rents, tenements, hereditaments, goods, chattles and effects of what kind or quality soever; and the same to sell, grant and aline; to sue and be sued, plead and be impleaded, defend and be defended, in all courts of this state, or other place whatsoever. And also, to have and use a common seal, and the same to break, and afterwards renew at their pleasure. And also, to ordain and put in execution such bye-laws and regulations, as shall be deemed necessary and convenient, for the well ordering and governing said corporation, not being contrary to this charter, and the laws of this state, or of the United States; and to do and execute all and singular acts, matters and things, which to them shall or may appertain to do, subject to the rules, restrictions and provisions, herein after prescribed.

The capital stock of said bank, shall consist of one hundred thousand dollars, to be divided into five hundred shares, of two hundred dollars each: That no person, copartnership, or body politick, shall subscribe, or at any time hold more than sixty shares.

That

A a a a

ACTS AND LAWS.

432

New-Haven Bank.

Nine directors.	That for the ordering the affairs of said corporation, there shall be nine directors, chosen on the first Thursday of July, annually (after the first election) by the greatest number of votes given by the stockholders of said bank, at a general meeting; and those who shall be duly chosen at any election, shall be capable of serving as directors, until the expiration of the first Thursday of July next ensuing such election; and the directors, at their first meeting after such election, shall choose one of their number for a president.
To choose a president.	
Number of votes each stockholder shall be entitled to.	The number of votes each stockholder shall be entitled to, in the choice of directors, or any other business respecting the constitution, shall be according to the number of shares he shall hold, in the following proportion, viz.—for one share and not more than two shares, one vote; for every two shares above two shares, and not exceeding ten shares, one vote; for every four shares above ten, and not exceeding thirty shares, one vote; and for every six shares above thirty, one vote; but no person, copartnership, or body politick, shall be entitled to a greater number than fifteen votes.
Stockholders how to vote.	All stockholders shall be entitled to vote by themselves, or their agents duly appointed; none but stockholders shall be eligible as directors; and not less than two thirds of the directors shall be actually resident in the city of New-Haven; and public notice shall be given by order of the directors, twenty days previous to holding an election, or general meeting of the stockholders, in a newspaper published in said city, and in such other places as the directors shall judge necessary; not more than three fourths of the directors in office, exclusive of the president, shall be eligible as directors the next succeeding year; but the director who shall be president at any election, may always be elected a director.
None but stockholders to be directors.	
Three fourths eligible.	
Directors place may be filled.	In case of the death or resignation of a director, his place may be filled by a new choice for the remainder of the year, provided a majority of the directors judge it necessary. All elections for directors, shall be by ballot, and the nine persons who shall have at any election, the greatest number of votes, shall be declared to be duly elected.
Directors to appoint officers, &c.	The directors for the time being, shall have power to appoint such officers, clerks and servants, as they shall judge necessary, and shall be capable of executing such other powers for the well ordering and governing the affairs of the bank, as shall be determined by the regulations of the stockholders; but no director shall be entitled to any emolument, unless the same shall be ordered by the stockholders at a general meeting, except the president, who shall receive such compensation for his extra attendance at the bank, as the directors shall judge reasonable.
Not less than 3 directors to constitute a board, &c.	Not less than three directors shall constitute a board for transacting the business of the bank, of whom the president shall always be one, except in case of sickness or necessary absence, in which case the directors present shall supply his place, by electing one of their number as president for the occasion.
To determine the manner of doing business.	The directors, by a majority of votes, shall determine the manner of doing business, and the rules to be prescribed; shall dispose of, and manage the money and credit of the bank, for the interest of the proprietors; and shall at the end of the first year, and once in six months afterwards, make such dividends of the profits as they shall think proper, provided that they shall in no instance do any act contrary to the regulations of the stockholders; and the directors shall once in two years lay before the general meeting of the stockholders, for their information, a statement of the debts which shall remain unpaid after the expiration of the original credits, and the surplus of profits, if any be after deducting losses and dividends.
Statement of debts, &c.	
Corporation how to trade.	The corporation shall not trade in any thing except bills of exchange, gold or silver bullion, or in sale of goods pledged for money lent and not redeemed in due time, or in lands taken for debts previously contracted; nor shall the corporation take more than at the rate of six per cent per annum, for or upon its loans.
Stock to be assignable, &c.	The stock of said corporation shall be assignable and transferable according to such rules as shall be instituted by the laws of the same.
Bills signed by the cashier, &c. binding on the corporation.	The bills or notes issued by said corporation, signed by the president, and counter-signed by the cashier, or treasurer thereof, promising the payment of money to any person or persons, his, her, or their order, or to their bearer, shall be binding and obligatory on said corporation, and payable on demand; and all such bills and notes shall be assignable and negotiable according to the custom of merchants, and the laws relating to inland bills of exchange; and all notes in writing, which shall be made and signed after the first day of December next, by any person or persons, his, her, or their servants or agent, who is usually entrusted by him, her, or them to sign such promissory notes, for him, her, or them, said notes being given for the payment of money only, and made payable to any person or persons, his or their order, or to the bearer, and indorsed over to said corporation, shall be assignable or indorsable over in the same manner as inland bills of exchange are, or may be according to the custom of merchants; and said corporation to which the same may be indorsed, shall and may maintain their action thereupon, for the money promised in said notes, against the person, whose agent as aforesaid
Bills assignable and negotiable.

said, shall sign the same; or any of the persons who shall indorse the same in like manner as in case of inland bills of exchange.

Every cashier, treasurer or clerk, employed in said bank, shall, before he enters on the duties of his office, give bond with two or more sureties, to the satisfaction of the directors, in a sum not less than five thousand dollars for the cashier, and not less than one thousand for a clerk, conditioned for the faithful discharge of his trust.

Cashier, treasurer, & clerk to give bond.

David Austin, Isaac Beers, and Elias Shipman, Esquires, are authorized to open a subscription for the capital of said bank, at such time and place as they shall think best, receive the first deposits; and after said subscription to call a meeting of the stockholders to chuse directors. Five per cent on the sums subscribed, shall be paid at the time of subscribing; twenty per cent on each share shall be paid sixty days after said subscription; twenty-five per cent six months after the time of the second payment; and the residue in six months after the time of the third payment. If there shall be a failure in the second payment of any sum subscribed by any person, copartnership, or body politic, the party failing, shall forfeit to the bank the sum by him, her or them, previously paid; and if there should be a failure in any subsequent payment, the party failing shall forfeit to the bank, his, her, or their share of the dividend, during such delay—Provided, that in case the directors shall judge it expedient, they are hereby authorized to suspend the two last payments, or either of them for such time as they may think proper, giving sixty days notice previous to the time herein fixed for such payment. And the subscribers shall be held to make punctual payment, at such period or periods, as shall be determined by the directors, having sixty days notice of the time on which any such payment shall be required, which notice shall be given in one of the newspapers of said city, and such other places and manner, as the directors may judge necessary.

Persons authorized to open a subscription.

Money when paid in.

Forfeiture for delay of payment.

Proviso.

That a general meeting of the stockholders shall be annually held on the first Thursday of July, at such place as the directors may appoint. That the first meeting of the stockholders, being called by the petitioners, and convened, the stockholders, or a majority of them, shall elect one of their number to preside at the election, who shall be, and is hereby authorized to receive and count the votes for directors, and declare what persons are duly elected according to the provisions of this act.

General meeting to be held annually on the 1st Thursday of July.

An Act in addition to an Act, entitled, "An Act, for rebuilding Newgate Prison in Granby, and for regulating and governing the same, and for the punishment of certain atrocious crimes."

BE it enacted by the Governor, and Council, and House of Representatives, in General Court assembled, That if any male person of the age of sixteen years or more, shall wilfully and feloniously burn, or attempt to burn, by setting on fire any dwelling house, barn, out-house, shop, store, ship or other vessel, and no prejudice or hazard to the life of any person happen thereby, such person so offending, may at the discretion of the superior court, on conviction thereof, be imprisoned in said Newgate prison, and there be kept to labour not exceeding seven years; and if any male person of the age of sixteen years or more, who hath already been, or shall be hereafter convicted of said offence, shall be a second time convicted of an offence of the same kind, he shall at the discretion of the said court, be imprisoned in said prison, and there be kept to labour for any limited period, or during his natural life, as the circumstances of the case may require.

Persons to be confined in Newgate for burning houses, &c.

And be it further enacted, That the imprisonment directed to be inflicted on persons convicted of the crime of perjury, and subornation of perjury, in an act, entitled, "An Act for the punishment of perjury," shall be an imprisonment in said Newgate, and keeping to labour, if the person so convicted be a male person.

Perjury how punished.

And be it further enacted, That if any person shall with force and arms, and actual violence, an assault make on the body of any female, with an intent to commit a rape, the person so offending, on conviction thereof, shall be imprisoned and kept to labour in said Newgate prison, during his natural life, or for such other period as the superior court shall determine.

Rape how punished.

An Act in addition to an Act, entitled, "An Act for encouraging and regulating fisheries."

BE it enacted by the Governor and Council, and house of Representatives, in General Court assembled, That no person or persons, shall draw any sein or other fishing-craft, in Willimantic and Natchaug rivers, except between the setting of the sun on Tuesday evening, and the suns rising on Saturday morning in each week, in the months of April, May and June, annually, on penalty of forfeiting ten pounds, for the use of him who shall sue for, and prosecute the same to effect.

When seines may not be drawn, &c.

LAWS OF THE STATE

C H A P.

XXXVI.

1793.

C H A P. XXXVI. c.

An ACT for establishing the militia in this state. (a)

Preambl.

WHEREAS a well regulated militia is the proper and natural defence of every free state; And as the several laws enacted by the Legislature of this state for the regulation of the militia thereof have been found to require material alterations; in order to which it has been thought more adviseable to revise the whole system, than to amend it by supplementary statutes; therefore,

Who shall be enrolled, and by whom.

SECTION I. BE it enacted by the Senate and House of Representatives of the state of Delaware in General Assembly met, and it is hereby enacted by the authority of the same, That each and every free able bodied white male citizen of this state, who is or shall be of the age of eighteen years, and under the age of forty-five years, except as herein after excepted, shall severally and respectively be enrolled in the militia, by the Captain or Commanding Officer of the company within whose bounds such citizens shall reside, such bounds to be limited and fixed agreeable to the subdivisions which have been made by the Lieutenants and Sub-lieutenants of the different counties, and that within four months after the passing of this act; (b) and that it shall be at all times hereafter the duty of every such Captain or Commanding Officer of a company to enrol every such citizen as aforesaid, and also those who shall from time to time arrive at the age of eighteen years, or being of the age of eighteen years, and under the age of forty-five years, and not excepted by this act, shall come to reside within his bounds, and shall without delay notify such citizen of the said enrolment, by a proper non-commissioned officer of the company by whom such notice may be proved; and in all cases of doubt respecting the age of any person enrolled, or intended to be enrolled, the party questioned

Notification of the enrolment.

(a) See a supplement hereto, chap. 95. c. Anno, 1796.

(b) See chap. 95. c. sect. 1, provision made for dividing the counties into regimental and battalion districts, and these into company districts.

1135

tioned shall prove his age to the satisfaction of the officers of the company within whose bounds he may reside, or a majority of them.

C H A P.
XXXVI.
1793.

SECT. 2. *And be it further enacted,* That the Vice-President of the United States, officers judicial and executive of the government of the United States, the Members of both Houses of Congress and their respective officers, all Customhouse Officers and their Clerks, Judges of the Supreme Court and of the Court of Common Pleas, Chancellor, Attorney General, Secretary, and Treasurer of the State, Sheriffs, Gaolers and keepers of workhouses, all post-officers and stage-drivers who are employed in the care and conveyance of the mail of the Post-office of the United States, all ferrymen employed at any ferry on the post roads, all inspectors of exports, all pilots, all mariners actually employed in the sea service of any citizen or merchant within the United States, ministers of religion of every denomination, professors and teachers in colleges, academies, Latin schools, and schoolmasters having twenty English scholars, and no other person or persons, shall be excepted from militia duty; but all young men under the age of twenty-one years, and all servants purchased *bona fide*, and for a valuable consideration, though enrolled agreeable to the first section of this law, shall be exempted from furnishing the necessary arms, ammunition and accoutrements as are required by the fourth section thereof, and shall be exempted from militia duties and fines during such minority or servitude, except in cases of rebellion, or an actual or threatened invasion of this or any of the neighbouring states.

Persons exempted from military duty.

From furnishing arms, &c.

SECT. 3. *And be it further enacted,* That the militia of this state be arranged into divisions, brigades, regiments, battalions and companies in manner and form following: The whole state to make one division, and each county to consist of one brigade; each brigade to consist of not less than two, or more than eight regiments; each regiment to consist of two battalions, and each battalion to consist of four companies, in such manner that no company shall consist of more than eighty, or less than forty privates, or as near as may be, having regard to their local situation; there

there shall be to each regiment at least one company of grenadiers, light infantry, or riflemen; and to each brigade there shall be at least one company of artillery, and one troop of horse, which shall be formed of volunteers from the respective regiments, at the discretion of the Governor. (c)

How the militia shall be armed.

SECT. 4. *And be it further enacted,* That in order that the militia may be properly armed, equipped and accoutred, every citizen enrolled, and notified of his enrolment in manner aforesaid, except as herein before excepted, shall, within six months after receiving such notice, provide himself with the arms, ammunition and accoutrements herein after mentioned, *viz.* every non-commissioned officer and private of the infantry (including grenadiers and light infantry, and of the artillery) shall have a good musket or firelock, a sufficient bayonet and belt, two spare flints and a knapsack, a pouch, with a box therein to contain not less than twenty-four cartridges suited to the bore of his gun, each cartridge to contain a proper quantity of powder and ball, or with a good rifle, knapsack, shot pouch and powder horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder; the commissioned officers of the infantry shall be armed with a sword or hanger, and an esponton, and those of artillery with a sword or hanger, a suzee, bayonet and belt, and a cartridge box to contain twelve cartridges; the commissioned officers of the troops of horse shall furnish themselves with good horses of at least fourteen hands and a half high, and shall be armed with a sword and pair of pistols, the holsters of which shall be covered with bear skin caps; each light-horseman or dragoon shall furnish himself with a serviceable horse at least fourteen hands and an half high, a good saddle, bridle, mail pillion and valise holsters, and a breast plate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and cartouch box to contain twelve cartridges for pistols; the artillery and horse shall be uniformly clothed in regimentals, to be furnished at their own expence, the colour

(c) See chap. 95. c. sects. 2, 5, further and other arrangement of the militia.

O F D E L A W A R E.

1137

colour and fashion to be determined by the Brigadier commanding the brigade to which they shall belong ; every militia-man shall appear so armed, accoutred and provided, when called out to exercise, or into service (except that when called out on company days, to exercise only, he may appear without a knapsack ;) and every man so enrolled as aforesaid, and providing himself with the arms, accoutrements and ammunition required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales for debt, or payment of taxes; each battalion and regiment shall be provided with the state and regimental colours, by the fieldofficers, and each company with a drum and fife, or bugle horn, by the commissioned officers of the company ; the expences of such colours, drums, fifes, or bugle horns to be repaid to the officers out of the fines incurred by this act : (d) *Provided always*, That whenever the field-officers of any regiment shall judge any person enrolled therein unable to equip himself as aforesaid, such person shall not be subject to any fine for not arming, any thing herein contained to the contrary notwithstanding.

the Ensign of the seventh ; seventh draft, the Captain of the seventh company, the Lieutenant of the eighth, and the Ensign of the sixth ; the eighth draft, the Captain of the eighth company, the Lieutenant of the seventh, and the Ensign of the fifth ; non-commissioned officers to take tour with the commissioned officers ; and the fieldofficers of regiments, in every division and brigade in the state, shall be divided in like manner ; and each class to be considered as a detachment from different corps, liable to serve two months, and no longer, and to be relieved by the class next in numerical order, the relief to arrive at least two days before the expiration of the term of the class to be relieved ; but nothing herein contained shall prevent the Governor from employing and calling out part of any class, or any company or companies, regiment or regiments, without respect to this rule, whenever the exigency is too sudden to allow the assembling of the scattered militia, which compose the particular classes ; and the service of the persons so called out shall be accounted as part of their tour of duty ; and the pay of the militia in actual service shall commence two days before marching, and they shall receive pay and rations at the rate of fifteen miles *per* day on their return home.

The rule not to be regarded in case of emergency.

When pay shall commence and end.

Pay of the militia.

Penalty for neglecting a tour of duty.

SECT. 9. *And be it further enacted,* That when the militia, or any detachment thereof are called on duty, the pay of a Major General shall be Sixty Dollars *per* month ; of each Brigadier General Fifty Dollars *per* month ; of each Lieutenant Colonel Forty Dollars *per* month ; of each Major Thirty Dollars *per* month ; of each Captain Twenty-five Dollars ; of each Lieutenant Twenty Dollars *per* month ; of each Ensign Fifteen Dollars *per* month ; of each Sergeant Eight Dollars *per* month ; of each Corporal Seven Dollars *per* month ; and of each private and musician Six Dollars *per* month ; and that every person refusing or neglecting to perform his tour of duty, if a commissioned officer, shall pay the sum of Twenty-five Dollars, and forfeit such his commission, and if a non commissioned officer or private, the sum of Twelve Dollars for every such neglect or refusal.

SECT. 10. *And be it further enacted,* That when any class

STATE OF DELAWARE

1141

class or classes of the militia shall be called to perform any tour of duty, the Brigade Major shall cause each and every such person so called to be notified of such call, by a written or printed notice being delivered to him personally, or left at his house or usual place of abode, by some officer or other fit person to be employed for that purpose, at least three days before the time of assembling the said militia, unless the Governor on a sudden exigency, shall think proper to order any part of the militia into immediate service, and then the notice shall be given for immediate attendance: (g)

CHAP. XXXVI.
1793.

How the militia called into service shall be notified.

SECT. 11. And be it further enacted, That every male white person within this state, between the ages of eighteen and forty-five, or who shall hereafter attain the age of eighteen years, except as before excepted, shall attend at the time and places appointed, in pursuance of this act, for the appearance of the company or regiment to which he belongs; and if any non-commissioned officer or private as aforesaid, required to be armed and accoutred with his firelock and accoutrements aforesaid in good order, or if any male white person between the ages aforesaid, although not required to be so armed and accoutred, shall neglect or refuse to appear on the parade, and answer to his name when the roll is called over, which the commanding officer is hereby directed to have done at the distance of one hour after the time appointed for meeting, not having a reasonable excuse, to be adjudged of by a Court Martial to be appointed by the commanding officer of the company, which shall consist of a Subaltern and four privates, the Subaltern to be President thereof, every such person shall forfeit and pay the sum of Fifty Cents. (b)

Penalty on privates for non-attendance on days of review and exercise;

As in sect. 4, Ante.

SECT. 12. And be it further enacted, That every person required to attend as aforesaid, at the time and place

and for neglect of duty.

(g) For further and more special provision relating to notification of tour of duty, called for to be performed by classes of the militia, and the penalties on privates and officers for non-performance thereof, see chap. 95. c. sects. 12, 13, 14.

(b) See chap. 95. c. sect. 6, alterations in the penalties above in sects. 11 and 12, distinguishing between non-attendance on days of exercise in company or battalion, and in regiments—and see sect. 18, there penalties for neglect of exercise or duty in the troops of horse—and see also sect. 20, for the penalty on persons enrolled in the militia who shall thereafter continue to meet in volunteer companies.

LAWS OF THE STATE

CHAP.
XXXVI.
1793.

place of exercise in company or in regiment, who shall then and there appear, and shall neglect or refuse to answer to his name when the roll is called over, or to obey the lawful commands of his commanding officer, or to perform his exercise with the care and attention requisite therein, being convicted of any of the said offences by a Court Martial, to be appointed as aforesaid, shall forfeit and pay for every such offence any sum not exceeding One Dollar and Forty Cents.

Penalty on officers for non-attendance on field days.

SECT. 13. *And be it further enacted,* That every commissioned officer who shall neglect or refuse to appear at the time and place appointed for exercise in battalion or regiment, having no reasonable excuse, to be adjudged of by such of the officers present, as any two of the field officers shall appoint, and there do and perform his duty, according to his office and station, shall forfeit and pay, if a Lieutenant Colonel Commandant Four Dollars, if a Major Three Dollars, if a Captain Two Dollars, and if a Subaltern or Staff Officer One Dollar and Twenty-five Cents; and every commissioned officer, who shall refuse or neglect to appear at the time and place appointed for exercise or other muster days, having no reasonable excuse, to be adjudged of by the officers present, or a majority of them, shall forfeit and pay for every such neglect or refusal, if a Captain One Dollar and Twenty-five Cents, and if a Subaltern One Dollar, (b)

On other muster days.

A Clerk to be appointed for each company.

SECT. 14. *And be it further enacted,* That the commissioned officers of every company shall appoint such Sergeant thereof, as they shall judge best qualified, to be Clerk thereto, who shall keep in a book to be provided by him for that purpose, to be viewed and examined from time to time by the commanding officer thereof, a fair and exact account of all fines and forfeitures incurred by persons belonging to the same, noting therein, at the time and place appointed for meeting in company, battalion or regiment, the names of the persons belonging to his company, and then absent; a transcript of which entries of fines and forfeitures, the said Clerk shall deliver to the Treasurer of his regiment, once in every three months, (i) by whom

His duty.

first offence the sum of Eight Dollars, and for the second, and every other offence, the sum of Sixteen Dollars.

Appropriation of
fines and forfei-
tures.

SECT. 18. *And be it further enacted,* That all fines and forfeitures, that shall be paid into the hands of any Treasurer of a regiment in pursuance of this act, shall be applied for the purpose of purchasing arms, accoutrements and ammunition for the use of the regiment, as the Governor shall order and direct, and for purchasing such drums, colours and fifes for the several companies; and also for paying adjutants, drummers and fifers; and in such manner as the field-officers thereof shall from time to time direct. (m)

Who shall have
power to call the
militia into ser-
vice.

SECT. 19. *And be it further enacted,* That the Governor shall have full power and authority, in case of an invasion, rebellion, or insurrection within this state, or any of the neighbouring states, to call into service such part of the militia, by classes, as to him shall seem necessary; and in case of the absence of the Governor of this state on any insurrection, rebellion, or invasion, the commanding officer of each brigade is hereby authorized and directed to issue his orders, to call out such part of the militia as he may judge immediately necessary.

Militia exempt-
ed from arrests
in civil actions.

SECT. 20. *And be it further enacted,* That no person or persons by this act directed to meet and muster, or perform any military duty, shall be liable to be arrested or taken by any Sheriff, Constable, or other officer, in any civil actions whatsoever, on the day of such meeting, in going to, or returning home from the place of such meeting or muster or other military duty; but every such arrest shall be void, and the officer making the same shall be liable to an action of trespass for false imprisonment at the suit of the party so arrested, and he shall be forthwith set at liberty and discharged from the custody of such officer, by order of any one Judge or Justice of the Peace of the county where such arrest is made, or of the Captain of the company to which such person doth belong.

SECT.

(m) See also sect. 10, of chap. 95. c. the power of appropriation of fines given to the Military Commissary, and the extension of them to a greater number of objects.

O F D E L A W A R E .

SECT. 21. *And be it further enacted,* That the rules of discipline approved and established by Congress, in their resolution of the twenty-ninth of March, One Thousand Seven Hundred and Seventy-nine, shall be the rules of discipline to be observed by the militia of this state, except such deviations from the said rules as may be rendered necessary by the requisitions of an act of Congress, intituled, *An act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States,* or by some other unavoidable circumstances: It shall be the duty of the commanding officer at every muster, whether by regiment, battalion, or single company, to cause the militia to be exercised and trained agreeable to the said rules of discipline.

A
DIGEST
OF THE
L A W S
OF THE
State of Georgia.

FROM ITS FIRST ESTABLISHMENT AS A BRITISH PROVINCE DOWN
TO THE YEAR 1798, INCLUSIVE,

AND THE
PRINCIPAL ACTS OF 1799:

IN WHICH
Is comprehended the declaration of Independence; the State Constitutions of 1777 and 1789, with the
alterations and amendments in 1794.

ALSO THE
Constitution of 1798.

IT CONTAINS
As well all the Laws in force, as those which are deemed useful and necessary, or which are explanatory
of existing Laws; together, with the

TITLES OF ALL THE OBSOLETE AND OTHER ACTS.

AND CONCLUDES

WITH AN APPENDIX containing the original Charters and other Documents, ascertaining and defining the
Limits and Boundary of the State; all the Treaties with the Southern tribes of Indians; the articles of
Confederation and perpetual union; the Constitution of the United States, and a few Acts of Congress.

Together with a copious Index to the whole.

ADDRESS

TO THE PUBLIC.

THE following work is offered to the public under a conviction of its utility. Not incited to the arduous undertaking, by ambition for literary fame, or with a view of having their names enrolled in the catalogue of contemporary authors, the compilers claim no merit but from their zealous assiduity and labor in the compilation. Having witnessed the numerous advantages resulting from the success of similar exertions, in other States, they determined to pursue the example and collect the whole of the State laws into one view. Such a work had been long called for by the public, and had been contemplated by others at an earlier period; but, either from the difficulty of the undertaking, or the want of legislative sanction, every attempt, in this State, has hitherto failed of success. Notwithstanding these difficulties, the present compilers observing with much concern the great uncertainty in the municipal regulations of the State, and the embarrassments thereby introduced into every department of the government, but particularly in the courts of justice, whither one of them was led by professional duty, they determined though, strange to relate, not without opposition, to encounter the task upon the credit of their own fortunes, and hazard its success on their own individual reputations.

*In a State whose government has been the theatre of political agitations, in which the reciprocal struggles of jarring and opposing interests, have produced the alternate adoption and abrogation of
opposite.*

Digitized by Google

[iv]

opposite measures, the civil polity cannot but be subject to frequent and variagated changes: This unfortunately has been too much the case with the State whose legislative acts are here presented to the public; and this too, has added much to the labor and perplexity of the undertaking. Many of the laws have never been published, some are entirely lost or destroyed, others in a tattered and mutilated condition; and, the mass from whence this collection is made, has hitherto been, almost, as much out of the public reach as the laws of Caligula. The compilers, however, have exercised their utmost assiduity, in collecting all the laws in force, passed since the first settlement of the State as a British province, together with such of the repealed or obsolete acts as were deemed useful and necessary, as governing the transactions under them, while in force: These they have arranged with the titles of all the other laws to be found, in the order of time in which they were passed, with such marginal notes and references as were deemed necessary to elucidate the objects of succeeding legislatures. To which is subjoined the fundamental regulations under which they were enacted. The constitution of the State as revised and amended at different periods, the articles of confederation and perpetual union, and the constitution of the United States. They have also added, the original charters and other documents, ascertaining and defining the limits and boundary of the State; all the treaties with the southern tribes of Indians, and a few acts of congress.

*Whilst the compilers have zealously endeavoured to fulfil their engagements, they have to regret the unexpected delay of the publication. It is, however, to be hoped the causes will not be overlooked. Soon after their commencement, measures were taken and pursued for a change in the constitution. This was too important
not*

Digitized by Google

[v]

not to wait the issue and incorporate the result. They have not only done this, but the delay has enabled them to add the laws of several years more than originally intended; and the whole code has recently undergone a thorough revision. In strict conformity with those engagements, a guide for justices of the peace should likewise have been annexed: but the new matter already added, it is presumed, will be deemed more than adequate. Indeed it has been considered that the guide will be more useful, by being published in a small portable volume. This will be done as soon as possible. The manuscript has been long prepared, but the many alterations in the constitution and laws have rendered a revision of that too, indispensably necessary. Such of the subscribers, however, as may not have occasion for the present work, without the guide, will be at liberty to withdraw their names.

Another cause of delay may justly be ascribed to the agitation of the public mind, during its progress, and to an opposition, which sought to destroy the effects and enjoy the fruits of their labor, by an indelicate interference, and an illiberal competition.*

Although

* During the first session of the legislature of 1799, when the digest was in the press, a candid representation was made to them respecting its progress. They took up the subject and referred it to a large and respectable joint committee from the two branches. This committee reported specially, and unanimously recommended an appropriation of fifteen hundred dollars, and added that they were the more induced to recommend the adoption of the measure "from a conviction that the said digest is a work of great labor and merit and will be of importance in forming a complete digest, agreeably to the 8th sect. of the 3d art. of the constitution; and that the said Robert and George Watkins are entitled to a generous retribution for their labor and exertions." It was thereupon resolved *unanimously* in the house of representatives, "that the sum of fifteen hundred dollars, be appropriated" accordingly, to their use. The senate concurred by a large majority. During its progress, however, some opposition arose in the senate. This was at length explained by one of the governor's particular friends, who had the *modesty*, openly, to move that an addition be made to the appropriation act, in the words following: "The sum of two thousand dollars, subject to the order of the governor, for the purpose of enabling the executive to promulgate the laws of the State, agreeably to the 8th sect. of the 3d art. of the constitution." This was negatived—yeas 4, nays 11. And his excellency was directed, by a second resolution, to pay the first mentioned sum on demand "out of the contingent fund." Still unwilling to submit to the will of the legislature, his excellency has not only been pleased, in the recess of that body, to disapprove of the appropriation, but has also charged the legislature with violating the constitution in making what he calls a "gratuity" of the public money, and withholds the amount.

On these facts, the compilers forbear to comment.

Digitized by Google

[vi]

Although the authors of this work cannot boast of the patronage of ALL their rulers, they have the consolation to believe, that in offering it to the public, they are sanctioned by the approving voice of the best informed and most impartial characters in the community. To the indulgent eye of a generous public it is, therefore, cheerfully submitted.

The want of age and experience in the compilers, engaged in an arduous profession, added to the circumstances already stated, forbid the hope of perfect correctness. Conscious, however, of the best intentions, they venture to flatter themselves that the errors will be found neither numerous or important.

Should a greater number of copies be wanted than are now printed, a second edition will be published in octavo, in which all intermediate alterations in the laws, will be duly noticed, and the utmost care taken to correct and improve the former.

In a representative government, it is of the utmost consequence to the body of the nation, to be rightly informed of those laws and regulations by which their duties are defined and their rights secured. To promote this desirable object, as far as was in their power, has been the leading motive of the compilers. That it may answer the ends proposed, and advance the public good, is their ardent wish.

DIGEST OF THE

A. D. 1792.
No. 468.

An Act to revise and amend the militia law of this State, and to adapt the same to the act of the congress of the United States, passed the eighth day of May, one thousand seven hundred and ninety-two, entitled "An act more effectually to provide for the national defence by establishing an uniform militia throughout the United States."

In conformity to act of congress, the militia laid off into divisions, &c.

I. **B**E it enacted by the senate and house of representatives of the State of Georgia, in general assembly met, That in order to comply as nearly as may be convenient with the act of congress of the United States, passed at Philadelphia, on the eighth day of May, in the year of our Lord, one thousand seven hundred and ninety-two, entitled "An act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States;"—the militia of this State shall be laid off and apportioned into divisions, brigades, regiments, battalions and companies, in the manner herein after particularly expressed.

Brigades and divisions defined.

II. *And be it further enacted,* That the counties of Camden, Glynn, Liberty and Chatham* shall compose a brigade, to be known as the first brigade of the first division; and the counties of Effingham and Burke† as the second brigade of the said division; and the said two several brigades shall compose the first division of the militia of this State; and the counties of Richmond and Columbia shall compose a brigade, to be known as the first brigade of the second division; and the counties of Washington and Greene as the second brigade of the said division; and the said two several brigades shall compose the second division of the said militia; and the county of Wilkes‡ shall compose a brigade, to be known as the first brigade of the third division; and the counties of Franklin and Elbert§ as the second brigade of the third division, and the said two several brigades shall compose the third division of the said militia.

A major general to command each division. A brigadier general, each brigade. Adjutant general, rank of lieutenant-col.

III. *And be it further enacted,* That each division of the said militia shall be under the direction of, and be commanded by a major general, and each brigade shall be under the direction of, and be commanded by a brigadier general; and there likewise shall be appointed an adjutant general, to have the rank of lieutenant-colonel: All which said officers shall be appointed and commissioned by the commander in chief of this State, under the regulations and restrictions herein after pointed out.

Brigades to be subdivided in regiments, battalions and companies. *Provide.*

IV. *And be it further enacted,* That within two months after the passing of this act the said several brigades shall be sub-divided into regiments, battalions and companies as nearly as may be, in conformity to the aforementioned act of the congress of the United States, by the executive department of this State. *Provided,* That the respective counties be kept distinct from, and unblended with any other county in such sub-division, unless alterations in such counties should hereafter by law take place.

V.

* Effingham, McIntosh, and Bryan, added.
† Montgomery, Scriven, Bullock, and Jefferson, added.
‡ Warren and Lincoln, added.
§ Oglethorpe and Jackson, added. } See acts of 1795, No. 534, and 1796, No. 56a.

LAWS OF GEORGIA.

459

V. *And be it further enacted,* That the officers of companies shall be nominated by election of the citizens liable to bear arms in each company district, and be appointed agreeably to the constitution by the governor of this State, under the following rules and restrictions, that is to say, the free white inhabitants so liable to do militia duty shall, within ten days after such company district shall have been defined by the executive, assemble at a place to be appointed therein by any two or more magistrates within such company district, or if there should not be two residing magistrates within such district, by any two or more magistrates of the county such company may be in, ten days public notice being first given by such magistrates of such meeting and the intention thereof; and the free white inhabitants liable to do duty therein, and so convened, shall proceed to nominate, by ballot, one fit and proper person to fill each respective commission of captain, lieutenant and ensign of such company; the election so held, and the names of the persons so nominated for each commission as aforesaid, shall be certified* under the hands and seals of the said magistrates, and be by them sent, within fifteen days so certified, to his excellency the governor, who shall within five days after the receipt thereof, appoint and commission the persons so nominated for the respective commissions of captain, lieutenant or ensign, as the case may be, and in case of the neglect or refusal of the inhabitants of any company district to meet, and by ballot to nominate the persons aforesaid within the time herein before pointed out for such meeting; the executive department shall proceed to appoint the officers of such company district without any such nomination.

A. D. 1792.
No. 468.
Company officers,
how appointed.

VI. *And be it further enacted,* That the captains and subalterns of companies so nominated and appointed shall, within twenty days after the notification of their appointments by his excellency the governor has taken place, meet and assemble at some convenient place within the battalion or regimental district, as the case may be, to which such officers belong, under the direction of any two or more of the captains so appointed, not being candidates, ten days notice being given of the meeting and its intention by them; and when so met, the said officers shall proceed to nominate, by ballot, one fit and proper person for each commission of lieutenant colonel of the regiment or major commandant of the battalion, as the case may be. *Provided,* That where the lieutenant colonel, when appointed, will command a regiment, consisting of two battalions, the officers of companies of both battalions shall assemble together in like manner at a convenient place for each battalion, under the direction of two or more captains, one of which at least belonging to each respective battalion; and the captains so assembling, the said officers shall, within ten days after such nomination, certify the same, and the names of the persons so nominated, and send such certificate to the executive department, which shall within five days thereafter, appoint and commission the persons so nominated to fill such appointments of lieutenant colonel or major, as the case may be.

Lieut. cols and
majors to be ap-
pointed by the
company officers.

Provido.

VII. *And be it also enacted,* That where a country will not permit its being formed into two battalions, the same shall compose a regiment to be commanded by a lieutenant colonel commandant.†

Counties not con-
taining two bat-
talions, how to be
commanded.

VIII.

* See act of 1793, No. 494, § 8, pointing out the manner of certifying and returning such elections.
† To be commanded by a major if a county has not more than 4 companies. See act of 1795, No. 534.

DIGEST OF THE

A. D. 1792.
No. 468.
Officers, how to
raise rank.

VIII. *And be it further enacted*, That where any officer now in commission shall be nominated and appointed to fill the same commission he before held, he shall take rank from the date of the commission he so before held, any thing herein contained to the contrary notwithstanding, and the officers in commission at the time of passing this act shall continue to act until the nomination or appointment of some other person to fill the same.

Enlistments, how
to be made,
Persons liable to
duty.

IX. *And be it enacted*, That the commanding officer of each company of militia shall enroll the names of all the male inhabitants (slaves excepted) above the age of eighteen and under the age of forty-five years, who shall have resided therein for the space of ten days, and shall cause the persons so enrolled to be summoned and duly noticed by a proper non-commissioned officer, to appear at such times and places as he shall appoint for company musters; and the persons so enrolled, shall be from thenceforth deemed and held to belong to such company, and liable to appear at all its musters, whether battalion or company, and on all other necessary occasions, and to perform the whole duty of a militia man without any further notice whatsoever.

Accoutrements.

X. *And be it further enacted*, That every person so enrolled shall provide himself, agreeably to the act of congress, with a musket or firelock, a sufficient bayonet and belt, two spare flints, and a knapsack, a pouch with a box therein, to contain not less than twenty-four cartridges, suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball; or with a good rifle, knapsack, shot pouch and powder horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder, and shall appear so armed, accoutred and provided, when called out to exercise or into service; except that when called out to exercise only on company days, he may appear without a knapsack. And if any person so enrolled shall neglect to provide himself, or shall appear at musters not properly accoutred as before expressed, or shall neglect or refuse to appear at such battalion or company musters, or on any other necessary occasion, at any time within nine months after the passing of this act, shall be fined in a sum not exceeding two dollars for every such offence; and for every such neglect after that time, the sum not exceeding six dollars if a battalion muster, and four dollars if a company muster.

Fines of privates
for deficiencies
and non-attendance.

Field and com-
pany officers
uniform, subject
to fine for defi-
ciencies & non-
attendance.

XI. *And be it further enacted*, That every commissioned officer of the rank of captain and under, shall provide himself with a sword or hanger, an esponton, and a complete suit of uniform, to be determined on by the officer commanding the brigade he belongs to, and in case of any such officer appearing at musters, or on other necessary occasions, not so provided, at any time within nine months after his appointment, every such officer so offending, or who shall neglect or refuse to appear at such musters shall be fined, if a captain, in a sum not exceeding thirty dollars; if a lieutenant, not exceeding twenty dollars; and if an ensign, not exceeding fifteen dollars. And every general and field officer shall in like manner appear, when on duty, in a complete uniform, and armed with a sword or hanger;—the uniform of the general officers to be determined by the commander in chief, and the uniform

† See act of 1793, No. 494, sec. 6, respecting the rank of lieutenant-colonels.

LAWS OF GEORGIA.

of the field officers, by the officer commanding the brigade; and in case of their appearing at muster, or on other necessary occasions, not so provided, every such officer shall forfeit and pay, if a major-general, a sum not exceeding two hundred and fifty dollars; if a brigadier, a sum not exceeding two hundred dollars; and if a field officer, a sum not exceeding one hundred dollars.

A. D. 1793:
No. 468.

XII. *And be it further enacted,* That the said militia shall exercise in battalion twice in each year, and in companies four times in every year; and in case of neglect thereof, if a battalion or regimental muster, the commanding officer of such regiment or battalion shall be fined in a sum not exceeding one hundred dollars, to be imposed by a court martial, to be ordered by the officer commanding the brigade; and if a company muster, the officer commanding and so neglecting shall be fined for every such neglect in a sum not exceeding thirty dollars, to be imposed by a court martial, to be ordered by the officer commanding the regiment or battalion to which such company shall belong, and due notice shall be given of such regimental, battalion or company musters, by the officers commanding the same.

Battalion or regimental musters.

XIII. *And be it further enacted,* That every officer commanding a company shall, on the days appointed to exercise his men by company, have the same formed under arms by eleven o'clock in the forenoon, by which hour every person liable to militia duty in such company shall attend, and the said officer shall then have his roll called over, and mark all defaulters, and shall proceed to instruct and exercise his men in the evolutions and manual exercise pointed out and required by the before mentioned act of congress, and in case of neglect of such instructing and exercising, the officer so commanding shall be liable to a penalty not exceeding thirty dollars for every such neglect.

Company musters.

XIV. *And be it further enacted,* That if any person liable to bear arms, at any exercise or training, hereby appointed, shall behave in a contemptuous or unfoldierlike manner, at either battalion or company musters whilst under arms, or shall insult or threaten his field, company or other officer commanding, after his discharge, for or on account of such officer's performing the duty hereby required of him whilst such person was under arms, every such person shall for every such offence forfeit and pay a sum not exceeding four dollars: And if such offender shall be a commissioned officer, and shall be guilty of contemptuous or unfoldierlike behavior whilst on duty, or shall, after his discharge from such duty, threaten or insult his superior officer for or on account of the duty required of such officer by this act, every such commissioned officer so offending shall for every such offence forfeit and pay a sum not exceeding twenty dollars or be cashiered, at the option of a court martial.

Officers and privates to be fined or cashiered by court martial, for misbehavior or disobedience of orders.

XV. *And be it further enacted,* That any person interrupting the military exercises required by this act, may be committed by the officer commanding the body of militia so interrupted, to the nearest common gaol, for a space of time not exceeding five days for every such offence.

Persons interrupting military exercise may be committed to gaol.

XVI. *And be it further enacted,* That every master or other person who hath the command, government or power over any indented man servant, liable to do militia duty by this act, shall, at his or her own proper costs and charge furnish and provide every

Masters of indented servants to equip them, &c. and subject to fine for neglect.

DIGEST OF THE

A. D. 1792. every such indented man servant during his servitude, with the arms, ammunition and accoutrements directed by this act, and every such master or other person shall send such indented servant completely armed and furnished as is herein required, to all battalion, regimental or company musters, and on all other necessary occasions, which such indented servant would have been liable to attend were he not a bondsman; and in case such indented servant shall not appear thereat, or on appearance shall be defective in arms or accoutrements hereby required, such master or other person shall be liable to all the fines, penalties and forfeitures imposed in like cases on other persons liable to bear arms by this act.

Fines and forfeitures, how to be imposed by courts martial.

XVII. *And be it further enacted,* That the several fines, penalties and forfeitures to be inflicted by this act on persons liable to attend at company musters, may be imposed by a court consisting of a majority of the commissioned officers of such company; or in case of vacancies of two commissioned officers of the regiment or battalion such companies belong to. *Provided,* one of the said officers be an officer of such company. And the several fines, penalties and forfeitures to be inflicted on persons liable to attend battalion or regimental musters, shall be imposed by a court, to consist of at least seven commissioned officers of such battalion or regiment; and it is hereby made the duty of the officers appointed members of such courts martial, on being duly notified thereof, to attend the same; and in case of neglect or refusal of any such commissioned officer to attend, he shall be liable to the penalties herein pointed out for non-appearance at regimental or battalion orders; and ten days notice at least, in writing, shall be given defaulters and offenders to be tried at such company, battalion or regimental courts martial, under the hand of the commanding officer of the company such offender or defaulter belongs to, who shall be served with the same personally, or be otherwise notified by a non-commissioned officer thereof, by such non-commissioned officer's leaving the same at such defaulter's or offender's usual place of abode, and proof of such service shall be made to such court, on oath, previous to its proceeding to the trial of such offender or defaulter.

Warrant therefor, how to be drawn & served

XVIII. *And be it further enacted,* That all warrants for fines, penalties or forfeitures inflicted by this act shall, if in consequence of the sentence of a company court martial, be under the hand and seal of the commanding officer of the company; and if in consequence of the sentence of a regimental or battalion court martial, under the hand and seal of the commanding officer of such regiment or battalion; and every such warrant shall clearly express the offence, and recite the sentence of the court, and shall be directed to, and executed by a serjeant of the company the offender belongs to, or be directed to, and executed by any lawful constable of such district; and such non-commissioned officer or constable shall make return of such warrant within thirty days after his receiving the same; and if on such return it shall happen that such offender or defaulter has not wherewithal to be levied to satisfy the forfeiture or fine imposed by such court, it shall be the duty of such officer commanding, to renew the warrant, and thereby to commit the offender or defaulter to the common gaol of the county, or the nearest gaol thereto, if there shall be no such county gaol, for the space of one day for each dollar contained in such

LAWS OF GEORGIA.

463

fuch fine or forfeiture; and it is hereby made the duty of the keeper of fuch gaol to receive fuch offender or defaulter, and to keep him in clofe custody for the term in fuch warrant expreffed, without bail or mainprize, and until fuch offender or defaulter fhall have fatisfied fuch keeper for his fees on fuch confinement. *Provided*, That no gaoler fhall detain fuch perfon or perfons more than three days for his fees: *And provided*, That where this act admits of perfons being committed to gaol in the firft instance, no return or renewal of fuch warrant fhall be neceffary.

A. D. 1792.
No. 468.

XIX. *And be it further enacted*, That the non-commissioned officers of the refpective companies fhall be appointed in the following manner, that is to fay, the names of all perfons liable to bear arms in each company diftrict fhall be placed in a box to be kept in the custody of the commanding officer of fuch company and have two partitions, to be known by the numbers one and two, and the names in the firft instance fhall be put in the petition number one, and within one month after the refpective companies fhall be organized, it fhall be the duty of the commissioned officers thereof to afsemble and draw from the faid partition number one, the names of eight perfons which fhall be thrown into the partition number two, and the eight perfons fo drawn fhall be the non-commissioned officers of the company and are hereby declared liable to execute and perform all the duties of fuch ftation, and they fhall ferve as fuch for the fpace of twelve months, and fhall not be liable to ferve again in that capacity until all the names fhall be drawn from the partition number one; and in cafe of refusal to act in fuch appointment, or to procure fome fit and proper perfon, to be approved of by the officer commanding the company, to do the duty of a non-commissioned officer in his ftand, fuch perfon fo drawn and refusing to act or to procure fuch fit and proper perfon, fhall forfeit and pay the fum of ten dollars, to be recovered by warrant of the officer commanding the company fuch perfon fhall belong to, and the faid commissioned officers fhall proceed to draw another perfon to fill the office of fuch perfon fo refusing until the number of non-commissioned officers fhall be completed; and the four firft perfons fo drawn as aforefaid, fhall be the ferjeants, and the laft four fo drawn, the corporals of fuch company. *Provided nevertheless*, That if fit and proper perfons for non-commissioned officers fhould be procured by the commissioned officers of fuch company, the mode of drawing in this claufe contained may be difpenfed with; but after fuch fit and proper perfons have accepted fuch offices, they fhall be liable to ferve in fuch ftation, at leaft for the term of twelve months, as is herein before expreffed for perfons drawn to ferve in the fame; and in confideration of the duties in this act affigned to them, one half of the fines of fuch company fhall be fet apart as a fund for defraying the expence of executing fuch duty, and be divided to and among fuch non-commissioned officers; but if any non-commissioned officer after accepting fuch office, fhall neglect or refuse to do the duty required by this act, he fhall for every fuch offence, forfeit and pay a fum not exceeding five dollars.

Provido.

XX. *And be it further enacted*, That it fhall be the particular duty of the officers commanding companies, to pay a due attention that the law for eftablifhing and regulating patrols in force in this State, paffed the eighteenth day of November, in the
year

The patrol law, how to be enforced by the militia.

DIGEST OF THE

A. D. 1792. year of our Lord, one thousand seven hundred and sixty five, under the then province of Georgia, be strictly executed, and in case of neglect or default of such execution, every officer commanding the company defaulting, and not punishing the defaulters agreeable to the said act, shall be subject to a fine not exceeding fifty dollars or be cashiered, at the option of a court martial.

Returns, to whom and when to be made.

XXI. *And be it further enacted,* That the officers commanding regiments or battalions, shall once in every year, make proper and complete returns of their regiment or battalion as the case may be, to the officer commanding the brigade to which they respectively belong; and the officers commanding brigades, shall in like manner, make proper and complete returns of their brigades, to the officers commanding the division to which they respectively belong, and the officers commanding divisions, shall receive and distribute all such orders to the brigades of their divisions as may from time to time be issued from the commander in chief, or by his direction, from the adjutant general; and the officers commanding brigades, shall in like manner, receive and distribute to and among the respective regiments and battalions of their respective brigades, all such orders as may from time to time be issued to them by the officers commanding divisions, by the commander in chief, or from his directions by the adjutant general, and the officers commanding regiments or battalions shall cause to be distributed to, and executed by the respective companies under their command all such orders as they may from time to time receive from officers commanding divisions and brigades, or from the commander in chief, or the adjutant general; and in case of neglect or refusal to perform such duty, every officer so offending shall, if a major general, be fined in a sum not exceeding five hundred dollars, if a brigadier, in a sum not exceeding three hundred dollars, and, if a field officer, in a sum not exceeding two hundred dollars or be cashiered at the option of a court martial to be ordered, if on a major general by the commander in chief, if on a brigadier by the officer commanding the division, and if a field officer by the officer commanding the brigade. *Provided,* That nothing in this clause contained, shall be construed to debar the commander in chief from arresting and ordering courts martial for the trial of any officer of the militia of this State, or to debar any officer commanding a division, brigade, regiment or battalion from arresting and ordering courts martial for the trial of any officer belonging to his division, brigade, regiment or battalion.

Orders how to be distributed by the officers.

Subject to fine or may be cashiered, at discretion of court martial.

Courts martial for the trial of officers, how constituted.

XXII. *And be it further enacted,* That a court martial for the trial of a major-general shall consist of at least one major-general, three brigadier generals and five field officers; and for the trial of a brigadier general the court shall consist of at least two brigadier generals and seven field officers; and for the trial of a field officer it shall consist of at least one brigadier, three field officers, and five captains, or of four field officers, and five captains; and a court martial for the trial of a captain or subaltern shall consist of at least seven commissioned officers, the president thereof to be of superior rank to the officer tried; and every sentence of a court martial, where the officer shall be cashiered, shall be transmitted by the president of the court through the adjutant-general to the commander in chief, who may approve of, mitigate the sentence or pardon the offender as he may see fit: and in case of sentences

Their sentence subject to the pleasure of the commander in chief.

* See act of 1793, No. 194, sect. 3, preferring the manner of appointing courts martial.

LAWS OF GEORGIA.

tences merely pecuniary, the officer ordering the court may approve, disapprove or mitigate the same. **A. D. 1792.**
No. 468.

XXIII. And be it further enacted, That from and after the organization of the militia as before pointed out, whenever any vacancy shall happen in any captain's district, battalion, regiment, brigade or division, by death, resignation or otherwise, the vacancies shall be filled up by nominating a person or persons to fill such vacancy or vacancies in the same manner as before pointed out by this act. **Vacancies, how to be filled.**

XXIV. And be it further enacted, That his excellency the governor be, and he is hereby empowered to assemble and embody such part of the militia of the State as he may from time to time think necessary, to repel any invasion, insurrection or rebellion which may happen within the same, and to order such officers to command the said militia as he shall see fit. **Provided,** That the officers of one company shall not be placed to command another company, unless where the death, resignation or inability of such officer shall make it necessary. **And provided,** That nothing in this clause contained shall prevent part of such company from being detached, or piquet or otherwise under any officer. **The governor may embody the militia.**

XXV. And be it further enacted, That where volunteer corps of artillery, horse or infantry shall be formed in pursuance of the aforementioned act of congress; the volunteers composing the same shall not be permitted to leave such corps until he or they shall have given two weeks notice of such intention, and shall have produced a certificate from under the hand of the commanding officer of the company district he belongs to, that his name is enrolled therein; and until the expiration of such notice such person shall be liable to continue to do duty in such volunteer corps; and in case of removal of residence of any person liable to do militia duty from one district to another, five days notice shall be given to the officer of the company such person intends to remove from, and shall produce a certificate from the officer of the company he intends to remove to, that his name is therein enrolled; and until such notice and certificate, such person shall be liable to do militia duty in such company from which he so intends to remove. **Members of volunteer corps of artillery, horse & infantry, not to leave the same without notice and certificate. Militia men not to remove out of any district without notice and like certificate.**

XXVI. And be it further enacted, That any officer acting in an infamous or scandalous manner unbecoming the officer, and which is likely to bring the militia service into disrepute, may be arrested by order of the commander in chief, or the commanding officer of a division or brigade, on sufficient grounds appearing to them of such conduct, and on conviction thereof by a court martial, such officer may be cashiered: And all disorders and neglects whilst on duty, or under orders which officers or privates may be guilty of to the prejudice of good order and discipline, though not herein particularly provided for, may be noticed by a general, regimental or battalion court martial, and be punished by fine or forfeiture, not exceeding the penalties herein apportioned for other offences according to the rank of the offender. **All improper conduct of officers, disorders and neglect of duty, to be noticed by courts martial.**

XXVII. And be it further enacted, That all fines* and forfeitures accruing by virtue of this act shall, if arising from default at regimental or battalion musters, be paid into the hands of the major of such regiment or battalion for the express purpose of **procuring.** **Fines and forfeitures, how applied.**

* See act of 1793, No. 494, sect. 2, respecting other fines.

DIGEST OF THE

A. D. 1792. No. 468. procuring regimental and company colours : and all fines and forfeitures arising from defaults at company musters (except as herein excepted) shall be lodged in the hands of the captain thereof, to be applied in the purchase of drums and fifes ; and such captain, after such purpose is attained, shall yearly account with, and pay to the major of such regiment or battalion, the overplus of such fines and forfeitures, who shall, after the expence of colours is deducted therefrom, pay the overplus of such regimental, battalion or company forfeitures into the public treasury, where all fines on general officers shall also be paid.

Commanding officers of regiments have the sole appointment of the regimental staff.

XXVIII. *And be it further enacted,* That the commanding officer of regiments shall have the sole appointment of the regimental staff as pointed out by the aforesaid act of congress, and that for the better understanding of this law as it has reference to the said act, the executive be empowered to direct a sufficient number of copies of that act to be struck off with this law, to be distributed one to each company of militia within this State, and one to each field and general officer within the same : And it is declared to be the duty of each company officer to have the said act, together with this law, publicly read over at least twice in each year to his company whilst under arms ; and it shall be the duty of the field officers to have the same once in every year, read to the respective regiments or battalions whilst under arms, to which they may respectively belong : And the executive department is also further empowered and required to have a like number of copies of the rules and articles of war, in force with the troops of the United States, to be distributed in like manner, that the militia be not ignorant thereof when called into actual service.

The militia laws to be publicly read to companies, regiments or battalions.

Major generals, brigadiers and adjutant general, how appointed.

XXIX. *And be it further enacted,* That the major generals, brigadier generals, and adjutant general created by this act, shall be nominated in the following manner : The senate and house of representatives shall concur in the nomination of one person as major general for the first division ; one other person as major general for the second division ; and one other person for the major general for the third division of the militia of this State ; and shall also concur in the nomination of one other person for the brigadier general of the first brigade of the first division ; one other person for the brigadier general for the second brigade of the said division ; one other person for the brigadier general of the first brigade of the second division ; one other person for the brigadier general for the second brigade of the said last mentioned division ; one other person for the brigadier general for the first brigade of the third division ; and one other person as a brigadier general for the second brigade for the third and last division ; and shall also concur in the nomination of one other fit and proper person as adjutant general ; and a list of the names of such persons as shall be nominated as aforesaid, shall be signed by the president of the senate and speaker of the house of representatives, and transmitted to the governor within two days after such nomination, for the purpose of appointing and commissioning each and every of such nominated persons within ten days after he shall receive such lists of names as aforesaid.

Vacancies by removal.

XXX. *And be it further enacted,* That in case any officer shall remove out of the district, battalion or regiment for which he shall be appointed, then and in that case his commission shall be void ; and all officers of divisions, brigades, regiments, battalions and companies shall be residents of the divisions, brigades, regiments, battalions and companies to which they severally belong. XXXI.

LAWS OF GEORGIA.

467

XXXI. *And be it further enacted*, That the people called quakers, on producing a certificate from a quaker meeting of their being *bona fide* quakers, shall be exempt from all militia duty required by this act, and shall pay an extra tax of twenty-five per centum in addition to their general tax. *Provided*, That this act shall not extend to affect persons nor their estates who are herein exempt either from years, appointments or imbecility.

A. D. 1792.
No. 467.
Quakers exempt from militia duty, on payment of additional tax.
Provido.

XXXII. **And be it further enacted*, That the members of the legislature for the time being, and their officers, all judicial and executive officers, all ministers in orders, practitioners of physic, all public printers, all ferrymen, millers, all tutors and students, all justices of the peace, registers of probates, the treasurers, the surveyor general and county surveyors, the secretary of the State, invalids, post riders, madmen and idiots,† shall be and they are exempted from any of the duties required by this act, in addition to those exempted therefrom by the act of the United States.

Certain other exemptions in addition to those mentioned in the act of the United States.

WILLIAM GIBBONS, *Speaker of the House of Representatives.*
BENJAMIN TALIAFERRO, *President of the Senate.*

EDWARD TELFAIR, GOVERNOR.

December 14, 1792.

* So much of this sect. as exempts the "several officers" named, and all militia laws prior to this act, repealed by act of 1793, No. 494, sect. 15.

† See other exemptions by acts of 1794, No. 532, and 1795, No. 534.

An Act for the more effectually preventing and punishing forgery.

No 469.

I. **B**E it enacted by the senate and house of representatives of the State of Georgia in general assembly met, That from and after the passing of this act, if any person or persons shall falsely make, forge, alter or counterfeit, or cause or procure to be falsely made, forged, altered or counterfeited, or willingly act or assist in the falsely making, forging, altering or counterfeiting any audited certificate, issued by the auditor general, or any order or warrant issued by his excellency the governor, or the honorable the president of the senate, or speaker of the house of representatives of this State, on the treasurer thereof, for any money or other thing, or any warrant for land issued by the justices of any land court within this State, or any certificate, draft, warrant or order from any of the public officers of this State, issued under or by virtue of any act or resolve of the general assembly, any deed, will, testament, bond, writing obligatory, bill of exchange, promissory note, or order for money or goods, or acquittance, or receipt for money or goods, or any endorsement or assignment of any bond, writing obligatory, bill of exchange, promissory note, or order for money or goods, with intent to defraud any person or persons whatsoever, or shall utter or publish as true, any false, forged, altered or counterfeited audited certificate, governor, presidents, speakers or other public officer's certificate, draft, warrant or order, so as aforesaid issued under or by virtue of any act, or resolve of the general assembly of this State, or any deed, will, testament bond, writing obligatory, bill of exchange,

To forge audited certificates, governors, presidents or speakers warrants, &c. &c.

Or to utter or publish the same as true.

An ACT to regulate and discipline the militia of this state. Lib. JG. No. 2. fol. 57.

A Supplement 1798, ch. 100.

WHEREAS the congress of the United States, by their act, entitled, An act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States, have enacted as follows, to wit: "Be it enacted, by the senate and house of representatives of the United States of America in congress assembled, That each and every free able bodied white male citizen of the respective states, resident therein, who is or shall be of the age of eighteen years, and under the age of forty-five years, (except as is herein after excepted,) shall severally and respectively be enrolled in the militia, by the captain or commanding officer of the company within whose bounds such citizen shall reside, and that within twelve months after the passing of this act. And it shall at all times hereafter be the duty of every such captain or commanding officer of a company, to enrol every such citizen as aforesaid, and also those who shall, from time to time, arrive at the age of eighteen years, or being of the age of eighteen years and under the age of forty-five years, (except as before excepted,) shall come to reside within his bounds; and shall, without delay, notify such citizen of the said enrolment, by a proper non-commissioned officer of the company, by whom such notice may be proved. That every citizen so enrolled and notified, shall, within six months thereafter, provide himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints, and a knapsack; a pouch with a box therein, to contain not less than twenty-four cartridges suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball; or with a good rifle, knapsack, shot-pouch and powder-horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder, and shall appear so armed, accoutred and provided, when called out to exercise or into service, except that when called out on company days to exercise only, he may appear without a knapsack. That the commissioned officers shall severally Preamble.

rally be armed with a sword or hanger, and esponton; and that from and after five years from the passing of this act, all muskets for arming the militia as herein required, shall be of bores sufficient for balls of the eighteenth part of a pound; and every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements, required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales, for debt, or for the payment of taxes. And be it further enacted, That the vice-president of the United States, the officers, judicial and executive, of the government of the United States, the members of both houses of congress, and their respective officers, all custom-house officers, with their clerks, all post-officers, and stage drivers who are employed in the care and conveyance of the mail of the post-office of the United States, all ferrymen employed at any ferry on the post-road, all inspectors of exports, all pilots, all mariners actually employed in the sea service of any citizen or merchant within the United States, and all persons who now are or may hereafter be exempted by the laws of the respective states, shall be and are hereby exempted from militia duty, notwithstanding their being above the age of eighteen, and under the age of forty-five years. And be it further enacted, That within one year after the passing of this act, the militia of the respective states shall be arranged into divisions, brigades, regiments, battalions and companies, as the legislature of each state shall direct; and each division, brigade and regiment, shall be numbered at the formation thereof, and a record made of such numbers in the adjutant-general's office in the state, and when in the field, or in service in the state, each division, brigade and regiment, shall respectively take rank according to their numbers, reckoning the first or lowest number highest in rank. That if the same be convenient, each brigade shall consist of four regiments, each regiment of two battalions, each battalion of five companies, each company of sixty-four privates. That the said militia shall be officered by the respective states as follows: To each division, one major-general, and two aids-de-camp with the rank of major; to each brigade, one brigadier-general, with one brigade inspector, to serve also as brigade-major, with the rank of a major; to each regiment, one lieutenant-colonel commandant; and to each battalion, one major; to each company, one captain, one lieutenant, one ensign, four sergeants, four corporals, one drummer, and one fifer or bugler. That there shall be a regimental staff, to consist of one adjutant and one quartermaster, to rank as lieutenants; one paymaster, one surgeon, and one surgeon's mate; one sergeant-major, one drum-major, and one fife-major. And be it further enacted, That out of the militia enrolled as is herein directed, there shall be formed for each battalion at least one company of grenadiers, light infantry or riflemen; and that to each division there shall be, at least, one company of artillery, and one troop of horse: There shall be to each company of artillery one captain, two lieutenants, four sergeants, four corporals, six gunners, six bombardiers, one drummer, and one fifer. The officers to be armed with a sword or hanger, a fusée, bayonet and belt, with a cartridge box to contain twelve cartridges; and each private or matross shall furnish himself with all the equipments of a private in the infantry, until proper ordnance and field artillery is provided. There shall be to each troop of horse, one captain, two lieutenants, one cornet, four sergeants, four corporals, one saddler, one surrier, and one trumpeter. The commissioned officers to furnish themselves with good horses, of at least fourteen hands and an half high, and to be armed with a sword and pair of pistols, the holsters of which to be covered with bearskin caps. Each dragoon to furnish himself with a serviceable horse, at least fourteen hands and an half high, a good saddle, bridle, mail pillion and valise, holsters, and a breastplate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and a cartouch box to contain twelve cartridges for pistols. That each company of artillery and troop of horse shall be formed of volunteers from the brigade, at the discretion of the commander in chief of the state, not exceeding one company of each to a regiment, nor more in number than one eleventh part of the infantry, and shall be uniformly clothed in regimentals, to be furnished at their own expence; the colour and fashion to be determined by the brigadier commanding the brigade to which they belong. And be it further enacted, That each battalion and regiment shall be provided with the state and regimental colours by the field-officers, and each company with a drum and fife or bugle-horn, by the commissioned officers of the company, in such manner as the legislature of the respective states shall direct. And be it further enacted, That there shall be an adjutant-general appointed in each state, whose duty it shall be to distribute all orders from the commander in chief of the state to the several corps; to attend all public reviews, when the commander in chief of the state shall review the militia, or any part thereof; to obey all orders from him relative to carrying into execution and perfecting the system of military discipline established by this act; to furnish blank forms of different returns that may be required, and to explain the principles on which they should be made; to receive from the several officers of the different corps throughout the state, returns of the militia under their command, reporting the actual situation of their arms, accoutrements and ammunition, their delinquencies, and every other thing which relates to the general advancement of good order and discipline; all which the several officers of the divisions, brigades, regiments and battalions are hereby required to make in the usual manner, so that the said adjutant-general may be duly

THOMAS SIMLEE, Esquire, GOVERNOR. NOVEMBER. 1793.

C H A P.
I.III.

duly furnished therewith; from all which returns he shall make proper abstracts, and lay the same annually before the commander in chief of the state. And be it further enacted, That the rules of discipline approved and established by congress in the resolution of the twenty-ninth of March, one thousand seven hundred and seventy-nine, shall be the rules of discipline to be observed by the militia throughout the United States, except such deviations from the said rules as may be rendered necessary by the requisitions of this act, or by some other unavoidable circumstances. It shall be the duty of the commanding officer at every muster, whether by battalion, regiment or single company, to cause the militia to be exercised and trained agreeably to the said rules of discipline. And be it further enacted, That all commissioned officers shall take rank according to the date of their commissions; and when two of the same grade bear an equal date, then their rank to be determined by lot, to be drawn by them before the commanding officer of the brigade, regiment, battalion, company or detachment. And be it further enacted, That if any person, whether officer or soldier, belonging to the militia of any state, and called out into the service of the United States, be wounded or disabled while in actual service, he shall be taken care of and provided for at the public expence. And be it further enacted, That it shall be the duty of the brigade inspector to attend the regimental and battalion meeting of the militia composing their several brigades, during the time of their being under arms, to inspect their arms, ammunition and accoutrements, superintend their exercise and manœuvres, and introduce the system of military discipline before described throughout the brigade, agreeable to law and such orders as they shall, from time to time, receive from the commander in chief of the state; to make returns to the adjutant-general of the state, at least once in every year, of the militia of the brigade to which he belongs, reporting therein the actual situation of the arms, accoutrements and ammunition, of the several corps, and every other thing which, in his judgment, may relate to their government and the general advancement of good order and military discipline; and the adjutant-general shall make a return of all the militia of the state to the commander in chief of the said state, and a duplicate of the same to the president of the United States. And, whereas sundry corps of artillery, cavalry and infantry, now exist in several of the said states, which, by the laws, customs, or usages thereof, have not been incorporated with or subject to the general regulations of the militia, be it further enacted, That such corps retain their accustomed privileges, subject, nevertheless, to all other duties required by this act, in like manner with the other militia." Wherefore, and to carry the said act into effect,

II. BE IT ENACTED, by the General Assembly of Maryland, That fit and proper persons in each county of this state be appointed by the governor and council to make true and exact lists of the names of all able bodied white male citizens between eighteen and forty-five years of age, (except as in the before recited act and as herein after excepted,) distinguishing in the said lists the quakers, menonists and tunkers, and persons conscientiously scrupulous of bearing arms, and the apprentices and their trade, and the name of the master to whom they are apprenticed, and cause the said lists to be completed on or before the tenth day of April next, and shall return the same to the commissioners of the tax of the several and respective counties of this state, on or before the said tenth day of April next.

Persons to be appointed, &c.

III. AND BE IT ENACTED, That every person, so appointed to take the lists of names in the several counties aforesaid, shall be allowed for his trouble at the rate of two dollars and two thirds of a dollar for every hundred persons so listed, which sums shall be paid by the treasurer of the shire where they reside, and the governor and the council may, in their discretion, add to the sum to be allowed to the persons to be appointed in Allegany county, and diminish it in cases of appointments in Baltimore-town, as they may think just and necessary, so as to make the compensation equal to the service performed as nearly as may be.

Who shall be allowed, &c.

IV. AND BE IT ENACTED, That if any free male white citizen, of the age of eighteen years and under the age of forty-five years, when called on by any of the persons so to be appointed by the governor and the council, shall not give in his name to be listed, if unknown to the person requiring it, he shall forfeit and pay the sum of ten dollars for every such offence.

Penalty for not giving in names, &c.

V. AND BE IT ENACTED, That if any such person, of the age of eighteen years and upwards, when called on as aforesaid, shall not inform the person so to be appointed, that he is of the age of eighteen years and upwards, and if any such person, under the age of forty-five years, when called on as aforesaid, shall inform the person so to be appointed, that he is of the age of forty-five years or upwards, every such person, so offending, shall forfeit and pay the sum of ten dollars for every such offence.

And for not informing, &c.

&c.

VII. AND BE IT ENACTED, That as soon as may be, and within fifteen days after the aforesaid tenth day of April next, all the persons so to be appointed by the governor and council in each and every county of this state, who shall accept such appointment, shall make true and exact returns of all the free white male citizens by them respectively listed as aforesaid to the governor and council, under the penalty of forty dollars for every neglect; and the governor and council shall forthwith proceed to appoint the proper officers thereto, agreeably to the provisions of the before recited act; that thereupon each and every free white male citizen, who shall be of the age of eighteen years and under the age of forty-five years, (except as before excepted,) shall severally and respectively be enrolled in the militia by the captain or commanding officer of the company within whose bounds such citizen shall reside, under the direction of the brigadier-general of the brigade, and that on or before the twentieth day of June next; and it shall at all times hereafter be the duty of every such captain or commanding officer of a company, to enrol every such citizen as aforesaid, and also those who shall, from time to time, arrive at the age of eighteen years, or being of the age of eighteen years and under the age of forty-five years, (except as before excepted,) shall come to reside within his bounds, and shall, without delay, notify such citizen of the said enrolment, by a proper non-commissioned officer of the company, by whom such notice may be proved.

Governor, &c.
to arrange the
militia, &c.

VIII. AND BE IT ENACTED, That on or before the twentieth day of June next, the governor and council shall arrange the militia of the state into divisions, brigades, regiments, battalions and companies, and shall number each division, brigade and regiment, at the formation thereof, and a record shall be made of such numbers in the adjutant-general's office; that if the same be convenient, each brigade shall consist of four regiments, each regiment of two battalions, each battalion of five companies, each company of sixty-four privates, four sergeants, four corporals, one drummer and one fifer or bugler.

Grenadiers to
be formed, &c.

IX. AND BE IT ENACTED, That out of the militia enrolled as aforesaid, there shall be formed for each battalion at least one company of grenadiers, light infantry or riflemen; that to each division there shall be a company of artillery and one troop of horse, formed and officered according to the directions of the before recited act.

Officers to arm
themselves, &c.

X. AND BE IT ENACTED, That all commissioned officers, who shall be appointed as aforesaid by the governor and council, and who shall accept such appointment, shall, on or before the tenth day of July next, arm, accoutre and provide themselves, in the manner by the said before recited act directed, under the penalty of twenty dollars for such neglect; and each non-commissioned (a) officer and matross in the artillery, and each non-commissioned officer and dragoon in the companies of horse, shall, on or before the first day of August next, arm, accoutre and provide himself, in like manner, under the penalty of six dollars current money for such neglect.

(a) By 1798, ch. 100, the captains or commanding officers of companies are to appoint the non-commissioned officers.

Ministers ex-
empt.

XI. AND BE IT ENACTED, That all ministers of the gospel, regularly ordained or licensed by any religious society, shall be and are hereby exempted from militia duty.

Officers to take
an oath.

XII. AND BE IT ENACTED, That each and every officer, appointed and commissioned by virtue of this act, shall, previous to their entering on the execution of their respective offices, take the following oath, or affirmation: "I, ———, do swear, or affirm, (as the case may be,) that I will be true and faithful to the state of Maryland."

Colours, &c. to
be provided,
&c.

XIII. AND BE IT ENACTED, That the state and regimental colours shall be provided by the field-officers, and the drums and fifes, or bugle-horns, by the commissioned officers of companies, who shall contribute to the same in proportion to the pay they would respectively be entitled to receive if now called into actual service; and if the said colours, drums, fifes or bugle-horns, shall not be provided on or before the first day of August next, in the manner herein directed, every officer who shall have neglected to contribute his proportion shall forfeit and pay one third of a month's pay to which such officers respectively are entitled when called into actual service.

XIV. AND

THOMAS SIM LEB, ESQUIRE, GOVERNOR. NOVEMBER. 1793.

XIV. AND BE IT ENACTED, That the whole of the militia, so enrolled as aforesaid, shall, after the first day of June next, be exercised under their respective officers, as followeth; that is to say, in companies on some day in August and November, and in battalion on some day in October, after the tenth day thereof; and after the year seventeen hundred and ninety-four, the said militia shall be exercised as aforesaid, in companies on some day in the months of April and November, in battalion on some day in August, and in regiment on some day in October, after the tenth day thereof; that the captains (a) of companies shall appoint the days and places of meeting in companies, the majors (b) shall appoint the days and places of meeting in battalion, and the lieutenant-colonels shall appoint the days and places of meeting in regiment; on each of which days every militia-man so enrolled shall duly attend with his arms and accoutrements in good order, (c) and the captain or commanding officer of each company is required to appoint a fit and proper person, who shall, at the end of one hour after the time appointed for the meeting of the company, battalion or regiment, call over the muster-roll of the company, noting those who are absent, and on that day shall make return in writing to the captain or commanding officer then present, of such absentees; and all the persons so absent at the time of calling over the roll, or who shall depart from the parade before duly discharged, shall be liable to the fines hereafter mentioned.

CHAP. LIII. Militia to be exercised, &c.

(a) By 1798, ch. 100, the captains, &c. are to give notice of every muster day to the non-commissioned officers, who are to give notice to the privates.

(b) By 1798, ch. 100, the brigadier-general is to appoint the days of meeting of each regiment, battalion and extra battalion.

(c) By 1798, ch. 100, non-commissioned officers or privates, who have muskets or guns, and appear without them, are subject to be fined.

XV. AND BE IT ENACTED, That if any commissioned officer shall refuse or neglect to attend on any of the days which shall be appointed for exercise, accoutred and equipped as aforesaid, (unless prevented by sickness, or some other unavoidable accident,) such commissioned officer shall forfeit and pay a sum not exceeding six dollars per day; (d) and any non-commissioned officer or matros in the artillery, and any non-commissioned officer or dragoon, who shall so refuse or neglect to attend on any of the said days, armed and accoutred as aforesaid, (except as before excepted,) shall forfeit a sum not exceeding two thirds of a dollar per day; and all other non-commissioned officers and privates, who shall so refuse or neglect to attend, armed and accoutred as herein before directed, (except as before excepted,) shall forfeit and pay one cent per day, unless excused for appearing without arms and accoutrements by the commanding officer of their respective companies for the day; and if they shall not attend on the several days of meeting, to be appointed as aforesaid, each and every person so neglecting shall forfeit and pay half a dollar per day, unless prevented by sickness, or other unavoidable accident; the names and surnames of all which persons, so incurring the said fines and penalties, (except such as may have paid the same into the hands of the captain or commanding officer of the company,) shall be duly and forthwith returned by the captain or commanding officer of each company, under his hand, together with such fines as he has received, to the lieutenant-colonel of the regiment to which he shall belong, who shall, immediately after the said returns are made to him, cause the same to be respectively recovered before some justice of the peace living near the place where the delinquents respectively reside, as in the case of small debts; and the said lieutenant-colonel shall, twice in every year, account with the treasurer of his shire for all monies so received, and pay the same over to such treasurer, to be subject to the future application of the general assembly.

Penalty on officers, &c. for not attending, &c.

(d) By 1798, ch. 100, officers, non-commissioned officers and privates, may be fined for non-attendance by courts martial, as therein directed.

XVI. AND BE IT ENACTED, That a duplicate of all returns made to the lieutenant-colonels as aforesaid, and an account of all money paid to them, shall be annually lodged by the respective persons making such returns or payments with the treasurer of their respective shires.

A duplicate to be lodged, &c.

XVII. AND, whereas the remote and detached situation of that part of the militia of Queen-Anne's county who reside on Kent Island, renders it impracticable for them to meet in battalion or regiment off the said island; therefore, BE IT ENACTED, That the militia residing on Kent island shall not be compelled to meet in battalion or regiment, but that the companies composed of the militia on said island shall nevertheless be subject to be called together to exercise twice a year on said island exclusive of company meetings, at such times and at such place as the commanding officer of the battalion to which they belong shall direct, and shall be subject to the same fines for not appearing at said meetings as others are for not meeting in battalion or regiment, any thing in this act to the contrary notwithstanding.

Militia on K. Island not compelled to meet, &c.

LII 2

XVIII. AND

1793. NOVEMBER. LAWS OF MARYLAND.

CHAPTER
LIII.
Quakers, &c.
excused, &c.

XVIII. AND BE IT ENACTED, That all those persons called Quakers, Menonists and Tunkers, and all other persons conscientiously scrupulous of bearing arms, shall be excused from militia duty, (except when called into actual service,) on the payment of two dollars each on the first day of September annually, to the lieutenant-colonel of the regiment to which they shall respectively belong; which said sums shall be collected in manner aforesaid, and be accounted for annually, on or before the first day of December, and paid to the treasurer of the eastern and western shores respectively, subject to the future disposition of the general assembly.

This section is repealed by 1778, ch. 100, which provides that such persons so refusing shall pay three dollars annually.

Masters, &c.
accountable,
&c.

XIX. AND BE IT ENACTED, That the master or mistress of any apprentice, and the father, or mother or guardian of any minor, not a matross or dragoon, who shall refuse or neglect to attend as aforesaid, being in the service of his father, or mother or guardian, master or mistress, shall be accountable for the fine or fines so incurred by such minor or apprentice.

Any person
draughted may
find a substitute,
&c.

XX. AND BE IT ENACTED, That when any part or parts of the militia shall be draughted, or called out of the state into actual service, every person enrolled as aforesaid, who is not a commissioned officer, shall have it in his choice, either to serve in person, or to find a sufficient person for a substitute, which said substitute shall be approved of by the lieutenant-colonel, or commanding officer of the battalion to which he shall belong; but if any person, not being disabled by sickness, shall neglect or refuse to serve, or find such sufficient substitute in his place within ten days after notice given to him, the lieutenant-colonel, or commanding officer of the battalion to which such delinquent belongs, shall, and he is hereby required to provide, hire or procure, on as reasonable terms as may be, a substitute for such person so refusing or neglecting, and to charge such sum or sums, together with reasonable expences for procuring the same, to such delinquent, to be recovered by distress, and sale of his goods and chattels, lands or tenements, by warrant under the hands and seals of any two justices of the peace of the county where such person resides; and in all cases where it shall be necessary to recover any fine or forfeiture, or other money wherewith any person or persons may become chargeable under and by virtue of this act, by distress and sale, or execution, of the property of such person or persons, it is hereby declared to be the duty of the sheriff, or person executing for the same, to take such property as shall be offered or shewn to such sheriff, or person executing, amounting to such debt and cost, and if no property shall be shewn or offered, such sheriff, or person executing, shall not take in execution any negro, or other valuable property, to satisfy a small or trifling fine or sum, if property of small value can be found, but he shall take such property, if any such can be found, as will pay the sum due, with the cost of levying the same, and no more, as nearly as may be; and any person offending herein shall forfeit and pay treble the sum so levied, to be recovered by the party grieved by indictment or action of debt in the county where the offence shall happen; provided, that no lieutenant-colonel, or commanding officer of a battalion, shall be obliged to provide a substitute for any delinquent, unless he is of opinion that such delinquent has sufficient property to pay the expences of procuring a substitute; and if such lieutenant-colonel or commanding officer shall be of opinion, that any delinquent has not sufficient property to pay the expences of procuring a substitute, he shall make application to a justice of the peace of the county where such delinquent resides, who, upon such application, shall issue his warrant to the sheriff of the county to arrest the delinquent, and imprison him in the common gaol, there to remain for a certain time, to be specified in the warrant, not exceeding twenty days, and the sheriff shall be obliged to keep such delinquent in the common gaol, agreeable to the command of the said warrant, unless he shall agree to serve, or find a sufficient substitute in his place; provided also, that no militia-man, having personally or by substitute served in the militia, shall be obliged to serve again until by rotation it comes to his turn.

Persons ag-
grieved may
appeal, &c.

XXI. AND BE IT ENACTED, That if any person or persons shall think him, her or themselves aggrieved in the seizure of his, her or their goods and chattels, lands or tenements, or by the executing his, her or their person or persons, he, she or they, may enter an appeal before the justices of the next county court, and on the party's giving sufficient security within six days next after any goods or chattels, lands or tenements, shall be seized or distrained as aforesaid, or his, her or their person or persons executed as aforesaid, to prosecute such appeal with effect, the justices shall receive the same, and stay further process; and the said justices shall return every such appeal on the second day of the next term, and the court shall direct a trial by jury of the county, as in other cases of debt, whose verdict shall be final and conclusive, and, except in extraordinary cases, of which the court shall be judge, all such appeals shall be tried at the term to which such returns shall be made, any law, custom or usage, to the contrary notwithstanding.

XXII. AND

THOMAS SIM LEE, ESQUIRE, GOVERNOR. NOVEMBER: 1793.

XXII. AND BE IT ENACTED, That no militia-man shall leave the company to which he belongs, and join any other, under the penalty of ten dollars, unless by consent of the captain, or commanding officer of the company, or in case of removing to some other district within this or any other state, and in such case he shall apply to the commander of such company, who shall give him a certificate of his being discharged, under the penalty of ten dollars, and if the said militia-man had been in actual service, shall also certify the time thereof, and how long he had continued therein, under the like penalty.

C H A P. LIII. No militia-man to leave his company, &c.

XXIII. AND BE IT ENACTED, That no person, serving as a substitute for another, shall thereby be excused from serving in his turn.

Substitutes not excused, &c.

XXIV. AND BE IT ENACTED, That no officer or private of the militia shall be subject to any arrest, either on mesne process or execution, or in any other manner, for any civil matter, in his attendance at, going to, or returning from, muster.

Officers, &c. not subject to arrest, &c.

XXV. AND BE IT ENACTED, That if any suit or suits shall be brought or commenced against any person or persons for any thing done in pursuance of this act, the action shall be laid in the county where the cause or causes of such action did arise, and not elsewhere, and the defendant or defendants may plead the general issue, and give this act and the special matter in evidence; and if the jury shall find for the defendant or defendants in such action or actions, or if the plaintiff or plaintiffs shall be nonsuited, or discontinue his or their action or actions, after the defendant or defendants shall have appeared, or if upon demurrer judgment shall be given against the plaintiff or plaintiffs, the defendant or defendants shall have treble costs, and have the like remedy for the same as any defendant or defendants hath or have in other cases to recover costs by law.

Action to be laid in the county, &c.

XXVI. AND, whereas sundry companies of artillery, cavalry and infantry, now exist, or may exist, in the town of Baltimore, previous to the twentieth day of May next, BE IT ENACTED, That all such companies now formed, or that may be formed previous to the said twentieth day of May next, shall be and are hereby continued and confirmed, subject nevertheless to all duties, fines and penalties, to which the rest of the militia are subjected by this act; provided, that the governor, with the advice and consent of the council, shall have the appointment and commissioning of the officers of the said companies.

Companies continued, &c.

XXVII. AND BE IT ENACTED, That this act shall continue and be in force for and during the continuance of the before recited act of congress.

Duration.

The act of congress is not limited in its duration.

C H A P. LIV.

An ACT to open and lay out roads from Denton, the seat of justice in Caroline county, to different parts of said county, and the same, when opened and laid out, to be the public roads of said county. Lib. JG. No. 2. fol. 67.

Passed 28th of Dec. 1793.

WHEREAS the inhabitants of Caroline county experience considerable inconvenience for the want of public roads leading from Denton, their seat of justice, to different parts of said county, and as it is right and proper they should have the same for their ease and convenience; therefore,

Preamble.

II. BE IT ENACTED, by the General Assembly of Maryland, That Henry Downes, Joseph Richardson, Christopher Driver, William Robinson and Robert Hardcastle, be and they are hereby appointed commissioners to open and lay out the following roads in Caroline county aforesaid, to wit: A road from the west side of Choptank river, opposite to Denton, to intersect the road from Tuckahoe Bridge to Price's Landing; another road from the west side of Choptank river, opposite to Denton, to Tuckahoe Bridge; another road from the west side of Choptank river, opposite to Denton, to intersect the road from Greensborough to Tuckahoe Bridge at or near the Deep Branches; a road from Denton, down Choptank river, to intersect the road leading from Greensborough to Dover ferry between Rhodes's plantation and the mill commonly called and known by the name of Potter's Mill; another road from Denton to intersect the road from Greensborough to Dover ferry between the Old Chapel and the Three Bridges; and one other road from Denton, up Choptank river, to intersect the road from Greensborough to Dover ferry at or near Matthew Driver's saw mill; and the said commissioners,

Commissioners appointed, &c.

In the Year of our LORD, 1793.

Militia.

289

Acts and Laws,

Passed by the GENERAL COURT of
Massachusetts :

Begun and held at BOSTON, in the County of SUFFOLK, on Wednesday the Twenty-ninth Day of MAY, ANNO DOMINI, 1793.

C H A P. I.

An Act for regulating and governing the Militia of the Commonwealth of Massachusetts, and for repealing all Laws heretofore made for that Purpose ; excepting an Act, intituled " An Act for establishing Rules and Articles for governing the Troops stationed in Forts and Garrisons, within this Commonwealth, and also the Militia, when called into actual Service."

WHEREAS the Laws for regulating and governing the Militia of this Commonwealth, have become too complicated for practical use, by reason of the several alterations which have from time to time been made therein : Preamble.

Therefore,
I. BE it enacted by the SENATE and HOUSE of REPRESENTATIVES in General Court assembled, and by the authority of the same, That the several Laws heretofore made for governing and regulating Laws repealed.

In the Year of our LORD, 1793.

290

Militia.

regulating the Militia, be, and hereby are repealed, except an Act, intituled "An Act for establishing Rules and Articles for governing the Troops stationed in Forts and Garrisons within this Commonwealth, and also the Militia when called into actual service."

Proviso.

Provided nevertheless, That all officers actually in commission, agreeably to the laws which are hereby repealed, and in grades which are established by this Act, shall continue in commission in the same manner, and in the same authority they would, in case the said laws were still in force; and all actions depending in any Court by force of said laws, shall, and may be prosecuted to final judgment and execution.

Persons to be enrolled in the Militia.

II. *And be it enacted by the authority aforesaid,* That each and every free, able-bodied white male citizen, of this, or any other of the United States, residing within this Commonwealth, who is, or shall be of the age of eighteen years, and under the age of forty-five years (except as is herein after excepted) shall severally and respectively be subject to the requisitions of this Act, and shall be enrolled in the Militia, by the Captain or Commanding Officer of the company, within whose bounds such citizens shall reside, within three months from and after the passing this Act: And it shall be at all times hereafter the duty of the Commanding Officer of every such company; to enroll every such citizen as aforesaid; and also those, who shall from time to time arrive at the age of eighteen years, or being of the age of eighteen years, and under the age of forty-five years, and not herein after excepted, shall come to reside within his bounds; and shall without delay notify such citizen of the enrollment, by a non-commissioned officer or other person, duly authorized for that purpose, by whom such notice may be proved; and in all cases of doubt respecting the age of any person enrolled, or intended to be enrolled, the party questioned, shall prove his age to the satisfaction of the Commanding Officer of the company within whose bounds he may reside.

To be notified.

Persons exempt from training.

III. *And be it further enacted by the authority aforesaid,* That the Vice-President of the United States; Members of Congress, of both Houses, with their respective Officers; Lieutenant-Governor; Members of the Council, Senate and House of Representatives, with their Officers; Secretary and Treasurer of the Commonwealth; Officers, Judicial and Executive, of the Government of the United States; Justices of the Supreme Judicial Court; Justices of the Courts of Common Pleas; Judges of Probate; Registers of Probate; County Registers; Justices of the Peace; Sheriffs; Deputy-Sheriffs; Coroners; Constables; Selectmen; Ministers of the Gospel; Elders and Deacons of Churches; Church Wardens, and those of the religious denominations of Quakers and Shakers; Masters of Arts; Officers and Students at any College; also such Physicians, Surgeons, stated School-Masters, Ferry-men and Millers, as the Selectmen of the towns to which they shall severally belong, shall by a writing under their hands, signify the expediency of

In the Year of our LORD, 1793.

Militia.

291

of exempting; persons who have by commission under any government or Congress, or by election in pursuance of the orders of any Congress of the United States, or either of them, held the office of a Subaltern or office of higher rank; and all Mariners actually employed in any sea-service of any citizen within the United States, in any vessel of more than thirty tons burthen; Custom-House-Officers; all Post-Officers, Stage-Drivers, actually employed in the care and conveyance of the Mail; and such persons as did attain to the age of forty years before the eighth day of May, one thousand seven hundred and ninety-three; and also all such Manufacturers as are by any special law of the Commonwealth now exempted, shall be, and hereby are exempted from the said enrollment.

IV. *And be it further enacted by the authority aforesaid,* That the Governor, by and with the advice of the Council, be, and hereby is authorized and empowered to form and arrange the Militia into divisions, brigades, regiments and companies; and from time to time to make such alterations therein as shall be necessary; and if the same be convenient, each brigade shall consist of four regiments, each regiment of ten companies, and each company of sixty-four effective privates: *Provided notwithstanding,* That the present arrangement of the Militia shall continue as it now is, until the Governor, with the advice of Council, shall otherwise order; and each new division, brigade and regiment shall be numbered at the formation thereof, and a record made of such number in the Adjutant-General's office, and when in the field or in service, each division, brigade and regiment shall respectively take rank according to its number.

V. *And be it further enacted by the authority aforesaid,* That the Militia shall be officered, as follows: To each division, one Major-General and two Aids-de-Camp, with the rank of Major: To each brigade, one Brigadier-General, with one Brigade-Inspector, to serve also as Brigade-Major, with the rank of Major: To each regiment, one Colonel, one Lieutenant-Colonel, one Major. *Provided nevertheless,* where any vacancy of Colonel now is, or shall hereafter happen, then the field-officers of each regiment to consist of a Lieutenant-Colonel-Commandant, and two Majors: To each company of infantry, one Captain, one Lieutenant, and one Ensign, four Serjeants, four Corporals, one Drummer, one Fifer or Bugler: That there shall be a Regimental Staff, to consist of one Adjutant, one Quarter-Master, to rank as Lieutenants, one Surgeon, and one Surgeon's Mate, to be appointed by the Commanding-Officer of the regiment, and commissioned by the Governor, one Serjeant-Major one Quarter-Master-Serjeant, one Drum-Major, and one Fife-Major: That each company of artillery shall consist of one Captain, two Lieutenants, four Serjeants, four Corporals, six Gunners, six Bombadiers, one Drummer, one Fifer, and

In the Year of our LORD, 1793.

292

Militia.

and thirty-two Privates or Matrosses : And each troop of cavalry shall consist of one Captain, two Lieutenants, and one Cornet, four Serjeants, four Corporals, one Saddler, one Farrier, one Trumpeter, and thirty-two Privates : And there shall be one Adjutant-General and one Quarter-Master-General for the whole Militia, to be appointed by the Governor.

Major-General empowered in election of Officers.

Provido.

VI. *And be it further enacted by the authority aforesaid,* That each and every Major-General be, and hereby is empowered, and it shall be his duty, to give all such orders, as shall from time to time be necessary, consistent with the law for electing Brigadier-Generals, Field-Officers, Captains and Subalterns, in brigades, regiments and companies, within his respective division, which have not been already commissioned, and for filling up vacancies of such officers or any of them, where they now are or may hereafter happen. *Provided always,* That whenever a time shall be appointed for the election of any Officer or Officers, the electors shall have ten days notice thereof, at least ; and all returns of elections, and neglects, or refusals to make choice of Officers, shall be made to the Governor by the Major-General, in whose division the election shall be ordered ; and all commissions shall pass through the hands of the Major-Generals to the officers in their respective divisions, for whom they shall be made out ; and every person who shall be elected to any office in the said Militia, and shall not within ten days after he shall have been notified of his election, (excepting a Major-General, who shall be allowed thirty days after he shall be notified by the Secretary of the Commonwealth) signify his acceptance thereof, shall be considered as declining to serve in such office ; and orders shall be forthwith issued for a new choice.

All Officers to subscribe the oath.

VII. *And be it further enacted by the authority aforesaid,* That every person who shall be lawfully intitled to be commissioned to any office in the Militia of this Commonwealth, shall at the time of receiving his commission, take and subscribe the oaths and declaration required by the Constitution, before some Justice of the Peace, or some General or Field-Officer, who shall have previously taken and subscribed them himself, and who are hereby authorized to administer the same ; and a certificate thereof shall be made on the back of every commission, by the Justice of the Peace, or General or Field-Officer, before whom the said oaths and declaration shall have been taken and subscribed.

Non-commissioned Officers by whom appointed.

VIII. *And be it further enacted by the authority aforesaid,* That the Commanding Officer of regiments, shall appoint the non-commissioned Staff-Officers of their respective regiments : The Commanding Officers of Companies shall appoint the non-commissioned Officers, including the Clerks, of the respective companies : All non-commissioned Staff-Officers and Sergeants shall receive warrants under the hand of the Commanding Officer of their respective regiments or corps :—And the Adjutant shall keep a record in a suitable

In the Year of our LORD, 1793.

Militia.

293

able book, to be kept for that purpose, of all warrants which shall be issued:—And no non-commissioned Officer shall be deemed to have resigned his office, until he shall have done it in writing to the Commanding Officer of the regiment or corps to which he belonged; and shall have obtained his discharge also in writing, from such Commanding Officer:—And no non-commissioned Officer or Private, shall be disenrolled from the Militia for disability, without a certificate from the regimental Surgeon and Mate

IX. *And be it further enacted by the authority aforesaid,* That every company shall have a Clerk, who shall be also one of the Sergeants, and he shall be sworn to the faithful discharge of his trust; and it shall be his duty always to keep a fair and exact roll of the company, together with the state of the arms and equipments belonging to each man, which roll he shall annually revise and correct in the month of *May*, as is herein after directed; to register all orders and proceedings of the company in an orderly book, which shall never be alienated from the company; to keep exact details of all detachments; to call the roll whenever the company is assembled; to examine the equipments when thereto required, and to note all delinquencies; to sue for, recover and receive all fines and forfeitures which are required by this Act to be recovered, one half to his own use for his trouble, and the other half to be paid to the Commanding Officer of the company, in trust, for the use of the company to which he belongs, excepting such cases wherein other provision is made by this Act, for the recovery and appropriation of fines and forfeitures.

Provided nevertheless, That all commissioned Officers now in command in the Militia, in any grade not established by this Act, shall be continued in their command; and the Clerks of companies, now in office, shall be continued in such office.

X. *And be it further enacted by the authority aforesaid,* That whenever a company shall have neither commissioned Officers nor non-commissioned Officers, the Commanding Officer of the regiment or battalion to which such company belongs, shall appoint suitable persons within said company to be non-commissioned Officers and Clerk of the same; and such non-commissioned Officers and Clerk, so appointed, shall be authorized in the same manner, and have the same power, and authority, as if they had been appointed by a Captain duly qualified to command said company.

XI. *And be it further enacted by the authority aforesaid,* That no Officer of the Militia shall be discharged excepting by the Commander in Chief, on the request of such Officer, in writing, or by the Commander in Chief on the address of both Houses of the Legislature; or by being disbanded by a law of the Commonwealth, or by a judgment of a Court-Martial, or by actual removal, (the Major-General to be judge whether the distance is so great that he cannot conveniently discharge the duties of his office) or by twelve

B

months

294

Militia.

months absence, without leave of such Officer, from the district of his command : And no Officer shall consider himself exempted from the duties of his station, until he shall have been discharged in one or other of the methods aforesaid : And if by the Commander in Chief, not until he shall have received a certificate of such discharge : No Officer shall be allowed to resign his commission when under arrest ; and no General or Field-Officer shall approve the resignation of any other Officer, until such Officer shall have lodged in his hands all such Militia laws and orderly books as he shall have been furnished with by the Government ; and such General or Field-Officer shall deliver the laws and orderly books which he shall thus have received, to the next succeeding Officer who shall be commissioned in the place of him who shall have resigned.

Cavalry organized.

Proviso's.

Officers and men to furnish themselves complete with horses and every other equipment.

XII. *And be it further enacted by the authority aforesaid,* That the Governor, with the advice of Council, be and hereby is authorized to complete the cavalry in each brigade of the Militia, to two full companies or troops ; and the cavalry in each brigade, when completed, shall be formed into battalions or squadrons ; in those brigades where there are or may be two or three troops, they shall form squadrons, and each squadron shall be commanded by a Major ; in those brigades where there are already more than three troops, they shall form battalions, and each battalion shall be entitled to a Lieutenant-Colonel, Major, Adjutant and Quarter-Master : *Provided always,* That in those brigades where there are already two troops raised, they shall not be augmented ; and in those brigades where there are already more than two troops, they shall not be reduced. *Provided also,* That the companies of cavalry which are by any former Act, annexed to any regiment, shall continue to be so attached to such regiment in which it is raised. The Officers of cavalry shall furnish themselves with good horses, at least fourteen hands and a half high ; and shall be armed with a pair of pistols, and a good sword, the holsters of which shall be covered with bearskin caps : Each horseman shall furnish himself with a serviceable horse, of at least fourteen hands and a half high ; a good saddle, bridle, mail pillion and valise ; holsters, a breastplate, and crupper ; a pair of boots and spurs, a pair of pistols ; a sabre, and cartridge-box, to contain twelve cartridges for pistols. No man shall be enlisted into any troop of cavalry, unless he shall own and constantly keep a suitable horse, and furniture, for that service ; and if any man who shall belong to any troop of cavalry, shall be destitute of a suitable horse and furniture, for more than three months at one time, he shall be discharged from such corps, and enrolled in the standing company in which he resides. And whenever any draft or detachment shall be made from a troop of cavalry, for actual service, the men thus drafted or detached, shall march with their own horses ; and before they march, the horses shall

shall be appraised, by three indifferent men, to be appointed by the Brigadier of the brigade, from which such detachment shall be made.

XIII. *And be it further enacted by the authority aforesaid,* That the Governor with the advice of Council, be, and hereby is authorized to compleat the artillery in each brigade of the Militia, ^{Artillery organized.} to two full companies; and when thus compleated, shall form a battalion in each brigade, and be entitled to a Major, Adjutant and Quarter-Master: *Provided nevertheless,* That in those brigades, ^{Provide.} where there are already two companies raised, they shall not be augmented; and in those brigades where there are already more than two companies, they shall not be reduced. And each company of artillery, shall be provided with two good field-pieces, with ^{to be provided with compleat apparatus.} carriages and apparatus compleat; an ammunition cart; forty round shot, and forty rounds of cannister shot.—The Governor shall order to be issued to each company of artillery, annually, a quantity of powder, not exceeding one hundred pounds, which shall be expended on general muster days, and in experimental gunnery. And the Quarter-Master-General shall provide for, and supply the artillery companies with all the carriages, tumbrils, ^{Quarter-Master to furnish.} harness apparatus, implements, laboratory and ordnance stores, which may, from time to time be necessary for their equipment. The Officers of artillery shall be armed with a sword or hanger; a fusée, bayonet and belt, with a cartridge-box to contain twelve cartridges: And each non-commissioned Officer and Private or Matros, of those companies which are unprovided with field-pieces, shall furnish himself with all the equipments of a Private ^{Commanding Officer to be accountable.} in the infantry, until proper ordnance and field artillery is provided. And the Commanding Officer of each company of artillery, shall be accountable for the careful preservation of the pieces and apparatus, and the proper expenditure of the ammunition supplied by government. Each company of artillery, and troop of cavalry, shall be formed of volunteers from the brigade; and ^{Artillery and cavalry to be furnished of volunteers.} together, they shall not exceed in number one eleventh part of the infantry of such brigade; and they shall be uniformly clothed in regimentals, to be furnished at their own expence.

XIV. *And be it further enacted by the authority aforesaid,* That at all regimental musters, the companies commanded by the two eldest Captains, shall act as light-infantry companies, ^{Light-Infantry companies.} except where light-infantry companies have already been raised by voluntary enlistment, and one or more shall be attached to such regiment.

XV. *And be it further enacted by the authority aforesaid,* That if any non-commissioned Officer or Private of cavalry, artillery, light-infantry, or other corps raised at large, shall neglect ^{Penalty.} for the term of three months, to keep himself provided with an uniform of the company to which he belongs, as is directed by this

to be deemed disbanded in case.
not to consist of a greater number than legal.

this Act, he shall be discharged from such corps, by the Brigadier commanding the brigade, and enrolled in the standing company in which he resides. And no company of cavalry, artillery, light-infantry, or other corps which it may be lawful to raise at large, shall be raised within this Commonwealth, when any of the standing companies shall be reduced thereby, to a less number than sixty-four effective Privates; and no Officer of any such corps, shall enlist any men belonging to a standing company, for the purpose of forming or recruiting such corps raised at large, when by means thereof, such standing company would be reduced to a less number than sixty-four effective Privates. And if any such corps, raised at large, shall at any time be destitute of commissioned Officers, and shall neglect to fill up such vacancies, for one whole year after being ordered to elect them, or if any such corps shall be reduced under twenty privates, and remain in that situation for one whole year without doing duty as the law directs; then in either case as aforesaid, such corps raised at large shall be deemed disbanded, and the men which belonged to such delinquent corps, shall be enrolled in the standing company in which the individuals thereof shall respectively reside: And no such corps raised at large, shall at any time bear a greater number of men on their rolls, than the law allows necessary to constitute them; and the Commanding Officer of every such corps shall annually, in the month of *April*, make out a list of all the men's names belonging to his corps, and deliver the same to the Commanding Officer of the regiment or battalion, in whose district such corps is or may be raised; and all such corps raised at large, not annexed to any particular regiment, shall be subject to the orders of the Commanding Officer of the brigade in which they shall respectively be raised, and shall make their elections and returns in the same manner as other corps of the Militia.

Ancient and Honorable Artillery Company

And whereas the military company in *Boston*, commonly called the "*Ancient and Honorable Artillery Company*," being by ancient charter, custom and usage, exempted from the general regulations of the Militia: Therefore,

to retain privileges.

XVI. Be it further enacted by the authority aforesaid, That the said company, called the "Ancient and Honorable Artillery Company," shall retain its accustomed privileges, not being incompatible with the Constitution, but shall be subject to all other duties required by this Act, in like manner as other companies of Militia.

Officers, how to be armed and uniformed.

XVII. And be it further enacted by the authority aforesaid, That every commissioned Officer of infantry, whose duty shall require him to serve on foot, shall be armed with a sword and an es-ponton; and every Officer whose duty requires him to be mounted, shall be armed with a sword and pair of pistols: And the uniform in every instance required by this Act, shall be a dark blue cloth coat, of such fashion, and with such facings, and under-clothes, as the Major-Generals or Brigadiers shall direct within their several commands.

And

Militia.

Rank and duty
of Adj. General.

XXVI. *And be it further enacted by the authority aforesaid,* That the Adjutant-General shall be commissioned with the rank of Brigadier-General; and it shall be his duty to distribute all orders from the Commander in Chief of the Militia, to the several corps; to attend all public reviews when the Commander in Chief shall review the Militia, or any part thereof; to obey all orders from him relative to carrying into execution and perfecting the system of Military Discipline, established by this Act; to superintend the annual inspection of the Militia; to furnish blank forms of the different returns that may be required, and to explain the principles on which they should be made; to keep such rosters and records as are proper to be kept in his office; to receive from the several Officers of the different corps throughout the State, returns of the Militia under their command, reporting the actual situation of their corps, their arms, ammunition and accoutrements, their delinquencies, and every other thing which relates to the general advancement of good order and discipline: All which the several Officers of the divisions, brigades, regiments, battalions and companies are hereby required to make in the usual manner, or as the Commander in Chief shall direct, so that the Adjutant-General may be duly furnished therewith: From all which returns, he shall make proper abstracts, and a general return of the whole Militia of the Commonwealth, and lay the same before the Governor or Commander in Chief and to forward a duplicate thereof to the President of the United States.

Duty of Brigade
Inspector.

XXVII. *And be it further enacted by the authority aforesaid,* That it shall be the duty of the Brigade-Inspector to attend the regimental and battalion meetings of the Militia, composing the several brigades, to which they belong, during the time of their being under arms; to inspect their arms and equipments; to superintend their exercise and manœuvres, and introduce the system of discipline, established by this Act; to obey all orders they may from time to time receive from the Commander in Chief, or others, their superior Officers; to make returns to the Adjutant-General, at least, once in a year, and at such other times as shall be required, of the Militia of the brigades to which they severally belong, reporting therein the actual situation of the corps, their arms, ammunition and accoutrements, and every other thing which they may be required to report; or which in their judgment may relate to their government, and the general advancement of good order and military discipline.

Rules and regu-
lations of disci-
pline for the
Militia.

XXVIII. *And be it further enacted by the authority aforesaid,* That the rules of discipline approved and established by Congress, in the resolutions of the twenty-ninth day of *March*, one thousand seven hundred and seventy-nine, shall be the rules and regulations of discipline, to be observed by the Militia of this Commonwealth, except such deviations from said rules, as may be necessary by the requisitions

In the Year of our LORD, 1793.

Militia.

303

requisitions of this Act, or some other unavoidable circumstances ; and every Officer receiving a commission in the Militia, shall immediately provide himself with a book containing those rules.

XXIX. *And be it further enacted by the authority aforesaid,* That every regiment of Militia of this Commonwealth, shall be assembled in regiment, once in two years, for review, inspection and discipline, on such days as the Commanding Officers of the several divisions or brigades shall order ; (the Commanding Officers of regiments to point out the place.) And the Militia of every town shall be assembled together once in two years, (the year it is not mustered in regiment) at such time and place as the Commanding Officer shall order, and shall be instructed and disciplined under the direction of a Field-Officer. *Provided nevertbeles,* in new settlements, where the dispersed situation of a regiment may oblige men to march twenty miles or more, to the place of parade, it shall be at the discretion of the Commanding Officer of the regiment, to muster the Militia in such settlements, either by regiment, by towns, or other convenient bodies. And every non-commissioned Officer and Private shall come to the place of parade, with necessary refreshment for said day, at his own expence. The cavalry and artillery, and other corps raised at large, shall also be reviewed and inspected, once in every year, either with the regiments and battalions, or by themselves, as the Major-Generals, or the Brigadiers shall order, and at such times and places as they shall direct. And each Commanding Officer of a Corps, when on duty, shall have full power and authority, to ascertain and fix certain necessary limits and bounds, to their respective parades, (no road in which people usually travel, to be included) within which no spectator shall have right to enter without liberty from said Commanding Officer ; and in case any person shall so intrude within the lines of the parade, after being once forbidden, he shall be subject to be confined under guard, during the time of exercise, at the discretion of the Commanding Officer. And whenever different corps shall be assembled together, the senior Officer present, shall command without any regard to corps whatever. And all Officers when on duty, shall take rank according to the dates of their commissions ; and when two of the same grade bear an equal date, and former pretensions of some commission do not decide, then their rank shall be determined by lot, to be drawn by them, before the Commanding Officer present ; and when on Court-Martial before the President thereof.

tered to the Judge
Advocate.

ficer shall be tried by any person under the degree of a Captain ; and all Officers shall take rank by seniority of commission, without regard to corps : And the Officer who shall appoint a Court-Martial, shall at the same time appoint a suitable person for a Judge-Advocate, whose duty it shall be impartially to state the evidence, both for and against the Officer under trial ; to take accurate minutes of the evidence, and all the proceedings of the Court ; all of which he shall transmit, with the judgment of the Court thereon, under seal, to the Officer whose duty it is to approve or disapprove of such judgment. Every Officer to be tried shall have ten days notice given him of the time and place appointed for trial : And every Officer to be tried shall be put in arrest, so as to be suspended from the exercise of his office, and shall have a copy of the charges exhibited against him ten days before the sitting of said Court ; and in case any Officer, for the trial of whom a Court-Martial shall be appointed, shall neglect to appear and make defence, he shall be deemed by said Court guilty of the charge, and shall be sentenced accordingly: In every Court-Martial held for the trial of an Officer, not less than two-thirds of the members must agree in the sentence or judgment of said Court, otherwise the person charged shall be acquitted : All proceedings and trials by Court-Martial shall be carried on in the day time ; and when the members shall be required to give their votes on a question or decision, they shall begin with the youngest in commission, first : All persons shall be holden to appear and give evidence before any Court-Martial, under the same penalties for neglect, as are by law provided for witnesses in other cases, when thereunto summoned by a Justice of the Peace for such service : And all witnesses shall be sworn by the Judge-Advocate before they give their evidence to the Court. Before any Court-Martial shall proceed to the trial of any Officer, the Judge-Advocate shall administer to the President and each of the members, the following oath, viz.

YOU A. B. do swear, that you will well and truly try the cause now before you between this Commonwealth, and the person to be tried ; and you do further swear that you will not divulge the sentence of this Court-Martial, until it shall be approved or disapproved of ; and that you will not on any account, at any time whatever, discover the vote or opinion of any member, unless required to give evidence thereof, as a witness by a Court of justice, in a due course of law.
So help you GOD !

And the President shall administer to the Judge-Advocate the following oath, viz.

YOU A. B. do swear, that you will not, on any account, at any time whatever, divulge the vote or opinion of any member of this Court-Martial, unless required to give evidence thereof, as a witness ; by a Court of justice, in a due course of law.

So help you GOD !

And

In the Year of our LORD, 1793.

Militia.

307

XXXVI. *And be it further enacted by the authority aforesaid,*
That every Officer holding a commission in the Militia, who shall be accused of any unmilitary conduct, neglect of duty or disobedience of orders; or who shall when on duty, appear, or behave himself in an un-officer-like manner, or shall wilfully injure those who are under his command, he shall be liable to be tried by a Court-Martial, and if found guilty, to be sentenced by said Court, to be reprimanded in orders, or to be removed from Office: And whenever a Court-Martial shall sentence any Officer to be removed from office, the Court shall therein adjudge such Officer incapable of holding any military commission under this Commonwealth for life, or for years, according to the nature and aggravation of his offence; and such sentence being duly approved of by the Officer appointing such Court-Martial, shall be published and remain in full force, unless reversed, so far as respects disqualification, by the General Court.

Officers guilty of unmilitary conduct, to be tried by a Court-Martial;

—and removed from office.

XXXVII. *And be it further enacted by the authority aforesaid,*
That every town within this Commonwealth, shall be constantly provided with sixty-four pounds of good gun-powder, one hundred pounds of musket-balls, one hundred flints, and three tin or iron camp-kettles, for every sixty-four soldiers in the Militia of such town, enrolled as aforesaid; and the same proportion of each of the aforesaid articles for a greater or lesser number: And every town which shall neglect to keep constantly provided with the said articles, shall forfeit and pay, for the use of the Commonwealth, for every sixty-four men in such town which shall be unprovided with the said articles, the sum of *six pounds*, to be recovered by presentment in the Court of General Sessions of the Peace, in the county to which such town shall belong: And it shall be the duty of the Brigade-Inspector annually to inspect the magazines of each town, within the brigade to which he belongs, and to make complaint to the Grand Jury of the county against all towns, which shall neglect to keep constantly provided as aforesaid.

Town to be provided with military articles.

Penalty in case of neglect—

how recovered.

Brigade-Inspector or to inspect, &c.

And whereas the good citizens of this Commonwealth are often injured by the discharge of single guns on a muster-day, Therefore,

XXXVIII. *Be it further enacted by the authority aforesaid,*
That no non-commissioned Officer or Private, shall unnecessarily fire a musket or single gun, in any public road, or near any house or near the place of parade, on any day, or evening succeeding the same, on which any troop or company shall be ordered to assemble for military duty, unless embodied under the command of some Officer; and if any non-commissioned Officer or Private shall fire a musket or gun, except as aforesaid, on the said day or evening succeeding, without being embodied as aforesaid, he shall forfeit and pay a fine of *five shillings*, for each and every offence aforesaid, to be sued for, recovered and disposed of in the same manner as fines for non-appearance on a muster-day, are recovered and disposed of.

Penalty for firing on a muster day, without orders,

how recovered and disposed of.

And

In the Year of our LORD, 1793.

308

Salisbury dividing line altered.

XXXIX. *And be it further enacted by the authority aforesaid,*
 That the Adjutant-General, the Quarter-Master-General, Brigade-Inspectors, and Adjutants of regiments, shall receive a reasonable consideration for their services; to be allowed by the General Court. And all Officers serving on Military Boards, Courts of Inquiry, and Courts-Martial, shall receive pay, while necessarily employed therein, at the same rate as when in actual service: And the Adjutant-General, or Brigade-Majors, as the case may be, shall make up pay-rolls, of such Military Boards, Courts of Inquiry, and Courts-Martial, and lay the same before the General Court, for allowance; and they shall receive payment at the Treasury, of the sums so allowed, and pay the same over to the Officers who performed the service.

Certain officers to receive pay

Pay rolls to be laid before the General Court.

[This Act passed June 22, 1793.]

C H A P. II.

An Act for repealing one Clause, and altering a dividing Line, described in an Act, intituled, "An Act for dividing the Town of *Salisbury*, in the County of *Essex*, into two Parishes."

BE it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, That the following clause, viz. "Excepting only that the contract made by the town, with the Minister of that part thereof, which now constitutes the West-Parish, shall, so far as it relates to his future support, be considered as devolving and binding upon the West-Parish only, and not upon the town," contained in an Act passed the last session of the last General Court, intituled, "An Act for dividing the town of *Salisbury*, in the county of *Essex*, into two parishes," be, and the same hereby is repealed.

Clause in a former act repealed.

And be it further enacted, That the first dividing line mentioned in said Act, beginning at the oak stump therein mentioned, "and thence running southerly by the western border of said *Titcomb's* land to *Merrimack River*," be, and hereby is altered, and that said line shall run from said stump southerly by the eastern, instead of the western border of said *Titcomb's* land, to said *Merrimack-River*, so as to include the lands of said *Enoch-Josbua* and *Richard Titcomb*, within the bounds of said Western Parish, any thing in said Act to the contrary notwithstanding.

Dividing line altered.

Militia formed and regulated.

441

AN ACT for forming and regulating the militia within this State, and for repealing all the laws heretofore made for that purpose.

Passed Dec.
28, 1792.

BE it enacted by the Senate and House of Representatives in General-Court convened, That the several laws heretofore made for regulating the militia, be, and hereby are repealed.

Repealing
clause.

And be it further enacted, That each and every free able-bodied white male citizen of this State, resident therein, who is, or shall be of the age of eighteen years, and under the age of forty years, except as herein after excepted, shall severally and respectively be enrolled in the militia by the captain or commanding officer of the company, within whose bounds such citizen shall reside, within six months after the passing this act. And it shall, at all times hereafter, be the duty of such captain or commanding officer of the company to enrol every such citizen, as aforesaid; and also those who shall from time to time, arrive at the age of eighteen years, or being of the age of eighteen years and under the age of forty years (except as hereafter excepted) shall come to reside within his bounds; and shall without delay, notify such citizen of said enrolment by a proper non-commissioned officer of the company, by whom such notice may be proved.

Militia how
and by whom
to be enrolled.

And be it further enacted, That the vice-president of the United States; the officers, judicial and executive of the government of the United States; the members of both houses of congress, and their respective officers; all custom house officers, with their clerks; all post officers, and stage drivers, who are employed in the care and conveyance of the mail of the post office of the United States, and of this State; all ferry-men employed at any ferry on the post road; all inspectors of exports; all pilots; all mariners actually employed in the sea-service of any citizen or merchant within the United States; members of the senate and house of representatives for the time being; secretary and deputy secretary of the State; State and county treasurers, recorders of deeds; all civil officers, students of colleges and academies; ministers of the gospel; elders and deacons of churches; church wardens; grammar school-masters for the time being; masters of

Executive of-
ficers, &c.
exempted.

arts

Militia formed and regulated.

arts ; people denominated quakers ; selectmen for the time being ; tutors or preceptors of any college or academy ; all persons who may have sustained commissions of the peace ; all who have, either under the commission of the State, or the United States, or any particular State, held the office of a subaltern or officer of higher rank ; all physicians and surgeons, who have certificates from the medical society or selectmen of the town or place wherein they reside ; one miller to each corn-mill, and one toll-gatherer to each toll-bridge, shall be, and they are hereby excused from militia duty, and also one ferryman to each ferry.

And be it further enacted, That it shall be the duty of the captain or commanding officer of each company, twice in every year, exclusively of the battalion meeting, to call forth his company for inspection of arms, and instruction in military discipline, viz.—in the months of June and September, annually, and at such other times as he shall think best ; and that each commanding officer of a battalion, shall call his battalion together once in every year.

And be it further enacted, That each division within this State, shall be commanded by one major-general, who shall have two aids-de-camp, with the rank of major ; each brigade by one brigadier-general, who shall have one brigade-inspector, who is also to perform the duty of brigade-major, with the rank of major. To each regiment, one lieutenant colonel commandant ; and to each battalion one major ; to each company one captain, one lieutenant, one ensign, four sergeants, four corporals, one drummer and one fife. That the regimental staff, shall consist of one adjutant, one quarter-master, to rank as lieutenants ; one paymaster ; one surgeon ; one surgeon's mate ; one sergeant-major ; one drum-major and one fife-major.

And be it further enacted, That there shall be provided at the expense of this State for each regiment, one standard and one suit of regimental colours—the standard to bear the device, “ the arms of the United States ;” the regimental colours, “ the arms of this State ;” that the drums and fifes be furnished by the commanding officers of the companies, at the expense of the State.

And

Militia formed and regulated.

443

And be it further enacted, That the several commanding officers of companies, shall cause accurate returns to be made of their companies to the commanding officer of the regiment to which they belong, before the first day of February annually ; and the commanding officer of each regiment, shall cause to be made to the brigade major, a proper return of his regiment, before the first day of March annually ; and the respective brigade majors, shall make out to the adjutant general, returns of their respective brigades, before the first day of April annually, agreeable to the forms that may be established by the adjutant general, which the adjutant general shall cause attested copies of, to be lodged in the secretary's office, by the first day of May annually.

By whom returns are to be made.

And be it further enacted, That each commanding officer of a company, who shall neglect to call his company together, as before provided, shall forfeit and pay for each neglect the sum of six pounds ; and each commanding officer of a battalion who shall neglect to call his battalion, as before directed, shall pay a fine of nine pounds.

Penalty for not calling companies or battalions together.

And be it further enacted, That it shall be accounted sufficient notice to any non-commissioned officer or privates, for appearance on muster days, to be notified of such muster by a non-commissioned officer in person, or by a writing by him signed, to be left at his last, and usual place of abode, four days prior to such day of muster ; and if any non-commissioned officer or private, after such notification, shall unnecessarily neglect to appear equipped, as the law directs, he shall pay a fine of nine shillings, which shall be levied by distress, and sale of the offenders goods and chattels, by warrant under the hand and seal of the captain, or commanding officer of said company, to be directed to the first serjeant of the company, who is to levy the same, by the same rules and regulations, as the laws have pointed out for collecting rates and taxes, and shall have one quarter part thereof for his trouble, and the same fees that are allowed to collectors, on distraining for taxes—and if no goods and chattels of the delinquent are to be found, then to levy the same on the body of such delinquent : *Provided*

Notice.

Militia formed and regulated.

ded nevertheless, That no such warrant shall be issued until fifteen days after said muster days, that the delinquent may have time to make excuse (if any he has) for his non-appearance, which is to be made to the commanding officer of the company.

And be it further enacted, That if any non-commissioned officer or soldier, shall prove refractory or disobedient on a muster day, or shall insult or abuse his officers, or either of them, or treat them with disrespect or contempt, the commanding officer present, may order the offender to be immediately tried by five commissioned officers, if so many should be present; and if not so many present, as many as there are in the field, who are empowered to punish the offender, by ordering him to pay a fine not exceeding forty shillings, at the discretion of the officers, or ride a wooden horse.

And be it further enacted, That on all muster days, every officer shall yield due obedience to his superior officer; and every non-commissioned officer and soldier shall yield entire and due obedience to the commands of their superior officers. And if any officer shall, on such days (or at any other time) refuse and neglect to obey the orders he may receive from his superior officers respecting any matter relating to the government of militia, he shall be tried by a court-martial, and if convicted thereof, shall be cashiered. And the superior officer may immediately put such offender in arrest, and report him and his offence to the officer commanding the brigade (if the offender is under the rank of a field officer) and the commanding officer of the brigade is hereby empowered to appoint a court-martial for such trial, and to approve the sentence; and if said offender shall by said court be cashiered, and the sentence thereof approved, the said officer shall be deemed incapable of holding any military office again in this State; and in case the offender is of the rank of a field officer, or of higher rank, his offence shall be reported to the major-general, or officer commanding the division, who is hereby empowered to appoint a court-martial for the trial of such offender, to approve the sentence of said court; and if the offender be found guilty and the sentence shall be approved, he shall be disqualified as aforesaid.

The

Militia formed and regulated.

The commander in chief shall at all times, have the right of appointing courts-martial, when he shall think it necessary.

Commander in chief may appoint courts martial.

All courts-martial, when appointed by the commander in chief, shall consist of thirteen members, the president of which shall be of the rank of major-general.

Number of members.

All courts-martial, when appointed by a major-general, shall consist of thirteen members, and the president shall be a lieutenant-colonel or officer of higher rank.

All courts-martial, appointed by a brigadier, shall consist of thirteen members, the president of which shall at least, be of the rank of a field officer.

The members of the courts-martial are to be sworn by the president, and the president shall be sworn by the next highest in rank of the members composing the same, and the president of every court-martial, shall have power to administer the oath to every witness.

Members, by whom to be sworn.

In order to the trial of offenders, the oath of the president and members, shall be in the words following, viz.

YOU swear, that you will well and truly try, and impartially determine the charge against the person now to be tried, according to the rules for regulating the militia of this State.

Oath.

So help you GOD.

The oath to be administered to witnesses in courts martial, shall be in the form following, viz.

YOU swear, the evidence you shall give relative to the charge now in hearing, shall be the truth, the whole truth, and nothing but the truth.

Oath of witnesses.

So help you GOD.

And be it further enacted, That all military officers shall be amenable to a court-martial for any un-officer, or un-gentleman-like conduct or behaviour while on duty, and at all other times, and to be tried, and sentence approved in the same way and manner as before provided for disobedience of orders.

Officers amenable for illiberal behaviour.

And be it further enacted, That all persons called by summons from the president of any court-martial to give evidence, who shall unreasonably refuse or neglect to appear, or appearing, shall refuse to give evidence, shall be committed to the common gaol of the

Witnesses refusing, &c. to be committed to gaol.

Militia formed and regulated.

county where such court is fitting, there to remain three months, unless sooner discharged therefrom by the justices of the superior court : And the president of the court is to lodge the accusation against him with the prison-keeper.

And be it further enacted, That every person appointing a court-martial, shall appoint some suitable person to act as judge advocate, who shall make a fair record of the whole proceedings and deliver them to the officer appointing said court-martial, who shall cause the same, or a copy thereof, to be lodged in the secretary's office, within three months after such trial.

And be it further enacted, That out of the militia enrolled as herein directed, there shall be formed for each battalion, at least one company of grenadiers or light infantry ; and to each division there shall be at least one company of artillery, and one troop of horse. There shall be to each company of artillery, one captain, two lieutenants, four sergeants, four corporals, six gunners, six bombardiers, one drummer and one fifer. The officers to be armed with a sword or hanger, a fusée, bayonet and belt, with a cartouch box, to contain twelve cartridges ; and each private matross shall be furnished with the same equipments as privates in the infantry. There shall be to each troop of horse, one captain, two lieutenants, one cornet, four sergeants, four corporals, one saddler, one farrier and one trumpeter. The commissioned officers to furnish themselves with good horses of at least fourteen hands and an half high, and to be armed with a sword, and pair of pistols, the holsters of which to be covered with bear-skin caps. Each dragoon to furnish himself with a serviceable horse of at least fourteen hands and an half high, a good saddle, bridle, mail-pillion and valise, holsters, a breast-plate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and cartouch box, to contain twelve cartridges for pistols. That each company of artillery and troop of horse, shall be formed of volunteers from the brigade, at the discretion of the commander in chief of the State, not exceeding one company of each to a regiment, and shall uniformly be cloathed in regimentals, to be furnished at their own expence ; the colour and fashion to be determined by the brigadier commanding the brigade to which they belong.

And

Judge advocate to be appointed.

Each battalion to have one company of grenadiers &c. and one company of artillery.

Officers how to be armed.

Troops of horse how officered, &c.

Artillery and horse of whom to be formed, and uniformly clad.

Militia formed and regulated.

447

And be it further enacted, That each non-commissioned officer and soldier belonging to the regiments of foot, shall within one year from and after the passing of this act, furnish himself with a good fire-lock, bayonet and belt, a cartouch box that will contain twenty-four cartridges, two good flints, a knapsack and canteen—and that the commissioned belonging to companies of foot, shall be severally armed with a sword or hanger, and an esponton, and that the field officers be armed with a sword or hanger.

How to be armed and accoutred.

And be it further enacted, That such of the infantry as are under the care of parents, masters or guardians, shall be furnished by them with such arms and accoutrements. And such as are unable to furnish themselves, shall make application to the selectmen of the town, who are to certify to their captain or commanding officer, that they are unable to equip themselves, and the said selectmen shall, at the expence of the town, provide for, and furnish such persons with arms and equipments; which arms and equipments shall be the property of the town, at whose expence they were provided: And if any person so furnished, shall embezzle or wilfully destroy the same, he shall be punished by any court proper to try the same, upon complaint made by the selectmen of said town, by being publicly whipped not exceeding twenty stripes, or fined not exceeding forty shillings. And that all fines recovered for embezzling or destroying of arms and accoutrements as provided in this act, shall be paid into the hands of the selectmen to be appropriated in purchasing arms and accoutrements for such soldiers as are unable to purchase for themselves.

Those unable &c. to be equipped at the expence of the town.

Fines how to be appropriated.

And be it further enacted, That parents, masters and guardians shall be liable for the neglect and non-appearance of such persons as are under their care (and are liable by law to train) and are to be proceeded against for the penalty in the same manner, as by this act is provided against other delinquents.

Parents, &c. liable to a penalty.

And be it further enacted, That the commander in chief, the officers commanding divisions, brigades or regiments, may appoint military watches or guards when an invasion of the State is apprehended, in such place and under such regulations as they may judge necessary; and all officers and soldiers under their command

Military watches, by whom to be appointed.

Militia formed and regulated.

mand are to yield strict obedience to their orders and directions.

And be it further enacted, That the signals for an alarm are to be fixed by the captain general, and may by him be altered, from time to time, and proper notice thereof is to be by him given to the several officers; and if any non-commissioned officer or soldier, shall upon the alarm being given, unnecessarily neglect to appear properly armed and equipped, at such time and place as the commanding officer shall appoint, he shall pay a fine of twenty shillings; and all persons serving on any military guards, or watches, shall be punishable for misconduct while in such service, by a court-martial to be appointed by the commanding officer of such guard or watch, provided he be a field officer, and in case he is not, then by the commanding officer of the regiment to which the offender belongs.

And be it further enacted, That when any non-commissioned officer shall refuse or neglect to notify or warn any of the non-commissioned officers or private soldiers of the company to which he belongs (being thereto ordered by his superior officer) he shall pay a fine of twelve shillings, for each non-commissioned officer or soldier he shall neglect to warn, to be recovered in the same way and manner as is before provided.

And be it further enacted, That every fine arising by any breach of this act, for which no special mode of recovery has been pointed out, may be recovered by action, bill, plaint or information, in any court proper to try the same.

And be it further enacted, That all fines recovered of any non-commissioned officer or soldier for neglect of duty, shall be paid into the hands of the commanding officer of the company, to which such non-commissioned officer or soldier may belong, to be expended in defraying the necessary expences of such company; as the commissioned officers of the same may direct. That all fines recovered of the commanding officer of any company, shall be paid into the hands of the commanding officer of the battalion, to which such commanding officer of a company may belong; to be appropriated in instructing the music in such battalion.

That all fines recovered of the commanding officer of any battalion, shall be paid into the hands of the commanding

Militia formed and regulated.

449

commanding officer of the regiment to which such battalion may belong, to be disposed of in defraying the necessary expences in forming and arranging the companies in such regiment, as the field officers of the same may direct.

And be it further enacted, That all commissioned officers shall take rank according to the date of their commissions; and when two of the same grade, bear equal date, then the rank to be determined by lot, to be drawn by them before the commanding officer of the brigade, regiment, battalion, company or detachment.

Officers, how to rank.

And be it further enacted, That the rules of discipline approved and established by Congress, in their resolution of the twenty-ninth of March, one thousand, seven hundred and seventy-nine, shall be the rules of discipline to be observed by the militia in this State.

Rules of discipline.

And be it further enacted, That it shall be the duty of the brigade inspector, to attend the regimental and battalion meetings of the militia composing their several brigades, during the time of their being under arms, to inspect their arms, ammunition and accoutrements; superintend their exercise and manœuvres, and introduce the system of military discipline before described.

Brigade inspector's duty

And be it further enacted, That the cavalry and artillery be subject to fine or punishment in the same manner as those who belong to the infantry.

Cavalry and artillery liable to the same fines.

And be it further enacted, That all courts-martial may consist of officers of any corps within the limits of the brigade where the person accused may reside.

Courts martial of whom to consist.

And be it further enacted, That a captain or commanding officer at the head of his company, may direct his non-commissioned officers and soldiers to meet at any future day, which shall be legal notice.

Legal notice, what considered as such.

And be it further enacted, That non-commissioned officers be reduced to the ranks, for any misdemeanor, which in the opinion of all the commissioned officers of the company shall deserve such punishment.

Non-comm. officers liable to be reduced, &c.

And be it further enacted, That all commissioned officers belonging to any company of infantry shall reside within the limits of such company.

Commissioned officers to reside.

And be it further enacted, That when it shall so happen,

450

Militia formed and regulated.

Different corps—first in rank to command.

pen, that officers of the different corps, shall be on duty together, the first officer in rank shall command, whether of the infantry, cavalry or artillery.

Arms, &c. free from distress, &c.

And be it further enacted, That every citizen enrolled as directed in this act, and provided with arms and accoutrements, shall hold the same exempted from all suits, distresses, executions, or sales for debt, or for the payment of taxes.

Militia to be divided.

And be it further enacted, That the militia of this State, shall be divided into three divisions, and if convenient, each division shall consist of two brigades, each brigade of four regiments, each regiment of two battalions, each battalion of five companies, and each company of sixty-four privates.

Cavalry and artillery of whom to be formed.

And be it further enacted, That in forming the cavalry and artillery, not more than one eleventh part shall inlist out of any one company of infantry into such corps.

Field Officers to arrange companies.

And be it further enacted, That the field officers of each and every regiment, shall form and arrange the companies in their several regiments, from time to time, as they shall think the public good may require.

Adjutant-General, his duty.

And be it further enacted, That there shall be an adjutant general, whose duty it shall be to distribute all orders from the commander in chief of this State, to the several corps; to attend all public reviews, when the commander in chief of this State shall review the militia, or any part thereof; to obey all orders from him relative to carrying into execution and perfecting the system of military discipline established by law; to furnish blank forms of different returns that may be required, and to explain the principles on which they shall be made; to receive from the several officers of the different corps throughout the State, returns of the militia, under their command, reporting the actual situation of their arms, accoutrements and ammunition, their delinquencies, and every other thing which relates to the general advancement of good order and discipline.

Compensation to Adj. and Brigade inspectors.

And be it further enacted, That compensation shall be made to the adjutant general, and the brigade inspectors for their services, from time to time, by the legislature, as they shall think just.

And be it further enacted, That the colour of the uniform

Militia formed and regulated.

uniform of the infantry be determined on by the commander in chief.

Colour of uniform, by whom determined.

And be it further enacted, That each and every non-commissioned officer or soldier, who shall enlist into any corps of horse or artillery, shall within six months from and after such enlistment, equip himself as the law directs, and at the expiration of the said six months, should he not be equipped as aforesaid, then to return to the company from which he enlisted, and the commanding officer thereof, is hereby directed to enrol him accordingly.

Cavalry and artillery, if not equipped within six months to be returned.

And be it further enacted, That the several companies, which compose the regiments of cavalry, be annexed to the regiments of infantry in manner following :

Cavalry to be annexed to infantry.

To each regiment of infantry there shall be, as far as the number of companies of cavalry will admit of it, one troop of horse, or company of cavalry, with the present officers (if they see fit) and men of said companies, who are now uniformly clothed and equipped, or shall be within four months, said troops of horse shall be under the command of the field officers of the regiments of infantry, and shall be joined to such regiments as shall be the most contiguous and convenient to said companies. Privilege shall be allowed to the non-commissioned officers and privates of cavalry at any time hereafter, of being enrolled as infantry, provided they decline serving as cavalry, and said companies of cavalry may be completed by enlistments, from time to time, from the infantry, as vacancies may be in said companies.

Cavalry to be under command of field officers of infantry.

And be it further enacted, That this act shall be read at the head of each company in the several regiments in this State, at least once every year.

Act to be read, &c.

This act passed December 28, 1792.

EXHIBIT "9"

which Sum or Sums of Money, so assessed and collected, shall be paid into the Hands of the County Collector, who is hereby required to pay out the same, when received for the Purpose aforesaid, in such Manner as the Justices and a Majority of the chosen Freeholders shall direct; and if any Assessor or Collector shall neglect or refuse to perform any Duty, Matter or Thing required of him in this Act, he shall be liable to the same Fines and Penalties as is directed in and by an Act, intitled, ' An Act to ascertain the Time and Mode of levying Taxes, and the better to enforce the Collection of the same,' passed at Burlington the fifth Day of June, Seventeen Hundred and Eighty-seven, and in a Supplement to the same, passed at Perth-Amboy, June the eleventh, Seventeen Hundred and Ninety; and the several Officers in the said Act mentioned are hereby required to perform the several Duties on them enjoined under the same Penalties as in the said recited Act and Supplement are imposed, and shall be allowed such Rewards and Fees as they are entitled to for assessing and collecting Taxes raised for the Use of the County.

Justices and Freeholders, their Authority.

4. *And be it further Enacted by the Authority aforesaid,* That the Justices and a Majority of the chosen Freeholders shall be and they are hereby authorized to purchase a Lot or Lots on which to build, and to appoint Managers for conducting the Building of said Court-House and Gaol at the Place appointed, and to take all such Measures for completing the same, in the best Manner for the Good of said County, as to them shall appear most eligible; and that all Persons, by their Order entrusted with any publick Money of the County, shall be accountable to them for the Expenditure thereof, in such Manner and at such Time or Times as they shall direct.

Courts when to meet at the new Court-House.

5. *And be it further Enacted by the Authority aforesaid,* That the Judges of the Inferior Court of Common Pleas, and Justices of the General Quarter Sessions of the Peace, in and for the said County, shall hold their respective Courts in the said Court-House, so soon as the same shall be ready and fit; and all Writs, Procces and other Proceedings, depending or made returnable thereto, shall be valid in all Respects, any Law or Custom to the contrary notwithstanding.

A Passed at Trenton, November 30, 1792.

C H A P. CCCCXIII.

An ACT for organizing and training the Militia of this State.

Infantry and other Companies may be formed.

SECT. 1. **B**E IT ENACTED by the Council and General Assembly of this State, and it is hereby Enacted by the Authority of the same, That all such of the Militia in the respective Counties of this State as incline to form themselves into Companies of Light Infantry, Grenadiers, Horse and Artillery, and to dress themselves in uniform Regimentals, shall have full Power to form Companies of Light Infantry and Grenadiers of sixty-four Men each, and of Horse and Artillery of forty-eight Men each, and when so formed to give Notice to

of the STATE of NEW - JERSEY.

82.

to the Commissioner herein after directed to be appointed for each County to attend, and in his Presence to choose one Captain, one Lieutenant and one Ensign for each Company of Infantry and Grenadiers; one Captain, one Lieutenant and one Cornet for each Troop of Horse; and one Captain and two Lieutenants for each Company of Artillery; upon which Choice being so made, the said Commissioner in each County shall give his Certificate, certifying the Completion of such Company, and the Names of the Officers chosen for the same directed to the Commander in Chief of this State, who shall thereupon commission the said Officers accordingly. *Provided always,* That all such Companies shall be completed on or before the first Day of January next; *and provided also,* that not more than two Companies of Infantry or Grenadiers be formed in one of the present Regiments, nor more than one Troop of Horse in one of the present Regiments, nor more than eight Companies of Artillery in this State.

2. *And be it further Enacted by the Authority aforesaid,* That the said Companies so formed shall be furnished and equipped as is directed by the Act of Congress for regulating the Militia of the United States; and, besides their voluntary Trainings for Improvement in the military Art, shall be subject to the same Duties prescribed by Law for the other Militia of the State.

3. *Be it Enacted by the Authority aforesaid,* That, in Order to organize the Remainder of the Militia, the following Persons be, and they are hereby appointed Commissioners, that is to say,

John Outwater, Esquire, for the County of Bergen.
Benjamin Williamson, Esquire, for the County of Essex.
Ellis Cook, Esquire, for the County of Morris.
Anthony-Walton White, Esquire, for the County of Middlesex.
John Hardenbergh, Esquire, for the County of Somerset.
Ather Holmes, Esquire, for the County of Monmouth.
Thomas Reading, Esquire, for the County of Hunterdon.
John Armstrong, Esquire, for the County of Suffolk.
Richard Cox, Esquire, for the County of Burlington.
Samuel Flanigan, Esquire, for the County of Gloucester.
Bateman Loyd, Esquire, for the County of Salem.
Joseph Buck, Esquire, for the County of Cumberland; and
Eli Townsend, Esquire, for the County of Cape-May.

And in Case of Death, Neglect or Refusal, of such Commissioner or Commissioners, the Governor for the Time being shall fill up such Vacancy or Vacancies by Appointment under his Hand and Seal.

4. *And be it further Enacted,* That the said Commissioners shall severally appoint one Deputy in each Township in the County in which they are appointed, to take a List of all and every free and able-bodied white Male Citizen, between the Ages of eighteen and forty-five Years, resident within their respective Townships, and not before formed into the Companies before mentioned, on or before the twentieth Day of January next; and in all Cases of Doubt respecting the Age of any Person, the said Person shall prove his Age to the Satisfaction of the said Commissioner or Deputy, or be entered on the said List.

M

5. *And*

826 ACTS of the GENERAL ASSEMBLY

Their Duty. 5. *And be it further Enacted,* That all such Citizens so enrolled as aforesaid, who shall desire to be exempt from military Duty, may at the Time of taking the Lists aforesaid by the said Deputies, or before the twenty-fifth Day of January next, give Notice thereof to the said Deputy of the Township to which they belong, who shall mark and distinguish the same on the said List, and all others on the said Lists shall be enrolled, deemed and esteemed a Part of the Militia of this State, and the said Deputies shall make Returns thereof to the Commissioner of the County before the first Day of February next. *Provided always,* That said Deputies shall in Person call at the usual Dwelling-House of each Citizen within the Ages aforesaid in their respective Townships, and if any such Citizen shall be absent from Home, so that his Election cannot at that Time be known, such Deputy shall leave at the Dwelling-House of such Citizen a written Notice, signifying that unless he shall inform said Deputy of his Election on or before the aforesaid twenty-fifth Day of January next, he shall be enrolled and considered as one of the Militia of this State.

Books to be procured, and Returns to be entered, &c. 6. *And be it further Enacted,* That the said Commissioners shall procure Books, and shall cause the Returns of the said Deputies to be entered therein, and shall make out Copies of the Lists of the Names of all Exempts within their County, and shall transmit one of the said Copies to the County Collector, and the other to the Treasurer of this State, and shall also make and transmit a List of the Exempts of each Township to the Township Collectors within the said County, and a List of all the Militia enrolled within their County to the Governor of this State, at or before the first Day of the next Sitting of the Legislature.

Persons exempted, except, &c. 7. *And be it further Enacted,* That every Person exempted as aforesaid from personal Service in the Militia (except Ministers of the Gospel, the Vice-President of the United States, the Officers Judicial and Executive of the Government of the United States, the Members of both Houses of Congress and their respective Officers, all Custom-House Officers with their Clerks, all Post Officers and Stage Drivers who are employed in the Care and Conveyance of the Mail of the Post-Office of the United States, all Ferrymen employed at any Ferry on the Post-Road, all Inspectors of Exports, all Pilots, all Mariners actually employed in the Sea Service of any Citizen or Merchant within the United States) shall pay an annual Tax of Three Dollars: And the said Township Collectors shall collect the same at the same Time, and in the same Manner as the Taxes of the same Year; and shall also in like Manner pay the same when collected to the County Collector, to be by him paid to the Treasurer of the State: And the said Township and County Collectors and Constables shall receive the same Fees, and be subject to the same Pains and Penalties, as they are or shall be entitled unto or subjected to by the Tax-Laws of this State; and the Treasurer of the State shall cause an annual Return of all the Monies received on the said Tax to be laid before the Legislature at their first Sitting in every Year.

what to pay.

Treasurer's Duty.

Militia, how to be divided. 8. *And be it further Enacted,* That all Citizens enrolled as aforesaid, for military Duty, shall be divided into Companies of; as near as may be, sixty-four Men each, and into Battalions and Regiments, by the said

of the STATE of NEW - JERSEY.

827

said Commissioners, each Battalion to consist, as near as may be, of five Companies of Foot, of which, Battalions and Regiments the said Commissioners shall make accurate Returns to the Commander in Chief of this State, on or before the second Week of the next Sitting of the Legislature, to be by him laid before the said Legislature; and the said Commissioner, or the Deputy of the Township if required by the said Commissioner, having given due Notice by Advertisements in three of the most publick Places within the Limits of such Company, shall attend and preside at the Election for the Choice of Officers; and the said Company, or such of them as shall attend, shall proceed by Plurality of Votes to choose one Captain, one Lieutenant and one Ensign; and the said Commissioner shall certify in Writing the Names and Rank of each Officer so chosen or elected to the Governor of the State, and the Governor of the State shall commission the said Officers accordingly ^{Officers, how to be appointed.} under the Seal of the State; and the said Captains and Subalterns shall choose or appoint their Sergeants, Corporals, Drummers, Fifers or Buglers.

9. *And be it further Enacted,* That the commissioned Officers of each Company shall procure Fifes or Bugle-Horns and Drums for their respective Companies, to be paid for by the County Collector out of any publick Monies in his Hands, upon Orders of the Commissioner of the County. ^{Musick, how procured.}

10. *And be it further Enacted,* That, after the Formation of the Militia shall have taken Place in Pursuance of this Law, the Militia of this State shall assemble three Times in every Year at least, in such Manner, Time and Place as their respective Captains shall order, until otherwise directed by Law. ^{Militia, when to assemble.}

11. *And be it further Enacted,* That every Person enrolled in the Militia of this State shall attend the Company and other Trainings ordered by Law; and if any such Person shall neglect or refuse to attend with a Musquet, Rifle or Firelock, and no sufficient Excuse be made to the Officers of the Company for such Neglect or Refusal within ten Days after such Default, then the Captain or commanding Officer of such Company shall make a Return of all such Defaulters to one of the Justices of the Peace within the County, who shall issue an Execution to the Constable against such Defaulters for the Sum of Seven Shillings and Six-pence each, together with the Costs of such Execution; and the said Constable is hereby directed to pay the said Money when collected to the said Justice, who is to pay the same to the County Collector and by him to be paid to the Treasurer of the State. ^{Penalty for not attending Duty.}

12. *And be it further Enacted by the Authority aforesaid,* That the said Commissioners shall severally be allowed, while employed in performing the Services required by this Act, Twelve Shillings per Day; and the said Deputies severally Four-pence per Name for every Name entered on their said List, to be paid to them by the Collectors of the several Counties, or Treasurer of the State, on Accounts regularly made out and sworn to by the said Commissioners or Deputies; and the said Accounts and Receipts of such Commissioners and Deputies shall be sufficient Vouchers to such Collectors and Treasurer, for so much of the publick Money as shall be paid by them for ^{Commissioners Fees.} b P₈

Appeal allowed.

13. *And be it further Enacted*, That every Person taxed by Virtue of this Act may appeal to the Commissioners of Appeal of the Township in which they reside, in Cases where Doubts arise respecting the Age or Ability of Body of such Person to do military Duty; and the said Commissioners of Appeals are hereby authorized to issue Subpoenas, administer Oaths or Affirmations, and to hear and determine such Appeals; and the said Commissioners shall give a Copy of their Judgment to the Appellant if in his Favour, and the Collector of such Township shall govern himself accordingly; but in Case such Appeal should be determined against the Appellant, then the Costs thereof shall be paid by the said Appellant.

Penalty on the Commissioners and Deputies for Neglect.

14. *And be it further Enacted*, That the said Commissioners and Deputies, who shall be appointed by Virtue of this Act, and accept thereof, who shall neglect or refuse to perform the Services and Duties required hereby, shall forfeit and pay the Sum of Twelve Pounds, to be prosecuted for and recovered in an Action of Debt, with Costs of Suit, by the Collector of the County in which such Commissioner or Deputy shall reside, to and for the Use of the State.

Former Law repealed.

15. *And be it further Enacted*, That from and after the passing of this Act, the Militia Laws now in Force in this State be, and they are hereby repealed; and all military Commissions heretofore granted by Virtue of the same shall be, and they are hereby declared null and void.

CHAP. 45.

AN ACT to organize the militia of this State.

PASSED the 9th of March, 1793.

Preamble. WHEREAS, by the constitution of the United States, the Congress has power to provide for organizing, arming and disciplining the militia, and for governing such part of them, as may be employed in the service of the United States, reserving to the States respectively, the appointment of the officers, and the authority of training the militia, according to the discipline prescribed by Congress.

Act of Congress. *And whereas,* the Congress did on the eighth day of May one thousand seven hundred and ninety two, pass an act entitled "An act more effectually to provide for the national defence by establishing an uniform militia throughout the United States, which act is in the words following, vizt. *Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled,* That each and every free, able bodied white male, citizen of the respective States, resident therein, who is or shall be, of the age of eighteen years, and under the age of forty five years (except as is herein after excepted), shall severally and respectively be enrolled, in the militia by the captain or commanding officer of the company, within whose bounds such citizen shall reside, and that within twelve months after the passing of this act. And it shall at all times hereafter be the duty, of every such captain or commanding officer of a company, to enrol every such citizen as aforesaid, and also those who shall, from time to time, arrive at the age of eighteen years, or being of the age of eighteen years, and under the age of forty five years, (except as before excepted) shall come to reside within his bounds; and shall without delay, notify such citizen of the said enrolment, by a proper non-commissioned officer of the company, by whom such notice may be proved. That every citizen so enrolled and notified, shall within six months thereafter, provide himself with a good musket or firelock a sufficient bayonet and belt, two spare flints, and a knapsack, a pouch with a box therein, to contain not less than twenty four cartridges, suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball: Or with a good rifle, knapsack, shot pouch and powder horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder, and shall appear so armed, accoutred and provided, when called out to exercise, or into service, except that, when called out on company days to exercise only, he may appear without a knapsack. That the commissioned officers shall severally be armed with a sword, or hanger and esponton, and that from and after five years from the passing of this act, all muskets for arming the militia as herein required, shall be of bores sufficient for balls of the eighteenth part of a pound. And every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales, for debt or for the payment of taxes. *And be it further enacted,* That the vice president of the United State, the officers judicial and executive of the government of the United States; the members of both houses of Congress, and their respective officers; all custom house officers, with their clerks; all post officers and stage drivers, who are employed in the care and conveyance of the mail of the post office of the United States; all ferrymen employed at any ferry on the post road, all inspec-

tors of exports, all pilots, all mariners, actually employed in the sea service of any citizen or merchant within the United States; and all persons who now are or may hereafter be exempted by the laws of the respective States, shall be, and are hereby exempted from militia duty, notwithstanding their being above the age of eighteen, and under the age of forty five years. *And be it further enacted,* That within one year after the passing of this act, the militia of the respective States shall be arranged into divisions, brigades, regiments, battallions, and companies, as the legislature of each State shall direct, and each division, brigade and regiment, shall be numbered, at the formation thereof, and a record made of such numbers, in the adjutant general's office in the State, and when in the field or in service in the State, each division, brigade and regiment shall respectively take rank, according to their numbers, reckoning the first or lowest number, highest in rank. That if the same be convenient, each brigade shall consist of four regiments, each regiment of two battallion, each battallion, of five companies, each company of sixty four privates; that the said militia shall be officered by the respective States, as follows; to each division, one major general and two aids-de-camps, with the rank of major; to each brigade, one brigadier general with one brigade inspector, to serve also as a brigade major, with the rank of a major; to each regiment, one lieutenant colonel commandant, and to each battallion one major, to each company one captain, one lieutenant, one ensign, four serjeants, four corporals, one drummer and one fifer or bugler; that there shall be a regimental staff to consist of one adjutant and one quarter master to rank as lieutenants, one pay master, one surgeon and one surgeon's mate, one serjeant major, one drum-major, and one fife major. *And be it further enacted,* That out of the militia enrolled, as is herein directed, there shall be formed for each battallion, at least one company of grenadiers, light infantry or riflemen, and that to each division, there shall be at least one company of artillery, and one troop of horse; there shall be to each company of artillery, one captain, two lieutenants, four serjeants, four corporals six gunners, six boubardiers, one drummer and one fifer. The officers to be armed with a sword or hanger, a fusee, bayonet and belt, with a cartridge box to contain twelve cartridges, and each private or matross shall furnish himself, with all the equipments of a private in the infantry, until proper ordnance and field artillery is provided. There shall be to each troop of horses; one captain, two lieutenants, one cornet, four serjeants, four corporals, one sadler, one farrier, and one trumpeter; the commissioned officers to furnish themselves with good horses, of at least fourteen hands and a half high, and to be armed with a sword and a pair of pistols, the holsters of which to be covered with bearskin caps, each dragoon to furnish himself with a serviceable horse, at least fourteen hands and an half high, a good saddle, bridle, mailpillion and valise, holsters and a breastplate and crupper, a pair of boots and spurs, a pair of pistols, a saber and a cartouch box, to contain twelve cartridges for pistols. That each company of artillery and troop of horse, shall be formed of voluntiers from the brigade, at the discretion of the commander in chief of the State, not exceeding one company of each to a regiment, nor more in number, than one eleventh part of the infantry, and shall be uniformly cloathed in regimentals, to be furnished at their own expence, the colour and fashion to be determined by the brigadier commanding the brigade to which they belong. *And be it further enacted,* That each battallion and regiment shall be provided with the State and regimental colours by the field officers, and each company with a drum and fife or bugle horn by

VOL. 3. — 56

the commissioned officers of the company, in such manner, as the legislature of the respective States shall direct. *And be it further enacted,* That there shall be an adjutant general appointed in each State, whose duty it shall be to distribute all orders from the commander in chief of the State, to the several corps, to attend all public reviews, when the commander in chief of the State shall review the militia or any part thereof, to obey all orders from him, relative to carrying into execution and perfecting the system of military discipline established by this act, to furnish blank forms of different returns, that may be required, and to explain the principles on which they should be made, to receive from the several officers of the different corps throughout the State, returns of the militia under their command, reporting the actual situation of their arms, accoutrements and ammunition, their delinquencies, and every other thing, which relates to the general advancement of good order and discipline: All which the several officers of the divisions, brigades, regiments and battalions are hereby required to make in the usual manner, so that the said adjutant general, may be duly furnished therewith; from all which returns, he shall make proper abstracts, and lay the same annually before the commander in chief of the State. *And be it further enacted,* That the rules of discipline approved and established by Congress, in their resolution of the twenty ninth of March one thousand seven hundred and seventy nine, shall be the rules of discipline, to be observed by the militia throughout the United States, except such deviations from the said rules, as may be rendered necessary by the requisitions of this act, or by some other unavoidable circumstances; it shall be the duty of the commanding officer of every muster, whether by battalion, regiment or single company, to cause the militia to be exercised and trained agreeably to the said rules of discipline. *And be it further enacted,* That all commissioned officers shall take rank, according to the date of their commissions, and when two of the same grade, bear an equal date, then their rank to be determined by lot, to be drawn by them, before the commanding officer of the brigade, regiment, battalion, company or detachment. *And be it further enacted,* That if any person, whether officer or soldier, belonging to the militia of any State, and called out into the service of the United States, be wounded or disabled while in actual service he shall be taken care of, and provided for at the public expence. *And be it further enacted,* That it shall be the duty of the brigade inspector to attend the regimental and battalion meetings of the militia, composing their several brigades during the time of their being under arms to inspect their arms, ammunition and accoutrements, superintend their exercise and manœuvre, and introduce the system of military discipline before described throughout the brigade, agreeable to law, and such orders as they shall from time to time receive, from the commander in chief of the State, to make returns to the adjutant general of the State, at least once in every year, of the militia, of the brigade to which he belongs, reporting therein the actual situation of the arms, accoutrements and ammunition of the several corps, and every other thing, which in his judgment, may relate to their government and the general advancement of good order and military discipline, and the adjutant general shall make a return of all the militia of the State, to the commander in chief of the said State and a duplicate of the same, to the President of the United States. *And whereas,* sundry corps of artillery, cavalry and infantry, now exist in several of the said States which, by the laws, customs or usages thereof, have not been incorporated with, or subjected to the general regulations of the militia. *Be it further enacted,* That such corps retain their accustomed

privileges, subject nevertheless, to all other duties required by this act, in like manner with the other militia."

And whereas, the reservations contained in the said constitution, relative to the militia of the States respectively, render it necessary, that provision should be made in the premises by the legislature of this State, Therefore,

Be it enacted by the People of the State of New York represented in Senate and Assembly, That the militia of this State, shall be arranged into four divisions, and that each division shall comprehend one of the great districts of this State, in each of which districts, a major general shall be appointed, and each division shall be formed into as many brigades, and each brigade into as many regiments, and each regiment, into as many companies, as the commander in chief of the militia of this State for the time being, shall in his discretion, from time to time deem meet and proper, and shall also order, that at least one company of artillery, and one troop of horse, be formed from every brigade, or from such of them, as he shall direct and require; and all returns from the militia corps respectively, shall be made out and transmitted, in such manner, and at such time, as the said commander in chief, shall from time to time direct and require.

Arrange-
ment of
the State
militia.

And be it further enacted, That the militia of this State, shall rendezvous three times in every year, for the purpose of training, disciplining and improving in martial exercise, twice by companies within their respective beats, and once by regiments, except as is herein after excepted. And that each brigadier general shall appoint the regimental parades, at such time and place as he may think proper, as nearly central as may be, within each of the respective regiments; that the time and place of the rendezvous for the companies shall be appointed by the colonel or commanding officer of the regiment, and arranged on different days, that the field and staff officers may have an opportunity of attending the several companies exercised in detail, in order to introduce uniformity in the manoeuvres and discipline of the regiment. That the artillery company and troop of horse, belonging to each division or brigade, shall meet at such times and places as shall be appointed for that purpose by the major general or commanding officer of the division.

Rendez-
vous.

And be it further enacted, That a court martial shall consist of thirteen commissioned officers, who shall appoint their own judge advocate, which judge advocate shall tender to each member, and each member is hereby required to take the following oath; "You do swear, that you will well and truly, try and determine, according to evidence, the matter now depending between the people of the State of New York and the person and persons to be tried, and you do further swear that you will not divulge the sentence of the court, until the same shall be approved or disapproved, pursuant to the act entitled "An act to organize the militia of this State, neither will you upon any account, at any time whatsoever, disclose or discover, the vote or opinion of any particular member of the court martial, unless required to give evidence thereof, by a court of justice in a due course of law, so help you God." And the president is hereby authorized to tender to the judge advocate, who is hereby enjoined to take the following oath. You do swear swear, that you will not upon any account, or at any time whatsoever, disclose or discover, the vote or opinion of any particular member of the court martial, unless required to give evidence thereof, as a witness by a court of justice in a due course of law, and that you will not divulge the sentence of this court until the same shall be approved or

Courts-
martial.

disapproved, pursuant to the act entitled "An act to organize the militia of this State" so help you *God*; and it shall and may be lawful, for the president of any such court, after he shall have received notice of his appointment, and he is hereby required on application to issue his precept directed to any witness or witnesses to be summoned, commanding his, her or their attendance, at the time and place appointed for such court to set, to give evidence in behalf of the people of this State or for the person or persons to be tried (as the case may be) and such witness or witnesses being summoned, and making default shall incur the like fines and forfeitures as are inflicted on witnesses for their default, by the ninth section of the act for the more speedy recovery of debts to the value of ten pounds, passed the seventeenth day of April one thousand thousand seven hundred and eighty seven; and the president of any such court martial shall be, and he is hereby empowered to administer the usual oath to such witnesses as shall come to give evidence to such court, during the time he shall be president thereof, and that if any officer shall be arrested by virtue of this act, the charge shall particularly be set forth in writing and signed by the arresting officer, a copy whereof shall be delivered to such officer, so arrested or left at his usual place of abode within three days after such arrest, and the person so arrested shall not be held to answer to any matter whatever, not set forth in such charge, that every commissioned officer who shall be convicted by a general court martial, of having refused or neglected to perform any of the duties of his office, shall be punished according to the nature and degree of his offence, at the discretion of the said court, either by fine or removal from office.

Proviso as
to fines.

Provided, no fine shall exceed ten pounds for the first offence or fifty pounds for any subsequent offence, and every such fine shall be levied and collected by warrant under the hand and seal of the officer having instituted the court martial or in his absence by the commanding officer of the division, if such court martial was formed from the division or by the commanding officer of the brigade, if such court martial was formed from the brigade, directed to any one adjutant of the brigade or person acting as such to which such officer, on whom such fine is imposed may belong, in like manner, as the fines hereinafter mentioned, to be recovered of the non commissioned officers and privates for neglect or refusal of duty. That the proceedings and sentence of every court martial, by which any officer shall be removed from office, shall be in writing, signed by the president thereof, and shall by him be delivered to the commanding officer of the division or brigade, as the one or the other may have instituted the court martial, to be by him transmitted to the commander in chief of this State, who shall approve or disapprove of the same in orders, and that all other proceedings and sentences of courts martial, shall also be in writing signed by the president thereof, and by him be delivered to the commanding officer of the division or brigade, (as the case may be) who shall approve or disapprove of the same in orders;

Proviso as
to general
officers.

Provided, That no sentence of a court martial on a general officer, shall go farther than removal from office. That all sentences of courts martial by which any officer shall be removed, and which shall be approved by the commander in chief of this State, shall by him from time to time be laid before the council of appointment, to the end, that the person administering the government of this State for the time being, by and with their advice and consent may appoint others instead of the officers so removed from office.

And be it further enacted, That courts martial for the trial of general officers, shall be ordered by the commander in chief of this State, and shall consist of general and field officers taken from a roster to be kept by the adjutant general for that purpose; that courts marshal for the trial of field officers shall be ordered by the commanding officer of the division, and shall consist of commanding officers of brigades, field officers, and if requisite of captains. That courts martial for the trial of officers below the rank of field officers, shall be ordered by the commanding officer of the brigade, and shall consist of field officers and others of inferior rank. That courts martial for the trial of non commissioned officers and privates, shall be ordered by the commanding officer of the regiment, and shall consist of officers not of the rank of field officers. That rosters shall be kept by the proper officers from which such courts martial shall be formed. That the sentence of every court martial shall be approved or disapproved by the officer having instituted the same, saving to the party tried, an appeal to the commander in chief to whom the sentence of every general court martial shall be reported without delay.

Courts-martial, how ordered.

And be it further enacted, That every non commissioned officer, who shall neglect to warn the men to appear at any rendezvous mentioned in this act, when thereunto required by his captain or commanding officer without sufficient excuse, shall forfeit the sum of two pounds. That every non commissioned officer or private, who shall neglect to appear when warned, in pursuance of this act without sufficient excuse, shall for every day he neglects to appear at the regimental or battalion rendezvous, forfeit the sum of sixteen shillings; and for every day he neglects to appear at the company parade, forfeit the sum of eight shillings, and if he shall not be armed and equipped according to the directions of this act, when so appearing, without sufficient excuse, he shall for every deficiency, forfeit the sum of one shilling and appearing without a musket the sum of four shillings.

Penalties for failure to appear when warned.

Provided always, That none of the fines aforesaid, or any other other* arising from offences in a regiment or company thereof, any company of artillery or troop of horse, other than for disobedience of orders under arms, shall be levied on any delinquent, until he shall have been summoned to appear before a board of officers, to be instituted as herein after directed, that he may shew cause why such fine should not be levied, and all fines which such board shall determine as proper to be exacted, shall be levied by warrant from the president of such board, to one or more sergeants or corporals of the regiment or company, to which the offender belongs, whose duty it is hereby made to collect the same, by distress and sale of the goods and chattels of the offenders respectively. And in case any such defaulter shall live with his father or mother, or shall be then an apprentice or indented servant, the master or mistress, or father or mother, (as the case may be) shall be liable to pay the said fine, with costs, and in default of payment the said sergeant or corporal shall levy the same upon the goods and chattels of such father or mother, or master or mistress, and all fines arising from any offences within any brigade, shall when recovered be paid to such person, as the commanding officer of the brigade shall appoint for the purpose, and as much thereof shall be appropriated by the order of the said commanding officer, as he shall think proper for the purchase of such colours, drums and fifes, for the different corps in the brigade, as may be requisite, and the residue, if any there be, for the purpose

Proviso as to collection of penalties.

* So in original.

of purchasing such arms, as are designated in the first section of the act herein before recited, to be deposited as the said commanding officer shall direct, to be delivered in case of invasion or insurrection, to such of the militia of the brigade, as may be destitute of arms, to be returned whenever thereupon required, by the commanding officer of the brigade, regiment or company, and in case any or either of the said sergeants or corporals to whom such warrants shall be directed as aforesaid, shall neglect his duty in the premises, he shall for every such neglect, forfeit the sum of twenty four shillings, to be levied and collected in manner aforesaid, by a like warrant, which monies, when collected, shall be paid and appropriated in manner aforesaid, and that it shall be the duty of the person receiving such fines, once in every year to render an account to the brigadier or officer commanding the brigade, of all his receipts and expenditures in pursuance of this act.

Boards to
levy fines
on delin-
quents.

And be it further enacted, That the commanding officer of a brigade shall institute, as many boards of officers, each to consist of not less than three, nor more than five, as there are regiments in his brigade, who shall, from time to time, convene at such place, and at such times as the commanding officer of the brigade shall direct. To the president of each of which boards, all returns of delinquents from the corps designated in the brigade orders shall be made, which president shall direct the delinquents on a day, and at a place certain, to be summoned to appear before the said board, and to shew cause why the fines incurred by them should not be levied, and it shall be in the discretion of such board, to cause the fines to be levied in manner aforesaid, either in the whole or mitigated in their discretion or remitted, and for such as the board shall direct to be levied, warrants shall issue in manner herein before directed.

Comman-
der-in-chief
may order
out militia
in case of
invasion,
etc.

And be it further enacted, That the commander in chief of this State for the time being, may in case of invasion or other emergency, when he shall judge it necessary, order out any proportion of the militia of this State, to march to any part thereof, and continue as long as he may think necessary, and likewise may, in consequence of an application from the executive of any of the United States, on an invasion or insurrection, or an apprehension of an invasion of such State at his discretion, order any number of the militia not exceeding one third part thereof to such State.

Provided, That they be not compelled to continue on duty out of this State, more than forty days at any one time; that while in actual service in consequence of being so called out, they shall receive the same pay and rations, and be subject to the same rules and regulations, as the troops of the United States of America.

Exemp-
tions of
militia
duty.

And be it further enacted, That in addition to persons exempted from militia duty by the law of the United States herein before recited, there shall be and hereby are exempted by this act from such duty as aforesaid, the following persons vizt. the lieutenant governor of this State, members of both houses of the legislature of this State, and their respective officers, the chancellor, the chief justice, and other justices of the supreme court, judge of the court of probates and all other judicial officers of this State, secretary, treasurer, attorney general and auditor for this State, surveyor general, register and clerks of courts sheriffs, coroners, constables and gaolers, two ferry men employed to each boat, the surrogates in the several counties, all ministers and preachers of the gospel, physicians and surgeons, except in their several professions and callings, the professors, teachers and students in all colleges and academies within this State, all schoolmasters engaged fo

at least three months, all post riders, the actual attendant of every grist mill, and all firemen belonging to companies now established, or which hereafter may be established by law within this State, and also all persons actually employed as overseers, manufacturers and labourers at any furnace, forge, or bloomery for making iron, all such persons so employed at any furnace for making iron castings; all such persons so employed at any glass house, for making glass, during the time they are so actually employed notwithstanding their being above eighteen and under forty five years of age.

And be it further enacted, That all persons being of the people called Quakers, who would otherwise be subject to military duty, by virtue of this act, and who shall refuse personal military service, shall be exempted therefrom, on paying annually the sum of twenty four shillings each, for such exemption, such sum to be assessed on each of them respectively, by the assessors, and collected by the collectors of the districts wherein they respectively reside, with the contingent charges of the county, and paid to the county treasurer, who shall pay the same into the treasury of this State, to be applied towards the support of the government; and it is hereby made the duty of every captain of infantry, within three months, after he shall have received his commission, and yearly and every year thereafter on the first Tuesday in May in every year, to make a list of the names of all and every person and persons within his beat, who being of the people called Quakers, shall neglect or refuse personally to perform military service, and deliver such list in the city of New York to the clerk of the said city, and in each of the other counties of this State, to the supervisors of the town, where such person or persons so neglecting or refusing to perform military service shall respectively reside; and the clerk of the said city of New York shall forthwith after receiving such lists, deliver the same to the mayor, aldermen and commonalty of the said city, in common council convened; and the mayor, recorder and aldermen of the city of New York, or any three of them, in the said city, and the supervisors or a major part of them, of each of the other counties of the State respectively, shall at their first meeting, after the delivery of such lists, cause tax lists to be made out, according to such lists so delivered, with warrants thereon, under their hands and seals, directed to the collector of the ward or town in which such persons named in such lists, respectively reside, for levying the sum of twenty four shillings of the goods and chattels of each of the persons named in the same lists, and the said collectors are hereby respectively authorized and required, to demand and receive of each of the persons named in such tax list; the said sum of twenty four shillings, and in default of payment, such collector shall levy the said sum of twenty four shillings, by distress and sale of the goods and chattels of the person so neglecting or refusing to pay the same, and in case any person named in such tax list, shall be under age and live with his father or mother, shall be then an apprentice or servant, the master or mistress, or father or mother, as the case may be, shall be liable to pay the said sum of twenty four shillings, for such person so under age; and in default of payment, the collector shall levy the same by distress, and the sale of the goods and chattels of such father or mother, master or mistress, and the said respective collectors, shall respectively pay the said monies, to the city or county treasurer, deducting their fees for collecting, on or before the first Monday in January in every year; and the county treasurers shall respectively pay the same to the treasurer of this State, deducting his fees for receiving the same, on or before the first Monday in March in every year. And

the collectors and county treasurers, shall have the like fees for collecting and receiving the said monies, as they are respectively entitled to, for collecting and receiving the monies, raised for defraying the necessary and contingent charges of the said city or counties.

And whereas, from the dispersed situation of the inhabitants residing within the counties of Otsego, Tioga, Herkemer, Ontario and Clinton they would be subject to great expence and difficulty, if they were obliged to attend regimental parades. Therefore,

Militia of
certain
counties,
rendez-
vous of.

Be it further enacted, That it shall and may be lawful for the militia of the said counties of Otsego, Tioga, Herkemer, Ontario and Clinton to rendezvous by regiments or battalions, as the major general or commanding officer of the division may direct.

Ordering
out of
militia by
command-
ing officers

And be it further enacted, That it shall and may be lawful to and for any major general of a division or commanding officer of a brigade, or commanding officer of a regiment, when and as often as, any invasion may happen, to order out the militia or any part thereof, under their respective commands for the defence of this State, giving notice of such invasion and every circumstance attending the same, as early as possible to their immediate commanding officer, by whom such information shall be transmitted with the utmost expedition to the commander in chief of this State. And that in cases of insurrections, the commanding officer of the regiment within the limits of which any such insurrection may happen, shall immediately assemble his regiment under arms, and having transmitted information thereof, to the commanding officer of the brigade, and to the commander in chief of this State, shall proceed to take such measures to suppress such insurrection, as to any three of the judges or justices of the county, in which such insurrection shall happen, shall appear most proper and effectual. And if any person be wounded or disabled while in actual service of this State, in opposing any invasion or insurrection or in suppressing the same, he shall be taken care of and provided for at the expence of this State.

Provided always, that if such judges or justices, shall deem a greater number of militia requisite to quell such insurrection, they shall and are hereby required to apply for the same, to the commanding officer of the division or any brigade thereof, who are hereby severally required to obey such requisition.

Penalties
for certain
neglects;
collection
of.

And be it further enacted, That every non commissioned officer and private, who shall neglect or refuse to obey the orders of his superior officer while under arms, shall forfeit twenty shillings for every such offence, and if any such non commissioned officer or private, enrolled to serve in either of the companies mentioned in this act, shall refuse or neglect to perform such military duty or exercise, as he shall be required to perform, or shall depart from his colours or guard, without the permission of his superior officer as aforesaid, he shall forfeit the sum of twenty shillings, and for the non payment thereof the offender shall be committed to gaol, by warrant from the captain or commanding officer to the troop or company then present, to which such offender doth belong, there to be confined until the fines as aforesaid, together with the gaolers fees are paid; and the respective sheriffs of the respective cities and counties of the State, are hereby empowered and required to receive the body or bodies of any offender or offenders, as shall be brought to them by virtue of a warrant or warrants under the hand and seal of any officer by virtue of this act, and him or them to keep in safe custody, until such fines as are mentioned in such warrant, together with the gaolers fees as aforesaid, shall be paid or until the said offender or offenders shall be discharged by due course of law; and the sheriffs

and gaolers respectively shall be allowed the same fees as are allowed in other cases.

Provided, that in case of a military guard, where a captain doth not command in person a warrant granted by an inferior officer, who shall have the command of such guard, shall be of the same authority against all offenders, as if such warrant had been issued by such captain.

And be it further enacted, That from and after the first day of January next, the military uniforms of this State shall be as follows, that is to say, general officers; dark blue coats, with buff facings, linings, collars and cuffs and yellow buttons, with buff under cloaths. Regimental and staff officers; dark blue coats, with white linings, scarlet facings, collars and cuffs, and yellow buttons with white under cloaths. Non commissioned officers and privates of the granadier and light infantry companies; dark blue coats, with white linings, scarlet facings, collars and cuffs, yellow buttons and white under cloaths.

Uniforms,
of what to
consist.

And be it further enacted, That it shall and may be lawful, to and for the major general or commanding officer of any division respectively, in the counties of Montgomery, Otsego, Tioga, Herkemer, Ontario and Clinton, if he shall deem it expedient, to direct the light infantry and riflemen of such division, to uniform themselves in rifle frocks and overalls.

Id., in
certain
counties.

And be it further enacted, That every commissioned officer, who shall from time to time be appointed, shall report his acceptance of the office within ten days after having received notice thereof, to such officer or officers, as the commander in chief shall from time to time direct.

Acceptance of
commissions.

And be it further enacted, That all persons who have heretofore been commissioned officers in the line of the army of the United States, and all officers who have served in the militia of levies of this State, or in the militia or levies of any of the United States, or in the militia or levies of the late colony of New York, shall be, and hereby are exempted from serving in the militia of this State, any thing in this act to the contrary notwithstanding.

Certain
former
officers,
exemptions of.

Provided nevertheless, That if any such officer shall be commissioned in the militia, to a rank equal to that which he held in the said army, militia or levies, and shall refuse to accept such commission, such officer so refusing, without giving satisfactory reasons to the council of appointment for such refusal, shall be liable to serve in the militia.

And provided also, that this exception shall not extend to any such persons being officers, who have gone over to, and joined the enemy in the late war.

Provided also, that no commissioned officer shall resign his commission without first making application to the major general or commanding officer of the division to which he belongs, and stating his reasons in writing for the same, which resignation and reasons shall be transmitted by the said commanding officer, to the commander in chief of the militia of this State, together with his opinion thereon, and in case any officer sends in his resignation to the commander in chief, and the same be accepted by the council of appointment, without having pursued the mode herein prescribed, such officer shall be liable to do duty in the militia as a private.

Provided as
to resignations.

And be it further enacted, That the officers of the militia under the existing militia laws of this State, shall be, and hereby are continued in their respective offices under this act, until the person administering the government of this State for the time being, and council of appointment shall otherwise determine.

Present
officers
continued.

Acts repealed.

And be it further enacted, That from and after the seventh day of October next, the act entitled "An act to regulate the militia" passed the fourth day of April one thousand seven hundred and eighty six, and the act entitled "An act to amend an act entitled "An act to regulate the militia" passed the eighteenth day of April one thousand seven hundred and eighty seven, and the thirty first section of an act entitled "An act directing the settlement of public accounts, and for other purposes therein mentioned" passed the twenty second day of March one thousand seven hundred and eighty eight, be and hereby are repealed.

CHAP. 46.

AN ACT concerning the settlement of lands, and for prolonging the time for payment of quit rents.

PASSED the 9th of March, 1793.

Inquisitions to determine what patented lands are forfeited to the State by non-compliance of conditions of settlement.

Be it enacted by the People of the State of New York, represented in Senate and Assembly, and it is hereby enacted by the authority of the same, That the secretary of this State for the time being, shall, and he is hereby enjoined, as soon as conveniently may be, after the first day of January one thousand eight hundred and one, to make out an abstract of all lands granted by letters patent under the great seal of this State, which contains a condition of actual settlement specifying the time limited, in and by such letters patent for such actual settlement, and shall deliver such abstract to the surveyor general for the time being, who shall, and he is hereby enjoined without delay, after the day above mentioned, to make enquiry, and if he shall find that any such lands granted on the condition aforesaid, shall not then be so actually settled, he shall give notice thereof to the attorney general of this State for the time being, who shall without delay cause a writ to be issued out of the court of chancery and directed to the sheriff of the county in which the same land shall be situated, in the form following, The people of the State of New York, to the sheriff of greeting; whereas by our letters patent under our great seal bearing date (reciting the same letters patent) and because we are informed that such settlement (or settlements as the case may be) as the law requires hath not (or have not, as the case may be) been made thereon by reason whereof the same lands ought to revert to us; therefore we command you, that by the oath of twelve, good and lawful men of your bailiwick, you diligently enquire whether such settlement (or settlements as the case may be) hath (or have as the case may be) been made on the said lands or on any and what part thereof as the law requires, and the inquisition which you shall take thereof, do you send under your seal and the seals of those by whose oath you take the same inquisition before us in our court of chancery without delay, wheresoever the said court shall then be, together with this writ; and the sheriff shall upon receiving such writ, affix a copy thereof upon the front door of the court house or place where the courts of common pleas and sessions of the peace in his county were then last held, with a notice of the time when, and place where, the same writ is to be executed, which time shall not be less than sixty days from the time of fixing the same notice in the manner aforesaid, and upon the return of the same writ any person aggrieved by the inquisition thereupon taken may traverse the same; and when any issue shall be joined thereupon, the record thereof shall be sent into the supreme court of judicature of this State, there to be tried and determined

LAWS OF NORTH CAROLINA, 1786.

At a General Assembly, begun and held at Fayetteville on the eighteenth day of November, in the year of our Lord One Thousand Seven Hundred and Eighty-Six, and in the Eleventh Year of the Independence of the said State, being the first session of the said Assembly. *Richard Caswell, Esq.*, Governor.

CHAPTER I.

An Act for Raising Troops for the Protection of the Inhabitants of Davidson County.

Whereas the frequent acts of hostility committed by the Indians on the inhabitants of Davidson county for a considerable time past, renders it necessary that some measures should be taken for their protection:

I. Be it therefore Enacted by the General Assembly of the State of North Carolina, and it is hereby Enacted by the authority of the same, That two hundred and one men shall be enlisted and formed into a military body, for the protection of the inhabitants of Davidson county, in such manner and form, and under such regulations and rules as are herein after mentioned; whose time of service shall continue for two years, commencing from the day of their first general rendezvous at the lower end of Clinch mountain, unless sooner disbanded by the General Assembly.

II. And be it further Enacted, That the said troops, when raised and embodied, shall be formed into three companies, each company consisting of sixty-seven men, and officered by one captain, one lieutenant, one ensign and four serjeants; the whole to be under the immediate command of one major: The major, captains, lieutenants and ensigns to be elected by joint ballot of both Houses of the General Assembly, and commissioned by his Excellency the Governor for the time being: The serjeants to be chosen and appointed by the commissioned officers, or a majority of them, being assembled for that purpose by the commanding officer.

III. And be it further Enacted, That each captain, lieutenant and ensign to be commissioned by virtue of this Act, shall upon the receipt of his commission, without delay, repair to such place as shall be directed by his commanding officer for the purpose of enlisting troops, and use his utmost diligence in so doing; and shall from time to time, and as often as possible, give information to his said commanding officer of the progress he shall have made in that business; and the said commanding officer, so soon as he shall discover that a sufficient number of troops have been raised, shall give intelligence thereof to his Excellency the Governor for the time being, who with the advice of the council of State, shall give orders for the marching the said troops from time to time, into the Cumberland settlements; and the present field officers of Davidson county are hereby authorised and required to give directions for the disposition of the said troops, into such proportions and at such places, as may be deemed most likely to intimidate the Indians, and prevent their incursions into the Cumberland settlements: But nevertheless the commanding officer of the said troops in cases of emergency, or when the situation of affairs or alteration of circumstances shall make it immediately necessary, may take such other measures, and make such other dispositions of the said troops, although not directed thereto

----- page 784 -----

as aforesaid, as may be deemed most conducive to the safety of the inhabitants aforesaid.

IV. And be it further Enacted, That the said troops, when raised and entered upon service, shall be trained and disciplined according to such modes as the commanding officer shall judge most proper, to enable them to oppose the Indians in their manner of fighting with success; but shall be subject to the same rules with respect to their government, as were established in the time of the late war by the Congress of the United States, for the government of the continental army.

V. And be it further Enacted, That every able bodied man who shall be enlisted into the said service, and shall furnish himself with one good rifled or smooth bored gun fit for service, one good picker, shot-bag and powder horn, twelve good flints, one pound of good powder, and two pounds of good leaden bullets or buck-shot, suitable to his gun, shall be entitled to receive from this State on the first day of October, in each year of his service, one blanket, two pair of stockings, two pair of shoes, two shirts, two leather stocks, one good hunting shirt, one good woollen or fur hat of a middle size, one pair of buckskin breeches, and one waistcoat lined, to be provided and furnished by a clothier to be appointed by his Excellency the Governor for the time being; who shall be furnished in convenient time by the commanding officer of the said troops, with a certificate sworn to before some three or more justices of some county within this State, with the amount of the number of troops under his command, entitled to draw clothes according to this Act; which the said clothier shall present to the Governor for the time being, together with the whole amount of each article wanted for the troops, and thereupon his Excellency shall grant him a warrant on the treasury for a sum sufficient to purchase the said articles at a moderate rate, and to defray the expence of making them into suits, and removing them to the troops: And the said clothier shall purchase the said articles and cause them to be made up into suits, and delivered to the troops at the times aforesaid, taking a receipt from each soldier, attested by the captain of the company to which he may belong; for all which services, the said clothier shall be allowed by the General Assembly, on the settlement of his accounts, a sum not less than the amount of the yearly pay hereby appointed for a captain in the said troops.

VI. And be it further Enacted by the authority aforesaid, That the justices of the peace for the county of Davidson, or the major part of them, for that purpose assembled, shall be, and they are hereby authorised and required from time to time, so long as the said troops shall continue in service, to impose a tax on the inhabitants of Davidson, leviable in corn, pork, beef or other species of provision for the support of the said troops, to be collected at such times and places, by such ways and means, under such regulations, by such persons, and in such proportions as the said justices, or the major part of them, shall appoint and direct: And also, the said justices, or the major part of them, shall be empowered to appropriate the public money tax, leviable on the inhabitants aforesaid, (if need should be) to the purpose of defraying the expence of removing the provisions from the place or places of collection to the several stations of the troops; and the said justices, or the major part of them, shall appoint an officer to superintend the collection and removal of the provisions to the troops, who shall be entirely subject to the directions of the commanding officer, with respect to the place, time and quantity of provisions to be delivered, but to be accountable for his receipts to, and to be paid by the said justices, or the majority of them, out of the money tax aforesaid, and to be removable by

----- page 785 -----

them at pleasure. And the collector or collectors of the several species of provisions before mentioned, shall give receipts to the several persons of whom they shall receive any of the before mentioned provisions, which receipts shall be received by the collectors of the public taxes, at such rates as shall be settled by the justices of the said county of Davidson or a majority of them, and they shall be proper vouchers for the said collector in the settlement of his accounts with the county treasurer, and also for the said county treasurer in the settlement of his accounts with the public treasurer, any law to the contrary notwithstanding.

VII. And be it further Enacted, That the officers of the said troops shall be allowed the same clothing herein before allowed to the soldiery, to be furnished by the clothier of the troops, for which he shall be entitled to a warrant on the treasury.

VIII. And be it further Enacted, That the officers and privates of the said troops shall be allowed the same pay and rations (spirituous liquors excepted) as are allowed to the militia officers and privates (regard being had to the ranks of officers) when in the actual service of this State: The payments to be made on the last day of each year's service, or within sixty days after their being disbanded.

IX. And be it further Enacted, That the same person who shall be appointed clothier to the said troops, shall also act as paymaster to them, and shall at a convenient distance before each day of payment exhibit to his Excellency the Governor, a list signed by the commanding officer, countersigned by the captain or commanding officer of each company, and sworn to before some justice of the peace, specifying the number of troops then in service entitled to draw pay, and the day from which each man's pay commenced, and all such as shall have died in the service, with the amount of the sums due at their death, and the total sum due the troops. And the said paymaster shall thereupon obtain a draft on the treasury for such total sum, and shall proceed to the distribution thereof, taking a receipt from each man of the sum paid, attested by the captain of the company.

X. And be it further Enacted, That the captain or commanding officer of each company shall monthly make out a pay-roll of his company, which he shall swear to and sign, and the same be countersigned by the commanding officer of the troops, which shall be transmitted to the treasurer of this State in order to make settlement with the paymaster of the said troops.

XI. And be it further Enacted, That the said clothier and paymaster, before entering on the exercise of his office, shall give bond with sufficient security, in such sum as his Excellency the Governor for the time being shall direct, for the due application of all monies to be received by him according to the directions of this Act, and for the faithful accounting for the same before each General Assembly that shall happen in this State during the continuance of the said troops in service, and also before the General Assembly that shall happen next after the determination of the said service, unless his accounts should be then fully settled and balanced.

XII. And be it further Enacted, That the person to be appointed clothier and paymaster by virtue of this Act, shall provide and furnish the said troops from time to time with such quantities of lead and gun-powder, as shall be required by the commanding officer of the troops; and to that end shall be enabled to draw on the sheriff of Davidson county for all such sums of money belonging to the public that shall happen to be in his hands, as shall be necessary for that purpose.

----- page 786 -----

XIII. And be it further Enacted, That every private to be raised by virtue of this Act, shall be allowed four hundred acres of land to be laid off and allotted in some part of this State west of the Cumberland mountain, in full satisfaction of the half of the first year's pay that shall be due; and in the same proportion for the time that he shall serve over and above one year, in full satisfaction of one half of the pay that shall be due him for such further service. And also the commanding officer of the troops shall be allowed two thousand acres of land, to be allotted as aforesaid, in full satisfaction of half the pay that shall be due him for the first year's service, and in the same proportion for any service over and above the term of one year that he shall perform; and the other officers belonging to the said troops, in like manner shall receive satisfaction for the one half of the pay that shall be due them, in lands in proportion to the quantum of pay that each officer shall be entitled to for the first half year's pay, whenever a proper board shall be appointed for the adjustment of their accounts.

XIV. And be it further Enacted, That if any twenty-five of the said troops shall furnish themselves, each man with a good horse fit for service, four feet eight inches high at the least, and not exceeding nine years of age, with a good saddle and bridle, and one good rifled or smooth bored gun, they shall be formed into a company of cavalry, to be commanded by such officers as a majority of the commissioned officers belonging to the said troops assembled for that purpose shall direct and appoint, and be allowed the same pay and rations (spirituous liquors excepted) as other militia light-horse when in actual service.

XV. And be it further Enacted, That the said troops, when assembled at the lower end of Clinch mountain as aforesaid, shall cut and clear a road from thence the nearest, most direct and convenient way to the town of Nashville on Cumberland river, making the same ten feet wide at the least, and fit for the passage of waggons and carts.

XVI. And be it further Enacted, That his Excellency the Governor shall appoint a commissary or contractor, whose duty it shall be to furnish the troops with the necessary rations on their march to the Cumberland settlement, and with fifteen axes for each company, and grant him a warrant on the treasury for such a sum of money as will enable him to comply with the same; who before he enters on the execution of his appointment shall enter into bond with sufficient security to the Governor for the time being, for the faithful accounting for all such money as he may have received.

EXHIBIT 11
0170

IV. And be it further Enacted, That all offences committed or done against the purview of the aforesaid recited Act, shall hereafter be prosecuted by indictment in any court having cognizance thereof; and all forfeitures shall be recovered by action of debt, bill, plaint or information; one half to the use of the prosecutor, the other half to the use of the State, unless the same have been otherwise provided for by the said Act.

V. And be it further Enacted by the authority aforesaid, That when any person appointed as an overseer of the roads in any county in this State, he shall be deemed and held liable for any neglect in working on the roads, until he shall have made return to the court of his county, and shall make it appear to their satisfaction he has done the duties of an overseer by law directed. (Passed Jan. 6, 1787.)

CHAPTER XIX.

An Act to Empower the Several County Courts Therein Mentioned to Lay a Tax Annually, Not Exceeding Three Years, for the Purpose of Erecting or Repairing the Court House, Prison and Stocks in Each County When Necessary, and for Defraying the Contingent Charges of the County.

Whereas the taxes heretofore levied in the counties of Sampson, Richmond, Johnston, Randolph, Hyde, Anson, Wayne, Martin Cambden, Guilford, Cumberland, Moore, Bladen, Davidson, Surry, Sullivan and Greene for the purposes above mentioned, have been found insufficient for the same: For remedy whereof,

I. Be it Enacted by the General Assembly of the State of North Carolina, and it is hereby Enacted by the authority of the same, That the courts of the several counties herein before named, shall, and they are hereby authorised and empowered from and after the passing of this Act, to lay a tax annually,

----- page 811 -----

not exceeding the sum of three shillings current money on every poll, and one shilling on every hundred acres of land, and on each hundred pounds value of town lots with their improvements in their counties respectively, for the purpose of erecting, finishing or repairing such court house, prison or stocks, in any of the counties aforesaid, when the same may be found by the said court to be absolutely necessary, and for the purpose of defraying the contingent charges; which said tax shall be collected and accounted for in the same manner, at the same time, and by the same persons who are appointed to collect the public tax in each county, and the same so collected, shall be paid into the hands of such person or persons for the purposes aforesaid, as the several county courts shall from time to time direct; which person or persons so nominated and appointed, shall be accountable to the courts of their respective counties for all such monies as he or they may receive in virtue of this Act.

II. And be it further Enacted by the authority aforesaid, That all and every Act and Acts, so far as they come within the purview or meaning of this Act, be, and they are hereby repealed and made void.

CHAPTER XX.

An Act to Prevent the Obtaining of Grants for Lands Lying in the Western Parts of this State to the Prejudice of the First Enters, and Entered in the Office Lately Established for Receiving Entries of Claims of Such Lands, by an Act, Entitled, "An Act for Opening the Land Office for the Redemption of Specie and Other Certificates, and Discharging the Arrears Due to the Army."

Whereas it is the intent and meaning of the said Act and of the Act, hereby revived and put in force, that the first enterers of the vacant and unappropriated lands, if specially located, therein described, shall have preference to all others in surveying and obtaining grants for the same, when such entries have been made: And whereas divers persons have repaired to the lands lying out of the inhabited part of this State, and have caused the same to be surveyed in virtue of entries made subsequent to the entries for the same lands and plats of such surveys to be returned to the secretary's office, have or are about to obtain grants for the same, to the prejudice of the first enterers: For remedy whereof,

I. Be it Enacted by the General Assembly of the State of North Carolina, and it is hereby Enacted by the authority of the same, That every first enterer of any tract of land specially located, lying in the western parts of this State, out of the inhabited parts thereof, shall be allowed the term of two years from the last day of the present session of Assembly to cause the same to be surveyed and to obtain grants thereon; and that all grants and surveys of land lying in the parts aforesaid heretofore or hereafter to be made or obtained within the said two years by any person upon lands previously or first entered by any other person, shall be, and the same are hereby declared to be void and utterly of no effect. And whereas it hath been found impracticable for the surveyors in the different districts and counties west of the Apalachian mountain, to make their surveys within the time limited by law:

II. Be it Enacted, and it is Enacted by the authority of the same, That a further time of two years from and after the expiration of the limitation by law now existing be allowed, in order that the surveyors may complete the surveys as by warrant to them directed.

III. And be it further Enacted, That it shall not be lawful for the secretary

----- page 812 -----

of State, and lie is hereby directed, not to issue any grants for lands lying west of the Cumberland mountain until the end of the next session of Assembly, grants allowed for military services, pre-emption and guard rights excepted.

IV. And be it further Enacted by the authority aforesaid, That the farther time of twelve months shall be allowed to the officers and soldiers of the late continental line of this State, to locate and survey the lands allowed them by law.

V. And be it further Enacted by the authority aforesaid, That the further time of two years shall be given for the registering military grants in this State.

VI. And be it further Enacted, That all deeds, grants and mesne conveyances not issued from the late Lord Granville's office, shall be allowed a further time of two years for probate and registration; all which deeds, grants and mesne conveyances not issued from the Lord Granville's office, although the time in which they ought to have been proved and registered may have elapsed, shall be as valid when proved and registered in pursuance hereof, as if the same had been done in due time according to any former law.

VII. And be it further Enacted, That all surveys already made for removed warrants for lands actually entered in the land office at Hillsborough, and removed on account of the lands entered being previously entered as the law directs, shall be good in law, provided such lands were at the time of such survey actually vacant, and that such survey on removed warrants shall not effect or injure the right of any lands entered and specially located in the office aforesaid, previous to such survey.

CHAPTER XXI.

An Act to Amend an Act, Entitled, "An Act for Emitting One Hundred Thousand Pounds Paper Currency for the Purposes Therein Mentioned," for Appropriating the Tobacco Lately Purchased by Virtue of Said Act Towards Discharging the Interest of the Foreign Debt Due by the United States, and for Making Provision for the Future Discharge of the Principal and Interest of the Said Debt.

Whereas the provision made by the Act, entitled, "An Act for emitting one hundred thousand pounds paper currency for the purposes therein mentioned," was intended to discharge the proportion of this State of the interest of the foreign debt due by the United States, but the said Act is expressed in terms altogether uncertain and insufficient to answer the purpose thereby intended: For remedy whereof,

I. Be it Enacted by the General Assembly of the State of North Carolina, and it is hereby Enacted by the authority of the same, That the delegates from this State in Congress, be and they are hereby authorised to sell and dispose of the said tobacco purchased by the State under the said Act, for the highest price that can be had for the same, and the proceeds of such sale shall be subject to the orders of the board of treasury of the United States, and shall be carried to the credit of this State in account with the United States, in discharge of so much of the interest of the foreign debt due by the United States for which this State is or may be liable; and on such sale being made as aforesaid, they shall without delay advise the Governor thereof, who shall be and is hereby directed and authorised to give the necessary orders to the several commissioners to have the said tobacco respectively by them purchased, carefully reviewed and put in good order and readiness

----- page 813 -----

to be delivered, at the usual place of lading at or near Edenton, Washington or Wilmington, to such person or persons to whom the same may have been sold as aforesaid.

II. And be it further Enacted, That proper persons shall be chosen by joint ballot of both Houses of the General Assembly, for the purpose of purchasing tobacco deliverable at the towns of Halifax, Tarborough and Fayetteville, to whom the treasurer shall pay the monies arising from the revenues and sources of revenues appropriated to the discharge of this State's estimated quota of the interest and principal of the foreign loans, by an Act, entitled, "An Act for the support of government, and for appropriating the revenues of the State;" whereof the monies arising and collected from such revenues in the district of Edenton, Halifax and New Bern, shall be paid as aforesaid to the commissioners of Halifax and Tarborough, that is to say, the one half to each commissioner; and the monies arising from such revenues in the remaining districts in the State, shall be paid to the commissioner purchasing at Fayetteville for the purposes aforesaid; and the commissioners so appointed shall be entitled to the same commissions for such service, take the same oath and give the same security for the faithful performance of the trust reposed in them, which was required of the commissioners appointed for similar purposes under an Act passed at New Bern in 1785, entitled, "An Act for emitting one hundred thousand pounds paper currency for the purposes therein expressed."

III. And be it further Enacted, That the said commissioners shall not on any pretence give more than the current cash price of the day for each hundred weight of merchantable tobacco, which tobacco shall be disposed of for the purposes aforesaid, as the next General Assembly shall direct, and the said commissioners shall settle their accounts with the comptroller of this State on or before the first day of March, 1788. (Passed Jan. 6, 1787.)

CHAPTER XXII.
An Act for Establishing a Militia in this State.

Whereas in all republican governments a well regulated militia is highly necessary for the defence and safety thereof:

I. Be it therefore Enacted by the General Assembly of the State of North Carolina, and it is hereby Enacted by the authority of the same, That all freemen and indentured servants within this State, from eighteen to fifty years of age, shall compose the militia thereof; Judges of the superior court of law, delegates, secretary, councillor of State, treasurer, attorney general, ministers of the gospel of every denomination having the cure of souls, ferrymen, branch pilots, inspectors of public warehouses, justices of the peace, and continental officers who have served with reputation three years or to the end of the war, unless sooner deranged by a reform of the army, excepted. Provided, That nothing herein contained shall be construed so as to exempt any person from performing duty in case of insurrection or invasion in this State: organized in the following manner, to wit: The militia of each district shall compose a brigade, the infantry of each county shall form a regiment consisting of one or more battalions, with eight regiments of cavalry and two battalions of artillery, formed as hereinafter directed. Provided, That no person shall be enrolled in any troop of horse until approved of by the field officers of the regiment of his county, but shall until then do his duty in the infantry.

II. And be it further Enacted by the authority aforesaid, That each and

----- page 814 -----

every company of infantry shall consist of one captain, one lieutenant, one ensign, three serjeants, three corporals, one drummer, one fifer and not less than fifty privates; all of whom shall reside in the district: And one troop of horse shall be formed in each county, consisting of one captain, one lieutenant, one cornet, three serjeants, three corporals, one trumpeter and thirty-two privates, and the cavalry in each district shall compose one regiment: And there shall also be one company of artillery in each borough town in this State, consisting of one captain, one captain-lieutenant, and one lieutenant, three serjeants, three corporals, two drummers, two fifers and fifty-two privates, which shall be formed into two battalions, composing one regiment.

III. And be it further Enacted by the authority aforesaid, That each brigade shall be commanded by a brigadier-general, each regiment of infantry by a lieutenant-colonel Commandant, a lieutenant-colonel and two majors, except where there may be two or more battalions in one county, then in that case by a lieutenant-colonel commandant of the regiment, and one lieutenant-colonel and one major to each battalion; and each regiment of cavalry by one lieutenant-colonel commandant and two majors; and the regiment of artillery by a lieutenant-colonel commandant and two majors, one to each battalion; who shall be chosen by a joint ballot of both houses of the General Assembly in all cases of vacancy: And the brigadier-general of each district is hereby authorised to appoint the brigade-major, aid-de-camp and inspector to the brigade; the adjutant, the surgeon, and the drum and fife-major shall be appointed by the commanding officer of each regiment; and the non-commissioned officers, drummers, fifers and trumpeters shall depend on the appointment of the captain

CHAPTER MDCXCVI.

AN ACT FOR THE REGULATION OF THE MILITIA OF THE COMMON-WEALTH OF PENNSYLVANIA.

Whereas a well regulated militia is the only safe and constitutional method of defending a free state, and whereas, the

several laws enacted by the legislature of this commonwealth for the regulation of the militia thereof, have been found to require material alterations, in order to which it has been thought more advisable to revise the whole system, than to amend it by supplementary statutes: Therefore:

[Section I.] (Section I, P. L.) Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, That each and every free, able-bodied, white, male citizen of this or any other of the United States, residing in this commonwealth, who is or shall be of the age of eighteen years and under the age of forty-five years, except as hereinafter excepted, shall severally and respectively be enrolled in the militia, by the captain or commanding officer of the company within whose bounds such citizen shall reside, within three months after the passing of this act, and that it shall be at all times hereafter the duty of every such captain or commanding officer of a company, to enroll every such citizen as aforesaid, and also those who shall from time to time arrive at the age of eighteen years, or being of the age of eighteen years and under the age of forty-five years, and not excepted by this act, shall come to reside within his bounds, and shall without delay notify such citizen of the said enrollment by a proper non-commissioned officer of the company, by whom such notice may be proved; and all cases of doubt respecting the age of any person enrolled or intended to be enrolled, the party questioned shall prove his age to the satisfaction of the officers of the company within whose bounds he may reside, or a majority of them.

[Section II.] (Section II, P. L.) And be it further enacted by the authority aforesaid, That the vice president of the United States, officers, judicial and executive, of the government of the United States, the members of both houses of congress and their respective officers, judges of the supreme court, judges of the court of common pleas, attorney general, secretary and treasurer of the state, sheriffs, gaolers and keepers of workhouses, all post-officers and stage-drivers who are employed in the care and conveyance of the mail of the post

office of the United States, all ferrymen employed at any ferry on the post roads, all inspectors of exports, all pilots, all mariners actually employed in the sea service of any citizen or merchant within the United States, ministers of religion of every denomination, professors and teachers in the university, colleges, academies and schools, the librarian of the library company of Philadelphia and of the Loganian library, and menial servants of ambassadors or ministers and consuls from foreign states, and no other person or persons, shall be, and are hereby, excepted from military duty, notwithstanding their being above the age of eighteen and under the age of forty-five years. And also all young men under the age of twenty-one years, and all servants purchased bona fide and for a valuable consideration, though enrolled agreeably to the first section of this law, shall be exempted from furnishing the necessary arms, ammunition and accoutrements, as are required by the fifth section thereof, and shall be excepted from militia duties and fines during such minority or servitude, except in cases of rebellion, or an actual or threatened invasion of this or any of the neighboring states.

[Section III.] (Section III, P. L.) And be it further enacted by the authority aforesaid, That the militia of this commonwealth shall, within the respective bounds hereinafter mentioned, be arranged into divisions, brigades, regiments, battalions and companies; that each brigade so to be formed shall consist of not less than two nor more than eight regiments; each regiment into two battalions; and each battalion into four companies, in such manner that no company shall consist of more than eighty or less than forty individuals, or as near as may be, having regard to their local situations; there shall be to each battalion at least one company of grenadiers, light infantry or riflemen, and to each division there shall be at least one company of artillery and one troop of horse, which shall be formed of volunteers from the respective brigades at the discretion of the governor, not exceeding one company of each to a regiment, nor more in number than one-eleventh part of the infantry.

Provided always, That the several volunteer corps of artillery, cavalry and infantry, which have hitherto existed in this commonwealth and have not been included in the general formation of the militia, shall continue to exist as heretofore, and retain the privileges which they have hitherto enjoyed.

[Section IV.] (Section IV, P. L.) And be it further enacted by the authority aforesaid, That the territory of this commonwealth, for the purpose of making the arrangement in the preceding section mentioned, be and is hereby divided into division bounds as follows, to wit.: The city and county of Philadelphia shall form one division; the counties of Bucks and Montgomery one other division; the counties of Chester and Delaware one other division; the counties of Lancaster and York one other division; the counties of Berks and Dauphin one other division; the counties of Cumberland and Franklin one other division; the counties of Northampton, Northumberland and Luzerne one other division; the counties of Bedford, Huntingdon and Mifflin one other division, and the counties of Westmoreland, Washington, Fayette and Allegheny one other division. The city of Philadelphia shall form a brigade, and each county shall form a brigade; provided that it shall be lawful for the governor to divide any county into two brigades, when the number of men enrolled in the militia of such county shall exceed four thousand.

[Section V.] (Section V, P. L.) And be it further enacted by the authority aforesaid, That in order that the militia may be properly armed, equipped and accoutred, every citizen enrolled and notified of this enrollment in manner aforesaid, except as is hereinbefore excepted, shall, within six months after receiving such notice, provide himself with the arms, ammunition and accoutrement hereinafter mentioned, viz.: Every non-commissioned officer and private of the infantry (including grenadiers and light infantry and of the artillery) shall have a good musket or firelock, a sufficient bayonet and belt, two spare flints and a knapsack, a pouch with a box therein, to contain not less than twenty-four cartridges suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball, or with a good rifle, knapsack,

shot-pouch and powder horn, twenty balls suited to the bore of his rifle and a quarter of a pound of powder; the commissioned officers of infantry shall be armed with a sword or hanger and an espontoon, and those of artillery with a sword or hanger, a fuzee, bayonet and belt, and a cartridge box to contain twelve cartridges. The commissioned officers of the several troops of horse shall furnish themselves with good horses, of at least fourteen hands and an half high, and shall be armed with a sword and a pair of pistols, the holsters of which shall be covered with bearskin caps; each light-horseman or dragoon shall furnish himself with a serviceable horse, of at least fourteen hands and an half high, a good saddle, bridle, mail pillion and valise holsters, and a breast plate and cupper, a pair of boots and spurs, a pair of pistols, a sabre and a cartouch box, to contain twelve cartridges for pistols; the artillery and horse shall be uniformly clothed in regimentals, to be furnished at their own expense, the color and fashion to be determined by the brigadier commanding the brigade to which they belong; every militiaman shall appear so armed, accoutred and provided when called out to exercise or into service (except that when called out on company days to exercise only he may appear without a knapsack) and every man so enrolled as aforesaid, and providing himself with the arms, ammunition and accoutrements required as aforesaid, shall hold the same exempted from all suits, distresses, executions, or sales for debt or the payment of taxes. Each battalion and regiment shall be provided with the state and regimental colors by the field officers, and each company with a drum and fife or bugle horn by the commissioned officers of the company; the expenses of such colors, drums, fifes or bugle horns to be repaid to the officers out of the fines incurred by this act.

Provided always, That whenever the field officers of any regiment shall judge any person enrolled therein, unable to arm and equip himself as aforesaid, such person shall not be subject to any fine for not arming, anything herein contained to the contrary notwithstanding.

1798] *The Statutes at Large of Pennsylvania.*

459

[Section VI.] (Section VI, P. L.) And be it further enacted by the authority aforesaid, That the militia shall be officered as follows: To each division one major-general and two aides-de-camp, with rank of major; to each brigade one brigadier general, with one brigade inspector to serve also as brigade-major, with rank of major; to each regiment one lieutenant-colonel commandant; and to each battalion one major; to each company of infantry, (including light infantry and grenadiers) one captain, one lieutenant, one ensign, four sergeants, four corporals, one clerk, one drummer and one fifer or bugler; that their shall be a regimental staff, to consist of one adjutant and one quarter-master, to rank as lieutenants; one paymaster, one surgeon and one surgeon's mate, one sergeant major, one drum major and one fife major; there shall be to each company of artillery one captain, two lieutenants, four sergeants, four corporals, six gunners, six bombardiers, one drummer and one fifer; and to each troop of horse there shall be one captain, two lieutenants, one cornet, four sergeants, four corporals, one saddler, one farrier and one trumpeter; there shall be an adjutant-general appointed for the whole militia.

[Section VII.] (Section VII, P. L.) And be it further enacted by the authority aforesaid, That the adjutant-general, major-general, brigadier-general and brigade inspectors, shall be appointed and commissioned by the governor; the division and brigade officers to be residing within their respective divisions and brigade bounds; that the majors-general shall appoint their own aides-de-camp out of the line of captains or subalterns; that the field officers of each regiment shall appoint their respective regimental staffs; that the lieutenant-colonels, majors, captains, lieutenants and ensigns, shall be elected in form and manner hereinafter mentioned and provided for; that all commissioned officers shall be commissioned for seven years, and shall take rank according to the date of their commissions, and when two of the same grade bear an equal date, then their rank shall be determined by lot to be drawn by them before the commanding officer of the brigade, regiment, battalion, company or detachment.

[Section VIII.] (Section VIII, P. L.) And be it further enacted by the authority aforesaid, That the duty of the adjutant-general shall be to distribute all orders from the governor, as commander-in-chief of the militia of the state, to the several corps; to attend all public reviews when the governor shall review the militia; to obey all orders from him relating to the carrying into execution and perfecting the system of military discipline established by this act; to furnish blank forms of the different returns that may be required, and to explain the principles on which they should be made; to receive may be furnished therewith; from all which returns he shall make a general return of all the militia of the state, and lay the same before the governor and a duplicate thereof before the president of the United States; that the said adjutant-general, before he enters upon the exercise of the duties of his office, shall give bond with two or more sufficient sureties in the penalty of five thousand dollars, conditioned for the due and faithful performance of the said duties, and shall in full compensation for his services receive a yearly salary of eight hundred dollars.

[Section IX.] (Section IX, P. L.) And be it further enacted by the authority aforesaid, That it shall be the duty of the brigade inspectors to attend the regimental and battalion meetings of the militia composing their several brigades during the time of their being under arms; to inspect their arms, ammunition and accoutrements, superintend their exercise and manoeuvres, and introduce throughout the state the system of military discipline established by this act, as well as such orders as they shall from time to time receive from the governor, as commander-in-chief of the militia, to make returns to the adjutant-general at least once in every year, and at such stated time or times as the governor shall direct, of the militia of the brigade to which he belongs, reporting therein the actual situation of the arms, accoutrements and ammunition of the several corps and every other thing which in his judgment may relate to their government and the general advancement of good order and military discipline; that it shall

moreover be the duty of the said brigade inspectors to superintend the elections of the field officers, to procure and furnish arms, accoutrements, ammunition, drums, fifes, bugle horns, carriages for the transportation of baggage and other articles that may be wanted for the use of their respective brigades, and to do all and every such other duties as are enjoined upon them by this act, in form and manner therein prescribed; and in full compensation for all their services, each of the said brigade inspectors shall receive the yearly salary of two hundred dollars; and each of the said inspectors before he enters upon the duties of his office shall give bond with one or more sufficient sureties in the penal sum of one thousand dollars, conditioned for the due and faithful performance of the said duties and for the faithful accounting for, according to law, and paying of all the moneys which shall come to his hands by virtue of this act, when thereunto lawfully required; and each of the said inspectors shall, once in every twelve months, make out complete accounts of all the moneys received by him, and of his expenditures, and return the same to the adjutant-general, and on failure of accounting as aforesaid, each inspector shall forfeit and pay for every such neglect the sum of fifty dollars, to be applied as other fines are directed to be applied by this act; and on the death, removal, or resignation of any of the said inspectors, such inspector, his executors or administrators, shall, on the reasonable demand in writing of his successor in office, or of any other person who shall be appointed by the governor to receive the same, deliver up to the said successor, or other person as aforesaid, all and singular the books, duplicates, returns and other papers belonging to or in use in the said office, and on refusal thereof, he or they so offending, shall forfeit the sum of one thousand dollars and the necessary cost of prosecution, to be recovered by the said successor in office, or other person duly authorized as aforesaid, upon indictment, bill, plaint or information, or by action of debt, in any court of record within this state, to be applied as other militia fines are directed to be applied by this act, and in case of a second refusal, such person or persons so refusing

shall suffer as well the said penalty as the further punishment of six months' imprisonment, without bail or mainprise, and the judges of the court where such penalty shall be recovered shall order the said commitment accordingly.

[Section X.] (Section X, P. L.) And be it further enacted by the authority aforesaid, That each of the said inspectors shall, on or before the first Monday in May next, and some time between the first day and last day of March in every succeeding year, issue his warrant, directed to the captain or commanding officer for the time being of each company of the several battalions, or some other fit person in his brigade, commanding him in the name of the commonwealth to deliver to him, the said inspector, within ten days from and after the date of the said warrant (on oath or affirmation, which the said inspectors are hereby severally empowered to administer), a true and exact list of the names and surnames of each and every free, able-bodied, white, male citizen of this or any other of the United States, residing within the bounds of his company, between the ages of eighteen and forty-five years, not being such as are above declared excepted from militia duty, and lay such lists, within three days after he shall have received the same, before the brigadier general of his brigade, who shall thereupon divide his said brigade into regimental battalions and companies, in manner hereinbefore directed, to each of which he shall appoint proper districts or local subdivisions, paying due regard to the conveniency of the inhabitants, and taking care that each person be annexed to the numercial class to which he formerly belonged.

[Section XI.] (Section XI, P. L.) And be it further enacted by the authority aforesaid, That the elections of such officers as are by this act declared to be elective, shall be made as follows: The several brigade inspectors shall, on or before the first Tuesday of June next, give notice, by advertisement at eight or more of the most public places of each regiment bounds or district, appointing a certain day for each district, not less than ten days after the said notice, and requiring all the citizens enrolled in the said regiment and residing within the bounds thereof, except as is hereinbefore excepted, to meet at a cer-

tain place as near the centre of the said district as may be, and then and there, between the hours of ten in the morning and six in the afternoon of the said day, to elect by ballot one lieutenant colonel; and the enrolled inhabitants of each battalion bounds, respectively, shall elect by ballot as aforesaid, on the same or some other day and at such place or places as shall be most convenient, but with the least possible delay, one major; and the enrolled inhabitants of each company bounds, respectively, shall elect by ballot as aforesaid, on the same or some other day and at such place or places as shall be most convenient, but with the least possible delay, one captain, one lieutenant and one ensign; previous to which said election or elections, respectively, the said enrolled inhabitants shall elect two respectable citizens to preside as judges thereof, who shall certify to the inspector the names of the persons so elected, and each captain shall appoint a suitable person for a clerk in his company, and the said inspector shall attend and superintend each and every of the said battalion elections, and after the officers are elected shall give notice thereof to the brigadier, who shall cause the lieutenant colonels of his brigade to assemble together, as soon as may be, to cast lots for rank of the regiments, and the said lieutenant colonels shall afterwards call together the majors and captains of their respective regiments, to cast lots in like manner for their respective ranks, and the ranks of the lieutenants and ensigns shall be determined by the ranks of the captains, respectively, and the said inspectors shall, as soon as may be after the officers shall have been elected and their ranks ascertained, transmit proper certificates to the governor, of the names of the persons so as aforesaid elected and their ranks, in order that commissions may be granted to them according to the said certificates; and elections for officers in the light-horse shall be made in like manner as elections for officers in the infantry and artillery, and in every case of future vacancy, whether by death, resignation or absence, as hereinafter provided, the brigadier, in whose brigade such vacancy or vacancies shall happen, shall immediately, upon receiving notice thereof, cause one or more regiment, battalion or com-

pany elections to be held in manner and form aforesaid, in order to supply the same, and shall, when there shall be occasion, cause the ranks to be ascertained, and make return to the governor in manner hereinbefore provided; and whenever any vacancy or vacancies shall happen, as aforesaid, in any regiment, battalion or company, the commanding officer of such regiment, battalion or company, for the time being, shall give immediate notice thereof to the inspector of his brigade, that the same may be filled up without loss of time; and if any regiment, battalion, troop or company, being duly noticed and required as aforesaid, shall neglect or refuse to elect their officers as aforesaid, then it shall and may be lawful for the inspector of the brigade to which such regiment, battalion, troop or company shall belong, to nominate, with the approbation of the brigadier-general, one suitable person to the governor, in the room of each officer so neglected to be chosen, and the said governor, approving thereof, shall commission the said person, which shall be as effectual to all intents and purposes as if the said officers had been elected as before directed; and the said inspector shall, as soon as may be, acquaint the parties so neglecting or refusing with the appointments that shall have been made as aforesaid.

[Section XII.] (Section XII, P. L.) And be it further enacted by the authority aforesaid, That if any commissioned officer shall remove out of the bounds of his proper division, brigade, battalion or company, except within the city of Philadelphia (as the case may be), or shall be absent therefrom (otherwise than on militia duty) for more than six months, his office shall be thereby vacated; and if a light-horseman shall remove or be absent in like manner from the bounds of his troop, or be appointed or elected a commissioned officer in any other part of the militia, his place in the said light-horse shall likewise be vacated.

[Section XIII.] (Section XIII, P. L.) And be it further enacted by the authority aforesaid, That every militia-man migrating or removing out of the bounds of one battalion or company to another, shall apply to the commanding officer of the company to which he did belong, who shall give him a

discharge, certifying the class to which he belongs, and whether he has served his tour of duty or not, and the time and date of said service, which certificate the said militia-man shall produce to the captain or commanding officer of the company in whose bounds he next settles, within ten days after his settlement, and the said captain or commanding officer is hereby required to enroll him in the class specified in the said certificate.

[Section XIV.] (Section XIV, P. L.) And be it further enacted by the authority aforesaid, That the whole of the militia of this state shall be subject to be mustered and exercised in regiments and in companies, by their respective officers, in the autumn or fall season of every year, on the days hereinafter stated, to wit: In regiments, as follow: the first regiments of each and every brigade in the commonwealth, shall be exercised on the third Monday in the month of October; the second regiments, on the Tuesday following; the third regiments, on the Wednesday; and so on, according to their numerical rank, on every day in the week (Saturdays and Sundays excepted) until the whole number of regiments shall have mustered and exercised in the aforesaid manner; and the several regiments shall meet and exercise in companies on the first Monday in the month of October; and the militia shall be and is hereby indemnified and excused from mustering and exercising on any other days than those enumerated in this act.

[Section XV.] (Section XV, P. L.) And be it further enacted by the authority aforesaid, That if any commissioned officer shall, without a lawful excuse, neglect or refuse to attend on any of the days hereinbefore appointed for exercise, if a field officer, he shall forfeit and pay the sum of four dollars; and every other commissioned officer shall forfeit and pay the sum of two dollars; and every non-commissioned officer or private, so neglecting or refusing to attend, shall forfeit and pay the sum of one dollar for every such neglect or refusal; except such commissioned officer, non-commissioned officer and privates, who shall be summoned and actually attending, on any of the days of exercise, aforesaid, as a juror or witness in

30—XIV

any court within this commonwealth, and the same fines shall be respectively paid by every officer, non-commissioned officer or private who shall leave the parade on a day of exercise before the regiment or company is discharged, without leave first had and obtained of the officer commanding.

[Section XVI.] (Section XVI, P. L.) And be it further enacted by the authority aforesaid, In order to ascertain those persons who by their absence on the days of exercise shall have incurred the fines above mentioned, a sergeant or the clerk of each company shall, on every such day, in the presence of the captain or commanding officer of the company, at the end of one hour after the time appointed for the meeting of the company or regiment, and also after the exercise is over and before the men are discharged, call over a muster-roll of the company, noting those who are absent, and a return shall be made on the same or following day of such absentees, which shall be signed by the sergeant or clerk and by the captain or commanding officer of the company, and shall, within ten days thereafter if a regimental meeting, or if a company meeting, within ten days after the next regimental meeting, be returned by the said captain or commanding officer of the company, upon his oath or affirmation, to the inspector of the brigade, under the penalty of fifty dollars for every time he shall refuse or neglect to make such return, and if any of the said absentees shall have been unable to attend from sickness or unavoidable necessity, and shall within the space of eight days next after the day of exercise, state his case by himself or his friend to the said captain or commanding officer of the company, and satisfy him of the truth thereof, then the said captain or commanding officer of the company, shall mention in his said return the particular reasons of excuse which each absentee shall have made appear to his satisfaction, and the inspector, on sight of the said return, shall admit every such excuse as shall appear to him reasonable, without favor or partiality, and remit the fines accordingly, but no excuse shall be received at any other time or in any other manner, than as is above prescribed.

1798] *The Statutes at Large of Pennsylvania.*

467

[Section XVII.] (Section XVII, P. L.) And be it further enacted by the authority aforesaid, That whenever it may be necessary to call into actual service any part of the militia in case of rebellion, or of an actual or threatened invasion of this or any of the neighboring states, then it shall and may be lawful for the governor to order into actual service, such part of the militia, by classes, as the exigency may require;

Provided, That the part so called doth not exceed four classes of the militia of the brigade or brigades so called out.

And provided also, That such brigade or brigades shall not be again called out to furnish any more militia, until an equal number of classes of the militia of the other brigade or brigades, respectively, be first called, unless the danger of an invasion from Indians or others should make it necessary to keep in reserve the militia of such brigade or brigades for their own immediate defence.

[Section XVIII.] (Section XVIII, P. L.) And be it further enacted by the authority aforesaid, That to the end that the militia, when called by classes, shall be properly officered, the following order is hereby directed and enjoined; that is to say, for the first draft, the captain of the first company, the lieutenant of the second and the ensign of the fourth; second draft, the captain of the second company, the lieutenant of the first and the ensign of the third; third draft, the captain of the third company, the lieutenant of the fourth and the ensign of the second; fourth draft, the fourth captain, the lieutenant of the third company and the ensign of the first; fifth draft, the fifth captain, the lieutenant of the sixth company and the ensign of the eighth; sixth draft, the sixth captain, the lieutenant of the fifth company and the ensign of the seventh; seventh draft, the captain of the seventh company, the lieutenant of the eighth and the ensign of the sixth; eighth draft, the captain of the eighth company, the lieutenant of the seventh and the ensign of the fifth; non-commissioned officers to take tour of duty with the commissioned officers, and the field officers of regiments, in every division and brigade in the state, shall be divided in like manner, and each class to be considered as a detachment from different corps liable to serve two months and no longer, and to

be relieved by the class next in numerical order, the relief to arrive at least two days before the expiration of the term of the class to be relieved, but nothing herein contained shall prevent the governor from employing and calling out part of any class, or any company or companies, regiment or regiments, without respect to this rule, whenever the exigency is too sudden to allow the assembling of the scattered militia which compose the particular classes, and the services of the persons so called out shall be accounted as part of their tour of duty, and the pay of the militia in actual service shall commence two days before marching, and they shall receive pay and rations at the rate of fifteen miles per day on their return home.

[Section XIX.] (Section XIX, P. L.) And be it further enacted by the authority aforesaid, That it shall and may be lawful for any person called to do a tour of duty to find a sufficient substitute, such substitute being approved of by the captain or commanding officer of the company which he shall be offered to serve in.

Provided always, That persons serving by substitute as aforesaid, if said substitute shall be called in his own turn into actual service before the term expires which he was to serve for his employer, that then the person procuring such substitute shall march in his said substitutes' turn, or be liable to pay his fine for neglect, which fine is to be recovered as other fines for neglect of serving are by this act directed to be recovered, and that sons who are not subject to the militia law may be admitted as substitutes for their fathers.

[Section XX.] (Section XX, P. L.) And be it further enacted by the authority aforesaid, That when the militia, or any detachment thereof, are called out on duty, the pay of each major-general shall be sixty dollars per month; of each brigadier general, fifty dollars per month; of each lieutenant-colonel, forty dollars per month; of each major, thirty dollars per month; of each captain, twenty-five dollars per month; of each lieutenant, twenty dollars per month; of each ensign, fifteen dollars per month; of each sergeant, eight dollars per month; of each corporal, seven dollars per month; and of each private and musician, six dollars per month; and that every person

1798] *The Statutes at Large of Pennsylvania.*

469

refusing or neglecting to perform his tour of duty, in person or by substitute, shall pay the sum of twelve dollars for every such neglect or refusal, if the tour was to be for a term not exceeding one month and in proportion if the tour was to be for any longer term.

[Section XXI.] (Section XXI, P. L.) And be it further enacted by the authority aforesaid, That when any class or classes of the militia shall be called to perform any tour of duty, the brigade inspector shall cause each and every person so called to be notified of such call, by a written or printed notice being delivered to him personally, or left at his house or usual place of abode, by some officer or other fit person employed for that purpose by the commanding officer of said company, at least three days before the time of assembling the said militia, unless the governor, on a sudden exigency, shall think proper to order any part of the militia into immediate and actual service, and then the notice mentioning such special order shall be given for immediate attendance; and any person refusing or neglecting to perform such tour of duty, shall pay a fine of sixteen dollars per month for every such offence.

[Section XXII.] (Section XXII, P. L.) And be it further enacted by the authority aforesaid, That the inspector shall, forthwith after the marching of any part of the militia, call to his assistance two reputable citizens, one of whom shall be a justice of the peace, to sit at the most convenient place for the inhabitants of their respective districts, notice having been given of such place in the written or printed summons of every militia-man so called out, and shall there hear and determine all appeals that may be made by the persons thinking themselves aggrieved by anything done in pursuance of this act; and they are hereby authorized and required to grant such relief to such appellant as to them shall appear just and reasonable (in consideration of such inability of body as in the opinion of the court renders him incapable of performing military duty) or of unavoidable absence from the brigade in which he shall reside; and each of the said reputable citizens, before they shall sit on the said appeal, shall take the following oath or affirmation, viz.: That he will hear and impartially deter-

mine on the cases of appeal that may be laid before him, agreeably to law and according to the best of his knowledge; which oath or affirmation the inspector is hereby empowered to administer, and the said justice and citizen shall have and receive from the said inspector the sum of one dollar each, for every day they sit on the appeals; and the said inspector and justice of the peace shall keep a separate record of the proceedings of such court of appeals, and if any delinquent, whose appeal shall have been determined against him, shall not pay his fine within five days after such determination, the inspector shall and may proceed to levy the said fine in manner hereinafter mentioned.

[Section XXIII.] (Section XXIII, P. L.) And be it further enacted by the authority aforesaid, That the commanding officers of the several regiments shall attend at the place of rendezvous of the marching class or classes, and the commanding officers of the marching class or classes are hereby required, then and there to deliver, to the commanding officer of the regiment, a muster-role of all those who attend and proceed to perform their then required tour of duty, under the penalty of fifty dollars, which return or muster-roll shall be transmitted by the said commanding officer of the regiment, within five days after marching, under the penalty of fifty dollars, to the inspector of the brigade to which they respectively belong.

[Section XXIV.] (Section XXIV, P. L.) And be it further enacted by the authority aforesaid, That the following articles, rules and regulations shall be those by which the militia shall be governed.

Article 1. If any field or other commissioned officer at any regimental review, or on any other occasion when the regiment or company to which he may belong, or in which he holds a command, is paraded in arms, shall appear, misbehave or demean himself in an unofficerlike manner, he shall, for such offence, be cashiered or punished by fine at the discretion of a general court martial, as the case may require, in any sum not exceeding sixty dollars, and if any non-commissioned

officer or private shall, on any occasion of parading the company to which he belongs, appear with his arms and accoutrements in an unfit condition, or be drunk, or shall disobey orders, or use any reproachful or abusive language to his officers, or any of them, or shall quarrel himself or promote any quarrel among his fellow soldiers, he shall be disarmed and put under guard, by order of the commanding officer present, until the company is dismissed, and shall be fined, at the discretion of a regimental court martial, in any sum not exceeding four dollars, nor less than one dollar.

Article 2. If the lieutenant colonel or commanding officer of any regiment shall neglect or refuse to give orders for assembling his regiment at the times appointed by this law, or at the direction of the inspector of the brigade to which he belongs, when the said inspector is thereto commanded by the governor, or in case of an invasion of the city or county to which such regiment belongs, he shall be cashiered and punished by fine not exceeding two hundred dollars, at the discretion of a general court martial; and if a commissioned officer of any company shall, on any occasion, neglect or refuse to give orders for assembling the company to which he belongs, or any part thereof, at the direction of the lieutenant colonel or commanding officer of the regiment to which such company belongs, he shall be cashiered and punished by fine not exceeding sixty dollars, at the discretion of a regimental court martial, and a non-commissioned officer offending in such case shall be fined, at the discretion of a regimental court martial, in any sum not exceeding twenty dollars.

Article 3. If any captain or commanding officer of a company shall refuse or neglect to make out a list of the persons noticed to perform any tour of duty, and send or convey the same to the lieutenant-colonel or commanding officer of the regiment to which such company may belong, for such neglect or refusal he shall be cashiered or fined, at the discretion of a regimental court martial, in any sum not exceeding forty dollars.

Article 4. If any militia-man shall desert while he is on a tour of duty, he shall be fined twenty-four dollars for every such

offence; if a non-commissioned officer, he shall be degraded and placed in the ranks.

Article 5. Every general court martial shall consist of thirteen members, all of whom shall be commissioned officers and of such rank as the case may require, and these thirteen shall choose a president out of their number, who shall be a field officer.

Article 6. Every regimental court martial shall be composed of five members, all commissioned officers, who are to choose one of their members a president, not under the rank of captain.

Article 7. In any court martial, not less than two-thirds of the members must agree in every sentence for inflicting any punishment, otherwise the person charged shall be acquitted.

Article 8. The president of each and every court martial, whether general or regimental, shall require all witnesses, in order to the trial of offenders, to declare on oath or affirmation that the evidence they shall give is the truth, the whole truth and nothing but the truth, and the members of all such courts shall take an oath or affirmation, which the president is required to administer to them, that they will give judgment with impartiality.

Article 9. All members of any militia called as witnesses in any case before a court martial, who shall refuse to attend and give evidence, shall be censured or fined, at the discretion of the court.

Article 10. No officer or private man being charged with transgressing these rules, shall be suffered to do duty in the regiment, company or troop to which he belongs, until he has his trial by a court martial, and every person so charged shall be tried as soon as a court martial can conveniently be assembled.

Article 11. If any officer or private man shall think himself injured by his lieutenant colonel or the commanding officer of the regiment, and shall, upon due application made to him, be refused redress, he may complain to the brigadier general, who shall direct the inspector of the brigade to summon a general court martial, that justice may be done.

Article 12. If any inferior officer or private man shall think himself injured by his captain or other superior in the regiment, troop or company to which he belongs, he may complain to the commanding officer of the regiment, who shall summon a regimental court martial, for doing justice, according to the nature of the case.

Article 13. No penalty shall be inflicted at the discretion of court martial other than degrading, cashiering or fining.

Article 15.* The commanding officer of the militia, for the time being, shall have full power of pardoning or mitigating any censures or penalties ordered to be inflicted on any private or non-commissioned officer, for the breach of any of these articles, by a general court martial; and every offender convicted, as aforesaid, by any regimental court martial, may be pardoned, or have the penalty mitigated by the lieutenant colonel or commanding officer of the regiment, excepting only where such censures or penalties are directed as satisfaction for injuries received by one officer or private man from another; but in case of officers, such sentence to be approved by the commander-in-chief, or the nearest general officer of the militia, who are respectively empowered to pardon or mitigate such sentence, or disapprove of the same.

Article 16. The militia, on the days of exercise, may be detained under arms on duty in the field, any time not exceeding six hours, provided they are not kept above three hours under arms at any one time, without allowing them a proper time to refresh themselves.

Article 17. No company or regiment shall meet at a tavern on any of the days of exercise, nor shall march to any tavern before they are discharged, and any person who shall bring any kind of spirituous liquors to such place of training, shall forfeit such liquors, so brought, for the use of the poor belonging to the ward, district or township where such offender lives.

Article 18. All fines that shall be incurred by any breach of these rules, shall be paid into the hands of the inspectors of the brigades to which the offenders belong, or to such person

*This mistake in numbering occurs in the original.

or persons as he shall appoint and make known in general or brigade orders as his agents or attorneys to receive the same, within three weeks after they become due, but in case of neglect or refusal to pay any of the said fines, the said inspector shall cause the same to be collected and levied in manner hereinafter mentioned.

Article 19. The rules of discipline approved and established by congress in their resolution of the 29th of March, one thousand seven hundred and seventy-nine, shall be the rules of discipline to be observed by the militia throughout this state, except such deviations from said rules as may be rendered necessary by the requisitions of this act or some other unavoidable circumstances. It shall be the duty of the commanding officer at every muster, whether by regiment or single company, to cause the militia to be exercised and trained agreeably to the said rules of discipline.

Article 20. The militia of this state, whilst in the actual service of the United States, shall be subject to the same rules and regulations as the federal army; provided that upon any transgression or offence of a militia-man, whether officer or private, against the rules and regulations of the federal army, the cause shall be tried and determined by a court martial of the militia of this state, and that it shall be in the power of the governor, or in case of his absence, of the commanding officer of the militia, to mitigate, suspend, or pardon any punishment to which any militia-man may be sentenced by a general court martial.

[Section XXV.] (Section XXV, P. L.) And be it further enacted by the authority aforesaid, That no civil process shall be served on any commissioned, non-commissioned officer or private, at any regimental review or training of any company, or while going to or returning from the place of such review or training.

[Section XXVI.] (Section XXVI, P. L.) And be it further enacted by the authority aforesaid, That for the purpose of collecting and levying the fines that shall be incurred, as well for non-attendance on days of exercise as for neglect of performing tours of duty, and also all such fines as shall be im-

posed by court martial on persons belonging to their respective brigades, it shall and may be lawful for the several brigade inspectors to appoint one or more proper persons, by warrant under their respective hands and seals, to be collectors of the said fines; and the said collectors, by virtue of the said warrants, shall be authorized and empowered to call on every delinquent that shall be named in the lists to be furnished to them by the said inspectors, and demand payment of the said fines, and of five per centum on the amount thereof for their trouble in collecting the same, and on neglect or refusal of such payment, then the said collectors shall proceed to levy the said fines, with costs equal to those received by constables or sheriffs in similar cases, by distress, irreplevisable and sale of the offender's goods and chattels, lands and tenements, in like manner and with like effect as the collectors of taxes may or can do by virtue of any law or laws of this commonwealth.

Provided, That in the case of seizure of lands or tenements, the same notice shall be given previous to the sale thereof as is required in case of land sold by a sheriff, by virtue of a writ of venditioni exponas, and no process shall issue to stay the execution of such warrant, unless in the case of the seizure of real estate.

Provided always, That if any person shall think himself aggrieved in the seizure of his lands and tenements, he may enter an appeal before the judges of the next court of common pleas for the proper county, and on the parties giving sufficient security, within fifteen days next after any lands or tenements shall be seized or distrained, as aforesaid, to prosecute such appeal with effect, the judges shall receive the same and stay further process, and the said judges shall return every such appeal on the first day of the next term, and the court shall direct a trial by jury of the county, as in cases of debt, whose verdict shall be final and conclusive, and except in extraordinary cases, of which the court shall judge, all such appeals shall be tried at the term to which such returns shall be made.

Provided also, That in case real estates be sold as aforesaid, such sale shall be made by the sheriff of the county, who shall make a sufficient deed for the same, and if any collector, ap-

pointed by any brigade inspector, as aforesaid, and having accepted of his appointment, shall refuse or neglect to perform his duty, he shall, for every such offence, forfeit and pay, at the discretion of the courts of quarter sessions of the peace within this commonwealth, any sum not exceeding forty dollars.

[Section XXVII.] (Section XXVII, P. L.) And be it further enacted by the authority aforesaid, That any person who shall or may be appointed by any brigade inspector within this state to collect the militia fines, shall be bound to account with and pay over to the inspector of the brigade, by whom he shall have been so appointed, all the moneys received by him for fines, within ten days after demand thereof shall be made; and all and every such persons refusing to render or settle his account in manner aforesaid, shall be liable to have his goods, chattels, lands and tenements within this state seized and secured by warrant, under the hand and seal of the inspector of the brigade in which such delinquent collector hath or may have acted, directed to the sheriff or coroner of the proper county, who shall make report of his proceedings to the said inspectors, and if there are no such goods, chattels, lands or tenements, or they being seized, he shall continue to withhold or refuse to settle his account of fines received, then, and in that case, the said inspector shall issue his warrant, under his hand and seal, directing the sheriff or the coroner of the county in which the delinquent may be, to seize and take his body and commit the same to the common gaol of the county, there to continue without bail or mainprise until he shall exhibit and settle his account, as aforesaid, and discharge the costs of prosecution, and all and every collector appointed as aforesaid, who hath or shall upon settlement of his account, be found to have a balance due by him of the fines collected, and shall not, within ten days after demand made by the inspector, discharge and pay the full amount thereof, then and in such case it shall and may be lawful for the said inspector immediately to issue his warrant to the sheriff or coroner, to levy the sum due by such delinquent collector, by distress and sale of the offender's goods and chattels, lands and tenements, together with costs and charges, which distress and sale shall be made in manner be-

fore directed for tour and muster fines and fines imposed by courts martial, but if no such goods and chattels, lands or tenements can be found, then to seize and take the body of such offender and commit him to the common gaol, there to remain for the space of six months, unless he shall sooner discharge the debt, or procure such security that the same shall be discharged within a reasonable time, as may secure and satisfy the said inspector.

[Section XXVIII.] (Section XXVIII, P. L.) And be it further enacted by the authority aforesaid, That all and every of the fines and forfeitures by this act made payable, and the mode of recovery not hereinbefore particularly pointed out, shall be recovered by the inspectors of the several brigades in the name and for the use of the commonwealth, by action of debt before a justice of the peace, or in any court of record within this commonwealth, as from the amount thereof they shall be more properly cognizable, and the said inspector shall account for and pay yearly to the treasurer of the commonwealth all such fines as he shall receive by virtue of this act.

[Section XXIX.] (Section XXIX, P. L.) And be it further enacted by the authority aforesaid, That all moneys passing into the treasury by virtue of the directions of this act, shall be appropriated as a fund for the purpose of supporting the necessary officers for carrying this law into effect, and of equipping and furnishing the militia with every necessary apparatus for the defence and security of the state, the surplus, if any, to be appropriated in such manner and to such uses as the general assembly shall from time to time direct and appoint; and the treasurer of the commonwealth shall keep all the moneys arising from fines by the militia law separate from all other moneys, and keep separate books of the same, and the expenditures thereof, pursuant to the directions of this act.

[Section XXX.] (Section XXX, P. L.) And be it enacted by the authority aforesaid, That the brigade inspector and two reputable citizens, shall appraise the horse of each person serving as a light-horseman, immediately before every time of going into actual service, and enter the same in a book, and in case such horse shall be killed or die in actual service, or be taken

by the enemy otherwise than by neglect, he shall be paid the full value of his horse, according to the said appraisalment, by an order to be drawn by the inspector on the militia fund in the hands of the treasurer for that purpose.

[Section XXXI.] (Section XXXI, P. L.) And be it further enacted by the authority aforesaid, That if any officer, non-commissioned officer, or private militia-man, or volunteer acting with the militia, residing in this state, having a family, shall be killed or shall die of his wounds received in the service of this state, his widow, child or children shall be entitled to similar relief, and under the same regulations and restrictions as were provided by the act, entitled "An act to provide for the more effectual relief of the widows and children of the officers and privates of the militia who have lost their lives in the service of their country,"¹ passed on the twenty-seventh day of March, one thousand seven hundred and ninety, and if any officer, non-commissioned officer, or private militia-man, or volunteer acting with the militia, residing in this state, shall be wounded or otherwise disabled in the service of this state, he shall be entitled to similar relief, and under the same regulations and restrictions as had been provided by an act, entitled "An act to alter and amend the act, entitled 'An act for the relief of officers, soldiers and seamen, who in the course of the late war have been wounded or otherwise disabled in the service of this state or of the United States,'"² passed the tenth day of March, one thousand seven hundred and eighty-seven.

[Section XXXII.] (Section XXXII, P. L.) And be it further enacted by the authority aforesaid, That if any person or persons shall knowingly sell, buy, take or exchange, conceal or otherwise fraudulently receive any arms, accoutrements, colors or drums belonging to this state or the United States, or on any account or pretence whatsoever, the person so offending, being convicted thereof before one or more justice or justices of the peace of the city or county where such offence shall be committed, shall forfeit and pay for every such offence treble

¹ Chapter 1493.

² Chapter 1271.

the value of such arms or accoutrements, to be ascertained by the said justice or justices, and levied by distress and sale of the offenders' goods and chattels, by the justice or justices before whom such offender shall be convicted, returning the overplus, if any, on demand, to such offender, and for want of such distress, shall commit such offender to the common gaol of the county, there to remain without bail or mainprise, for any term not exceeding three months, unless such money shall be sooner paid, and in every such case the proof of the [property] shall be made by the possessor of such arms and accoutrements.

[Section XXXIII.] (Section XXXIII, P. L.) And be it further enacted by the authority aforesaid, That if any suit or suits shall be brought or commenced against any person or persons for anything done in pursuance of this act, the action shall be laid in the county where the cause of such action did arise, and not elsewhere, and the defendant or defendants in such action or actions to be brought, may plead the general issue, and give this act and the special matter in evidence, and if the jury shall find for the defendant or defendants in such action or actions, or if the plaintiff or plaintiffs shall be nonsuited or discontinue his or her action or actions after the defendant or defendants shall have appeared, or if upon demurrer judgment shall be given against the plaintiff or plaintiffs, the defendants shall have treble costs, and have the like remedy for the same, as any defendant or defendants hath or have in other cases to recover costs by law.

[Section XXXIV.] (Section XXXIV, P. L.) And be it further enacted by the authority aforesaid, That an act, entitled "An act for the regulation of the militia of the commonwealth of Pennsylvania,"³ passed on the twentieth day of March, in the year of our Lord one thousand seven hundred and eighty, also a supplement to the said act passed the twenty-second day of September one thousand seven hundred and eighty,⁴ also the supplement to the said act passed on the twenty-first day of March, in the year of our Lord one thousand

³ Chapter 902.

⁴ Chapter 916.

seven hundred and eighty-three,⁵ also a further supplement thereto passed on the twenty-second day of September, in the year of our Lord one thousand seven hundred and eighty-three,⁶ also so much of an act passed on the ninth day of December, in the year of our Lord one thousand seven hundred and eighty-three, entitled "An act for the more effectually securing and recovering for the uses of the commonwealth the moneys due for excise and militia fines and for other purposes therein mentioned"⁷ as comes within the intent, meaning and purview of this act, also a further supplement to the said recited acts passed on the twenty-second day of March, in the year of our Lord one thousand seven hundred and eighty-eight,⁸ be, and the same are hereby, repealed and made null and void.

Provided always, That nothing herein contained shall be construed so as to revive any former law or part of a law which in and by any of the said recited acts is repealed and made void.

Provided also, That nothing in this act contained shall be deemed to repeal, alter and dispense with the powers, authorities or duties of the [present] lieutenants of the city of Philadelphia and of the several counties in this commonwealth, or of any other officer or person under the militia laws that have been enforced in this state immediately before the passing of this act, until by new appointments under this act their respective functions and duties shall have devolved on other persons, and that the said present lieutenants and other proper officers are hereby authorized, required and enjoined to collect, or cause to be collected, all such fines and forfeitures as have been or shall be incurred during the continuance of their respective commissions, and pay in the same agreeably to this law, or the late laws aforesaid, on or before the first day of January next.

[Section XXXV.] (Section XXXV, P. L.) And be it further enacted by the authority aforesaid, That the governor shall

cause a sufficient number of copies of this law, and of the rules of discipline approved and established by congress in their resolution of the twenty-ninth day of March, one thousand seven hundred and seventy-nine, to be printed in the English and German languages and distributed throughout the state, so that every general and field officer, every brigade inspector and every captain be furnished with one copy, and it shall be the duty of every captain at every company meeting to read, or cause to be read, to the company, the same, or such part thereof as he may think necessary.

Passed April 11, 1793. Recorded L. B. No. —, p. —. (not given).
Repealed by act of April 9, 1799; Chapter 2068.

CHAPTER MDCXCVII.

AN ACT FOR ERECTING A LOAN-OFFICE FOR THE SUM OF FIVE HUNDRED THOUSAND DOLLARS.

Whereas the institution of a loan office, upon just and proper principles, will be greatly beneficial to agriculture and promote in general the welfare of the people of this commonwealth. And whereas the legislature in and by the act, entitled "An act to incorporate the subscribers to the Bank of Pennsylvania," did reserve, for the purpose of instituting such loan office, a power to borrow from the said bank an adequate sum of money. In order, therefore, to carry the same into effect:

[Section I.] (Section I, P. L.) Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, That a sum not exceeding five hundred thousand dollars, shall be borrowed of the Bank of Pennsylvania, and appropriated for the sole and exclusive purpose of being lent to the citizens of this state, upon mortgages upon real estate, under restrictions, limitations and regulations, and in the respective proportions hereinafter directed.

ACTS RELATING TO THE MILITIA.

AN ACT TO ORGANIZE THE MILITIA THROUGHOUT THE STATE OF SOUTH No. 1582.
CAROLINA, IN CONFORMITY WITH THE ACT OF CONGRESS.

WHEREAS, it is necessary to organize the militia of this State, in conformity with the Act of Congress, in that case made and provided :

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and immediately after the passing of this Act, the whole of this State shall be divided into two divisions, and to each division there shall be a major-general; one of which divisions shall comprehend the districts of Charleston, Georgetown, Beaufort, Cheraw, Camden, and Orangeburg, except the Dutch Fork, between Saluda and Broad rivers; and the other shall comprehend and include the districts of Ninety-six, including the Dutch Fork between Saluda and Broad rivers, Washington and Pinckney; and in the first division there shall be five brigades; one for Charleston district, except Colleton county regiment; one for Beaufort and Orangeburg, including Colleton county regiment; one for Georgetown; and one for Cheraws, and one for Camden district. In the second division there shall be four brigades, one for Abbeville and Edgefield counties, one for Laurens and Newberry counties, including the Dutch Fork, one for Washington district, and one for Pinckney district. And that as soon as the Governor or Commander-in-chief of this State shall be informed of the organization and arrangement of the militia regiments of this State, agreeable to the provisions made by this Act, he be, and is hereby, authorized and required to issue his proclamation, notifying the same, from and immediately after which the militia commissions of all such persons as shall not be re-elected and confirmed in the rank and grade they may hold under the laws of this State, shall be vacated; but that every person who shall be re-elected and confirmed in such commission as he holds in the militia of this State, shall retain such commission, and take rank from the date thereof.

II. *And be it further enacted* by the authority aforesaid, That the Legislature, on the first organization of the militia of this State, under this Act, shall choose, by ballot, the major-generals, brigadier generals, and adjutant-general; which adjutant-general shall be of the rank of lieutenant-colonel.

STATUTES AT LARGE

A. D. 1794.

Acts relating to the Militia.

Brigades to be divided into regiments, battalions and companies.

III. *And be it further enacted* by the authority aforesaid, That as soon as the several brigadier-generals are notified by the Governor of their election, they shall proceed to divide their respective brigades into regiments; and that after they have made such division, they shall appoint five fit and proper persons in each regiment, whose duty it shall be to divide the respective regiments into battalions and companies, as nearly as conveniently may be, conformably to the Act of Congress.

Lieutenant-colonel and two majors to be elected.

IV. *And be it further enacted* by the authority aforesaid, That as soon as the respective regiments, battalions and companies, are marked off and designated, the brigadier-general of each district, respectively, shall direct a regimental muster, as well of those men liable to do duty in time of alarm as at common musters, to be held (giving at least fifteen days notice thereof,) at the most central part of the regimental district, for the election of a lieutenant-colonel and two majors, and shall appoint proper persons to open and hold a poll from the hours of nine o'clock in the morning to five o'clock in the afternoon, for the election of the said officers, respectively; and that the persons having the greatest number of votes for lieutenant-colonel shall be commissioned as lieutenant-colonels, and the persons having the greatest number of votes as majors shall be commissioned as majors, of the respective regiments and battalions; and that the said brigadier-general shall appoint proper persons in each company, who shall, within five days after the said election of field officers, hold an election for a captain, lieutenant and ensign, in each company, in manner aforesaid; and the persons having the greatest number of votes in each company, shall be commissioned as officers thereof, or retain their former commissions, as the case may be, according to the grade to which they shall be severally elected. *Provided, always, nevertheless,* that wherever there shall be any company of artillery, cavalry or infantry, associated, uniformed and in commission, which, on the twentieth day of June next, shall consist of at least forty effective rank and file, it shall be lawful for such company to meet and vote for their officers; and the persons duly elected by a majority of votes, shall retain their commissions, or be commissioned by the Governor, as the case may be, to such grades as they shall be, respectively, elected to. And that all other officers of the Charleston regiment, as well field as battalion officers, shall be elected by the regiment at large; and no person shall be considered as elected, who shall not have a majority of the votes of the persons voting. *Provided, also,* that the men composing the uniform companies shall not be entitled to vote for the captains, lieutenants and ensigns of the other companies, to be elected by virtue of this Act.

Contested elections.

V. *And be it further enacted* by the authority aforesaid, That in case of any contested election, the validity of the same, (in the election of field officers,) shall be referred to the brigadier-general of the brigade, who shall call to his assistance two field officers of some other regiments of his brigade; and in the election of captains, lieutenants and ensigns, shall be referred to the field officers of the regiment to which they belong; and all elections of officers, made in pursuance of this Act, shall be returned, on oath, by the managers, to the Governor.

How to proceed where the brigadier-general resides out of the State.

VI. *And be it further enacted* by the authority aforesaid, That if any person who shall be elected a brigadier-general, by virtue of this Act, shall be without the limits of the State, it shall be the duty of the major-general of the division to do and perform the duties enjoined on the said brigadier-general; and in case of his sickness or inability to attend, it shall be lawful for the Governor or Commander-in-chief for the time being to commission,

OF SOUTH CAROLINA.

Acts relating to the Militia.

A. D. 1794.

under his hand and seal, some fit and proper person to execute the duties imposed by this Act, so far as regards the division of the brigades and election of officers.

VII. *And be it further enacted* by the authority aforesaid, That all the officers who shall be appointed by virtue of this Act, shall reside within their respective commands, and on their removal therefrom their commissions shall be vacated; *provided*, that the restrictions, as to residence, shall not extend to the officers of the Charleston regiment or regiments, but that a residence within the city shall be sufficient. That the major-generals shall have the right to appoint their respective aids-de-camp, and that the brigadier-generals shall have the right to appoint their respective aids-de-camp, who shall have the rank of captain; and they shall also have the right to appoint their respective brigade-inspectors, who shall be approved of by the major-general of the division; that the regimental staff shall be appointed by the lieutenant-colonels, respectively, and be approved of by the brigadier; and that all officers so to be nominated and appointed, as aforesaid, shall be commissioned by the Governor, who shall be authorized to appoint all other officers; and that in case of vacancy by death, resignation, or otherwise, the brigadiers shall rise in their respective divisions, the lieutenant-colonels commandant in their respective brigades, the majors in their respective regiments, the captains in their respective battalions, and the subalterns in their respective companies, by seniority of commission.

All officers to reside within their commands.

VIII. *And be it further enacted* by the authority aforesaid, That each brigade-inspector shall receive for his pay fifty pounds per annum, exclusive of the pay he may be entitled to receive when called into actual service.

IX. *And be it further enacted* by the authority aforesaid, That all sergeants and corporals shall be appointed by the captains of the different companies; and that each and every company, created by virtue of this Act, shall have a place of rendezvous, at which they shall, respectively, assemble once in every two months, except in Charleston, Georgetown and Camden, where they shall assemble once a month, by companies, for the purpose of training, disciplining and improving in martial exercise, and shall not be kept at the place of exercise more than one day at a time; and that each battalion shall be obliged to rendezvous in like manner for the same purpose, not oftener than twice a year, either in battalion or regiment, in such place as the brigadier shall think proper, and shall not be kept at the place of exercise more than one day at a time.

Companies, places of rendezvous &c.

X. *And be it further enacted* by the authority aforesaid, That every captain or commanding officer of a company shall also enrol every citizen who shall, from time to time, arrive at the age of eighteen years, or come to reside within his beat, and without delay notify such enrolment to such citizen so enrolled, by some non-commissioned officer of the company, who shall be a competent witness to prove such notice; that all disputes that may happen with respect to the age or ability of any person to bear arms, shall be determined by the captain or commanding officer of the company, with a right of appeal by the person who may conceive himself aggrieved, or by any other person belonging to the company, to the lieutenant-colonel or commanding officer of the regiment.

Persons to be enrolled at the age of 18.

XI. *And be it further enacted* by the authority aforesaid, That the Commander-in-chief for the time being may, in case of invasion or other emergency, when he shall judge it necessary, order out any proportion of the militia of the State, to march to any part thereof, and continue as long as

gency.

he may think it necessary; and likewise may, in consequence of an application from the executive of any of the United States, on an invasion, or an apprehension of an invasion, of such State, at his discretion, order any number of the militia, not exceeding one third part thereof, to such State; *provided*, that they be not compelled to continue on duty out of this State more than two months at any one time; that whilst in actual service, in consequence of being so called out, they shall receive the same pay and rations, and be subject to the same rules and regulations, as the troops of the United States of America. *Provided*, that upon any transgression or offence of a militia man, whether officer or private, against the rules and regulations of the federal army, the cause shall be tried and determined by a court martial of the militia of this State; and that it shall be in the power of the Governor, or, in case of his absence, of the commanding officer of the militia of this State, to mitigate, suspend or pardon, any punishment to which any militia man be sentenced by a general court martial.

In cases of in-
vasion.

XII. *And be it further enacted* by the authority aforesaid, That it shall and may be lawful to and for any major-general, or brigadier-general, or commanding officer of a brigade, or lieutenant-colonel commandant, or commanding officer of a regiment, when and as often as any invasion may happen, to order out the militia under their respective commands, for the defence of this State, giving notice of such invasion, and every circumstance attending the same, as early as possible, to their immediate commanding officer, by whom such information shall be transmitted to the Governor or Commander-in-chief, by express, the expense of which shall be immediately paid. And that in cases of insurrection, the commanding officer of the regiment or battalion within the limits of which any such insurrection may happen, shall immediately assemble his regiment or battalion under arms, and having transmitted information thereof to the commanding officer of the brigade, and to the major-general of the division, and to the Governor or Commander-in-chief, shall proceed to take such measures to suppress such insurrection as to any three of the judges or justices of the county or district in which such insurrection shall happen, shall appear most proper and effectual; and if any person be wounded or disabled while in actual service in opposing any invasion or insurrection, or in suppressing the same, he shall be taken care of and provided for at the public expense, without regard to the rank such person may hold.

Pay of militia.

XIII. *And whereas*, it is proper to ascertain the compensation which shall be allowed to the militia when they may hereafter be called out into actual service, by order of the executive authority of this State. *Be it further enacted* by the authority aforesaid, That in future, when the militia of this State, or any part thereof, shall be called out into service within this State, by the authority of the laws thereof, each commissioned officer shall be entitled to and shall receive the same pay and rations as are allowed to the officers of the same rank of the federal army by the laws of the United States; that the pay of a sergeant, drum-major, and fife-major, in lieu of all other demands, shall be eight dollars per month; and the pay of a corporal, bugler, trumpeter, drummer and fifer, in lieu of all other demands, shall be seven dollars per month; and the pay of a private, in lieu of all other demands, shall be six dollars and a half per month, besides rations; to be provided for in the tax bill of the year in which the service shall be performed.

XIV. *And be it further enacted* by the authority aforesaid, That the

brigade inspectors, whenever required by the brigadier-general of the brigade, shall make a return of the militia to which he belongs, to the said brigadier-general; and the brigadier-general shall, whenever required by the major-general of the division to which he belongs, make a return of the militia of their respective brigades, to the said major-general; and the major-generals shall, whenever required by the Governor or Commander-in-chief, make a return of the militia of their respective divisions, to the said Governor or Commander-in-chief.

Returns to be made.

XV. *And be it further enacted* by the authority aforesaid, That every master or other person who hath the power over, government or command of, any white apprentice or man servant, shall, at his or their own proper costs and charges, furnish and provide every such apprentice or man servant liable to do militia duty, during his servitude, with the arms and accoutrements directed by the aforesaid Act of Congress; and every master or other person, as aforesaid, shall constantly keep such arms and accoutrements, as aforesaid, for every such apprentice or servant, and shall compel him or them, so completely armed and accoutred as aforesaid, to attend all musters, trainings and exercises directed by this Act; and in case such apprentice or servant shall not appear, or his arms and accoutrements shall be found deficient, the master or other person, as aforesaid, having the government of such apprentice or servant, shall, on default made in any of the premises, be subject to the same forfeitures and penalties as are inflicted on other persons made liable by this Act to appear and bear arms at exercises, musters and trainings. *Provided, always,* that if any such servant, as aforesaid, who shall be duly furnished and provided as is before directed, and shall be sent to muster, by the master or other person under whose government such servant shall be, shall, of his own accord, and contrary to the will, and without the consent of the master, or such other person as aforesaid, neglect to appear at any muster, training or exercise appointed by this Act, the master or other person under whose government such servant may be, shall be liable to the penalties by this Act inflicted for the default of such servant; and every such servant so offending shall be obliged to serve his master two weeks for every penalty so paid by his said master or other person; and if any person shall embezzle, sell or make away with the arms so to be provided for him, he shall be liable to make his master, or other person under whose government he may be, full satisfaction.

White apprentices to attend musters.

XVI. *And be it further enacted* by the authority aforesaid, That no civil officer whatsoever shall, on any pretence, execute any process, (unless for treason, felony or breach of the peace,) on any person whatsoever, at any muster, or other time when such person shall be obliged to bear arms, in pursuance of the directions of this Act, nor in going to or returning from any muster or place of rendezvous, or within twenty-four hours after such person shall be discharged from appearing in the regiment, company or troop, to which he shall belong, under the penalty of five pounds sterling; and the service of any such process shall be void, to all intents and purposes whatsoever; and all arms and accoutrements which, by this Act, are required to be provided, also the troop horse of each trooper, duly entered and registered with the captain of the troop, so long as said trooper shall continue in the troop, shall not be liable to be seized, destrained or taken in execution for any cause, matter or thing whatsoever. And in case any person shall seize, levy or destrain upon any such arms, accoutrements or horse, every such person shall forfeit the sum of ten pounds, sterling money, to be recovered in any court of record in this State.

No civil process to be executed on any person attending musters.

Acts relating to the Militia.

Fine for not attending musters.

XVII. *And be it further enacted* by the authority aforesaid, That every lieutenant-colonel who shall wilfully neglect to turn out at a regimental muster, shall be fined in a sum not exceeding ten pounds, and also a sum not exceeding five per cent. on the amount of his last general tax; and that every major who shall wilfully neglect to turn out at a regimental or battalion muster, shall be fined in a sum not exceeding eight pounds, and also a sum not exceeding five per cent. on the amount of his last general tax; that every captain who shall wilfully neglect to turn out at a regimental or battalion muster, shall be fined in a sum not exceeding six pounds, and also a sum not exceeding five per cent. on the amount of his last general tax; that every subaltern officer who shall wilfully neglect to turn out at a regimental or battalion muster, shall be fined in a sum not exceeding four pounds, and also a sum not exceeding five per cent. on the amount of his last general tax; and that every non-commissioned officer and private, who shall wilfully neglect to turn out at a regimental or battalion muster, shall be fined in a sum not exceeding fourteen shillings, and also a sum not exceeding five per cent. on the amount of his last general tax; that every captain who shall wilfully neglect to turn out at an ordinary muster, shall be fined in a sum not exceeding thirty shillings, and also a sum not exceeding two and one half per cent. on the amount of his last general tax; that every subaltern officer who shall wilfully neglect to turn out at an ordinary muster, shall be fined in any sum not exceeding one pound, and also a sum not exceeding two and one half per cent. on the amount of his last general tax; and that every non-commissioned officer and private, who shall wilfully neglect to turn out at an ordinary muster, shall be fined in any sum not exceeding seven shillings, and also a sum not exceeding two and one half per cent. on the amount of his last general tax.

Fines for disobedience.

XVIII. *And be it further enacted* by the authority aforesaid, That every non-commissioned officer and private, who shall neglect or refuse to obey the order of his superior officer, while under arms, shall forfeit a sum not exceeding one pound for every such offence; and if any such non-commissioned officer or private, enrolled to serve in either of the companies of artillery, infantry or cavalry, shall refuse or neglect to perform such military duty or exercise as he shall be required to perform, or shall depart from his colors or guard, without the permission of his superior officer, as aforesaid, he shall forfeit a sum not exceeding one pound; and for the non-payment thereof the offender shall be committed, by warrant from the captain or commanding officer of the troop or company then present, to which such offender doth belong, or under whose command he may be, to the next gaol, there to be confined until the fines as aforesaid, together with the gaoler's fees, are paid; and the respective sheriffs of the city and respective districts and counties of this State, are hereby empowered and required to receive the body or bodies of such offender or offenders as shall be brought to them by virtue of a warrant or warrants under the hand and seal of such officer, as aforesaid, and him or them to keep in safe custody until such fines as are mentioned in such warrant, together with the gaoler's fees, as aforesaid, shall be paid; and the sheriffs and gaolers, respectively, shall be allowed the same fees as are allowed in other cases. *Provided, always,* that the persons so confined shall, at the end of five days, or any shorter time for which they may have been committed, be released, on their swearing that they are unable to pay the fines and fees hereinbefore directed to be paid.

OF SOUTH CAROLINA.

491

Acts relating to the Militia.

A. D. 1794.

XIX. *And be it further enacted* by the authority aforesaid, That the military uniform of this State shall be as follows, that is to say: general officers, dark blue coats with buff colored facings, linings, collars and cuffs, gold epaulets and yellow buttons, with buff colored under-clothes; regimental officers of infantry, dark blue coats, with such colored linings, facings, collars and cuffs, epaulets and buttons, as shall be determined on by the major-general of each division.

Military uniform.

XX. *And be it further enacted* by the authority aforesaid, That all fines which shall be imposed in any regiment, corps, company or troop, shall be paid into the hands of the pay-master, or person acting as such, of such regiment, corps, company or troop, and be paid and appropriated, by warrant under the hands of a major part of the field officers, or commanding officer of the corps, or captain or commanding officer of the company or troop, as the case may be, for the purposes of providing colors, drums, bugles, fife and trumpets, for their respective battalions, corps, companies and troops, and carrying expresses relative to military matters, and for the purchasing and providing arms and accoutrements for such of the men of the respective battalions, corps, companies and troops, as are or shall be unable to furnish and provide themselves therewith; and that it shall be the duty of the pay-master, or person acting as such, of each respective battalion, corps, company or troop, once in every year, to render an account to the brigadier, or the officer commanding the brigade, of all his receipts and expenditures in pursuance of this Act.

Appropriation of fines.

XXI. *And be it further enacted* by the authority aforesaid, That every free white man of this State, liable to bear arms in any of the regiments, corps, companies or troops in this State, who shall appear at any regimental or battalion musters, or at any company muster, ordered in pursuance of this Act, not provided, accoutred and armed, according to the Act of Congress, entitled "An Act more effectually to provide for the national defence, by establishing a uniform militia throughout the United States," passed the 24th October, 1791, shall forfeit and pay, for each and every such offence, a sum not exceeding five shillings, or the sum of two shillings and four pence, for each article of arms or accoutrements required by the last mentioned Act; that all fines shall be inflicted on non-commissioned officers and privates by the judgment of the majority of the commissioned officers of the company in which the offender is enrolled; that a major-general shall be tried by a major-general to preside, and four brigadier-generals; but if the attendance of a major-general cannot conveniently be procured, then by five brigadier-generals; and, in such case, the eldest of such brigadiers to preside; that a brigadier-general shall be tried by one or more brigadier-generals, and four field officers; that a lieutenant-colonel shall be tried by an officer not under the rank of a lieutenant-colonel, and four field officers; that a major shall be tried by an officer not under the rank of a field officer, and four officers not under the rank of captain; that a captain shall be tried by an officer not under the rank of a field officer, and by four officers not under the rank of captain; and a lieutenant or ensign shall be tried by an officer not under the rank of a field officer, and four other commissioned officers; that all non-commissioned officers and privates be tried by not less than three commissioned officers. Each member of a court martial is hereby enjoined to take the following oath or affirmation:

Arms and accoutrements.

Courts martial.

"I do swear, (or affirm, as the case may be,) that I will not divulge the

STATUTES AT LARGE

Acts relating to the Militia.

Oath,

sentence of the court, until the same shall be approved of or disapproved; neither will I, upon any account, or at any time whatsoever, disclose or discover the vote or opinion of any particular member of the court martial, unless required to give evidence thereof by a court of justice, in a due course of law. So help me God."

And any member of the court is authorized to tender the above oath to the other members. The Governor or Commander-in-chief shall appoint courts martial on general officers; the major-generals shall appoint division courts martial in their respective divisions; the brigadier-generals shall appoint brigade courts martial in their respective brigades; the lieutenant-colonels shall appoint regimental courts martial in their respective regiments; and the majors battalion courts martial in their respective battalions; and no sentence of a court martial shall be put in force without the same be approved by the officers appointing the same, or by the commanding officers, respectively, for the time being.

Court of enquiry.

XXII. *And be it further enacted* by the authority aforesaid, That if the conduct of any officer shall be represented to the Governor or Commander-in-chief, or to either the major-general of the division, brigadier-general of the brigade, or commanding officer of the detachment, to be so unmilitary and unbecoming an officer, as to deserve being cashiered, it shall be lawful for the Governor or Commander-in-chief, major-general of the division, brigadier-general of the brigade, or commanding officer of the detachment, as the case may be, to order a court of enquiry; and if, on such court of enquiry, it shall appear that there is foundation for the charge, to have a court martial held, who shall make such order in the business as they shall think consistent with military rule. *Provided, nevertheless*, that such court of enquiry shall never consist of less than three officers, one of whom, at least, to be of the rank of the person accused.

Persons exempt.

XXIII. *And be it further enacted* by the authority aforesaid, That persons of the following professions and descriptions shall be excused from militia duty, except in times of invasion or alarm, to wit; the lieutenant-governor for the time being; the members of both branches of the Legislature, and their officers; the judges, commissioners, registers and clerks of the several superior courts of law and equity, and county courts; the commissioners of the treasury and their clerks; the secretary of this State, and his deputies; the attorney-general; the three circuit solicitors; the surveyor-general and his deputy, residing either in Charleston or Columbia; the ordinaries and registers of the several districts; the sheriffs and gaol-keepers in the several counties and districts; all continental officers who were deranged, or who served to the end of the war; all regular clergymen of any sect or denomination; all persons holding any office or commission under the United States; all acting magistrates; all regular bred practising physicians and surgeons; all school-masters who shall have under their tuition not less than fifteen scholars; all students at school or at college; the intendant and wardens of Charleston and Camden, their treasurers and the officers of their courts; all branch pilots for the several ports; one white man to each established ferry or toll-bridge; one white man to each water grist-mill, wind-mill, fulling-mill or oil-mill; three white men to each forge, and five to each furnace erected or to be erected at any iron mine or mines in this State, who shall constantly work and reside at the same; and all persons under the age of eighteen, and above the age of forty-five years; and all militia officers who have held their commissions for seven years.

OF SOUTH CAROLINA.

493

Acts relating to the Militia.

A. D. 1794.

XXIV. *Whereas*, a doubt has arisen, whether aliens and other transient persons who have resided, or may reside, in this State for a considerable length of time, and enjoy the benefit and advantage resulting from the organization of the militia of this State, are liable to perform militia duty. ^{Aliens or transient persons liable to do duty.} And *whereas*, it is but just and reasonable that those whose property is secured by the care and watchfulness of the community in which they reside, should contribute to its protection: *Be it enacted* by the authority aforesaid, That all free white aliens or transient persons, above the age of eighteen and under the age of forty-five years, who have resided, or hereafter shall or may reside, in this State, for the term of six months, shall immediately thereafter be, and are hereby declared to be, subject and liable to do and perform all patrol and militia duty which shall or may be required by the commanding officer of the beat or district in which such alien or transient person shall reside, and be subject to all pains and penalties inflicted by this Act; any law, usage or custom to the contrary thereof, in any wise, notwithstanding. *Provided, always*, That nothing contained in this Act shall be construed to extend or effect in any way or manner the natural born citizen of any State or potentate who shall be actually engaged in war with the United States, or to compel such alien or transient person to serve on patrol or militia duty out of the particular district of the regiment to which he shall or may be attached, nor to natural born and bona fide French citizens, (not being citizens of the United States,) who are, by treaty, exempt from all personal service.

XXV. *And be it further enacted* by the authority aforesaid, That if the Governor or Commander-in-chief for the time being, receive advice from any person or persons in authority in this State, or other credible person or persons in foreign parts, or if he shall receive any information, upon oath, ^{Militia to be called out in case of invasion.} from any credible person or persons within this State, that any foreign enemy or armed force, intend suddenly to invade the State, or if any dangerous insurrection or rebellion be actually raised within this State, which cannot be suppressed by one single company, the Governor or Commander-in-chief for the time being may raise and assemble such and as many of the divisions, brigades, battalions, regiments, troops and companies, by this Act directed to be formed, as he shall think sufficient and able to suppress and repel such invasion, rebellion or insurrection, as may happen; and for the more effectual execution thereof, he may make and publish, or cause to be made and published, an alarm, throughout the whole State, by firing six guns, two at a time, at three minutes distance; or by sending orders and expresses to the general officers, field officers, and other officers of the militia, to raise their several and respective divisions, brigades, regiments, troops and companies, or such part of them as shall be ordered and directed to march and rendezvous at such proper times and places within the State, as the Governor or Commandor-in-chief for the time being, shall think fit; and the said alarms shall be carried on throughout the whole State, by all the commissioned officers of the militia, by firing three small arms at convenient intervals, from place to place, and by speedily raising their several corps, and taking all other proper and effectual measures to give notice of the motion of the enemy, and forwarding with the utmost expedition all necessary information to the Governor or Commander-in-chief, and by putting in execution all such orders as they shall receive from their superior officers.

XXVI. *And be it further enacted* by the authority aforesaid, That on

Alarm to be made with small arms.

sight of an enemy, or on information of an enemy appearing, or mischief done by an enemy, from any white man of credit, who hath seen the same, of the credit of which informer, the officer to which information is given, shall be a judge, an alarm shall be made by any commissioned officer, by firing three small arms; and every alarm shall be carried on by all persons hearing or having knowledge of the same, by firing the small arms distinctly, as usual; and the said officer who fired the alarm shall assemble the corps of which he is an officer, by beat of drum, or by ordering them to warn their next neighbors, or otherwise, till the corps can be got together; and the commanding officer of said corps shall, with all convenient speed, despatch two expresses, one to the Governor or Commander-in-chief, and the other to the next field officer of the regiment to which the said corps belongs, with an account of the cause of the alarm so made; upon which notice, the said field officer shall despatch two expresses with an account of the same, one to the Brigadier of the brigade, and the other to the Major-general of the division; the field officer who shall receive the information as aforesaid, shall have power to assemble any number of men of the battalion or regiment, as the case may be, to which he belongs, to march to the assistance of any of the inhabitants of the State who are in danger.

Penalty for neglecting to give information of the approach of an enemy.

XXVII. *And be it further enacted* by the authority aforesaid, That if any person liable to bear arms shall, in time of such alarm, neglect or refuse to use his utmost endeavors to convey and communicate the said alarm or notice of the enemy's approach, every such person shall forfeit and pay a sum not exceeding fifty pounds sterling; and in case any such person, after he hath notice of an alarm, does not forthwith repair, completely armed and accoutred as aforesaid, with all convenient speed, to the place where the regiment, troop or company, to which he shall belong, shall be appointed to rendezvous, every such person shall forfeit a sum not exceeding twenty pounds sterling money; and in case the company or troop to which such person shall belong, shall actually engage and fight with the enemy, before such person shall appear in the said regiment, troop or company, in every such case, the person not appearing as aforesaid, shall forfeit a sum not exceeding forty pounds sterling money.

Officers to assemble any number of their corps.

XXVIII. *And be it further enacted* by the authority aforesaid, That every commissioned officer in the militia has power, when occasion shall require, to assemble, arm and raise, any number of men belonging to their respective corps; and if need be, to give notice and call to their aid the officers and men of any adjacent corps, to disperse, suppress, kill, destroy, apprehend, take or subdue, any pirate, sea rover, Indian, or other enemy, who shall, in a hostile manner, hurt, or attempt to hurt, any of the inhabitants of this State, in their person or persons; or any number of slaves who shall be met together, or who shall be lurking in any suspected place where they may do mischief; or who shall have absented themselves from the service of their owners; and in case any person liable to bear arms, shall, on such occasion, neglect or refuse to appear, upon notice given, by any commissioned officer of the troop or corps to which such person belongs, or appearing, shall not attend and obey the said officer, he shall, for every such neglect or refusal, forfeit the sum of two pounds sterling.

XXIX. *And be it further enacted* by the authority aforesaid, That in times of invasion or insurrection, when it shall be found necessary to march the several regiments, troops or companies, or any of them, out of

OF SOUTH CAROLINA.

495

Acts relating to the Militia.

A. D. 1794

their proper parishes, counties or districts, one fourth part at least, of every company in this State, shall stay and remain in the respective parishes and divisions to which they belong, and shall be formed into patrols, under the command of such officer as the commissioned officers of the companies shall direct and appoint, under whose command, respectively, they shall continue, until the rest of the company shall return to their habitations, and shall be discharged from bearing arms; and the patrol so formed shall be obliged to be on constant duty, and to ride and patrol, and guard the plantations, and keep the slaves within their several parishes and divisions in good order, and shall place proper guards, watches and centinels, at proper and convenient places, to give notice of danger, or for the more speedy conveying advice and intelligence to the Governor or Commander-in-chief, or any army raised and assembled by his command; and in case any person or persons obliged to serve in such patrols, shall refuse or neglect to ride patrol, or to watch, stand centinel, or to keep guard, or shall refuse to obey the lawful commands of any person appointed to command such patrol, every person so offending shall forfeit any sum not exceeding fifteen pounds sterling money.

XXX. *And be it further enacted* by the authority aforesaid, That in times of invasion, rebellion, or insurrection, when any person shall receive orders to march out of their parish, county, district or division, the captain, or other commanding officer, who shall be present, shall cause the names of all the persons who are entered, enlisted and enrolled in the muster roll of such company, officers excepted, to be written down on small scrolls of paper, which shall be folded up and put into a hat, and shall be shaken together, and the clerk or sergeant of the said company shall draw out of the hat the names of so many persons as will not exceed three fourth parts of the said company; and the persons whose names shall be so drawn, shall be obliged to march according to such orders as shall be given by the Governor or Commander-in-chief, and the rest whose names shall be left in the hat, shall stay in their respective parishes and divisions, and shall do the duty of the patrol, as before directed; but no officer of any company shall be excused from marching with the company for which he is appointed, unless by particular orders from the Governor or Commander-in-chief; and, in that case, such officer so directed to stay shall be commanding officer of that part of the company left for the patrol duty. If any person whose name is drawn, as aforesaid, and is thereby obliged to march out of his parish or division, can provide an able bodied man, (to be approved by the majority of the officers of the company to which such person belongs,) completely armed and furnished, according to the directions of this Act, every such person shall be permitted and at liberty so to do; and upon producing and sending out such able bodied man in his stead, he shall be excused from going out or marching in person; but, nevertheless, he shall be obliged to do patrol duty in his district; and in case of disobedience, neglect or refusal to ride in such patrol, he shall be liable to all the pains, penalties and forfeitures inflicted by this Act.

XXXI. *And be it enacted* by the authority aforesaid, That in time of an alarm, occasioned by any insurrection, rebellion or invasion, all field officers, and captains of every company, are empowered, by themselves or their warrants to any inferior officer or soldier, to impress any arms, ammunition, provisions, horses, wagons, carts, boats, canoes, pettiaugors and vessels, with their furniture, or whatever other thing they shall want or have need of, for the service of this State. *Provided*, all such things

In times of invasion, part of the militia to remain on guard at home.

Manner of ascertaining those men who shall leave their parishes.

Arms, &c., to be impressed.

STATUTES AT LARGE

Acts relating to the Militia.

so impressed be by the said officers brought before three or more indifferent persons, being freeholders, to be appraised and valued, before they be disposed of for the public service; and such valuation and appraisement being made, the officer shall give a receipt for the same, if he conveniently can; and the officer is to cause his clerk to enter the same in a book, to be kept for that purpose; and the said appraisers shall ascertain any loss or damage that may happen to the things so impressed, or allow a competent hire for the same when returned to the owner, as the case shall require, and shall give such appraisement, under their hands, to the owner, directed to the public treasurers, who are to lay the same before the Legislature. And the commanding officer or captain of each company, after such alarm shall be over, and before such company shall be discharged, is to order so many men as he shall think fit, to carry the several things by him impressed to the several owners, who, upon re-delivery of the same, shall give a receipt. The officer is likewise empowered to draw on the public treasury for so much money as he shall think the carriage of the said several things deserves.

Things impressed to be kept an account of.

XXXII. *And be it further enacted* by the authority aforesaid, That the commanding officer or commander of each company, shall lodge in some convenient and secure place, for the public use, all the provisions and ammunition impressed by him, or by virtue of his warrant, that shall remain unexpended after an alarm, and must keep a particular account thereof.

Free persons of color, &c.

XXXIII. *And be it further enacted* by the authority aforesaid, That all free negroes and Indians, (nations of Indians in amity with the State excepted,) Moors, mulattoes and mestizoes, between the ages of eighteen and forty-five, shall be obliged to serve in the said militia as fatigue-men and pioneers, in the several regimental beats in which they reside; and upon neglect or refusal to attend when summoned on duty, they, and every one of them, shall be liable to the like penalties and forfeitures as privates in the same regiment or company are made liable by law.

Members of uniform companies.

XXXIV. *And be it further enacted* by the authority aforesaid, That the officers and privates in any company of artillery, infantry or cavalry, raised and uniformed in any militia regiment of this State, by permission of his Excellency the Governor, or any lieutenant-colonel or commanding officer of any regiment, or to be hereafter raised, shall be, respectively, liable to all the fines and forfeitures imposed by law on the officers or privates in any regimental or company beat; and that when any person now actually enrolled, or that shall hereafter be enrolled, in any such company, shall be desirous to quit the same, he shall be obliged to give at least thirty days notice of such intention; and shall be obliged, also, to enrol himself in the company beat in which he resides, or in some other company of artillery, infantry or cavalry, of the regiment to which he belongs, and produce a certificate thereof from the captain or officer commanding such beat or company, before he shall be permitted to leave the uniform company or corps to which he belonged, or be excused from duty therein.

Companies may be summoned to mount guard in Charleston.

XXXV. *And whereas*, the safety of the city of Charleston requires the calling forth, at certain times and seasons, one or more companies of the militia of the said city: *Be it therefore enacted* by the authority aforesaid, That it shall and may be lawful for the Governor or Commander-in-chief for the time being, or the major-general of the division, or brigadier of the brigade, in which Charleston is comprehended, or the commanding officer of the Charleston regiment for the time being, to call forth, when necessary, such and so many companies, or detachments of companies, to mount

OF SOUTH CAROLINA.

497

guard in the said city, as to them shall, respectively, appear necessary and proper. *Provided*, that no guard shall be obliged to continue on duty, at any one time, except in case of actual alarm, more than twenty-four hours on one guard; and every person duly summoned to turn out on any such guard, who shall not obey, or who shall leave his guard, or otherwise misbehave, shall be liable to pay the same fines and forfeitures as such person would be obliged to pay for default of duty by non-attendance or misbehaviour at any battalion or regimental muster, by virtue of this Act.

XXXVI. *And be it further enacted* by the authority aforesaid, That every commissioned officer who, at the original organization of the militia, agrees ^{Officers to be furnished with this Act.} able to this Act, shall be appointed in pursuance of the same, and accepts his commission, shall be furnished, at the expense of this State, with a copy of this law, the Act of Congress to provide for the national defence and establishing an uniform militia throughout the United States, Baron Steuben's military discipline, and the articles of war, all bound together in a small and convenient pocket volume; and that the senior major-general, elected in pursuance of this Act, is hereby authorized and empowered to contract for procuring the same on the best and cheapest terms.

XXXVII. *And be it further enacted* by the authority aforesaid, That if any person or persons whosoever shall be sued, impleaded, molested or ^{Persons sued may plead this Act.} prosecuted, for any matter, cause or thing done or executed, or caused to be done or executed, by virtue of or in pursuance of this Act, and all and every person or persons who shall or may, by the command, or in aid or assistance, of any person who shall do or execute, or cause to be done or executed, any matter or thing by virtue of or in pursuance of the direction of this Act, shall and may plead the general issue, and give this Act and the special matter in evidence; and in case the plaintiff shall suffer a discontinuance, enter a *noli prosequi*, suffer a non-suit, or if a verdict or judgment shall pass against him, he shall pay to every defendant that shall be acquitted, or for whom judgment shall pass, his full double costs of suit.

XXXVIII. *And be it further enacted* by the authority aforesaid, That all ^{Former militia laws repealed.} laws heretofore enacted in this State, respecting the militia, shall be, and the same are hereby, repealed, except such laws or parts of laws as respect the Charleston battalion of artillery.

In the Senate House, this tenth day of May, in the year of our Lord one thousand seven hundred and ninety-four, and in the eighteenth year of the Independence of the United States of America.

DAVID RAMSAY, *President of the Senate.*

JACOB READ, *Speaker of the House of Representatives.*

VOL. VIII.—63.

A. D. 1794.

Acts relating to the Militia.

No. 1802. AN ADDITIONAL ACT TO THE ACT ENTITLED "AN ACT TO ORGANIZE THE MILITIA THROUGHOUT THE STATE OF SOUTH CAROLINA, IN CONFORMITY WITH THE ACT OF CONGRESS."

Preamble. WHEREAS, the law of Congress, entitled "An Act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States," directs that each division, brigade and regiment, in each State, shall be numbered at the formation thereof, and a record made of such numbers, in the adjutant-general's office, in the State; and when in the field, or in service in the State, each division, brigade and regiment shall, respectively, take rank according to their numbers, reckoning the first or lowest number highest in rank. And *whereas*, it is necessary to fix the rank of officers who were elected to the same grade by the Legislature at their last session, or by the people since that period:

Rank of divisions and brigades to be ascertained by lot.

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the rank of the divisions, brigades and regiments, shall be determined by lot, in the following manner, that is to say: that a joint committee of both houses shall forthwith cause the words Eastern Division, and the words Western Division, to be, respectively, written on two pieces of paper, which shall be folded up and put into a hat, and they shall then cause a child, under ten years of age, to draw out, in their presence, one of the said lots, and that which shall be so drawn shall be the first division of this State, and the remaining lot shall be the second division; and if the eastern division shall be the first drawn, then the brigades and regiments in that division shall have the lowest numbers and highest rank, and the brigades and regiments in the western division the highest numbers and lowest rank; and if the western division be first drawn, then the brigades and regiments in that division shall have the lowest numbers and highest rank, and the brigades and regiments in the eastern division, the highest numbers and lowest rank. That then the committee shall cause the numbers of the brigades in each division to be determined in a similar manner, by lot, that is to say: if the eastern division shall be the first drawn, they shall cause the words Charleston brigade, Georgetown brigade, Cheraw brigade, Camden Brigade, and Beaufort and Orangeburg brigade, to be written on five lots, and to be folded up and put into a hat, and they shall then cause a child, under ten years of age, to draw, in their presence, the said lots, one by one, from the hat, and the brigade first drawn shall be numbered the first brigade, the brigade second drawn shall be numbered the second brigade, the brigade third drawn shall be numbered the third brigade, the brigade fourth drawn shall be numbered the fourth brigade, and the brigade fifth drawn shall be numbered the fifth brigade; and then they shall cause the words Edgefield and Abbeville brigade, Laurens and Newberry brigade, Washington brigade, and Pinckney brigade, to be written on four lots, and the same shall be folded up and put into a hat, and they shall then cause a child, under ten years of age, to draw, in their presence, the lots, one by one, from the hat, and the brigade first drawn shall be numbered the sixth brigade, the brigade second drawn shall be numbered the seventh brigade, the brigade third drawn shall be numbered the eighth brigade, and the brigade fourth drawn shall be numbered the ninth brigade. And if the western division shall be first drawn, they shall cause the words Edgefield and Abbeville brigade, Laurens and Newberry brigade,

OF SOUTH CAROLINA.

499

Acts relating to the Militia.

A. D. 1794.

Washington brigade, and Pinckney brigade, to be written upon four lots, which shall be folded up and put into a hat, and they shall then cause a child, under ten years of age, to draw, in their presence, the lots, one by one, from the hat; and the brigade first drawn shall be numbered the first brigade, the brigade second drawn shall be numbered the second brigade, the brigade third drawn shall be numbered the third brigade, and the brigade fourth drawn shall be numbered the fourth brigade; and then they shall cause the words Charleston brigade, Georgetown brigade, Cheraw brigade, Camden brigade, and Beaufort and Orangeburg brigade, to be written on five lots, and the same shall be folded up and put into a hat, and they shall then cause a child, under ten years of age, to draw, in their presence, the lots, one by one, from the hat, and the brigade first drawn shall be numbered the fifth brigade, the brigade second drawn shall be numbered the sixth brigade, the brigade third drawn shall be numbered the seventh brigade, the brigade fourth drawn shall be numbered the eighth brigade, and the brigade fifth drawn shall be numbered the ninth brigade. That then the committee shall, in like manner, by lots drawn in their presence, proceed to number the regiments, taking care so to conduct the drawing that the lowest number of the respective regiments be given to the lowest number of the respective brigades, and that the brigades highest in number have the regiments highest in number; and that the rank of battalions, in their respective regiments, be always determined by the seniority of their respective majors.

II. *And be it further enacted* by the authority aforesaid, That all the officers who were elected by the Legislature, at their last session, or by the people since, shall take rank in the following manner, that is to say: Rank of regimental officers to be ascertained by lot. if the eastern division shall be the first drawn, all the officers of equal grade of date and commission in that division, shall take rank of all the officers of similar grade and date of commission in the western division; and if the western shall be the first drawn, all the officers of equal grade and date of commission in that division, shall take rank of all the officers of similar grade and date of commission in the eastern division; and all the officers of equal grade and date of commission, of the brigades lowest in number, shall take rank of all the officers of equal grade and date of commission in the brigades higher in number, in the division to which it belongs; and all the officers of equal grade and date of commission, in the regiments lowest in number, shall take rank of all the officers of equal grade and date of commission in the regiments highest in number, in their respective brigades. And all the officers of equal grade and date of commission in their respective regiments, shall determine their rank in their regiment by lot, drawn in the presence of the lieutenant-colonel or commanding officer of the regiment; or where the lieutenant-colonel is dead, and the rank has not been determined between the majors, in the presence of some person to be appointed by the brigadier-general, or in his absence by the major-general. *Provided, always,* that nothing in this Act shall be construed to extend to deprive officers who have been elected to the same grade they held before, from retaining and taking rank agreeably to their old commissions, or to determine the rank of officers in any regiment, where they have already drawn for it.

III. *And be it further enacted* by the authority aforesaid, That when the commission of ensign is vacant in any company, the men liable to do duty in that company, as well in time of alarm as at common musters, shall be elected, by ballot, a fit person to fill the vacancy; and the lieutenant-colonel

STATUTES AT LARGE

Acts relating to the Militia.

or commanding officer shall order such election, giving notice on one muster day, in writing, which shall be publicly declared and made known to the company by the officer commanding the same, and shall be fixed up in some public place upon the muster ground, that the election will be held at the ensuing muster; and the captain or commanding officer of the company shall manage the election.

Sergeants refusing to do duty to be fined.

IV. *And be it further enacted* by the authority aforesaid, That if any person liable to do duty at common musters shall be appointed a sergeant, and refuse to do duty as such, he shall be fined in a sum of four pounds; but no person shall be obliged to act as sergeant more than one year at a time.

Governor, major-generals and brigadier-generals.

V. *And be it further enacted* by the authority aforesaid, That the Governor, the major-generals and brigadier-generals, respectively, as occasion may require, shall be authorized to appoint one or two extra aids-de-camp, who shall not be entitled to any other rank or pay than what they are entitled to in the line.

Parade limits to be ascertained.

VI. *And be it further enacted* by the authority aforesaid, That each commanding officer of a corps, when on duty or parade, shall have full power and authority to ascertain and fix certain necessary limits and bounds to their respective parades and places of exercise, (no road in which people usually travel, or more than one half the width of any street, to be included,) within which no spectator shall have a right to enter, without liberty from the said commanding officer; and in case any person shall so intrude within the lines of the parade or place of exercise, after being once forbidden, he shall be liable to be confined under guard during the time of exercise, at the discretion of the commanding officer.

Fines, how to be recovered.

VII. *And be it further enacted* by the authority aforesaid, That every fine imposed by this Act, or the Act entitled "An Act to organize the militia throughout the State of South Carolina, in conformity with the Act of Congress," or by any future Act, shall be recovered in the following manner, that is to say: the officer who presided at the court martial when any such fine or fines shall be imposed, (excepting fines incurred for misconduct while under arms, which shall be recovered as is directed by said Act,) shall issue his warrant, under his hand and seal, directed to some sergeant belonging to the brigade, regiment, battalion, company or troop to which the offender, according to his rank, may immediately belong, or for want of such sergeant, to such other person as may be appointed by the commanding officer of the regiment, and shall mention therein the amount of the fine or forfeiture, or fines or forfeitures incurred, and for what default or misconduct, and by what court-martial the same was or were imposed, and shall thereby command such sergeant or other person to take the body of the defaulter or offender to the nearest gaol, there to be confined until such fine or forfeiture, or fines or forfeitures, together with the gaoler's and sergeant's fees, shall be paid; and every such sergeant or other person shall be obliged to execute such warrant, according to the tenor or purport thereof; and all district sheriffs and gaolers, county sheriffs and gaolers, and city sheriffs and gaolers, in this State, are hereby empowered and required to receive the body of any such defaulter or offender, who may be brought to either of them under any such warrant, and to keep him in safe custody until the amount specified in the warrant, together with the gaoler's and sergeant's fees, shall be paid; and the sheriffs and gaolers shall be allowed the same fees in such cases as are allowed in other cases of commitments,

OF SOUTH CAROLINA.

501

Acts relating to the Militia.

A. D. 1704.

and the sergeant shall be allowed the same fees as constables have for serving summonses, and for commitments for the same amount, or for levying an execution for the same amount. *Provided, always,* that the person so committed shall, at the end of a certain time, to be computed at the rate of one day for every three shillings and six pence he may be condemned to pay, be released, upon swearing that he is unable to pay the amount for which he may be committed, and the fees hereinbefore directed to be paid; and *provided, also,* that no person shall be taken up on any such warrant or execution, if he will immediately pay the amount he is liable for, and the fees due, or produce to the officer sufficient property of his own to satisfy the same, which, if he shall produce, the officer shall take and dispose of at public sale, in the same manner as constables make their sales under execution; and after paying the fine or fines due, and the fees that have accrued, he shall return the surplus, if any there be, of the proceeds of the sale, to the said defaulter or offender.

VIII. *And be it further enacted* by the authority aforesaid, That every officer in the militia shall, within six months after the ratification of this Act, or after he shall be elected or appointed, take the following oath or affirmation, before some justice of the peace, who shall certify the same on the back of his commission: "I, A B, do solemnly swear, (or affirm, as the case may be,) that I will support and maintain, to the utmost of my ability, the laws and constitution of this State and of the United States." And every officer neglecting so to do shall vacate his commission.

Officers to take
an oath.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety-four, and in the nineteenth year of the Independence of the United States of America.

DAVID RAMSAY, *President of the Senate.*

AN ADDITIONAL ACT TO THE ACT ENTITLED "AN ACT TO ORGANIZE THE MILITIA THROUGHOUT THE STATE OF SOUTH CAROLINA, IN CONFORMITY WITH THE ACT OF CONGRESS;" AND FOR OTHER PURPOSES THEREIN MENTIONED. No. 1622.

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That in all cases where any of the regiments, or any of the battalions and companies belonging to any of the regiments, of this State, shall or may be aggrieved and injured, by the division or divisions made by the different commissioners appointed by the several Brigadier Generals, for the purpose of dividing the regiments belonging to their respective brigades into battalions and companies, pursuant to the Militia Act of this State, passed on the tenth day of May, seventeen hundred and ninety-four, the regiments, or any of the battalions or companies belonging to the said regiments, so aggrieved or injured, shall make their application for redress to the Brigadier General of the brigade to which the said regiment or regiments belong, who shall appoint two field officers of the brigade, who are not involved in the dispute or interested in the decision of the same,

Field officers to

Acts relating to the Militia.

who are hereby empowered and directed, should it appear to them fit and expedient, to make, direct and order, any arrangement or division of the said regiments, or any of the battallions or companies belonging thereto, as to them shall appear to the advantage of the same; *provided, however,* that such arrangement or division be, as nearly as conveniently may be, in conformity to the Act of Congress, passed on the oighth day of May, seventeen hundred and ninety-two.

In case of con- tested elec- tions, appeal to be made.

II. *And be it further enacted* by the authority aforesaid, That in all cases of contested elections for field officers, where either of the candidates think themselves aggrieved by the determination of the brigadier general or field officers who have decided or shall decide on the election, such candidate may appeal from such decision to the major general of the division to which he belongs, and the said major general, together with a board of general and field officers, to be appointed by the said major general, and to consist of the said major General and not less than one brigadier general and three field officers, shall examine into the merits of the said election, and shall decide thereon; and such decision shall be final and conclusive, and the person in whose favor they decide shall be commissioned by the Governor.

Militia officers allowed a further time to qualify.

III. *And whereas,* many of the officers in the militia have, through inadvertence, neglected to take the oath or affirmation prescribed by the Act, passed on the nineteenth day of December, seventeen hundred and ninety-four:—*Be it further enacted* by the authority aforesaid, That a further time of six months be allowed them to take the said oath or affirmation before some justice of the peace, who shall certify the same on the back of his commission; and every officer who shall neglect so to do, within the time above limited, shall vacate his commission; but provided he takes the said oath within the said time, he shall retain his commission; any thing in the said Act contained to the contrary thereof in any wise notwithstanding.

Salary of Adjutant General.

IV. *And whereas,* it has been represented to the Legislature, that the duty of the adjutant general is very laborious, and attended with considerable expense. *Be it therefore enacted* by the authority aforesaid, That the salary of the said officer shall be, in future, one thousand dollars per annum; *provided,* he shall attend the different regimental reviews throughout the State, once in every year.

Persons employed at the Santee Canal, exempt from militia duty.

V. *And whereas,* it is of great importance to this country, that encouragement should be given to the company for opening the Santee Canal. *Be it therefore enacted* by the authority aforesaid, That the overseers, toll-receivers, lock-keepers, and white laborers, employed or to be employed by the said company, be exempt from doing militia duty at any time hereafter, except in times of alarm.

Duration.

VI. *And be it further enacted* by the authority aforesaid, That so much of this Act as relates to the office, salary, and duties of the adjutant general, shall continue in force for and during the term of three years, and from thence to the end of the next session of the Legislature thereafter, and no longer.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety-five, and in the twentieth year of the Independence of the United States of America.

AN ACT TO PROLONG THE TIME FOR CERTAIN OFFICERS OF THE MILITIA
TO TAKE THE OATH OR AFFIRMATION PRESCRIBED BY LAW. No. 1657.

WHEREAS, many officers of the militia have, through inadvertence, neglected to take the oath or affirmation prescribed by the Act entitled An additional Act to the Act entitled An Act to organize the Militia throughout the State of South Carolina, passed on the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety-four, in conformity with the Act of Congress.

I. *Be it therefore enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That a further time of six months be allowed the said officers to take the said oath or affirmation before some justice of the peace, who shall certify the same on the back of their commissions; and that the said officers thus taking the said oath or affirmation, shall be still qualified to hold their said commissions; any thing in the aforesaid Act, passed the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety-four, to the contrary hereof notwithstanding. *Provided, nevertheless*, that if the said officers do not within the said time take the said oath or affirmation, at the expiration of the same their commissions shall be vacated.

II. *And be it enacted* by the authority aforesaid, That any officer or officers taking the oath or affirmation within the time abovementioned, shall receive commissions of the same date, and shall be entitled to the same grade, as if he or they had taken the said oath or affirmation when first elected.

AN ACT CONCERNING THE CAVALRY AND ARTILLERY OF THIS STATE; No. 1662.
AND FOR OTHER PURPOSES THEREIN MENTIONED

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the cavalry of this State shall be arranged into squadrons and regiments, as follows:—the several troops now raised, and hereafter to be raised, in the brigade number one, (No. 1.) shall form one regiment; the several troops now raised, or hereafter to be raised, in the brigade number two, (No. 2.) shall form one regiment; the several troops now raised, and hereafter to be raised, in the brigade number three, (No. 3.) shall form one regiment; the several troops now raised, and hereafter to be raised, in the brigade number four, (No. 4.) shall form one regiment; the

several troops now raised, and hereafter to be raised, in the brigade number five, (No. 5.) shall form one regiment; the several troops now raised, and hereafter to be raised, in the brigade number six, (No. 6.) shall form one regiment or squadron; the several troops now raised, and hereafter to be raised, in the brigado number seven, (No. 7.) shall form one regiment; the several troops now raised, and hereafter to be raised, in the brigade number eight, (No. 8.) shall form one regiment; the several troops now raised, and hereafter to be raised, in the brigade number nine, (No. 9.) shall form one regiment er squadron. *Provided*, that no regiment shall consist of more than six troops, nor less than four, nor each troop of more than sixty-four, rank and file.

Brigadiers to fill up regiments of horse, &c.

II. *And be it further enacted* by the authority aforesaid, That the brigadier general of each of the aforesaid brigades shall be, and he is hereby, authorized and empowered, whenever the regiment of horse in his brigade is not complete, to fill up the same, if he shall see fit, by authorizing proper persons to raise the necessary number of troops; and also, by empowering the captains of the respective troops in his regiment to enrol men who are not obliged to do militia duty, but who would be willing to enrol themselves in such troops, and to turn out with them, properly uniformed and accoutred, when called into actual service; and the said brigadiers shall distribute the troops in their respective regiments into squadrons.

Each squadron to have a major.

III. *And be it further enacted* by the authority aforesaid, That to each of the aforesaid squadrons there shall be one major; and each of the aforesaid regiments shall be commanded by one lieutenant-colonel; and the Governor and Commander-in-chief shall be, and he is hereby, authorized to commission, in common form, the eldest captain of horse in each brigade, as lieutenant-colonel in each brigade, and the second and third in seniority, as majors of the first and second squadrons, in each regiment, respectively; and if any case should occur in which the captains's commissions bear even date, the preference shall be decided by lot, in presence of the brigade major, who shall make a return thereof to the adjutant-general; and the rank of the several lieutenant colonels shall also be determined by lot, to be drawn in the following manner:—the adjutant general shall write the names of the respective regiments on slips of paper, and having intermixed them well, shall, in presence of the Governor or Commander-in-chief, draw forth their names, singly; and each of the aforesaid lieutenant colonels shall take rank in the order in which his name is drawn; and the adjutant general shall make out two lists of the said officers, according to their respective ranks, and transmit one of the said lists to the secretary's office in Charleston, and the other to the secretary's office in Columbia, there to be recorded. *Provided*, that nothing herein contained shall be so construed as to give rise to any captain or commander of a troop, who has neglected, for six months previous to the passing of this Act, to muster his troop.

Persons formerly enrolled, to remain.

IV. *And be it further enacted* by the authority aforesaid, That all those of the militia who have heretofore enrolled themselves in any troop or company of cavalry, may remain with their troop or company; and that hereafter all volunteers for the corps of cavalry shall be limited to their respective brigades, except otherwise ordered by the Commander-in-chief.

Horses to be appraised.

V. *And be it further enacted*, That whenever any of the cavalry, or any part thereof, shall be called into the actual service of this State, it shall be the duty of the brigadier-inspector to call to his assistance two of the freeholders of the county where each horseman may reside, who, together

OF SOUTH CAROLINA.

with the said brigade inspector, shall, on oath, appraise the horse of each horseman, immediately before the time of going into such service, and enter such appraisal in a book, to be kept for that purpose; and the said cavalry shall receive the same indemnification, and no other, for loss of horses or otherwise, under the same regulations and restrictions, as are or may be established, in like cases, in the militia in the service of the United States, by the laws thereof, for the time being.

VI. *And be it further enacted*, That the cavalry shall meet in troop, at ^{Troops to} least six times in each year, and at such places as the commanding officer ^{meet.} of each troop shall direct.

VII. *And be it enacted*, That the brigadier in each brigade be, and he is hereby, authorized to direct the mode of uniform for the cavalry of his ^{Uniform and} brigade; and the adjutant general shall prescribe the form of discipline ^{discipline.} to be used and adopted by them.

VIII. *And be it further enacted*, That the company of artillery attached to the twenty-eighth regiment, the company attached to the twenty-ninth ^{Regiment of} regiment, and the company attached to the thirtieth regiment of infantry, ^{artillery form-} shall form one battalion; and the said battalion, together with the Charleston battalion of artillery, shall form one regiment.

IX. *And be it further enacted*, That the said regiment of artillery shall be commanded by a lieutenant-colonel; and each of the said battalions, by ^{How to be} a major; and the Governor or Commander-in-chief shall be, and he is ^{officered,} hereby, authorized to commission, in common form, the first officer in rank in the said regiment, as lieutenant-colonel thereof; and the second and third in seniority, as majors of the battalions, who shall take rank according to the dates of their commissions.

X. *And be it further enacted*, That throughout the other parts of the State, the captains of artillery shall be attached to the battalions in which ^{Other artillery} they reside, respectively; and rise in the same, with the other officers, ^{to remain as} according to the dates of their commissions, ^{before.}

XI. *And be it further enacted*, That the said lieutenant-colonel of cavalry, and lieutenant-colonel of artillery, shall take rank and promotion ^{Officers, how} together with and in the same manner as the other lieutenant-colonels ^{to rank and} of this State. ^{rise.} *Provided, nevertheless*, that no officer to be appointed by virtue of this Act shall take rank and precedent over any officer of infantry of the militia of this State, of the same grade, except by seniority of commission.

XII. *And be it further enacted*, That the officers and men of the cavalry and artillery, throughout this State, shall be subject to the same laws, ^{Subject to} rules and orders, as the officers and men of the infantry of this State, are ^{general rules.} or shall be subject to. *Provided always, nevertheless*, that nothing contained in this Act shall be construed to affect the rights and privileges of the ancient battalion of artillery in Charleston, as secured to them by their charter, or by any other law or regulation.

XIII. *And be it enacted* by the authority aforesaid, That the three companies of artillery in brigadier-general Winn's brigade shall also form ^{Artillery in} one battalion; and the eldest captain in the said battalion shall be ^{Gen Winn's} commissioned major thereof, ^{brigade.}

XIV. *And be it enacted* by the authority aforesaid, That the officers commanding in the different company beats in the town of Georgetown, ^{Officers in} be, and the same are hereby, authorized to hold their respective commissions, ^{Georgetown.} although not resident in the beats aforesaid; *provided*, that the said residence be in his battalion.

VOL. VIII.—64.

Warrants for fines, &c.

XV. And *whereas*, it has been inconvenient, and sometimes oppressive, to issue warrants, in the first instance, against the body of defaulters, and other persons subjected to the fines by the militia law:—for remedy whereof, *Be it enacted* by the authority aforesaid, That the officer to whom the power is given of issuing warrants against the body of defaulters, and other persons liable to fines, shall, in the first instance, issue his warrant against the goods and chattels of such person; and the sergeant or other person to whom such warrant shall be directed, is hereby authorized and required to seize the property of the person against whom the warrant shall be issued, and sell the same, after having advertised it in some public place in the regimental or company district to which the said person may belong, at least five days previous to the sale; and if the person to whom the said warrant shall be directed, shall make a return that he cannot find any goods and chattels to be levied on, then the officer who issued the first warrant is hereby authorized and required to issue a warrant against the body of the person, in lieu of that which was issued against his goods and chattels.

Governor to issue blank commissions.

XVI. *And be it further enacted* by the authority aforesaid, That the Governor and Commander-in-chief for the time being, be, and he is hereby, authorized to issue blank commissions to the lieutenant-colonels of the respective regiments; and the lieutenant-colonels of the respective regiments shall, from time to time, as vacancies may occur in their said regiments, fill up and issue commissions, and make return thereof to the brigadier.

Turning out of the militia.

XVII. *And be it further enacted* by the authority aforesaid, That the militia of Charleston and Georgetown shall be, and they are hereby, exempted from turning out on company parade, oftener than once in every two months; and the commanding officer in each regiment throughout the State, shall be authorized, if he see fit, to exempt his men from turning out on parade in the months of July, August and September; *provided*, they turn out not less than six times in the year.

No. 1748. AN ACT IN ADDITION TO THE MILITIA LAWS OF THIS STATE.

WHEREAS, it is necessary and proper to alter and amend, in some respects, the militia laws of this State: and *whereas, also*, it is highly necessary that due subordination and obedience to orders should be maintained and ensured in the said militia.

Officers liable to be cashiered.

I. *Be it therefore enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That every commissioned officer of the militia of this State, or any part thereof, who shall be tried for and found guilty of disobeying the lawful order or orders of his superior officers, shall be liable,

OF SOUTH CAROLINA.

507

Acts relating to the Militia.

A. D. 1800

therefor, to be cashiered by a court martial, if the same shall be approved of, and the officer ordered to be cashiered, by the Commander-in-chief of this State.

II. *And be it enacted* by the authority aforesaid, That when any volunteer company of cavalry shall be reduced to less than twenty-four men, and when any volunteer company of infantry or artillery shall be reduced to less than thirty men, uniformed according to law, then, and in every such case, the commissions of the officers of such troop or company, as the case may be, shall, respectively, cease and determine; unless such troop or company shall, respectively, be completed with the number of men aforesaid, within twelve months after the passing of this Act.

III. *And be it further enacted* by the authority aforesaid, That no person liable to do militia duty, who now is, or hereafter may be, enrolled in any volunteer troop of cavalry, infantry or artillery, shall be exempted from doing duty in such troop or company, unless he shall have given six months previous notice, in writing, of his intention of leaving such troop or company, to the commanding officer thereof, and shall have complied with the other requisitions required by law.

IV. *And be it enacted* by the authority aforesaid, That the commission of every captain of any troop of cavalry or company of artillery or infantry, shall be null and void, to all intents and purposes, who hereafter shall refuse or neglect, for the space of six months in immediate succession, to muster his troop or company, as the case may be.

V. *And be it further enacted*, That the brigadiers general shall, within their respective commands, depute proper persons to collect all fines and penalties which may be imposed on delinquents under the militia laws of this State, and allow such percentage on the collection thereof, as to them shall appear advisable, so as the same shall not exceed ten per cent.

VI. *And be it enacted* by the authority aforesaid, That all persons acting as fire-masters, or enrolled in any department under them, shall, on ordinary musters, be exempted from the performance of militia duty.

VII. *And be it enacted* by the authority aforesaid, That every militia officer who shall be appointed to conduct an election for an ensign, or other commissioned officer, shall fairly enter, or cause to be entered, in a book or roll, the names of all persons voting at such election, and shall provide a box or glass for the purpose of receiving the said ballots; and the officer so managing such election may require any person offering to give his vote thereat, to swear that he is a resident within the company beat, or is otherwise properly enrolled therein, and is then liable to do duty in that company, under the third section of "An additional Act to organize the Militia throughout the State of South Carolina," passed the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety four; and the officer holding such election shall make oath, that he has managed the election according to law, according to the best of his knowledge and belief, and the orders he shall have received from the commanding officer for conducting the same.

VIII. *And be it enacted* by the authority aforesaid, That whenever it shall be considered as necessary for any militia officer, not under the rank of captain, or other commanding officer of a company, to take a census of the number of persons within his beat, company or district, liable to the performance of militia duty, such officer or officers shall be, and they are hereby, authorized and required to demand the name or names of each and every householder, or other person or persons so resident therein, and to

STATUTES AT LARGE

A. D. 1800.

Acts relating to the Militia.

inquire into their liability to perform such duty in his said beat, company or district; and if any householder, or other person or persons residing in such beat, shall fail or refuse to satisfy the necessary enquiries of such officer, touching his or their liability to be enrolled as a militia man, such householder or other resident shall forfeit and pay the sum of ten dollars, to be sued for and recovered before any one justice of the peace; which penalty shall be paid into the hands of the paymaster of the regiment in which such person or persons may reside.

Carbineers
attached.

IX. *And be it enacted* by the authority aforesaid, That it shall and may be lawful to and for any major of cavalry to attach to the squadron under his command, by and with the consent of the commanding officer of the regiment of which such squadron shall be a part, any number of rifle carbineers, not exceeding twelve to a troop, who shall also be armed as troopers, in such way and manner as he shall think fit and direct.

Vacancies,
how filled.

X. *And be it enacted* by the authority aforesaid, That whenever a vacancy or vacancies shall happen of any commissioned officer or officers in any troop or company of the militia, and the men composing such troop or company, respectively, shall neglect or refuse, for the space of three months, due notice of an election being given, to fill up the same as the law directs, then, and in every such case, it shall and may be lawful to and for the commanding officer of the regiment to which such troop or company shall belong or be attached, by and with the consent of the commanding officer thereof, to fill up such vacancy.

Pioneers may
be attached.

XI. *Be it enacted* by the authority aforesaid, That it shall and may be lawful to and for the commanding officer of any company of artillery to attach thereto any number of free negroes and Indians, moors, mulattoes, and mestizoes, between the age of eighteen and forty-five, not exceeding four, to act as pioneers, in such way and manner as the commanding officer of the regiment or battalion to which such company may belong or be attached, shall think fit, or direct the said pioneers to be clothed in hunting shirts and overalls, and equiped with the usual accoutrements of a pioneer, except swords, hangers or bayonets.

Fines, how to
be applied.

XII. *And be it enacted* by the authority aforesaid, That the fines which have been, or may hereafter be, collected in the ancient battalion of artillery in Charleston, under the authority of the militia law of this State, from the commissioned and non-commissioned officers and matrosses of the said battalion, shall and may be applied, exclusively, to the uses and purposes of the said battalion; and the fines collected, as aforesaid, in the second battalion of the regiment of artillery in Charleston, shall and may be applied, exclusively, to the uses and purposes of the said second battalion.

Persons of col-
or not to wear
offensive wea-
pons.

XIII. *And be it enacted* by the authority aforesaid, That no trumpeter or musician, being a negro, mulatto, mestizo, or person of color, attached to any corps of cavalry, be permitted to be armed with any offensive weapons, unless in cases of alarm or of service on detachment.

In the Senate House, the twentieth day of December, in the year of our Lord one thousand eight hundred, and in the twenty-fifth year of the Independence of the United States of America.

JOHN WARD, *President of the Senate.*

THEO. GAILLARD, *Speaker of the House of Representatives.*

OF SOUTH CAROLINA.

509

Acts relating to the Militia.

A. D. 1807.

No. 1892.

AN ACT TO ALTER AND AMEND AN ACT ENTITLED "AN ACT CONCERNING THE CAVALRY AND ARTILLERY OF THIS STATE, AND FOR OTHER PURPOSES THEREIN MENTIONED;" PASSED THE SIXTEENTH DECEMBER, SEVENTEEN HUNDRED AND NINETY-SEVEN.

WHEREAS, by the eighth section of the Act aforesaid, it is enacted that the company of artillery attached to the twenty-eighth regiment, the company attached to the twenty-ninth regiment, and the company attached to the thirtieth regiment of infantry, shall form one battalion, and the said battalion, together with the Charleston battalion of artillery, shall form one regiment. And *whereas*, no such company as is stated in the said Act to be attached to the thirtieth regiment of infantry, did or does exist. And *whereas*, the Governor and Commander-in-chief for the time being, did permit to be raised a company of artillery, by the name of "The Federalist Artillery Company," pursuant to the Act of Congress, in such case made and provided, and did duly commission the officers thereof, which company hath ever since acted with the said regiment of artillery as a company of the battalion aforesaid, formed by the Act aforesaid, commonly called and known as the second battalion of the said regiment of artillery.

I. *Be it therefore enacted*, by the Honorable the Senate and House of Representatives, now sitting in General Assembly, and it is hereby enacted by the authority of the same, That the said company of artillery, called the Federalist Artillery Company, be, and the same is hereby, attached to the said regiment of artillery, as one of the companies of the said second battalion of the said regiment; and that the officers thereof shall, in all cases, take and be entitled to rank in the said regiment, and militia of this State, according to law and the dates of their commissions.

II. *And be it further enacted* by the authority aforesaid, That if, at any time hereafter, it shall happen that one or more of the companies forming the said second battalion of artillery shall be dissolved, or otherwise legally cease to exist, it shall and may be lawful to and for the Governor or Commander-in-chief for the time being, to raise, or cause or permit to be raised, one or more companies, as the vacancies of the said second battalion of artillery may require, and to commission the officers thereof according to law; which company or companies, as the case may be, shall be attached, and form a company or companies, as the case may be, of the said second battalion of artillery, in the room and stead of any company or companies so dissolved or ceasing to exist, so that the said battalion may always be kept entire.

III. *And be it further enacted* by the authority aforesaid, That so much of the said Act entitled "An Act concerning the Cavalry and Artillery of this State," passed the 16th December, 1797, as is repugnant to this Act, be, and the same is hereby, repealed.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and seven, and of the Independence of the United States of America the thirty-second.

No. 1893. AN ACT TO GIVE THE MILITIA OFFICERS OF THIS STATE, WHO HAVE NOT TAKEN THE OATHS REQUIRED BY THE ACT OF THE GENERAL ASSEMBLY, PASSED THE NINETEENTH DAY OF DECEMBER, ONE THOUSAND SEVEN HUNDRED AND NINETY-FOUR, IN THE MANNER DIRECTED BY SAID ACT, FURTHER TIME TO TAKE THE SAID OATH.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met in General Assembly, and by the authority of the same, That all militia officers of this State, who have received commissions, and who have not taken the oath proscribed by the Act of the General Assembly of this State, passed the nineteenth day of December, in the year one thousand seven hundred and ninety-four, within the time limited by the said Act, and who shall take the said oath within the space of one year from the date of the passing of this Act, shall be, and they are hereby, established in their respective commissions, and shall take grade in the same manner, and possess the same rights and privileges, as they might or would have had, provided they had taken the oath as prescribed and directed by the said Act of the General Assembly, passed on the nineteenth day of December, in the year one thousand eight hundred and ninety-four; any law or custom to the contrary notwithstanding.

II. *And be it enacted* by the authority aforesaid, That nothing in this Act shall extend, or be construed to extend, to any militia officer of this State who is or may have been concerned in any decision already made by any military court, or where there are now any officers contending for rank, in consequence of the aforesaid oath not having been taken, or may contend for, three months after the passing of this Act.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and seven, and of the Independence of the United States of America the thirty-second.

No. 1898. AN ACT EXPLANATORY OF FORMER ACTS RELATIVE TO THE MODE OF DETERMINING THE SENIORITY OF OFFICERS IN THE MILITIA OF THIS STATE; AND FOR OTHER PURPOSES THEREIN MENTIONED.

WHEREAS, it appears that Captain Janent Laval and Captain John Geddes, hold commissions in the first squadron, eight regiment of cavalry, of the same grade, each to take rank on the same day; and *whereas*, in consequence thereof, Isaac Walter, Esq., lieutenant-colonel of the said regiment, did order and direct their seniority to be determined by lot, as directed by law; and *whereas*, brigadier-general Read set aside and annulled the said order, and a court of enquiry, unauthorized in such cases by any law, was called by the Governor of this State, to determine the rank

OF SOUTH CAROLINA.

of the said officers, and the seniority thereby given to Captain Janent Laval, although the same had not been determined by lot, as is directed by law, as aforesaid, whereby it appears that the said Captain John Geddes has been deprived of a right secured to him by the militia laws, in such cases made and provided.

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That lieutenant-colonel Isaac Walter, or the commanding officer of the said eighth regiment of cavalry, is hereby required and directed, on or before the first Monday in February next, to cause the seniority of rank between Captain Geddes and Captain Laval to be determined by lot, according to the mode prescribed by the militia laws.

II. *And be it further enacted* by the authority aforesaid, That in all cases where two officers hold commissions of equal grade, and are entitled to take rank on the same day, notwithstanding the said commissions may have been issued and filled up on different days, yet the seniority of such officers shall be determined (without reference to their former commissions,) by lot, according to the directions of an Act of Congress, passed the eighth day of May, one thousand seven hundred and ninety-two, and an Act of this State, passed the eighteenth day of December, one thousand seven hundred and ninety-four, in conformity thereto.

III. *And be it further enacted* by the authority aforesaid, That this Act be deemed a public Act, and that it shall be the duty of the militia officers of this State to enforce the due observance thereof.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and seven, and of the Independence of the United States of America the thirty-second.

WM. SMITH, *President of the Senate.*

AN ACT REQUIRING THE MAJOR-GENERALS OF THE MILITIA OF THIS No. 1916.

STATE TO CAUSE ONE UNIFORM SYSTEM OF EVOLUTIONS TO BE ADOPTED BY THE CAVALRY, WITHIN THEIR RESPECTIVE DIVISIONS; FOR PERFECTING THE SEVERAL OFFICERS OF THE MILITIA THROUGHOUT THIS STATE, IN THEIR MILITARY DUTIES; AND FOR OTHER PURPOSES THEREIN MENTIONED.

WHEREAS, it is highly expedient and necessary that a uniform system of evolutions should be adopted for the cavalry; that the several militia officers throughout this State should become perfect in their military duties; and that patrol duty should be strictly and regularly performed:

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That an uniform system of evolutions be adopted

Acts relating to the Militia.

Uniform system of evolutions.

and performed by the cavalry of this State, the same to be settled and agreed upon by the major-generals and the adjutant-general, or a majority of them. That it shall be the duty of the major-generals of the militia of this State to cause the same to be notified to, and to be adopted and observed by, the cavalry within their respective divisions.

Officers to attend brigade musters.

II. *And be it further enacted* by the authority aforesaid, That it shall be the duty of all the officers of the several different brigades throughout this State, under the rank of brigadier, excepting artillery and cavalry officers, to assemble in some central and proper place within their respective brigades, in full uniform, and equipped with a musket, bayonet, cartouch box and twenty-four cartridges, once at least in every two years, and there be kept on duty in the practice of the manual exercise, for a time not exceeding six days, nor less than three days, as the major-general of each division may think fit and proper. And it shall be the duty of the several brigadier-generals to attend the said officers so assembled within their respective brigades, and to lead, train, discipline and manoeuvre the said officers, according to the system of Steuben, or any other system which may be adopted by Congress. And it shall be the duty of the adjutant-general and brigade-majors, within the respective brigades, to attend such musters, and be subject to orders, as on reviews; and it shall also be the duty of the major-generals, within their respective divisions, to attend at the said musters; which said musters of the officers, as aforesaid, shall be ordered by the Governor or Commander-in-chief, and at such times as he shall deem fit and proper for the purposes intended by this Act. And in case any of the officers required by this Act to attend the musters aforesaid, shall fail or neglect so to attend, the said officers, respectively, so failing or neglecting, shall be subject to the fines and forfeitures following, that is to say: a major-general shall be fined in the sum of sixty dollars, a brigadier-general in the sum of fifty dollars, a colonel in the sum of forty dollars, a major in the sum of thirty-dollars, a captain, lieutenant or ensign, in the sum of twenty dollars; and that such defaulter or defaulters shall be tried in the same manner as is now directed by the militia laws of this State, and the fines applied to the use of the brigade in which such fines and forfeitures have accrued.

Officers to attend regimental musters.

III. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the officers of the several regiments within this State, in like manner, to assemble, once at least in every year, in some convenient and central place, within the bounds of the said regiments, respectively, at such times as the respective brigadiers shall order, accorded in the same manner as hereinbefore directed; at which regimental musters it shall be the duty of the brigade-major of the respective brigades to attend; and the said officers, respectively, in case of default, shall be subject to the same fines and forfeitures as are in the said clause mentioned; which said fines and forfeitures are to be collected in like manner as aforesaid, and to be applied to the use of the regiments in which such fines and forfeitures have accrued.

Fines for non-attendance.

IV. *And be it further enacted* by the authority aforesaid, That every lieutenant-colonel who shall wilfully neglect to turn out at a regimental muster, shall be fined in a sum of forty dollars, and fifty per cent. on the amount of his last general tax; and that every major, for a like neglect, either at a regimental or battalion muster, shall be fined thirty dollars, and also fifty per cent. on the amount of his last general tax; that every captain, for a like neglect, shall be fined twenty-dollars, and also a

sum not exceeding fifty per cent. on his general tax; that every subaltern officer, for a like neglect, shall be fined fifteen dollars, and also a sum not exceeding fifty per cent. on the amount of his general tax; and that every non-commissioned officer and private, for a like neglect, shall be fined the sum of three dollars, and fifty per cent. on the amount of his general tax; that every captain who shall wilfully neglect to turn out at any ordinary muster, shall be fined in the sum of six dollars, and also fifty per cent. on the amount of his general tax; that every subaltern officer, for a like neglect, shall be fined in the sum of four dollars, and also fifty per cent. on the amount of his general tax; and that every non-commissioned officer and private, for the like neglect, shall be fined the sum of one dollar and fifty cents, and fifty per cent. on the amount of his general tax.

V. *And be it further enacted* by the authority aforesaid, That every person liable to perform patrol duty, or liable to procure a substitute to perform the same, shall, on failure (without legal excuse,) to rido patrol, either by himself or substitute, in their respective turn, for every such default, forfeit and pay to the commanding officer of the company of which such patrol is a detachment, the sum of two dollars, and also the sum of fifty per cent. on the amount of his last general tax, to be recovered before the captain of such company, the money to go to the use of the company of which such patrol is a detachment.

Fine for not performing patrol duty.

VI. *And be it further enacted*, That no officer, either of infantry, cavalry or artillery, shall be excused from the performance of patrol duty; but every officer, either of cavalry, infantry or artillery, and every private, shall be liable to perform patrol duty in the beat, under the [captain] of said beat, within which such officer or private resides.

Officers to perform patrol duty.

VII. *And be it further enacted*, That every clause and article in this Act shall be construed to extend as well to the officers and privates of the cavalry, artillery and volunteer companies, as to the officers and privates of the infantry.

This Act, how to be construed.

VIII. *And be it further enacted* by the authority aforesaid, That all Acts and clauses of Acts repugnant hereto, be, and the same are hereby repealed.

Repealing clause.

IX. *And be it further enacted* by the authority aforesaid, That the proportion of the militia of this State ordered to be organized and held in readiness to act at a moment's warning, be exempt, during their organization and the continuance of such orders, from ordinary militia duty, and be subject to the immediate command only of the officers detached with them; and that the militia so detached, until called into actual service, shall be subject and liable to the same fines and penalties for breach of duty, as by law are imposed on the militia of the State generally; such fines to be appropriated to the use of the respective battalions or regiments in which they may accrue; and that the militia so detached be required to assemble in battalions, squadrons or regiments, at the discretion of the commanding officers of regiments or brigades, to be encamped, and there to perform all the usual duties and exercises of a camp, and to continue embodied and encamped for not less than three or more than five days; and that the troops who may perform such duty shall be entitled to rations, or money in lieu thereof, agreeably to the contract of the United States for rations in this State; and that the sum of four thousand dollars be appropriated in the tax bill, for the above purpose; and that his Excellency the Governor be, and he is hereby, authorized to apply to the comptroller-general for

The militia ordered to be organized, exempt from ordinary militia duty.

warrants, and the said comptroller-general to issue the same, in favor of the commanders of the corps who may encamp as aforesaid, for the rations, or amount thereof, due to said corps, respectively.

Mode to be adopted in relation to the rise of officers.

X. *And be it further enacted* by the authority aforesaid, That the following mode, in relation to the rise of officers, and no other mode, be hereafter adopted and adhered to, viz; that in case of any vacancy for any commissioned officer in any company, such vacancy shall be filled up by the ballot of all persons enrolled, (including alarm men,) in such company; that in case the majority in any battalion or squadron shall become vacant, that such vacancy shall be filled up by the votes of the commissioned officers of such battalion or squadron, who shall be compelled to elect a major from the captains of said battalion or squadron; that in case of the death, resignation or removal of any lieutenant-colonel, that the vacancy thereby occasioned shall be filled up by the votes of the captains in said regiment, who shall elect a lieutenant-colonel from one of the majors of said regiment; and if it should happen that two majors are not in commission when the lieutenant-colonel may die, resign or be removed, that the commissioned officers of the battalion in which such vacant majority may occur, shall be obliged to appoint a major or majors, as the case may be, before a choice of lieutenant-colonel can be made; that in case of the death, resignation or removal of any brigadier-general, that the vacancy thereby occasioned shall be filled up by the votes of the field officers of the brigade electing him, from among the lieutenant-colonels; that in case of the death, resignation or removal of any major-general, that the vacancy thereby occasioned shall be filled up by the brigadier-generals of the division, electing from among themselves.

Regiments of cavalry and artillery to be formed into brigades.

XI. *And be it further enacted* by the authority aforesaid, That the regiments of cavalry and artillery of the two divisions of the militia of this State, be formed into brigades, one brigade of each to be attached to each division; and that as soon as his Excellency the Governor shall report the organization of said brigades, the brigadier-generals thereof shall be, appointed from among the colonels of the brigades, respectively, by the field officers of the same.

Sanction of Congress to be obtained.

XII. *And be it further enacted* by the authority aforesaid, That certified copies of this clause of this Act, together with the laws heretofore passed in relation to the cavalry and artillery of this State, be transmitted to the senators and members of Congress from this State, with a request that they endeavor to obtain from the Congress of the United States their sanction of the organization of the cavalry and artillery of this State.

Fines in uniform companies, how to be collected.

XIII. *And be it further enacted* by the authority aforesaid, That the officers commanding uniform corps of infantry, cavalry or artillery, shall, on their court martials being approved of hereafter, transmit the same to the adjutant of their respective regiments, whose duty it shall be to sign and issue executions against all persons returned as defaulters by said courts martial, except as to the militia of Charleston, where the brigade collector shall sign all executions and collect all fines.

Persons removing must enrol their names where they settle

XIV. *And be it further enacted* by the authority aforesaid, That all persons enrolled in any company of militia in this State, who shall or may remove out of the company, beat or precinct, or settle or reside, for the space of three months, in any other part of the State, and who shall not enrol his name, and do ordinary militia duty in the place or precinct to which he may so remove and remain for the time above mentioned, or any

longer space of time, shall be liable to be fined as a defaulter, in case the company in which his name is enrolled has performed militia duty during his absence.

In the Senate House, the seventeenth day of December, in the year of our Lord one thousand eight hundred and eight, and in the thirty-third year of the Sovereignty and Independence of the United States of America.

SAMUEL WARREN, *President of the Senate.*

JOSEPH ALSTON, *Speaker of the House of Representatives.*

AN ACT TO AMEND AND EXPLAIN THE MILITIA LAWS OF THIS STATE. No. 1940.

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That in case of vacancy of the majority in any battalion or squadron, the captains and subalterns thereof shall fill up the said vacancy, by the election of some officer from among themselves. That in case of vacancy of a colonel's commission in any regiment, the majors and captains thereof shall fill the same, by election of some officer from among themselves. That in case of vacancy in the commission of a brigadier-general, the colonels and majors of the brigade shall fill the said vacancy, by the election of some officer from among themselves. That in case of the vacancy of a general of division, the colonels and brigadiers of such division shall fill the same, by the election of some officer from among themselves.

Rank of officers fixed.

II. *And be it further enacted* by the authority aforesaid, That so much of an Act, passed at the last session of the General Assembly, as enacts that the cavalry and artillery of this State shall be arranged into brigades, be, and is hereby, repealed; and that hereafter, colonels and majors of cavalry, and colonels and majors of artillery, respectively, may and shall be eligible by election to the commission of brigadier-general, or general of division, as the case may be, agreeably to terms set forth in the foregoing clause of this Act.

Part of a former Act repealed.

III. *And be it further enacted* by the authority aforesaid, That all elections for officers as aforesaid, shall be ordered by the officer commanding the battalion or squadron, regiment, brigade or division, wherein the vacancy shall occur, as the case may be, giving at least thirty days notice for the election of a major, at least forty days notice for that of a colonel, and at least fifty days notice of the election for a brigadier-general or general of division; that at every such election, it shall require a majority of the persons eligible to vote, to constitute an election, and a majority of the votes to elect.

How to hold elections.

IV. *And be it further enacted*, That in consequence of the major-generals and adjutant general of this State not having, as directed by the first section of the militia law, passed the seventeenth day of December last, brought forward a system of uniform exercise and evolutions, for the

Hoyt's system adopted.

training of cavalry, that the exercise and evolutions laid down and published by — Hoyt, be now and hereafter adopted, and none else, throughout the State, until the major-generals and adjutant-general do bring forward such uniform system, as directed by the aforesaid Act.

V. *And be it further enacted* by the authority aforesaid, That in future, all fines to be imposed for neglect of patrol and militia duty, generally, in every company, battalion, regiment or brigade, shall be collected as follows, viz :—by such person or persons as the majors, lieutenant-colonel, or commanding officer of regiments or brigades, shall appoint to collect the same within their respective commands; and that the said persons so to be appointed to collect said fines, shall be allowed a per centage on the monies to be collected by them, respectively, not exceeding ten per cent.; and that it shall be the duty of the senior officer presiding at a court martial, to furnish the collector so to be appointed, with a list of the fines imposed by such court, within fifteen days after the said court shall have imposed the same; and that the said collector shall, within thirty days after receiving such lists, notify to each delinquent the amount of his fine, and require the payment of the same; and if the said delinquent, so to be notified of his fine, shall neglect to pay the same for the space of fifteen days after such notification, the said collector shall issue an execution, and may arrest thereunder the body of said delinquent for satisfaction of said fine, unless the said delinquent shall point out sufficient property which can be levied on for satisfaction of said fine so to be imposed; and that it shall be the duty of the several tax collectors in this State, on the reasonable request of any commissioned officer in the militia, or of any collector of militia fines, to discover and make known the amount of the last general tax of any defaulter liable to be fined as aforesaid; *provided always*, that every non-commissioned officer or private, who may conceive himself aggrieved by the sentence of any court martial, shall have a right to appeal from the same, within fifteen days after being notified of the fine imposed, to the field officers of his regiment; and the determination of a majority of the field officers of such regiment, shall be conclusive on the subject submitted to them.

VI. *And be it further enacted* by the authority aforesaid, That all officers ordering court martials, or authorized by law to approve court martials, within their respective commands, shall, as often as they may think proper, and once in every year at least, compel the collector or collectors of fines as aforesaid, and all others who may have received or collected fines for neglect of patrol or militia duty, to come to an account and reckoning, and pay over the said fines so collected, to be applied according to law.

VII. *And be it further enacted* by the authority aforesaid, That the field officers of the seventh brigade, residing within the parishes of St. Philip's and St. Michael's, shall have power, for the use of the militia of said parishes, to purchase as much land, not exceeding three hundred acres, as they may deem requisite and sufficient for a parade ground, or place of military exercise; and they and their successors in command, may hold the same for ever thereafter, as a parade ground for the militia aforesaid, free of taxes; and to aid them in the purchase hereby intended to be made, the said field officers, or a majority of them, shall have liberty to draw one or more lotteries, the profits whereof to be applied in payment of said parade ground, and to no other purpose, and not to exceed the amount of the said purchase.

OF SOUTH CAROLINA.

517

Acts relating to the Militia.

A. D. 1808.

VIII. *And be it enacted* by the authority aforesaid, That the lieutenant-colonels or commandants or the respective regiments, shall, at least once in every year, order and direct the several commissioned and non-commissioned officers under their command, to assemble, completely armed and accoutred, at some convenient and central place, within their battalion or regimental precinct, one day previous to the battalion or regimental parade or review, for the purpose of being instructed in the exercise and manoeuvres intended to be performed by the battalion or regiment to which said officers may be attached, at the next parade or review of the same; which said duty shall be in substitution of the duties required by law of said regimental officers, under the Act passed seventh December, one thousand eight hundred and eight; and any commissioned officer neglecting to obey the order of his commanding officer aforesaid, shall be liable to the fines imposed by the aforesaid Act; and every non-commissioned officer, to the same fines as are imposed by law on them in case of their neglect of militia duty.

Officers to meet
and be in-
structed.

IX. *And be it further enacted* by the authority aforesaid, That every person liable to perform patrol duty, or liable to procure a substitute to perform the same, shall, on failure, without legal excuse, to ride patrol, either by himself or substitute, in their respective turn, for every such default, forfeit and pay to the commanding officer of the company of which such patrol is a detachment, the sum of five dollars, and also, the sum of five per cent. upon the amount of his last general tax, to be recovered before the captain of such company, the money to go to the use of the company of which such a patrol is a detachment; and all Acts and clauses of Acts repugnant hereto, be, and the same are hereby, repealed.

Fine for not
riding patrol.

X. *And be it further enacted* by the authority aforesaid, That the sum of five hundred dollars be appropriated, subject to the draft of the Governor, for the payment of the balance due of the expenditure of the late quota of the militia of this State; and that the sum of five thousand dollars be appropriated, and be subject to the draft of the Governor, as a provision, in case the General Government should call upon this State to furnish a quota of active militia to take the field, and not otherwise; and also, that the sum of two thousand five hundred dollars be appropriated for the purpose of building two new sheds for the securing of the carriages for the artillery in Charleston, and for repairing the former ones built for that purpose, and that the same be subject to the draft of the field officers of the twenty-eighth and twenty-ninth regiments of this State, and the field officers of the regiment of artillery in Charleston.

Money appro-
priated.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and nine, and in the thirty-fourth year of the Independence of the United States of America.

SAMUEL WARREN, *President of the Senate.*

A. D. 1812.

Acts relating to the Militia.

No. 2010. AN ACT TO EXEMPT THE OFFICERS, NON-COMMISSIONED OFFICERS AND PRIVATES, OF THE CITY GUARD OF CHARLESTON, FROM MILITIA DUTY.

WHEREAS, it has been represented to the Legislature, that under the present militia laws of this State, the officers, non-commissioned officers and privates, of the city guard of Charleston, are subject, (notwithstanding their enrolment under the ordinance of said city,) to be fined by the officers of the militia in whose beat they reside, for not performing the duties required under the militia law, when at the same time they are performing the duties of guard and watch of the city; therefore, to remedy, in future, this inconvenience and grievance,

I. *Be it enacted, and it is hereby enacted,* That from and after the passing of this Act, that so much of the militia law of this State shall be, and is hereby, repealed, as imposes a fine or fines on any member of the city guard of Charleston, so long as said members so continue, and until discharged from the said guard, notwithstanding such member of the guard may be resident in the militia beat: *provided,* that the city guard of Charleston shall at no time consist of more than one hundred, rank and file; and this Act may, in the above case, be specially pleaded.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and twelve, and in the thirty-seventh year of the Sovereignty and Independence of the United States of America.

SAMUEL WARREN, *President of the Senate.*

JOHN GEDDES, *Speaker of the House of Representatives.*

No. 2026. AN ACT TO ALTER AND AMEND THE MILITIA LAWS OF THIS STATE.

I. *Be it enacted,* by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the Commander-in-chief for the time being, may, in case of invasion or other emergency, when he shall judge it necessary, order out any portion of the militia of this State, to march to any part thereof, and continue not more than three months at any one time, and until relieved, for which he shall make timely provision; and likewise, may, in consequence of an application of the Executive of any of the United States, on an invasion or insurrection, or on apprehension of an invasion, of such State, at his discretion, order any number of militia, not exceeding one-third part thereof, to such State; *provided,* that the militia which shall be so ordered out of the State, shall not be obliged to continue on duty out of this State more than two months at any one time.

II. *And be it further enacted* by the authority aforesaid, That in all cases where the militia are ordered out by virtue of this Act, volunteers and substitutes shall be accepted in the place of those ordered out, under the conditions, limitations and restrictions, already established by law.

Commander-in-chief may order out the militia.

Volunteers and substitutes to be accepted.

OF SOUTH CAROLINA.

519

Act relating to the Militia.

A. D. 1813.

III. *And be it further enacted* by the authority aforesaid, That no civil officer whatsoever shall, on any pretence, execute any process, unless for treason, felony or breach of the peace, on any person whatsoever, when such person shall be called out into service and embodied by the Executive authority of this State, in pursuance of the directions of this Act, or within thirty days after such person shall be discharged from the service upon which such person shall be called out, under the penalty of twenty dollars, and the service of any such process shall be void, to all intents and purposes whatsoever; and that all suits which may be pending against such persons, shall stand and be continued over, in the same manner as if they had been regularly postponed by affidavit.

Process, when to be executed.

IV. *And be it further enacted* by the authority aforesaid, That the estate of any person whatsoever, when such person shall be called out and embodied in pursuance of the directions of this Act, shall be free and exempt from levy, distress or sale, by virtue of any legal process whatsoever, from the time any such person shall be called out as aforesaid, and until thirty days shall elapse after such person shall be discharged from the service upon which such person shall be so called out; and that any person making any such levy, or distress, or sale, as aforesaid, shall be fined in the sum of twenty dollars; and every such levy, distress, or sale, as aforesaid, shall be void, to all intents and purposes whatsoever.

Estates protected.

V. *And be it further enacted* by the authority aforesaid, That from and after the passing of this Act, the officers, non-commissioned officers, musicians and privates, of the infantry, artillery, cavalry and riflemen, of the militia of this State, when called into service and embodied by the authority of the laws thereof, and whilst remaining therein, shall be entitled to the same pay, rations and forage, with the regular troops of the United States.

Pay of militia.

VI. *And be it further enacted* by the authority aforesaid, That whenever the militia shall be called into the actual service of this State, by the authority of the laws thereof, their pay shall be deemed to commence from the day of their appearing at the places of battalion, regimental or brigade rendezvous, allowing to each officer, non-commissioned officer, musician and private soldier, a day's pay and rations for every fifteen miles from his home to such place of rendezvous, and the same allowance for travelling home from the place of discharge.

Pay, when to commence.

VII. *And be it further enacted* by the authority aforesaid, That whenever the militia, or any part thereof, shall be in actual service, and embodied in consequence of being so ordered out by the Commander-in-chief, either within or without the State, they shall be subject to the same rules and regulations as the troops of the United States shall be subject to, at the time the militia shall be so ordered out, in order to secure, as far as possible, an uniformity of discipline between the militia of this State and the troops of the United States; and the said rules and articles shall be proclaimed with due solemnity at the head of such detachment, as soon after their being assembled as possible.

How to be governed.

VIII. *And be it further enacted* by the authority aforesaid, That whenever a militia-man, in either of the aforesaid cases, shall have been duly summoned or ordered to appear at the rendezvous appointed, and shall not appear, then, and in that case, he may be fined in a sum not exceeding five hundred dollars, and the amount of his taxes last paid to the State, at the discretion of a court martial, to be composed of officers of the detachment

Fine for not turning out.

Acts relating to the Militia.

ordered out, if it be convenient ; if not convenient, of officers of the brigade to which the delinquent shall belong, or of any other officers of the militia of this State, at the discretion of the Commander-in-chief, who is hereby authorized to order the said courts, in conformity with the usage of the army of the United States. And in addition to the fine which the said court-martial may inflict on any person who may subject himself to any of the aforesaid penalties, the said court martial may, at their discretion, sentence any delinquent to imprisonment in the common gaol, for a term not exceeding three months ; *provided, always,* that no fine or imprisonment shall be imposed on any delinquent until he shall have been summoned to appear before a court-martial, to shew cause why such fine or imprisonment should not be imposed.

How to be warned to turn out. IX. *And be it further enacted* by the authority aforesaid, That as often as it shall happen that any non-commissioned officer or private shall be absent when any non-commissioned officer shall call to warn him to appear at rendezvous, a notice in writing, signed by such non-commissioned officer, and left at the usual place of his abode, shall be deemed a sufficient warning.

Fines, how to be collected. X. *And be it further enacted* by the authority aforesaid, That all fines which shall be imposed by virtue of this Act, shall be collected in the following manner : the president of every court martial shall make a list of all the persons fined, designating the company to which they belong, and the sum imposed as fines on each person, and draw his warrant, under his hand and seal, directed to any sheriff of any district, as the case may be, thereby commanding such sheriff to levy such fine or fines, together with his costs, of the lands, tenements, goods and chattels, of such delinquent ; and every such sheriff to whom such list and warrant aforesaid shall be directed and delivered, shall execute the same by levying and collecting the said fines, as aforesaid, and shall make return thereof, within forty days from the receipt of such warrant, to the president who issued the same ; and should the sheriff be able to find no lands, tenements, goods or chattels, of which to levy the said fine or fines, then he shall take the body of the said delinquent, and commit it to gaol, and there keep it until the said fine or fines shall be paid, or until double the time shall have elapsed for which the delinquent would have served, had he joined the militia so ordered out ; and the said sheriff shall be entitled to the same fees for collecting the aforesaid fines, and subject to the same penalties for neglect, as are allowed and provided in similar cases.

To be paid to the paymaster. XI. *And be it further enacted* by the authority aforesaid, That all fines collected as above, shall be paid into the hands of the pay-master of the regiment to which the delinquents shall, respectively, belong.

Fines for patrol and militia duty. XII. *And be it further enacted* by the authority aforesaid, That all fines, (except such as are otherwise provided for by this Act,) now incurred, or which may hereafter be incurred or imposed for neglect or default of patrol or militia duty, (except in the parishes of St. Philip and St. Michael,) may be collected in the following manner, to wit : by warrant, under the hand and seal of the captain, or other commanding officer of the company, or by the presiding officer of the court-martial by which the fine is imposed, which said warrant may be directed to any sergeant of the company to which the delinquent belongs, commanding him to levy and collect the said fine or fines ; and the said sergeant is hereby authorized and required, under the penalty of twenty dollars, to call on every delinquent who shall

be named in such warrant, or in a schedule or list to the warrant annexed, and to demand payment of the said fine or fines; and on neglect or refusal to make such payment, after demand thereof so as aforesaid made, then the said sergeant having the aforesaid warrant, is hereby required forthwith to proceed to collect the said fine or fines, together with such costs as are received by constables in small and mean causes.

XIII. *And be it further enacted* by the authority aforesaid, That the form of the warrant to be issued by the captain or commanding officer of the company, or the presiding officer of the court martial, for the collection of the fines aforesaid, shall be as follows:

"The State of South Carolina:

Whereas, the persons named in the schedule or list herunto annexed, have been duly sentenced by a court martial to pay the sums to their names affixed; this warrant, therefore, authorizes and requires you to levy and sell of the goods and chattels sufficient to pay the fine and costs which have been adjudged against him; and pay over the fines aforesaid to the proper officer.

Given under my hand and seal, the _____ day of _____, one thousand eight hundred and _____.

A B, Captain. L. S."

XIV. *And be it further enacted* by the authority aforesaid, That if the said person to whom the said warrant shall be directed, shall make return that he cannot find any goods and chattels to be levied on, then the officer who issued the warrant is hereby authorized and required to issue a warrant against the body of the delinquent, and take him to the common gaol, there to remain for such time as is already provided for by law, unless the fine and costs may be sooner paid.

XV. *Whereas*, Chapman Levy, Francis Blair, William Robinson, Robert Singleton, Joshua English, John Hughson, William Trapp, A. Blanchard, John Parker, and Robert Coleman, have prayed for leave to raise a fund, by one or more lotteries, for the purpose of purchasing arms and other munitions of war for the use of the Camden rifle and artillery companies: *Be it therefore enacted* by the authority aforesaid, That the said Chapman Levy, Francis Blair, William Robinson, Robert Singleton, Joshua English, John Hughson, A. Blanchard, John Parker, and Robert Coleman, be, and they are hereby, authorized to raise a fund, not exceeding five thousand dollars, by establishing and drawing one or more lottery or lotteries; the said fund to be appropriated for the purchase of such arms as may be suitable for the use of the said Camden rifle and artillery companies.

XVI. *And be it further enacted* by the authority aforesaid, That all free persons of color, pioneers, fatigue-men, musicians, trumpeters, buglers, drummers, and fifiers, attached to, or liable to do duty in, any company, troop or corps, shall be entitled to the same pay, and be liable to the same fines and penalties, and subject to the same rules and regulations, as the militia of this State are liable to.

XVII. *And be it further enacted* by the authority aforesaid, That the Commander-in-chief for the time being shall have authority to remove to some temporary place of safety and deposit, such portion of the arms, ammunition and military stores, at any time deposited in the public arsenals of the State, as circumstances may appear to require, and, when necessary, in his opinion, to provide and furnish sufficient guards to protect the public

Acts relating to the Militia.

arsenals, until it be found expedient to call out into the public service detachments of the militia, on whom this duty may in part devolve.

Arsenals to be examined.

XVIII. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the Governor and Commander-in-chief for the time being, from time to time, to examine, or cause to be examined by some proper officer, the situation of the respective arsenals throughout the State; to require security from the arsenal keepers, and to remove them for negligence or other improper conduct, or incapacity of performing the duties devolving on them as as such; and to appoint, in cases of removal, other persons to supply the vacancies thereby created.

Governor may aid in erecting temporary works.

XIX. *And be it further enacted* by the authority aforesaid, That the Commander-in-chief for the time being may, at his discretion, aid and assist the citizens of any portion of this State in erecting temporary works and means of protection, and build such redoubts and establish such military posts, as he shall deem necessary, and best calculated to promote the common defence.

Additional compensation to the adjutant general.

XX. *And be it further enacted* by the authority aforesaid, That the Governor shall be, and he is hereby, authorized to make, to the adjutant-general, from the contingent fund, such additional compensation as the additional duties imposed on that officer may, in his judgment, render proper and reasonable; *provided*, the same do not exceed five hundred dollars per annum.

Repealing clause.

XXI. *And be it further enacted* by the authority aforesaid, That all Acts and parts of Acts repugnant to this Act, be, and the same are hereby, repealed.

In the Senate House, the twenty-fourth day of September, in the year of our Lord one thousand eight hundred and thirteen, and in the thirty-eighth year of the Sovereignty and Independence of the United States of America.

No. 2046. AN ACT TO PROLONG THE TIME FOR CERTAIN MILITIA OFFICERS TO TAKE THE OATH OR AFFIRMATION PRESCRIBED BY LAW.

WHEREAS, many officers of the militia have, through inadvertence, neglected to take the oath or affirmation prescribed by the Act entitled "An Act to organize the militia throughout the State of South Carolina," passed on the nineteenth day of December, in the year of our Lord one thousand seven hundred and ninety-four, in conformity with the Act of Congress.

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That a further term of six months be allowed the said officers to take the said oath or affirmation, before some justice of the peace or quorum, who shall certify the same on the back of their commissions; and the said officers thus taking said oath or affirmation, shall be

OF SOUTH CAROLINA.

AN ACT TO DIVIDE THE STATE INTO FIVE DIVISIONS AND TEN
BRIGADES. No. 2054.

I. *Be it enacted,* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and immediately after the passing of this Act, this State shall be divided into five divisions, and to each division there shall be a major-general; the first of which divisions shall comprehend the districts of Edgesfield, Abbeville, Pendleton and Greenville; the second division shall comprehend the districts of Barnwell, Beaufort, Colleton, Charleston, Orangeburg, and Lexington, (except the Dutch Fork between Saluda and Broad rivers;) one other division shall comprehend the districts of Georgetown, Williamsburg, Horry, Marion, Marlborough, Chesterfield, and Darlington; one other division shall comprehend the districts of Richland, Sumter, Kershaw, Lancaster, Chester and Fairfield; one other division shall comprehend the districts of Union, York, Spartanburg, Newberry, and Laurens, including the Dutch Fork between Saluda and Broad rivers.

II. *And be it further enacted* by the authority aforesaid, That the rank of the three last divisions created by virtue of this Act, shall be ascertained and determined by lot, in the manner following, that is to say: a joint committee of both Houses shall forthwith cause the words Eastern Division, North-Eastern Division, and Northern Division, to be, respectively, written on three pieces of paper, which shall be folded up and put into a hat, and they shall then cause a child under ten years of age to draw out, in their presence, two of the said pieces of paper or lots, and that which shall be first drawn shall be the third division of this State, that which is next drawn shall be the fourth division, and the remaining lot or piece of paper shall be the fifth division.

III. *And be it further enacted* by the authority aforesaid, That the rank of the brigades and regiments of infantry shall likewise be determined by

lot, the first division having the lowest numbers and highest rank, those of the second division shall be next lowest in numbers and highest in rank, and so on, according to the rank of the respective divisions, taking care so to conduct the drawing that the lowest number of the respective regiments be given to the lowest number of the respective brigades; and that the rank of the battalions, in their respective regiments, be always determined by the seniority of their respective majors.

IV. *And be it further enacted* by the authority aforesaid, That the districts of Fairfield and Chester shall form and constitute one additional brigade, which shall be numbered according to the rank to which it may be drawn.

V. *And be it further enacted* by the authority aforesaid, That the cavalry now raised, and hereafter to be raised, in the districts of Fairfield and Chester, shall form one regiment or squadron, according as the number of troops therein may warrant.

VI. *And be it further enacted* by the authority aforesaid, That the Legislature, under this Act, shall choose, by ballot, the major-generals of the three additional divisions created by virtue of this Act, who shall take rank according to the number of their divisions; the Legislature shall also choose, in like manner, the brigadier-general of the newly formed brigade; and as soon as the brigadier-general is notified by the Governor of his election, he shall proceed to divide his brigade into four regiments, and after he has made such division he shall appoint five fit and proper persons in each regiment, whose duty it shall be to divide the respective regiments into battalions and companies, as near as conveniently may be conformably to the Acts of Congress. *Provided*, no officer now in commission in said regiments shall be divested of his commission by such division or alteration.

No. 2055.

AN ACT TO RAISE A BRIGADE OF STATE TROOPS.

Brigade of infantry to be raised

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That there shall be raised, in this State, one brigade of military, in the manner hereinafter mentioned; that said brigade shall consist of two regiments, each regiment of two battalions, each battalion of five companies, and each company of one captain, one first lieutenant, one second lieutenant, one third lieutenant, one ensign, five sergeants, six corporals, two musicians, and ninety privates. That each battalion shall have one major, and each regiment one colonel, one lieutenant-colonel, one adjutant, one quarter-master, one pay-master, one surgeon, two surgeon's mates, one

OF SOUTH CAROLINA.

525

Acts relating to the Militia.

sergeant-major, and one quarter-master sergeant; and said brigade shall be commanded by a brigadier general, who shall appoint such brigade staff as are attached to the brigades in the army of the United States; and the colonels shall appoint the staff of their respective regiments.

II. *And be it further enacted* by the authority aforesaid, That the brigadier-general and field officers of the said brigade shall be appointed by the Legislature previous to the adjournment, but they shall not be called into service, nor be entitled to pay, until their respective commands have been raised, that is to say:—as soon as five companies are raised, the eldest major shall be called into service; as soon as six companies are raised, the eldest lieutenant-colonel shall be called into service; and as soon as a regiment is raised, all the officers of a regiment shall be called into service. That as soon as two regiments are completed, the brigadier-general, with his staff, shall be called into service; and when the services of these officers, respectively, are required, they shall be notified thereof by the Governor and Commander-in-chief.

Field officers, how appointed, &c.

III. *And be it further enacted* by the authority aforesaid, That the company officers of the said brigade shall be appointed and commissioned in the following manner, that is to say:—as soon as any five citizens of the United States shall engage a full company of able bodied effective men, and present them to the Governor, or any inspector authorized to inspect them, or shall shew, by the articles of engagement, that he has actually engaged the said company, they shall be entitled to the commissions in that company, which shall be distributed according to any agreement which shall have been made between the parties; and the company first raised, shall rank first; that is to say, the captain thereof shall be the first captain in the brigade, and, with his officers, shall take rank from the day on which his company was inspected and received; and all the companies which shall be raised in the manner aforesaid, shall rank from the day on which they shall be inspected and received.

Company officers, how appointed.

IV. *And be it further enacted* by the authority aforesaid, That every militia man of this State who shall furnish an able bodied man for the brigade, shall be, and he is hereby, exempted from any draft to which militia of this State shall be liable during the service of the brigade, excepting in cases of invasion or insurrection; and the said citizen so furnishing such recruit, shall, in every other respect, be liable to the performance of militia and patrol duty, as is now required by law; and the certificate of any officer of the said brigade shall be regarded as sufficient evidence to entitle any militia man to the exemption aforesaid; *provided, however,* that the recruit so furnished shall not be entitled to and receive the bounty offered by the State.

Persons furnishing substitutes exempt from draft.

V. *And be it further enacted* by the authority aforesaid, That if the whole number of troops authorized by this Act shall not be raised in the manner beforementioned, the deficiency shall be raised in the following manner, that is to say:—the Governor shall appoint four convenient places of rendezvous, or more, for the four battalions hereby authorized to be raised, and shall, by proclamation, call upon all persons who shall raise any number of men to present them, on the first day of May next, at one of the places of rendezvous appointed by him; that the Governor is hereby authorized and directed to appoint some proper person to inspect the said troops; that if any five persons shall then and there present a full company, they shall be first commissioned; that if no full companies shall have been commissioned, or there shall remain vacancies in the said regiment, the

person presenting the greatest number of men shall be commissioned captain, and take rank next to those previously commissioned; the person presenting the next greatest number shall be the next captain; and so on, until all the vacancies are filled, each officer taking rank according to the number of men he shall bring. *Provided, always,* that no person shall be entitled to a captain's commission who shall bring less than forty men; no person a first lieutenant's commission, who shall bring less than twenty-one men; no person a second lieutenant's, who shall bring less than eighteen men; no person a third lieutenant's, who shall bring less than fourteen men; and no person an ensign's, who shall bring less than ten men. And *provided also,* that if a greater number of men are presented than are required, those who bring the greatest number of men shall be first accepted, and the surplus shall be discharged proportionably and by lot; and the men so discharged shall be entitled to forty cents per day, from the time they left the place of their engagement, until their return to the same place, at the rate of fifteen miles for every day.

Engagement to be signed.

VI. *And be it further enacted* by the authority aforesaid, That any person who shall undertake to raise men for the brigade aforesaid, shall be authorized to obtain signatures to an engagement to serve the State during the continuance of the present war; and any person who shall sign such engagement, shall be bound thereby as firmly as if they had regularly engaged with an authorized officer of the State; and if, after having so engaged, he shall fail to appear at the places of rendezvous appointed by virtue of this Act, he shall be deemed a deserter, and proceeded against accordingly; and on the said recruit's appearing at any of the abovementioned places of rendezvous, he shall receive a bounty of thirty dollars, and have the rules and articles of war read to him, and shall be liable to the said rules and articles of war, as practised in the army of the United States. *Provided, nevertheless,* that nothing herein contained shall effect any minor, unless such minor shall have the sanction, in writing, of his father, if he be alive, and if the father be not alive, of his mother, and if neither father or mother be alive, then of his guardian.

Rank of officers determined by lot.

VII. *And be it further enacted* by the authority aforesaid, That on the appointment of the field officers, a joint committee of the two houses shall determine by ballot the rank of the officers; those which shall draw the lowest numbers shall be the highest in rank, and be attached to the first regiment, and the others to the second regiment; and the said regiments shall be called the first and second regiments of South Carolina State Troops; and in case any officer appointed by the Legislature shall refuse to accept said appointment, or resign, or die, before the battalions shall have been raised, the Governor shall appoint some suitable person to fill such vacancy.

Officers, how to raise.

VIII. *And be it further enacted* by the authority aforesaid, That the officers of the said brigade shall rise in line in conformity to the regulations adopted in the army of the United States; and the Governor shall appoint proper persons to be ensigns in the place of those who shall be promoted.

Pay and clothing of the officers and men.

IX. *And be it further enacted* by the authority aforesaid, That the officers, non-commissioned and privates of the said brigade, shall be entitled to the same pay, rations, clothing, and allowance, (except bounty,) as the troops of the United States.

X. *And be it further enacted* by the authority aforesaid, That the officers of the said brigade shall, when serving with the militia of this State,

OF SOUTH CAROLINA.

527

Acts relating to the Militia.

A. D. 1814.

or the army of the United States, have the same rank as the officers of the United States's army; and that all persons attached to the said brigade, committing any offences, shall be tried, and the offenders punished, by a court-martial composed of officers of the brigade; and when any offence shall be committed by the brigadier-general or the field officers of the said brigade, a court-martial shall be held by the militia officers of the State.

Rank of officers, &c.

XI. *And be it further enacted* by the authority aforesaid, That the uniform of the said brigade shall be blue woolen coats and pantaloons, after the same fashion, and in every respect conformable, with the uniform of the infantry of the United States, except that the non-commissioned officers and soldiers shall wear round wool hats, with blue pompons; but the officers of the said brigade shall wear the same dress as the officers of the United States infantry, with yellow buttons, gold epaulets, and a blue feather.

Uniform of the brigade.

XII. *And be it further enacted* by the authority aforesaid, That as soon as the said brigade, or any part thereof, shall be raised, they shall be offered by the Governor to the United States; on the condition, however, that they be kept within the State for the defence thereof, unless in the case of an actual invasion of a contiguous State, it shall become necessary to call on the people of South Carolina to assist in repelling them; in which case, the said brigade may be marched to repel such invasion; *provided*, they be not kept out of the State longer than necessary to repel such invasion; and while so out of the State, an equal number of militia be called into service by the United States, for the protection of this State.

Brigade to be offered to the United States.

XIII. *And be it further enacted* by the authority aforesaid, That immediately after the passing of this Act, it shall be the duty of the Governor to transmit a copy thereof to the Secretary of War, and to know from him how far the United States can aid the State in arms, clothing, and munitions of war; and he is hereby authorized and directed to order the commissary-general of purchases to procure whatever may be necessary for the purposes aforesaid, and which cannot be provided by the United States; and the Governor is authorized to draw orders on the treasury in favor of the proper officers, taking receipts for the same; and all the accounts of the expenditures made by virtue of this Act, shall be rendered to the comptroller-general, and by him be laid before the Legislature.

Governor to transmit this Act to the secretary.

XIV. *And be it further enacted* by the authority aforesaid, That as soon as any part of the said brigade shall be called into service, the Governor shall be authorized to purchase, and attach to the several posts that may be established on the sea board, any number of row, or other boats, not exceeding twelve, suitable to the transportation of troops at a moment's warning, to any point of attack, and to be employed as look-out boats, to ascertain the approach of the enemy's barges, and to give notice thereof to the coasting trade.

Boats to be attached to military posts.

XV. *And be it further enacted* by the authority aforesaid, That the sum of five hundred thousand dollars be, and the same is hereby appropriated out of any monies in the treasury not otherwise appropriated, for the purpose of carrying this Act into full and complete effect.

Appropriation.

In the Senate House, the twentieth day of December, in the year of our Lord one thousand eight hundred and fourteen, and in the thirty-ninth year of the Independence of the United States of America.

STATUTES AT LARGE

A. D. 1815.

Acts relating to the Militia.

No. 2069. AN ACT FOR THE ORGANIZATION OF THE STAFF OF THE MILITIA OF SOUTH CAROLINA; AND FOR OTHER PURPOSES THEREIN MENTIONED.

Staff of the militia of this State organized.

I. *Be it enacted*, by the Senate and House of Representatives of South Carolina, now met and sitting in General Assembly, and by the authority of the same, That the adjutant-general's department shall hereafter consist of one adjutant and inspector-general, with the rank of a brigadier-general, and five division or deputy adjutant-generals, with the rank of lieutenant colonel, one in each division. That the quartermaster-general's department shall consist of one quartermaster-general, with the rank of colonel, five division or deputy quartermaster-generals, with the rank of major, and ten brigade or assistant deputy quartermaster-generals, with the rank of captain; one division quartermaster being taken from each division, and one brigade quartermaster from each brigade. That there shall be to each division of the State, one division or assistant inspector-general, with the rank of lieutenant-colonel, and to each brigade, one assistant deputy inspector-general, with the rank of major. There shall also be to the militia of this State, one judge advocate general, with the rank of lieutenant-colonel; and to each brigade there shall be a brigade or deputy judge advocate general, with the rank of major.

Commissary general of purchases.

II. *And be it further enacted* by the authority aforesaid, That there shall be one commissary-general of purchases, with the rank of lieutenant-colonel; one commissary-general of issues, with the rank of lieutenant-colonel; one paymaster-general, with the rank of lieutenant-colonel; one physician and surgeon-general, with the rank of lieutenant-colonel; one apothecary-general, with the rank of major; and one brigade chaplain to each brigade.

Aids-de-camp to be appointed.

III. *And be it further enacted* by the authority aforesaid, That the Governor and Commander-in-chief shall be entitled to ten aids-de-camp, with the rank of lieutenant-colonel; the major-generals to three aids-de-camp, with the rank of major; and the brigadier-generals to two aids-de-camp, with the rank of captain.

Adjutant general to be inspector general, &c.

IV. *And be it further enacted* by the authority aforesaid, That the adjutant-general shall be, and he is hereby, appointed adjutant and inspector-general, and that all officers who now hold any of the aforesaid offices, be, and they are hereby, confirmed in them respectively; and the Governor and Commander-in-chief shall be authorized to appoint proper persons to the offices hereby created, and to fill all vacancies which shall hereafter occur in any of the abovementioned offices, except aids to the major-generals and brigadier-generals.

Duties defined.

V. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the Governor and Commander-in-chief, and he is hereby authorized, to prepare general regulations, better defining and prescribing the respective duties and powers of the several officers before mentioned, which shall be respected and obeyed, until altered and revoked by the same authority; and the said general regulations shall be laid before the Legislature at their next meeting.

Certain officers herein contained not to be affected thereby.

VI. *And be it further enacted* by the authority aforesaid, That nothing herein contained shall be construed so as to affect the officers of the regimental staff, or the brigade majors, now authorized by law, otherwise than being subject to the general regulations aforesaid.

VII. *And be it further enacted* by the authority aforesaid, That the uniform of the officers of the militia of this State shall hereafter be the

OF SOUTH CAROLINA.

same in every respect, as that now established in the army of the United States for officers of similar grade and character; and that all the officers hereafter to be elected, shall be required to conform to this arrangement immediately on their election; and all officers now in commission, shall be allowed twelve months to procure the new uniform. *Provided*, nothing herein contained shall be construed to extend to officers of volunteer companies.

In the Senate House, the thirteenth day of December, in the year of our Lord one thousand eight hundred and fifteen, and in the fortieth year of the Sovereignty and Independence of the United States of America.

JAMES R. PRINGLE, *President of the Senate.*

THOMAS BENNETT, *Speaker of the House of Representatives.*

AN ACT TO ALTER AND AMEND THE MILITIA LAWS OF THIS STATE. No. 2071.

I. *Be it enacted* by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That Incompetent officers to be cashiered. from and after the passing of this Act, every officer of the militia of this State who shall be declared, by the sentence of a court martial, to be incompetent to the discharge of the duties of his station, shall be cashiered; *provided*, every officer, after charges exhibited, shall be at liberty to resign; the said courts martial to be ordered by the officers commanding battalions, regiments, brigades, and divisions, respectively; and on major-generals, by the Commander-in-chief; and the members of every court martial hereafter to be held in this State, as well on officers as non-commissioned officers and privates, shall, in addition to the oath now prescribed by law, severally swear, "that they will well and truly try and determine the cases that shall be brought before them, according to law, and the evidence that shall be adduced."

II. *And be it further enacted* by the authority aforesaid, That courts martial on non-commissioned officers and privates, may hereafter be held by any three commissioned officers of the regiment to which they belong. Courts-martial.

III. *And be it further enacted* by the authority aforesaid, That no appeal shall hereafter be made from courts martial, imposing fines on non-commissioned officers and privates, unless the appellant shall accompany his appeal by an affidavit, that he could not attend the court by which he was fined, and that he does not appeal for the purpose of delay; in all other cases, the decision of every such court martial shall, when approved by the officer ordering the same, be final and conclusive.

IV. *And be it further enacted* by the authority aforesaid, That every officer who shall hereafter be cashiered by the sentence of a court martial, Appeals, how to be made. shall be disqualified from holding any commission in the militia, for a period not less than one year, nor more than five, at the discretion of the court; and no officer who shall hereafter resign his commission, shall be

Acts relating to the Militia.

re-eligible to the same office, until it shall have been filled by some other person.

Penalty for not attending properly equipped, &c.

V. *And be it further enacted* by the authority aforesaid, That in addition to the fines now imposed by law on officers neglecting to attend the brigade encampments, without a sufficient excuse, every officer so neglecting shall pay fifty per cent. on his general tax for the year preceding such default, and shall be fined the sum of one dollar for each article of uniform or equipment which he shall not have at such encampment, unless he can shew that he could not procure the same; and it shall be the duty of the brigadier and major-generals to attend the reviews of their respective brigades; and for their neglecting so to do, every brigadier-general shall be fined in the sum of fifty dollars, and fifty per cent. on his general tax; and every major-general the sum of eighty dollars, and fifty per cent. on his tax. And all fines hereby imposed for default at any brigade encampment, shall be collected in the manner following, that is to say:—the presiding officer of the court martial shall issue his warrant under his hand and seal, directed to any person now authorized to collect fines in the several regimental districts, who shall collect the same in like manner as other fines are now collected; and for the collection of the same, he shall be allowed twenty per cent. on the amount collected; and that the said penalty, when received, shall be paid to the collector of the regiment, to be applied to the purchase of drums, fifes or colors, for the use of the regiment, and for defraying other necessary expenses of the same, or the necessary expenses of the brigade or division.

Penalty for not enforcing militia law.

VI. *And be it further enacted* by the authority aforesaid, That every officer whose duty it shall be to enforce the militia laws of this State, who shall wilfully neglect so to do, shall, on conviction, be cashiered; and courts martial shall be ordered as in other cases.

Officers to assemble the day previous to regimental musters.

VII. *And be it further enacted* by the authority aforesaid, That it shall be the duty of officers commanding regiments, to assemble the officers and non-commissioned officers of their respective regiments, the day previous to every regimental muster, to instruct them in the exercise and evolutions to be performed on the day following; and every officer and non-commissioned officer who shall fail to attend such meeting, shall be subject to the same fines as are imposed by law for non-attendance at regimental musters; and courts martial shall be ordered as in other cases.

Officers of cavalry and artillery to attend brigade encampments.

VIII. *And be it further enacted* by the authority aforesaid, That officers of the cavalry and artillery shall be liable to attend at the brigade encampments; and where cavalry and artillery companies are attached to regiments of infantry, the officers and non-commissioned officers of the companies so attached, shall attend the meeting of the regimental officers of infantry the day previous to every regimental muster, to be instructed in the evolutions to be performed; and the said officers of cavalry and artillery shall, at the brigade encampments, be armed in the same manner as officers of infantry; and for non-attendance at such encampments, or at the regimental meetings aforesaid, the said officers and non-commissioned officers shall be liable to the same fines as the officers of infantry; and any officer guilty of misconduct at any encampment or regimental meeting, shall be liable to be put under guard, and to be cashiered by the sentence of a court martial; and should any person not bound to attend at such meetings, molest or disturb the same, such person may be put under guard, and kept in confinement at the discretion of the commanding officer, during the continuance of such encampment.

OF SOUTH CAROLINA.

Acts relating to the Militia.

A. D. 1815.

IX. *And be it further enacted* by the authority aforesaid, That the rules and regulations of the field exercise and manoeuvres of infantry, compiled and adapted to the organization of the army of the United States, agreeably to a resolve of Congress, shall hereafter be observed in the instruction and exercise of infantry within this State, and that every officer shall be furnished by the State with a copy thereof; and every such officer so furnished, shall be compelled, upon the vacation of his commission, to deliver over to his successor the said book, under the penalty of five dollars, to be recovered before any magistrate.

U. S. exercises to be observed.

X. *And be it further enacted* by the authority aforesaid, That the officers commanding regiments of infantry within this State, shall be authorized to permit volunteer uniform companies of infantry or riflemen to be raised within their respective commands, and the officers thereof shall be commissioned, if such companies shall consist, respectively, of forty effective rank and file in uniform; and officers commanding brigades are authorized to permit volunteer companies of cavalry and artillery to be raised within their respective commands, which shall consist of thirty effective men in complete uniform, and to commission the officers thereof; and if such volunteer companies of infantry or riflemen shall at any time be reduced below thirty men in uniform, and any such company of cavalry or artillery shall be reduced below twenty-four men in uniform, and the said companies, respectively, shall not, within six months after notice given by the commanding officer of the brigade or regiment, recruit their respective companies, they shall be dissolved, and the commissions of the officers forfeited; *provided always*, that no beat or district company shall be reduced below thirty men, by the formation of any volunteer company or companies; and *provided also*, that whenever any call shall be made for the services of any volunteer company, they shall go by companies under their own officers; *provided*, nothing herein contained shall authorize the raising a greater portion of cavalry, artillery, riflemen or infantry, than are now authorized by law.

Volunteer companies may be raised.

XI. *And be it further enacted* by the authority aforesaid, That the rank of officers in the militia of this State shall be the same as that of the officers of the army of the United States, that is to say:—the commanding officers of regiments shall hereafter have the rank of colonel; the second officer in each regiment shall have the rank of lieutenant-colonel; and to each company of infantry there shall be a captain, first lieutenant, second lieutenant, and ensign; and every lieutenant-colonel in the State is hereby created a colonel; the first major of every regiment, a lieutenant-colonel; the lieutenant of every company, a first lieutenant; and the ensign of every company, a second lieutenant; and elections shall be held throughout the State for ensigns in the several companies; and the proper officers are hereby authorized to give commissions to the officers hereby promoted, who shall take rank from the date of their former commissions, respectively.

Rank of officers settled.

XII. *And whereas*, the Charleston Ancient Battalion of Artillery are now entitled to or do assume certain exclusive privileges, from which other militia corps are excluded:—*Be it therefore enacted* by the authority aforesaid, That the said Charleston Ancient Battalion of Artillery shall be, and they are hereby, divested of all exclusive privileges, and put upon an equality with the other militia companies and battalions of this State; *provided*, the captains-lieutenants now in commission, shall retain their commissions; but when vacancies hereafter occur in said offices, no elections

Charleston Ancient Battalion of Artillery, divested of certain privileges.

shall be held, nor rise by seniority to supply said offices, but the office of captain-lieutenant shall be abolished.

Charleston,
how guarded
in case of
alarm of fire,
&c.

XIII. *And be it further enacted* by the authority aforesaid, That the Governor and Commander-in-chief, in order to prevent the confusion which may arise from too many men being under arms, when fires shall break out in the city of Charleston, be, and he is hereby, authorized to fix the number of men necessary to be under arms in such cases, and to make regulations by which a certain portion only of the militia of Charleston shall be required, for the period of three months, to hold themselves in readiness to parade in cases of alarm from fire; and if any officer, non-commissioned officer, or soldier, so ordered, shall fail to attend at his muster-ground in cases of alarm, he shall be subject to the same fines as are imposed by law for non-attendance at regimental musters.

Public arms to
be sold.

XIV. *And be it further enacted* by the authority aforesaid, That the Governor and Commander-in-chief be, and he is hereby, authorized to cause to be sold such arms as on inspection shall be found incapable of repair, and to pass the amount of such sales to the credit of the quartermaster-general's department, to be applied to the repair and preservation of arms.

Arsenals to be
visited.

XV. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the brigade quartermasters, within the limits of whose brigades arsenals are or shall hereafter be established, to visit and inspect the same, at least once in every year, and to report to the quartermaster-general thereon; and that the several arsenal keepers within the State shall each receive an additional compensation of one hundred dollars per annum, and shall give bond to the quartermaster-general for the faithful performance of their duties.

Officers to
raise by seni-
ority.

XVI. *And be it further enacted* by the authority aforesaid, That where vacancies shall hereafter occur in any company, battalion, regiment, brigade, or division, such vacancy shall be filled by the officer next in rank, the officers rising by seniority in their respective companies, battalions, regiments, brigades and divisions.

Former Acts
repealed.

XVII. *And be it further enacted* by the authority aforesaid, That all Acts and parts of Acts contrary to any thing herein contained, be, and the same is hereby, repealed.

In the Senate House, the sixteenth day of December, in the year of our Lord one thousand eight hundred and fifteen, and in the fortieth year of the Independence of the United States of America.

Acts relating to the Militia.

A. D. 1816.

AN ACT TO MAKE ALL THE OFFICERS OF THE MILITIA OF THIS STATE
ELECTIVE. No. 2099.

WHEREAS, experience has shown that it is inexpedient that the officers of the militia of this State should rise by seniority; for remedy whereof,

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and it is hereby enacted, by the authority of the same, That from and after the passing of this Act, when any vacancy shall take place in any of the military commissions of the militia of this State, the same shall be filled by election, in the following manner: when any vacancy shall take place in the commission of a major-general, the Governor for the time being shall forthwith issue his orders to the several brigadier-generals of the division in which such vacancy shall happen, requiring such brigadier-generals to order an election in each regiment within the division in which such vacancy shall have occurred, for a major-general to fill such vacancy; and all commissioned officers of the division in which such vacancy shall have happened, shall be entitled to vote for a major-general; and any commissioned officer of the division in which such vacancy shall have occurred, shall be eligible to the office of major-general; and each colonel shall return the state of the polls of his regiment to the brigadier-general, who shall transmit the same to the Governor, who is hereby empowered to pronounce the person having the greatest number of votes to be duly elected, and shall commission such person accordingly.

II. *And be it further enacted* by the authority aforesaid, That when any vacancy shall take place in the commission of brigadier-general, the major-general, and in case there is no major-general, then the next commanding officer of the division, shall forthwith issue his orders to the several colonels of the regiments composing the brigade where such vacancy shall be, to hold, in each of their respective regiments, an election for brigadier-general, to fill such vacancy; and all commissioned officers of the brigade where there shall be such vacancy, shall be entitled to vote for brigadier-general to fill the same; and any commissioned officer of such brigade shall be eligible to the office of brigadier-general; and each colonel shall attend the counting out of the votes, and return the state of the polls of his regiment to the commanding officer of the division, who shall pronounce the person having the greatest number of votes duly elected, and commission him accordingly. And when any vacancy shall take place in the commission of colonel of infantry, the same shall be filled by election by all free white men above the age of eighteen years, who reside within the said regiment, (except such persons as are attached to the cavalry, or any regiment of artillery,) the person having the greatest number of votes shall be the person elected. When any vacancy shall take place in the commission of lieutenant-colonel, the major then in commission in the same regiment shall be immediately commissioned lieutenant-colonel; and whenever a vacancy shall take place in the commission of major, the same shall be filled by election by all free white men above the age of eighteen years, who belong to the battalion where such vacancy shall occur; the person having the greatest number of votes shall be elected. When any vacancy shall take place in the commission of captain, first-lieutenant, second-lieutenant, or ensign, of any beat company, the same shall be filled by election by all free white men above the age of eighteen years, residing within

STATUTES AT LARGE

Acts relating to the Militia.

the said beat company; the person having the greatest number of votes shall be the person elected. *Provided, nevertheless,* that nothing herein contained shall extend to any volunteer corps of artillery, cavalry or light infantry, who shall elect their respective officers from among themselves, in the following manner: when any vacancy shall take place in the commission of colonel of cavalry, the same shall be elected from amongst the officers, non-commissioned officers and privates of the said regiment, by themselves; the person having the greatest number of votes to be the person elected. When any vacancy shall take place in the commission of lieutenant-colonel, or major of cavalry, or major of artillery, the same shall be filled by election, by the officers, non-commissioned officers and privates composing the said battalion or squadron, from among themselves; the person having the greatest number of votes to be the person elected. When any vacancy shall take place in the commission of any captain, first lieutenant, second lieutenant, ensign or cornet, of any company of artillery, light infantry, or troop of cavalry, the same shall be filled by election, by the officers, non-commissioned officers and privates of the said company or troop, from among themselves; the person having the greatest number of votes shall be the person elected.

Colonel.

III. *Be it further enacted,* That when the commission of a colonel shall become vacant, the brigadier-general, or, in case there be no brigadier-general or major-general commanding the said regiment, the Governor for the time being, shall appoint two fit and proper persons to open and hold a poll at each of the battalion muster grounds of the said regiment, and two fit and proper persons to open and hold a poll at the regimental muster ground of the said regiment; which said managers shall advertise the same for forty days in twelve public places in the said regiment; the said managers shall hold the polls one day at each place, from eleven o'clock in the morning until three o'clock in the afternoon, and shall meet at the regimental muster ground on the day following, and count over the votes and declare the election.

Major.

IV. *Be it further enacted,* That when the commission of major shall become vacant, the colonel, or, if there be no colonel, the officer next in command in the said regiment or battalion, shall appoint two fit and proper persons to open and hold the poll for the said election, at the battalion muster ground of the said battalion, from ten o'clock in the morning until four o'clock in the afternoon, after having advertized the same for thirty days in six public places within the said battalion; and the said managers shall meet at the said place of election the day following, count over the votes and declare the election.

Captain.

V. *Be it enacted,* That when any vacancy shall take place in a captain's commission, the lieutenant-colonel or officer commanding the battalion or squadron, shall appoint two fit and proper persons within the said company or troop, to manage the said election, who shall hold the polls at the usual muster ground of the said troop or company, from eleven o'clock in the morning until three o'clock in the afternoon, after having advertized the same for twenty days before the said election, in at least four public places in the said company or troop; and that on the same evening the managers shall count over the votes and declare the election.

Lieutenant,
&c.

VI. *Be it further enacted,* That when the commission of first lieutenant, second lieutenant, ensign, or cornet, shall become vacant, the captain, or if there be no captain, the major or lieutenant-colonel, commanding the said company or troop, shall appoint two fit and proper persons to hold an election at the usual muster ground of said company or troop, from eleven

o'clock in the morning until three o'clock in the afternoon, after having advertized the same for at least twenty days previous to the election, in at least four public places in the said company or troop; and on the same evening the managers shall count over the votes and declare the election.

VII. *Be it further enacted*, That when any division, brigade, regiment, battalion, squadron, company or troop, shall be embodied and in actual service, either under the authority of this State or of the United States, the vacancies therein shall be filled by seniority, agreeable to the usages and customs of war.

VIII. *And be it further enacted* by the authority aforesaid, That whenever an election is ordered for a major-general or brigadier-general, it shall be the duty of each colonel who shall be ordered to hold such election, to give fifty days notice in his regiment of such election, and post up the said notice for that length of time, at least at one public place in each beat in his regiment.

IX. *And be it further enacted* by the authority aforesaid, that from and after the passing of this Act, it shall not be necessary, in order to constitute a battalion court martial or court of enquiry, that a field officer should preside; but that the same may consist of a captain, as presiding officer of said court, and four other commissioned officers of said battalion, one of whom at least shall be of the rank of a captain.

X. *And be it further enacted* by the authority aforesaid, That the commanding officer of any division, brigade, regiment, battalion, squadron, troop or company, who shall call out the men under his command to muster, shall be, and he is hereby, authorized and empowered to appoint a sutler to retail spirituous liquors at the muster ground of said division, brigade, regiment, battalion, squadron, troop or company, without any other license or permission. *Provided*, that the said sutler so appointed do furnish a suitable field to exercise the said troops on, to be approved by the commanding officer who shall have ordered the said muster.

XI. *And be it further enacted*, That all Acts and parts of Acts repugnant to this Act, be, and the same are hereby, repealed.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and sixteen, and in the forty-first year of the Independence of the United States of America.

whom and how
to be held.

the commission of colonel in any regiment shall hereafter become vacant, the brigadier-general, or in case there be no brigadier-general or major-general commanding said regiment, the officer next in command in said brigade, shall issue his order, to be extended to each captain or commanding officer of a company constituting said regiment, to call to his assistance two of his subaltern officers, or, if none, two other fit and proper persons, to open and hold a poll at their respective muster grounds, which said captain shall advertise for at least forty days at three public places in the bounds of his command; the said managers shall hold the polls one day, from eleven o'clock in the morning until three o'clock in the afternoon, and shall meet at the regimental muster ground the first or second day after the election, as may be ordered by the officer who shall order such election, to count over the votes and declare the election. That when the commission of major shall become vacant, the colonel, and if there be no colonel, the officer next in command in said regiment, shall order each captain or commandant of a company to call to his assistance two of his subaltern officers, or other fit and proper persons, to open and hold a poll at their respective muster grounds, giving forty days notice, by advertising in three public places in the bounds of their command; the said managers shall hold the poll on one day at their muster ground, from eleven o'clock in the morning until three o'clock in the afternoon, and shall meet on the battalion muster ground, or some public house near the same, on the day following, and count over the votes and declare the election.

Managers to be
sworn.

II. *And be it further enacted* by the authority aforesaid, That the managers of elections to be appointed in pursuance of this Act, before they proceed to hold any election, shall be duly sworn that they will impartially and faithfully hold such election; and that the presence of not more than one manager from each place of election, shall be necessary at the time of counting over the votes and declaring the election.

Battalion of ar-
tillery disol-
ved.

III. *And be it further enacted* by the authority aforesaid, That the battalion of artillery formed by an Act of the General Assembly of the year seventeen hundred and ninety-seven, of the three companies of artillery then in brigadier-general Winn's brigade, be, and the same is hereby, dissolved.

Managers ex-
empt from toll.

IV. *And be it enacted* by the authority aforesaid, That the managers of elections for colonels and majors as aforesaid, shall be exempted from paying any ferriage or toll which are usually paid at the ferries and toll-bridges within this State, while going or returning from the places for holding and declaring the elections, as aforesaid; any law, usage or custom to the contrary notwithstanding.

Companies to
be subdivided.

V. *And be it further enacted* by the authority aforesaid, That the brigadier-general or commandant of the third brigade, be, and he is hereby, authorized to appoint three fit and proper persons to subdivide into three companies the two companies now commanded by captains Simms and Farr, of the south battalion, thirteenth regiment South Carolina militia. *Provided, nevertheless,* that the officers now in commission shall hold their respective commissions in one of the said subdivided companies, and cause the vacancies for the balance of the officers to be filled up, as heretofore provided by law.

R. Hamilton's
company to be
subdivided.

VI. *And be it further enacted* by the authority aforesaid, That the brigadier-general of the eighth brigade be, and he is hereby, authorized to appoint three fit and proper persons to subdivide Robert Hamilton's company of militia, in the upper battalion, and thirty-second regiment of the

OF SOUTH CAROLINA.

Acts relating to the Militia.

No. 2220. AN ACT TO PROVIDE FOR THE MORE EFFECTUAL PERFORMANCE OF PATROL DUTY.

I. Be it enacted, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That it shall be the duty of the captains of the several beat companies within this State, within six months after the passing of this Act, to cause their respective beats to be divided into convenient patrol districts; which divisions, when made, shall be permanent until the same shall be altered by a majority of the officers of the said company. And in case the captain of any beat company shall neglect to perform the duty hereinbefore required of him, he shall forfeit and pay the sum of thirty dollars, to be recovered in any court having competent jurisdiction.

II. And be it further enacted by the authority aforesaid, That it shall be the duty of the commanding officer of each and every beat company to cause to be made out a roll for each patrol district, which shall include the names of all the free white male inhabitants above the age of eighteen years, residing within the said patrol district. *Provided*, that nothing herein contained shall be construed to compel any male inhabitant of any beat company to perform patrol duty, either in person or by substitute, who may have attained the age of forty-five years or upwards, and who shall not possess any slave or slaves.

III. And be it further enacted by the authority aforesaid, That it shall be the duty of the commanding officer of each and every beat company, at every regular petty muster, to prick off from the roll of each patrol district, at his discretion, any number of persons, who shall perform the duty hereinafter prescribed until the next regular petty muster; and to every patrol the commanding officer of the company shall appoint some prudent and discreet person as commander; and in case the commanding officer of the company shall fail to prick off such patrol, or the commanders of the patrol shall fail to perform the duties herein required of them, they shall, respectively, forfeit and pay, to be recovered by indictment, a sum not exceeding thirty dollars.

IV. And be it further enacted by the authority aforesaid, That it shall be the duty of the commander of every patrol, at least as often as once a fortnight, to call out the patrol under his command, and to take up all slaves who may be found without the limits of their owners's plantations, under suspicious circumstances, or at a suspicious distance therefrom, and to correct all such slaves by a moderate whipping, with a switch or cow-skin, not exceeding twenty lashes, unless the said slave shall have a ticket or letter to show the reasonableness of his or her absence, or shall have some white person in company to give an account of the business of such slave or slaves. And if any white person shall beat or abuse any slave, quietly or peaceably being in his or her master's plantation, or found any where without the same without a lawful ticket, he shall forfeit the sum of fifty dollars, to be recovered by the owner, and to his use, by action of debt, besides being liable to the owner in an action of trespass for damages.

V. And be it further enacted by the authority aforesaid, That the said patrols, in their respective divisions, shall have power, and they are hereby authorized and required, to enter into any disorderly house, or into any other house, vessel or boat, suspected of harboring, trafficking or dealing with negroes, whether the same be occupied by white persons, free negroes, mulattoes, mestizoes, or slaves, and to apprehend and correct all slaves

OF SOUTH CAROLINA.

539

Acts relating to the Militia.

A. D. 1819.

found there, by whipping, as hereinbefore directed. And the said patrol are, moreover, authorized and required to give information of such white persons as may be found in such house, vessel or boat, and to detain in their possession such produce or articles for trafficking, as may be found in such house, vessel or boat, if such detention be authorized by any three freeholders, or by any justice of the peace, until the same shall be recovered according to law.

VI. *And be it further enacted* by the authority aforesaid, That it shall not be lawful for any slave, except in the company and presence of some white person, to carry or make use of any fire arms or other offensive weapon, unless such slave shall have a ticket or license in writing from his owner or owners, or be employed to hunt and kill game, mischievous birds, or beasts of prey, within the limits of his master's plantation, or shall be a watchman in and over his owner's fields and plantation. And in case any white person shall find any slave using or carrying any gun or other offensive weapon, contrary to the intent and meaning of this Act, he, she or they, may lawfully seize such gun or offensive weapon, and convert the same to his, her or their own use; but before the property of such goods shall be vested in the person who shall seize the same, such person shall, within forty-eight hours after such seizure, go before the next justice, and shall make oath of the manner of taking; and if such justice of the peace, after such oath shall be made, or if upon any other examination, he shall be satisfied that the said fire arms, or other offensive weapons, shall have been seized according to the directions and agreeable to the true intent and meaning of this Act, the said justice shall, by certificate under his hand and seal, declare them forfeited, and that the property is lawfully vested in the person who seized the same; *provided*, that no such certificate shall be granted until the owner or owners of such fire arms, or other offensive weapon, so seized, as aforesaid, or the overseer or overseers who shall or may have the charge of such slave or slaves from whom such fire arms or other offensive weapon shall be taken or seized, shall be duly summoned to shew cause, (if any such they have,) why the same should not be condemned as forfeited, nor until forty-eight hours after the service of such summons, and oath made of the service thereof before the said justice.

Slaves not to carry or use fire arms.

VII. *And be it further enacted* by the authority aforesaid, That the commander of every patrol shall have power to keep the men under his command in good order and demeanor during their term of service; and in case any patrol man shall misbehave himself, or neglect or disobey the orders of his commander, he shall be subject to a fine of not more than two dollars, to be imposed by the company court martial to which such offender shall belong, to be paid to the commissioners of the poor for the use of the poor.

Patrol to be kept in order.

VIII. *Be it further enacted*, that if any captain of a patrol shall act disorderly while on duty, so as to defeat the orderly performance or execution of the patrol laws, agreeable to the true intent and meaning thereof, he shall be liable to be returned by either of the members of his patrol, or other person competent to give evidence, to the commanding officer of the beat, who shall order a court martial for such trial, and upon sufficient evidence being given of the charge, such captain of the patrol shall be fined in the sum of five dollars, to be recovered and applied as aforesaid to the use of the poor.

Captain of patrol may be fined.

IX. *And be it further enacted* by the authority aforesaid, That it shall be lawful for any person or persons hereby declared liable to perform patrol

STATUTES AT LARGE

A. D. 1810.

Acts relating to the Militia.

Substitutes may be employed.

duty, to send any able bodied white man, between the ages of eighteen and sixty, to perform patrol duty for him or them. And if any patrol man shall neglect or refuse to perform the duty required of him by this Act, or to procure a substitute to perform the same, without a legal excuse, he shall forfeit and pay a fine of two dollars for each and every such default, and ten per cent. on his general tax for the year preceeding paid by him on the property owned by him in the district or parish in which he is a defaulter, to be inflicted by a court martial of the company in which the offender may reside, to the use of the poor of the district or parish.

Return to be made.

X. *And be it further enacted* by the authority aforesaid, That each captain of patrol shall make a return, upon oath, of the performance of the duties of his office as commander of such patrol, to the captain or officer commanding the beat company, at the regular times required by this Act, under the penalty of a fine of twenty dollars, to be recovered by indictment.

Slaves to be corrected.

XI. *And be it further enacted* by the authority aforesaid, That it shall be lawful for all persons, as well patrol as other persons, to apprehend, and moderately correct with stripes, not exceeding twenty, all slaves who may be found without their masters's plantations, without a ticket in the form or of the import of the ticket before prescribed by this Act to be used by persons who shall have the care or management of any slave or slaves; or with a ticket, if such slave or slaves shall have in his possession any gun, pistol or other offensive weapon, unless such slave shall be on lawful business, or in company with some white person, not less than ten years of age; and also to disperse and punish, as aforesaid, all unlawful assemblies of slaves, free negroes, mulattoes or mestizoes, whether the said assembly shall consist of all or any of the persons above described. *And provided, always,* that nothing herein contained shall be construed to authorize any person to break into or disturb any church or place of public worship, wherein shall be assembled the members of any religious society, a majority of whom shall be white persons, at any time before nine o'clock in the evening—unless the said person or persons shall have previously obtained a warrant from a magistrate, authorizing him to do so; and *provided, also,* that nothing herein contained shall be construed so as to authorize any patrol or other person to strike and correct, or beat in any manner, any slave or slaves who shall be employed by the person having the charge of such slave or slaves in any incorporated town, when such slave or slaves shall be absent from the place of residence of such slave or slaves, between day-break and nine o'clock in the evening, within the limits of such incorporated town, unless such slave or slaves shall be engaged in an unlawful purpose.

Unlawful assemblies to be dispersed.

XII. *And be it further enacted* by the authority aforesaid, That it shall be lawful for any person or persons who may be engaged in dispersing any unlawful assembly of slaves, free negroes, mulattoes or mestizoes, to enter into all such places as the said persons may be assembled at, and if resisted, they may break open doors, gates or windows.

Owners of plantations to employ white persons thereon.

XIII. *And be it further enacted* by the authority aforesaid, That every owner of any settled plantation shall employ and keep on such plantation some white man capable of performing patrol duty, under the penalty of fifty cents per head per month, for each and every working slave which may be on such plantation; to be recovered by indictment, one half to the informer, the other half to the use of the State; *provided always,* that nothing herein contained shall be construed to affect any person or persons

OF SOUTH CAROLINA.

541

Acts relating to the Militia.

A. D. 1819.

who resides on his, her or their plantation for the space of seven months in the year, or who shall employ less than ten working slaves on such plantation.

XIV. *And be it further enacted* by the authority aforesaid, That if any person or persons shall commence an action against any patrol or other person, for any trespass by him committed in carrying into execution the provisions of this Act, and at the trial thereof shall fail to recover any damage, he, she or they shall be liable and adjudged to pay to the party so sued treble costs Persons prosecuting and failing, to pay treble costs.

XV. *And be it further enacted* by the authority aforesaid, That the Secretary of State be, and he is hereby, required to have a sufficient number of copies of the aforesaid Act printed, and by him to be transmitted to the commandants of regiments, to be by them distributed to the commissioned officers of their respective regiments; and it shall be the duty of the captain or commanding officer of each company, to read this Act to his company, at least once in six months. Secretary of State to distribute this Act.

XVI. *And be it further enacted* by the authority aforesaid, That all Acts and parts of Acts repugnant to this Act, be, and the same are hereby, repealed. *Provided, nevertheless,* that nothing herein contained shall be construed so as to deprive the Intendant and Wardens of any incorporated town, of any power heretofore invested in them, to regulate and order out patrols within the limits of such incorporation; but that such Intendant and Wardens shall have as full power as they were invested with before the passing of this Act. Acts repugnant to this Act, repealed. Proviso.

In the Senate House, the eighteenth day of December, in the year of our Lord one thousand eight hundred and nineteen, and in the forty-fourth year of the Independence of the United States of America.

No. 2244. AN ACT AUTHORIZING ANOTHER REGIMENT OF MILITIA TO BE RAISED AND ORGANIZED IN THE DISTRICT OF PENDLETON; AND FOR OTHER PURPOSES.

WHEREAS, the persons subject to militia duty in the District of Pendleton, suffer many inconveniences in consequence of the extensive bounds of the Regiment in the said district, which have been greatly enlarged by the late acquisition of territory from the Cherokee Indians.

I. *Be it therefore enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the three regiments of militia in the district of Pendleton, be, and the same are hereby, required to be so divided, as to form four regiments, as equal in strength as practicable, each regiment to consist of at least eight companies.

II. *And be it further enacted* by the authority aforesaid, That the following persons be, and they are hereby, appointed commissioners to divide the said regiments, and to make another regiment, as directed by this Act, viz.—Alexander Moorhead, Peter Keys, Patrick Norris, John C. Kilpatrick, Robert Stribling, Thomas Stribling, George Rankin, John Eslly, and Andrew Humbleton.

III. *And be it further enacted* by the authority aforesaid, That if the said commissioners shall refuse or neglect to act, so as to carry this Act into effect, then it shall be the duty of the brigadier-general commanding said regiments, to appoint three suitable and proper persons from each of the present regiments, to lay out and designate the bounds and limits of the said new regiment; and also, to make alterations in the lines of the present existing regiments; *provided*, they do not alter the lines of beat companies, or divide any established beat company.

IV. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the said commissioners, so soon as they have made a division and formed said regiment, to report the same to the brigadier-general commanding said regiment, and to the several colonels commanding the same, which said report shall designate the companies composing the said several regiments; and it shall be the duty of the said brigadier-general, immediately after the receipt of the said report, to order elections for such

No. 2294. AN ACT TO CONSOLIDATE AND EQUALIZE CERTAIN MILITIA COMPANIES; TO AUTHORIZE THE SALE OF SMALL ARMS; AND THE INSPECTION OF MUSKETS MADE BY ADAM CARBUTH, PREPARATORY TO THEIR BEING PURCHASED BY THE STATE.

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and after the passing of this Act, there shall be but one beat company in each of the parishes of Christ Church and St. James Santee; and the two companies in each of the said parishes shall be consolidated into one.

II. *And be it further enacted* by the authority aforesaid, That the persons residing in the parish of Saint James Santee, entitled to vote for company officers, shall meet at the head of Wigfall's, (now Cordes's causeway,) on the third Monday in January next, for the purpose of electing officers for the company within said parish, which place is hereby declared to be the muster ground of the said company.

III. *And be it further enacted* by the authority aforesaid, That the eleven mile post on the Stage-road from Charleston to Georgetown, shall be the place of meeting of the company within the parish of Christ Church; and an election shall be held at the said place on the third Monday of January next, for the election of officers for the said company.

IV. *And be it further enacted* by the authority aforesaid, That Thomas Gaillard, Thomas Porcher, jr., Peter Broughton, Philip Porcher, and Samuel Porcher, or any three of them, shall be, and they are hereby, appointed commissioners to alter the dividing line between the upper and lower beat companies in the parish of Saint John's Berkly, for the purpose of making said beat companies equal; and the said commissioners, or any three of them, after altering the said line, shall make a report of their proceedings in the premises, to the colonel or other officer commanding the regiment in which the said companies are situated.

V. *And be it further enacted* by the authority aforesaid, That as soon as practicable after the passing of this Act, it shall be the duty of the

JACOB BOND I'ON, *President of the Senate.*

PATRICK NOBLE, *Speaker of the House of Representatives.*

AN ACT TO REGULATE THE PERFORMANCE OF PATROL DUTY ON No. 2317.
CHARLESTON NECK.

WHEREAS, the Local situation of Charleston Neck, from the bounds of the city of Charleston to the northern boundary of St. Philip's Parish, renders the present existing patrol laws insufficient to protect the property of the inhabitants of said neck, and to control and keep in order the numerous black population of the same, and others travelling to and from the city within the aforesaid limits.

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That it shall be the duty of the officer or officers commanding the militia company or companies on Charleston Neck, within two months after the passing of this Act, to cause his or their company or

VOL. VIII.—69.

companies to be divided into convenient patrols, in such manner as a majority of said company officers shall direct; which division, when made, shall be permanent, until altered by a majority of said officers; and in case the officers of such company or companies shall neglect or refuse to perform the duty hereinbefore required of them, each shall forfeit and pay the sum of thirty dollars, to be recovered in any court having competent jurisdiction, to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Rolls to be made out.

II. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the commanding officer or officers of the company or companies aforesaid, to cause to be made out a roll for each patrol district, which shall include the names of all the free white male inhabitants above the age of eighteen years, and under the age of sixty, residing within the said patrol district, except Ministers of the Gospel of any sect or denomination whatsoever, and all females owning ten slaves above the age of ten years. And all persons having settled farms, or a house and lot with five or more slaves above the age of sixteen years, residing within the said company or companies, shall be liable to perform the patrol duty hereinafter prescribed.

Leaders of patrols to be appointed.

III. *And be it enacted* by the authority aforesaid, That it shall be the duty of the commanding officer or officers of the said company or companies to appoint, which appointment shall be in writing, signed by such commanding officer or officers, some prudent and discreet person as leader in each patrol district, who shall perform the duty hereinafter prescribed, until the expiration of two months from the date of such appointment; and in case the person appointed shall refuse to accept such appointment, or the commanding officer or officers of the said company or companies, or the leader or leaders of the patrol, shall fail to perform any of the duties required of them by this Act, they shall, respectively, forfeit and pay the sum of twenty dollars, to be recovered in any court having competent jurisdiction, to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads; *provided always*, that no person shall be compelled to serve more than once in every twelve months, as leader of any patrol.

To turn out twice a month.

IV. *And be it enacted* by the authority aforesaid, That it shall be the duty of the leader of each patrol, at least as often as twice a month, to call out any number of persons under his command, and to ride patrol through Charleston Neck, and to take up all slaves who may be found within its limits, and without their owners's inclosures under suspicious circumstances, or at a suspicious distance therefrom, and to correct all such slaves by a moderate whipping with a whip or cowskin, not exceeding twenty lashes, unless the said slave shall have a ticket or letter to shew the reasonableness of his or her absence; and if any white man shall wantonly beat or abuse any slave, quietly and peaceably being in his or her owner's inclosure, or found any where without the same with a lawful ticket, he shall forfeit the sum of fifty dollars, to be recovered by the owner of said slave, and to his use, by action of debt, besides being liable to the owner in an action of trespass for damages.

Powers and duties.

V. *And be it enacted* by the authority aforesaid, That the said patrols shall have power, within the limits of Charleston Neck, and they are hereby authorized and required, to enter into any disorderly house, or into any vessel or boat, suspected of harboring, or unlawfully trafficking or dealing with slaves, and if resisted, to break open doors, windows or locks, and to

apprehend and correct or commit, all slaves found there contrary to the true intent and meaning of this Act; and the leaders of said patrols are further authorized and required to give information of such white persons, or persons of color, as may be found in such house, vessel or boat, or place, unlawfully trading or trafficking with slaves, to any lawful magistrate; and to deliver to the said magistrate such produce or articles for trafficking as may be found in such house, vessel, boat or place, to be disposed of according to law.

VI. *And be it enacted* by the authority aforesaid, That the leader of every patrol shall have power to keep the men under his command in good order and demeanor during their time of service; and in case any patrol man shall misbehave himself, or neglect or disobey the orders of his commander, he shall be subject to arrest, at the discretion of the said leader, and be liable to a fine of not more than two dollars, to be imposed by a court consisting of the officers of the company to which he belongs, to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Penalty on patrol men who misbehave.

VII. *And be it further enacted* by the authority aforesaid, That if any leader of patrol shall act disorderly while on duty, so as to defeat the orderly performance or execution of the patrol law, agreeable to the true intent and meaning of this Act, he shall be liable to be reported by any of the members of his patrol, or other persons competent to give evidence, to the commanding officer of the company to which he is attached, who shall order a court, consisting of the officers of said company, or of any three officers of the regiment to which such company is attached, to try him, and upon sufficient evidence being given of the charge, such leader of the patrol shall be fined in the sum of ten dollars; to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Leaders of patrol may be fined.

VIII. *And be it further enacted* by the authority aforesaid, That it shall be lawful for any person or persons hereby declared liable to perform patrol duty, to send any able bodied white man, between the age of eighteen and sixty, to perform patrol duty for him or them; and if any patrol man shall neglect or refuse to perform the duty required of him by this Act, or procure a substitute to perform the same, without a legal excuse, he shall forfeit and pay a fine of two dollars for each and every default, and ten per cent on his general tax for the year preceding on property owned by him on Charleston Neck, to be inflicted by a court composed of the officers of the company to which he is attached, a majority of whom shall be sufficient to form such court, or any three officers of the regiment to which the said company is attached, and to be collected by the collector of the regiment, who shall have as full power and authority to collect the same, as he now has or may hereafter have to collect militia fines, under any law which now is or may hereafter be of force in this State; to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Fine for not performing patrol duty.

IX. *And be it further enacted* by the authority aforesaid, That it shall be the duty of each leader of patrol to make a return upon oath of the performance of the duties of his office, to the commanding officer of the company to which he belongs, once in every two months, under the penalty of a fine not exceeding twenty dollars; to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Return to be made.

X. *And be it further enacted* by the authority aforesaid, That all persons of color, (Indians in amity with the United States excepted,) negroes,

Slaves to be corrected.

Acts relating to the Militia.

mulattoes, or mestizoes, found within the limits of Charleston Neck, shall be taken and considered as slaves, and shall be liable to such correction or other punishment to which by this Act slaves are liable, unless such persons of color shall produce their free papers, or copies of the same, or such other good and sufficient evidence of their freedom as may be satisfactory to the leader of the patrol; *provided, nevertheless*, that free negroes, mulattoes or mestizoes, found within Charleston Neck, and without their own or their employer's enclosure, not having a regular ticket from their guardian, after the hours of nine o'clock, P. M., from the twentieth of September to the twentieth of March, and ten o'clock, P. M., from the twentieth of March to the twentieth of September, in each and every year, shall be liable to the same punishment to which by this Act slaves are liable.

No shop to be kept open after nine o'clock.

XI. *And be it further enacted* by the authority aforesaid, That it shall not be lawful for any owner or occupant of a grocery store or retail shop, within the limits of Charleston Neck, or of any store, shop or place within the limits aforesaid, wherein are vended spirituous liquors, to keep open the said stores, shops and places, for the purpose of trade, or to trade, traffick or barter therein, with negroes or persons of color, on the Sabbath day, or any other day after the hours of nine o'clock, P. M., from the twentieth of September to the twentieth of March, and ten o'clock, P. M., from the twentieth of March to the twentieth of September, in each and every year. And in case any owner or occupant of any such store, shop or place, shall transgress or violate this Act, by keeping open the said stores, shops or places, or by trading, trafficking or bartering therein, with any negroes or persons of color, on the Sabbath day, or on any other day after the hours of nine o'clock, P. M., from the twentieth of September to the twentieth of March, and ten o'clock, P. M., from the twentieth of March to the twentieth of September, in each and every year, he, she or they, shall forfeit and pay the sum of fifty dollars, to be recovered in any court having competent jurisdiction; to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads.

Patrol to be provided with arms.

XII. *And be it further enacted* by the authority aforesaid, That every person liable to perform patrol duty on Charleston Neck, shall provide for himself, and keep always in readiness, and carry with him on his patrol service, one good gun or pistol, in order, with at least six ball cartridges for the same, or a cutlass, under the penalty of two dollars, and ten per cent on his general tax for the year preceding, on property owned by him on Charleston Neck, for want of any such arms or ammunition; to be recovered and appropriated in the same manner as by this Act fines for non-performance of patrol duty are recovered and appropriated.

Fines to be paid to the commissioners of the Cross Roads.

XIII. *And be it further enacted* by the authority aforesaid, That the commissioners of the Cross Roads of Charleston Neck shall have power to demand and receive all such fines and forfeitures, and other monies and things whatsoever, as are appropriated by this Act to the use of the said Cross Roads; and in case of refusal to deliver or pay the same, to commence and prosecute any lawful action for the recovery thereof.

Record of proceedings to be kept.

XIV. *And be it further enacted* by the authority aforesaid, That the commanding officer of the militia company or companies of Charleston Neck, shall have power to appoint a secretary, whose duty it shall be to prepare and lay before the court or courts hereby established, all necessary papers, and to keep a record of the proceedings of the same, which record shall be open to the inspection of any citizen interested therein; for which services, the said secretary shall be excused from the ordinary patrol duty.

OF SOUTH CAROLINA.

549

Acts relating to the Militia.

A. D. 1823.

XV. *And be it further enacted* by the authority aforesaid, That the leader of each patrol district shall have power to appoint a person whose duty it shall be to summon out the patrol at the times and places appointed by the leader, and to extend such orders and commands as may be given to him by the said leader of patrol; for which services, the said person shall be excused from ordinary patrol duty. Patrol to be summoned.

XVI. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the commanding officer of each militia company on Charleston Neck, and of all lawful magistrates within the limits of Charleston Neck, to give information to the respective leaders of patrol, of any unlawful assemblies of negroes or persons of color, which may come within their knowledge; which leaders, on receiving such information, shall turn out their patrols and perform the duties prescribed by law; and in case any leader of patrol shall neglect or refuse to turn out his patrol, and perform the duties required by law, after receiving such information, he shall forfeit and pay a sum not exceeding twenty dollars; to be paid to the commissioners of the Cross Roads of Charleston Neck, for the use of the said roads. Information of unlawful assemblies to be given to the commanding officer.

XVII. *And be it further enacted* by the authority aforesaid, That if any person or persons shall commence an action against any patrol or patrol man, for any trespass by him committed in carrying into execution the provisions of this Act, and at the trial thereof shall fail to recover any damage, he, she or they shall be liable and adjudged to pay to the party so sued treble costs. Persons prosecuting and failing, to pay treble costs.

XVIII. *And be it enacted* by the authority aforesaid, That all Acts and parts of Acts repugnant to this Act, be, and the same are hereby repealed. Repealing clause.

Acts relating to the Militia.

as the major-general of each division may think fit and proper; and it shall be the duty of the several brigadier-generals to attend the officers so assembled within their respective brigades, and to lead, train, discipline and manœuvre the said officers, according to the system of Scott, or any other system which may be adopted by Congress; and it shall be the duty of the adjutant-general and brigade-majors, within their respective brigades, to attend such musters, and be subject to orders as on reviews; and it shall also be the duty of the major-generals, within their respective divisions, to attend at the said musters. Which said musters of the officers, as aforesaid, shall be ordered by the Governor and Commandor-in-chief, and at such times as he shall deem fit and proper, for the purposes intended by this Act. And in case any of the officers required by this Act to attend the musters aforesaid, shall fail or neglect so to attend, the said officers, respectively, so failing or neglecting, shall be subject to the fines and forfeitures following, that is to say: a major-general shall be fined in the sum of sixty dollars; a brigadier-general in the sum of fifty dollars; a colonel in the sum of forty dollars; a major in the sum of thirty dollars; a captain, lieutenant or ensign, in the sum of twenty dollars; and that such defaulter or defaulters shall be tried in the same manner as is now directed by the militia laws of this State, and the fines applied to the use of the brigade in which such fines and forfeitures have accrued.

II. *Be it further enacted*, That if any beat company of militia shall neglect or refuse, for three months, to elect officers to command said company, it shall be the duty of the colonel, lieutenant-colonel or major commanding the regiment or battalion to which the said company may belong, to divide the said company, and attach it to the nearest beat companies thereto, until the said company shall elect officers to command the same, and those composing such company are hereby required to do duty in the beat company to which they shall be attached.

III. *And be it enacted*, That the officers commanding the 2d company of the 2d battalion of the 19th regiment of South Carolina militia, shall hereafter hold their company musters at Brown's Tavern, in St. John's parish, Berkley.

In the Senate House, the twentieth day of December, in the year of our Lord one thousand eight hundred and twenty-three, and in the forty-eighth year of the Independence of the United States of America.

JACOB BOND I'ON, *President of the Senate.*

PATRICK NOBLE, *Speaker of the House of Representatives.*

No. 2341. AN ACT TO REPEAL THE FIRST SECTION OF AN ACT ENTITLED "AN ACT TO REQUIRE THE OFFICERS OF EACH BRIGADE OF MILITIA TO ASSEMBLE IN BRIGADE ENCAMPMENTS, AND FOR OTHER PURPOSES;" PASSED THE TWENTIETH DAY OF DECEMBER, 1823; AND FOR OTHER PURPOSES.

WHEREAS, by the first section of an Act of Assembly, passed on the twentieth day of December, in the year of our Lord one thousand eight

OF SOUTH CAROLINA.

551

Acts relating to the Militia.

A. D. 1824.

hundred and twenty-three, all the commissioned officers in each brigade of militia in this State were required to meet and assemble at some central and proper place within their respective brigades, in full uniform, and equip as therein directed, at least once in two years, and thore to be kept in the practice of military exercises for a time therein specified. And *whereas*, the said law has not only effected no beneficial purpose, but is inconvenient, oppressive and burthensome to the officers of the militia of this State :

I. *Be it therefore enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the first section of an Act entitled "An Act to require the officers of each brigade of militia to assemble in brigade encampments, and for other purposes," be, and the same is hereby, repealed.

II. *And be it further enacted* by the authority aforesaid, That the Beaufort volunteer company of artillery be, and the same are hereby, exempted from attending any regimental reviews ; *provided*, the said company, in addition to the days and times now required by law, do, on the days and times when the regiment to which the said company is now attached shall parade for review and exercise, also assemble at the usual muster ground of said company, for drill, exercise and instruction ; and *provided, also*, that the members of said company shall at no time exceed sixty-four men, rank and file.

III. *And be it further enacted* by the authority aforesaid, That the fifth section of an Act passed on the twenty-first day of December, in the year of our Lord 1822, entitled "An Act to consolidate and equalize certain beat companies ; to authorize the sale of small arms, and the inspection of muskets made by Adam Carruth, preparatory to their being purchased," be, and the same is hereby, repealed.

IV. *And be it further enacted* by the authority aforesaid, That all that part of the Charleston Neck company which lies on the east side of King street, up to the cross roads, and thence on the east side of the main road to the quarter house, be and constitute one company ; and that part of said company which lies on the west side of said line, be and constitute another company ; both of which companies shall continue attached to the sixteenth regiment.

V. *Be it further enacted* by the authority aforesaid, That the commissioned officers of the Charleston Neck company may select in which of the companies hereby created they will hold their commissions, and they shall, respectively, hold and be confirmed in the rank and commission which they now hold ; and it shall be the duty of the colonel or commanding officer of the 16th regiment, as soon hereafter as may be practicable, to order an election for officers in the other company.

In the Senate House, the seventeenth day of December, in the year of our Lord one thousand eight hundred and twenty-four, and in the forty-ninth year of the Independence of the United States of America.

JACOB BOND P'ON, *President of the Senate.*

No. 2406. AN ACT TO ALTER AND DEFINE THE LINE BETWEEN THE 34TH AND 35TH REGIMENTS OF THE SOUTH CAROLINA MILITIA; AND FOR OTHER PURPOSES.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the following shall hereafter be the boundary between the 34th and 35th regiments of the South Carolina militia, that is to say: the line shall commence on Pacolet river, opposite Sandy Run; thence down said river to Thomas Taylor's; thence to William Huckby's, son of Robert Huckby; thence down the old regimental line to Broad river, near the mouth of Thicketty creek; thence up said Thicketty creek to John Jeffers's ford, on the said Thicketty creek; thence along the main road, by Hancocksville, to the Grindal Shoals, on Pacolet river; and that the persons liable to perform militia duty, residing within the aforesaid limits, be formed into a beat company, be, and the same is hereby, attached to the thirty-fifth regiment.

II. *And be it further enacted*, That the lower battalion of the seventh or Glascock's regiment, shall be divided into five beat companies, instead of four, as heretofore: and that Col. Thomas Glascock, Lieut. Col. John Marsh, and Major Andrew P. Jones, are hereby appointed commissioners to make such division; the said commissioners to report to the brigadier-general the division so made, and on his approval of the same, the proper officer shall forthwith order an election of officers for the additional beat company hereby authorized to be laid off; *provided*, that no officer in command shall thereby have his commission vacated.

In the Senate House, the twenty-fourth day of November, in the year of our Lord one thousand eight hundred and twenty-seven, and in the fifty-second year of the Independence of the United States of America.

JACOB BOND I'ON, *President of the Senate.*

JNO. B. O'NEALL, *Speaker of the House of Representatives.*

No. 2410. AN ACT TO ENLARGE THE RECRUITING LIMITS OF THE WINNSBOROUGH LIGHT INFANTRY VOLUNTEER COMPANY.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That hereafter it shall and may be lawful for any person residing within Fairfield district, and liable to do militia duty, to join and become a member of the Winsborough Light Infantry Volunteer Company, in the same manner as such person would be entitled to do, were he a resident of that regiment to which said company is attached.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and twenty-seven, and in the fifty-second year of the Independence of the United States of America.

AN ACT TO REGULATE THE COLLECTION OF MILITARY FINES; AND FOR OTHER PURPOSES. No. 2479.

I. *Be it enacted*, by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That all fines hereafter imposed on any commissioned officers for neglect of military duty in any battalion, regiment or brigade, shall be collected by the sheriff of the judicial district in which such delinquent may reside, and for the performance of this duty the sheriff shall receive twenty-five per cent. on all monies so collected; except in the parishes of St. Philip and St. Michael, where fines shall be collected as heretofore; the collector of fines in which place shall be entitled to the like compensation as is herein provided for the sheriff.

II. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the officer ordering any courts martial, to furnish the sheriff, within fifteen days after any fine has been imposed on any commissioned officer, with executions against such delinquents; and the said sheriff, within thirty days after receiving such executions, shall notify each delinquent of the amount of his fine, and to require payment thereof; and if the said delinquent shall neglect or refuse to pay the same within fifteen days after such notification, the said sheriff shall proceed on this execution, and shall arrest the body of the said delinquent for the satisfaction of the said fine, unless the said delinquent shall point out sufficient property whereof to levy and satisfy such fine so imposed as aforesaid.

III. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the several tax collectors in this State, at the request of any militia officer, to furnish such officer with the amount of the last general tax of any defaulter liable to be fined as aforesaid; but nothing in this Act shall be construed to deny the right of appeal to any officer who may conceive himself aggrieved by the sentence of any court-martial.

IV. *And be it further enacted* by the authority aforesaid, That the sheriff with whom any such execution shall be lodged, shall be bound to execute and return the same to the paymaster of the regiment, within three months from the time of the lodgment thereof, and on default, he shall pay the sum of fifty dollars, to be recovered by summary process, in the name of the State of South Carolina; one half of which shall be paid to the informer, and the other half to the use of the regiment.

V. *And be it further enacted* by the authority aforesaid, That it shall be the duty of the sheriff within ten days after demand, to pay over all monies collected by him, pursuant to this Act; and, in default thereof, an action may be brought against him, in the name of the regimental paymaster, and the amount so collected, recovered against him, with interest at the rate of six per cent. for each month, from the time of demand.

VI. *And be it further enacted*, That if any member of the magazine guard, at Laurel Island, on Charleston Neck, or of the guard to be hereafter, or at this session, established at Georgetown, shall be hereafter intoxicated, or disorderly or disobedient to lawful orders, he may be arrested and confined, by order of the commanding officer of said guard.

No. 2487. AN ACT TO PROVIDE FOR THE DIVISION OF BEAT COMPANY NUMBER SEVEN, OF THE 15TH REGIMENT OF SOUTH CAROLINA MILITIA.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, That beat company number seven, of the fifteenth regiment of South Carolina militia, now commanded by captain Jacob Kitchen, shall, as soon hereafter as practicable, be divided into two companies, and that Richard Jones, Esq., John Horsey, Jacob Kitching, John Quattlebaum, and Georgo Sawyer, be appointed commissioners to divide the same.

II. The said commissioners, or a majority of them, shall, as soon as may be practicable, meet and make such division, and shall return, in writing, to the colonel of the regiment, a report of such division, and the limits apportioned to each beat company; and the colonel shall cause the same to be entered in the books of the regiment.

III. The officers now holding commissions in said beat company, shall be entitled to hold the same in the company, within the limits of which they may, respectively, fall.

IV. The colonel shall, as soon as the said limits are fixed, order elections to fill up the vacancies that may exist in said companies, respectively.

No. 2508. AN ACT TO ESTABLISH THE DIVIDING LINE BETWEEN THE 26TH AND 27TH REGIMENTS OF MILITIA; AND TO LAY OFF A NEW BEAT COMPANY AT AND AROUND SUMTERVILLE.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly; and by the authority of the same, That the boundary line which divides the 26th and 27th regiments of South Carolina militia from each other, shall be, and the same is hereby, altered, defined and established, to run as follows, that is to say: beginning at M'Clure's old field, on the Saluda road, near the village of Chester; running thence in a direct line to the spring east of the said village; thence along the meanders of the branch from the said spring until it intersects the Charleston road; and thence along the said road as heretofore.

II. *Be it further enacted* by the authority aforesaid, That a new beat company of militia be formed and established in and around the village of Sumterville, by uniting portions of the two beat companies commanded by captain William N. Harvin and captain James A. Vaughan, in manner and form following, that is to say: captain Harvin's beat shall be divided by a line beginning at the mouth of Cow-pen branch, near Thomas J. Wilder's plantation; thence upward along said branch to its source; thence directly to the head of Camp branch; thence along the meanders of the same to its juncture with Black river; and that captain James A. Vaughan's beat shall be divided by a line beginning at Mr. Charles Spann's mill; thence along the road to John Knox's; thence along the Stateburg road to Green swamp; and that the contiguous portions of the said beat companies, so abstracted and divided off by the said lines, form and be constituted a separate beat; *provided*, that the companies hereby directed to be divided, shall not be reduced by such division below the number directed by law to constitute a company.

III. *And be it further enacted*, That the beat hereby directed to be formed and established, shall be attached to, and form a part of the lower battalion of the 20th regiment, and that the officer whose duty it may be, shall forthwith issue the necessary orders for the election of company officers in the said new beat.

AN ACT TO CONFORM THE MILITARY WITH THE JUDICIAL DIVISIONS No. 2510.
OF PENDLETON DISTRICT; AND FOR OTHER PURPOSES.

I. *Be it enacted* by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, ^{Division of militia.} That from and after the first day of March next, the 4th and 42d regiments of militia, shall be included in the district of Anderson; and that the 2d and 5th regiments of militia, shall be included in the District of Pickens.

II. That the fifth street in the village of Anderson, be the line between the 4th and 42d regiments, continuing from the east end thereof to a point on Saluda river, within one mile of Wilson's Ferry, above; and from the west end of said street, to a point on Senaca river, between Mrs. Sloan's Ferry, and two miles above the mouth of said river. The said lines to be run by a person to be nominated by the Colonels of those regiments, and the expense to be defrayed out of fines collected from defaulters in said regiments, each contributing equally. ^{Dividing line.}

III. *And be it further enacted*, That this line dividing the 2d and 5th regiments, shall commence at the point of intersection between the district line of Pickens and Anderson, and the public road leading from the village of Pendleton to Harrison's Ferry on Senaca river; thence along said road to said ferry; thence up said river, to the mouth of Toxaway, and up Toxaway to the Three Forks; and thence up South Fork to the State line.

IV. *And be it further enacted*, That the General's road shall be the dividing line between the two battalions of the 4th regiment; and that Samuel J. Hammond, Christopher Orr, and Asa Clinkscales, be ^{Commissioners to establish dividing lines,} commissioners in the first battalion; and that John McFall, jr., Solomon Shelton, and William Houston, be appointed commissioners in the second battalion, to establish the beat company lines and battalion parade grounds in their respective battalions.

V. *And be it further enacted*, That Swellen Goode, A. J. Liddell, and Job Rainwater, be appointed commissioners for like purposes, in the battalion in which they reside; and that James L. McCann, James Mulligan, and Saxon Anderson, be appointed commissioners for like purposes, in the battalion in which they reside; and that they jointly, form a board of commissioners for the 42d regiment, to determine the grade of battalions, the dividing line of the battalions, and the regimental parade ground.

VI. *And be it further enacted*, That Samuel Reid, William Duff, and Michael Edmonston, be appointed commissioners for like purposes, ^{Commissioners for like purposes.} in the battalion in which they reside; and Samuel C. Reeder Jacob R. Cox, and Obediah Trimmier, be appointed commissioners in the battalion in which they reside, for like purposes, who shall, jointly, determine the grade of the battalions, the battalion line, and the regimental parade ground for the second regiment; and that Samuel Gassaway, John Bowen, jr., and James Hendrix, be appointed commissioners for like purposes, in the battalion in which they reside; and John Hunter, Nathaniel Lynch, and William Sutherland, be appointed commissioners for similar purposes, in the battalion in which they reside, who shall also, jointly, determine the grade of the two battalions, the battalion line, and regimental parade ground for the fifth regiment.

VII. *And be it further enacted*, That the foregoing changes shall not

A. D. 1830.

occasion any forfeiture of commission or rank, either in regimental, battalion, or boat company officers, or any dissolution of any existing uniform corps, but such officers or privates may continue to exercise the duties of their respective commands, or parade with the uniform corps to which they may have been attached, as the case may be.

VIII. *And be it further enacted*, That Jesse W. Norris, A. Rice, Thos. Bunoughs, William Houston, Archibald Simpson, Christopher Orr, Hugh Wilson, Miles J. Hardy, James Pagott, and John T. Broyles, be appointed commissioners of roads and bridges for the fourth regiment; and that Jas. C. Griffin, Wyatt Smith, William Steel, John Harris, jr., Jas. L. M'Cann, William Holcomb, Joseph V. Shanklin, Herbert Hammond, Baylis Wodkins, William McMurry, and Eben Smith, be appointed commissioners of roads, bridges, et cetera, for the forty second regiment; and that William G. Field, Joseph Evetts, Jephtha Norton, jr., Frederick N. Garvin, Stephen C. Reid, Weyman Holland, and John Hunter, be appointed commissioners of roads for the fifth regiment; and that John T. Humphreys, Thomas Fitzgerald, Jesse McKinney, Samuel C. Reeder, Samuel Kirksey, John E. Calhoun, and Joseph Grisham, be appointed commissioners of roads for the second regiment, vested with the same powers, and subject to the same penalties as now by law provided.

Commissioners
of roads, &c.

IX. *And be it further enacted*, That the boards of the fourth and forty-second regiments, shall form a general board for Anderson district; and the said boards for the fifth and second regiments, shall form a general board for Pickens districts; each to meet on the first Monday in January next, at their respective court houses, and annually, thereafter, to transact such business as is now required of such general board by law; and it shall be the duty of the tax collector for Pendleton district, to collect such assessments as he may be required by each of these boards, from the tax-paying inhabitants in Anderson and Pickens, respectively. And it shall be the duty of the treasurer for the general board for Pendleton, to exhibit a fair account, current, to each of the general boards for Anderson and Pickens, the balance of funds on hand, or amount, if deficient, to be received or contributed in equal proportion by each of the general boards aforesaid, as the case may be; and all appeals now pending, or other unfinished business before the general board, to be transferred to that board to which it properly belongs, by the said treasurer.

General board
of commissioners.

X. *And be it further enacted*, That Robert Anderson, Thos. W. Sloan, Benjamin D. Dupree, Bailey Barton, James Osborne, David Hendricks, and David McKinney, shall constitute a board of commissioners of free schools for Pickens District; and that Levi Garrison, Jesse W. Norris, Christopher Orr, J. D. Gaillard, J. L. McCann, Garrison Lynn, and A. Evans, shall constitute a board of commissioners of free schools for Anderson district, shall meet at their respective court houses on the first Monday in February next, for the purpose of organizing their boards, locating schools, and transacting such duties as are now required of boards of commissioners by law; meeting quarterly and annually thereafter, on such days as are now provided. And it shall be the duty of the present board of commissioners of free schools for Pendleton, on the fourth Monday in January next, only to examine the reports of teachers, and ascertain the amounts due to each, and draw their order therefor on the treasurer of the Upper Division, in conformity with existing laws; and bring to a close, as far as practicable, all engagements with their teachers, from and after which day, the said board is hereby, dissolved; *nevertheless*, it shall be

their duty to transfer to each of the new boards, respectively, such business as may not be closed.

XI. *And be it further enacted*, That the balance of appropriation, as well as all future appropriations to which Pendleton District may be entitled by laws now of force, be, and the same shall hereafter be, divided ^{Division of ap-} between the districts of Anderson and Pickens, in equal shares, one moiety ^{propriation.} to each, and no more; liable to be drawn from the treasury, as is now provided for the other boards of free schools. And it shall be the duty of the treasurer of the upper division, after the payment of said order from the board for Pendleton District, to open an account, current, with Pickens and Anderson, in conformity with the provisions.

XII. *And be it further enacted*, That in the event of the neglect or refusal of any one or more of the commissioners, appointed to adjust and ^{To fill vacan-} establish the lines of beat companies, etcetera, such vacancy or vacancies, ^{cies,} may be filled by the Pendleton delegation.

XIII. *And be it further enacted*, That from and after the passing of this Act, Anderson district shall be entitled to fifteen justices of quorum, and ^{Number of jus-} twenty justices of the peace, and no more; and that Pickens district shall ^{tices of peace} be entitled to twelve justices of the quorum, and fifteen justices of the ^{and quorum.} peace, and no more; each inclusive of those now in office.

No. 2500. AN ACT FURTHER TO ALTER AND AMEND THE MILITIA LAWS OF THIS STATE.

Governor
may call out
troops.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That in case the Government of the United States, or any officer thereof, shall, by the employment of naval or military force, attempt to coerce the State of South Carolina into submission to the Acts of Congress, declared and ordained to be null and void and no law, in a convention of the people of the State of South Carolina, on the twenty-fourth day of November, in the year of our Lord one thousand eight hundred and thirty-two, or to resist the enforcement of an ordinance adopted by the convention aforesaid, or the laws passed in pursuance thereof, or in case of any armed or forcible resistance thereto, the Governor is hereby authorized and empowered to resist the same; and in order to render such resistance effectual, he is hereby authorized and empowered to order into service the whole military force of this State, or so much thereof as he may, from time to time, deem necessary and proper.

Calling out
troops for de-
fence.

II. In case of any overt act of coercion, or an intention on the part of the Government of the United States, or any officer thereof, to commit such an act, manifested by an unusual assemblage of naval or military forces, in or near this State, or the occurrence of any circumstances indicating the probability that armed force is about to be employed against this State, or in resistance to its laws, the Governor be, and he is hereby, authorized to call into the service of this State, from time to time, such portion of the militia as may be required to meet the emergency.

Infantry and
rifle compa-
nies, what
number to con-
sist of.

III. Each company of infantry called into the service, shall consist of sixty privates, five sergeants and six corporals, to be officered by one captain, one first and second lieutenant and ensign; and each company of infantry or riflemen, shall consist of not less than forty privates, and the requisite number of non-commissioned and commissioned officers.

Regiment of
infantry, what
to consist of.

IV. Each regiment of infantry called into service as aforesaid, shall consist of eight companies of infantry, and two companies of light infantry or riflemen, to be commanded by one colonel, one lieutenant-colonel and one major, to be selected by the commander-in-chief from amongst the officers of their respective grades in commission at the time, in the brigade or division out of which such regiment shall be raised; and each colonel commanding a regiment of volunteers or militia, shall appoint his regimental staff, subject to the approval of the brigadier-general.

Volunteer
companies to
be raised.

V. The Governor is hereby authorized, out of the several brigades or divisions of the State, to permit volunteer companies, troops, battalions, squadrons, and regiments of infantry, artillery, cavalry, light infantry, and riflemen, to be raised; and he is hereby authorized to accept the services of volunteers, whether by files, companies or otherwise; and it shall be his duty, whenever in his opinion the public interest shall require it, to cause such volunteers to be organized into companies, troops, battalions, squadrons or regiments, as the case may be, and he may form the same into brigades and divisions; *provided*, no troop or company shall consist of less than forty or more than one hundred effective rank and file, with the proper complement of non-commissioned and commissioned officers required by law; the field and general officers to be selected by the Governor, from amongst the officers of their respective grades in the brigade or division out of which such regiment or brigade shall be raised; and where any

officer already in commission, shall accept a command in any such volunteer corps, he may retain both commissions, and at the end of his term of service as a volunteer, shall be at liberty to resume his rank and command; *provided*, that every volunteer company, troop, battalion, squadron or regiment, which shall offer its services as a whole, shall be received and permitted to retain its own officers.

VI. The officers, non-commissioned officers, and privates of every volunteer company, troop, battalion, squadron or regiment, which may be raised, or whose services may be accepted as aforesaid, shall not be called upon to do militia duty in any other corps; but shall be liable to perform, in their respective volunteer companies, all the duties now required, or which may hereafter be required, of the militia by law; and the officers of such volunteer corps, shall, when acting in conjunction with their corps, rank according to the date of their respective commissions.

Volunteers exempt from ordinary militia duty.

VII. The volunteers which shall be raised, or whose services shall be accepted as aforesaid, or any portion thereof, may be called out by the Governor in any of the cases above mentioned, or other emergency in which he is authorized by law to call out the militia, and the term of service of the said volunteers, as well as the other militia corps, shall be six months from the day of their being mustered into service, unless sooner discharged; and all free white men above the age of sixteen years, may be accepted as volunteers; and all between the ages of eighteen and forty-five, shall be liable to be called out as is hereinbefore provided for.

Time of service.

VIII. Whenever any portion of the volunteers or militia aforesaid, shall be required for actual service, they shall, in every respect, be subject to the provisions contained in the second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, and eleventh sections of the Act of the General Assembly, ratified on the twenty-fourth day of September, eighteen hundred and thirteen, entitled "An Act to alter and amend the militia laws of this State."

Regulations for militia and volunteers.

IX. The Governor shall be, and he is hereby, authorized to order out any portion of the volunteers and militia of this State for review, inspection, and military instruction, as often as, in his opinion, the public service may require; *provided*, that when so ordered out, they shall not be kept longer in the field than twelve hours at any one time; and every officer, non-commissioned officer and private, shall be liable to the same fines and other penalties for non-attendance, or disobedience of orders while under arms, as are now imposed by law for non-attendance or disobedience of orders at regimental musters; the same to be imposed, collected and appropriated as now provided for by law in relation to regimental musters.

Governor to order out troops for instruction.

X. The Governor is hereby authorized and empowered to purchase, for the use of the State, as he may judge necessary, from time to time, ten thousand stand of small arms, and the necessary accoutrements, the requisite quantity of cannon balls, powder, lead, and other munitions, such ordinance as he may deem advisable, and to repair and mount such ordinance now belonging to this State, as may be worth the expense. And the Governor also shall be, and he is hereby, authorized to appoint, from time to time, such assistant staff officers of the grades now established by law, as may be necessary for the purpose of carrying this Act into complete effect; and he is also authorized to appoint additional aids-de-camp, whenever, in his opinion, the public service may require it; *provided*, that such appointments shall not continue in force longer than two years after the passage of this Act.

Authorizing the purchase of arms.

A. D. 1832.

Acts relating to the Militia.

XI. The Governor shall have power, and it is hereby declared to be his duty, in all cases of insurrection or invasion, or eminent danger thereof, and in cases where the laws of this State shall be opposed, and the execution thereof forcibly obstructed, by combinations too powerful to be suppressed by the power vested in the sheriffs or other civil officers of the State who may be charged with the execution of the said laws, to call forth such portions of the militia and volunteers aforesaid, as may be necessary promptly to suppress such combinations, and to cause the laws of the State to be duly executed.

XII. And if any person or persons whosoever shall be sued, impleaded, molested or prosecuted, for any matter, cause or thing, done or executed, or caused to be done or executed, by virtue of or in pursuance of this Act, all and every such person shall and may plead the general issue, and give this Act and the special matter in evidence; in case the plaintiff should suffer a discontinuance, enter a *nolle prosequi*, suffer a non-suit, or if a verdict or judgment shall pass against him, he shall pay to every defendant that shall be acquitted, or for whom judgment shall pass, his full double costs of suit.

XIII. The laws now of force prohibiting the reduction of beat companies below the number of thirty men, or the raising a greater portion of certain descriptions of troops than are now authorized within the limits of each military division, be, and the same are hereby, suspended, so far as the operation of this Act is concerned; and this Act shall continue of force, unless sooner repealed, for two years from the passing thereof, and no longer. The abstract of infantry tactics for the use of the militia of the United States, published by the department of war, under the authority of the Act of Congress, of the second of March, eighteen hundred and twenty-nine, shall, hereafter, be observed in the instruction and exercise of infantry within this State; and the exercise and manœuvres of light infantry and riflemen, annexed to said abstract, shall, in like manner, be observed in the instruction and exercise of light infantry and riflemen; and the system of exercise and instruction of field artillery, including manœuvres for light or horse artillery, shall likewise be observed by the artillery within this State; and the officers of infantry, cavalry and artillery, respectively, shall be furnished with a copy thereof by the Governor; and every officer shall be required, on the vacation of his commission, to deliver over to his successor the said book, or pay to said successor three dollars, to be by him recovered before any magistrate, and applied by said successor to the purchase of another and similar book.

In the Senate House, the twentieth day of December, in the year of our Lord one thousand eight hundred and thirty-two, and fifty-seventh of the Independence of the United States of America.

Acts relating to the Militia.

A. D. 1832.

AN ACT TO REGULATE THE MILITIA OF THE PARISHES OF ST. PHILIP AND ST. MICHAEL; AND FOR OTHER PURPOSES. No. 2561.

WHEREAS, from the location of the regiments and corps composing the militia of the parishes of St. Philip and St. Michael, they can be conveniently assembled as a body, for inspection, exercise and review, to their manifest advantage in point of discipline and efficiency:

I. *Be it therefore enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and after the passing of this Act, it shall and may be lawful for the brigadier-general, or officer commanding the fourth brigade, in the second division of the militia of this State, to order the several regiments and corps composing the militia of the said parishes, to parade for inspection, exercise and review, twice in each and every year; parades for such purpose to be enumerated as a part of the six company parades now annually required by law. Reviews for St. Philip and St. Michael.

II. *Be it further enacted* by the authority aforesaid, That the brigadier general of the said brigade be, and he is hereby, constituted a member and the presiding officer of the board of field officers residing in said parishes, empowered by the Act of 1809 to purchase a parade ground for the use of the militia of the said parishes. Parade ground.

III. *And be it further enacted* by the authority aforesaid, That the brigadier-general of the said brigade be, and he is hereby, authorized and required to appoint a collector of the militia fines for the said parishes, whose duty it shall be to collect all fines now imposed, or hereafter to be imposed, for neglect of militia duty, in the militia of said parishes; and who shall be clothed with the same authority and powers as are now vested by law in the collectors of militia fines throughout the State; and who shall receive, as a compensation for his services, a sum not exceeding twenty-five per cent. on all monies collected, together with the usual fees allowed to magistrates and constables, to be collected from the parties, if able to pay, in all cases where executions shall be issued. Collection of fines for those parishes.

IV. *And be it further enacted* by the authority aforesaid, That the fines so collected shall form a common fund for the militia of said parishes, to defray the expenses incident to their company and other parades, and general, to be appropriated to their use, and disbursed under the direction of the board of officers aforesaid, composed of the brigadier-general and field officers residing within the said parishes. Fines, how appropriated.

V. *And whereas*, some difficulty has arisen in relation to courts martial ordered to be held on the commissioned officers, non-commissioned officers and privates, who may compose the fire guard of the city of Charleston, for default of duty and other military offences; for remedy whereof, *Be it further enacted* by the authority aforesaid, That from and after the passing of this Act, the brigadier-general of the fourth brigade, or in his absence from the parishes of St. Philip and St. Michael, the senior officer of the militia of said parishes, shall have full power and authority to order courts martial on all officers, non-commissioned officers and privates, composing the aforesaid fire guard, who shall fail to attend in case of alarm from fire, and when ordered to mount guard, and for relief of the same, and for other military offences, at such times and in such manner as may be deemed fit and proper; and that the proceedings of such courts martial shall be approved or disapproved of by the officer so ordering the same. Courts-martial for fire-guard.

AN ACT TO TRANSFER CAPTAIN CLECKLEY'S COMPANY TO THE FOURTEENTH REGIMENT, SOUTH CAROLINA MILITIA; AND FOR OTHER PURPOSES. No. 2567.

I. *Be it enacted*, by the Senate and House of Representatives, That the company of militia in St. Matthew's parish, now under the command of captain Cleckley, and known by the name of the Buck-head company, be transferred from the fifteenth regiment, and attached to and form a part of the fourteenth regiment of the militia of this State.

II. *And be it further enacted*, That the field officers of the fifteenth regiment of the militia of this State, divide the battalions composing the same, by substituting Savannahunt, instead of Sandy Run, as the division line of said battalions, on or before the thirteenth day of January next.

III. *And be it further enacted*, That the dividing line between the first and second battalions, in the first and second battalions in the fourth regiment, be so altered as to include the dwelling house on the Verennes Tract, within the limits of the first battalion.

Acts relating to the Militia.

No. 2612. AN ACT TO PROVIDE FOR THE MILITARY ORGANIZATION OF THIS STATE.

Commissions vacated. I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, That from and after the passing of this Act, the commissions of the major-generals, brigadier-generals, and their respective staffs, the adjutant and inspector-general, and deputy adjutant-generals of the militia of this State, are hereby vacated; and the Legislature shall forthwith, by joint ballot of both houses, elect five major-generals, one for each division, and ten brigadier-generals, one for each brigade.

Officers, how to be elected. II. There shall be one adjutant and inspector-general, with the rank of brigadier-general, five assistant adjutants-general, with the rank of colonel, and to each division and brigade the additional staff officers now required by law. The adjutant and inspector-general to be elected by joint ballot of both branches of the Legislature, to continue in office for four years from the date of his commission. The division staff to be appointed by the major-generals, subject (except his aids-do-camp,) to the approval of the commander-in-chief; the brigade staff to be appointed by the brigadier-general, subject, except his aids-do-camp, to the approval of the major-general; and the adjutant and inspector-general shall receive an annual salary of fifteen hundred dollars.

Companies dissolved. III. Each and every volunteer company of light infantry, riflemen, or grenadiers, in existence at the passing of this Act, attached to any regiment or battalion of the militia of this State, except such as are incorporated by Act of the Legislature, shall be dissolved on the first day of March next, and the commissions of their respective officers vacated, and of none effect.

Beats, how laid off. IV. Each brigadier-general, immediately after his election, shall appoint five commissioners in each battalion of his brigade, in which there shall be either more or less than four beat companies, whose duty it shall be to divide said battalions into four beat companies, as nearly as may be, and report the same to the brigadier-general, designating the boundaries and lines of each beat, within two months from the adjournment of the Legislature. Three of said commissioners shall be a quorum to perform said duties; and if either of said commissioners shall wilfully neglect or refuse to perform the duty hereby assigned, he shall, upon conviction on indictment, be fined not less than one hundred dollars.

Boundaries to be recorded. V. Within fifteen days after the report of the commissioners is received, each brigadier-general shall issue an order, defining the boundaries of each beat company, which shall be posted up at two public places, at least, within said beat company, and which shall be recorded in the office of the register of mesne conveyance of the district in which said beat is situated; he shall also order an election and appoint managers to conduct and declare the same, for one captain, two lieutenants, and one ensign, to command said company; for one major to command said battalion, and one colonel to command the regiment; which election shall be held on the eleventh day of April next; elections shall also be held on the same day in each volunteer uniform company, having the full compliment of rank and file required by this Act, and regularly attached to said regiment, for company, battalion and regimental officers. And should any brigadier-general neglect or refuse, or from any cause fail, to have the several battalions of his brigade divided into beats, as herein provided, or to order the election of officers on the eleventh of April next, the commander-in-chief is hereby authorized

OF SOUTH CAROLINA.

569

Acts relating to the Militia.

A. D. 1833.

and required to cause the election of field officers to be advertized and held in every regiment of such brigade, the return to be made to the commander-in-chief; and every colonel so elected, when commissioned, shall forthwith cause each of the battalions in his regiment to be divided into four beat companies, and order elections to be held for company officers in each of such beats.

VI. On the tenth day of April next, the commission of each and every militia officer of this State, except those elected or appointed under this Act, and the aids of the Commander-in-chief, shall be, and the same are hereby declared, vacated and of none effect; *provided*, that every officer who may be elected or appointed under this Act to the same office which he may hold on the said tenth day of April next, shall take rank from the date of his commission so vacated. The Secretary of State shall be allowed one thousand dollars, in lieu of all fees and charges for services, in relation to military commissions for the ensuing year.

Fees for granting commissions.

VII. From and after the present session of the Legislature, each major-general shall be elected by the commissioned officers of the division in which the vacancy shall occur, from amongst the general, field and staff officers, residing within the said division, of or above the rank of major; and no such officer shall be eligible, unless he has held a commission of or above the rank of captain, for twelve months next preceding the election; and each brigadier-general shall be elected by the commissioned officers of the brigade in which such vacancy shall occur, and by the staff officers residing in the said brigade, from among the officers of the brigade and the staff officers residing in said brigade, of or above the rank of captain; and no officer shall be eligible, unless he has held a commission of or above the rank of captain, for twelve months next preceding the election; *provided*, the ineligibility above specified shall not extend to officers elected or appointed under the provisions of this Act, until the expiration of twelve months from the eleventh day of April next.

Major-generals and brigadier-generals, how elected.

VIII. From and after the eleventh day of April next, every vacancy in the offices of colonel and major in the line, shall be filled by election, as now prescribed by law; *provided*, that no person shall be eligible to either of said offices, unless he has held a commission in said regiment or battalion at least six months next preceding the election; *provided*, the ineligibility above specified shall not extend to officers elected or appointed under the provisions of this Act, until the expiration of twelve months from the eleventh day of April next; and all vacancies in the offices of the volunteer uniform and battalion beat companies, shall also be filled as now prescribed by law; *provided*, that no person attached to the cavalry, and no person who has not resided in the State at least six months next preceding such elections, shall be allowed to vote at the same.

Colonels and majors.

IX. Whenever any beat company shall neglect or refuse to elect an officer to fill any vacancy which shall occur in said company, for the space of two months, or where the person elected to fill such vacancy shall refuse to accept, within thirty days from the time of his election, it shall be the duty of the colonel or officer commanding the regiment to which said company belongs, to appoint and commission some fit and proper person, liable to do ordinary militia duty within such beat, to fill such office, who shall discharge the duties thereof for twelve months, unless said office be sooner filled by the election of some person who will accept the same, as provided by this Act; and upon the refusal of any person so appointed to office to

Companies refusing to elect, officers to be appointed.

VOL. VIII.—72

A. D. 1833:

Acts relating to the Militia.

discharge the duties of said office, he shall pay a fine of twenty dollars, to be imposed by the field officers sitting in court-martial, and collected as other fines hereinafter provided. And it shall be the duty of the colonel or officer commanding the regiment, to appoint and commission, as often as such vacancy shall occur, until the same shall be filled by some person accepting said office; and in every case of refusal to accept, the penalty above mentioned shall be enforced against the person so refusing, in the manner prescribed in the forgoing part of this clause; and each company officer elected and commissioned as provided by this Act, shall, under a penalty of twenty dollars, to be imposed as aforesaid, be compelled to serve at least twelve months, unless he shall be promoted or shall remove from the limits of his command, or in the opinion of the field officers of the regiment, become incompetent to discharge the duties of the same. *Provided*, that no person accepting a commission under the appointment of the colonel or other officer in command of the regiment, as hereinabove provided for, shall be compelled to uniform himself, or be compelled to discharge the duties of a commissioned officer in said company longer than one year in three.

X. In addition to the oaths now required by law, every officer of the militia hereafter elected, shall, before he enters upon the duties of his office, take and subscribe, before some person authorized by law to administer oaths, the following oath:

Oath. "I, A B, do solemnly swear, (or affirm, as the case may be,) that I will be faithful, and true allegiance bear to the State of South Carolina. So help me God."^{*}

Which oath shall be indorsed and certified upon his commission, as hereinafter prescribed.

XI. If any person elected or appointed to any military office in this State shall neglect the same, and shall neglect or refuse to take the oath of office prescribed by law, within thirty days after his election or appointment, he shall, in addition to the penalties provided by this Act, for refusing to discharge the duties of the office to which he has been elected or appointed, forfeit his commission; and the officer authorized to commission such person is hereby authorized and required to appoint some suitable person to fill said office, who, upon taking said oath, shall continue to discharge the duties thereof until the same shall be filled by election or appointment, as provided for by this Act. All officers authorized to commission an officer by the provisions of this Act, are hereby authorized to administer the oath of office; and no person elected or appointed to office under this Act, who shall accept the same, and wilfully neglect or refuse

In case of neglect new elections to be made.

^{*}This clause of the Act, the late court of appeals, composed of three judges, declared unconstitutional and void. *Johnson, J.*, holding that the State Constitution, article 4, having prescribed the form of the oath of office, the Legislature had no authority to change, add to or alter it; and *O'Neal, J.*, that the oath is contrary to the Constitution of the State, and inconsistent with the allegiance of the citizen to the Federal Government. *Harper, J.*, dissenting, held that it was neither repugnant to the Constitution of the State, nor inconsistent with any obligation of the citizen to the Federal Government. *The State ex rel. M'Grady vs. Hunt*, and *M'Daniel vs. M'Meekin*; 2 Hill R., 1, and note by the Reporter, at page 2. See 1st volume, 120, 135, 147, for former Acts requiring oath of allegiance. Mr. attorney-general Smith's argument; 2 Hill, 96, 110, 111, 112. See, also, the oath required of all district officers in the State, in the present volume, at page 384; and the oaths required of attorneys and solicitors, chancellors, of magistrates, sheriffs and constables, in relation to the laws against gaming; of the takers of the census, tax collectors, and electors of president and vice president of the U. S.; oath of commissioners to count the votes for members of Congress, &c., &c.

Acts relating to the Militia.

A. D. 1833.

to take the oath prescribed by law, shall thereafter be eligible to that office.

XII. The officer whose duty it shall be to commission any person elected or appointed to any office in the militia, shall, in each and every case, before issuing a commission to an officer, receive from such officer the above prescribed oath, sworn to as the law directs, certified by the officer before whom the oath was taken: which oath and certificate he shall indorse upon said commission, and certify to be true copies. Oath certified

XIII. Each regiment of infantry shall consist of two battalions, and each battalion of four beat companies; and to each regiment there may be attached two light companies and one company of artillery, and no more; and from and after the eleventh day of April next, the colonel or commanding officer of each regiment in which the number of light companies allowed by this Act, have not been raised, is hereby authorized and required to permit said companies to be raised. Formation of regiments, &c.

XIV. No light company shall be inspected and received into any regiment unless it consist of forty rank and file, four officers and four sergeants; nor shall any such company contain more than one hundred, rank and file; and should any such company at any time be reduced below the number above required for inspection, the colonel of the regiment to which it is attached, shall give notice to its commanding officer to fill up its ranks; and unless the said company shall, in six months after the said notice, be filled up to the number above required for inspection, the colonel shall disband it. Companies to consist of a certain number of men.

XV. Immediately after the brigadier-general has issued his order defining the boundaries of the beat companies, the light companies specified in the foregoing clauses may be raised, precedence, in all cases, being given to those companies already incorporated by Act of the Legislature. And all such volunteer light companies which are in complete uniform and attached to their proper regiments, on the tenth day of April next, shall hold elections for company, battalion and regimental officers, as provided by this Act. Companies may be raised.

XVI. The volunteer light companies to be raised under this Act, shall, when called into service by the authority of this State, go as a whole; and upon refusal of any such company so to turn out, it shall be disbanded, and the commissions of its officers vacated and of none effect; and the proper officer shall forthwith permit another company to be organized to supply its place. Volunteers to turn out as a whole.

XVII. Artillery companies, troops, squadrons and regiments of cavalry, which were organized according to law, previous to the Act passed in December last, entitled "An Act further to alter and amend the militia laws of this State," shall be allowed to re-organize themselves, and elect their officers on the eleventh day of April next; and where no such companies, troops, squadrons and regiments have been raised, as now provided by law, the brigadier-generals are hereby authorized to permit the raising of such corps within their respective commands. Companies may be re-organized.

XVIII. No beat company shall be reduced below forty rank and file, by the raising of any light or other volunteer company.

XIX. Each captain or officer commanding a company or troop, shall assemble his command six times in every year, for drill, exercise and instruction, to continue not more than one day at each time of assembling.

XX. Each colonel or officer commanding a regiment, is hereby authorized and required to order out his regiment once in every year, to assemble at

A. D. 1833.

Acts relating to the Militia.

- Parades.** some convenient place for drill, exercise and instruction, to continue assembled not more than one day; and the said colonel or officer commanding a regiment, shall likewise, on the day preceding such drill, assemble all the officers and non-commissioned officers of his regiment, and drill, exercise and instruct them in the manœuvres which are to be performed the next day.
- How conducted.** XXI. It shall be the duty of each colonel to attend the muster of each company in his regiment, at least once in every year, and of the lieutenant-colonel and major to attend the muster of each company in their respective battalions, at least twice in each year, to give them assistance and superintendance in the drill, exercise and instruction of said companies. And each captain or officer commanding a company, shall arrange his musters at such times as will best enable the colonel, lieutenant-colonel and major to perform the above duties; and shall, whenever required, furnish said officers with a report, specifying the times and places at which his company will be mustered for the year next ensuing.
- Reviews.** XXII. It shall be the duty of each brigadier-general to order, and with his staff attend, a muster and review of each regiment in his brigade, at least once in every year; and of each major-general to order, and with his staff attend, a muster and review of each regiment in his division, at least once in every two years.
- Power vested in Commander-in-chief.** XXIII. The Commander-in-chief shall have power and authority to order reviews of such portions of the militia, and at such times and places, as he may deem expedient and proper; and be also invested with all the powers and authority now provided by law in cases of invasion or threat of invasion.
- System of tactics to be compiled.** XXIV. The army regulations of the United States, as far as consistent with the laws and constitution of the State, are hereby adopted and established as a system of police for the militia of this State.
- Commissioned officers to assemble.** XXV. The Commander-in-chief is hereby authorized to cause a system of cavalry and artillery tactics to be compiled, published and distributed for the use of the cavalry and artillery of this State.
- Notice given for parade.** XXVI. It shall be the duty of the brigadier-general or officer commanding the brigade, under the direction of the Commander-in-chief, once in two years, to assemble the commissioned officers of his brigade, at some convenient place within said brigade, to be encamped for five days, and instructed and exercised in the various schools of the soldier, company and battalion, the manœuvres of the line, and the routine of the duties and discipline of the camp; each officer to be in full uniform, and fully equipped, besides his side arms, with a musket, bayonet, cartouch-box, twenty-four rounds of blank cartridge, and a knapsack; and each brigade shall be furnished by the State with the requisite number of good tents.
- Duty of adjutant and inspector-generals.** XXVII. Whenever a brigadier-general, or officer commanding a brigade, shall have issued orders for a brigade encampment, he shall notify the major-general, or officer commanding the division, of the time and place at which the officers of his brigade will be encamped; and it shall be the duty of the said major-general, or officer commanding the division, with his staff, to attend such encampment.
- XXVIII. In addition to the duties now required by law of the adjutant and inspector-general, it shall be his duty to attend all encampments of officers, and to drill, train, exercise and instruct them in the various branches of military manœuvre and tactics.

OF SOUTH CAROLINA.

573

Acts relating to the Militia.

A. D. 1833.

XXIX. Each colonel of a regiment shall have power to order courts-martial for the trial of all officers under his command, except field officers, to consist of not less than five, nor more than thirteen officers, one of whom shall be a field officer; and it shall also be his duty to detail courts-martial, to consist of at least three commissioned officers, who shall meet at least once in every four months, in full uniform, at or near the regimental muster-ground, or at such other place within the limits of the regiment as the colonel may deem proper, to try all defaulters at company, battalion or regimental musters, and all non-commissioned officers, privates or fatiguesmen, for the non-performance or violation of any duty required by law, as well as for disobedience of orders, and for non-performance of patrol duty. The officers commanding companies in said regiment shall report all the defaulters to this court, at each of its meetings, and shall cause them to be summoned to attend its sittings, and furnish the court with proof of the summons. Defaulters may send their excuse, if fairly written out and sworn to before some person competent to administer an oath, unless specially summoned to attend in person by the court; and from this court there shall be no appeal; but no sentence of any court-martial shall be put in force until approved of by the officer ordering said court.

Courts-martial,
how ordered
and conducted.

Defaulters
may send their
excuses in writing.

XXX. All penalties imposed by this Act may be recovered within twelve months after the party has made default; but no defaulter shall be liable to any penalty after the expiration of the time aforesaid.

Fines, how to
be collected.

XXXI. The president of every court-martial imposing a fine shall issue an execution, *fi. fa.* or *ca. sa.*, for the same, directed to all and singular the sheriffs of this State, who shall execute and return the same to the court from which it issues, within four months, and pay the amount collected to the proper paymaster, under the same penalties as are now imposed by law for not returning process issued by any court of this State. The sheriff's fees for executing such process shall be fifty cents from the defendant, and ten per cent. on the fines collected.

Fi. Fa. may be
issued.

XXXII. Each sheriff failing to collect and pay over fines, or to make return of the execution, as above required, shall be subject to rule and attachment from the court of common pleas of the district wherein he resides, upon motion of any attorney, president of a court-martial, the officer ordering the same, or any paymaster or other officer, whose duty it is to see that such process be duly executed.

Duties of the
sheriff and pay-
masters.

XXXIII. The paymaster of the regiment shall receive all fines imposed by regimental courts-martial, which shall be disbursed by order of the field officers of the regiment, as now required by law.

XXXIV. Each major-general and brigadier-general is hereby authorized to appoint a paymaster for his division or brigade, respectively, who shall continue in office during the pleasure of the officer making his appointment, and who shall receive all fines imposed by division or brigade courts martial, which shall be disbursed by order of the major-general or brigadier-general, for the use of the division or brigade in which they may have been imposed.

Paymasters,
how appointed.

XXXV. It shall be the duty of each officer authorized to appoint a paymaster, to take from him a bond, with good security, in the penal sum of one thousand dollars, conditioned for the faithful performance of the duties of his office; which said bond shall be made payable to the State of South Carolina, and shall be lodged with the clerk of the court of the district in which the paymaster resides; and every paymaster shall be allowed to retain for his services, ten per cent. of the monies collected by him. And each

Paymaster to
give bond.

A. D. 1833.

Acts relating to the Militia.

paymaster shall be compelled to account, once at least in twelve months, and oftener, if required, to the commanding officer of the regiment, brigade or division, respectively, of which he is paymaster; which account shall be subject to the inspection of the brigadier-general, major-general, and commander-in-chief, respectively.

Penalties for neglect of duty.

XXXVI. A major-general and each officer of his staff, a brigadier-general and each officer of his staff, each field officer, and each officer of the regimental staff, shall, for any neglect of duty, on or off parade, in addition to the other penalties provided by law, be liable to pay a fine of not less than twenty, nor more than one hundred dollars; to be imposed by courts martial authorized to try officers of their grades, respectively.

Neglect or disobedience on parade.

XXXVII. Every commissioned company officer for each neglect of duty or disobedience of orders, either on or off parade, shall be fined not less than five dollars, nor more than fifty dollars; to be imposed by courts martial authorized to try officers of their grade, besides being liable to the other penalties now imposed by law.

XXXVIII. Each non-commissioned officer or private for non-attendance at a company muster, shall be fined two dollars, and fifty per cent on his last general tax; *provided*, that such fines shall in no case exceed twenty dollars.

Disorderly conduct, how punished.

XXXIX. While on parade, the officer commanding shall have full power and authority to put under arrest any non-commissioned officer or private, who may disobey orders, or be guilty of disorderly conduct, or any other person who shall disturb the parade; and to inflict, forthwith, a fine of not less than two nor more than ten dollars on the offender; for the collection of which, he shall issue an execution forthwith, directed to the sheriff of the State, as is hereinbefore provided for other fines; and shall also have power to cause the offender to be confined, not exceeding ten hours, under a guard.

XL. Each non-commissioned officer for disobedience of orders, or any neglect of duty off parade, shall be fined by a court martial, not less than three, nor more than twenty-five dollars.

Returns.

XLI. Any officer whose duty it is to make any returns required by law, or any paymaster whose duty it is to account, shall do so whenever ordered by the proper officer, under a fine, for neglecting so to do, of not less than ten, nor more than one hundred dollars; to be imposed by a court martial.

Equipments.

XLII. Instead of the fines now imposed by law, on a non-commissioned officer or private, who appears on parade without the proper equipments, he shall be fined one dollar, unless he appears at muster with a gun in good order for service, the officer commanding to issue execution therefor forthwith; *provided*, that no person shall be compelled to pay said fine, who shall make oath, before some magistrate, or the commanding officer of his company, who is hereby authorized to administer such oath, of his inability to purchase or procure such weapon.

Persons to report themselves.

XLIII. Every person removing from one beat to another, shall report himself within thirty days after his removal, to the officer commanding the beat from which he has removed, and to the officer commanding the beat to which he has removed, or be fined five dollars, besides being liable for default of duty in the beat from which he has removed.

Fines for non-attendance.

XLIV. For a non-attendance of brigade encampments, the following fines shall be imposed:—a major-general, one hundred dollars; a brigadier-general, eighty dollars; a colonel, sixty dollars; a lieutenant-colonel or major, fifty dollars; a captain or subaltern, twenty-five dollars; to be

OF SOUTH CAROLINA.

575

Acts relating to the Militia.

imposed by courts martial authorized to try officers of their grades, respectively.

XLV. The following persons, and none others, shall be exempt from the performance of ordinary militia duty, and those not in time of alarm or military invasion, to wit:—the lieutenant governor; judges; members of both branches of the Legislature, and their respective officers, fifteen days before the commencement, during, and fifteen days after the close of each session; regularly officiating clergymen; schoolmasters, having under their tuition not less than fifteen scholars; students at school, academies and colleges; clerks of courts; sheriffs and jailors; regularly admitted practicing physicians and surgeons; all branch pilots; one white man to each established ferry, toll-bridge and toll grain mill; one white man to each forge, and three white men to each furnace erected at any iron works in this State, who shall constantly reside and work at the same; the overseers, toll-keepers, and lock-keepers of the Santee Canal; the president, cashiers, and clerks, employed in keeping the books of the several banks of this State, the branches of the bank of the State, and the office of discount and deposit of the bank of the United States; the officers and men of the city guard of Charleston; the officers of the South Carolina Canal and Rail Road Company, as specified in the Act entitled "An Act concerning the South Carolina Canal and Rail Road Company," passed on the twentieth day of December, in the year of our Lord one thousand eight hundred and thirty-two; the superintendant and keepers of the Lunatic Asylum; and the several fire engine companies; the superintendant of public works, toll-collectors on the State road, and lock-keepers on the State canals; the keepers of the Arsenals at Charleston and Columbia, and the citadel and magazine guard in Charleston; all persons holding office under the United States, who are now exempt by law; and all persons under the age of eighteen, and over the age of forty-five years.

Certain persons exempt from military duty.

XLVI. From and after the eleventh day of April next, the uniform of all officers shall be the same as that prescribed in the army regulations adopted in 1815, except, that the uniform of all officers of the line, of and under the rank of captain, shall be a plain black hat with a white plume, common dress coat, of blue broad cloth, and pantaloons of white or blue cloth, with a sword and epaulette; *provided*, that the buttons worn upon the uniform of all general, staff and field officers, shall be convex; and those worn by officers of the line, shall be flat; having, in all cases, the palmetto emblem; *provided*, nothing herein contained shall apply to volunteer uniform companies.

Uniform.

XLVII. The Governor is heroby authorized to have the militia and patrol laws, and the decisions of the court thereon, properly digested and indexed, at the expence of the State, and a number of copies published, sufficient to furnish one to each officer; and every officer shall be required, on the vacation of his commission, to deliver over to his successor the said digest, or pay to such successor four dollars, to be by him recovered before any magistrate, and applied by said successor to the purchase of another copy of said digest.

Militia laws to be published.

XLVIII. The Act of the General Assembly, entitled "An Act further to alter and amend the militia laws of this State," passed on the twentieth day of December last, so far as relates to the organization of volunteers, and so far as it may be repugnant to this Act, shall be repealed from and after the first day of March next.

An Act repealed.

XLIX. A separate mode of organization shall be adopted for the militia

Acts relating to the Militia.

A. D. 1833.

Separate
mode of organi-
zation for St.
Philip and St.
Michael.

of the parishes of Saint Philip and Saint Michael, and the militia of said parishes shall be arranged as horetofore, into one regiment of artillery, one squadron of cavalry, and two regiments of infantry.

L. The organization of the artillery and cavalry of said parishes shall be continued in precisely the same form as it now exists; and the present organization of the sixteenth and seventeenth regiments of infantry, in the said parishes of Saint Philip and Saint Michael, be abolished.

LI. On the tenth day of April next, the commission of each and every officer of the said parishes, except those elected or appointed under the provisions of this Act, shall be, and the same is hereby, vacated and of non-effect; and the brigadier-general of the fourth brigade, immediately after his election, shall appoint five commissioners to re-organize said regiments, in the manner following, to wit:—the artillery and cavalry of the said parishes, in the same form precisely as it now exists, in manner following, viz:—public notice shall be given for the re-organization of the several companies and troops composing the regiment of artillery and the squadron of cavalry of said parishes. Within twenty days from the date of said notice, report shall be made to said commissioners by the captains elect of all such companies or troops as may be re-organized, of the effective force of their respective corps; and said commissioners are authorized and required to receive as a full company of artillery or troop of cavalry, [any company of artillery or troop of cavalry] so re-organized and reported, which shall consist of not less than thirty effective rank and file, with a proper compliment of commissioned and non-commissioned officers; and the officers of the said corps shall be commissioned on the eleventh day of April next. After said re-organization of companies and troops, it shall be the duty of the said commissioners to organize said companies and troops into one regiment of artillery, and one squadron of cavalry, in the form as at present existing, and report such organization to the brigadier-general of the brigade, who shall be authorized and required to issue the necessary orders for the election, on the eleventh day of April next, of all officers within said parishes whose commissions shall be vacated under the provisions of this Act. And the said commissioners shall also reorganize the sixteenth and seventeenth regiments of infantry. Public notice shall be given for the re-organization of volunteer corps of infantry in the said parishes. Within twenty days from the date of said notice, report shall be made to the said commissioners, by the captains elect of all such volunteer corps as may be re-organized in the said parishes, of the effective force of their respective corps; and the said commissioners are authorized and required to receive, as a full corps of infantry, any volunteer corps so re-organized and reported, which shall consist of not less than forty effective rank and file, with a proper compliment of commissioned and non-commissioned officers; and the officers of the said corps shall be commissioned on the eleventh day of April next. As soon as the number of the said volunteer corps shall be ascertained, the said commissioners shall cause a census to be taken of all the male inhabitants of said parishes, not attached to the volunteer corps aforesaid, the cavalry or artillery, specifying the individual registered, and whether he be exempt or not from militia duty. After said census shall be taken, the said commissioners shall proceed to lay off the said parishes into as many beats as shall be required to make up, with the volunteer corps aforesaid, ten companies to each of the said sixteenth and seventeenth regiments. The said beats

OF SOUTH CAROLINA.

577

Acts relating to the Militia.

A. D. 1833.

shall be divided by certain territorial boundaries, and as far as may be practicable, the individuals registered in the census aforesaid, be equally distributed and classified among the several beats so laid off. After the said division and classification into beats shall have been effected, the said commissioners shall proceed to organize the whole number of volunteer and beat companies into two regiments, to be entitled, as heretofore, the sixteenth and seventeenth regiments of infantry, and report such organization to the brigadier-general of the said brigade, who shall be authorized and required to issue the necessary orders for the election, on the eleventh day of April next, of all officers within the said parishes, whose commissions shall be vacated under the provisions of this Act.

LII. No volunteer corps in the said parishes of Saint Philip and Saint Michael shall consist of more than sixty-four rank and file, with the usual compliment of commissioned and non-commissioned officers.

LIII. Each corps of artillery throughout the State shall be supplied, as heretofore, from the State magazine, with the requisite quantity of powder and ball for the usual parades ordered by law; and the necessary expenses incurred by said corps in providing cartridges, tubes, match-ropes, and other incidental charges, to be paid by the State; *provided*, the amount of said charges shall, in no event, exceed the sum of fifty dollars a year to each corps; and that each regiment of cavalry may be furnished with twenty pounds of powder for each regimental review; and each squadron, with ten pounds for each squadron muster or review; the said powder to be subject to the order of the colonel, lieutenant-colonel, or major commanding said regiment or squadron.

LIV. Militia fines in the parishes of Saint Philip and Saint Michael, shall be collected and disbursed as provided for by this Act. The Governor is hereby authorized and required to cause military commissions to be prepared and issued in proper form. It shall be the duty of the Governor to commission the major-generals and the general staff. The major-general, or officer in command of a division, shall commission the division staff, and the brigadier-generals. The brigadier-general, or officer in command of a brigade, shall commission his own staff, and all the field officers of his brigade. Each colonel, or officer in command of a regiment or squadron, shall commission the company and staff of the regiment or squadron under his command.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and thirty-three, and in the fifty-eighth year of the Sovereignty and Independence of the United States of America.

H. DEAS, *President of the Senate.*

PATRICK NOBLE, *Speaker of the House of Representatives.*

VOL. VIII.—73.

STATUTES AT LARGE

A. D. 1834.

Acts relating to the Militia.

No. 2624. AN ACT TO AMEND AN ACT ENTITLED "AN ACT TO PROVIDE FOR THE MILITARY ORGANIZATION OF THIS STATE," PASSED ON THE NINETEENTH DAY OF DECEMBER, EIGHTEEN HUNDRED AND THIRTY-THREE; AND FOR OTHER PURPOSES.

Appeals from courts martial. I. *Be it enacted*, by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and after the passing of this Act, the right of appeal from the decision of courts martial, shall be the same as established by law, previous to the passing of the Act entitled "An Act to provide for the military organization of this State," ratified on the nineteenth day of December, one thousand eight hundred and thirty-three.

How to proceed against defaulters. II. That the commissioned officers of each company, upon the application of any defaulter for militia or patrol duty, to render in his excuse in writing, are hereby authorized and required to administer to such defaulter the necessary oath, and the person making the affidavit shall sign the same; and the officer administering the oath shall certify it, designating his rank in the company; and for this service he shall receive no compensation. And it shall be the duty of the captain or officer commanding the company, when he sends up the names of defaulters to courts martial, to send up also, such affidavits of excuse as have been rendered according to the provisions of this section.

Oath to be taken. III. That every officer of the militia hereafter to be elected or appointed, shall, before he enters upon the duties of his office, take and subscribe, before some person authorized by law to administer oaths, the following oath prescribed by the constitution, to wit:

"I do solemnly swear, (or affirm,) that I will be faithful, and true allegiance bear, to the State of South Carolina, so long as I continue a citizen thereof; and that I am duly qualified, according to the constitution of this State, to exercise the office to which I have been appointed; and that I will, to the best of my abilities, discharge the duties thereof; and preserve, protect and defend, the constitution of this State and of the United States. So help me God."

Which oath shall be endorsed and certified upon his commission, as is provided by the twelfth section of the Act aforesaid, in relation to the oath thereby prescribed. And if any person elected or appointed to any office in the militia of this State, shall accept the same, and shall neglect or refuse to take the oath aforesaid, within sixty days after his election or appointment, he shall, for such neglect or refusal, be subject to all the penalties provided by the Act aforesaid, entitled "An Act to provide for the military organization of this State," for refusal or neglect to take the oath therein required.

Elections made under Act of 1832, declared valid. IV. That the elections or appointments of all officers made under the provisions of the Act aforesaid, are hereby declared to be valid, except where from the refusal or neglect of an officer to comply with the requisitions of the law, a new election or appointment has been made to the same office; *provided*, that every officer so elected or appointed, who has not taken the oath of office and been commissioned, shall, within three months after the passing of this Act, take the oath prescribed by the third section of this Act.

V. That every officer of the militia, except such as are exempt by law, shall, within three months after his election or appointment, uniform

OF SOUTH CAROLINA.

579

Acts relating to the Militia.

A. D. 1834.

himself according to law; and in case any officer shall appear on parade, or at any court martial, of which he may be a member, without such uniform, after the time above specified, he shall be fined in a sum of not less than five nor more than fifty dollars; to be imposed by courts martial authorized to try officers of his grade.

Time allowed officers to equip themselves.

VI. That in addition to the volunteer companies now allowed by law in the several regiments, there may be raised in each regiment, two companies of rifleman or light infantry, as is provided by the Act aforesaid, entitled "An Act to provide for the military organization of this State," provided, that not more than two volunteer companies of rifleman or light infantry shall be raised in each battalion.

Number of volunteer companies that may be raised.

VII. That the Governor is hereby authorized to require all the arms belonging to the State, not in the possession of some regularly organized company of militia, to be collected; and such as are fit for use may be re-issued to any volunteer company applying for the same; and those unfit for use shall be returned to the arsenal, either in Columbia or Charleston, and repaired or disposed of according to law.

Governor to collect arms belonging to the State.

VIII. That the citizens of James Island, Wadmalaw, and John's Island, conjointly; of Edisto Island, and of Port Royal and Lady's Island, conjointly; of St. Helena Island, of Hilton Head, and Dawfuskys Island, conjointly, are hereby authorized to form beat companies within their respective limits, without regard to numerical force; and shall be attached to their respective regiments, and shall conform to the law in other particulars.

Citizens of James Island and others, to form beat companies.

IX. That the major-general of the fifth division shall, within two months from the adjournment of the Legislature, cause the ninth brigade of said division to be divided into six regiments, as nearly equal in numbers as may be, in the following manner, to wit:—the district of York shall be divided into two regiments, and the districts of Spartanburgh and Union, into four regiments; and when the said brigade shall be so divided, the regiments embracing a portion of the lower end of Spartanburgh and the upper end of Union districts, situate on the Enoree river, shall be attached to and form a part of the tenth brigade.

Division to be made in ninth brigade.

X. That four of the regiments composing the said brigade, shall retain the rank now held by the four regiments in said brigade, to be determined by lot; the rank of the fifth regiment of said brigade, and the regiment attached to the tenth brigade, shall also be determined by lot; and they shall be denominated accordingly.

Regiments to retain their rank.

XI. That to effect the above organization, the major-general shall have power to appoint five or more commissioners in each district, a majority of whom shall be a quorum to perform their duties, who shall proceed to divide said brigade according to the provisions of this Act, and report the same to the major-general within the time above specified, designating the boundaries and lines of each regiment; and if either of the said commissioners shall wilfully neglect or refuse to perform the duty hereby assigned, he shall, upon indictment and conviction thereof, be fined not less than one hundred dollars. Within fifteen days after the report of the commissioners is received, the major-general shall issue an order, defining the boundaries and rank of each regiment, and shall furnish the brigadier-general of each brigade with a copy of such order; and also, the adjutant and inspector-general of the State with a copy of the same, to be recorded in his office.

Maj. Gen. may appoint commissioners.

XII. Each brigadier-general, upon receiving the order of the major-general, defining the boundaries of the regiments attached to his brigade,

A. D. 1834.

Acts relating to the Militia.

Brigadier Gen. shall forthwith cause each regiment to be divided into two battalions, and each battalion into four beat companies, as nearly equal as may be, in respect to numbers and territory; to effect which, he shall appoint commissioners, five or more in number, receive their report, issue his order defining the boundaries and lines of the battalions and companies, and cause the same to be recorded, as is provided by the fourth and fifth sections of the Act aforesaid, entitled "An Act to provide for the military organization of this State;" and each commissioner appointed by the brigadier-general, shall, for wilful neglect or refusal to perform the duty assigned him, be subject to the penalty provided for like offence by the Act aforesaid; and the said commissioners shall complete the duties herein assigned them, within two months from the date of the order of the brigadier-general.

Twentieth regiment to be divided. XIII. That the regiment of militia in the district of Sumter, known as the twentieth regiment South Carolina Militia, be, and the same is hereby required to be, so divided as to form two regiments, as equal in strength as practicable.

How the above regiments shall be divided. XIV. The brigadier-general commanding the brigade in which the said twentieth regiment is included, shall forthwith cause the said regiment to be divided into two regiments; each of the two regiments into two battalions; and each of the said battalions into four beat companies, as nearly equal as may be, in respect to numbers and territory; to effect which, he shall appoint commissioners, five or more in number, receive their report, issue his order defining the boundaries and lines of the said regiments, battalions and companies, and cause the same to be recorded, as is provided by the fourth and fifth sections of the Act aforesaid, entitled "An Act to provide for the military organization of this State;" and each commissioner appointed by the brigadier-general, shall, for wilful neglect or refusal to perform the duties assigned him, be subject to the penalty provided for the like offence by the Act aforesaid; and the said commissioners shall complete the duties herein assigned them, within two months from the date of the order of the brigadier-general.

Officers to take rank, &c. XV. Each officer in commission when the organization of the brigade is completed, as is provided by this Act, in any regiment, battalion or company, shall retain his rank and command, except when two or more officers of the same rank shall reside within the limits of the same command; in which case, an election shall be ordered by the proper authority, for such officer or officers; and if either of the persons so in commission shall be elected to the same office held by him before, he shall retain his commission, and take rank from the date thereof.

Elections to be held to fill vacancies. XVI. If by this organization the offices of colonel, lieutenant-colonel, major, captain, or other subaltern officers, in any regiment, battalion or company, shall be vacant, elections shall be forthwith ordered, as is now provided by law, to fill such vacancy or vacancies.

XVII. The same number and description of volunteer companies permitted by law to be raised in the regiments or battalions of infantry, may be organized and attached to each of the said regiments or battalions.

Fines, &c. XVIII. That the proviso contained in the thirty-ninth section of the Act aforesaid, entitled "An Act to provide for the military organization of this State," limiting the fines to be imposed on non-commissioned officers or privates for non-attendance at a company muster, to twenty dollars, be, and the same is hereby, repealed; and in lieu of the fine heretofore imposed for non-attendance at company musters, the fine shall be two dollars, and twenty per cent. on the last general tax of the defaulter.

OF SOUTH CAROLINA.

581

Acts relating to the Militia.

A. D. 1834.

XIX. That the recruiting limits of volunteer companies shall not hereafter be confined to the boundaries of the regiments to which they are attached, respectively, but may extend to the boundaries of the brigades to which they belong, and not beyond them.

Recruiting
limits of volun-
teer companies
enlarged.

XX. The buttons worn on the uniform of the general, staff and field officers, shall be convex: and those worn by officers of the line, shall be flat, having, in all cases, the palmetto crest, the emblem of the State; but nothing herein contained shall apply to the officers of uniform companies.

What kind of
buttons shall
be worn.

XXI. That courts martial shall be hereafter held upon all defaulters at the several parades now authorized by law, to mount and relieve guard, and in cases of alarm of fire in the parishes of Saint Philip and Saint Michael, according to the provisions of the Act entitled "An Act to provide for the military organization of this State," passed on the nineteenth day of December, eighteen hundred and thirty three, with the right of appeal as provided for in the first section of this Act.

Courts martial
to be held.

XXII. That all Acts and parts of Acts contrary to the provisions of this Act, be, and the same are hereby, repealed.

In the Senate House, the seventeenth day of December, in the year of our Lord one thousand eight hundred and thirty-four, and in the fifty-ninth year of the Sovereignty and Independence of the United States of America.

H. DEAS, *President of the Senate.*

PATRICK NOBLE, *Speaker of the House of Representatives.*

AN ACT FURTHER TO PROVIDE FOR THE MILITARY ORGANIZATION OF THIS STATE No. 2650.

I. *Be it enacted*, by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That for the purpose of effecting the immediate organization of the regiment situated on Broad River, in York District, in the ninth brigade South Carolina Militia, William C. Beatty, who has been duly elected and commissioned colonel of said regiment, be confirmed in his said commission, and that he shall take rank from the date thereof; and that the ineligibility to hold office, specified in the eighth section of an Act entitled "An Act to provide for the military organization of this State," passed on the nineteenth day of December, one thousand eight hundred and thirty-three, shall be, and the same is hereby declared to be, inoperative in the said regiment for the space of twelve months from and after the passing of this Act, and no longer. And if it shall appear to the satisfaction of any of the brigadier-generals of this State, that there are no commissioned officers in any one of the regiments under his command, who are, by law, eligible to the offices of colonel, lieutenant-colonel, and major, in said regiments, by reason of the provisions of the said eighth section of the Act aforesaid, it shall be lawful for the said brigadier-general to commission to such offices aforesaid, any person who shall be duly elected to the same, notwithstanding the disqualification of such person by reason of the operation of

Suspension of
a former Act
to make per-
sons eligible.

STATUTES AT LARGE

A. D. 1835.

Acts relating to the Militia.

the said eighth section of the Act aforesaid; *provided, however*, that such person be not otherwise disqualified from holding office; and *provided*, that this provision continue of force only for the time above specified.

Power to order courts martial.

II. That the major-generals and brigadier-generals, respectively, shall have power to order courts martial for the trial of all commissioned and non-commissioned officers, musicians and privates, who may, at any time, disobey any orders issued by them, whether such orders be issued where the militia of this State be in actual service, or for ordinary musters, encampments or reviews; *provided*, this authority shall not be construed to invalidate the concurrent power of colonels to order regimental court martials, as now provided by law.

Sentence of courts martial to be made public, &c.

III. That hereafter, it shall not be necessary for the members of a court martial, convened for the trial of defaulters, for neglect of militia or patrol duty, to keep secret the sentence of the court; but upon the final adjournment of the court martial, the same shall be made public, for which purpose, the president of the court martial shall post up, at the place where the court was held, a notice, containing the names of all persons fined by said court; and it shall, moreover, be the duty of the president of the court martial aforesaid, forthwith to transmit the proceedings of the court to the officer ordering the same, who shall retain in his possession the said proceedings for the space of thirty days from the adjournment of the court martial, during which time, any person who may conceive himself aggrieved by the decision of the court, shall have the right of appeal to the officer ordering said court; *provided*, he shall accompany such appeal by an affidavit, that he could not attend the court by which he was tried, nor render his excuse in writing to the same, and that he does not appeal for the purpose of delay merely; and it shall be the duty of the officer ordering the said court, at the expiration of the said thirty days, to issue an execution against all persons fined by the court, except such whose cases may be submitted for re-consideration, (as is hereinafter provided,) directed to the sheriff of the district in which they reside, in manner and form following, that is to say:—

Form of Execution.

Form of execution.

“THE STATE OF SOUTH CAROLINA:
To all and singular the Sheriffs of said State:—Whereas, the persons named in the schedule or list hereunto annexed, have been duly sentenced by a court-martial, convened at —, on the — day of — 18—, to pay the sums to their names affixed, respectively: You, and each of you, are, therefore, hereby authorized and required to levy and sell of the goods and chattels of each person therein named, sufficient to pay the fine and costs which have been adjudged against him, and pay over the fines aforesaid to the proper officer; and you are further authorized and required, in case any person named in the schedule or list aforesaid shall refuse to pay the fine and costs adjudged against him, or to shew property sufficient to pay the same, to take the body of the delinquent, and lodge him in the jail of your district, there to remain until discharged by due course of law. Given under my hand and seal, this — day of —, 18—. A B, (L. s.)
Colonel of — regiment, Brigadier-General of — brigade, etc.,
(as the case may be.)”

Form of Schedule.

Form of schedule.

“A B, two dollars, and 20 per cent. on his general tax for 18—.
C D, three dollars, and fifty (50) per cent. on his general tax for 18—.
E F, one hundred dollars.,

OF SOUTH CAROLINA.

583

Acts relating to the Militia.

A. D. 1835.

I certify the above schedule to be a true copy of the fines imposed on the persons therein named, respectively, by a court-martial convened under my orders, at ———, the ——— day of ———, 18—. (Signed.) A B, (with the rank attached.)")

Which said execution shall be lodged in the office of the sheriff aforesaid, within ten days after the expiration of the thirty days aforesaid, or as soon thereafter as practicable; and the sheriff, for every fine paid to him previous to levy, shall be entitled to receive from the delinquent the sum of fifty cents; and for every fine collected by the sheriff, after levy of the said execution, he shall be entitled to receive from the delinquent the sum of one dollar, and the usual fees for advertizing.

IV. That in no case wherein courts-martial have proceeded according to law, and fined defaulters for neglect of militia or patrol duty, shall the officer ordering the same have power to remit such fines; but if he conceives that the court has mistaken the law, or erred in judgment, in any case, whether by imposing a fine or excusing a defaulter, he may re-assemble the court to re-consider such case, and may assign his reasons to the court, which shall forthwith proceed to re-consider, and their decision shall be final and conclusive; and the officer ordering said court shall forthwith carry such decision into effect.

Remittance of
fines, and col-
lection.

V. That in case any delinquent shall neglect or refuse to pay the fine imposed upon him, as aforesaid, and the cost accruing, or shall fail to point out to the sheriff aforesaid sufficient property to pay the same, it shall be the duty of the sheriff; by virtue of the execution aforesaid, to arrest the body of such delinquent, and commit him to close confinement in the common jail of his district, there to remain until such fine and cost be paid; *provided*, the person so committed shall, at the end of a certain time, to be computed at the rate of one day for every dollar he may be adjudged to pay, as aforesaid, be released, upon swearing, before some justice of the peace or quorum, that he is unable to pay the sum for which he stands committed; and *provided, also*, that in no case shall any person so committed be confined in prison for a longer period than ten days, if at the end of such time he shall take the oath aforesaid.

Delinquents
punished by
imprisonment.

VI. That each member of a court martial, convened for the trial of defaulters, for neglect of militia or patrol duty, shall hereafter, in lieu of the oath now proscribed, take the following oath, to wit:

"I do swear that I will well and truly try and determine the cases which shall be brought before me, according to the law and the evidence which shall be adduced, and that I will not divulge the vote or opinion of any particular member of the court martial, unless required to give evidence thereof in a court of justice, in due course of law. So help me God."

Oath.

VII. That hereafter courts martial for the trial of general and field officers, shall consist of not less than five nor more than thirteen officers; that upon a court martial to try a major-general, a major-general and not less than two brigadier-generals, shall sit, and the other members of the court shall be field officers of and above the rank of major; that a brigadier-general shall be tried by one or more brigadier-generals, and the other members of the court shall be field officers, not under the rank of major; that a colonel shall be tried by one or more colonels, and the other members of the court shall be officers not under the rank of captain; that a lieutenant-colonel and major, respectively, shall be tried by one or more lieutenant-colonels or majors, as the case may be, and the other members of the court shall be officers not under the rank of captain.

How many the
court shall
consist of.

VIII. That in all cases of contested elections for brigadier-generals, the

A. D. 1835.

Acts relating to the Militia.

Contested elections. same shall be tried by a board of officers to consist of a major-general and four other officers, not under the rank of field officers, whose decision shall be final and conclusive; and in all cases of contested election for major-generals, the same shall be tried by a board to consist of one major-general, one brigadier general, and three colonels, whose decision shall be final and conclusive; the former board to be convened by the major-general, the latter by the commander-in-chief.

Officers subject to serve on courts. IX. That commissioned officers who have been, or may hereafter be, appointed, according to the provisions of the existing law, and who are not required to uniform themselves, shall, notwithstanding, be subject to serve upon courts martial, and shall not be required to appear in uniform.

How vacancies shall be filled. X. That when courts martial shall be convened for the trial of any officer within its jurisdiction, if any of the officers required by the order convening the court, to sit on the same as members, shall not appear, their places shall be filled from among the supernumerary officers ordered to attend the said court.

Respecting cashiered officers. XI. That whenever an officer has been cashiered and disqualified from holding office, by the sentence of a court-martial, which sentence has been approved and carried into effect, and such officer shall be voted for and receive the highest vote at an election for militia officers, before the expiration of his term of disqualification, the officer authorized to commission to said office shall disregard such vote, and commission the person having the highest vote at such election, who, agreeable to law, may be eligible to said office.

Time regiments, battalions and companies shall be kept on duty. XII. That whenever the commandants of regiments or battalions shall assemble their commands for drill or review, they shall be kept on duty at least three hours, and the commandants of companies shall, in like case, drill their commands at least two hours, excluding the necessary intervals of rest.

How colonels and majors may order company drills. XIII. That for the purpose of enabling colonels or majors to attend the company drills within their command, as required by law, they shall have power, respectively, to order such drills as they shall attend, at such times as they may deem proper. *Provided*, such order be issued to the commanding officer of such company, at or previous to the preceding company muster.

Judge Advocate, and duty. XIV. That the colonel of each regiment is hereby authorized and required to appoint and commission a regimental judge advocate, with the rank of lieutenant, who shall be attached to his staff, and who shall act as recorder to all courts martial which shall be ordered by the colonel or commanding officer of his regiment.

No substitute allowed. XV. That it shall not be lawful for any officer commanding a company, battalion, or regiment, when his command shall be assembled for drill, inspection or review, to receive a substitute in the place of any person required by law to do militia duty, under a penalty of not less than five nor more than fifty dollars, to be imposed by a court martial.

Clerk of company exempt from drill. XVI. That the captain or commanding officer of each company shall have power to appoint a clerk of the company, who shall be exempt from drill at company, battalion, or regimental musters, and whose duty it shall be, under the superintendance of the captain or commanding officer of the company, to take a census of the company when required, to make out and keep a regular roster of those who are liable to perform patrol duty, and to furnish orders and lists for such duty. And in consequence of the sergeants of companies being herein required to attend the brigade encampments of

OF SOUTH CAROLINA.

Acts relating to the Militia.

A. D. 1835.

officers, they shall be exempt from the duty of warning the men to attend musters and courts-martial, and such duty shall hereafter be performed by the corporals of each company, under the penalty of twenty dollars.

XVII. That the officer or other person whose duty it may be to summon defaulters for neglect of militia or patrol duty, to attend court-martial, may make his return upon oath, in writing, to the court; and any officer of the division, brigade, regiment, battalion, or company, under whose authority he shall be acting, is hereby authorized to administer to such officer or person the usual oath, certified as is now prescribed by law. Return of defaulters to be on oath.

XVIII. That it shall be lawful for all commissioned officers, when summoned to attend a court-martial for neglect of militia or patrol duty, to send their excuses, in writing, to the court, rendered upon oath, and certified by any officer or other person authorized by law to administer oaths; and all such excuses shall be received and acted on by the court-martial, unless, in the opinion of the court-martial, the personal attendance of such defaulter shall be necessary to a proper adjudication of the matter. Excuses to be rendered on oath.

XIX. That it shall be lawful for any person entitled to vote for field officers of any regiment or battalion in this State, to give his ballot at any election poll which shall be held agreeable to law, within the limits of such regiment or battalion; except in the parishes of St. Philip and St. Michael, where such voter shall be required to vote at the election poll of the company to which he belongs. Limits where persons may vote.

XX. That the officers commanding divisions, brigades, regiments, battalions and companies, shall, respectively, have power to order out such persons as are by law liable to fatigue duty, to perform such duty as fatigue-men as shall be deemed necessary for military purposes; provided, they shall not be required to be on such duty for a greater number of days in each year than the officers of this State are required to be on militia duty. Fatigue-duty.

XXI. That when a brigadier-general shall receive and commission the officers of any company of artillery permitted to be raised within the limits of his command, except such as may be attached to a battalion of artillery, he shall have power to designate the regiment and battalion to which the said company shall be attached; provided, there shall in no case be more than one company attached to a regiment. Power of brigadier, respecting artillery companies.

XXII. That the quarter-master general shall, from and after the passing of this Act, receive an annual salary of five hundred dollars.

XXIII. That in all cases where the dividing line between regiments in any brigade in this State shall pass through the lands on which any officer holding a commission in either regiment shall reside, it shall be lawful for such officer to reside on either side of said line, without a forfeiture of his commission. Where officers may lawfully reside.

XXIV. That whenever, from any cause, any beat company in any district or parish in this State shall be without commissioned officers for the term of three months, it shall be the duty of the magistrates of the said beat, on the information of any of the inhabitants thereof, to issue patrol warrants to any competent persons to execute the patrol duties of said beat; and the said magistrate shall cause returns to be made to him, and impose the same fines and penalties for non-execution thereof as are now imposed by law. Magistrate's duty where companies are without officers.

XXV. That the division quarter-masters, respectively, shall, when required, take charge of the tents which may be furnished by the State, for the use of their divisions; and shall, when required, cause the said tents to be used. Quarter-master's duty.

VOL. VIII.—74.

Acts relating to the Militia.

be carried to the brigade encampments of officers within their divisions; and at the close of said encampments shall cause the said tents to be returned and deposited under their care; the expenses of transportation, and such other expenses as may be necessary to procure a suitable place of deposit for said tents, to be paid by the State; and the said quarter-masters shall return their accounts to the Governor, who is hereby authorized to pay the same out of the contingent fund.

Sergeants and others, required to attend encampments.

XXVI. That the encampments of officers, required by the twenty-seventh section of an Act entitled "An Act to provide for the military organization of this State," passed on the nineteenth day of December, in the year of our Lord one thousand eight hundred and thirty-three, shall continue for six days; and, in addition to the officers therein required to attend said encampments, the sergeants of each company, and the non-commissioned regimental staff officers, are hereby required to attend said encampments, for the purpose of receiving military instruction, and shall be equipped with a musket and bayonet, cartouch box, and twenty-four rounds of blank cartridges; and for non-attendance at the said brigade encampments, each of the aforesaid officers shall be liable to be fined in the sum of fifteen dollars; and in lieu of the fines now imposed by law on company officers for non-attendance of brigade encampments, they shall each be subject, for such neglect of duty, to pay a fine of thirty dollars.

Captain's duty, and penalty.

XXVII. That it shall be the duty of the captain or commanding officer of each company, under the penalty of fifty dollars, to be imposed by courts-martial, to keep constantly in office in his company the full number of non-commissioned officers required by law; and any person appointed a non-commissioned officer, who shall refuse to serve, shall be liable to a penalty of thirty dollars, to be imposed by a court martial.

Penalty for disturbing a camp.

XXVIII. That any person who shall disturb the camp, or violate the regulations thereof, of any portion of the militia of this State, who shall be encamped in obedience to requirements of law, or voluntarily, shall, for such offence, be liable to a penalty not exceeding fifty dollars, to be imposed by any court-martial ordered by the commandant of the camp to try such offender, in addition to being confined under guard, at the discretion of the commanding officer, not exceeding twelve hours. And whenever any portion of the militia shall be voluntarily encamped for the purpose of military instruction, they shall be subject to the same rules and government, whilst encamped, as are established for the government of encampments ordered by law.

Superintendence of the encampment.

XXIX. That when the Commander-in-chief or the major-general of a division, within his command, shall attend the brigade encampments prescribed by law, he shall superintend and regulate the duties of the encampment, in such manner as he shall deem proper and conformable to military usage.

Governor to supply arms, powder, and band to the officers in encampment.

XXX. That the Governor, on the requisition of any brigadier-general, is hereby authorized to cause to be issued, from any of the arsenals of this State, such portion of the public arms as may be necessary and suitable, (in addition to those in possession of the volunteer companies within the brigade,) to supply the officers required to attend brigade encampments; and the officers of volunteer companies, in each brigade, having under their charge public arms, are hereby required to furnish the same, upon requisition of the said brigadier-general of the brigade; which arms the said brigadier-general shall cause to be returned to the said officers in good order, as soon as may be after the close of the encampment, and shall cause any damage done to the same to be repaired at the public expense;

and the Governor is hereby authorized and required to furnish for each on-campment such quantity of powder as he may deem necessary and proper, and likewise to furnish a band of military music, each at the public expense.

XXXI. That as soon as may be practicable, the Governor is hereby re-quired to purchase and distribute for the use of the general and field officers of this State, sixty copies each of M'Comb on courts-martial, and the regulations for the army of the United States. Books to be furnished.

XXXII. That the Governor shall cause to be published, in pamphlet form, such number of copies of this Act as will supply each commissioned officer with one copy, and shall cause the same to be distributed as soon as practicable; and he shall also cause to be published, for the use of the infantry officers, a selection from Scott's infantry tactics, the column of attack, square against cavalry, and such other evolutions as he may deem necessary to perfect the drill book for infantry; and likewise cause to be published and distributed the sword exercise for cavalry. Copies of this Act, and books.

XXXIII. That so much of the Purysburg beat company, attached to the twelfth regiment South Carolina militia, as lies east of New river, be, and the same is hereby, attached to the Oakely beat company in the same regiment. Purysburg beat company.

XXXIV. That the colonel of the fifteenth regiment South Carolina militia, be authorized to commission the major elect of the upper battalion in that regiment, in virtue of the election heretofore held, to take date from said election. Duty of colonel of 15th regiment.

XXXV. All officers who have held, or shall hold, commissions in the militia of this State, for the term of ten years consecutively, shall be there-after exempt from the performance of ordinary militia duty. Exemption.

No. 2660. AN ACT TO CONSOLIDATE THE FIRST COMPANY OF THE CHARLESTON ANCIENT BATTALION OF ARTILLERY, AND THE JEFFERSON ARTILLERY, INTO ONE COMPANY, AND TO INCORPORATE THE SAME; AND FOR OTHER PURPOSES.

I. *Be it enacted*, by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the first company of the Charleston Ancient Battalion of Artillery, and the Jefferson Artillery, two companies of the battalion of artillery attached to the fourth brigade of militia of this State, be, and the same are hereby, consolidated into one company, by the name and title of "The Charleston Ancient Artillery;" and that such persons as have, by agreement between the said two companies, been appointed to offices in the consolidated company, be commissioned by the commander-in-chief of this State accordingly; such of them as at present hold offices in either of the said companies, to take rank from the dates of their present commissions, respectively.

II. *And be it further enacted*, That those persons who now are, or hereafter may become, members of the said consolidated corps, be, and the same are hereby, created and declared a body politic and corporate, during the pleasure of the State, by the name and style of "The Charleston Ancient Artillery;" and that the said corporation shall be capable in law, to have succession of officers and members, to be chosen and admitted according to the rules and regulations made or to be made for its government and direction; to make all lawful by-laws; to have a common seal, and to alter the same; and, by its said name, to sue and be sued, implead and be impleaded, answer and be answered, in any court of law or equity in this State.

III. *And be it further enacted*, That the companies composing the battalion of artillery in the city of Charleston, be, and the same are hereby, exempt

OF SOUTH CAROLINA.

589

Acts relating to the Militia.

A. D. 1836.

from mounting and relieving fire-guard, and from attendance, by companies, in cases of alarm of fire in the said city; and that in lieu thereof, it shall be the duty of the major, or other officer in command of the battalion, once in every three months, to detail an officer and a sufficient number of privates to man one piece, to attend at the arsenal at each alarm of fire, for the three months next succeeding; which officer and privates shall be subject to the same fines for default, and be tried by courts martial in the same manner, as now provided by law for defaults in the performance of fire-guard duty.

IV. *And be it further enacted*, That each corps of artillery throughout the State, shall be allowed the sum of twenty-five dollars per annum, for each piece of artillery fully manned and regularly exercised by the said corps, respectively, for the purpose of defraying the expenses of the same; to be drawn from the treasury by the order of the commanding officer of each corps, countersigned by the commanding officer of the regiment or battalion to which the said corps may be attached: *provided*, the sum so to be drawn shall in no case exceed one hundred dollars.

In the Senate House, the nineteenth day of December, in the year of our Lord one thousand eight hundred and thirty-five, and in the sixtieth year of the Sovereignty and Independence of the United States of America.

H. DEAS, *President of the Senate.*

PATRICK NOBLE, *Speaker of the House of Representatives.*

AN ACT FURTHER TO PROVIDE FOR THE MILITARY ORGANIZATION OF THIS STATE. No. 2686.

I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That all persons residing on St. Helena Island, be, and they are hereby, authorized to organize a corps of mounted riflemen, to be attached to the twelfth regiment, to be called "The Saint Helena Mounted Riflemen," and subject to all the duties to which they have heretofore been liable as a beat company; and that the said company hereby authorized to be formed, shall attend the reviews of the said regiment, either on foot or horse, as the colonel shall direct; that the said company shall parade and muster once every two months; and shall perform patrol duty as now required by law.

Saint Helena
Riflemen.

II. That the persons composing the Charleston Fire Company of Axemen, and the city Constables of Charleston, provided the latter do not exceed twenty-four, be, and they are hereby, exempted from the performance of ordinary militia duty.

Exemptions
from militia
duty.

III. All officers who have held or shall hold commissions in the militia of this State, for the term of seven years consecutively, shall be, thereafter, exempt from the performance of ordinary militia duty.

IV. That the system of instruction and regulations, prepared and arranged under the superintendance of Major General McComb, and established for the government of the militia and volunteers of the United States, be observed in the instruction and exercise of the militia of this

STATUTES AT LARGE

A. D. 1836.

Acts relating to the Militia.

Books of instruction.

State; and that all Acts and parts of Acts inconsistent with this Act, be, and the same are hereby, repealed. And that the Governor be, and he is hereby, authorized to purchase a sufficient number of copies of said book of instruction and exercise, and distribute one copy thereof to each officer, who shall, on his resignation or removal from office, deliver the same to his successor, or to the colonel of the regiment to which such officer belongs; and in case of the death of any officer, his legal representative shall deliver over the same to such successor or colonel of the regiment as aforesaid, under the penalty of four dollars, which shall be recoverable before any justice of the peace or quorum of this State, on information and proof of the said offence; which sum, when collected, shall be paid to the paymaster of the regiment in which the default was made, and shall be applied to replace the book or books, so withheld, lost or destroyed; and the sum of twenty-five hundred dollars, if so much be necessary, be, and the same is hereby, appropriated to purchase twenty-five hundred copies of said books of instruction and exercises.

Adjutant Gen. to attend and instruct regiments.

V. *And be it further enacted,* That it shall hereafter be the duty of the adjutant and inspector general, and he is hereby required, in addition to his duties heretofore prescribed by law, to attend, once a year, the muster of each regiment in the State, and the drill of the officers of each the day previous; and whenever he shall deem it necessary to the correct instruction in military tactics of the officers or the regiment, he may act as instructor; *provided,* there shall be no superior officer present who may think proper to assume the direction of the drill; and he shall, with the consent of the commander-in-chief, have power, and he is hereby authorized, to order out for drill the said regiments, at such times as will best enable him to perform the duties hereby assigned.

To keep a military Bureau, &c.

VI. He shall keep a military Bureau, and shall keep a record of the number and rank of each division, brigade and regiment, in the State; procure and record, annually, a return of the strength, arms and equipments of the militia; the names, rank and date of the commissions of all the general, staff and field officers; record all military orders received or issued by him; and, generally, all matters which relate to the militia, and which, in his opinion, may be necessary to enable him to exhibit the true strength, character and condition, of the military force and power of the State.

To inspect arsenals and magazines.

VII. He shall, once a year, visit and inspect the arsenals and magazines in the State, and report to the commander-in-chief, to be by him submitted to the Legislature; and record in his office their condition, the number and condition of the arms, equipments and public stores in each; the number and description of public arms and equipments distributed to the militia each year, and the disposition and conditions of such distribution; the strength of the guards at each, the duties performed by them, their general condition and efficiency to discharge the duties required of them. And to enable him to perform this duty, the quarter-master-general and other officers having charge of those departments, shall, when required, make to him full reports of the different matters committed to their charge.

VIII. It shall further be the duty of the adjutant-general, and he is hereby required, to deposit in the Executive office at Columbia, in a Bureau kept for the purpose, a true record of all matters relating to his office, as is hereinbefore enjoined.

LX. That hereafter, a regiment of cavalry may consist of eight troops

OF SOUTH CAROLINA.

591

Acts relating to the Militia.

A. D. 1836.

Cavalry.

of horse; and that a squadron may consist of four troops of horse; and the lieutenant colonel, major, or officer commanding a squadron of cavalry, may, and is hereby authorized to, order courts martial for the trial of all defaulters at troop or squadron musters, in the same way, as far as practicable, as is now done by the colonels of regiments of cavalry.

X. That the annual salary of the Arsenal keeper in Charleston shall be, and is hereby, increased to the sum of one thousand dollars.

XI. That a small magazine shall be erected in the citadel in Charleston, and the sum of twelve hundred dollars, if so much be necessary, shall be, and is hereby, appropriated for that purpose.

XII. That the arsenal, magazine and guard houses, situated within the corporate limits of the town of Camden, be, and the same are hereby, transferred to and vested in the Town Council of Camden, to be used for corporate purposes.

XIII. *And be it further enacted,* That such persons residing in the town of Columbia, not exceeding thirty in number, as shall organize themselves into a Fire Engine Company, and train, exercise and do duty as such, whenever called on by the town council, shall be, and they are hereby, exempted from the performance of ordinary militia duty, so long as they continue members of said company, and faithfully discharge the duties hereby enjoined; *provided,* that no person or persons hereby intended to be exempted from militia duty, shall be so excused, until the officer commanding the regiment in which they reside, shall be furnished by the town council with a statement, certifying the names of the persons enrolled in said company, its organization and readiness to perform the duties hereby required.

XIV. That the ineligibility to hold office, specified in the eighth section of an Act entitled "An Act to provide for the military organization of this State," passed the nineteenth day of December, one thousand eight hundred and thirty-three, shall be, and the same is hereby declared to be, inoperative in the two regiments of infantry in Greenville district, for the space of twelve months from and after the passing of this Act, and no longer.

XV. That in all cases of appeal heretofore allowed by law for default of militia or patrol duty, the officer ordering the court shall hear the case, and his decision shall be final and conclusive, and he shall issue executions as is in other cases provided by law.

In the Senate House, the twenty-first day of December, in the year of our Lord one thousand eight hundred and thirty-six, and in the sixty-first year of the Sovereignty and Independence of the United States of America.

Acts relating to the Militia.

No. 2714. AN ACT FURTHER TO PROVIDE FOR THE MILITARY ORGANIZATION OF THIS STATE; AND FOR OTHER PURPOSES.

Battalions to drill once a year. I. *Be it enacted*, by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That from and after the passing of this Act, it shall be the duty of the colonels or officers commanding regiments to order out their regiments, by battalion, for drill, exercise and inspection, once in each year; the commissioned and non-commissioned officers to assemble the day previous for drill; and courts martial upon defaulters for such musters, shall be ordered and holden as is now provided by law.

Two companies of volunteers to each regiment. II. *And be it further enacted*, That whenever the number of volunteer corps of light infantry or riflemen, now existing in any regiment of infantry in this State, shall be reduced to two in number, that it shall not be lawful to permit the raising of more than two of such corps in each regiment, one of which, if practicable, shall be raised in and attached to each battalion, and shall consist of sixty-four rank and file, with the compliment of commissioned and non-commissioned officers, now or hereafter to be required by law, in full uniform.

Rank and file of artillery corps. III. *And be it further enacted*, That the artillery corps now allowed by law, shall consist of sixty-four rank and file, with the compliment of commissioned and non commissioned officers, now or hereafter to be required by law, in full uniform; and all such corps that are now in existence which shall not, within twelve months from the passing of this Act, be organized as above specified, shall be dissolved.

Inspections. IV. *And be it further enacted*, That it shall be the duty of the colonel or officer commanding the regiment, to cause the volunteer light corps above specified, to be inspected once in each year, and if, at any such inspection, it shall appear that the number of rank and file of any corps in complete uniform, is below the number required by law, he shall notify such corps of the fact; and *provided*, that it shall not recruit its numbers to the compliment required for its organization, within twelve months from the date of the notice, it shall be dissolved.

Artillery may be armed as infantry. V. *And be it further enacted*, That the artillery corps attached to the regiments of infantry, may be armed with muskets and bayonets, or field pieces, (to be furnished by the State,) at the discretion of the commander-in-chief.

Drill Books. VI. *And be it further enacted*, That the non-commissioned staff of each regiment, and the sergeants of companies, shall each be furnished with a drill book similar to that used by the company officers, and upon the same conditions; and that the sergeants hereafter appointed, shall be exempt from road duty, during the year in which they are required to attend the brigade encampments, except in the parishes of St. Philip and St. Michael, and in lieu thereof, any person who shall serve as a sergeant in said parishes for ten years consecutively, shall, thereafter, be exempt from ordinary militia duty.

Sergeants. VII. *And be it further enacted*, That hereafter, corporals shall serve for one year, and be subjected to a fine of thirty dollars for refusing to accept the appointment and discharge the duties thereof.

Corporals. VIII. *And be it further enacted*, That hereafter, for non-attendance of brigade encampments authorized by law, the following fines shall be imposed:—a major-general, one hundred and fifty dollars; brigadier-general, one hundred dollars; colonels, lieutenant-colonels, and majors, each,

OF SOUTH CAROLINA.

693

Acts relating to the Militia.

A. D. 1837.

seventy-five dollars; captains and subaltern officers, each, fifty dollars; and similar fines shall be imposed upon all staff officers, according to their respective grades; and upon the non-commissioned regimental staff officers and sergeants, thirty dollars; and upon sergeants for refusing to accept their appointments, each, thirty dollars; and upon company officers, who shall be elected or appointed as now provided by law, for refusing to accept and perform the duties of their office, each fifty dollars.

Penalty for non-attendance at appointments.

IX. *Be it enacted*, That any person or persons who now are, or hereafter may be, exempt from the performance of militia duty, shall attach himself or themselves to any volunteer corps of militia, and have accepted, or shall accept any office, whether held by commission or warrant, he or they, shall be subject to the same fines and forfeitures, respectively, that officers of their rank now are or shall be liable to by law.

Volunteers.

X. *And be it further enacted*, That any captain or commanding officer of a company, or leader of a patrol, who shall neglect to perform the duty assigned him by the laws regulating the performance of patrol duty, shall be tried by courts martial, in the same manner as the officers of the militia are, and subjected to the same fine as now provided by law.

Patrol duty.

XI. *And be it further enacted*, That all penalties incurred for the neglect of militia or patrol duty, may be imposed by courts martial, within twelve months from the time of making default, and not thereafter; but upon judgment being had, the party shall be liable to execution and collection as in civil cases; *provided*, that nothing herein contained shall release the collecting officers from the performance of their duty as now required by law.

Penalty for neglect.

XII. *And be it further enacted*, That the colonels or commanding officers of regiments, shall order courts martial for the trial of defaulters of militia or patrol duty, to sit at each battalion muster-ground, or at such other place or places, within the limits of his regiment, as he may deem expedient; and it shall be the duty of the officers aforesaid, to issue an order to the commanding officers of companies, notifying them of the times and places at which the court or courts shall be convened for the trial of their respective defaulters; and (if practicable,) all persons who have made default previous thereto, shall be reported to and tried by such court or courts, as now provided by law; *provided*, any person [who] shall be fined by default, and conceive himself aggrieved by the sentence of the court, and shall make affidavit that he could not attend the court by which he was tried, or render his excuse in writing to the same, or that it was out of his power to sue out an appeal before the issuing of execution, and that he does not appeal for the purpose of delay, the colonel or officer in command of the regiment, shall have power to hear and determine the case; and if he shall decide in favor of the party, he shall notify the sheriff in writing to that effect, upon which the sheriff shall enter satisfaction in the case, stating the manner in which it was settled; and *provided*, the colonels or commanding officers of regiments shall willfully fail or neglect to perform any of the duties herein specified, they shall be liable to a fine of twenty-five dollars, to be recovered by courts martial.

Courts martial.

XIII. *And be it further enacted*, That bent companies shall have the privilege of passing by-laws for their government to uniform themselves, and impose such penalties for a violation of their laws, as may be agreed upon by the company; *provided*, that no member of a company shall be compelled to uniform, or be subjected to any penalty imposed by the by-laws, unless he shall have assented to and subscribed the same; and

Bent companies may pass by-laws.

whenever any beat company shall be uniformed as above provided, the commissioned officers thereof shall be permitted to adopt and wear the same.

When companies shall be received.

XIV. *And be it further enacted*, That from and after the passing of this Act, no volunteer corps of cavalry, artillery, light infantry or riflemen, shall be inspected or received, and the officers thereof commissioned, until the said corps shall have the compliment of men rank and file, and officers in full uniform, required for its organization; and any officer permitted by law to authorize the raising of such corps, shall, for a violation of this provision, be liable to a fine of twenty-five dollars, to be recovered by courts martial.

Beaufort Troop.

XV. *And be it further enacted*, That the Beaufort District Troop of Horse shall be exempted from attendance at regimental reviews and parades, as soon as it shall conform to the organization of cavalry corps to be adopted by the provisions of this Act; *provided*, it shall hold itself in readiness to move at a moment's notice to any part of the district, where the public safety may require its service, and be liable to such inspection and drill on its company parade ground, as is now required by law.

Adjutant Gen. salary.

XVI. *And be it further enacted*, That hereafter, the salary of the adjutant and inspector-general shall be twenty-five hundred dollars.

Furloughs.

XVII. *And be it further enacted*, That hereafter, no officer of the militia of this State shall have authority, except when in actual service, to grant a furlough or leave of absence to relieve the party from the performance of militia duty required by law; but all defaulters of such duty shall be tried by courts martial as the law directs; *provided*, that nothing herein contained shall be construed to prevent the commander-in-chief, or senior officer on duty, when the troops shall have assembled for drill, exercise, inspection or review, to grant leave of absence from that special duty, upon good and lawful cause being shewn.

Companies in Christ Church parish.

XVIII. *And be it further enacted*, That the two beat companies now existing in Christ Church Parish, shall be united and form one beat company, and the commissions of the officers of said companies are hereby vacated. And it shall be the duty of the colonel of the 19th regiment to order an election for a captain, first and second lieutenants and ensign, to command said company, within two months from the passing of this Act, and the persons having the greatest number of votes for each commission, shall be commissioned as the officers to command the said company; and hereafter the muster-ground of said company shall be at or near the thirteen mile-post on the State road.

Thirtieth regiment.

XIX. *And be it further enacted*, That to equalize the battalions and beat companies of the 30th regiment in the seventh brigade of the militia of this State, the brigadier general of the said brigade is hereby authorized to cause the said regiment to be re-divided into two battalions and eight beat companies, according to the principles prescribed in the fourteenth, fifteenth and sixteenth sections of an Act, passed the seventeenth day of December, 1834, entitled "An Act to amend An Act entitled An Act to provide for the military organization of this State, passed the nineteenth day of December, 1833, and for other purposes;" and the same penalties shall attach for neglect of duty and forfeitures of commissions in the said regiment as is provided by the Act aforesaid.

XX. *And be it further enacted*, That the regiments of cavalry in this State, now raised or hereafter to be raised, shall take and have the number,

designation and rank, of the brigade of infantry within which such regiment of cavalry is raised, that is to say:—the regiment of cavalry now attached to the first brigade, shall be the first regiment; the regiment of cavalry now attached to the second brigade, shall be the second regiment; the regiment of cavalry now attached to the third brigade, shall be the third regiment; the regiment of cavalry now attached to the fifth brigade, shall be the fifth regiment; the regiment of cavalry now attached to the sixth brigade, shall be the sixth regiment; the regiment of cavalry now attached to the ninth brigade, shall be the ninth regiment; the regiment of cavalry now attached to the tenth brigade, shall be the tenth regiment; and that whenever a sufficient number of troops shall have been raised in the fourth brigade, to constitute, according to law, a regiment of cavalry, such regiment shall be the fourth regiment; whenever a sufficient number of troops shall have been raised in the seventh brigade, to constitute a regiment according to law, such regiment shall be the seventh regiment; and whenever a sufficient number of troops shall have been raised in the eighth brigade, to constitute a regiment according to law, such regiment shall be the eighth regiment.

Arrangement
of cavalry re-
giments.

XXI. *And be it further enacted*, That the number, designation and rank of the cavalry regiments aforesaid, shall be and remain permanent; and whenever either of the regiments aforesaid shall be dissolved, and a new regiment raised in its stead, such new regiment shall take and have the number, designation and rank of the regiment so dissolved.

Their rank.

XXII. *And be it further enacted*, That the regiments of cavalry in this State, be, and they are hereby, arranged and constituted into brigades of cavalry, in the manner following, that is to say:—the first and second regiments, shall constitute the first brigade; the fifth and sixth regiments, shall constitute the third brigade; the ninth and tenth regiments, shall constitute the fifth brigade; and whenever the fourth regiment shall have been organized according to law, the third and fourth regiments shall constitute the second brigade; and whenever the seventh and eighth regiments shall have been organized, according to law, the said seventh and eighth regiments shall constitute the fourth brigade.

Brigades of
cavalry.

XXIII. That the third regiment of cavalry, and the troops now organized in the fourth, seventh and eighth infantry brigades, remain attached to said infantry brigade, as now provided by law, until fully organized, as required by the twentieth section of this Act.

XXIV. *And be it further enacted*, That it shall be the duty of the major-generals, commanding the first, third and fifth divisions of the militia of this State, within three months after the passing of this Act, to issue their orders to the colonels of the cavalry regiments, within their respective divisions, to advertise and hold an election for a brigadier-general of cavalry, to command the brigade of cavalry within their respective divisions; and whenever either the second and fourth brigades of cavalry shall have been organized, as required by the twenty second section of this Act, the major-general commanding the division in which such brigade may be organized, shall, forthwith, order an election for a brigadier-general to command such brigade.

Election of
Brigadier Gen.
of cavalry.

XXV. *And be it further enacted*, That all elections of brigadier-generals of cavalry shall be ordered, advertised, held and conducted, and the brigadier-generals elected receive their commissions, in the same manner as now provided for the electing and commissioning of brigadier-generals of infantry.

Elections, how
to be conduct-
ed.

A. D. 1837.

Ineligibility
and voters.

XXVI. *And be it further enacted,* That the same ineligibility to the office of brigadier-general of cavalry, and the same qualification in the voters for such office, shall be required, as now provided by law for the office of brigadier-general of infantry; *provided,* that no officer of the infantry or artillery shall be eligible to the office or entitled to a vote for brigadier-general of cavalry; and no officer of cavalry in any organized brigade of cavalry, shall be eligible to the office or entitled to a vote for brigadier-general of infantry.

When cavalry
brigades shall
be dissolved.

XXVII. *And be it further enacted,* That hereafter, when either of the regiments composing a brigade of cavalry shall be reduced below the number of troops required by law to constitute a regiment, and shall not recruit to such number within twelve months after notice to the commanding officer of such regiment, from the major-general of the division in which such regiment was raised, or from the commander-in-chief, then, and in that case, such brigade shall be dissolved, the commission of the brigadier-general of such brigade of cavalry vacated, and the regiment, squadron or troops, still in existence within the limits of such brigades, be attached to the infantry brigades, as now provided by law.

Quota of men
for cavalry
corps.

XXVIII. That a troop of cavalry shall hereafter consist of thirty-six men rank and file, four sergeants, one captain, two lieutenants and one cornet; and if any troop now raised shall not, within twelve months after the passing of this Act, contain the number of rank and file and the sergeants and officers herein required, such troop shall be dissolved by the major-general of the division to which such troop is attached; and if, at any subsequent inspection, any troop of cavalry now raised or hereafter to be raised, shall not contain twenty-eight rank and file, and the sergeants and officers required by law, and shall not recruit the same within six months after notice to fill up its ranks, given to the commander of such troop, then such troop shall be dissolved.

Cavalry to en-
camp with in-
fantry.

XXIX. *And be it further enacted,* That the cavalry shall continue to encamp with the brigades of infantry, as now required by law; and it shall be the duty of the brigadier-generals of cavalry to attend the encampments of the cavalry of their respective brigades, and superintend and instruct them in the drill, exercise, and manœuvres of cavalry; *provided,* that no brigadier-general of cavalry shall assume or exercise any command or authority over the infantry or artillery of such encampment.

Duty of Colo-
nels and Ma-
jors.

XXX. *And be it further enacted,* That colonels of cavalry shall, after the passing of this Act, drill each troop in their respective regiments, once in every two years; and that lieutenant-colonels and majors of cavalry, shall also drill each troop in their respective squadrons, once in every twelve months.

How disputes
shall be settled
between caval-
ry and infantry.

XXXI. *And be it further enacted,* That if any collision or dispute shall arise between the cavalry and infantry arms of service, within any division of this State in which shall be organized a brigade of cavalry, it shall be the duty of the major-general of such division to hear and determine the cause, and his decision shall be conclusive; and *provided,* any such collision or dispute shall occur in a brigade of infantry, in which the cavalry shall not be organized into a brigade, the same shall be heard and determined by the brigadier-general of such brigade, and his decision shall be conclusive; reserving to the parties the right of appeal, in the former case, to the commander-in-chief, and in the latter case, to the major-general of the division.

AN ACT TO AMEND AN ACT ENTITLED "AN ACT TO REGULATE THE No. 2724.
PERFORMANCE OF PATROL DUTY ON CHARLESTON NECK;" AND FOR
OTHER PURPOSES.

I. *Be it enacted* by the Honorable the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That the eleventh section of the Act entitled "An Act to regulate the performance of Patrol Duty on Charleston Neck," be, and is hereby, repealed.

II. *Be it further enacted*, That it shall not be lawful for any owner or occupier of a grocery store or retail shop within the limits of Charleston Neck, or any store, shop or place, within the limits aforesaid, wherein are vended spirituous liquors, to keep open the said stores, shops or places, or to trade, traffick or barter therein, with negroes or persons of color, at any time on the Sabbath day, or on any other day, after the hours of nine o'clock, P. M., from the twentieth day of September to the twentieth day of March, and ten o'clock, P. M., from the twentieth day of March to the twentieth day of September, in each and every year; and in case any owner or occupant of any such store, shop or place, shall transgress or violate this Act, by keeping open the said stores, shops or places, or by trading, trafficking or bartering therein, with any negroes or persons of color, at any time on the Sabbath day, or on any other day, after the hours of nine o'clock, P. M., from the twentieth day of September to the twentieth day of March, and ten o'clock, P. M., from the twentieth day of March to the twentieth day of September, in each and every year, he, she or they, shall forfeit and pay the sum of one hundred dollars, to be recovered in any court having competent jurisdiction; to be paid to the commissioners of Cross Roads of Charleston Neck, for the use of said roads.

III. *And be it further enacted*, That it shall not be lawful for the owner or keeper of any retail shop within the limits of Charleston Neck, or the owner or occupant of any place within the limits aforesaid, wherein are vended spirituous liquors, to erect or keep in such shop or place, any blind, screen, or other obstruction whatever, to the view from the front door or other opening, behind which any article might be secretly sold, nor shall he or she have recourse to any private room, closet or other enclosure on the said premises, to effect such object with greater privacy; and every person violating the provisions of this Act, shall forfeit and pay, not less

Acts relating to the Militia.

than fifty, nor more than two hundred dollars, according to the discretion of the presiding judge; to be recovered in any court having competent jurisdiction; to be paid to the commissioners of Cross Roads, for the use of said roads.

Hogs running at large on Charleston Neck, prohibited.

IV. And *whereas*, the going at large of hogs on Charleston Neck, is a great inconvenience to the citizens thereof: *Be it therefore enacted*, That the clerk of the board of commissioners of Cross Roads for Charleston Neck, or his deputy or deputies, shall, on and after the first day of February next, be authorized and required to seize or kill any hog or hogs going at large any where on that part of Charleston Neck which lies between Cooper and Ashley Rivers, and extending from Boundary to Line street; and that every hog or hogs so taken or killed, shall be forfeited by law; and the said clerk of the said board of commissioners of Cross Roads, or his deputy or deputies, shall take and keep the said hog or hogs, or the same sell and dispose of, applying the proceeds thereof to his own or their use, benefit and behoof, as a perquisite of his or their office, without question or claim from any person or persons whatever; *provided*, this law shall not be construed to extend to any hog or hogs driven through the streets within the limits aforesaid, for market or any such purpose; and it shall be the duty of the said clerk to give one month's notice in one or more of the gazettes of the city of Charleston, and of this law, previous to his proceeding to execute the same.

In the Senate House, the twentieth day of December, in the year of our Lord one thousand eight hundred and thirty-seven, and in the sixty-second year of the Sovereignty and Independence of the United States of America.

D. L. WARDLAW, *Speaker of the House of Representatives.*

EXHIBIT "14"

by this commonwealth, and with all sums of money directed to be paid by the present General Assembly, for which no other provision has been made, and all warrants and other facilities which have been heretofore receivable in discharge of the respective taxes, which constitute the aggregate fund, and all warrants, with the payment of which the aggregate fund is charged by this act, may be paid in discharge of the taxes which constitute the said fund; and the sheriffs or collectors of the revenue taxes which constitute the said fund, shall on payment thereof into the public treasury, have credit for the same accordingly; the monies which may be paid into the treasury, in discharge of the taxes which constitute the said fund, and also the money which may be received on sales of tobacco, paid in discharge of the same, or so much thereof as shall be necessary, shall be paid by the treasurer to the holders of warrants on the said fund at certain periods. And to the end that all holders of such warrants, may receive in proportion to their respective claims, the treasurer shall give in the Virginia Gazette, six weeks previous notice of the time, when payment is to be made, in order that such warrants may be previously registered, and the money belonging to the said fund duly apportioned amongst them.

Former appropriations continued. Charges on the revenue of 1791.

SEC. II. *AND be it further enacted*, That all taxes and arrearages of taxes, except those constituting the aggregate fund, shall continue as appropriated by the aforesaid act of the last session of Assembly, intituled, "An act for appropriating the public revenue;" and that all branches of revenue which shall arise to the commonwealth, between the last day of December, one thousand seven hundred and ninety-two, and the first day of January, one thousand seven hundred and ninety-four, shall be appropriated to the support of civil government, and for the contingent charges thereof; and shall also be charged with the payment of all unsatisfied warrants charged on the said taxes and arrearages of taxes by the aforesaid act of last session of Assembly, of warrants which shall be hereafter issued for expences attending criminal prosecutions; for the state's shares in the Patowmac, James River, and Dismal Swamp Canal companies; for the hospital for the reception of persons of unsound mind; to the directors of the public buildings; for erecting public buildings at the federal seat of government on the Patowmac; for the expences attending the arsenal at the Point of Fork; for all pensions allowed by this commonwealth; and for expences which may accrue, by order of the Executive, in defence of the western frontier. And if the funds herein appropriated to the payment of the officers of civil government, and of warrants issued by direction of the Executive for the contingent purposes thereof; on account the of state's shares in the Patowmac, James River, and Dismal Swamp Canal Companies; for the hospital for the reception of persons of unsound mind; for erecting the public buildings at the federal seat of government on Patowmac; for all pensions due by this commonwealth, and for expences which may accrue, by order of the Executive, in defence of the western frontier, should not be productive early enough for those purposes, it shall be lawful for the Executive to direct the treasurer to borrow as much money as shall be deficient, out of any other funds, and to replace the same as soon as possible.

Deficiency in certain funds to be supplied by borrowing from others.

Repealing clause.

SEC. III. SO much of every act of Assembly as comes within the purview of this act, shall be, and the same is hereby repealed.

Certificates in the sinking fund to be exchanged for others in the hands of certain creditors.

SEC. IV. *AND be it further enacted*, That it shall be lawful for the treasurer to pay to the agent of Caron de Beaumarchais, on warrant or warrants from the auditor, military, or other certificates of the sinking fund dated prior to the first day of January, one thousand seven hundred and ninety, to the amount of the liquidated claim of the said De Beaumarchais, and in like manner to any other public foreign creditor willing to accept of such payment; and also to exchange certificates of the said fund of a prior date to the said period, for any of the certificates of this commonwealth, dated subsequent to the first day of January one thousand seven hundred and ninety, and bearing an interest of six per centum.

Commencement of the act

SEC. V. THIS act shall commence in force from and after the passing thereof.

C H A P. IV.

An ACT for regulating the Militia of this Commonwealth.

[Passed December the 22d, 1792.]

Preamble.

SECTION I. **W**HEREAS the Congress of the United States did at their last session pass an act, intituled, "An act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States;" and it is expedient for this Legislature to carry the same into effect, so far as it respects this State:

Arrangement of the militia in brigades and divisions;

SEC. II. *BE it therefore enacted*, That the counties of Accomack, Northampton, Princess-Anne, and Norfolk, shall compose one brigade; the counties of Nansemond, Isle of Wight, Southampton, Surry, Sussex, and Prince-George, one brigade; the counties of Elizabeth City, Warwick, York, James City, Charles City, New-Kent, Henrico, and Hanover, one brigade; the counties of Gloucester, Mathews, Middlesex, Essex, King William, King & Queen, Lancaster, Northumberland, Richmond, and Westmoreland, one brigade; and the said brigades shall compose one division. That the counties of Loudoun and Fairfax shall compose one brigade; the counties of Fauquier, Prince William, Stafford, and King George, one brigade; the counties of Culpeper, Orange, Spotsylvania, and Caroline, one brigade; the counties of Louisa, Goochland, Fluvanna, Albemarle, and Amherst, one brigade;

gade; and the said brigades shall compose another division. The counties of Frederick and Berkeley, shall compose one brigade; the counties of Rockingham, Augusta, and Shenandoah, one brigade; the counties of Wythe, Russell, Washington, Lee, Grayson, and Montgomery, one brigade; the counties of Botetourt, Rockbridge, Greenbrier, Bath, and Kanawha, one brigade; the counties of Hampshire, Hardy, Pendleton, Randolph, Harrison, Monongalia, and Ohio, one brigade; and the said brigades shall compose another division. The counties of Henry, Patrick, Franklin, Campbell, and Bedford, shall compose one brigade; the counties of Pittsylvania, Halifax, Charlotte, and Prince Edward, one brigade; the counties of Dinwiddie, Greenville, Brunswick, Lunenburg, and Mecklenburg, one brigade; the counties of Chesterfield, Amelia, Nottoway, Powhatan, Cumberland, and Buckingham, one brigade; and the said brigades shall compose another division.

SEC. III. *AND be it further enacted*, That the counties of Berkeley, Culpeper, Loudoun, and Frederick, shall compose two regiments, and four battalions each; that the counties of Middlesex and Essex, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of King & Queen and King William, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of Northumberland and Lancaster, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of Richmond and Westmoreland, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of Powhatan and Cumberland, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of Harrison and Randolph, shall each compose one battalion, which two battalions shall compose one regiment; that the counties of Russell and Lee, shall each compose one battalion, which two battalions shall compose one regiment; and the counties of Charles City and New-Kent, shall compose each one battalion, which two battalions shall constitute one regiment; the counties of Elizabeth City and Warwick, one battalion, and the counties of York and James City, one battalion, which two battalions shall compose one regiment; and each of the other counties in this commonwealth, and also the city of Richmond and borough of Norfolk, shall compose each one regiment and two battalions.

In regiments and battalions.

SEC. IV. *AND be it further enacted*, That the General Assembly shall by joint ballot of both houses, appoint an Adjutant-General for the militia of this state, and also a Major-General to each division, and a Brigadier-General to each brigade; which Major-Generals and Brigadiers, shall reside within the limits of their respective commands. Each Major-General shall appoint his own aids de camp, and each Brigadier-General his own brigade inspector, who shall also reside within the limits of their respective divisions and brigades.

Officers, how to be appointed.

SEC. V. *AND be it enacted*, That the courts of the several counties and corporations, shall from the field and other officers who at present hold commissions in the militia of the respective counties and corporations, proceed to recommend to the Executive, the officers necessary to complete the regiments and battalions and companies, pursuant to this act, by grades and seniority; and the persons so recommended, shall be commissioned by the Governor, agreeable to the constitution of this state.

SEC. VI. ALL persons holding commissions under the late militia laws of this state, and who shall not be recommended by their respective courts, shall be considered as supernumerary officers, and may be recommended by the respective county and corporation courts to supply vacancies hereafter happening in the officers of the militia.

Officers not recommended by the county court to become supernumeraries.

SEC. VII. *AND* whereas it will be productive of considerable advantages to the disciplining the militia, to have frequent meetings of the commissioned officers of the several regiments and battalions: *Be it enacted*, That the commissioned officers of the several regiments and battalions shall meet twice in every year, for the purpose of being trained and instructed by the Brigade Inspector. The days and places of meeting to be fixed on by the commanding officer of the brigade to which the regiments and battalions belong. The officers thus assembled, shall each continue two days and no longer, for every time they shall be called out. Every officer failing to attend such meeting on being summoned (not having a reasonable excuse, to be adjudged of by a court-martial) shall forfeit and pay five dollars, to be appropriated as the other fines are by this act directed.

Commissioned officers to meet twice in every year to be trained.

SEC. VIII. IT shall be the duty of the Executive to number by ballot the several divisions, brigades, and regiments, and cause the same to be registered in the office of the Adjutant-General; and every commission hereafter issued by the Executive, shall express the number of the division, brigade or regiment respectively, to which the person to whom the same is directed shall belong.

Divisions, brigades and regiments to be numbered and registered in the adjutant general's office.

SEC. IX. *AND be it further enacted*, That the commanding officers of regiments, battalions, and companies, to be appointed and commissioned by virtue of this act, shall meet at their respective courthouses on some day in the month of March or April next, to be appointed by the commanding officers of regiments, then and there to divide their respective counties into districts for the purpose of forming the regiments, battalions, and companies, by this act established; which districts so laid off shall be designated by certain lines and bounds to be established by them, and recorded by the clerks of the courts-martial respectively, hereinafter to be appointed.

Counties to be divided into districts for forming regiments, battalions and companies.

Companies to be divided into divisions. SEC. X. *AND be it further enacted,* That it shall be the duty of the commanding officers of each company so enrolled, to proceed forthwith to divide his company into divisions by ballot from one to ten, for the purpose of a regular routine of duty when called into actual service, and shall return a roster of each division and its number in rotation, within fifteen days, to the commanding officer of his battalion, who shall forthwith transmit the same to the commanding officer of the regiment, who shall order the same to be recorded by the clerk of the court-martial. The same regulations shall be observed by every commanding officer of a company, battalion, and regiment on the subsequent enrollment of any person therein, unless such person shall produce a certificate of his having been before draughted for the above purpose, in which case he shall be enrolled accordingly.

Persons exempted from militia duty. SEC. XI. *AND be it further enacted,* That the members of the council of state; judges of the superior courts; speakers and clerks of both houses of the general assembly; the clerks of the superior and inferior courts; the attorney-general; the treasurer and his clerks; the auditor of public accounts and his clerks; clerks of the council of state; the register of the land-office and his clerks; all inspectors of tobacco; all professors and tutors and students at the college of William & Mary, and other public seminaries of learning; all ministers of the gospel licensed to preach according to the rules of their sect, who shall have previously taken before the court of their county an oath of fidelity to the commonwealth; keepers of the public, district, and county jails, and of the public hospital; millers; and all quakers and menonists religiously scrupulous of bearing arms, and having a certificate from their respective societies, according to the rules thereof, of their being members of such society, shall be, and they are hereby exempted from the duties required by this act.

SEC. XII. *AND whereas it will be of great utility and advantage in establishing a well disciplined militia, to annex to each battalion a light company to be formed of young men from eighteen to twenty-five years of age, whose activity and domestic circumstances will admit of a frequency of training, not practicable or convenient for the militia in general, and returning to the main body on their arrival at the latter period, will be continually giving thereto a military pride and experience, from which the best of consequences will result.*

A company of grenadiers, light infantry, or riflemen, to be annexed to each battalion. SEC. XIII. *BE it enacted,* That the Governor with the advice of Council, shall issue commissions for a captain, lieutenant and ensign to each battalion out of the present commissioned officers therein; and the said companies shall be distinguished by the denomination of grenadiers, light-infantry or riflemen, at the discretion of the commanding officer of the battalion. Every person belonging to the said light companies, shall wear while on duty, such caps and uniforms as the Executive shall direct, to be purchased by the commanding officer of the battalion, out of the monies arising on delinquents. The captain thereof shall after qualifying as is directed for other officers, proceed to enlist by voluntary enlistments in his company, a sufficient number of young men as before described. And as the men of such light company shall from time to time arrive at the age of twenty-five years, the captain shall make report thereof to the commanding officer of the battalion, who shall order them to be enrolled in the company, whose districts they may respectively live in, and deficiencies shall be supplied by new enlistments, and the said companies shall in all respects be subject to the same regulations and orders as the rest of the militia.

A company of cavalry, and a company of artillery, to be annexed to each division. SEC. XIV. *AND be it further enacted,* That the Governor with the advice of Council, shall and he is hereby empowered, to appoint and commission at their own discretion, at least one captain and two lieutenants in each division, who are hereby authorized and empowered to enlist by voluntary enlistment, and in such proportion to each officer respectively so appointed as the Executive shall direct, a company, to be denominated the company of artillery. In like manner commissions shall issue for at least one captain, two lieutenants, and one cornet, who shall also by voluntary enlistments, and in the same proportions to their respective ranks, enlist a company, to be denominated the company of cavalry. *Provided,* that the number of companies of artillery and of cavalry, shall not exceed one for each brigade.

Oaths of officers. SEC. XV. *AND be it further enacted,* That each and every officer appointed and commissioned by virtue of this act, shall previous to their entering on the execution of their respective offices, take the following oath:—"I do swear that I will be faithful and true to the commonwealth of Virginia, of which I profess myself to be a citizen, and that I will faithfully and justly execute the office of a _____ in the _____ regiment of the militia of Virginia, according to the best of my skill and judgment: So help me God."

Adjutant-general may convene brigade-majors and inspectors. SEC. XVI. THE adjutant-general shall have full power and authority to convene the brigade majors and inspectors, at such times and places as the good of the service may require, and he shall think proper, and generally to establish such rules and regulations for conducting the business of his department, as he may think expedient and necessary. Any brigade major or inspector, failing to attend such meeting, when duly notified thereof, not having a reasonable excuse for such failure, shall forfeit and pay fifty dollars, to be appropriated as the other fines are directed by this act.

Sec. XVII. THERE shall be a private muster of each company of grenadiers, light-infantry, riflemen, artillery and cavalry, once in every two months, except in the months of December, January and February, in every year; and every other company, formed by virtue of this act, once in three months, (except as before is herein excepted) to be appointed by the commanding officer thereof, at or as near as may be to the centre of his company district. There shall be a muster of each battalion in the month of May, in every year, to be appointed by the commanding officers of the regiments to which such battalions respectively belong, at, or as near as may be to the centre of the battalion, and a muster of each regiment in the month of October in every year, to be appointed by the brigadier general or commanding officer of the brigade, to which such regiment belongs, at, or as near as may be, to the centre of the regimental district; which said company, battalion, and regimental musters shall continue one day each, and no longer. Of the times and places of the said musters the brigadier generals or commanding officers of brigades for the time being, shall cause notice to be given to the commanding officers of regiments; the commanding officers of regiments shall give notice of the regimental and battalion musters to the commanding officers of battalions; the commanding officers of battalions shall give notice of the regimental and battalion musters, to the captains or commanding officers of the companies; and the captains or commanding officers of companies shall give notice of the regimental battalion and private musters, to every person of their respective companies; and to that end the commanding officers of companies shall have power to order so many of their sergeants as they shall think fit to give such notice, which may be done by personal summons by the said commanding officer, or sergeant so ordered, or by either of them leaving notice in writing at the usual place of abode of the person to be notified. The notice to be given by the commanding officers of brigades, regiments and battalions, shall be in writing delivered in person, or left at the usual place of abode of each person to be notified, either by such commanding officers themselves, or by such officer or officers of their respective commands, as they may think fit to order. The said notices shall be given by the commanding officers of the brigade, to the commanding officers of regiments at least thirty days; by the commanding officers of regiments to the commanding officers of battalions, at least fifteen days; by the commanding officers of battalions to the commanding officers of companies, at least ten days; and by the commanding officers of companies to each person in their companies at least five days before such regimental, battalion, or private musters, (as the case may be) shall be appointed to be had. Any officer ordered as aforesaid to give such notices, and failing therein, shall for every offence forfeit and pay twenty dollars: And every sergeant so failing shall forfeit and pay three dollars for every such failure, to be recovered as other fines hereafter to be established. Every officer and soldier shall appear at his respective muster, field on the day appointed, by eleven o'clock in the forenoon. At every muster, each captain or commanding officer of a company shall call his roll, examine every person belonging thereto; and note down all delinquencies occurring therein, and make return thereof at the next regimental or battalion muster to the commanding officer of his battalion, including those which may occur on that day. And every commanding officer of a battalion, shall at their regimental or battalion musters (as the case may be) in like manner call his roll, examine and note down all delinquencies to his battalion, and make return thereof, together with those reported from commanding officers of companies, to the commanding officer of the regiment to which he belongs, on the day next succeeding such regimental or battalion musters, (as the case may be) who shall lay the whole before the court hereafter appointed to take cognizance of, and determine on them; *Provided*, that the commanding officer of a battalion shall not be obliged to extend his roll call, or individual examination, beyond the officers, unless he shall observe some apparent necessity therefor; and to each of the said returns shall be annexed the following certificate, to wit: "I do certify that the returns hereunto annexed, contain all the delinquencies which have occurred in my company since my last return, having examined the same as the law directs." And to the battalion returns shall be added, "and that the reports which accompany them, are all which have been made by the commanding officers of battalions."

Musters of the companies;
Of the battalions;
Of the regiments;
Notice of them, by whom & how to be given;
Penalties of officers, and sergeants failing to give the notices;
Rolls to be called, and delinquencies noted;
Form of return of delinquencies.

Sec. XVIII. EVERY captain or commanding officer of a company, shall within ten days after every regimental and battalion muster, make up and report to the commanding officer of his battalion, a return of his company, in such manner and form as shall be furnished by the proper officer from time to time. It shall be the duty of the commanding officers of battalions to make like returns to the commanding officers of regiments in ten days after such regimental or battalion musters, who shall cause the adjutant of his regiment to make like returns thereof to their respective brigade inspectors within thirty days thereafter.

Returns of companies;
Of battalions;
Of regiments;

Sec. XIX. EACH captain or commanding officer of a company, shall appoint to his company any four sergeants, four corporals, a drummer, and fifer, to be approved of by the commanding officer of his battalion, and all vacancies, which may thereafter happen, shall be filled up by appointments in like manner.

Drummer and fifer to be appointed to each company.

Sec. XX. IN all cases of death, absence or resignation, of any lieutenant colonel commanding, major, or captain, the next officer in rank in his respective command, shall be considered as the commanding officer during such vacancy, and liable to perform the duties required by this act, and for neglect therein, shall incur the penalties annexed thereto.

The officer next in rank to take command, in the absence of his superior.

Sec. XXI. IT shall be the duty of every commander of a regiment, battalion, or company, at every of their respective musters, to cause the militia to be exercised and trained agreeable to the mode of discipline prescribed by Congress, under pain of being arrested and

Militia to be exercised.

tried for breach of their duty, and for this purpose the said officers are hereby authorized to order the most expert and fit officer in their respective commands, to perform that duty.

Officers to be furnished with printed copies of the rules of discipline.

SEC. XXII. AND to the end that a general knowledge of the rules of discipline established by Congress in their resolution of the twenty-ninth day of March, one thousand seven hundred and seventy-nine, may be diffused, the Executive is hereby authorized and required, to procure and have a sufficient number of copies of the said rules printed and bound in boards, to afford to every commissioned officer of the militia, one; and to cause them to be delivered to the commanding officers of brigades, to be by them duly distributed without delay; and upon the death, resignation, or removal of any officer, as aforesaid, the plan delivered him shall revert to the public, and the commanding officer of the battalion in which such vacancy shall occur, shall deliver the same to a new appointed officer, who may not have received one, and for defraying the necessary expense thereof, the Executive shall draw on the contingent fund.

Officers may be arrested for misbehaviour. Non commissioned officers & soldiers may be confined or bound neck & heels for disobedience or mutiny.

SEC. XXIII. ANY officer who shall be guilty of disobedience, or other misbehaviour when on duty, or shall at any time be guilty of any conduct unbecoming the character of an officer, shall be put under arrest by his commanding officer, and tried as hereafter shall be directed.

Bystanders may be confined for molesting any officer or soldier on duty.

SEC. XXIV. IF any non-commissioned officer, or soldier, shall behave himself disobediently or mutinously, when on duty, or before any court, or board directed by this act to be held, the commanding officer, court, or board, may confine him for the day, or cause him to be bound neck and heels for any time not exceeding five minutes.

Colours to be procured;

SEC. XXV. IF any bystander shall interrupt, molest, or insult any officer or soldier while on duty at any muster, or shall be guilty of like conduct before any court or board as aforesaid, the commanding officer, or such court or board, may cause him to be confined for the day.

Drums & fife, or bugle-horns

SEC. XXVI. THE commanding officers of regiments shall cause to be purchased, out of the money arising from the fines, a set of colours for his regiment, and also a set of colours for each battalion in his regiment. He shall also procure in like manner, for each company in his regiment, a drum and fife, or bugle-horn, and on the colours and drums shall be marked the number of the regiment and battalion, together with the name of the county to which they belong.

Militia to be called forth in case of invasion or insurrection.

SEC. XXVII. AND be it further enacted, That the Governor, with the advice of Council, be authorized and empowered, on any invasion or insurrection, or probable prospect thereof, to call forth such a number of militia, and from such counties as they may deem proper; and for the accommodation, equipment, and support of the militia, so at any time to be called forth, the Governor, with the advice aforesaid, may appoint such quarter-masters, commissaries, and other staff, as to them shall seem proper, and to fix their pay and allowances, and shall also take such measures for procuring, transporting, and issuing all stores which may be necessary, as to them shall seem best. Orders for the militia to be called forth, as aforesaid, shall be sent to the commanding officers of brigades, with a notification of the place or places of rendezvous, who shall immediately take measures for detaching the same, with the necessary number, and ranks of officers by detail and rotation of duty.

Each company to be furnished with a waggon, team, &c. by impressment or otherwise.

SEC. XXVIII. THE lieutenant colonel commandant, or commanding officers of regiments from which such detachments are drawn, shall cause to be procured by impressment or otherwise, for each company, a waggon, team, and driver, six axes, and six camp-kettles, or pots of convenient size, all which shall be delivered to the commanding officer of the company, who shall be accountable for returning the same when his tour is over, and the articles aforesaid shall be returned to the owners, who shall be allowed for the use of the same, whatever shall be adjudged by the court herein-after appointed for enquiring into delinquencies: And to the end that if any article impressed, be lost, the owner may be paid for the same, the lieutenant colonel commandant, or commanding officer, shall cause all property by him impressed by virtue of this act, to be valued by two or more freeholders on oath, before the same shall be sent away; and upon proof being made of any article being lost, the valuation thereof shall be allowed, without any allowance for the use, and the said allowance shall be certified to the auditor of public accounts. The said court shall make enquiry into the cause of such loss, and if it shall appear that the said loss was occasioned by the misconduct or inattention of any officer, the lieutenant colonel commandant, or commanding officer, is hereby authorized and required to prosecute a suit against such officer for the recovery of damages for the use of the commonwealth.

Articles impressed to be valued,

and the owners paid therefor if lost;

Officers answerable to the public, if lost thro' neglect.

Executive to appoint officers when necessary

SEC. XXIX. IF it shall appear to the Executive, upon calling forth the militia as aforesaid, that the necessary number and ranks of officers will not attend the detachments for officering them at the places of rendezvous, the Governor, with the advice of Council, is hereby authorized to appoint such officers as may be necessary from the counties called upon, as they may think proper, to join the detachment so raised.

Commanding officer in a county may order out militia in invasions or insurrections.

SEC. XXX. IF a sudden invasion shall be made into any county in this commonwealth, or in case of an insurrection in any county, the commanding officer in such county is hereby authorized and required, to order out the whole or such part of his militia as he may think necessary, and in such manner as he may think best, for repelling or suppressing such insurrection, and shall call on the commanding officers of regiments in the adjacent counties, for such aid as he

may think necessary, who shall forthwith in like manner furnish the same; and for assembling the militia required upon such occasions, or by orders of the Executive, the same measures shall be taken to summon them as is directed in the case of mutlers.

Sec. XXXI. **WHENEVER** any militia shall be called forth into actual service as aforesaid, they shall be governed by the articles of war which govern the troops of the United States. And courts-martial shall be held as are therein directed, to be composed of militia officers only, for the trial of any person in the militia; but to the cashiering of any officer, or capital punishment of any person, the approbation of the Executive shall be necessary; and when any militia shall be in actual service, they shall be allowed the same pay and rations as are allowed by the Congress of the United States to the troops in the service of the United States.

Militia in service to be governed by the articles of war of the United States.
Their pay and rations;

Sec. XXXII. **AND be it further enacted,** That the commanding officer of every battalion of militia, shall from time to time, as he shall deem it necessary, appoint an officer, and so many men of the militia as to him shall seem necessary, not exceeding four, once in every month, or oftener if thereto required by such officer, to patrol and visit all negro quarters and other places suspected of entertaining unlawful assemblies of slaves, servants, or other disorderly persons, as aforesaid, unlawfully assembled, or any others strolling about from one plantation to another, without a pass from his or her master, mistress, or owner, and carry them before the next justice of the peace, who, if he shall see cause, is hereby required to order every such slave, servant, stroller, or other disorderly person as aforesaid, to receive any number of lashes, not exceeding twenty, on his or her bare back; and in case one company of patrollers shall not be sufficient, more companies may in like manner be ordered for the same service. And after every patrol, the officer of every party shall return to the captain of the company to which he belongs, a report in writing upon oath (which oath such captain is hereby empowered to administer) of the names of those of his party who were upon duty, and of the proceedings of such patrol; and such captain shall once in every month deliver such patrol returns to the commanding officer of his battalion, by whom they shall be certified and laid before the next court-martial; and if they shall adjudge the patrollers to have performed their duty according to law, the said court shall certify the same to the county court, who are thereupon empowered and required to levy fifty cents for every twelve hours each of them shall so patrol; and every commanding officer failing to appoint patrollers according to the directions of this act, shall forfeit and pay thirty dollars; and every person appointed to patrol, failing to do his duty, shall forfeit and pay three dollars for every such failure; which fines, shall be laid, collected, accounted for, and appropriated as is herein directed for laying, accounting for, and appropriating the several fines and penalties by this act directed.

Patrollers to be appointed;
Their duty;
Their pay;
Penalty for failing to do their duty;

Sec. XXXIII. **AND WHEREAS** it is necessary that certain tribunals be instituted for the trial of offences as they are to be viewed in a military light, as well as for enquiring into delinquencies and assessing fines thereon: *Be it therefore enacted,* That the Governor shall have power to arrest the major generals and all other officers for any misconduct whatever, and upon trial and conviction, may censure or cashier them; a lieutenant colonel commandant may arrest any officer under his command, and report him to the Governor for trial, or at the option of such lieutenant colonel commandant, a general court-martial, to consist of thirteen officers, may by his order be held within the limits of his regimental district, for trial of such as shall be under the rank of a field officer. The president of the said court shall be a field officer, and six at least of the members shall be captains, and where there is not a sufficient number of officers in any regiment to constitute a court where the arrest is made, the commanding officer of the regiment may call upon the commanding officer of any adjacent regiment, to order as many officers from such regiment as will be sufficient to make a court, and such court may, on conviction, censure or cashier any officer so tried, and their sentence shall be final; saving to such officer an appeal to the executive, if he shall think proper, in which case the commanding officer shall furnish him with a copy of the proceedings of the said court. Any non-commissioned officer, or soldier, offending, shall be tried by a like general court martial, and may, on conviction, be censured or fined at the discretion of the court. For obtaining the necessary evidence for the trials aforesaid, the governor, or the commanding officer of the regiment (as the case may be) shall issue his summons, and any person so summoned failing to attend, shall forfeit and pay, upon a summons from the governor, thirty dollars, and upon a summons from the commanding officer of a regiment, fifteen dollars; to be reported by the commanding officer, amongst other delinquencies, to the court aforesaid.

Courts-martial to be held for the trial of officers;
Officers, by whom to be arrested.
Appeals may be made from the sentence of a court-martial to the Executive;
Evidence, how to be procured,

Sec. XXXIV. **AND be it further enacted,** That the commanding officers of regiments shall, on some day in the months of May and October, not exceeding fifteen, nor less than ten days after their regimental and battalion musters, order the commanding officers of battalions and of companies, to meet at the places where their last battalion musters respectively were held, a majority of whom shall form a court of enquiry and assessment of fines, and it shall be the duty of the lieutenant colonel commandant to preside at such boards, and in case of his absence by sickness or otherwise, the next officer in rank shall preside. The said court shall take the following oath, to be administered by the senior officer present, and afterwards by any other officer of the said board to him, to wit: "I do swear, that I will truly and faithfully, enquire into all delinquencies which appear on the returns to be laid before me, and will assess the fines thereon as shall seem just, without favor, partiality, or affection," "So help me GOD." The lieutenant colonel commandant shall then lay before the said court

Courts for assessment of fines, when & where to be held;

all delinquencies, as directed by this act, whereupon they shall proceed to hear and determine on them.

Fines to be collected by the sheriff.

SEC. XXXV. ALL fines to be assessed by virtue of this act, shall be collected by the sheriff of the county, upon a list thereof certified by the clerk of the said court, and delivered to the sheriff, on or before the first day of January, in every year, who shall give his receipt therefor, and account for the same to the lieutenant colonel commandant, or his successor, and be allowed the same commissions as for other public monies, on or before the first day of November in the same year; and on failure, the commanding officer, or his successor, shall, on ten days previous notice, obtain judgment for the same in the county or corporation court with costs; and should any person so charged with fines, fail to make payment on or before the first day of May, in any year, the sheriff is hereby authorized to make distress and sale therefor, in the same manner as is directed in the collection of the taxes.

by distress, when necessary.

Officers to render accounts of fines received.

SEC. XXXVI. THE commanding officer of every regiment shall on or before the thirty first day of December, in every year, render to the Executive an account upon oath of all monies which have come into his hands by virtue of his office, and of his disbursements; and if there shall remain any money in his hands, the same shall be paid into the treasury in aid of the contingent fund.

Fines to be paid for delinquencies; By a commanding officer of a regiment.

SEC. XXXVII. AND for enforcing obedience to this act, *Be it enacted*, That the following forfeitures and penalties shall be incurred for delinquencies, viz. By a lieutenant-colonel commandant, or commanding officer of a regiment, for failing to take any oath, to summon any court or board, to attend any court or board, to transmit any recommendation of an officer or officers to the governor, to deliver any commission or commissions, to appoint a regimental or battalion muster, to report delinquencies, to make returns of his regiment as by this act directed, shall for each and every such offence or neglect, forfeit and pay seventy dollars; failing to send into actual service any militia legally called for, or to turn out his militia upon any invasion or insurrection of his county, two hundred dollars. By a major for failing to take any oath, to attend any court or board, to give notice of any regimental or battalion muster, to examine his battalion, to report delinquencies, or to make any return as directed by this act, he shall forfeit and pay for each and every offence or neglect, thirty dollars; failing to call forth from his battalion with due dispatch, any detachment of men and officers, as shall be required from time to time by the commanding officer, or any call from the governor, in invasion of or insurrection in his county, or requisition from any neighbouring county, eighty dollars. By a captain for failing to take an oath, to attend any court, to enroll his company, to appoint private musters, to give notice of a regimental or battalion muster, to attend any muster armed, to call his roll, examine his company and report delinquencies, to make any return as directed by this act, he shall forfeit and pay for each and every such offence and neglect, twenty dollars; failing to call forth such officers and men as shall from time to time be legally called from his company, upon any call from the Governor, in invasion of, or insurrection in the county, or requisition from an adjacent county, or failing on any such occasion to repair to the place of rendezvous, he shall forfeit and pay forty dollars. By a subaltern officer for failing to take any oath, to attend any court, or muster armed as directed, for each and every such offence he shall forfeit and pay ten dollars; failing to repair to the place of rendezvous, armed as required; when ordered upon any call from the Governor, in invasion of, or insurrection in the county, or requisition from a neighbouring county, he shall forfeit and pay twenty dollars; And moreover the said officers, for any of the said offences, shall be liable to be arrested and tried for the same as military offenders. By a non-commissioned officer or soldier, for failing to attend at any muster, armed and equipped as directed by law, fifty cents; failing to repair to his rendezvous when ordered, upon any call from the Governor, in invasion of, or insurrection in the county, or requisition from a neighbouring county, he shall forfeit and pay ten dollars.

By a major;

By a captain;

By a subaltern;

By a non-commissioned officer or private.

Arms, &c. of militia exempted from executions, distresses, &c. and their persons from arrests, at musters and in service.

SEC. XXXVIII. ALL arms, ammunition, and equipments of the militia, shall be exempted from executions and distresses at all times, and their persons from arrests in civil cases, while going to, continuing at, or returning from musters, and while in actual service.

SEC. XXXIX. THE commanding officers of regiments shall on the day of his regimental muster first to be held under this act, his muster being over, order the majors and captains of his regiment to assemble at some convenient place, at or near the muster-ground, and then and there appoint by ballot a clerk and provost martial, who shall attend the courts or boards herein before directed to be held; such clerk shall keep a fair record of the proceedings of such courts or boards, as also of the roster returned by the several captains or commanding officers of companies for regular routine of duty, and all other duties required by this act; and together with the provost martial, receive such allowance, to be paid out of the fines arising from delinquencies, as the court or board shall think reasonable.

Richmond, Williamsburg, and Norfolk militia to be under the like regulations as the militia of the counties.

SEC. XL. THE militia of the city of Williamsburg, city of Richmond, and borough of Norfolk, shall have their officers appointed, and be under the same rules and regulations as the different counties.

SEC. XLI. THE commanding officers of regiments are hereby empowered to receive the commission of any officer in his regiment, who may think proper to resign, and shall notify such resignation to the next succeeding court, in order that such vacancy may be supplied.

Sec. XLII. ANY court martial may for good cause shewn, remit any fines imposed by a former court martial, provided that not more than two courts martial shall have intervened between such imposition and application for remission.

Courts martial may remit fines;

Sec. LXIII. COURTS martial may exempt any militia man from duty on account of bodily infirmity, and may again direct such persons to be inrolled when able to do duty.

And exempt persons from militia duty for bodily infirmities.

Sec. LXIV. FOR the trial and punishment of the adjutant general, major generals, and brigadier generals, *Be it enacted*, that any major general or brigadier general offending under this act, shall be arrested and tried in the following manner, viz: A major general shall be arrested by the commander in chief of the state upon any misconduct of his own knowledge, or upon complaint lodged in writing by any commissioned officer, who shall thereupon order a general court martial, to consist if convenient of the remaining major generals, the brigadier generals of the division, over which such major general is appointed, or as many of them as can conveniently attend, and as many lieutenant colonel commandants and majors, as shall make up the number of thirteen in the whole, who shall constitute a court martial for the trial of such offenders. Any brigadier general may in like manner be arrested for any offence committed under this act, by the commander in chief of the state, or by the major general of the division to which he belongs, and tried by a court martial, to consist of one major general, and not more than four brigadiers, and as many lieutenant colonel commandants, majors, and captains, as will be sufficient to constitute a court, to consist of thirteen members in the whole, which courts shall proceed to hear and determine all such offences, and give judgment according to the right of the case, to be approved or disapproved by the commanding officer of the state.

Courts martial for the trial of general officers.

By whom they may be arrested.

Sec. LXV. *AND be it further enacted*, That the adjutant general shall be allowed four hundred dollars per year; and that each brigade inspector shall be allowed one hundred and fifty dollars per year, for the duties herein required of them, to be paid by the treasurer, on warrant from the auditor, who is hereby authorized and required to grant the same quarterly, on proper application being made.

Salaries of the adjutant general and brigade inspectors.

Sec. LXVI. THIS act shall commence and be in force from and after the passing thereof.

Commencement of this act.

C H A P. V.

An ACT for reducing into one, the several Acts concerning Executions, and for the relief of Insolvent Debtors.

[Passed December the 13th, 1792.]

SECTION I. *BE it enacted by the General Assembly*, That all persons recovering any debt, damages or costs, by the judgment of any court of record within this commonwealth, may, at their election, prosecute writs of *fieri facias*, *elegit*, and *capias ad satisfaciendum*, within the year, for the taking the goods, lands, or body of the person or persons against whom such judgment is obtained, in manner following: All such writs shall run in the name of the commonwealth, and bear teste by the clerks of the said courts respectively, shall be returnable to the first day of the next succeeding court, so that there be always at least fifteen days between the teste and return of each of the said writs: *Provided*, that executions may be issued from the General Court returnable to the second term of the said court, following the day of issuing the same; and that executions shall issue to any sheriff or coroner from the clerks of the District Courts, and be returnable to the first day thereof. *And provided also*, that if the plaintiff in any county or other inferior court, shall desire an execution to issue, returnable, at a further day, the clerk shall issue the same accordingly, so as the day of such return be upon a court day within ninety days next after the teste thereof, and that the forms of the said several writs shall be as follows, *mutatis, mutandis*, to wit;

Writs of execution.

How to be issued and returned.

Fifteen days at least between teste & return.

From the general and district courts, when returnable.

Forms of the writs.

“ A FIERI FACIAS IN DEBT.

“ THE commonwealth of Virginia, to the sheriff of _____ county, greeting: WE command you, that of the goods and chattels of A. B. late in your balliwick, you cause to be made the sum of _____, which C. D. lately in our _____ court hath recovered against him for debt; also the sum of _____, which to the said C. D. in the same court were adjudged for his damages, as well by reason of detaining the said debt, as for his costs in that suit expended, whereof he is convicted, as appears to us of record, and that you have the said _____ before the judges or justices (as the case may be) of our said court, the _____ day of _____, to render to the said C. D. of the debt and damages aforesaid. And have then there this writ. Witness, &c.”

Against goods and chattels.

Debt.

The same in case, upon a Promise:

AS before unto _____, for his damages, which he sustained, as well by reason of his not performing a certain promise and assumption to the said C. D. by the said A. B. lately made, as for his costs by him about his suit in this behalf expended, &c.”

Case, assumption.

EXHIBIT "15"

States, and for appropriating the same, took effect: *And provided also*, That such allowance shall not exceed the annual amount of seventy thousand dollars, until the same shall be further ascertained by law.

not to exceed \$70,000.

SEC. 17. *And be it further enacted*, That the act, intituled "An act repealing after the last day of June next, the duties heretofore laid upon distilled spirits imported from abroad and laying others in their stead, and also upon spirits distilled within the United States, and for appropriating the same," shall extend to and be in full force for the collection of the several duties herein before mentioned and for the recovery and distribution of the penalties and forfeitures herein contained and generally for the execution of this act, as fully and effectually as if every regulation, restriction, penalty, provision, clause, matter, and thing therein contained were inserted in and re-enacted by this present act, subject only to the alterations hereby made.

Certain act in force for collection of the duties, &c. herein.

1791, ch. 15.

APPROVED, May 8, 1792.

STATUTE I.

CHAP XXXIII.—*An Act more effectually to provide for the National Defence by establishing an Uniform Militia throughout the United States.*(a)

May 8, 1792.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled* That each and every free able-bodied white male citizen of the respective states, resident therein, who is or shall be of the age of eighteen years, and under the age of forty-five years (except as is herein after excepted) shall severally and respectively be enrolled in the militia by the captain or commanding officer of the company, within whose bounds such citizen shall reside, and that within twelve months after the passing of this act. And it shall at all times hereafter be the duty of every such captain or commanding officer of a company to enrol every such citizen, as aforesaid, and also those who shall, from time to time, arrive at the age of eighteen years, or being of the age of eighteen years and under the age of forty-five years (except as before excepted) shall come to reside within his bounds; and shall without delay notify such citizen of the said enrolment, by a proper non-commissioned officer of the company, by whom such notice may be proved. That every citizen so enrolled and notified, shall, within six months thereafter, provide himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints, and a knapsack, a pouch with a box therein to contain not less than twenty-four cartridges, suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball: or with a good rifle, knapsack, shot-pouch and powder-horn, twenty balls suited to the bore of his rifle and a quarter of a pound of powder; and shall appear, so armed, accoutred and provided, when called out to exercise, or into service, except, that when called out on company days to exercise only, he may appear without a knapsack. That the commissioned officers shall severally be armed with a sword or hanger and esponton, and that from and after five years from the passing of this act, all muskets for arming the militia as herein required, shall be of bores sufficient for

Militia how and by whom to be enrolled.

How to be armed and accoutred.

1803, ch. 15.

(a) The acts for the establishment of an uniform system for the government of the militia, are: An act more effectually to provide for the national defence by establishing an uniform militia throughout the United States, May 8, 1792, chap. 33; an act providing arms for the militia throughout the United States, July 6, 1798, chap. 65; an act in addition to an act entitled, "An act more effectually to provide for the national defence, by establishing an uniform militia throughout the United States," March 2, 1803, chap. 15; an act more effectually to provide for the organizing of the militia of the District of Columbia, March 3, 1803, chap. 20; an act establishing rules and articles for the government of the armies of the United States, April 10, 1806, chap. 20; an act in addition to the act entitled, "An act to provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and to repeal the act now in force for those purposes," April 19, 1814, chap. 82; an act concerning field officers of the militia, April 20, 1816, chap. 64; an act to establish an uniform mode of discipline and field exercise for the militia of the United States, May 12, 1820, chap. 97; an act to reduce and fix the military peace establishment of the United States, March 2, 1821, chap. 13, sec. 14.

balls of the eighteenth-part of a pound. And every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales, for debt or for the payment of taxes.

Executive officers, &c. exempted.

SEC. 2. *And be it further enacted,* That the Vice President of the United States; the officers judicial and executive of the government of the United States; the members of both Houses of Congress, and their respective officers; all custom-house officers with their clerks; all post-officers, and stage drivers, who are employed in the care and conveyance of the mail of the post-office of the United States; all ferrymen employed at any ferry on the post road; all inspectors of exports; all pilots; all mariners actually employed in the sea service of any citizen or merchant within the United States; and all persons who now are or may hereafter be exempted by the laws of the respective states, shall be, and are hereby exempted from militia duty, notwithstanding their being above the age of eighteen, and under the age of forty-five years.

1810, ch. 37, sec. 33.

Militia how to be arranged, and

SEC. 3. *And be it further enacted,* That within one year after the passing of this act, the militia of the respective states shall be arranged into divisions, brigades, regiments, battalions and companies, as the legislature of each state shall direct; and each division, brigade and regiment, shall be numbered at the formation thereof; and a record made of such numbers in the adjutant-general's office in the state; and when in the field, or in service in the state, each division, brigade and regiment shall respectively take rank according to their numbers, reckoning the first or lowest number highest in rank. That if the same be convenient, each brigade shall consist of four regiments; each regiment of two battalions; each battalion of five companies; each company of sixty-four privates. That the said militia shall be officered by the respective states, as follows: To each division, one major-general and two aids-de-camp, with the rank of major; to each brigade, one brigadier-general, with one brigade inspector, to serve also as brigade-major, with the rank of a major; to each regiment, one lieutenant-colonel commandant; and to each battalion one major; to each company one captain, one lieutenant, one ensign, four sergeants, four corporals, one drummer and one fifer or bugler. That there shall be a regimental staff, to consist of one adjutant and one quartermaster, to rank as lieutenants; one paymaster; one surgeon, and one surgeon's mate; one sergeant-major; one drum-major, and one fife-major.

by whom officered.

1803, ch. 15, sec. 3.

Each battalion to have one company of grenadiers, &c. and one company of artillery.

SEC. 4. *And be it further enacted,* That out of the militia enrolled, as is herein directed, there shall be formed for each battalion at least one company of grenadiers, light infantry or rifle men; and that to each division there shall be at least one company of artillery, and one troop of horse: there shall be to each company of artillery, one captain, two lieutenants, four sergeants, four corporals, six gunners, six bombardiers, one drummer, and one fifer. The officers to be armed, with a sword or hanger, a fusee, bayonet and belt, with a cartridge-box to contain twelve cartridges; and each private or matross shall furnish himself with all the equipments of a private in the infantry, until proper ordnance and field artillery is provided. There shall be to each troop of horse, one captain, two lieutenants, one cornet, four sergeants, four corporals, one saddler, one farrier, and one trumpeter. The commissioned officers to furnish themselves with good horses of at least fourteen hands and an half high, and to be armed with a sword and pair of pistols, the holsters of which to be covered with bearskin-caps. Each dragoon to furnish himself with a serviceable horse, at least fourteen hands and an half high, a good saddle, bridle, mailpillion and valise, holsters, and a breast-plate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and a cartouch-box, to contain twelve cartridges for pistols. That each company of artillery and troop of horse shall be formed of volunteers from the brigade, at the

Officers how to be armed.

Troops of horse how officered, &c.

Artillery and horse of whom to be formed;

discretion of the commander-in-chief of the state, not exceeding one company of each to a regiment, nor more in number than one eleventh part of the infantry, and shall be uniformly clothed in regimentals, to be furnished at their own expense; the colour and fashion to be determined by the brigadier commanding the brigade to which they belong.

to be uniformly clad at their own expense.

1803, ch. 15.

SEC. 5. *And be it further enacted,* That each battalion and regiment shall be provided with the state and regimental colours by the field officers, and each company with a drum and fife, or bugle-horn, by the commissioned officers of the company, in such manner as the legislature of the respective states shall direct.

What colors &c. and by whom to be furnished.

SEC. 6. *And be it further enacted,* That there shall be an adjutant-general appointed in each state, whose duty it shall be to distribute all orders from the commander-in-chief of the state to the several corps; to attend all public reviews when the commander-in-chief of the state shall review the militia, or any part thereof; to obey all orders from him relative to carrying into execution and perfecting the system of military discipline established by this act; to furnish blank forms of different returns that may be required, and to explain the principles on which they should be made; to receive from the several officers of the different corps throughout the state, returns of the militia under their command, reporting the actual situation of their arms, accoutrements, and ammunition, their delinquencies, and every other thing which relates to the general advancement of good order and discipline: all which the several officers of the divisions, brigades, regiments, and battalions, are hereby required to make in the usual manner, so that the said adjutant-general may be duly furnished therewith: from all which returns he shall make proper abstracts, and lay the same annually before the commander-in-chief of the state.

Adjutant-general in each state, his duty.

1803, ch. 15.

SEC. 7. *And be it further enacted,* That the rules of discipline, approved and established by Congress in their resolution of the twenty-ninth of March, one thousand seven hundred and seventy-nine, shall be the rules of discipline to be observed by the militia throughout the United States, except such deviations from the said rules as may be rendered necessary by the requisitions of this act, or by some other unavoidable circumstances. It shall be the duty of the commanding officer at every muster, whether by battalion, regiment, or single company, to cause the militia to be exercised and trained agreeably to the said rules of discipline.

Rules of discipline.

SEC. 8. *And be it further enacted,* That all commissioned officers shall take rank according to the date of their commissions; and when two of the same grade bear an equal date, then their rank to be determined by lot, to be drawn by them before the commanding officer of the brigade, regiment, battalion, company, or detachment.

Officers how to take rank.

SEC. 9. *And be it further enacted,* That if any person, whether officer or soldier, belonging to the militia of any state, and called out into the service of the United States, be wounded or disabled while in actual service, he shall be taken care of and provided for at the public expense.

Provision in case of wounds, &c.

SEC. 10. *And be it further enacted,* That it shall be the duty of the brigade-inspector to attend the regimental and battalion meetings of the militia composing their several brigades, during the time of their being under arms, to inspect their arms, ammunition, and accoutrements; superintend their exercise and manœuvres, and introduce the system of military discipline before described throughout the brigade, agreeable to law, and such orders as they shall from time to time receive from the commander-in-chief of the state; to make returns to the adjutant-general of the state, at least once in every year, of the militia of the brigade to which he belongs, reporting therein the actual situation of the arms, accoutrements, and ammunition of the several corps, and every other thing which, in his judgment, may relate to their government and the

Brigade inspector's duty.

1803, ch. 15.

general advancement of good order and military discipline; and the adjutant-general shall make a return of all the militia of the state to the commander-in-chief of the said state, and a duplicate of the same to the President of the United States.

Artillery &c.
now existing,

And whereas sundry corps of artillery, cavalry, and infantry now exist in several of the said states, which by the laws, customs, or usages thereof have not been incorporated with, or subject to the general regulations of the militia:

to retain their
privileges.

SEC. 11. *Be it further enacted*, That such corps retain their accustomed privileges, subject, nevertheless, to all other duties required by this act, in like manner with the other militia.

APPROVED; May 8, 1792.

STATUTE I.

May 8, 1792.

CHAP. XXXIV.—*An Act relative to the compensations to certain officers employed in the collection of the duties of impost and tonnage.*

[Obsolete.]
Additional
specific allow-
ance from 1st of
July next to cer-
tain surveyors
and collectors.
1790, ch. 35.
sec. 53.
Act of March
2, 1799, ch. 23.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That from and after the last day of June next, in addition to the fees and emoluments which may accrue to the officers employed in the collection of the duties of impost and tonnage, by the provisions already made, they shall severally have and be entitled to the respective allowances following, to wit: The surveyors of Newburyport, Salem, St. Mary's and Wilmington, in North Carolina, the yearly sum of one hundred dollars each; the surveyors of Beverly, North Kingston, East Greenwich, Warren, Bristol, Pawcatuck river, Providence, Patuxet, New Haven, Lewellensburgh, Alexandria, Beaufort, Hertford, Winton, Bennet's creek, Plymouth, Windsor, Skewarkey, Murfreesborough, Nixonton, Indiantown, Currituck inlet, Pasquotank river bridge, and Newbiggen creek, the yearly sum of eighty dollars each; the surveyor of Portsmouth, the yearly sum of sixty dollars; the surveyors of Ipswich, Portland, Newport, Stonington, Middleton, Bermuda hundred, Petersburg, Richmond, and Savannah, the yearly sum of fifty dollars each; the surveyors of Gloucester, New London, and Swansborough, the yearly sum of thirty dollars each; the surveyors of Hudson, Little Egg Harbour, Suffolk, Smithfield, Urbanna, and Fredericksburg, the yearly sum of twenty dollars each; the collector of the district of Wilmington, in North Carolina, the yearly sum of one hundred and fifty dollars; the collectors of the districts of Portsmouth, Gloucester, Albany, Annapolis, Vienna, Nottingham, Yorktown, Dumfries, and Louisville, the yearly sum of one hundred dollars each; the collector of the district of Fairfield, the yearly sum of eighty dollars; the collectors of the districts of Marblehead, Plymouth, Barnstable, Nantucket, New Bedford, Dighton, York, Biddeford, and Pepperelborough, Bath, Wiscasset, Machias, Newport, New Haven, Perth Amboy, Great Egg Harbour, Wilmington, in Delaware, Chester, Cedar Point, Georgetown, Hampton, South Quay, Washington, Plank Bridge, and Georgetown, in South Carolina, the yearly sum of fifty dollars each; the naval officer of the district of Portsmouth, the yearly sum of one hundred dollars; the naval officers of the districts of Newburyport, Newport, Providence, Wilmington, in North Carolina, and Savannah, the yearly sum of fifty dollars each; the collector of the district of Salem and Beverly, one fourth of one per centum on the amount of all monies by him received on account of the said duties; and to the collectors of the districts of Portsmouth, Newburyport, Gloucester, Marblehead, Plymouth, Nantucket, Edgartown, New Bedford, Dighton, York, Biddeford, and Pepperelborough, Portland, Bath, Wiscasset, Penobscot, Frenchman's bay, Machias, Newport, Providence, New Haven, Fairfield, Perth Amboy, Burlington, Great Egg Harbour, Wilmington, in Delaware, Oxford, Vienna, Snowhill, Annapo-

EXHIBIT "16"

HISTORY AND TRADITION IN MODERN CIRCUIT CASES ON THE SECOND AMENDMENT RIGHTS OF YOUNG PEOPLE

David B. Kopel* & Joseph G.S. Greenlee**

I. INTRODUCTION

This Article surveys nineteenth century laws and cases that restricted arms ownership based on age. We analyze the nineteenth century statutes and cases through the lens of five federal Circuit Court of Appeals cases involving restrictions on the Second Amendment rights of young people.

Part II examines *Rene E.*, a First Circuit case. Because *Rene E.* relied on nineteenth century cases, Part II analyzes those cases.

Part III is the Fifth Circuit's *NRA v. BATF*, which cited nineteenth century statutes, some of which had led to the cases that *Rene E.* cited. So, Part III reviews the statutes.

Parts IV, V, and VI each have shorter discussions of the other leading Circuit cases: *NRA v. McCraw* (5th Cir.) (carry permits); *Horsely v. Trame* (7th Cir.) (parental permission for gun license), and *Ezell v. Chicago* (7th Cir., "Ezell II") (ban on persons under 18 using firing ranges).

Because this Article focuses on post-*Heller* circuit court cases and their use of history, there are certain topics that we do not address. First, we discuss the Supreme Court's Second Amendment decisions only to the extent that they are discussed by the circuit opinions. Second, we do not discuss the history of colonial and Early Republic militia statutes. Those statutes typically set the minimum age for militia service at sixteen, although by the end of the eighteenth century the minimum age federally and in most states had been raised to eighteen. Third, we do not discuss contemporary gun control laws, except to the extent that particular laws are at issue in the circuit cases we analyze. All of the topics that we do not examine in this Article will be reviewed in depth in an Article in the next issue of this Journal.¹

II. UNITED STATES V. RENE E.

Rene E. was convicted of violating the federal ban on juvenile handgun possession, by possessing a handgun at age seventeen.² The First Circuit upheld the ban based “on the existence of a longstanding tradition of prohibiting juveniles from both receiving and possessing handguns.”³ The court considered (1) “contemporary federal restrictions on firearm and handgun possession by juveniles;” (2) “nineteenth-century state laws imposing similar restrictions;” and (3) “whether the Founders would have regarded prohibiting the juvenile possession of handguns as consistent with the Second Amendment right.”⁴ We will analyze the issues following *Rene E.*’s organization.

A. Congressional regulation of juvenile access to firearms

First, the court inaccurately summarized federal age-based firearms regulations, describing federal law as “prohibiting the sale of firearms to individuals less than twenty-one years old.”⁵ Actually, the 1968 law cited by the court applied only to a federally “licensed importer, licensed manufacturer, or licensed dealer,” and it allowed long gun sales to persons 18-to-20.⁶ There were not, and never have been, federal rules on private long gun possession by juveniles; it is a matter of state law. The same was true for handguns until 1993, when the Youth Handgun Safety Act, restricted, but did not ban, juvenile handgun possession.⁷

The *Rene E.* court emphasized that the allowances for juvenile possession made the statute less burdensome than the handgun ban struck down in *Heller*:

¹ David B. Kopel & Joseph G.S. Greenlee, *The Second Amendment Rights of Young Adults*, 43 S. ILL. U. L.J. (forthcoming 2019).

² *United States v. Rene E.*, 583 F.3d 8, 9 (1st Cir. 2009). 18 U.S.C. § 922(x)(2) (2018) provides: It shall be unlawful for any person who is a juvenile to knowingly possess--
(A) a handgun; or
(B) ammunition that is suitable for use only in a handgun.

³ *Rene E.*, 583 F.3d at 12.

⁴ *Id.* at 12–13.

⁵ *Id.* at 13.

⁶ Omnibus Crime Control and Safe Streets Act of 1968, Pub. L. No. 90-351, § 922(a)(1), 82 Stat. 197, 235 (1968) (codified at 18 U.S.C. § 922(a)(1); 18 U.S.C. § 922(b)(1) (2018) (prohibiting FFL transfer of “any firearm or ammunition to any individual who the licensee knows or has reasonable cause to believe is less than eighteen years of age, and, if the firearm, or ammunition is other than a shotgun or rifle, or ammunition for a shotgun or rifle, to any individual who the licensee knows or has reasonable cause to believe is less than twenty-one years of age.”).

⁷ Youth Handgun Safety Act, Pub. L. No. 103–159, 107 Stat. 1536 (1993) (codified as amended at 18 U.S.C. § 922(x)).

2018] The Second Amendment Rights of Young People 121

These exceptions permit juveniles to possess handguns for legitimate purposes, including hunting and national guard duty, as well as “in defense of the juvenile or other persons against an intruder into the residence of the juvenile or a residence in which the juvenile is an invited guest.” Thus, contrary to appellant’s suggestion, the ban on juvenile possession of handguns is not “even more complete” than the D.C. ban at issue in *Heller*, but contains important exceptions.⁸

B. Historic state cases on juvenile access to firearms

1. *Callicutt*: Tennessee’s Misinterpretation of the Right to Arms

Next, *Rene E.* considered state cases. The court pointed first to *State v. Callicutt*, decided by the Supreme Court of Tennessee in 1878.⁹ The law at issue had made it “a misdemeanor to sell, give, or loan a minor a pistol, or other dangerous weapon, except a gun for hunting, or weapon for defense in traveling.”¹⁰ The defendant “insisted that every citizen who is subject to military duty has the right ‘to keep and bear arms,’ and that this right necessarily implies the right to buy or otherwise acquire, and the right in others to give, sell, or loan to him.”¹¹ As quoted in *Rene E.*, the *Callicutt* court retorted: “we regard the acts to prevent the sale, gift, or loan of a pistol or other like dangerous weapon to a minor, not only constitutional as tending to prevent crime but wise and salutary in all its provisions.”¹²

Callicutt is poor precedent because it is based on the Tennessee Supreme Court’s interpretation of the Second Amendment in the 1840 case *Aymette v. State*.¹³ The *Heller* Court expressly denounced *Aymette*: “This odd reading of the right is, to be sure, not the one we adopt. . . .”¹⁴ Indeed, as

⁸ *Rene E.*, 583 F.3d at 13–14 (internal citations omitted).

⁹ *State v. Callicutt*, 69 Tenn. (1 Lea) 714 (1878).

¹⁰ *Id.* at 714.

¹¹ *Id.* at 716.

¹² *Id.* at 716–17; *Rene E.*, 583 F.3d at 14.

¹³ 21 Tenn. (2 Hum.) 154 (1840).

¹⁴ *District of Columbia v. Heller*, 554 U.S. 570, 613 (2008). In full, the U.S. Supreme Court said:

Those who believe that the Second Amendment preserves only a militia-centered right place great reliance on the Tennessee Supreme Court’s 1840 decision in *Aymette v. State*, 21 Tenn. 154. The case does not stand for that broad proposition; in fact, the case does not mention the word “militia” at all, except in its quoting of the Second Amendment. *Aymette* held that the state constitutional guarantee of the right to “bear” arms did not prohibit the banning of concealed weapons. The opinion first recognized that both the state right and the federal right were descendants of the 1689 English right, but (erroneously, and contrary to virtually all other authorities) read that right to refer only to “protect[ion of] the public liberty” and “keep[ing] in awe those who are in power,” *id.*, at 158. The court then adopted a sort of middle position, whereby citizens were permitted to carry arms openly, unconnected with any service in a formal militia, but were given the right to use them only for the military purpose of banding together to

the sentence from *Callicutt* immediately preceding the sentence quoted by the First Circuit explains, the *Callicutt* court was relying on the *Aymette*'s "odd reading of the right." The full paragraph from *Callicutt* states:

The cases of *Aymette v. State*, 2 Hum., 155, opinion by Judge Greene, and of *Page v. State*, 3 Heis., 198, opinion by Chief Justice Nicholson, sufficiently indicate the difference between the right and the wrong construction of the "right to keep and bear arms," etc., and we do not deem it necessary to do more than say that we regard the acts to prevent the sale, gift, or loan of a pistol or other like dangerous weapon to a minor, not only constitutional as tending to prevent crime but wise and salutary in all its provisions.¹⁵

2. *McMillan: Pennsylvania Ban on Handgun Sales to Persons under Sixteen*

After the quote from *Callicutt*, the First Circuit provided a string cite of other nineteenth and early twentieth century cases.¹⁶ First, was Pennsylvania's *McMillen v. Steele*.¹⁷ The case involved an 1880 statute that made it unlawful to "knowingly and willfully sell . . . to any person under the age of sixteen years, any cannon, revolver, pistol or other such deadly weapon."¹⁸ A storeowner was being sued because his store sold a firearm to a person under 16.

McMillen explained why the limit was set at 16: "The act of 1881 merely substitutes, for the proof necessary to show lack of capacity, the hard and fast rule of sixteen years of age. Children under that age have been legislatively declared utterly unfit to handle firearms. The negligent act is solely referable to the unlawful sale to a minor under sixteen."¹⁹ Persons 16 and above were held to a different standard than those below 16. Thus, *McMillen* did not support the ban on the 17-year-old in *Rene E*.

oppose tyranny. This odd reading of the right is, to be sure, not the one we adopt—but it is not petitioners' reading either.

¹⁵ *Callicutt*, 69 Tenn. at 716–17. *Page v. State*, 79 Tenn. (11 Lea) 202 (1883) dealt with bearing arms in public and contributes nothing to the discussion of age limitations.

¹⁶ *Rene E.*, 583 F.3d at 14.

¹⁷ *McMillen v. Steele*, 119 A. 721 (Pa. 1923).

¹⁸ *Id.* at 721; Act of June 10, 1881, § 1 (Pub. L. 111; Pa. St. 1920, § 10595). This statute was involved in another negligence case, *Shaffer v. Mowery*, 108 A. 654 (Pa. 1919), in which a 13-year-old purchased a cartridge from a general merchandise store.

¹⁹ *McMillen*, 119 A. at 722.

2018] The Second Amendment Rights of Young People 123

3. Cases not Addressing the Right to Arms

Second, *Rene E.* cited *State v. Quail*.²⁰ The *Quail* defendant unsuccessfully argued that a Delaware law prohibiting the concealed carrying of a deadly weapon (other than a pocket knife) did not apply to unloaded revolvers. The same statute made it unlawful to “knowingly sell a deadly weapon to a minor other than an ordinary pocket knife,” although that part of the statute was not at issue.²¹

The next case was *Tankersly v. Commonwealth* from the Court of Appeals of Kentucky—a three sentence opinion, in which the court declared that it did not have jurisdiction to hear an appeal to an indictment for selling a deadly weapon to a minor, because the punishment was not severe enough to qualify for an appeal.²²

The fourth case, *State v. Allen*, was decided by the Supreme Court of Indiana. Allen was accused of unlawfully bartering “to Wesley Powles, who was then and there a minor under the age of twenty-one years, a certain deadly and dangerous weapon, to wit: a pistol, commonly called a revolver, which could be worn or carried concealed about the person.”²³ Since the appeal was argued on procedural grounds, the constitutionality of the statute was not at issue.

The next case, *Coleman v. State*, was an Alabama appeal of an indictment founded on an 1856 statute making it a misdemeanor to “sell, or give, or lend” a pistol to “any male minor.”²⁴ Notably the Alabama statute did not apply to female minors. The constitutionality of the statute was not at issue in *Coleman*.

4. Georgia and Minnesota Tort Liability for Illegal Sale of Handgun to Minor

The sixth case, *Spires v. Goldberg*, involved tort liability for an injury that occurred after the defendants sold a pistol and cartridges to a boy around 14 years old.²⁵ The Georgia appellate court noted that a state statute “forbids the sale of pistols to minors and makes the violation of the statute a misdemeanor.”²⁶ The constitutionality of the law was not litigated; the question was whether the statutory violation constituted negligence.

²⁰ *State v. Quail*, 92 A. 859 (Del. Super. Ct. 1914).

²¹ *Id.*; 16 Del. Laws 716 (1881).

²² *Tankersly v. Commonwealth*, 19 S.W. 702, 703 (Ky. 1888).

²³ *State v. Allen*, 94 Ind. 441, 442 (1884).

²⁴ *Coleman v. State*, 32 Ala. 581, 582 (1858).

²⁵ *Spires v. Goldberg*, 106 S.E. 585 (Ga. Ct. App. 1921).

²⁶ *Id.* at 586.

The *Spires* court cited two cases “which come nearest to analogy.”²⁷ *Fowell v. Grafton* was a case from Ontario that involved the violation of a statute making it illegal to sell an airgun to a child under 16.²⁸ More relevant to this Article, *Binford v. Johnston* involved the violation of an Indiana statute prohibiting the sale of pistol cartridges to persons under 21.²⁹

The seventh case, *Schmidt v. Capital Candy Co.*, was about a Minnesota ordinance prohibiting the sale of fireworks and explosives to minors. The ordinance also made it “unlawful for any person or dealer . . . to sell, expose or offer for sale, or in any manner furnish or dispose of . . . to any minor person at any time, any blank cartridge, pistol or revolver.”³⁰ The case decided a question of liability, rather than the constitutionality of the ordinance.

5. Georgia: Minors Have No Constitutional Rights and Handguns can be Banned

As the First Circuit recognized, the statutes in all of the above cases were bans only on *sales*, and not on uncompensated transfers (except for the Alabama statute). None of the statutes criminalized possession by minors. So the First Circuit then looked for laws that “criminalized the mere *possession* of handguns by juveniles.”³¹

The first anti-possession case cited by the First Circuit was *Glenn v. State*.³² It challenged a 1910 Georgia statute that prohibited the carrying of firearms without a license and did not make licenses available to persons under 18.³³ The same statute made it illegal to “knowingly sell, or furnish, any minor with ‘any pistol, dirk, bowie knife, or sword cane, except under circumstances justifying their use in defending life, limb, or property.’”³⁴ The *Glenn* court interpreted the statute as a complete prohibition on persons under 18 from possessing pistols.³⁵ The interpretation is plainly incorrect, since the statute allowed possession for self-defense.

The *Glenn* court upheld the statute under the theory that minors have *no* rights that the legislature is bound to respect: “It is entirely within the

²⁷ *Id.* at 588.

²⁸ *Id.*

²⁹ *Binford v. Johnson*, 82 Ind. 426 (1882).

³⁰ *Schmidt v. Capital Candy Co.*, 166 N.W. 502, 503 (Minn. 1918).

³¹ *United States v. Rene E.*, 583 F.3d 8, 14 (1st Cir. 2009).

³² *Id.*

³³ *Glenn v. State*, 72 S.E. 927 (Ga. Ct. App. 1911).

³⁴ *Id.* at 928.

³⁵ *Id.* (“We conclude, therefore, that the act of 1910 not only prohibits minors under the age of 18 years from obtaining license to have a pistol or revolver on their persons, but that the clear intendment of the act is to prevent minors from having about their persons at all this character of weapons, and this construction is in harmony with the general legislation of the State on the subject of minors”)

province of the legislature, in the exercise of the police power of the State, to prohibit, on the part of minors, the exercise of any right, constitutional or otherwise, although in the case of adults it might only have the right to regulate and restrict such rights.”³⁶

The assertion that minors have no constitutional rights is plainly wrong under modern precedent, and it was plainly wrong under the law of the time.³⁷

Glenn also asserted that handguns are not constitutionally protected arms: “So far as the writer of this opinion is concerned, he is decidedly of the opinion that the possession of a pistol or revolver about the person, either by a minor or an adult, concealed or open, is a menace to individual safety and to law and order, and he concurs strongly in the view of those able jurists who construe the constitutional provision above quoted as not applicable to the modern pistol or revolver.”³⁸

The *Glenn* decision is contrary to *Heller*, which holds that the possession of pistols and revolvers (handguns) is a constitutional right. *Glenn* was also contrary to Georgia Supreme Court precedent from 1844, which had held that handguns are protected by the right to keep and bear arms.³⁹

³⁶ *Id.* at 928-29.

³⁷ See *In re Gault*, 387 U.S. 1, 13 (1967) (holding that “neither the Fourteenth Amendment nor the Bill of Rights is for adults alone” and that juveniles have right to counsel, right to notice of charges, right to confront and cross-examine witnesses, and right against self-incrimination); *Tinker v. Des Moines Indep. Cmty. Sch. Dist.*, 393 U.S. 503, 511 (1969) (“Students in school as well as out of school are ‘persons’ under our Constitution. They are possessed of fundamental rights which the State must respect...”); *Roper v. Simmons*, 543 U.S. 551 (2005) (holding that the Eighth and Fourteenth Amendments forbid the execution of individuals who committed their crimes when they were under 18); 1 BLACKSTONE, COMMENTARIES *460-466 (chapter “Of Guardian and Ward” describing various legal rights of minors). If *Glenn* were correct that minors have no constitutional rights, then the Georgia Constitution of 1877, which was still in effect in 1911, would have been no barrier to the Georgia legislature enacting laws against some or all minors: to take their property without due process of law, to banish them from the state, to inflict cruel and unusual punishments on them, to require all Georgians under 21 to profess believe in an official state religion, to punish their dissent from said religion as heresy, to forbid them from criticizing government officials of Georgia, to search their houses without warrants, to forbid them to petition government, and to punish them with ex post facto laws and bills of attainder. See GA. CONST. (1877), art. I, § 1, parts 3, 7, 12, 15, 16, 24, § 3, part 2 (enumerating prohibitions on aforesaid types of government action, and not limiting the protections only to adults). The absurdity of the proposition is self-evident.

³⁸ *Glenn*, 72 S.E. at 929.

³⁹ *Nunn v. State*, 1 Ga. 243 (1846).

Glenn silently sidestepped *Nunn* by stating that the right to arms did not apply to “the *modern* pistol or revolver.” (emphasis added). This is implausible. By the time *Nunn* was decided in 1844, modern revolvers, from Colt’s Manufacturing Company, were on the market. They had been preceded by widespread sales of multi-shot “pepperbox” handguns, which function like a revolver. See JACK DUNLAP, AMERICAN BRITISH & CONTINENTAL PEPPERBOX FIREARMS 16 (1964); LEWIS WINANT, PEPPERBOX FIREARMS (1952); WILLIAM B. EDWARDS, THE STORY OF COLT’S REVOLVER (1953).

6. *Illinois Case Not Addressing Minors*

The second anti-possession case cited, *Biffer v. City of Chicago*,⁴⁰ did not involve a statute that “criminalized the mere *possession* of handguns by juveniles.”⁴¹ The case challenged a Chicago ordinance that required arms dealers to have licenses and that restricted advertising. Those provisions were upheld as lawful under Chicago’s police power.⁴² At the time, Illinois had no constitutional right to keep and bear arms, and the U.S. Supreme Court had specifically declined an opportunity to enforce the Second Amendment against Illinois.⁴³

Another portion of the Chicago ordinance, which was not specifically challenged, prohibited the general superintendent of police from issuing to minors the permit required “to purchase any pistol, revolver, derringer, bowie knife, dirk or other weapon of like character which can be concealed on the person.”⁴⁴ This was a sales restriction, not a possession prohibition.

7. *The Kansas Supreme Court Reversal in Parman: Minors Have a Constitutional Right to Long Guns*

The First Circuit also cited *Parman v. Lemmon*.⁴⁵ *Parman* is particularly relevant to this Article. The issue was whether a 20-gauge Winchester pump-action shotgun was a “dangerous weapon” prohibited by the Kansas statute that made it a misdemeanor to “sell, trade, give, loan or otherwise furnish any pistol, revolver or toy pistol, by which cartridges or caps may be exploded, or any dirk, bowie knife, brass knuckles, sling shot, or other dangerous weapons, to any minor, or to any person of notoriously unsound mind.”⁴⁶ As detailed *infra*, many laws prohibiting the sale of pistols and revolvers also prohibited “other deadly weapons.” Long guns were not considered “other deadly weapons”—the closest they came to being so characterized was by the Supreme Court of Kansas in *Parman*.

The *Parman* court initially held that shotguns (and therefore all firearms) were covered by the statute, and consequently that it was illegal to transfer any firearm to a minor. The court based its decision on the rule of *eiusdem generis*:

⁴⁰ *Biffer v. Chicago*, 116 N.E. 182 (Ill. 1917).

⁴¹ *United States v. Rene E.*, 583 F.3d 8, 14 (1st Cir. 2009).

⁴⁶ *Id.* at 228 (citing R. S. 38–701). R. S. 38–702 made it unlawful for minors to possess these dangerous weapons.

2018] The Second Amendment Rights of Young People 127

Applying this general rule to the question, we have a title specifying minors and deadly weapons. The act enumerates pistol, revolver, toy pistol, dirk, bowie knife, brass knuckles, sling shot, and “other dangerous weapons.” Can it be said that a Winchester rifle or repeating shotgun placed in the hands of an insane or incompetent person is not a weapon that is inherently dangerous to himself and his associates? The answer is obvious.⁴⁷

“The rule, *ejusdem generis* ordinarily limits the meaning of general words to things of the same class as those enumerated under them.”⁴⁸

Justice John Dawson dissented:

The fathers of our republic believed that a well-regulated militia was necessary to the security of a free state and that the right of the people to keep and bear arms should never be infringed. Have we ceased to believe that doctrine? I refer to this not because it is a provision of the federal constitution, and restricts the power of congress over this subject, but because it is a basic principle of statecraft of deep concern to all who are clothed with authority and who feel their responsibility to hand on undiminished to future generations those liberties which are our proud American heritage.

From the landing of the Pilgrims in 1620 until the last Indian menace on the Kansas frontier in 1885, the rifle over the fireplace and the shotgun behind the door were imperatively necessary utensils of every rural American household. And it was just as imperative that the members of such household, old and young, should know how to handle them. And it was almost equally true that unless a man were trained in the use of the rifle and shotgun in his boyhood he seldom learned to use them. The American Civil War was largely fought by boys. Half of the Union armies were made up of lads in their teens. When those armies were disbanded, so many thousand ex-Union soldiers came to Kansas that their political views and outlook on life and government gave form and tone to the genius of our Kansas institutions. They filled our public offices for a full generation. They constituted a majority of the legislature of 1883, when this statute was enacted, and a majority of all the Legislatures of Kansas for a decade prior to and succeeding that time. Does anybody believe that while our western prairies were still sporadically subjected to Indian raids, while our pioneer homes were still shaded in gloom because of the tomahawk and scalping knife of Ogallalas, Cheyennes, Brule Sioux, and other bloodthirsty savages who smeared our frontier with blood and tears as late as 1878 and 1879, a

⁴⁷ *Id.* at 229.

⁴⁸ *Id.* at 229 (citing 2 Words and Phrases, Second Series, 225). “Ejusdem generis” is Latin for “of the same kind or class.” BLACK’S LAW DICT. 631 (10th ed. 2014). It is a canon of construction “that when a general word or phrase follows a list of specifics, the general word or phrase will be interpreted to include only items of the same class as those listed.” *Id.*

Kansas legislature would enact a law declaring it to be a crime for a father to intrust a rifle to his son of less than twenty-one years, and declaring it to be a crime for every youth less than twenty-one years of age to handle such a weapon? Yet that is exactly what this decision means when plainly spelled out in the Kansas language for everybody to read.

Yes, and it means more than that. It means that every parent in Kansas since the enactment of this statute in 1883 who has permitted his son under twenty-one to take the family shotgun or heirloom rifle and go rabbit hunting committed a crime in so doing and repeated that crime every time he did permit it. And the boy, too, committed a criminal act every time he used the gun or had it in his possession. Until the recent acceleration of urban population our people have been largely country bred and reared, and it is conservative to say that nine out of every ten country-reared boys have been and still are permitted to use rifles and shotguns. Yet this decision in effect says all such doings are crimes!

It is only the indisputable fact that the legislature so intended which should constrain this court, after a lapse of forty-two years, to discover such an interpretation for this statute.

I think it unnecessary to supplement these general observations with a mere lawyer's argument that the decision is wrong, although it could readily be made. An application of the principle of *ejusdem generis* would make it perfectly clear what the lawmakers of 1883 were concerned with—the vice of permitting children to handle revolvers, toy pistols, using explosives, dirks, sling shots and dangerous weapons of that character, *ejusdem generis*. A shotgun, a rifle, a pitchfork, a hatchet, is a dangerous weapon, of course, but neither is *ejusdem generis* with the sort of weapons denounced by the statute. But I place my dissent principally on the ground that the interpretation of the statute offends against the genius of Kansas and her hitherto free institutions, contemns her heroic history, and disdains the epics of her pioneers.⁴⁹

Justice Henry Mason, also dissenting, argued that *ejusdem generis* required a different result:

Here the dangerous weapons specifically named in the statute have a quality in common, bearing a clear relation to the evil to be remedied. They all (with the exception of the toy pistol, which, as noted in the opinion of the court, was inserted by amendment after the bill had been introduced) are weapons primarily intended and used to inflict injury upon human beings, and generally speaking, serve no worthy purpose but the quite exceptional one of self-defense. The shotgun, on the other hand, is habitually employed for such useful and ordinary purposes as protecting crops and procuring

⁴⁹ *Parman*, 244 P. at 231–32 (Dawson, J., dissenting).

2018] The Second Amendment Rights of Young People 129

game. Moreover, it is such a common implement that if the lawmakers intended to include it in the prohibited list it is extremely unlikely they would have failed to mention it.⁵⁰

These dissenting opinions apparently persuaded some justices who had originally constituted the majority. Rehearing was granted, and within five months of the original decision, the Kansas Supreme Court reversed itself.

It is argued that if the meaning of a statute is doubtful, that construction should be given which leads to the most reasonable result, and that it is reasonable to conclude that the legislature did not intend to make law violators of sixty per cent of the militia of the state, it being estimated that sixty per cent. of the personnel of that body are minors; that it did not intend to prohibit students under twenty-one years of age in the colleges from taking military training; that it did not intend to prohibit young men under twenty-one years of age from taking out hunters' licenses and hunting; that it did not intend to prohibit young men who have not yet reached the age of twenty-one, who reside on the farms and ranches, from carrying and using shotguns and rifles when necessity requires.

These suggestions and many others have had the consideration of the court. We do not deem it necessary to discuss the question at length, nor to analyze the cases. We are of the opinion that, if the legislature of 1883 had intended to include shotguns in the prohibited list of dangerous weapons it would have specifically mentioned them.

...

By a change of view on the part of some of the justices, the dissenting opinion at the time of the first decision has now become the controlling voice of the court, and further discussion is needless.⁵¹

The vacated *Parman* opinion had cited *Evans v. Waite*.⁵² This Wisconsin case involved a dispute over liability where someone was accidentally shot with a revolver by “a minor of about the age of 18.” “The circuit judge held that, because the defendant was a minor and was armed with a revolver” in violation of state law, “he was liable to the plaintiff for the injury, without regard to the question of negligence.”⁵³ The Supreme Court of Wisconsin affirmed.

⁵² *Evans v. Waite*, 53 N.W. 445 (Wis. 1892).

⁵³ *Id.* at 446

8. *Virginia: Young Adults can Sign Arms-Bearing Contracts*

Also cited by the First Circuit was *United States v. Blakeney*.⁵⁴ The Supreme Court of Appeals of Virginia held that 18-to-20-year-old “minors” were to be treated as adults in the context of bearing arms.⁵⁵ Blakeney was a 19-year-old who volunteered for military duty, and regretting his decision, argued that a minor (at the time, a person under 21) could not enter into a valid contract.⁵⁶ The court held the contract valid, based in part on the fact that as a 19-year-old, Blakeney had the mental and physical capacity to bear arms.⁵⁷

The court explained that “children” were exempted from military service because they are incapable of handling arms:

No person is naturally exempt from taking up arms in defence of the state; the obligation of every member of society being the same. They only are excepted who are incapable of handling arms, or supporting the fatigues of war. This is the reason why old men, children, and women are exempted.⁵⁸

By contrast, “We know, as a matter of fact, that at the age of eighteen, a man is capable intellectually and physically of bearing arms.”⁵⁹ And since 18-year-olds were just as capable as 21-year-olds of both carrying arms and consenting to military service, the court held that 18-to-20-year-olds were bound by military enlistments just as adults over 21 were:

It seems to me obvious that the enlistment of a minor capable of bearing arms, does not fall within the general rule of the municipal law, in regard to the incapacity of infants under the age of twenty-one years, to bind themselves by contract. Nor am I disposed to regard the enlistment as an exception to that rule. The rule, I think, has no application to the subject. The capacity of all citizens or subjects able to bear arms to bind themselves to do so by voluntary enlistment, is in itself a high rule of the public law, to which the artificial and arbitrary rule of the municipal law forms no exception. The rule of the public law is subject to but two conditions, the ability of the party to carry arms, and his consent to do so; and these conditions may exist in as full force at the age of eighteen as at the age of twenty-one. The party is subject to no incapacity by any arbitrary rule in regard to discretion;

and there is but little room for discretion when he is in the line of his allegiance and public duty.⁶⁰

In sum, *Rene E.*'s list of cases is less than meets the eye. Many of the cited cases did not address constitutional issues. Of those that did, several are indefensible in light of *Heller*. *Parman*, in its final outcome, affirms that minors have the right to possess and use long guns, and *Blakeney* is in the same spirit. Most the remaining cases involved handgun sales bans and not possession bans.

C. Evidence of the Founders' Attitudes

Turning to the Founding, the *Rene E.* court could not cite a single source in support of the notion that young people could be disarmed. The absence of such sources can hardly be surprising; as detailed in our forthcoming Article, over 250 colonial and state militia statutes through 1799 mandated that persons 16 and older (or sometimes 18, 15, or 10) be armed.⁶¹

So the First Circuit merely cited some modern law review articles contending that the Founders believed that unvirtuous persons could be disarmed. The paradigmatic examples in these articles were persons who were disloyal to the government during wartime, as well as slaves and hostile Indians.

The only Founding Era source directly cited in *Rene E.* was a never-adopted proposal from Pennsylvania's Anti-Federalists. The proposal would have amended the U.S. Constitution to prevent anyone from being disarmed "unless for crimes committed, or real danger of public injury from individuals." The proposal is addressed in Part III, but it is worth emphasizing here that it made no mention of age whatever. It hardly stands for the proposition that being under 21 years old constitutes "real danger of public injury."

The one other early historical source in *Rene E.* is a 1697 pro-militia pamphlet from England.⁶² The pamphlet refers to ancient "Israelites, Athenians, Corinthians, Achaians, Lacedemonians, Thebans, Samnites, and Romans."⁶³ According to the pamphlet, "Their Arms were

never lodg'd in the hands of any who had not an Interest in preserving the publick Peace."⁶⁴ That may be true, but there is no evidence that any of these ancient societies considered arms possession by young people to be contrary to preserving the public peace.

In short, *Rene E.* was able to muster little historical evidence in support of a handgun possession ban for persons under 18, although there was some history of sales restrictions.

II. NATIONAL RIFLE ASSOCIATION VERSUS BUREAU OF ALCOHOL, TOBACCO, FIREARMS, & EXPLOSIVES

This Fifth Circuit case directly addressed the Second Amendment rights of young adults.⁶⁵ The National Rifle Association challenged the federal statute that prohibits federally licensed firearms dealers from selling handguns to 18-to-20-year-olds.⁶⁶ The court upheld the law after analyzing the historical understanding of the right to keep and bear arms.⁶⁷

A. No Founding-Era Source Supports Disarming People under 21

The court found that “when the fledgling republic adopted the Second Amendment, an expectation of sensible gun safety regulation was woven into the tapestry of the guarantee.”⁶⁸

Since even before the Revolution, gun use and gun control have been inextricably intertwined. The historical record shows that gun safety

The Athenians, Corinthians, Achaians, Lacedemonians (Spartans), and Thebans, were inhabitants of Greek city-states or regions. In *Politics*, Aristotle had explained that oligarchs attempt to obtain and maintain power by disarming the general public. 1 *The Politics of Aristotle* 48 (B. Jowett trans. & ed., 1885) (“the husbandmen have no arms, and the artisans neither arms nor land, and therefore they become all but slaves of the warrior class.”); *id.* at 80 (“in a constitutional government the fighting-men have the supreme power, and those who possess arms are the citizens.”); *id.* at 131 (oligarchies consolidate power by exempting the poor from the obligation to have arms); *id.* at 171 (“As of oligarchy so of tyranny . . . both mistrust the people, and therefore deprive them of their arms.”); *id.* at 221–22 (Citizens should be warriors at a young age, when their strength is greatest, and should be “councillors, who advise about the expedient and determine matters of law,” later in life. “It remains therefore that both functions of government should be entrusted to the same persons, not, however, at the same time, but in the order prescribed by nature, who has given to young men strength and to older men wisdom.”).

The Samnites were a central Italian tribe that was conquered by, and assimilated to, the growing city-state of Rome. In the Roman Republic, the starting age for militia service was 16 years old. *See* STEPHEN DANDO-COLLINS, *LEGIONS OF ROME: THE DEFINITIVE HISTORY OF EVERY IMPERIAL ROMAN LEGION* 16 (2012).

⁶⁸ *Id.* at 200.

regulation was commonplace in the colonies, and around the time of the founding, a variety of gun safety regulations were on the books; these included safety laws regulating the storage of gun powder, laws keeping track of who in the community had guns, laws administering gun use in the context of militia service (including laws requiring militia members to attend “musters,” public gatherings where officials would inspect and account for guns), laws prohibiting the use of firearms on certain occasions and in certain places, and laws disarming certain groups and restricting sales to certain groups.⁶⁹

The court provided no specific examples, and the various laws listed can hardly be said to have woven an expectation of restrictions into the tapestry of the guarantee.

The gunpowder of the Founding Era was blackpowder, which is volatile.⁷⁰ To prevent fires and explosions, merchants were often required to store their reserves in a brick building.⁷¹ The “laws prohibiting the use of firearms on certain occasions and in certain places” were typically for fire prevention.⁷² Or laws might prohibit unsafe behavior such firing guns randomly at night—because gunshots were used to raise an alarm, and random fire at night would create a false alarm.⁷³

The colonial and Founding Era arms sales restrictions for “certain groups” were primarily for Indians, and sometimes for slaves (or, very rarely, for free blacks).⁷⁴ There were no restrictions on sales to free citizens.

The only gun laws that were pervasive were the mandates to possess certain types and quantities of arms and accoutrements.⁷⁵ As will be detailed in our Article in the next issue of this Journal, militiamen (typically, ages 16 to 50 or 60) had to possess certain arms. So did men who had aged out of the militia (but who might be needed for local defense). In some colonies, heads of households (regardless of sex or age) also had to possess arms.

⁷³ See NICHOLAS J. JOHNSON, DAVID B. KOPEL, GEORGE MOCSARY & MICHAEL P. O’SHEA, FIREARMS LAW AND THE SECOND AMENDMENT: REGULATION, RIGHTS, AND POLICY 187 (2d ed. 2017) (Virginia: no shooting “any guns at drinking,” except for marriages and funerals; Maryland: no shooting a gun more than three times in an hour, except to raise an alarm; Plymouth: no shooting at night, except at wolves or “for the finding of someone lost”; Pennsylvania, no shooting guns “wantonly” on New Year’s Eve in inhabited areas, or shooting guns near highways). Founding Era limits on firing guns in municipalities were discussed in *Heller* and determined not to be limits on lawful defensive use. *Heller* at 631–34.

⁷⁴ JOHNSON et al., *supra* note 75, at 187–96.

⁷⁵ *Id.* at 175–82 (also noting exception for Pennsylvania, which had no colonial or local militias during most of the colonial period).

Militia musters were the occasion for militiamen to demonstrate that they had the requisite arms by bringing them to the muster.

These laws do show that there were gun laws in the Founding Era, but these laws hardly created a pervasive system of gun control. If an individual possessed the required minimum arms, he or she could purchase and possess additional arms (or choose not to) with zero regulation, including zero restrictions on purchases.

The Fifth Circuit asserted that “laws that confiscated weapons owned by persons who refused to swear an oath of allegiance to the state or to the nation” supported the ban on young adults because the laws “targeted particular groups for public safety reasons.”⁷⁶ These laws were rare and were enacted exclusively during war time to disarm potential enemy combatants.⁷⁷ The disarmament of disloyal persons during wartime is hardly a precedent for targeting other “particular groups” whose loyalty is unquestioned.

The Fifth Circuit specifically cited only two founding-era sources. The first was the document (mentioned above) issued by the Pennsylvania Anti-Federalists who opposed ratifying the Constitution without a declaration of rights. *The Address and reasons of dissent of the minority of the convention, of the state of Pennsylvania, to their constituents* called for the inclusion of the following right to bear arms in the Constitution:

That the people have a right to bear arms for the defence of themselves and their own state, or the United States, or for the purpose of killing game, and no law shall be passed for disarming the people or any of them, unless for crimes committed, or real danger of public injury from individuals; and as standing armies in the time of peace are dangerous to liberty, they ought not to be kept up; and that the military shall be kept under strict subordination to and be governed by the civil powers.⁷⁸

Because the dissenting minority’s proposal would have permitted disarmament of people for “real danger of public injury from individuals,” the Fifth Circuit concluded that *all* young adults could be placed outside of the Second Amendment’s protections. This was the strongest founding-era justification that the court produced.

⁷⁶ Nat’l Rifle Ass’n of Am. v. Bureau of Alcohol, Tobacco, Firearms, and Explosives, 700 F.3d 185, 200 (5th Cir. 2012).

⁷⁷ JOHNSON et al, *supra* note 75, at 196–98.

⁷⁸ Nathaniel Breeding et al., *The Address and reasons of dissent of the minority of the convention, of the state of Pennsylvania, to their constituents*, LIBR. OF CONGRESS (Dec. 12, 1787), <https://www.loc.gov/resource/bdsdcc.c0401/?sp=1>.

2018] The Second Amendment Rights of Young People 135

The other founding-era source—included in a footnote—was William Rawle. Rawle was an eminent lawyer, and his constitutional law treatise was the leading work on the subject following its publication in 1825.⁷⁹

According to the court, Rawle “maintained that although the Second Amendment restrained the power of Congress to ‘disarm the people,’ the right to keep and bear arms nonetheless ‘ought not, ... in any government, to be abused to the disturbance of the public peace.’”⁸⁰ Certainly, persons who abuse the right to arms by disturbing the peace may be punished by government. The principle does not justify disarming persons who do *not* abuse the right.

The Fifth Circuit omitted Rawle’s language making it clear that Rawle was writing about people whose conduct demonstrated their danger. After the language quoted by the Fifth Circuit, Rawle elaborated that he was referring to mutinies and to specific individuals who terrorized the public:

An assemblage of persons with arms, for an unlawful purpose, is an indictable offence, and even the carrying of arms abroad by a single individual, attended with circumstances giving just reason to fear that he purposes to make an unlawful use of them, would be sufficient cause to require him to give surety of the peace. If he refused he would be liable to imprisonment.⁸¹

The Supreme Court in *Heller* put the quote from Rawle in proper context.⁸² The Court also quoted Rawle about how the foundation of a militia is an armed populace: “In a people permitted and accustomed to bear arms, we have the rudiments of a militia, which properly consists of armed citizens, divided into military bands, and instructed at least in part, in the use of arms for the purposes of war.”⁸³ Since 18-year-olds were part of the militia—in Rawle’s time and at present—they should be “permitted and accustomed to bear arms.”

⁷⁹ David B. Kopel, *The Second Amendment in the Nineteenth Century*, 1998 BYU L. REV. 1359, 1384–88 (1998).

⁸⁰ Nat’l Rifle Ass’n of Am., 700 F.3d at 212 n.12.

⁸¹ WILLIAM RAWLE, A VIEW OF THE CONSTITUTION OF THE UNITED STATES OF AMERICA 125–26 (William S. Hein & Co. 2003) (2d ed. 1829). (“Surety of the peace” statutes could be used to require that individuals who had been proven to be acting in a threatening manner could be required to post bond for good behavior if they wanted to continue carrying arms.) See David B. Kopel, *The First Century of Right to Arms Litigation*, 14 GEO. J. L. & PUB. POL’Y 127, 175–77 n.345 (2016).

⁸² *District of Columbia v. Heller*, 554 U.S. 570, 607–08 (2008) (quoting RAWLE, A VIEW OF THE CONSTITUTION OF THE UNITED STATES OF AMERICA at 123) (“Rawle further said that the Second Amendment right ought not ‘be abused to the disturbance of the public peace,’ such as by assembling with other armed individuals ‘for an unlawful purpose’—statements that make no sense if the right does not extend to *any* individual purpose.”).

⁸³ *Id.*, 554 U.S. at 607 (quoting WILLIAM RAWLE, A VIEW OF THE CONSTITUTION OF THE UNITED STATES OF AMERICA at 140).

Thus, Rawle's treatise stands for the opposite of the point for which the Fifth Circuit cited the treatise. According to Rawle, law-abiding persons, including whoever would be in the militia, should be "permitted and accustomed to bearing arms." Further, persons of any age who abused the right by disturbing the peace could be punished.

Like the First Circuit in *Rene E.*, the Fifth Circuit in *NRA v. BATF* was unable to cite even one Founding Era source for stripping young adults of civil rights.

Like the Georgia Supreme Court in 1911, the Fifth Circuit resorted to the claim that minors lack constitutional rights. "The age of majority at common law was 21, and it was not until the 1970s that States enacted legislation to lower the age of majority to 18."⁸⁴ Therefore, "If a representative citizen of the founding era conceived of a 'minor' as an individual who was unworthy of the Second Amendment guarantee, and conceived of 18-to-20-year-olds as 'minors,' then it stands to reason that the citizen would have supported restricting an 18-to-20-year-old's right to keep and bear arms."⁸⁵

The Fifth Circuit's speculation is contrary to all the evidence. Persons under 21 were certainly minors under the common law of the Founding Era. Thus, their independent exercise of contract and property rights was limited.

However, there is no evidence "a representative citizen" (or anyone else) in the Founding Era considered all minors "unworthy of the Second Amendment guarantee." To the contrary, state and federal laws of the Founding Era are unanimous that minors aged 18-to-20 *were* considered worthy of the Second Amendment guarantee. As had been the case from the earliest colonial days, they were part of the militia and were required to possess their own arms.

As Blackstone put it, age limits are "different for different purposes."⁸⁶ For example, 14-year-olds were capable of discerning right from wrong and could be "capitally punished for any offense."⁸⁷ The principles of age limits on diverse matters will be discussed further in our forthcoming Article.

We do not need to reason by analogy to know the Founding Era laws for age limits for capital punishment, marriage (universally allowed before age 18), conveying real estate (21), or being elected to the U.S. House of Representatives (25).⁸⁸ Analogies are unnecessary because of the massive and uncontradicted evidence from the Founding Era—which also shows that

⁸⁸ U.S. CONST., art. I, § 2, cl. 2.

2018] The Second Amendment Rights of Young People 137

18-to-20-year-olds *did* have the right to keep and bear arms, and indeed were required by law to exercise that right.

B. Late Nineteenth-Century State Statutes on Handguns for Minors

The Fifth Circuit found better support from the nineteenth century. It accurately stated that “by the end of the 19th century, nineteen States and the District of Columbia had enacted laws expressly restricting the ability of persons under 21 to purchase or use particular firearms, or restricting the ability of ‘minors’ to purchase or use particular firearms while the state age of majority was set at age 21.”⁸⁹ A string citation in a footnote listed the laws. Most of them date from around the last quarter of the century. These laws did not apply to long guns, but only to handguns, and sometimes to other arms that were considered especially disreputable, such as brass knuckles and bowie knives. Some were limits only on sales; some had exceptions for parental consent, for self-defense, or for hunting.

The laws were:

Alabama. 1856. No one may give a male minor a handgun or bowie knife.⁹⁰

Delaware. 1881. No one may sell to a minor a deadly weapon, other than a pocket knife.⁹¹

District of Columbia. 1892. No one may give a minor a pistol, bowie knife, dagger, or brass knuckles.⁹²

Georgia. 1876. No one may give a minor a “pistol, dirk, bowie knife, or sword cane.” The law does not limit “the furnishing of such weapons under circumstances justifying their use in defending life, limb or property.”⁹³

⁸⁹ Nat’l Rifle Ass’n of Am., 700 F.3d at 202.

⁹⁰ 1856 Ala. Acts §17 (“That anyone who shall sell or give or lend, to any male minor, a bowie knife, or knife or instrument of the like kind or description, by whatever name called, or air gun or pistol, shall, on conviction be fined not less than three hundred, nor more than one thousand dollars.”).

⁹¹ 16 Del. Laws 716, § 1 (1881): “That if any person shall carry concealed a deadly weapon upon or about his person other than an ordinary pocket knife, or shall knowingly sell a deadly weapon to a minor other than an ordinary pocket knife, such person shall, upon conviction thereof, be fined...”

⁹² 27 Stat. 116–17, § 5 (1892) (District of Columbia)
That any person or persons who shall, within the District of Columbia, sell, barter, hire, lend or give to any minor under the age of twenty-one years any such weapon as hereinbefore described [deadly or dangerous weapons, such as daggers, air-guns, pistols, bowie-knives, dirk knives or dirks, blackjacks, razors, razor blades, sword canes, slung shot, brass or other metal knuckles] shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, pay a fine or penalty of not less than twenty dollars nor more than one hundred dollars, or be imprisoned in the jail of the District of Columbia not more than three months.

⁹³ 1876 Ga. Laws 112, § 1
That from and after the passage of this Act it shall not be lawful for any person or persons knowingly to sell, give, lend or furnish any minor or minors any pistol, dirk, bowie knife, or sword cane. Any person found guilty of a violation of this Act shall be guilty of a misdemeanor, and punished as

Illinois. 1873. Most people may not give a minor, “any pistol, revolver, derringer, bowie knife, dirk or other deadly weapon of like character, capable of being secreted upon the person.” Such arms may be given to a minor by the minor’s “father, guardian or employer.”⁹⁴

Indiana. 1875. No one may give a minor “any pistol, dirk, or bowie-knife, slung-shot, knucks, or other deadly weapon that can be worn, or carried, concealed upon or about the person.” The same restriction applies to handgun cartridges.⁹⁵

Iowa. 1884. No one may give “any pistol, revolver or toy pistol to any minor.”⁹⁶

Kansas. 1883. No one may give “any pistol, revolver or toy pistol, by which cartridges or caps may be exploded, or any dirk, bowie-knife, brass knuckles, slung shot, or other dangerous weapons to any minor, or to any person of notoriously unsound mind.”⁹⁷ Minors in possession of such items are guilty of a misdemeanor, and may be fined up to ten dollars.⁹⁸ As discussed *supra*, the Kansas Supreme Court held these restrictions did not apply to long guns.⁹⁹

Kentucky. 1873. The court cited 1873 Ky. Acts 359, but the cited material has nothing to do with arms.¹⁰⁰ We did find the following restriction

prescribed in section 4310 of the Code of 1873: *Provided*, that nothing herein contained shall be construed as forbidding the furnishing of such weapons under circumstances justifying their use in defending life, limb or property.

⁹⁴ 1881 Ill. Laws 73, § 2

Whoever, not being the father, guardian or employer of the minor herein named, by himself or agent, shall sell, give, loan, hire or barter, or shall offer to sell, give, loan, hire or barter to any minor within this state, any pistol, revolver, derringer, bowie knife, dirk or other deadly weapon of like character, capable of being secreted upon the person, shall be guilty of a misdemeanor, and shall be fined in any sum not less than twenty-five dollars (\$25) nor more than two hundred dollars (\$200).

⁹⁵ 1875 Ind. Acts 86, § 1

That it shall be unlawful for any person to sell, barter, or give to any other person, under the age of twenty-one years, any pistol, dirk, or bowie-knife, slung-shot, knucks, or other deadly weapon that can be worn, or carried, concealed upon or about the person, or to sell, barter, or give to any person, under the age of twenty-one years, any cartridges manufactured and designed for use in a pistol.

⁹⁶ 1884 Iowa Acts 86, § 1 (“That it shall be unlawful for any person to knowingly sell, present or give any pistol, revolver or toy pistol to any minor.”).

⁹⁷ 1883 Kan. Sess. Laws 159, § 1

Any person who shall sell, trade, give, loan or otherwise furnish any pistol, revolver or toy pistol, by which cartridges or caps may be exploded, or any dirk, bowie-knife, brass knuckles, slung shot, or other dangerous weapons to any minor, or to any person of notoriously unsound mind, shall be deemed guilty of a misdemeanor, and shall, upon conviction before any court of competent jurisdiction, be fined not less than five nor more than one hundred dollars.

⁹⁸ 1883 Kan. Acts 159, § 2 (“Any minor who shall have in his possession any pistol, revolver or toy pistol, by which cartridges may be exploded, or any dirk, bowie-knife, brass knuckles, slung shot or other dangerous weapon, shall be deemed guilty of a misdemeanor, and upon conviction before any court of competent jurisdiction shall be fined not less than one nor more than ten dollars.”).

⁹⁹ See *supra* text accompanying note 45.

¹⁰⁰ 1873 KY Law chapter 359 is an act to incorporate a banking and warehouse company. 1873 Kentucky Law page 359 is part of an 1874 law (beginning on page 327) revising and amending the charter of the city of Newport. Heinonline’s Session Laws Library for Kentucky for 1873 contains

2018] The Second Amendment Rights of Young People 139

on minors passed in 1860: “If any person, other than the parent or guardian, shall sell, give, or loan, any pistol, dirk, bowie-knife, brass-knucks, slung-shot, colt, cane-gun, or other deadly weapon, which is carried concealed, to any minor, or slave, or free negro, he shall be fined fifty dollars.”¹⁰¹

Louisiana. 1890. No one may give a minor “any pistol, dirk, bowie-knife or any other dangerous weapon, which may be carried concealed.”¹⁰²

Maryland. 1882. No one may give a minor “any firearm whatsoever or other deadly weapons, except shot gun, fowling pieces and rifles.”¹⁰³

Mississippi. 1878. It is unlawful to sell to a minor or an intoxicated person “any bowie knife, pistol, brass knuckles, slung shot or other deadly weapon of like kind or description” or to sell pistol cartridges to such persons. Concealed carry by anyone of such arms is prohibited, except while traveling.¹⁰⁴ A father who knowingly allows “any minor son under the age of sixteen years to carry concealed” the above arms is guilty of a

three books: “1873 (General Assembly, Public, Local, Private Acts, Regular Session pp. 1-570)”; “1873 vol. I (General Assembly, Public, Local, Private Acts, Adjourned Session pp. 1-694)”; and “1873 vol. II (General Assembly, Local, Private Acts, Adjourned Session pp. 1-644).” We could not locate a firearms law enactment about minors in any of them.

¹⁰¹ 1860 Ky. Acts 245.

¹⁰² 1890 La. Acts 39, § 1 (“That, hereafter, it shall be unlawful, for any person to sell, or lease or give through himself or any other person, any pistol, dirk, bowie-knife or any other dangerous weapon, which may be carried concealed to any person under the age of twenty-one years.”).

¹⁰³ 1882 Md. Laws 656, § 2

That it shall be unlawful for any person, be he or she licensed dealer or not, to sell, barter or give away, to any person who is a minor under the age of twenty-one years. Any person or persons violating any of the provisions of this act shall, on conviction thereof, pay a fine of not less than fifty nor more than two hundred dollars, together with the cost of prosecution, and upon failure to pay said fine and cost, be committed to jail and confined therein until such fine and costs are paid, or for the period of sixty days, whichever shall first occur.

¹⁰⁴ “Fowling pieces” would today be considered a type of shotgun especially suitable for bird hunting. 1878 Miss. Laws 175–76, § 1

SEC. 1. That any person, not being threatened with, or having good and sufficient reason to apprehend an attack, or traveling (not being a tramp) or setting out on a journey, or peace officers, or deputies in discharge of their duties, who carries concealed, in whole or in part, any bowie knife, pistol, brass knuckles, slung shot or other deadly weapon of like kind or description, shall be deemed guilty of a misdemeanor, and on conviction, shall be punished for the first offence by a fine of not less than five dollars nor more than one hundred dollars, and in the event the fine and cost are not paid shall be required to work at hard labor under the direction of the board of supervisors or of the court, not exceeding two months, and for the second or any subsequent offence, shall, on conviction, be fined not less than fifty nor more than two hundred dollars, and if the fine and costs are not paid, be condemned to hard labor not exceeding six months under the direction of the board of supervisors, or of the court. That in any proceeding under this section, it shall not be necessary for the State to allege or prove any of the exceptions herein contained, but the burden of proving such exception shall be on the accused.

SEC. 2. *Be it further enacted*, That it shall not be lawful for any person to sell to any minor or person intoxicated, knowing him to be a minor or in a state of intoxication, any weapon of the kind or description in the first section of this Act described, or any pistol cartridge, and on conviction shall be punished by a fine not exceeding two hundred dollars, and if the fine and costs are not paid, be condemned to hard labor under the direction of the board of supervisors or of the court, not exceeding six months.

misdemeanor.¹⁰⁵ Also guilty of a misdemeanor is “any student of any university, college or school, who shall carry concealed” as well as “any teacher, instructor, or professor” who knowingly permits student concealed carry.¹⁰⁶

Missouri. 1879. Delivering arms to minors without parental consent is a misdemeanor.¹⁰⁷

Nevada. 1885. Minors who carry concealed arms are guilty of a misdemeanor.¹⁰⁸

North Carolina. 1893. It is illegal to sell or “dispose of to a minor any pistol or pistol cartridge, brass knucks, bowie-knife, dirk, loaded cane, or sling-shot.”¹⁰⁹ Unlike some other states (e.g., Alabama 1856), North Carolina did not prohibit loaning such arms to minors.

Tennessee. 1856. It is unlawful “for any person to sell, loan, or give, to any minor a pistol, bowie-knife, dirk, or Arkansas tooth-pick, or hunter’s knife.” The law “shall not be construed so as to prevent the sale, loan, or gift, to any minor of a gun for hunting.” Since the act did not apply to all to

¹⁰⁵ *Id.* § 3

That any father, who shall knowingly suffer or permit any minor son under the age of sixteen years to carry concealed, in whole or in part, any weapon of the kind or description in the first section of this Act described, shall be deemed guilty of a misdemeanor, and on conviction, shall be fined not less than twenty dollars, nor more than two hundred dollars, and if the fine and costs are not paid, shall be continued to hard labor under the direction of the board of supervisors or of the court.

¹⁰⁶ 1878 Miss. Acts 175–176

SEC. 4. *Be it further enacted.* That any student of any university, college or school, who shall carry concealed, in whole or in part, any weapon of the kind or description in the first section of this Act described, or any teacher, instructor, or professor who shall, knowingly, suffer or permit any such weapon to be carried by any student or pupil, shall be deemed guilty of a misdemeanor, and, on conviction, be fined not exceeding three hundred dollars, and if the fine and costs are not paid, condemned to hard labor under the direction of the board of supervisors or of the court.

¹⁰⁷ 1883 Mo. Acts 76 § 1274

If any person shall carry concealed, upon or about his person, any deadly or dangerous weapon, or shall go into any church or place where people have assembled for religious worship, or into any school room or place where people are assembled for education, literary or social purposes, or to any election precinct on any election day, or into any court room during the sitting of court, or into any other public assemblage of persons met for any unlawful purpose other than for militia drill or meetings called under the militia law of this state, having upon or about his person any kind of fire arms, bowie knife, dirk, dagger, slung-shot, or other deadly weapon, or shall in the presence of one or more persons exhibit any such weapon in a rude, angry or threatening manner, or shall have or carry any such weapon upon or about his person when intoxicated or under the influence of intoxicating drinks, or shall directly or indirectly sell or deliver, loan or barter to any minor any such weapon, without the consent of the parent or guardian of such minor, he shall, upon conviction, be punished by a fine of not less than twenty-five nor more than two hundred dollars, or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

¹⁰⁸ 1885 Nev. Stat. 51, § 1 (approved March 4, 1881)

Every person under the age of twenty-one (21) years who shall wear or carry any dirk, pistol, sword in case, slung shot, or other dangerous or deadly weapon concealed upon his person, shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be fined not less than twenty nor more than two hundred (\$200) dollars, or by imprisonment in the county jail not less than thirty days nor more than six months, or by both such fine and imprisonment.

¹⁰⁹ 1893 N.C. Sess. Laws 468–69, § 1.

2018] The Second Amendment Rights of Young People 141

long guns, the intent of the exemption was to allow minors to hunt with handguns.¹¹⁰

Texas. 1897. In order to sell or give a minor, “any pistol, dirk, dagger, slung shot, sword-cane, spear, or knuckles made of any metal or hard substance,” the vendor or donor must have “the written consent of the parent or guardian of such minor, or of some one standing in lieu thereof.”¹¹¹

West Virginia. 1882. No one may “sell or furnish” to a minor “any revolver or other pistol, dirk, bowie knife, razor, slung shot, billy, metallic or other false knuckles, or any other dangerous or deadly weapon of like kind or character.” However, “nothing herein contained shall be so construed as to prevent any person from keeping or carrying about his dwelling house or premises any such revolver or other pistol,” or taking the handgun to or from a gunsmith for repair.¹¹²

Besides the blanket exception for handguns in the home, there was also an exception for carrying outside the home if the minor could prove “that he

¹¹⁰ 1856 Tenn. Pub. Acts 92, § 2

That, hereafter, it shall be unlawful for any person to sell, loan, or give, to any minor a pistol, bowie-knife, dirk, or Arkansas tooth-pick, or hunter’s knife ; and whoever shall so sell, loan, or give, to any minor any such weapon, on conviction thereof, upon indictment or presentment, shall be fined not less than twenty-five dollars, and be liable to imprisonment, at the discretion of the Court : *Provided*, that this act shall not be construed so as to prevent the sale, loan, or gift, to any minor of a gun for hunting.

¹¹¹ 1897 Tex. Gen. Laws 221–22, § 1

That if any person in this State shall knowingly sell, give or barter, or cause to be sold, given or bartered to any minor, any pistol, dirk, dagger, slung shot, sword-cane, spear, or knuckles made of any metal or hard-substance, bowie knife or any other knife manufactured or sold for the purpose of offense or defense, without the written consent of the parent or guardian of such minor, or of some one standing in lieu thereof, he shall be punished by fine of not less than twenty-five dollars nor more than two hundred dollars, or by imprisonment in the county jail not less than ten nor more than thirty days, or by both such fine and imprisonment. And during the time of such imprisonment such offender may be put to work upon any public work in the county in which such offense is committed.

¹¹² 1882 W. Va. Acts 421–22, § 7

If a person carry about his person any revolver or other pistol, dirk, bowie knife, razor, slung shot, billy, metallic or other false knuckles, or any other dangerous or deadly weapon of like kind or character, he shall be guilty of a misdemeanor, and fined not less than twenty-five nor more than two hundred dollars, and may, at the discretion of the court, be confined in jail not less than one, nor more than twelve months; and if any person shall sell or furnish any such weapon as is hereinbefore mentioned to a person whom he knows, or has reason, from his appearance or otherwise, to believe to be under the age of twenty-one years, he shall be punished as hereinbefore provided; but nothing herein contained shall be so construed as to prevent any person from keeping or carrying about his dwelling house or premises any such revolver or other pistol, or from carrying the same from the place of purchase to his dwelling house, or from his dwelling house to any place where repairing is done, to have it repaired, and back again. And if upon the trial of an indictment for carrying any such pistol, dirk, razor or bowie knife, the defendant shall prove to the satisfaction of the jury that he is a quiet and peaceable citizen, of good character and standing in the community in which he lives, and at the time he was found with such pistol, dirk, razor or bowie knife, as charged in the indictment he had good cause to believe and did believe that he was in danger of death or great bodily harm at the hands of another person, and that he was, in good faith, carrying such weapon for self defense and for no other purpose, the jury shall find him not guilty.

is a quiet and peaceable citizen, of good character and standing in the community...and had good cause to believe...that he was in danger of death or great bodily harm at the hands of another person.”¹¹³

Wisconsin. 1883. It is “unlawful for any minor...to go armed with any pistol or revolver.”¹¹⁴ It is also “unlawful for any dealer in pistols or revolvers, or any other person, to sell, loan, or give any pistol or revolver to any minor.”¹¹⁵

Wyoming. 1890. It is unlawful “to sell, barter or give to any other person under the age of twenty-one years any pistol, dirk or bowie-knife, slung-shot, knucks or other deadly weapon that can be worn or carried concealed upon or about the person.” It is also unlawful to give “cartridges manufactured and designed for use in a pistol” to a person under 16.¹¹⁶

Besides the state statutes, the Fifth Circuit also cited the cases of *State v. Quail*, *State v. Allen*, *Tankersly v. Commonwealth*, and *Coleman v. State*, all of which were cited by *Rene E.* and discussed *supra*.

As of 1899, there were forty-six states in the Union. Nineteen of them had some sort of law involving handguns and minors and the other twenty-seven had no such laws. No state criminalized handgun possession by minors. Ten states generally prohibited handgun transfers to minors; four of those ten had exceptions for self-defense, hunting, or home possession, and Alabama’s law was only for males. Of these ten statutes, five expressly prohibited loans, while the other five were phrased in terms that could be construed to refer only to permanent dispositions. We do not know of caselaw for how those latter five statutes were applied, but we do note the 2006 Maryland decision that a statute restricting the “transfer” of a regulated weapon did not apply to loans.¹¹⁷

Three other states did not restrict transfers in general, but did restrict sales (Delaware, Mississippi) or dealer sales (Wisconsin). Five states

¹¹³ *Id.*

¹¹⁴ 1883 Wis. Sess. Laws 290

SECTION 1: It shall be unlawful for any minor, within this state, to go armed with any pistol or revolver, and it shall be the duty of all sheriffs, constables, or other public police officers, to take from any minor, any pistol or revolver, found in his possession.

SECTION 2: It shall be unlawful for any dealer in pistols or revolvers, or any other person, to sell, loan, or give any pistol or revolver to any minor in this state.

¹¹⁵ *Id.*

¹¹⁶ 1890 Wyo. Sess. Laws 1253

It shall be unlawful for any person to sell, barter or give to any other person under the age of twenty-one years any pistol, dirk or bowie-knife, slung-shot, knucks or other deadly weapon that can be worn or carried concealed upon or about the person, or to sell, barter or give to any person under the age of sixteen years any cartridges manufactured and designed for use in a pistol; and any person who shall violate any of the provisions of this section shall be fined in any sum not more than fifty dollars.

¹¹⁷ *State v. Chow*, 903 A.2d 388, 406-07 (Md. 2006).

2018] The Second Amendment Rights of Young People 143

required parental consent for handgun transfers to minors (Illinois, Iowa, Kentucky, Missouri, Texas). Nevada simply prohibited concealed carry.

C. Justice Cooley's Commentary

After the list of statutes, the Fifth Circuit turned to the most influential constitutional commentator of the latter nineteenth century, Michigan Supreme Court Justice Thomas Cooley. The court wrote that Cooley, in his “massively popular 1868 Treatise on Constitutional Limitations” relied on by *Heller*, “agreed that ‘the State may prohibit the sale of arms to minors’ pursuant to the State’s police power.”¹¹⁸

This is overstated in a section that analyzed the police power (and which was not analyzing the right to arms). Cooley cited *State v. Callicutt* in a footnote as holding “That the State may prohibit the sale of arms to minors.”¹¹⁹ Cooley was simply identifying *Callicutt* as a case related to his discussion, which is how he utilized footnotes to cite thousands of cases throughout the treatise.

Callicutt, as explained *supra*, was based on an interpretation of the right to bear arms that was expressly denounced by *Heller* as “odd” and “not the one we adopt.”¹²⁰ *Heller* aside, because Congress does not have a police power, *Callicutt* is no precedent for the permissibility of the congressional statute that was at issue in *NRA v. BATF*.

In the section of *Constitutional Limitations* that *did* discuss the right to arms, Cooley set forth general rules, but expressly avoided discussing restrictions on the right: “how far it may be in the power of the legislature to regulate the right [to keep and bear arms] we shall not undertake to say.”¹²¹ “Happily,” he added, “there neither has been, nor, we may hope, is likely to be, much occasion for an examination of that question by the courts.”¹²²

¹¹⁸ Nat’l Rifle Ass’n of Am. v. Bureau of Alcohol, Tobacco, Firearms, and Explosives, 700 F.3d 185, 203 (5th Cir. 2012).

¹¹⁹ THOMAS M. COOLEY, A TREATISE ON THE CONSTITUTIONAL LIMITATIONS WHICH REST UPON THE LEGISLATIVE POWER OF THE STATES OF THE AMERICAN UNION 740 (6th ed. 1890). The footnote followed a discussion of laws establishing wharf lines and penalizing the removal of stones, gravel, or sand from a beach. Cooley, quoting the Supreme Judicial Court of Massachusetts in upholding the latter law, explained that courts viewed such regulations as “a just restraint of an injurious use of property, which the legislature have authority to impose.” (citing, *Commonwealth v. Tewksbury*, 11 Mass. (11 Tyng) 55 (1846) (a statute which prohibited the having in possession of game birds after a certain time, though killed within the lawful time, was sustained in *Phelps v. Racey*, 60 N.Y. 10 (1875). But, such statute is held in Michigan not to cover a case where the birds were killed out of the State. *People v. O’Neil*, 39 N.W. 1 (Mich. 1888). That the State may prohibit the sale of arms to minors, see *State v. Callicutt*, 69 Tenn. (1 Lea) 714 (1878).). Cooley, *supra*, at 739-40.

¹²⁰ *District of Columbia v. Heller*, 554 U.S. 570, 613 (2008).

¹²¹ Cooley, *supra* note 121, at 427.

¹²² *Id.*

The Fifth Circuit did not discuss Cooley's other major treatise, *The General Principles of Constitutional Law*, which was also quoted by *Heller*. The treatise does have application to arms rights of young adults. While emphasizing that the right to arms is not limited to persons in the militia, Cooley made clear that those in the militia certainly were protected:

It might be supposed from the phraseology of [the Second Amendment] that the right to keep and bear arms was only guaranteed to the militia; but this would be an interpretation not warranted by the intent. The militia, as has been elsewhere explained, consists of those persons who, under the law, are liable to the performance of military duty, and are officered and enrolled for service when called upon. But the law may make provision for the enrolment of all who are fit to perform military duty, or of a small number only, or it may wholly omit to make any provision at all; and if the right were limited to those enrolled, the purpose of this guaranty might be defeated altogether by the action or neglect to act of the government it was meant to hold in check. *The meaning of the provision undoubtedly is, that the people, from whom the militia must be taken, shall have the right to keep and bear arms*; and they need no permission or regulation of law for the purpose. But this enables government to have a well-regulated militia; for to bear arms implies something more than the mere keeping; it implies the learning to handle and use them in a way that makes those who keep them ready for their efficient use; in other words, it implies the right to meet for voluntary discipline in arms, observing in doing so the laws of public order.¹²³

According to Cooley, although the right is not limited to militiamen, everyone in the militia is protected by the Second Amendment. That includes young adults.

D. The Fifth's Circuit's Flawed Application of Intermediate scrutiny

Determining that “there is considerable historical evidence of age- and safety-based restrictions on the ability to access arms,” the court concluded that “Modern restrictions on the ability of persons under 21 to purchase handguns—and the ability of persons under 18 to possess handguns—seem, to us, to be firmly historically rooted.”¹²⁴ Nevertheless, in an abundance of caution, the court proceeded to apply heightened scrutiny.

The court explained that “A law that burdens the core of the Second Amendment guarantee—for example, ‘the right of law-abiding, responsible

¹²³ *Heller*, 554 U.S. at 617–18 (quoting Thomas M. Cooley, *THE GENERAL PRINCIPLES OF CONSTITUTIONAL LAW IN THE UNITED STATES OF AMERICA* 271 (1880) (emphasis added)).

¹²⁴ *Nat'l Rifle Ass'n of Am. v. Bureau of Alcohol, Tobacco, Firearms, and Explosives*, 700 F.3d 185, 204 (5th Cir. 2012).

2018] The Second Amendment Rights of Young People 145

citizens to use arms in defense of hearth and home,’ *Heller*, 554 U.S. at 635, 128 S.Ct. 2783—would trigger strict scrutiny, while a less severe law would be proportionately easier to justify.”¹²⁵

Intermediate scrutiny was deemed appropriate because: (1) “this federal scheme is not a salient outlier in the historical landscape of gun control;”¹²⁶ (2) “The Second Amendment, at its core, protects ‘law-abiding, *responsible*’ citizens;”¹²⁷ (3) “Far from a total prohibition on handgun possession and use, these laws resemble ‘laws imposing conditions and qualifications on the commercial sale of arms,’ which *Heller* deemed ‘presumptively lawful;”¹²⁸ (4) “these laws do not strike the core of the Second Amendment because they do not prevent 18-to-20-year-olds from possessing and using handguns ‘in defense of hearth and home;”¹²⁹ (5) “18-to-20-year-olds may possess and use handguns for self-defense, hunting, or any other lawful purpose . . . and they may possess, use, and purchase long-guns;”¹³⁰ and (6) “they regulate commercial sales through an age qualification with temporary effect. Any 18-to-20-year-old subject to the ban will soon grow up and out of its reach.”¹³¹ Each of these reasons, however, was flawed.

1. The Federal Statute as an Outlier

As discussed above, by the end of the nineteenth century, thirteen states restricted handgun sales to minors, while four more required parental permission. So the Fifth Circuit was right that an age-based handgun sales restriction for persons under 21, although a minority in historical context, is not a “salient” outlier.

On the other hand, the *federal* scheme was “a salient outlier in the historical landscape of gun control” because no federal law had ever restricted handgun possession so severely. As the First Circuit recognized in *Rene E.*, federal laws receive limited support from cases that upheld regulations under a state’s police power because “Congress does not have the police power. Its jurisdiction to regulate the juvenile possession of handguns must rest on a different basis.”¹³²

¹²⁵ *Id.* at 205.

¹²⁶ *Id.*

¹³⁰ *Id.* at 207.

¹³¹ *Id.*

¹³² *United States v. Rene E.*, 583 F.3d 8, 19 n.6 (1st Cir. 2009).

2. *Young Adults were Improperly Equated with Felons and the Mentally Ill*

Second, the court inappropriately equated law-abiding young adults with felons and the mentally ill by claiming that they are all too “irresponsible” for Second Amendment protection: “as with felons and the mentally ill, categorically restricting the presumptive Second Amendment rights of 18-to-20-year-olds does not violate the central concern of the Second Amendment. The Second Amendment, at its core, protects ‘law-abiding, *responsible*’ citizens.”¹³³ Such treatment contradicts the standing of young adults in American society, where they can vote, marry, contract, serve on juries, and serve in the military.

It is true that persons 18-to-20 commit gun crimes at a higher rate than do older people. It has long been known that there is a relationship between age and criminal activity. For example, one of the founders of quantitative criminology, Adolphe Quetlet, observed in 1833 that the percentage of the population that perpetrates crime peaks in late adolescence and early adulthood, and then declines as people age. The age-crime relationship can be found in many different historical periods and nations, and for many diverse types of crime.¹³⁴

The age-crime relation persists as persons age. Persons 21-to-25 commit crimes at a higher rate than do people over 25. Persons 60-to-65 commit crimes at a higher rate than do persons over 65. By the Fifth Circuit’s rationale, the minimum age for gun ownership could be set at 100, since persons under 100 commit crimes at a much higher rate than persons over 100.

A similar prohibitory rationale could be applied to many groups that commit crimes disproportionately. For instance, African Americans commit murders at disproportionately high rates, but that cannot justify bans on *all* African Americans.¹³⁵ If nineteenth century statutes are the basis for denial of the right to arms, one can find many more statutes for disarmament of persons of color, including free persons of color, than one can find for limiting handgun acquisition by minors. While the colonial and founding periods had no laws against guns for minors, some of the colonies and early states did restrict guns racially, such as in limits on arms possession by slaves (who were black or Indian). Limits on gun possession by free people of color became common in slave states during the nineteenth century. After the Civil

2018] The Second Amendment Rights of Young People 147

War and the Fourteenth Amendment, race-based limits continued, albeit in formally neutral gun control statutes that were enforced only against people of color.¹³⁶

Regardless of age or race, males commit far more murders and other gun crimes than females.¹³⁷ That cannot justify an arms ban for all males—even though the 1856 Alabama statute is a precedent for sex discrimination in arms laws.

As the Fifth Circuit acknowledged, law-abiding, responsible citizens are at the core of the Second Amendment right. Their rights should not be forfeited because of irresponsible behavior by other persons of the same age, race, or sex.

3. “Conditions and Qualification on the Commercial Sale of Arms” Do Not Justify Prohibition

The Fifth Circuit’s third rationale was that *Heller* allows “conditions and qualifications on the commercial sale of arms.” Legitimate conditions and qualifications could include, for example, the federal licensing system for persons who are “engaged in the business” of selling arms. They must obtain a federal license and allow federal inspections of their inventory records. To be issued a license, persons must meet certain “qualifications,” such as not having a felony conviction, and having a fixed place of business where sales will be conducted.¹³⁸

The permissibility of “conditions and qualifications on commercial sale” does not authorize prohibition. For example, before *Heller*, a lawful seller of arms in the District of Columbia could not sell a handgun to a person who was not a government employee. The “conditions and qualifications” language from *Heller* is not an exception that swallows the *Heller* rule against banning handgun possession by classes of law-abiding citizens.

4. Long Guns are Not Acceptable Substitutes for Handguns, and Private Sales can be Inferior Substitutes for Store Sales

The court’s fourth and fifth points were that the federal limit on commercial sales of handguns to young adults did not actually prevent young adults from obtaining handguns and from using those handguns for home defense, hunting, or other lawful activities. The young adults simply had to obtain the handguns someplace other than a licensed gun store—such as by

¹³⁶ See David B. Kopel, The First Century of Right to Arms Litigation, 14 GEO. J. L. & PUB. POL’Y 127 (2016); David B. Kopel, Background Checks for Firearms Sales and Loans: Law, History, and Policy, 53 HARV. J. LEGIS. 303, 336–40 (2016).

¹³⁷ FBI, *supra* note 137 (10,310 male murder offenders; 1,295 female offenders; and 5,359 unknown).

¹³⁸ 18 U.S.C. § 923; 27 C.F.R. § 478.41 et seq.

purchase from a private individual, or by gift or loan from friends or family. Moreover, young adults could buy long guns from gun stores.

The long gun argument was directly contrary to *Heller*, which declares that long guns are *not* constitutionally adequate substitutes for handguns: “It is no answer to say, as petitioners do, that it is permissible to ban the possession of handguns so long as the possession of other firearms (*i.e.*, long guns) is allowed.”¹³⁹

The point about private sales was true. Young adults in Texas could, and still can, buy a handgun from anyone who is not a federally licensed firearms dealer. However, there is no guarantee that a young adult will be able to find a private seller or somebody to gift them a handgun. This is particularly so for young adults who are living on their own and recently moved to Texas from elsewhere.

Besides, as was pointed out by the briefs, but not addressed by the Fifth Circuit’s opinion, it is hard to find much of a government interest in requiring young adults to buy from private sellers only, and not from stores. Presumably stores would be superior for many buyers, as the stores would typically have greater expertise in helping the buyer choose a reliable handgun with good ergonomics (e.g., grip fit, controllable recoil) for the particular buyer. And stores are more likely to be able to guide buyers towards available safety training courses.

Moreover, the Fifth Circuit’s point about the alternative of private sales, while valid in Texas, is not applicable in some other states, such as those that have adopted Michael Bloomberg’s “universal background check” laws. These laws require all private sales, all private loans of firearms, and all returns of loaned firearms, to take place at a gun store; the store must process the private sale (or the loan or return of a firearm) as if the store were selling a firearm out of its own inventory. Yet federal law prohibits the store from delivering a handgun to a person under 21.

Suppose an uncle wishes to give his 20-year-old niece a handgun. Or he wishes to loan it to her for her week-long camping trip. In “universal background check” states, the handgun transfer may only take place at a gun store. But the gun store may not transfer the handgun, because the recipient is under 21.

Thus, in Colorado, the Bloomberg law, adopted in 2013, has operated to terminate handgun acquisitions by young adults. This was never the intent of the Colorado legislature; the issue of blocking handguns for young adults was never mentioned during legislative debate or public testimony. The

¹³⁹ District of Columbia v. Heller, 554 U.S. 570, 629 (2008).

2018] The Second Amendment Rights of Young People 149

prohibition was an unintended consequence. Or at least unintended by the legislature.¹⁴⁰

6. Unlike Illegal Drug Users, Young People have No Escape from Bans

Finally, the Fifth Circuit pointed out the temporary nature of the ban on gun store handgun sales to young adults. The court compared the age ban to the temporary nature of bans on illegal drug users. As we have previously argued:

First, that a severe burden will be lifted in a few years does not change the present severity of the burden. That a person will be able to protect herself with a handgun three years from now is cold comfort when she cannot protect herself with a handgun from an imminent threat today. Similarly, the fact that a now-pregnant woman would be eligible to get an abortion in three years would not bolster the constitutionality of a law preventing her from getting an abortion today. Second, the court's comparison to unlawful drug users is misguided. As the court explained, the unlawful drug user can end the prohibition by simply ending his drug use—it is completely within the prohibited person's control.¹⁴¹ In contrast, an age limitation is completely beyond the prohibited person's control.¹⁴²

IV. NATIONAL RIFLE ASSOCIATION V. MCCRAW

We have finished with history. The remainder of this Part will address the three other major post-*Heller* federal circuit cases involving young adults.

NRA v. McCraw challenged Texas's statute that prevented most 18-to-20-year-olds from applying for a license to carry handguns for lawful

¹⁴⁰ David B. Kopel, *Background Checks for Firearms Sales and Loans: Law, History, and Policy*, 53 HARV. J. LEGIS. 303 (2016) (the "background check" bills drafted by Mr. Bloomberg's organizations are laden with prohibitions and consequences that go very far beyond simply requiring background checks on the private sales of guns. The Colorado law still allows transfers among some family members, without need for gun store processing. But many young adults in Colorado cannot take advantage of this. First, the permissible relatives may not live in Colorado. The out-of-state relatives cannot donate a gun, because federal law forbids private arms transfers across state lines. Or the young adult may be living independently from an abusive or otherwise dysfunctional family. Even for functional in-state families, a parent cannot purchase a handgun as an agent for a young adult, because the transaction would be a "straw purchase" under federal law.) See *United States v. Moore*, 109 F.3d 1456 (9th Cir. 1997) (en banc).

¹⁴¹ *United States v. Carter (Carter I)*, 669 F.3d 411, 419 (4th Cir. 2012) ("[I]t is significant that § 922(g)(3) enables a drug user who places a high value on the right to bear arms to regain that right by parting ways with illicit drug use."); see also *United States v. Yancey*, 621 F.3d 681, 687 (7th Cir. 2010) ("[T]he gun ban extends only so long as Yancey abuses drugs. In that way, Yancey himself controls his right to possess a gun.")

¹⁴² David B. Kopel & Joseph G.S. Greenlee, *The Federal Circuits' Second Amendment Doctrines*, 61 ST. LOUIS U. L.J. 193, 282 (2017).

protection in public places.¹⁴³ Having recently decided *NRA v. BATF*, the Fifth Circuit provided little analysis, explaining that it was bound by *BATF*: “The Texas scheme restricts the same age group’s access to and use of handguns for the same reason [as the handgun sale restriction upheld in *BATF*]. Therefore, under circuit precedent, we conclude that the conduct burdened by the Texas scheme likely ‘falls outside the Second Amendment’s protection.’”¹⁴⁴ In other words, young adults have no Second Amendment rights, or at least no Second Amendment handgun rights.

Like the *BATF* court, the *McCraw* court applied intermediate scrutiny in an abundance of caution and upheld the law for similar reasons.

However, the *McCraw* court made at least two mistakes in its application of intermediate scrutiny. Under the post-*Heller* doctrines adopted by the federal circuits, the level of Second Amendment scrutiny in a given case depends on the severity of the burden on Second Amendment rights. Severe burdens should have more rigorous scrutiny than lesser burdens. In *BATF*, the effect of the federal statute was to restrict where and how young adults could acquire handguns; they could acquire handguns from private persons, but not from stores. The federal law simply forced young adults to use less convenient means of buying handguns. So arguably, intermediate scrutiny was the correct standard of review in *BATF*.

However, in *McCraw*, the effect of the law was to completely disable young adults from bearing handguns for lawful defense. Being a complete prohibition on the exercise of the right to bear handguns, the law at issue in *McCraw* should have been tested under strict scrutiny.¹⁴⁵

The Fifth Circuit also refused to apply all of the intermediate scrutiny tests. In strict scrutiny, the government must prove that there is no “less restrictive alternative.” Under the more relaxed standard of intermediate scrutiny, the government must prove that there is no “substantially less burdensome alternative.”¹⁴⁶ The plaintiffs had argued that instead of banning licensed carry for young adults, Texas could have a more rigorous licensing system for young adults, compared to applicants over 21.

The *McCraw* court dismissed that alternative and said that “less restrictive alternative” is not part of intermediate scrutiny. True enough, but “substantially less burdensome alternative” is part of intermediate scrutiny, and the court offered no explanation for refusing to consider it.

¹⁴⁶ *Kopel & Greenlee, supra* note 144, at 309–12.

2018] The Second Amendment Rights of Young People 151

V. HORSLEY V. TRAME

Illinois requires that residents obtain a firearm owner's identification (FOID) card before acquiring or possessing a firearm. In *Horsley v. Trame*, the plaintiff challenged the requirement that FOID card applicants between 18 and 21 obtain the consent of a parent or guardian.¹⁴⁷ The Seventh Circuit determined that the requirement did not violate the Second Amendment because "Illinois does not impose a categorical ban on firearm possession for 18-to-20-year-olds whose parents do not consent. Rather, when an applicant cannot obtain a parent or guardian signature, he or she may appeal to the Director for a FOID card, and the Director will make a determination."¹⁴⁸

Specifically, "The Director may grant relief to a person who lacks a parent or guardian signature if the applicant establishes to the Director's satisfaction that the applicant has not been convicted of a forcible felony within a certain number of years, the applicant will not be likely to act in a manner dangerous to public safety, and granting relief would not be contrary to the public interest or to federal law. A decision from the Director denying an appeal is subject to judicial review under Illinois's Administrative Review Law."¹⁴⁹

The Illinois Attorney General argued "that the Second Amendment was not originally understood to include minors, and that minors during the founding era were understood to be persons under the age of 21. From there she reasons that persons who are presently under the age of 21 do not have a Second Amendment right to possess a firearm."¹⁵⁰

Following this reasoning, the court acknowledged that "[a]ccording to Blackstone . . . 'full age in male or female is twenty-one years,' and 'till that time is an infant, and so stiled in law.'"¹⁵¹ "So most right-to-bear-arms laws were passed while 18-to-20-year-olds were minors."¹⁵² Moreover, "Thomas Cooley's treatise that *Heller* called 'massively popular' [explains] that the

¹⁴⁷ *Horsley v. Trame*, 808 F.3d 1126 (7th Cir. 2015). The law, 430 ILL. COMP. STAT. 65/4(a)(2)(i), requires an applicant to submit evidence that:

He or she is 21 years of age or over, or if he or she is under 21 years of age that he or she has the written consent of his or her parent or legal guardian to possess and acquire firearms and firearm ammunition and that he or she has never been convicted of a misdemeanor other than a traffic offense or adjudged delinquent, provided, however, that such parent or legal guardian is not an individual prohibited from having a Firearm Owner's Identification Card

states ‘may prohibit the sale of arms to minors’ pursuant to their police power.”¹⁵³ The problems with these arguments have been discussed above.¹⁵⁴

Horsley argued that even if the age of majority had once been 21, it is now 18. After all, nowadays 18-year-olds “can vote and serve in the military, get married without parental consent, and own land.”¹⁵⁵ Moreover, she pointed out that the federal Uniform Militia Act of 1792 included 18-year-olds. “Because a minor could be a member of the militia and be armed, she reasons that the Second Amendment gives these persons a right to bear arms.”¹⁵⁶

After describing the pro/con arguments, the Seventh Circuit declared: “We need not decide today whether 18-, 19-, and 20-year-olds are within the scope of the Second Amendment.”¹⁵⁷ Because regardless, the law would be constitutional. In deciding so, the court repeatedly emphasized that the law did not constitute a ban of any sort on 18-to-20-year-olds.¹⁵⁸

Since there was no blanket ban on 18-to-20-year-olds who could not get parent or guardian consent, this case was “much different from the blanket ban on firearm possession present in *Heller*.” The Illinois law was also different from the statute *Planned Parenthood v. Danforth*,¹⁵⁹ where the Supreme Court struck down a blanket provision requiring the consent of a

(In re Jordan G.)*, 33 N.E.3d 162 (Ill. 2015) (The court cited these two cases from the Supreme Court of Illinois upholding restrictions on 18-to-20-year-olds but was apparently not persuaded by either. Nor should it have been, as the Supreme Court of Illinois failed to conduct meaningful historical analysis in either case).

¹⁵⁸ *Trame*, 808 F.3d at 1127 (“We disagree with Horsley that the Illinois statutory scheme violates her rights under the Second Amendment. Illinois does not impose a categorical ban on firearm possession for 18-to-20-year-olds whose parents do not consent.”); *Id.* at 1130 (“The question in our case is whether the Illinois statutory scheme that promulgates a different procedure for 18-to-20-year-olds to possess a firearm, but does not ban them from doing so, violates the Second Amendment.”); *Id.* at 1131–32 (“Significantly, although Horsley’s arguments treat the challenged statute as a categorical ban on firearm possession, the FOID Card Act does not in fact ban persons under 21 from having firearms without parent or guardian consent.”); *Id.* at 1132 (“The absence of a blanket ban makes the Illinois FOID Card Act much different from the blanket ban on firearm possession present in *Heller*.”); *Id.* at 1132 (“So the lack of a parent signature does not bar Horsley from possessing a firearm, despite her arguments to the contrary. Nor does it impose a bar on gun possession on an 18-to-20-year-old whose parents have passed away or are disqualified from owning guns.”); *Id.* at 1132 (“The absence of a parent or guardian signature is not a ‘veto’ on the ability of a person between 18 and 21 to get a FOID card in Illinois. And the Illinois scheme is not a regulatory means that imposes severe burdens because it does not leave open ample alternative channels; rather it is a restriction that imposes only modest burdens because it does leave open ample alternative channels.”)(internal quotations, citations, footnote markers, and brackets omitted).

¹⁵⁹ *Planned Parenthood of Central Missouri v. Danforth*, 428 U.S. 52 (1976).

2018] The Second Amendment Rights of Young People 153

parent or person *in loco parentis* for an abortion in certain circumstances.¹⁶⁰ Pursuant to *Danforth*, states that require parental consent for abortions for minors must have a safety valve, by which a minor can instead seek consent from a court.

So “The question in our case is whether the Illinois statutory scheme that promulgates a different procedure for 18-to-20-year-olds to possess a firearm, but does not ban them from doing so, violates the Second Amendment.”¹⁶¹ Persuaded primarily by the relatively higher crime rate of 18-to-20-year-olds, the court determined that a different—but not prohibitive—procedure for young adults was “substantially related to the state’s important interests.”¹⁶²

VI. EZELL V. CITY OF CHICAGO

Ezell challenged a Chicago ordinance that prohibited anyone under 18 from entering a shooting range.¹⁶³

Chicago argued that persons under 18 have no Second Amendment rights. “To support this sweeping claim, the City points to some nineteenth-century state laws prohibiting firearm possession by minors and prohibiting firearm sales to minors. Laws of this nature might properly inform the question whether minors have a general right, protected by the Second Amendment, to purchase or possess firearms. But, they have little relevance to the issue at hand.”¹⁶⁴ As discussed above, in the nineteenth century, the majority of states imposed no age limits on the right to arms. Towards the end of the century, a minority of states did limit handgun acquisition. No state prohibited long gun acquisition by minors.

The nineteenth century laws did not prohibit minors who were lawfully in possession of arms from practicing with those arms. As the Seventh Circuit observed, “There’s zero historical evidence that firearm training for this age group is categorically unprotected. At least the City hasn’t identified any, and we’ve found none ourselves.”¹⁶⁵

Moreover, the court found nothing from *Heller* that would justify the ban:

To the contrary, *Heller* itself points in precisely the opposite direction. 554 U.S. at 617–18, 128 S.Ct. 2783 (“[T]o bear arms implies something more than the mere keeping; it implies the learning to handle and use them ...; it

implies the right to meet for voluntary discipline in arms, observing in doing so the laws of public order.” (quoting Thomas McIntyre Cooley, *A Treatise on the Constitutional Limitations* 271 (1868)); *see also id.* at 619, 128 S.Ct. 2783 (“No doubt, a citizen who keeps a gun or pistol under judicious precautions, practices in safe places the use of it, and in due time teaches his sons to do the same, exercises his individual right.” (quoting Benjamin Vaughan Abbott, *Judge and Jury: A Popular Explanation of the Leading Topics in the Law of the Land* 333 (1880))).¹⁶⁶

The court, having determined that the Second Amendment applies to minors at firing ranges, applied heightened scrutiny to the law.

The government was “left to rely on generalized assertions about the developmental immaturity of children, the risk of lead poisoning by inhalation or ingestion, and a handful of tort cases involving the negligent supervision of children who were left to their own devices with loaded firearms.”¹⁶⁷ Since the government could address these concerns with “a more closely tailored age restriction—one that does not *completely extinguish* the right of older adolescents and teens in Chicago to learn how to shoot in an appropriately supervised setting at a firing range,” the law violated the Second Amendment.¹⁶⁸

VII. CONCLUSION

This Article has not attempted to fully analyze all the legal issues involving restrictions on firearms for persons under twenty-one-years-old. Examination of all relevant Supreme Court precedents, of the legal history of the colonial period and Early Republic, of all contemporary statutes on arms and young people, and of age limits for other rights or activities will be discussed in our forthcoming article in the *Southern Illinois University Law Journal*.

In this Article, we have confined the analysis to the five major Circuit Court of Appeals cases on age restrictions for arms. We have closely examined how those cases used history and policy arguments. In short, there are no Founding Era sources that support restrictions on arms acquisition by young people. The first age restrictions appear in the South shortly before the Civil War; by the end of the nineteenth century, thirteen of the forty-six states had restricted handgun sales to minors; and five more required parental permission for such sales. Five states went so far as to prohibit handgun loans to minors. No state had restrictions on long gun sales or loans; a Kansas decision applying a vague statutory term to long guns was swiftly overturned.

¹⁶⁷ *Id.* at 898.

¹⁶⁸ *Id.*

2018] The Second Amendment Rights of Young People 155

Modern policy arguments attempting to justify prohibitions on young adults 18-to-20 are thinly reasoned and rely on the unsupportable theory that law-abiding young adults are legally similar to convicted felons, illegal drug users, or wartime traitors.

Introduction

Since the Supreme Court’s 2008 decision in *District of Columbia v. Heller*, lower courts have analyzed diverse Second Amendment issues. One question is whether young adults—that is, persons aged 18-to-20—have Second Amendment rights. This article suggests that they do. Indeed, under *Heller*’s originalist methodology, this is an easy question.

Heller provided a methodology for determining whether a person, activity, or arm is protected by the Second Amendment.³ The Court analyzed founding-era sources, including constitutional text and history, to determine the scope of the Second Amendment at the time of ratification.⁴ The Court also looked to 19th century sources, but explained that these “do not provide as much insight into its original meaning as earlier sources.”⁵ We will take the same approach in this article to determine whether young adults aged 18-to-20 have the right to keep and bear arms.

Part I examines what the Supreme Court has said, explicitly and implicitly, about the Second Amendment rights of young adults.

Parts II and III survey colonial and founding-era sources. Part II begins with a glossary of various terms that were used in militia statutes. These show some of the arms and accoutrements that Americans were required to possess. The various items illustrate that the right to arms does not include only firearms and ammunition. The right also includes, for example, edged weapons and gun-cleaning equipment. Part II also describes the arms culture of early America, where it was a point of national pride that people were trained to arms “from their infancy.”

Part III then surveys all the militia statutes from the earliest colonial days through 1800. The survey pays particular attention to two issues. The first is the age for militia service or for other forms of mandatory arms possession. As the statutes demonstrate, arms possession was mandatory for militiamen and for other categories of people. In some colonies, for example, every head of a house, regardless of gender, had to possess arms. So did men who were too old for militia service. The most common ages for mandatory militia service were from 16 to 60. But by the end of the eighteenth century, the militia mandate had been narrowed in most states to 18 until 45 or 50.

The second issue in Part III is the types of arms that militiamen—and the many other people required to possess arms—were supposed to own. Part III tracks the evolution of these laws, as they become more specific about requiring various accoutrements—such as gun cleaning equipment, holsters, and ammunition storage devices—and the laws’ attempts to ensure that the public possesses modern arms.

Part IV describes federal laws regarding the ages for arms possession. These include the 1792 statute making 18-year-olds into members of the federal militia (as they are today, by statute), the 1968 Gun Control Act setting age limits on purchases in gun stores, and the 1994 federal law restricting handgun possession by persons under 18.

Part V covers the five leading post-*Heller* federal circuit court cases on age limits for exercising Second Amendment rights. Two of these cases relied heavily on cases and statutes from the nineteenth century; thus, in the course of discussing the cases, we survey the nineteenth century

³ *District of Columbia v. Heller*, 554 U.S. 570, 595 (2008).

⁴ *Id.* at 576 (“In interpreting this text, we are guided by the principle that ‘[t]he Constitution was written to be understood by the voters; its words and phrases were used in their normal and ordinary as distinguished from technical meaning.’”) (quoting *United States v. Sprague*, 282 U.S. 716, 731 (1931)).

⁵ *Id.* at 614.

developments. By the end of the century, a substantial minority of states that placed some restrictions on handgun acquisition by persons under 21.

Finally, Part VI describes some of the present-day state laws that limit firearms acquisition or possession by young adults (18 to 20). Part VI also considers various past and present age limits in American law for different activities, such as voting, vices (e.g., alcohol, gambling), marriage, and the right to keep and bear arms.

In conclusion, this article finds that there is some historical precedent for extra regulation for handgun acquisition by young adults, and very little for extra restrictions on long gun acquisition. Pursuant to *Heller*, extra regulations for young adults may be permissible, but prohibitions or quasi-prohibitions are not. The Second Amendment rights of young adults include a core right affirmed in *Heller*: acquiring and keeping a handgun in the home for lawful self-defense.

I. The Supreme Court

Consider the following syllogism:

1. The militia has the right to keep and bear arms;
2. 18-to-20-year-olds are part of the militia;
3. Therefore, 18-to-20-year-olds have the right to keep and bear arms.

The Supreme Court's precedents have held that items one and two are correct.⁶ As will be detailed in Part III, those precedents are correct because colonial and Founding Era militia statutes included young adults.

The *Heller* case affirmed that militiamen have the right to arms and also held that the Second Amendment right is not exclusively for the militia.⁷ Further, according to *Heller*, whoever does have the right to arms has that right for all lawful purposes; these include not only militia service, but also self-defense, hunting, target practice, and so on.⁸

⁶ See discussion *infra* Part I.

⁷ *Heller*, 554 U.S. at 596; see also discussion *infra* Part IA.

⁸ *Id.* at 614 (“[T]he right to keep arms involves, necessarily, the right to use such arms for all the ordinary purposes, and in all the ordinary modes usual in the country, and to which arms are adapted, limited by the duties of a good citizen in times of peace.”) (quoting *Andrews v. State*, 50 Tenn. (3 Heisk.) 165, 178-79 (1871)). Cf. David B. Kopel & Joseph G.S. Greenlee, *The Federal Circuits’ Second Amendment Doctrines*, 61 ST. L.U.L.J. 193, 204-12 (2017) (surveying post-*Heller* federal Circuit Court decisions, which unanimously find that the right to arms includes self-defense, militia, hunting, target shooting, and all other lawful purposes).

A. District of Columbia v. Heller

The *Heller* Court held that the Second Amendment guarantees an individual right, and the right is not dependent on service in a militia. But the Court made clear that the militia is protected. Indeed, all nine Justices agreed that individual militiamen are protected by the Second Amendment. The disagreement between the Justices was whether the right extends beyond the militia, with the majority holding that it does.

The majority stated:

the Second Amendment’s prefatory clause announces the purpose for which the right was codified: to prevent elimination of the militia. The prefatory clause does not suggest that preserving the militia was the only reason Americans valued the ancient right; most undoubtedly thought it even more important for self-defense and hunting. But the threat that the new Federal Government would destroy the citizens’ militia by taking away their arms was the reason that right—unlike some other English rights—was codified in a written Constitution.⁹

The dissenting opinions similarly recognized that the Second Amendment prevented the militia from being disarmed. Justice Stevens’s dissent stated that “the purpose of the Amendment [was] to protect against congressional disarmament, by whatever means, of the States’ militias.”¹⁰ The Amendment protects “the collective action of individuals having a duty to serve in the militia that the text directly protects,”¹¹ because the Amendment “was a response to concerns raised during the ratification of the Constitution that the power of Congress to disarm the state militias and create a national standing army posed an intolerable threat to the sovereignty of the several States.”¹²

Justice Breyer’s dissent noted the “general agreement among the Members of the Court that the principal (if not the only) purpose of the Second Amendment is found in the Amendment’s text: the preservation of a ‘well regulated Militia.’”¹³ After all, the first clause of “[t]he Amendment itself tells us that militia preservation was first and foremost in the Framers’ minds.”¹⁴

Although the dissents disagreed with the majority that the right extends beyond the militia, the Court was unanimous that individuals in the militia were fully protected by the Second Amendment, and that the right was codified because the Founders and the public were horrified by the prospect of the government disarming the militia. As explained below, the militias of every colony and state, and the federal militia, included 18-to-20-year-olds. Young adults have been part of the militia from the seventeenth century through the twentyfirst. As Justice Breyer pointed out, the District of Columbia’s militia at the time *Heller* was decided included “[e]very able-bodied

⁹ *Heller*, 554 U.S. at 599. The majority added: “Does the preface fit with an operative clause that creates an individual right to keep and bear arms? It fits perfectly, once one knows the history that the founding generation knew and that we have described above.” *Id.* at 598. Because one reason the right was codified was to protect the militia, an interpretation that did not include the entire militia would destroy this “perfect fit.”

¹⁰ *Id.* at 660–61 (Stevens, J., dissenting). Justice Stevens’s dissent was joined by Justices Souter, Ginsburg, and Breyer.

¹¹ *Id.* at 645.

¹² *Id.* at 637.

¹³ *Id.* at 706 (Breyer, J., dissenting). Justice Breyer’s dissent was joined by Justices Souter, Ginsburg, and Stevens.

¹⁴ *Id.* at 715.

male citizen resident within the District of Columbia, of the age of 18 years and under the age of 45 years.”¹⁵

The *Heller* majority further indicated that 18-to-20-year-olds have Second Amendment rights by explaining:

the ordinary definition of the militia [i]s all able-bodied men. From that pool, Congress has plenary power to organize the units that will make up an effective fighting force. That is what Congress did in the first Militia Act, which specified that “each and every free able-bodied white male citizen of the respective states, resident therein, who is or shall be of the age of eighteen years, and under the age of forty-five years (except as is herein after excepted) shall severally and respectively be enrolled in the militia.” Act of May 8, 1792, 1 Stat. 271. To be sure, Congress need not conscript every able-bodied man into the militia, because nothing in Article I suggests that in exercising its power to organize, discipline, and arm the militia, Congress must focus upon the entire body. Although the militia consists of all able-bodied men, the federally organized militia may consist of a subset of them.¹⁶

Because the militia consists of “all able-bodied men,” because “Congress has plenary power to organize ... an effective fighting force” “from that pool” of “able-bodied men,” and because “[t]hat is what Congress did in the first Militia Act” by organizing the able-bodied men between eighteen and forty-five, the Court recognized 18-to-20-year-olds as part of the militia; as such, they necessarily have the right to keep and bear arms.

Perhaps, one could argue, that although 18-to-20-year-olds were part of the militia, they were not trusted with arms outside of their militia service. But the *Heller* majority rejects this, since it affirms the right to arms for all lawful purposes.¹⁷ While the English militia of the time was often supplied with centrally-stored arms that were only brought out for practice days, American militiamen were expected to keep their own arms at home, and to be proficient with those arms.¹⁸

As *Heller* explained, “the conception of the militia at the time of the Second Amendment’s ratification was the body of all citizens capable of military service, who would bring the sorts of lawful weapons that they possessed at home to militia duty.”¹⁹ The Court quoted with approval a previous Supreme Court decision, *United States v. Miller*, discussed *infra*, which stated that

¹⁹ *Heller*, 554 U.S. at 627.

“ordinarily when called for [militia] service [able-bodied] men were expected to appear bearing arms supplied by themselves and of the kind in common use at the time.”²⁰

The Court also quoted “the most famous” late 19th-century legal scholar: “judge and professor Thomas Cooley, who wrote a massively popular 1868 Treatise on Constitutional Limitations.” Cooley explained that “[t]he alternative to a standing army is ‘a well-regulated militia,’ but this cannot exist unless the people are trained to bearing arms.”²¹ Further, as quoted by the Court, “to bear arms implies something more than the mere keeping; it implies the learning to handle and use them in a way that makes those who keep them ready for their efficient use.”²²

Similarly, the Court quoted John Norton Pomeroy, another late-19th-century scholar, stating that the purpose of the Second Amendment is

to secure a well-armed militia But a militia would be useless unless the citizens were enabled to exercise themselves in the use of warlike weapons. To preserve this privilege, and to secure to the people the ability to oppose themselves in military force against the usurpations of government, as well as against enemies from without, that government is forbidden by any law or proceeding to invade or destroy the right to keep and bear arms.²³

And the Court quoted Benjamin Vaughan Abbott, another late-19th-century scholar, who said: “Some general knowledge of firearms is important to the public welfare; because it would be impossible, in case of war, to organize promptly an efficient force of volunteers unless the people had some familiarity with weapons of war.”²⁴

The *Heller* dissent was of a similar mind, explaining that “the Framers recognized the dangers inherent in relying on inadequately trained militiamen ‘as the primary means of providing for the common defense.’”²⁵ The dissent acknowledged that “during the Revolutionary War, [t]his force, though armed, was largely untrained, and its deficiencies were the subject of bitter complaint.”²⁶ The dissent quoted George Washington stating that, “The firmness requisite for the real business of fighting is only to be attained by a constant course of discipline and service.”²⁷ And Alexander Hamilton, who wrote that “War, like most other things, is a science to be acquired and perfected by diligence, by perseverance, by time, and by practice.”²⁸

²⁷ *Id.* at 654.

²⁸ *Id.* at 653 n.17 (Stevens, J., dissenting) (*The Federalist* No. 25). While these statements from Washington and Hamilton expressed frustration with the militia, they nonetheless demonstrate that the Founders rejected the idea of disarming a substantial segment of the militia, leaving them largely untrained and unfamiliar with firearms when called to duty. *See also* MARK W. KWASNY, *WASHINGTON’S PARTISAN WAR: 1775–1783*, at 337-38 (1996) (“Washington learned to recognize both the strengths and the weaknesses of the militia. As regular soldiers,

These sources show that those in the militia were expected not only to provide their own arms, but also to practice with them frequently. All nine Justices shared that understanding.

The majority made clear that the right included, but was not limited to, the militia. “‘Keep arms’ was simply a common way of referring to possessing arms, for militiamen *and everyone else.*”²⁹ The Court cited an opinion by the Georgia Supreme Court which “perfectly captured the way in which the operative clause of the Second Amendment furthers the purpose announced in the prefatory clause...”:

The right of the whole people, *old and young*, men, *women and boys*, and *not militia only*, to keep and bear arms of every description, and not such merely as are used by the militia, shall not be infringed, curtailed, or broken in upon, in the smallest degree; and all this for the important end to be attained: the rearing up and qualifying a well-regulated militia, so vitally necessary to the security of a free State.³⁰

Heller’s most definitive recognition that 18-to-20-year-olds have Second Amendment rights came in the Court’s discussion of who “the people” in the Second Amendment are. The operative clause of the Second Amendment states that “the right of *the people* to keep and bear arms, shall not be infringed.”³¹ As the Court observed, “*the ‘militia’ in colonial America consisted of a subset of ‘the people’*—those who were male, able bodied, and within a certain age range.”³² Thus, because 18-to-20-year-olds were part of the militia, 18-to-20-year-olds were also part of “the people.” It is “*the right of the people to keep and bear arms*” that the Second Amendment protects.³³

militiamen were deficient.... He therefore increasingly detached Continentals to support them when operating against the British army.... Militiamen were available everywhere and could respond to sudden attacks and invasions often faster than the army could. Washington therefore used the militia units in the states to provide local defense, to suppress Loyalists, and to rally to the army in case of an invasion.... Washington made full use of the partisan qualities of the militia forces around him. He used them in small parties to harass and raid the army, and to guard all the places he could not send Continentals.... Rather than try to turn the militia into a regular fighting force, he used and exploited its irregular qualities in a partisan war against the British and Tories.”)

²⁹ *Heller*, 554 U.S. at 583 (emphasis in original).

³⁰ *Id.* at 612–13 (quoting *Nunn v. State*, 1 Ga. 243, 251 (1846)) (emphasis added).

³¹ U.S. CONST., amend. II (emphasis added).

³² *Heller*, 554 U.S. at 580 (emphasis added). Elsewhere, the majority quoted Thomas Cooley with approval: “The meaning of the provision undoubtedly is, that *the people, from whom the militia must be taken*, shall have the right to keep and bear arms.” *Id.* at 617 (emphasis added). The quotation similarly treats the militia as a subset of “the people.”

³³ The Court’s full discussion on “the people”:

What is more, in all six other provisions of the Constitution that mention “the people,” the term unambiguously refers to all members of the political community, not an unspecified subset. As we said in *United States v. Verdugo–Urquidez*, 494 U.S. 259, 265, 110 S.Ct. 1056, 108 L.Ed.2d 222 (1990):

“‘[T]he people’ seems to have been a term of art employed in select parts of the Constitution [Its uses] sugges[t] that ‘the people’ protected by the Fourth Amendment, and by the First and Second Amendments, and to whom rights and powers are reserved in the Ninth and Tenth Amendments, refers to a class of persons who are part of a national community or who have otherwise developed sufficient connection with this country to be considered part of that community.”

As *Heller* observed, “Logic demands that there be a link between the stated purpose and the command.”³⁴ The prefatory clause may assist in interpreting the operative clause.³⁵ The Second Amendment’s prefatory clause makes it clear that, at a minimum, the main clause protects the entire militia.

The *Heller* Court held that the core of the Second Amendment includes keeping a handgun in the home for lawful defense.³⁶ The Supreme Court reiterated that holding in *McDonald v. City of Chicago*.³⁷ In the modern United States, some young adults maintain their own homes. Some of them are married. Some of them are raising children in their home. To deprive these householders of the right to possess a handgun in their homes for lawful defense thus infringes on the core of their Second Amendment rights.

The Supreme Court’s “first in-depth examination of the Second Amendment”³⁸ demonstrated that 18-to-20-year-olds have Second Amendment rights, because: 1) the militia is protected by the Second Amendment; 2) 18-to-20-year-olds have historically been understood as part of the militia; and 3) militiamen were required to supply their personal arms, which the government could not deprive them of. But the Court had established this long before *Heller*.

B. Principles from Other Supreme Court Cases

1. The militia is protected by the Second Amendment

While the text of the Second Amendment³⁹ is sufficient to prove that the Founders understood the militia as having the right to keep and bear arms, the Court emphasized the point in *United States v. Miller*.⁴⁰ “With obvious purpose to assure the continuation and render possible the effectiveness of [militia] forces the declaration and guarantee of the Second Amendment were made. It must be interpreted and applied with that end in view.”⁴¹ While *Miller* has been criticized for its “conceptually flawed concentration on the amendment’s militia purpose,”⁴² since the case had little to do with the militia, *Miller* correctly affirmed that the Second Amendment prevents the government from rendering militia forces ineffective. Disarming 18-to-20-year-olds would render

This contrasts markedly with the phrase “the militia” in the prefatory clause. As we will describe below, the “militia” in colonial America consisted of a subset of “the people”—those who were male, able bodied, and within a certain age range.

Heller, 554 U.S. at 580.

them ineffective militia forces in the Founders’ view, especially because militiamen were expected to provide their own arms.

2. 18-to-20-year-olds have historically been understood as part of the militia

That 18-to-20-year-olds were included in the federal militia and each state’s militia at the time of the founding will be established below, in Parts III and IV. But it is also important to note that the Supreme Court has in every instance understood the militia to include 18-to-20-year-olds.

Citing the constitutional militia, as identified in Article 1, Section 8 of the Constitution, the Court in *Hamilton v. Regents of the University of California*, explained that “[u]ndoubtedly every state has authority to train its able-bodied male citizens of suitable age appropriately to develop fitness, should any such duty be laid upon them, to serve in the United States Army or in state militia (always liable to be called forth by federal authority to execute the laws of the Union, suppress insurrection, or repel invasion...)”⁴³ The *Hamilton* case involved university students who did not wish to participate in the mandatory militia training required by state law. Then as now, many students at the University of California were ages 18 to 20.

The *Miller* Court recognized that “the debates in the Convention, the history and legislation of Colonies and States, and the writings of approved commentators . . . show plainly enough that the Militia comprised all males physically capable of acting in concert for the common defense. ‘A body of citizens enrolled for military discipline.’”⁴⁴ *Miller* then offered examples:

The General Court of Massachusetts in 1784 “provided for the organization and government of the Militia. It directed that the Train Band should ‘contain all able bodied men, from sixteen to forty years of age, and the Alarm List, all other men under sixty years of age.’”⁴⁵

The New York Legislature in 1786 “directed: ‘That every able-bodied Male Person, being a Citizen of this State, or of any of the United States, and residing in this State, (except such Persons as are herein after excepted) and who are of the Age of Sixteen, and under the Age of Forty-five Years, shall . . . be enrolled.’”⁴⁶

The General Assembly of Virginia in 1785, the U.S. Supreme Court explained, “directed that ‘All free male persons between the ages of eighteen and fifty years,’ with certain exceptions, ‘shall be inrolled or formed into companies.’”⁴⁷

In *Perpich v. Department of Defense*, the Court acknowledged that “[i]n the early years of the Republic” Congress “command[ed] that every able-bodied male citizen between the ages of 18 and 45 be enrolled” in the militia.⁴⁸ *Perpich* also pointed out that at the turn of the twentieth century, the “The Dick Act divided the class of able-bodied male citizens between 18 and 45 years of age into an ‘organized militia’ to be known as the National Guard of the several States, and the remainder of which was then described as the ‘reserve militia,’ and which later statutes have

⁴³ *Hamilton v. Regents of the Univ. of Cal.*, 293 U.S. 245, 260 (1934) (citing U.S. CONST., art. 1, § 8, cls. 12, 15 and 16).

⁴⁴ *Miller*, 307 U.S. at 179. This language was favorably quoted in *Heller*, 554 U.S. at 595.

⁴⁵ *Id.* at 180 (quoting The General Court of Massachusetts, January Session 1784 (Laws and Resolves 1784, c. 55, pp. 140, 142)).

⁴⁶ *Id.* at 180-81 (quoting New York Legislature, an Act passed April 4, 1786 (Laws 1786, c. 25)).

⁴⁷ *Id.* at 181 (quoting The General Assembly of Virginia, 1785 (12 Hening’s Statutes, c. 1, p. 9 et seq.)).

⁴⁸ *Perpich v. Dep’t of Def.*, 496 U.S. 334, 341-43 (1990).

termed the ‘unorganized militia.’”⁴⁹ As the Court noted, “[i]t is undisputed that Congress was acting pursuant to the Militia Clauses of the Constitution in passing the Dick Act.”⁵⁰

In *Presser v. Illinois*, the Court declared:

It is undoubtedly true that *all citizens capable of bearing arms* constitute the reserved military force or reserve militia of the United States as well as of the states, and, in view of this prerogative of the general government, as well as of its general powers, the states cannot, even laying the constitutional provision in question out of view, prohibit *the people* from keeping and bearing arms, so as to deprive the United States of their rightful resource for maintaining the public security, and disable *the people* from performing their duty to the general government.⁵¹

Thus, the *Presser* Court, like the *Heller* Court, specified that the militia is part of “the people”—as in “the people” who have the right “to keep and bear arms” protected by the Second Amendment.⁵² The militia identified by the *Presser* Court consists of “all citizens capable of bearing arms,” which most certainly includes 18-to-20-year-olds, since the federal militia statute at the time included 18-to-20-year-olds.⁵³

3. Militiamen were required to supply their personal arms, which the government could not deprive them of

According to the Supreme Court, militiamen were required to provide their own private firearms and were expected to achieve and maintain proficiency with those arms to ensure the effectiveness of the militia.

As *Miller* put it, “the debates in the Convention, the history and legislation of Colonies and States, and the writings of approved commentators . . . show . . . that ordinarily when called for service these men [in the militia] were expected to appear bearing arms *supplied by themselves* and of the kind in common use at the time.”⁵⁴ The *Miller* Court provided founding-era examples from Massachusetts, New York, and Virginia: New York required “[t]hat every Citizen so enrolled and notified . . . provide himself, at his own Expense, with a good Musket or Firelock, a sufficient Bayonet and Belt, a Pouch with a Box therein to contain not less than Twenty-four Cartridges

⁴⁹ *Id.* at 342.

⁵⁰ *Id.*

⁵¹ *Presser v. Illinois*, 116 U.S. 252, 265-66 (1886) (emphasis added).

⁵² *Cf. Voisine v. United States*, 136 S. Ct. 2272, 2291 (2016) (Thomas, J., dissenting) (“To be constitutional, therefore, a law that broadly frustrates an individual’s right to keep and bear arms must target individuals who are beyond the scope of the ‘People’ protected by the Second Amendment.”).

⁵³ *See infra* Part IV.

Following precedent, the Court’s opinion in *McDonald* incorporated the Second Amendment on the basis of the Fourteenth Amendment’s Due Process Clause, which protects every “person.” Concurring, Justice Thomas preferred to use the Fourteenth Amendment’s Privileges or Immunities Clause, which protects “citizens.” *McDonald*, 561 U.S. at 850 (Thomas, J., concurring). Because non-citizens who have declared their intent to naturalize are subject to militia duty, they would have to be within the scope of “the militia” and therefore “the people” who are protected by the Second Amendment. *See* 10 U.S.C. § 246 (2019) (including in the militia all able-bodied males from 17 to 45 “who are, or who have made a declaration of intention to become, citizens of the United States.”)

⁵⁴ *Miller*, 307 U.S. at 179 (emphasis added).

suited to the Bore of his Musket or Firelock, each Cartridge containing a proper Quantity of Powder and Ball, two spare Flints, a Blanket and Knapsack.”⁵⁵

Massachusetts mandated each militiaman to “equip himself, and be constantly provided with a good fire arm, &c.”⁵⁶

Under Virginia law,

The defense and safety of the commonwealth depend upon having its citizens properly armed and taught the knowledge of military duty.” So “[e]very officer and soldier shall appear . . . armed, equipped, and accoutred, as follows: * * * every non-commissioned officer and private with a good, clean musket carrying an ounce ball, and three feet eight inches long in the barrel, with a good bayonet and iron ramrod well fitted thereto, a cartridge box properly made, to contain and secure twenty cartridges fitted to his musket, a good knapsack and canteen, and moreover, each non-commissioned officer and private shall have at every muster one pound of good powder, and four pounds of lead, including twenty blind cartridgesAnd every of the said officers, non-commissioned officers, and privates, *shall constantly keep* the aforesaid arms, accoutrements, and ammunition, ready to be produced whenever called for by his commanding officer.”⁵⁷

Recently, in the 2016 *Caetano v. Massachusetts*, the Court reaffirmed that “*Miller and Heller* recognized that militiamen traditionally reported for duty carrying ‘the sorts of lawful weapons that they possessed at home.’”⁵⁸

Or as the 1990 Court said in *Perpich*, “in the early years of the Republic, Congress . . . command[ed] that every able-bodied male citizen between the ages of 18 and 45 . . . *equip himself* with appropriate weaponry....”⁵⁹ The Court wrote that Congress’s “choice of a dual enlistment system [for the militia] is just as permissible as the 1792 choice to have the members of the militia arm themselves.”⁶⁰

⁵⁵ *Id.* at 180–81 (quoting New York Legislature, an Act passed April 4, 1786 (Laws 1786, c. 25)).

⁵⁶ *Id.* at 180 (quoting The General Court of Massachusetts, Jan. sess. 1784 (Laws and Resolves 1784, c. 55, pp. 140, 142)).

As in some other states, militiamen “under the control of parents, masters or guardians” were expected to be supplied with arms by their parents, masters, or guardians. General Court of Massachusetts, *supra*, at 142–43. *See also* Part III (listing statutes that required parents, masters, or guardians to supply arms to their dependents). In a militia where duty began at age 16, there would be plenty of militiamen who were not yet living independently, and who could not afford their own arms. As for young people who were already supporting themselves, they typically had to provide their own arms.

Citing seventeenth century laws from the colony of Massachusetts, *Miller* noted that “[c]lauses intended to insure the possession of arms and ammunition by all who were subject to military service appear in all the important enactments concerning military affairs.” *Miller*, 307 U.S. at 180 (citing Osgood, 1 *The American Colonies In The 17th Century*, ch. XIII).

⁵⁷ *Miller*, 307 U.S. at 181-82 (The General Assembly of Virginia, October, 1785 (12 Hening’s Statutes c. 1, p. 9 et seq.)) (emphasis added).

⁵⁸ *Caetano v. Massachusetts*, 136 S. Ct. 1027, 1032 (2016).

⁵⁹ *Perpich v. Dep’t of Def.*, 496 U.S. 334, 341-43 (1990) (emphasis added).

⁶⁰ *Id.* at 350. Under the modern dual enlistment system, volunteers in the National Guard dually enlist in the National Guard of their state and in the National Guard of the United States. The Guardsmen are state actors unless called into federal service. In either capacity, their arms are supplied by the federal government. The National Guard is the

The Court said something similar in *Houston v. Moore* in 1820.⁶¹ The Court stated that the congressional militia statutes were within Congress's enumerated Article I militia power to declare "what arms and accoutrements the officers and privates shall provide themselves with."⁶²

In other cases, the Court has confirmed that depriving militiamen of their personal arms would violate their right to keep and bear arms. As discussed above, the *Presser* Court explained that because the Constitution authorizes Congress to call forth the armed citizenry, "the states cannot . . . prohibit the people from keeping and bearing arms, so as to deprive the United States of their rightful resource for maintaining the public security, and disable the people from performing their duty to the general government."⁶³ Since Congress needs to be able to depend on the people being armed, the states cannot disarm them. The *Presser* Court's vision depends on an armed populace.⁶⁴

In *McDonald*, the Court found

the 39th Congress' response to proposals to disband and disarm the Southern militias is instructive. Despite recognizing and deploring the abuses of these militias, the 39th Congress balked at a proposal to disarm them. Disarmament, it was argued, would violate the members' right to bear arms, and it was ultimately decided to disband the militias but not to disarm their members.⁶⁵

Thus, the *McDonald* Court suggested what the *Presser* Court flat out said: individual militiamen could not be deprived of their private firearms.

Nothing the Supreme Court has ever written about the militia can be construed to exclude 18-to-20-year-olds. The Court has repeatedly confirmed that militiamen were expected to provide their own private firearms, and to be proficient with those arms. What is more, the Court has twice stated that the militia is a subset of "the people"—the same "people" the Second Amendment

"organized" part of the militia. 10 U.S.C. § 246 (2019). The "unorganized" militia is all other able-bodied males ages 18 to 45, except for ministers and other exempt persons. 10 U.S.C. § 247 (2019).

⁶¹ *Houston v. Moore*, 18 U.S. (5 Wheat.) 1 (1820).

⁶² *Id.* at 14.

⁶³ *Presser v. Illinois*, 116 U.S. 252, 265-66 (1886); U.S. CONST., art I, § 8, cl. 16 ("To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions.") (Calling Forth Clause).

The *Presser* point was reiterated with approval in a 1900 case:

In *Presser v. Illinois*, 116 U. S. 252, 29 L. ed. 615, 6 Sup. Ct. Rep. 580, it was held that the Second Amendment to the Constitution, in regard to the right of the people to bear arms, is a limitation only on the power of Congress and the national government, and not of the states. It was therein said, however, that as all citizens capable of bearing arms constitute the reserved military force of the national government the states could not prohibit the people from keeping and bearing arms, so as to deprive the United States of their rightful resource for maintaining the public security, and disable the people from performing their duty to the general government.

Maxwell v. Dow, 176 U.S. 581, 597 (1900), *abrogated on other grounds by Williams v. Florida*, 399 U.S. 78 (1970). *Presser* had been interpreted to hold that the right to keep and bear arms is not one of the Fourteenth Amendment "privileges or immunities of citizens of the United States" protected from state infringement. Similar holdings applied to most of the rest of the Bill of Rights. The work of incorporating items in the Bill of Rights into the Fourteenth Amendment has instead been accomplished by the Due Process of Law clause of the Fourteenth Amendment. *See, e.g., McDonald v. City of Chicago*, 561 U.S. 742 (2010) (plurality opinion by Justice Alito relies on Due Process; concurrence by Justice Thomas relies on Privileges or Immunities).

⁶⁴ *See also Houston*, 18 U.S. (5 Wheat.) at 52 (Story, J., dissenting) ("Yet what would the militia be without organization, arms, and discipline?").

⁶⁵ *McDonald*, 561 U.S. at 780 (citations omitted).

protects. Finally, the Court has recognized that any law that would disarm “the people”—and especially the militia—would be unlawful.

The Court’s unwavering descriptions of the militia and the young adults therein are solidly supported by the historical record. Besides the colonial period and Founding Era sources quoted by the Court above, we will in Part III examine *every* colonial and state militia statute up to 1800. They demonstrate that young adults are part of the militia.

II. Glossary, and cultural background

Before surveying the early state laws, we provide some background. Part A is a glossary of terms used in colonial and state laws regarding equipment that members of the public were required to possess. As will be detailed in Part III, the requirements often applied beyond militiamen. The arms mandates encompassed the militia, many males not in the militia, and sometimes women.

Previous scholarship has not paid much attention to the particular arms that were required. Because American discussion of the right to keep and bear arms has been so fixated on gun control, scholars have noted that most militiamen needed a long gun, while officers and cavalry needed handguns. This is true as far as it goes, but there was much more. Requirements for a knife, a sword, or both were very common.

Of course ammunition was mandatory. Post-*Heller*, courts have readily accepted that ammunition is part of the right to arms and is likewise subject to the arms rights limits that were articulated in *Heller*.⁶⁶ In addition to the ammunition that would have to be brought to militia muster, further reserves kept at ammunition were required.⁶⁷

Also mandatory was equipment for the cleaning and carrying of arms and ammunition. Horsemen had to have certain horse tack, and everyone needed various field gear, such as knapsacks and blankets.

Next, in Part B, we explain the American attitude that prevailed during the seventeenth and eighteenth centuries: part of what makes America different from—and better than—Europe, is that Americans start becoming proficient with arms when they are children.

A. Glossary of arms and accoutrements in militia laws

⁶⁶ See, e.g., *Jackson v. City & Cty. of San Francisco*, 746 F.3d 953, 967-68 (9th Cir. 2014) (“the right to possess firearms for protection implies a corresponding right to obtain the bullets necessary to use them”) (internal quotations omitted); *United States v. Pruess*, 703 F.3d 242, 245 (4th Cir. 2012) (treating Supreme Court legal rules about guns as having the same meaning for ammunition); *Ezell v. City of Chicago*, 651 F.3d 684, 704 (7th Cir. 2011) (“The right to possess firearms for protection implies a corresponding right to acquire and maintain proficiency in their use; the core right wouldn’t mean much without the training and practice that make it effective.”); *Herrington v. United States*, 6 A.3d 1237, 1243 (D.C. 2010) (right to ammunition is coextensive with the right to firearms); *Andrews v. State*, 50 Tenn. (3 Heisk.) 165, 178 (1871) (“The right to keep arms, necessarily involves the right . . . to purchase and provide ammunition suitable for such arms”).

⁶⁷ A muster is a periodic assembly of militiamen; the militiamen must prove that they have the certain requisite arms by bringing them the muster. To “pass muster” is to pass the inspection. A muster would not necessarily involve drill or practice. As detailed in Part III, some militia statutes required militiamen (and others) to possess reserves of bullets and gunpowder at home, beyond the quantity that would have to be brought to muster.

English spelling did not begin to become standardized until the late eighteenth century, so the reader will find that the statutes spell many of the words below in diverse ways.

The militia statutes required possession of arms (e.g., guns, swords), ammunition, and also equipment for arms—including repair, maintenance, carrying, storage, and home manufacture. The most common term for the other items was *accoutrements*: “Generally defined as a soldier’s personal equipment excepting clothes and weapons.”⁶⁸ These would include “cartridge boxes, pouches, belts, scabbards, canteens, knapsacks, powder horns, etc.”⁶⁹ They are necessarily part of the Second Amendment right, since they are necessary to the use of arms.⁷⁰ In the same sense, “the freedom of the press” is not just about owning printing presses, but also includes the relevant accessories, such as printing ink, ink magazines, moveable type, etc., and indeed the entire system of gathering, publishing, and distributing periodicals, pamphlets, and books.⁷¹

⁶⁸ GEORGE C. NEUMANN & FRANK J. KRAVIC, COLLECTOR’S ILLUSTRATED ENCYCLOPEDIA OF THE AMERICAN REVOLUTION 8 (1975); see also *Accoutrements Definition*, CHARLES JAMES, AN UNIVERSAL MILITARY DICTIONARY (4th ed. 1816) (“ACCOUTREMENTS, in a military sense, signify habits, equipage, or furniture of a soldier, such as buffs, belts, pouches, cartridge boxes, &c.”).

An older, similar term was “furniture,” in the sense of furnishing. For example, the first written guarantee of arms rights in Anglo-American law was the 1606 Virginia charter. It gave settlers the perpetual right to import “the Goods, Chattels, Armour, Munition, and Furniture, needful to be used by them, for their said Apparel, Food, Defence or otherwise.” 7 Federal and State Constitutions Colonial Charters, and Other Organic Laws of the States, Territories, and Colonies Now or Heretofore Forming the United States of America 3783, 3786 (Francis Newton Thorpe ed., 1909). As of 1606 (and for long after), the word “armor” included arms. The word “apparel” in the Virginia Charter had the narrow meaning of equipment for fighting, including defensive clothing, and the broader meaning of other necessities, such as ordinary clothing.

⁶⁹ NEUMANN & KRAVIC, *supra* note 68, at 8.

⁷⁰

Constitutional rights thus implicitly protect those closely related acts necessary to their exercise. “There comes a point ... at which the regulation of action intimately and unavoidably connected with [a right] is a regulation of [the right] itself.” *Hill v. Colorado*, 530 U.S. 703, 745, 120 S.Ct. 2480, 147 L.Ed.2d 597 (2000) (Scalia, J., dissenting). The right to keep and bear arms, for example, “implies a corresponding right to obtain the bullets necessary to use them,” *Jackson v. City and County of San Francisco*, 746 F.3d 953, 967 (C.A.9 2014) (internal quotation marks omitted), and “to acquire and maintain proficiency in their use,” *Ezell v. Chicago*, 651 F.3d 684, 704 (C.A.7 2011). See *District of Columbia v. Heller*, 554 U.S. 570, 617-618, 128 S.Ct. 2783, 171 L.Ed.2d 637 (2008) (citing T. Cooley, *General Principles of Constitutional Law* 271 (2d ed. 1891) (discussing the implicit right to train with weapons)); *United States v. Miller*, 307 U.S. 174, 180, 59 S.Ct. 816, 83 L.Ed. 1206 (1939) (citing 1 H. Osgood, *The American Colonies in the 17th Century* 499 (1904) (discussing the implicit right to possess ammunition)); *Andrews v. State*, 50 Tenn. 165, 178 (1871) (discussing both rights). Without protection for these closely related rights, the Second Amendment would be toothless. Likewise, the First Amendment “right to speak would be largely ineffective if it did not include the right to engage in financial transactions that are the incidents of its exercise.” *McConnell v. Federal Election Comm’n*, 540 U.S. 93, 252, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003) (Scalia, J., concurring in part, concurring in judgment in part, and dissenting in part).

The same goes for the Sixth Amendment and the financial resources required to obtain a lawyer...

Luis v. United States, 136 S. Ct. 1083, 1097-98 (2016) (Thomas, J., concurring).

⁷¹ In the Bill of Rights, “the press” and “arms” are synecdoches. That is, they use a part of a term to refer to the whole—like calling an automobile “my wheels.” “The press” refers not only to printing presses, but also to communications that do not involve a printing press, such as handwritten flyers or television broadcasting. Likewise, “arms” includes defensive devices (armor) and devices that raise an alarm (literally, a call to arms). See David B. Kopel, *The First Amendment Guide to the Second Amendment*, 81 TENN. L. REV. 417, 448 (2014).

1. Firearms ignition systems

Matchlock. When the English settlers began arriving in Virginia in 1607, the predominant ignition system for firearms was the matchlock. When the trigger is pulled, a slow-burning cord is lowered to a small pan (the *priming pan* or *firing pan*). The lit end of the cord ignites a small quantity of gunpowder in the firing pan. The flame from the gunpowder travels along a narrow channel to the touch-hole—a small hole next to the main charge of gunpowder, in the gun’s barrel. The flame that enters via the touchhole ignites the main powder charge.

The matchlock was the main type of ignition system in Great Britain during the seventeenth century.⁷² Although the first English settlers came to America with matchlocks, Americans upgraded to more sophisticated guns (flintlocks) much earlier than the British did, because the burning cord makes it much more difficult to have a firearm always ready for immediate use. The matchlock’s burning cord also impeded concealment in the woods.⁷³ Matchlocks usually did not work at all in the rain, and only sometimes in the damp.⁷⁴ The safety problem of burning rope near gunpowder is apparent.

The slow-burning cord is called the *match* or *match rope*.⁷⁵ The cord burns on both ends.⁷⁶ When matchlocks were the predominant firearm, militia statutes might also specify the requirement for a sufficient quantity of match, expressed by the total length of match rope.

*Firelock or flintlock.*⁷⁷ In a flintlock, the gunpowder is ignited by flint striking a piece of steel and producing sparks. The steel is a part of the gun. The flint (which eventually wears out and must be replaced) is held in the jaws of a movable vise that is a part of the gun.

Flintlocks are faster to reload and to fire than matchlocks. And they are much less likely to *misfire* (fail to ignite).⁷⁸

Many militia statutes from the latter eighteenth century specify that the firearm must be a firelock *or* some more specific type of firearm (e.g., musket, rifle). This is a violation of the rule against surplusage, since the other type of firearm would still be a flintlock. The rule against surplusage was not as prominent in eighteenth century drafting as it is today.

⁷² JOHNSON ET AL., *supra* note 18, at 140–42.

⁷³ *Id.* at 220.

⁷⁴ *Id.*

⁷⁵ GEORGE C. NEUMANN, *BATTLE WEAPONS OF THE AMERICAN REVOLUTION* 6 (2011).

⁷⁶ *Id.* at 6-7. The rope was usually made from flax tow or hemp tow. *Id.* “Tow” is defined *infra*, text at note 140. It was soaked in saltpeter (a gunpowder ingredient). The two ends of the cord would be ignited the same way that any other fire was ignited at the time, such as by striking two pieces of metal against each other, or rubbing two sticks to create a spark. What we call “matches” in the twenty-first century are paper or wood sticks with sesquisulfide of phosphorus attached to the tip. As common consumer items, they were preceded in the nineteenth century by matchsticks with white phosphorus tips. The principle was discovered in 1669, but it was not practical to apply due to the difficulty in obtaining phosphorus. See Anne Marie Helmenstine, *History of Chemical Matches*, THOUGHTCO. (Jan. 3, 2018), <https://www.thoughtco.com/history-of-chemical-matches-606805>

⁷⁷ RICHARD M. LEDERER, JR., *COLONIAL AMERICAN ENGLISH* 88 (1985).

⁷⁸ A well-trained user could fire up to five shots per minute, depending on the gun. W.W. GREENER, *THE GUN AND ITS DEVELOPMENT* 66-67 (9th ed. 2010); CHARLES C. CARLTON, *THIS SEAT OF MARS: WAR AND THE BRITISH ISLES 1585-1746*, at 171-73 (2011). Because ignition time (the interval from when the trigger is pressed until the shot is fired) is shorter for flintlocks, shooting at a moving target became much easier. TOM GRINSLADE, *FLINTLOCK FOWLERS: THE FIRST GUNS MADE IN AMERICA* 13 (2005).

Lock, gun lock. What we today call the *action* of a firearm. It is the part of the gun that performs the mechanical work of firing the ammunition. It has small moving parts that must be carefully fitted to each other. The distinction between a matchlock and a flintlock was the difference in the lock.

All of the types of guns described in the next section could be either matchlocks or flintlocks (except when specifically noted otherwise). Matchlocks were the most common in the early seventeenth century, but were subsequently displaced by flintlocks. As noted above, Americans were much quicker to adopt flintlocks than were their British cousins. This is one of the many ways that Americans and British arms cultures have diverged since the earliest times.⁷⁹

By the time of the Revolution, the large majority of American and British guns were flintlocks, although presumably there may have been some poorer people whose only gun was an old matchlock.

2. Types of firearms

Guns that can fire more than one shot without reloading are called *repeaters*. They were invented in the late sixteenth century, but they were much less common than single-shot guns.⁸⁰ Until the second quarter of the nineteenth century, repeaters were much more expensive to produce than single-shot guns. All the guns described below (except for the *blunderbuss*) could be repeaters, but relatively few of them were.

Musket. The musket is a long gun which has a smooth *bore* (the interior of the barrel). If the bore is not smooth, but instead has grooves, the firearm is a *rifle*, not a classic musket.⁸¹ Muskets are not highly accurate, but they did not need to be. The standard European fighting method of the time was massed lines of infantry, so a high rate of fire in the enemy's general direction was sufficient.

Bastard musket. Shorter and lighter than a standard musket.

Snaphaunce. An early version of the flintlock.⁸² “During the 17th century, *snaphaunce*

⁷⁹ See JOHNSON ET AL., *supra* note 18, at 171-74, 239-40 (summarizing divergence of American and British arms cultures, in part because Americans adopted much of Indian arms culture).

⁸⁰ *Id.* at 142–44, 223–24; David B. Kopel, *Firearms Technology and the Original Meaning of the Second Amendment*, REASON (Apr. 3, 2017, 9:34 PM), <https://reason.com/volokh/2017/04/03/firearms-technology-and-the-or>.

⁸¹ Rifled muskets were invented in the latter part of the 18th century but did not see widespread use by Americans in this period.

⁸² PATRICK A. MALONE, *THE SKULKING WAY OF WAR: TECHNOLOGY AND TACTICS AMONG THE NEW ENGLAND INDIANS* 34 (1991) (explaining that “[t]he true snaphaunce, rarely used in New England” differs from the “true” flintlock in how the cover of the firing pan is connected to the rest of the gun lock. American sources often do not use the different terms with precision.).

“Snaphaunce” may derive from the Dutch word for “chicken thief,” based on “the occupation of the inventors.” GEORGE CAMERON STONE, *A GLOSSARY OF THE CONSTRUCTION, DECORATION AND USE OF ARMS AND ARMOR IN ALL COUNTRIES AND IN ALL TIMES* 233 (1999). The mechanical action of a snaphaunce (and of a flintlock), “resembled the pecking motion of a bird.” BILL AHEARN, *MUSKETS OF THE REVOLUTION AND THE FRENCH & INDIAN WARS* 98 (2005). The resemblance “appears to be the origin of the term cock which was the English 18th-century word used for this component.” *Id.*

The “cock” (sometimes called the “hammer”) is the pivoting part of the flintlock that holds the flint in screw-tightened jaws. When the trigger is pressed, the cock falls forward so that the flint strikes an immobile piece of hardened steel (the *frizzen*, *steel*, or *battery*). The collision produces a shower of sparks that fall into the firing pan and ignite the gunpowder. NEUMANN, *BATTLE WEAPONS*, *supra* note 75, at 7.

commonly referred to any flintlock system.”⁸³

Fusee, fuse, fuze, fuzee, fusil. Often, a synonym for flintlock.⁸⁴ More precisely, “a light, smoothbore shoulder arm of smaller size and caliber than the regular infantry weapon.”⁸⁵

Carbine or carabine. In the seventeenth century, a long gun with a smaller bore than a musket. By the eighteenth, also shorter and lighter than a musket. Well-suited for horsemen.⁸⁶ The word could “denote almost any small-calibre firearm irrespective of barrel length.”⁸⁷

Caliver. A matchlock larger than a carbine but smaller than a musket.⁸⁸

The various smaller long guns typically had smaller bores (the empty interior of the barrel). Their smaller bullets were less powerful but were more aerodynamically stable at longer distance. Also, the smaller bore meant that a given quantity of lead could produce more bullets for the particular gun.

Fowling piece. A smoothbore long gun well-suited for bird hunting. In contrast to the classic musket, a fowling piece had a lighter barrel and stock, and its muzzle was slightly flared, to increase the velocity of the birdshot.⁸⁹ During the Revolution, many fowling pieces were employed as militia arms. Ideally, although not always in practice, they would be retrofitted to allow for the attachment of a bayonet.⁹⁰

Rifle. A long gun with interior grooves (*rifling*). The grooves make the bullet spin on its axis, greatly improving aerodynamic stability and thus adding considerable range. Little-used in New England prior to the Revolution, but popular elsewhere, especially in frontier areas.

Pistol. Any handgun. (Unlike today, when a semi-automatic pistol is distinct from a revolver.)

To cock a gun is to pull the cock (or today, the hammer) backwards so that it is ready fire. JAMES, *supra* note 68. The *sear* is an internal part that holds the cock in its backwards position. The more advanced sears of the eighteenth century had an intermediate position (half-cock) that facilitated loading, without risk of the gun firing. If the sear malfunctioned and released the cock, then the gun “went off half-cocked.”

⁸³ NEUMANN, *supra* note 75, at 8 (italics in original).

⁸⁴ STONE, *supra* note 82, at 242; JIM MULLINS, OF SORTS FOR PROVINCIALS: AMERICAN WEAPONS OF THE FRENCH AND INDIAN WAR 53, 65 (2008) (when matchlock muskets, snaphaunces, and true flintlocks were used by European armies, “fusil” or “fire-lock” meant a flintlock musket; by the mid-eighteenth century, “the term ‘fusil’, ‘fuzee’ or ‘fusee’ came to be used by the English to denote a wide variety of light-weight guns.”). “Fusil” was also used to mean “carbines.”

⁸⁵ NEUMANN, *supra* note 75, at 19.

⁸⁶ STONE, *supra* note 82, at 163.

⁸⁷ STUART REID, THE FLINTLOCK MUSKET: BROWN BESS AND CHARLEVILLE 1715-1865 (2016).

⁸⁸ STONE, *supra* note 82 at 158.

⁸⁹ J. N. GEORGE, ENGLISH GUNS AND RIFLES 85 (Palladium Press 1999) (1947); GRINSLADE, *supra* note 78, at 5.

⁹⁰ GRINSLADE, *supra* note 78, at 5, 54, 63 (“In times of Indian raids or war, the family fowling-piece served the need for a fighting gun.”); MULLINS, *supra* note 84, at 49 (The classic fowling piece lacked the musket’s swivels for attachment of a sling.).

The first identifiably American-made arms are fowling pieces built in the seventeenth century by Dutch settlers in the Hudson River Valley. AHEARN, *supra* note 82, at 101. As the American fowler evolved, influenced by the English and by immigrant French Huguenot gunsmiths, “The result was the development of a unique variety of American long fowler. These American long guns served as an all-purpose firearm. When loaded with shot, they were suited to hunt birds and small game, and when loaded with a ball, they could provide venison for the table. In times of emergency, they were needed for militia, and more than a few saw service in the early colonial wars as well as the Revolution.” *Id.* As a British officer noted after the battles of Lexington and Concord in 1775, “These fellows were generally good marksmen, and many of them used long guns made for Duck-Shooting.” FREDERICK MACKENZIE, A BRITISH FUSILIER IN REVOLUTIONARY BOSTON, BEING THE DIARY OF LIEUTENANT FREDERICK MACKENZIE, ADJUTANT OF THE ROYAL WELCH FUSILIERS, JANUARY 5-APRIL 30, 1775, at 67 (Allen French ed., 1926; rpt. ed. 1969) (quoting an unnamed officer).

Most handguns of the time were single-shot, although there were some expensive models that could fire multiple shots without reloading.⁹¹ Handguns ranged from large holster pistols to small pocket pistols.⁹² They were often carried by officers.⁹³

Blunderbuss. The name perhaps comes from the Dutch “donder-buse” or “thunder gun.”⁹⁴ The blunderbuss was notable for its flared muzzle, which made reloading easier while riding on a stagecoach or aboard a water vessel. It could be loaded with a single very large bullet, but the more common load was twenty large pellets, or even up to fifty.⁹⁵ It was devastating at close range, but not much use beyond twenty yards.⁹⁶ In the Revolution, it was most useful for “street control, sentry duty and as personal officer weapons.”⁹⁷ A blunderbuss could be a very large handgun.⁹⁸ Or it could have a short stock attached and be used as a shoulder arm.

Horse-pistols. “[S]o called from being used of horseback, and of a large size.”⁹⁹

Case of pistols. Handguns were often sold in matched pairs.¹⁰⁰ A “case of pistols” is such a pair. Also called a “brace of pistols.”

Gun. In the usage of the time, any long gun, but not a handgun.

Peece, peice. Today, *piece.* Any firearm.

In the period before the Revolution, most American gunsmiths used imported locks (the moving part of the firearm).¹⁰¹ The use of recycled parts was also common.¹⁰² So, for example, a damaged fowling piece might be repaired with some lock parts scavenged from a musket. Thus, the above categories of firearms should not be viewed as rigidly divided. There were many hybrids.¹⁰³ The variety of American firearms and edged weapons was further increased by the fact that America at all times, including after the Revolution, was a major export market for older, surplus European arms—not only from the United Kingdom, but also from Germany, France, Spain, and the low countries; to these would be added firearms scavenged from the various European armies that fought in colonial wars or the American Revolution.¹⁰⁴

Whatever the specifics of any state or colony’s arms requirements, Americans went to war with a very wide variety of personal arms, not always necessarily in precise compliance with the

⁹¹ CHARLES WINTHROP SAWYER, FIREARMS IN AMERICAN HISTORY: 1600 TO 1800, at 194-98, 215-16 (1910) (late eighteenth century American pistols with two to four rounds); NEUMANN, *supra* note 75, at 259 (double-barreled pistols used by many French officers).

¹⁰² *Id.*

¹⁰³ ERIK GOLDSTEIN & STUART MOWBRAY, THE BROWN BESS 40-41 (2010); GRINSLADE, *supra* note 78, at 5, 23 (“The distinction between fowlers and muskets in the eighteenth century was not always clear-cut. Those manufactured from existing parts shared a common appearance, often combining aspects of both fowler and musket.”). For example, the locks from French muskets that were captured during France’s various wars in North America were often recycled into use on American fowlers.

¹⁰⁴ GEORGE G. NEUMANN, SWORDS & BLADES OF THE AMERICAN REVOLUTION 7, 53 (3d ed. 1991).

narrowest definitions of arms that might appear in a militia equipment statute. At Valley Forge in 1777, Baron Von Steuben was encamped with the Continental Army, most of whose members had brought their personal firearms to service. Von Steuben observed that “muskets, carbines, fowling pieces, and rifles were found in the same company.”¹⁰⁵

3. Edged or bladed weapons and accoutrements

Most firearms could fire only one shot, after which the user might have to take several seconds to reload. So, at close quarters, a firearm would be good for only one shot. If a person carried a pair of pistols (a *brace*), then he or she could fire two shots. But there would be no time to reload anything more against an adversary who was within arm’s reach. So edged weapons were essential to self-defense.¹⁰⁶

Bayonet. A dagger or other straight knife that can be attached to the front of a gun. The word comes from Bayonne, France, the bayonet-manufacturing capital.¹⁰⁷

The bayonet could be used for all the purposes of any knife. In European-style combat—and much of the combat of the American Revolution—when the two armies met at close quarters, the bayonet would be attached to the end of the long gun, so that the long gun could be used as spear or pole-arm. Compared to muskets, rifles were longer, thinner, and more fragile, and thus poorly suited for use with a bayonet.

Some militiamen who lacked bayonets used daggers for up-close fighting.¹⁰⁸ Typically they had a double-edged blade, about six to ten inches long.¹⁰⁹

Knife. Same meaning as today.

Jack knife. As today, a folding pocket knife. Blades could range from three to twelve inches.¹¹⁰ Primarily for use as a tool, although available as a last-resort weapon.

Sword. Same meaning as today. The next four items are types of swords. Some militia statutes required a “sword or hanger” or a “sword or cutlass,” or some similar formulation. Again, this is a violation of the rule against surplusage, but that rule was apparently not much in mind when statutes were drafted in the eighteenth century.

Broad sword. Has a straight, wide, single-edged blade. “It was the military sword of the 17th century as distinguished from the civil sword, the rapier. It was also the usual weapon of the common people.”¹¹¹

¹⁰⁵ FRIEDRICH KAPP, THE LIFE OF FREDERICK WILLIAM VON STEUBEN 117 (2d ed. 1859), <https://ia802700.us.archive.org/33/items/lifeoffrederickw00kappuoft/lifeoffrederickw00kappuoft.pdf>.

¹⁰⁶ HAROLD L. PETERSON, ARMS AND ARMOR IN COLONIAL AMERICA 1526-1783, at 69-101 (Dover 2000) (1956).

¹⁰⁷ Bayonne had long been a manufacturing center for cutlery and weapons. While it is generally agreed that bayonets were invented around 1640, there are several stories about how the invention happened. LOGAN THOMPSON, DAGGERS AND BAYONETS: A HISTORY 61-62 (1998). According to one version, “Some peasants of the Basque provinces, whilst on an expedition against a company of bandits, having used all their ammunition, were driven to the desperate necessity of inserting their long knives into the mouths of their arquebuses [an early type of long gun], by which means they routed their adversaries.” W.W. GREENER, THE GUN AND ITS DEVELOPMENT 626 (9th ed. 1910).

¹⁰⁸ NEUMANN, *supra* note 104, at 228.

¹⁰⁹ *Id.* at 229-30.

¹¹⁰ *Id.* at 231. Some jackknives were multitools, also containing forks, saws, heavy needles, or “bleeders” (used to pierce veins in medical treatment). *Id.* at 231, 248.

¹¹¹ STONE, *supra* note 82, at 150-51.

Hanger. By one definition, a “short sword (blade averaging twenty-five inches) having at least one cutting edge.”¹¹² Alternatively, a lightweight saber.¹¹³ A classic saber has a curved blade, thick back, and a handguard.¹¹⁴

Cutlass or cutlash. In the seventeenth and early eighteenth century, “used interchangeably with the term ‘hanger’.”¹¹⁵

Simeter. Today, *scimitar.* Precisely speaking, a sword with a very curved blade that is narrow and thick. Often associated with Persia or the Middle East.¹¹⁶ In usage of the time, “a short sword with a convex edge.”¹¹⁷

Scabbard or bucket. The former remains in modern usage. A container for carrying or storing the sword. Similar to a holster for pistols.

Belt, girdle, or strap. A sword or bayonet could be carried in a waist belt.¹¹⁸ A belt could also be used for attaching holsters, scabbards, etc. Some equipment could be held by shoulder belts.¹¹⁹

Swivel. Rings on a firearm to which a sling can be attached.¹²⁰

Hatchet. Same meaning as today. “‘Axe’, ‘hatchet’, and ‘tomahawk’ were used interchangeably in America during most of the 18th century.”¹²¹

Tomahawk. In a militia context, similar to a hatchet. Before European contact, Indian tomahawks had a stone attached to the end and were used as clubs, but not as cutting tools. Indian-European trade put steel blades into Indian hands, and led to the development of the bladed tomahawk, familiar to viewers of cinematic Westerns.¹²² One popular American innovation was the pipe tomahawk, which could be used for smoking as well as cutting.¹²³

4. Ammunition and related accoutrements

Powder. All of the gunpowder of the seventeenth and eighteenth centuries was what we today call *blackpowder*. It is a mixture of sulfur, charcoal, and saltpeter (which comes from decayed animal waste) and can be produced at home.¹²⁴

Bullets. All bullets of the time were spheres. As described above, most of the guns of the seventeenth and eighteenth centuries were smoothbores.¹²⁵ They could be loaded with either a single bullet (a *ball*, better for long distances) or several smaller pellets (*shot*, better for bird-

¹¹² NEUMANN, *supra* note 104, at 54.

¹¹³ STONE, *supra* note 82, at 280 (also, a Scotch word for dagger).

¹¹⁴ In the modern sport of fencing, “saber” has a narrower definition. The saber is one of three types of modern fencing swords, the others being *épée* and foil.

¹¹⁵ NEUMANN, *supra* note 104, at 58.

¹¹⁶ STONE, *supra* note 82, at 544 (cross-referencing “scimitar” to “shamshir”), 550-53.

¹¹⁷ JAMES, *supra* note 68, at 789.

¹¹⁸ *Id.* at 51.

¹¹⁹ *Id.* “Girdle” at the time was the same as “belt.” LEDERER, *supra* note 77, at 102.

¹²⁰ JAMES, *supra* note 68, at 388.

¹²¹ NEUMANN, *supra* note 104, at 253. The “American axe” was smaller than its European ancestor, and better-suited for carrying in a belt. Redesign of the pole, the attachment mechanism, and the blade shape made the American axe sturdier and better suited for chopping. *Id.* at 255-57.

¹²² HAROLD L. PETERSON, AMERICAN INDIAN TOMAHAWKS 8-9 (2d ed. 1971).

¹²³ NEUMANN, *supra* note 104, at 257.

¹²⁴ See generally DAVID CRESSY, SALTPETER: THE MOTHER OF GUNPOWDER (2012). Modern gunpowder, invented in the latter part of the nineteenth century, burns more efficiently, and thus produces much less smoke and residue.

¹²⁵ JOHNSON ET AL., *supra* note 18, at 220-23.

hunting, and for defense at shorter distances). Many militia statutes required the possession of “sizeable” bullets.¹²⁶ At the least, this rules out the tiny pellets that would be used for hunting small birds like partridges or doves.

Swan shot and *goose shot*. Multiple large pellets suitable for hunting the aforesaid birds.¹²⁷ Today, used in shotguns. In the seventeenth and eighteenth century, usable in all smoothbore handguns or long guns, which is to say all firearms except rifles.

Buck-shot. Multiple large pellets for deer hunting. Today, one of the largest types of shotgun pellets.¹²⁸

Ramrod. Today, the vast majority of new firearms are breechloaders. They are loaded from the back of the gun, near the firing chamber. Breechloaders were invented in the mid-seventeenth century, but they were very expensive.¹²⁹ By far the most common guns at the time were muzzleloaders, which are loaded from the front of the gun, the *muzzle*.

To load a muzzleloader, the user first pours gunpowder down the muzzle. Next, the user uses a pole, the ramrod, to ram the bullet all the way down the barrel.¹³⁰

The ramrod is also used for cleaning a gun and for extracting an unfired bullet, as described below.

Scour or *scowerer*. A ramrod.¹³¹

Match. The slow-burning cord used to ignite a matchlock. If quantities are specified, one fathom equals six feet.

Wadding. Made of tow, hay, or straw. Rammed into the gun after the powder has been poured, and before the bullet is rammed down, it prevented the powder from scattering.¹³²

Patches. Often the bullet would be wrapped in linen or some other fabric.¹³³ This made it easier to ram the bullet down the barrel. The patch also helped to provide a gas seal around the bullet; the seal kept the expanding gas of the gun powder explosion from escaping the barrel before the bullet did. The expanding gas was thus kept behind the bullet, the better to increase the velocity of the traveling bullet.

Cartouche, Cartridge. Paper cartridges were in use by the mid-seventeenth century.¹³⁴ These were cylinders that contained a premeasured amount of gunpowder, plus the bullet. The user would tear open the cartridge and then pour the powder into the muzzle. Then the user would ram the bullet down the muzzle. Although paper cartridges were common at the time of the Revolution, some gun users, including riflemen and many militiamen, still poured in gunpowder from a flask or horn, rather than from cartridges.¹³⁵

¹²⁶ See *infra* Parts III.A. (N.J.), B. (Md.), C. (N.C.), E. (N.H.), H. (N.Y.), and J. (Vt.).

¹²⁷ Cf. R.A. STEINDLER, THE FIREARMS DICTIONARY 250 (1970). “Swan drops” used for hunting swan weigh 29 grains each and are .268 inches in diameter. “Goose drops” were smaller than swan drops. *Id.*

¹²⁸ *Id.* at 250 (largest shotgun pellets are “small & large buck shot”).

¹²⁹ JOHNSON ET AL., *supra* note 18, at 142-44.

¹³⁰ STEINDLER, *supra* note 127, at 188 (ramrod is usually wood, but can be metal; also usable as a cleaning tool).

¹³¹ JAMES, *supra* note 68, at 791.

¹³² *Id.* at 612.

¹³³ See, e.g., JOHN G.W. DILLIN, THE KENTUCKY RIFLE 15, 50, 65 (Palladium Press 1998) (1924); William De V. Foulke, Foreword, in *id.* at vi, viii; GREENER, *supra* note 78, at 623-24.

¹³⁴ REID, *supra* note 87, at 20 (quoting JOHN VERNON, THE YOUNG HORSEMAN 10 (1644)).

¹³⁵ NEUMANN & KRAVIC, *supra* note 68, at 66.

Flints. For igniting the powder in a flintlock firearm. Since the flint is softer than the steel that the flint strikes, it will eventually need to be replaced.¹³⁶ So militia laws often mandated possession of certain quantities of flints.

5. Gun care

To reach all the way down the muzzle and to the bottom of the barrel, cleaning tools would often be attached to the *ramrod* or *scour*, described above.¹³⁷

Worm. A corkscrew-shaped device attached to the end of the ramrod. Used for cleaning and also for extracting an unfired bullet and other ammunition components from a firearm.¹³⁸

Brush. As in modern gun cleaning, a small brush.

Wire or *wier*. Also, *picker*. The priming wire was for cleaning the flashpan and the touch hole—the small hole where the fire from the priming pan connected with the main powder charge.¹³⁹

Tow. Tow is a loose ball of coarse and unspun waste fibers from hemp or linen production.¹⁴⁰ It is used for gun cleaning, for wadding, and for tinder.¹⁴¹

Screw driver. This has the same meaning as today. A screw driver is used for cleaning and repairs, especially for the gun lock.¹⁴² Also, it can be used to loosen or tighten the cock's jaws in order to change the flint.¹⁴³

6. Arms carrying and storage

Holster. This has the same modern definition. A holster is used for carrying a handgun or a short long gun, usually attached to the body by a belt or can be attached to a horse saddle.¹⁴⁴ Some later statutes specify that the holsters must have bear skin covers.¹⁴⁵

Scabbard or *bucket.* Similar to a holster.¹⁴⁶

¹³⁶ REID, *supra* note 87, at 33. A properly shaped flint (one that had been well-knapped) would need to be replaced after about ten to fifteen shots. *Id.*

¹³⁷ GOLDSTEIN & MOWBRAY, *supra* note 103, at 53. The tip of the ramrod would be threaded for attachment of cleaning equipment. *Id.*

¹³⁸ NEUMANN & KRAVIC, *supra* note 68, at 264; STEINDLER, *supra* note 127, at 278. Also, “wormer.” LEDERER, *supra* note 77, at 246.

A (usu. leather) socket or rest for a whip, carbine, or lance.”).

Horn, powderhorn, or flask. This is used for gunpowder carrying.¹⁴⁷ For most colonists, the most common horn came from cattle, rams or similar animals.¹⁴⁸

Charger, shot bag (or pouch, badge). The charger is a bulb-shaped flask for carrying powder, attached to metal components that release a premeasured quantity of powder.¹⁴⁹ *Shot bag/pouch/badge* may refer to this device.¹⁵⁰ The terms may also refer to bags for carrying bullets.¹⁵¹

Cover for the lock. As noted above, a *gun lock* (today, it is called the *action*) is the part of the gun that performs the mechanical work of firing the ammunition.¹⁵² A cover protects the gun lock from the elements.¹⁵³

Wax. This is used to protect firearms from rain.¹⁵⁴ For example, it can be used to cover the opening of the muzzle and prevent water from entering.¹⁵⁵

Cartouche box. This is what we call a cartridge box today. Its purpose is for storage and carrying of cartridges.¹⁵⁶

Bandelero or cross belt. Today, it is referred to as a *bandolier*. A waist or shoulder belt with attachments for carrying units of ammunition or of premeasured powder, usually in the form of a leather strip worn over the chest, containing cartridges in individual loops.¹⁵⁷ The cross belt is a pair of crossing strips, or a single belt “passing obliquely across the breast.”¹⁵⁸

Mould. Today, it is called a *mold*. It is used to cast molten lead into ammunition balls.¹⁵⁹ This shows that militiamen, and all the other persons subject to arms mandates, were expected to be able to produce their own ammunition.

7. Pole arms

Pike. This is a spear with a thrusting or cutting weapon attached to the end.¹⁶⁰ European armies of the seventeenth century were usually a mixture of pikemen and musketmen.¹⁶¹ The use

of pikes declined during the eighteenth century, especially in America.¹⁶² In the first two years of the Revolution, when some soldiers lacked firearms, pikes were re-introduced for infantry, since they were readily made from locally available materials.¹⁶³ The pikes used during the Revolutionary War were usually twelve to sixteen feet long, could be anchored in the ground, and were especially useful for defending entrenched positions.¹⁶⁴

Esponton or *sponton*. This is a six-foot-long pole-arm, similar to a pike but shorter.¹⁶⁵ It was carried by Revolutionary infantry officers.¹⁶⁶ “It was an officer’s primary weapon, since it allowed him to keep his eyes on the battle at all times ... Furthermore, his signals could be seen from a distance in the din and disorder of the battlefield, when voice commands might be indistinguishable.”¹⁶⁷

Lance. It is a horseman’s spear, the same meaning as today.¹⁶⁸

8. Horses and tack accoutrements

Dragoon or *trooper*. This means a horse-mounted soldier.¹⁶⁹

Saddle. This has the same meaning as today.¹⁷⁰

Bridle. This also has the same as today.¹⁷¹

Pillion. This refers to a rear extension on a saddle allowing for a second rider.¹⁷²

Valise holsters. These are saddle-mounted holsters, similar to modern *saddlebags*, that could be used for carrying large handguns.¹⁷³

Breastplate. Straps that prevent the saddle or harness from sliding. They attach to the front of the saddle.¹⁷⁴

¹⁶² *Id.* at 18, 34.

¹⁶³ NEUMANN, *supra* note 104, at 192-93.

¹⁷⁴ JANE MYERS, HORSE SAFE: A COMPLETE GUIDE TO EQUINE SAFETY 83 (2005).

Crupper. This has a similar function to a breastplate, except it attaches to the rear of the saddle or harness.¹⁷⁵ Alternatively, it can be armor for a horse's hind quarters.¹⁷⁶

Spurs. This definition has remained the same.¹⁷⁷ Militia statutes might also specify boots suitable for being attached to spurs.

Hands. This is the standard unit of measure for a horse's height.¹⁷⁸ Today, one hand is equivalent to four inches.¹⁷⁹ The typical minimum size for a militia horse was 14 or 14 ½ hands (66 or 68 inches).¹⁸⁰ The measure is from the ground to the horse's withers, the top of its shoulders.¹⁸¹

9. Armor

In the early decades of American settlement, when Indians with arrows were the principal opponent, many Americans wore armor on at least part of their bodies.¹⁸² For purposes of mobility, leather or quilted jackets became popular; they would not always stop an arrow, but they could mitigate its damage.¹⁸³ Once the Indians acquired firearms in large quantities, armor was generally abandoned.¹⁸⁴ By the time of the Revolution, most soldiers did not wear armor; the exceptions were body armor for some specialized engineers, and metal headgear for cavalry.¹⁸⁵

10. Other field gear

Knapsack, blanket, and canteen. These are the same as modern definitions.¹⁸⁶
Haversack. This bag is like a knapsack but carried over only one shoulder.¹⁸⁷

B. Types of persons covered by arms mandates

In modern times, when we think about “the militia,” we are mainly thinking about males 18 to 45 (or in previous times, 16 to 50 or 60, *infra*). (As used in this article, the ages mean “at least X” and “under Y.” In other words, if the militia was males ages 16 to 50, the militia obligation would begin on a person’s sixteenth birthday, and end on his fiftieth birthday.) Precisely speaking, these enrolled men were a subset of the whole militia—the whole militia consisting of everyone who was able to fight, as detailed in Part I. The enrolled militiamen had to engage in group drills and might be marched away from home for military service. In the seventeenth and eighteenth centuries, the scope of persons who were required to possess arms was broader than just the enrolled militia.¹⁸⁸

The arms requirements for other categories of persons were sometimes contained in statutes with the title “militia,” and sometimes in other statutes.¹⁸⁹ Likewise, statutes requiring that males 16-60 be armed were often but not always titled as “militia” laws.

The categories below explain the different classes of people who might have to be armed. Examples of the statutory uses of the various terms below will be found in Part III, the survey of seventeenth and eighteenth century militia statutes.

Trained band. This was the term in some states or colonies for the enrolled portion of the militia that is required to participate in training (i.e. males 16 or 18 to 45, 50, or 60).¹⁹⁰ It could be sent away from home for military missions, although deployments outside the colony or state were disfavored.¹⁹¹

The phrase was copied from Elizabethan England. There, “trained band” referred to a subset of the enrolled militia who received extra training; membership in the English trained band was based on social class. Yeomen—small farmers who owned their own land—could be in the trained band, while lower classes, such as tenants, were not.¹⁹² In American usage, though, “trained band” or “band,” usually refer to the entire enrolled militia. One early statute in Maryland did provide extra training for a subset of the enrolled militia. Unlike in England, this subset was chosen by merit—physical fitness and courage—rather than by class.¹⁹³

Alarm list. This refers to every other male who was capable of fighting. They were required to possess the same specified arms as members of the trained band (i.e., the enrolled militia) but were not required to participate in training or to serve in ordinary expeditions.¹⁹⁴

Alarm list duty was limited to emergencies, especially, to join in defense of the town or community when under attack. People on the alarm list were primarily: 1. People with an occupational exemption from trained band service (e.g., physicians in some colonies), or 2. People above the age for trained band service.¹⁹⁵ For example, someone who was fifty-two years old. Alarm list duty would usually have some upper limit, such as age sixty or seventy.

¹⁸⁸ See *infra* Part III.

¹⁹⁰ *Id.*

¹⁹¹ *Id.*

¹⁹² JOHNSON ET AL., *supra* note 18, at 110.

¹⁹³ See *infra* Part III.B (1658 statute).

¹⁹⁴ See *infra* Part III.

¹⁹⁵ *Id.*

In practice, when a town was under attack, everyone who could fight would fight, including women and children.¹⁹⁶

State armies. Although sometimes described as part of the militia, state armies were distinctive in several regards. State armies were established for temporary periods during wartime.¹⁹⁷ They fought in Indian Wars, in the numerous wars against the French colonies in America, and the Revolution.¹⁹⁸

Unlike militia service, state army service was not a universal obligation of every able-bodied male. State armies were select forces with longer enlistment terms than the ordinary militia.¹⁹⁹ They were more willing to be deployed to other states or colonies.²⁰⁰ To the extent possible, their ranks were filled by volunteers.²⁰¹ To the extent necessary, conscription was used, with each town or other locality having an obligation to supply a certain number of men.²⁰² State armies comprised a considerable fraction of American fighters during the Revolution, fighting alongside the Continental Army and the state militias.²⁰³

Householder, freeholder, taxable person, titheable person. Many statutes required that these persons possess arms, whether or not they were enrolled in the militia.

A householder is the head of a house, regardless of sex.²⁰⁴ For example, a widow, or any other woman living independently could be a householder.

A *freeholder* owns real property. A single woman could be a freeholder.

The meaning of “taxable” “titheable” (or tithable) person, varied by jurisdiction; some laws exempted government officials, or “immigrants, indigents, and incapacitated persons.”²⁰⁵ In Virginia, everyone over 16 except for free white women was titheable (that is, taxable under a

¹⁹⁶ See, e.g., STEVEN C. EAMES, *RUSTIC WARRIORS: WARFARE AND THE PROVINCIAL SOLDIERS ON THE NEW ENGLAND FRONTIER, 1689-1748*, at 28-29 (2011).

¹⁹⁷ JOHNSON ET AL., *supra* note 18, at 226, 281.

¹⁹⁸ *Id.* at 225, 235, 283. The wars with the French were the War of the League of Augsburg (1689-97) (known in America as King William’s War), the War of the Spanish Succession (1701-13) (Queen Anne’s War, in America), and the War of Jenkins’ Ear (1741-48) (against France’s ally Spain; including an attempted Spanish invasion of Georgia). The latter war blended into the War of the Austrian Succession (1744-48) (King George’s War). Finally, the French & Indian War (1754-63) (known to the British as the Great War for Empire). *Id.* at 245. For participation by the armies of the various colonies, see, e.g., RENÉ CHARTRAND, *COLONIAL AMERICAN TROOPS 1610–1774* (2002) (3 vols.).

head or capitation tax).²⁰⁶ The revenue could be used for a colony or state's established church²⁰⁷ or for secular purposes.²⁰⁸

A man aged 65 years old might be too old for the enrolled militia, but he could still be taxable or titheable. Depending on the laws of the particular colony, he might still be required to possess arms.

A fifty-two-year-old widow maintaining her own household would not be in the enrolled militia or the alarm list but would be required to keep arms as a householder. Depending on her colony's laws, she might also be a taxable or titheable person.

Accordingly, women were sometimes legally required to possess arms in Massachusetts, Maryland, Delaware, New Hampshire, Vermont, and Connecticut.²⁰⁹ Although they were never required to serve in the enrolled militia, they were part of the militia in the broadest sense: all able-bodied persons capable of bearing arms.

Servants. The statutes detailed in Part III sometimes have special rules for servants. For example, a statute requiring people to provide their own arms may include an exception requiring a master provide his or her servant with arms. Since the servant was, by definition, not living independently, the servant might not be able to afford all the necessary arms and accoutrements.

Many servants were free laborers. They were free persons who entered into voluntary contracts to supply services, such as household help or farm work.

Indentured servants were free immigrants who had signed contracts entitling the other party to use or sell their labor for a period of years.²¹⁰ For example, a poor Englishman, Irishman, or German who wished to emigrate to America might receive free passage in exchange for an indenture for several years, four years being most common.²¹¹ The indenture contract was assignable; the master might use the indented laborer for a while, and then sell the indenture to someone else.²¹² Other indentured servants were convicted criminals who had been given a choice between execution in England, or transportation to America followed by a period of indentured

²⁰⁶ See Terri L. Snyder, *Marriage on the Margins: Free Wives, Enslaved Husbands, and the Law in Early Virginia*, 30 L. & HIST. REV. 141, 166 (2012):

Local courts were especially anxious to establish accurate lists of all taxable persons in any given jurisdiction. Throughout the colonial period, definitions of which persons were taxable changed, but by 1723, everyone over the age of 16 was taxable, except for free white women. And it certainly was the case that individuals concealed their dependents in order to reduce their annual tax burden. In order to prevent them from so doing, Virginia law required households to provide a list of tithables to the tax collector.

See also James R. Campbell, *Dispelling the Fog about Direct Taxation*, 1 BRIT. J. AM. LEG. STUD. 109, 163 n. 215 (2012) (Massachusetts "poll taxes were imposed on the same set of tithable persons that Virginia and North Carolina taxed").

²¹² *Id.* at 758.

servitude, usually seven years.²¹³ Like slaves, indentured servants were not legally free; they could not marry, travel, or trade without their master's consent.²¹⁴

At the end of an indenture, the former master was usually required to give the former servant "freedom dues"—land, goods, or money allowing the ex-servant to begin independent life.²¹⁵ In Maryland, Virginia, North Carolina, and South Carolina, freedom dues included a gun for male ex-servants.²¹⁶

Bought servants. An indentured servant was also called a "bought servant."²¹⁷ Some militia statutes excluded "bought" or "indentured" servants or allowed militia service only with the master's consent. Presumably, this was to prevent indentured servants from choosing militia service as a means to evade their indenture contracts. Textually, the "bought servant" statutes did not apply to free laborers, who were hired servants.

Slaves were also called "servants" or sometimes "servants for life."²¹⁸ Imported slaves were Africans sold by Africans to trans-Atlantic slave traders, following capture in war or kidnapping.²¹⁹ Non-imported slaves were Indians captured in war (often by other Indians, and then sold to the English); their slavery/servitude was not necessarily for life.²²⁰ Although slaves were bought and sold, the term "bought servant" does not seem to encompass them, at least as the term was used in Pennsylvania.²²¹

As Part III details, practices varied about whether indentured servants or slave servants were part of the enrolled militia. In general, the former were usually included, and the latter usually excluded, but there were exceptions in both directions.

²²¹ See Gary B. Nash, *Slaves and Slave Owners in Colonial Philadelphia*, in AFRICAN AMERICANS IN PENNSYLVANIA: SHIFTING HISTORICAL PERSPECTIVES 43, 46 (Joe Trotter & Eric Ledell Smith eds. 1997) (quoting 1756 message from Pennsylvania Assembly to the Governor, complaining about British recruitment of Pennsylvania indentured servants for the British army in the French & Indian War: "If the Possession of a bought Servant...is... rendered precarious...the People [will be] driven to the Necessity of providing themselves with Negro Slaves...").

Firearms were a way of life in early America. It was common for American children to be familiar with firearms, a circumstance that gave the Americans confidence leading up to the Revolutionary War. On July 8, 1775, the Continental Congress warned King George III that the Americans' superiority with arms, due to their training beginning in childhood, would make them a formidable foe: "Men trained to Arms from their Infancy, and animated by the Love of Liberty, will afford neither a cheap or easy Conquest."²²²

This same argument was asserted by John Zubly, a Savannah minister and recent immigrant from Switzerland.²²³ He warned the British that "In the strong sense of liberty, and the use of firearms almost from the cradle, the Americans have vastly the advantage over men of their rank almost every where else."²²⁴ He added that American children were "shouldering the resemblance of a gun before they are well able to walk."²²⁵

Similarly, David Ramsay, a legislator from South Carolina and delegate to the Continental Congress, pointed out that, "Europeans, from their being generally unacquainted with fire arms are less easily taught the use of them than Americans, who are from their youth familiar with these instruments of war."²²⁶ He noted that "[f]or the defence of the colonies, the inhabitants had been, from their early years, enrolled in companies, and taught the use of arms."²²⁷

Thomas Jefferson, explained what was going on in America to his Scottish friend: "[w]e are all in arms, exercising and training old and young to the use of the gun."²²⁸ Once the Revolution began, Jefferson suggested that the reasons American battle casualties were so much lower than British ones was "our superiority in taking aim when we fire; every soldier in our army having been intimate with his gun from his infancy."²²⁹

So too was Jefferson. His father, Colonel Peter Jefferson, taught him to use a firearm at a young age.²³⁰ When Thomas was 10 years old, his father was confident enough to send the boy into the wilderness alone with nothing but his firearm, to learn self-reliance.²³¹ By the time Thomas was 14, his father "had already taught him to sit his horse, fire his gun, boldly stem the Rivanna when the swollen river was 'Rolling red from brae to brae,' and press his way with unflagging foot through the rocky summits of the contiguous hills in pursuit of deer and wild turkeys."²³²

Having valued the firearms training of his childhood, Thomas Jefferson suggested that his 15-year-old cousin, Peter Carr, become similarly acquainted with firearms.²³³ Jefferson told Carr that "a strong body makes a strong mind," and recommended two hours of exercise every day. Jefferson

continued: “[a]s to the species of exercise, I advise the gun. While this gives a moderate exercise to the body, it gives boldness, enterprise and independence to the mind. . . . Let your gun therefore be the constant companion of your walks.”²³⁴ “Another nephew tells us that Jefferson believed every boy should be given a gun at the age of ten, as Jefferson himself had been.”²³⁵

The Adamses felt the same way. “Militiamen on the way to Lexington and Concord stopped at a farm in Braintree, Massachusetts. To their amusement, 8-year-old John Quincy Adams, son of Abigail and John Adams, was executing the manual of arms with a musket taller than he was.”²³⁶ When John Adams had been a nine-or ten-year-old schoolboy, he loved to engage in sports, “above all, in shooting, to which diversion I was addicted to a degree of ardor which I know not that I ever felt for any other business, study, or amusement.”²³⁷ He would leave his gun by the schoolhouse door, so that he could go hunting as soon as classes ended.²³⁸

Ordinary people were just as determined to teach the young how to use arms. John Andrews, an aid to British General Thomas Gage, recounted an incident in which Redcoats were unsuccessfully trying to shoot at a target on the Boston Common.²³⁹ When an American mocked them, a British officer dared the American to do better. The American repeatedly hit the target.²⁴⁰ As Andrews noted, “The officers as well as the soldiers star’d, and tho’t the Devil was in the man. Why, says the countryman, I’ll tell you *naow*. I have got a *boy* at home that will toss up an apple and shoot out all the seeds as its coming down.”²⁴¹

Or in the words of the *Boston Gazette*, “[b]esides the regular trained militia in New-England, all the planters sons and servants are taught to use the fowling piece from their youth, and generally fire balls with great exactness at fowl or beast.”²⁴²

Later, during the debates on ratification of the Constitution, Virginia’s Richard Henry Lee emphasized: “to preserve liberty, it is essential that the whole body of the people always possess arms, and be taught alike, *especially when young*, how to use them.”²⁴³

III. The Colonial and Founding Periods

Before we begin a colony-by-colony survey of militia laws, we can summarize some common characteristics of laws among the colonies and states, from the creation of different colonies in the seventeenth or early eighteenth century, through the end of the eighteenth century.

First, the most common age for militia duty was 16 to 50 years. The maximum often went as high as 60. The minimum was sometimes 18, and never higher (except for one 19-year period in Virginia). In 1792, Congress enacted the Uniform Militia Act (hereinafter UMA), to govern militia when called into federal service. The federal ages were 18 to 45, and several states revised their laws to make the state militia ages conform to the federal militia ages.²⁴⁴

The survey below in this Part III includes over 250 different enactments, as colonies and states revised and updated their militia laws. They also include many instances in which the colony or state enacted a militia statute that by its terms would expire in one year or a few years. Then, at the appropriate time, the colony would pass a new militia law, with the same terms as the old law. Because the royal governors, appointed by the king, would control the militia once it was in active service, some colonial legislatures were averse to permanent militia laws, which might give the royal governor too much unilateral power.²⁴⁵

The frequent renewals and revisions of colonial and early state militia laws reflect the legislatures' continuing determination that persons over 18-years-old be well-armed. The *only* militia law that did not have a minimum age of 18 or less was from Virginia in 1738–57.²⁴⁶

Before discussing militia laws of the colonies and states one-by-one, we should emphasize that the militia was *not* the only institution in which young adults were required to use arms. Three related duties also required young adults (like other adults) to bring their arms to help protect the community. All of these had long-established roots in common law. Sometimes the colonies enacted relevant statutes, but often they simply relied on the common law tradition.

First, all able-bodied men from 15 or 16 to 60 were obliged to join in the “hue and cry” (*hutesium et clamor*) to pursue fleeing criminals.²⁴⁷ Pursuing citizens were allowed to use deadly force if necessary to prevent escape.²⁴⁸

Second, there was “watch and ward”—guard duty for towns and villages. “Ward” was the daytime activity, and “watch” the nighttime activity.²⁴⁹ The patrols would be arranged by a sheriff, constable, justice of the peace, or other official.²⁵⁰

²⁴⁴ Uniform Militia Act, 1 Stat. 271-72 (1792).

²⁴⁵ See, e.g., Theodore H. Jabbs, *The South Carolina Colonial Militia, 1663-1733* (1973) (unpublished Ph.D. dissertation, U. of N.C. Chapel Hill) (available in ProQuest Dissertations & Theses Global).

²⁴⁶ See *infra* Part III.K.

²⁴⁷ Statute of Winchester, 13 Edward I, chs. 4-6 (1285) (formalizing hue and cry system; requiring all men aged fifteen to sixty to possess arms and armor according to their wealth; lowest category, having less than “Twenty Marks in Goods,” must have swords, knives, bows, and other small arms)

²⁴⁸ See 2 FREDERICK POLLOCK & FREDERIC W. MAITLAND, *THE HISTORY OF ENGLISH LAW BEFORE THE TIME OF EDWARD I*, at 575-81 (1895); 4 WILLIAM BLACKSTONE, *COMMENTARIES* *290-91 (describing hue and cry as still in operation); Statute of Winchester, *supra* note 247.

²⁴⁹ ELIZABETH C. BARTELS, *VOLUNTEER POLICE IN THE UNITED STATES* 2 (2014).

²⁵⁰ MICHAEL DALTON, *OFFICIUM VICECOMITUM: THE OFFICE AND AUTHORITIE OF SHERIF* 6, 40 (Lawbook Exchange 2009) (1923) (sheriff's oath includes supervising the watch and ward, by reference to his oath specifically to uphold the Statute of Winchester); WILLIAM ALFRED MORRIS, *THE MEDIEVAL ENGLISH SHERIFF* 150, 228-29, 278 (1927); WILLIAM LAMBARDE, *EIRENARCHA* 185, 341 (London, Newbery & Bynneman 1581); FERDINANDO PULTON, *DE PACE REGIS & REGNI* 153a-153b (Lawbook Exchange 2007) (1609).

Third, there was the *posse comitatus*. This is the power of the sheriff, coroner, magistrate, or other officials to summon all able-bodied males to assist in keeping the peace.²⁵¹ Posse service could include a few men helping a sheriff serve a writ, or it could include many men helping a sheriff suppress a riot.²⁵² The traditional minimum age for posse service was 15 or 16 years; some commentators said the upper age limit was 70, while others said there was no limit.²⁵³ Shortly before being appointed to the U.S. Supreme Court by President Washington, James Wilson stated in 1790 that “No man above fifteen and under seventy years of age, ecclesiastical or temporal, is exempted from this service.”²⁵⁴

The *posse* was a vital institution not only in colonial days, but throughout the nineteenth century. As the Supreme Court explained in 1855, a sheriff “may command the *posse comitatus* or power of the country; and this summons, every one over the age of fifteen years is bound to obey, under pain of fine and imprisonment.”²⁵⁵

The duties of hue and cry, watch and ward, and *posse comitatus* were male only. However, as will be detailed below, some colonies also required arms possession by any householder, regardless of sex. In addition, most of the colonies required arms carrying under certain circumstances, such as when traveling out of town, or when going to public assemblies, especially to church.²⁵⁶ Usually these laws applied without age limits (i.e., to any able-bodied traveler), or to anyone able to bear arms. Sometimes they applied to militiamen, whose minimum age was 16 or 18.²⁵⁷

In short, the age at which Americans were expected to use their own arms to help enforce the law (including by defending themselves) usually was age 15 or 16. These requirements encompassed the vast majority of males, and also included some females. The age at which Americans were expected to bring their own arms to serve in a military capacity, in the militia, usually was 16 or 18.

In the following survey of militia laws, the states are listed in the order that they ratified the Second Amendment.²⁵⁸

A. New Jersey: “all able-bodied Men, not being Slaves ... between the Ages of sixteen and fifty Years”

The English took control of what became New Jersey in 1664, ousting the Dutch from their “New Netherland” colony.²⁵⁹ New Jersey’s first militia act was passed in 1704. It required “[t]hat every Captain within this Province ... make a true and perfect List of all the Men ... between the Age of Sixteen and Fifty years ... Every one of which so listed shall be sufficiently armed with one good sufficient Musquet or Fuzee well fixed, a Sword or Bagonet, a Cartouch-box or Powder-horn, a pound of Powder, and twelve sizeable Bullets.”²⁶⁰ The next militia act, passed roughly a decade later, kept the same requirements for the arms and ages of militiamen.²⁶¹

A 1722 statute retained the sixteen to fifty ages, while revising the ammunition requirements.²⁶² After the 1722 act expired, it was replaced by a 1730 law with the same ages and arms,²⁶³ which was continued in 1739.²⁶⁴

On May 8, 1746, a renewed militia act was necessary because America had been drawn into Great Britain’s most recent war with France and Spain. Like earlier statutes, the 1746 act set the militia age “between the Age of Sixteen and Fifty Years” and required that each militiaman “be sufficiently armed with one good sufficient Musket or Fuzee well fixed, a Sword or Bayonet, a Cartouch-Box or Powder-Horn,” plus bullets and powder.²⁶⁵ This act was continued in 1749,²⁶⁶ 1753,²⁶⁷ 1766,²⁶⁸ 1770,²⁶⁹ and 1771.²⁷⁰

Also in 1746, New Jersey passed an act to raise 500 troops for a state army expedition against Canada.²⁷¹ This act made it unlawful for an officer “to inlist any young Men under the Age of Twenty One Years, or any Slaves who are so for Term of Life, bought Servants, or Apprentices, without the Express Leave in Writing of their Parents or Guardians, Masters or Mistresses.”²⁷² Similarly, during the French & Indian War, acts to raise small groups of state army soldiers (one

²⁷² *Id.*

in 1755²⁷³ and two in 1756²⁷⁴) set the minimum age at twenty-one for enlistment for out-of-colony service without consent of a parent, guardian, or master.

Permission from parents or masters was necessary for enlistment in the state army, but not the in-state militia. A 1757 supplement to the militia act kept the age for militia “between the Age of Sixteen and Fifty Years.”²⁷⁵

Two decades later, in the midst of the Revolutionary War, New Jersey passed a 1777 militia act, “to defeat the Designs of the *British* Court, and to preserve and defend the Freedom and Independence of the United States of *America*.”²⁷⁶ “[A]ll able-bodied Men, not being Slaves . . . between the Ages of sixteen and fifty Years . . . and [] capable of bearing Arms” constituted the militia.²⁷⁷ This act was set to automatically expire after one year.²⁷⁸ The following year a new act was put in place. Again, the militia was “all effective Men between the Ages of sixteen and fifty Years.”²⁷⁹

Near the end of the war, in 1781, New Jersey passed its militia law that would be in place when it ratified the Second Amendment on November 20, 1789.²⁸⁰

And Be It Enacted, That the Captain or Commanding Officer of each Company shall keep a true and perfect List or Roll of all effective Men between the Ages of sixteen and fifty Years, residing within the District of such Company . . . And Be It Enacted, That every Person enrolled as aforesaid shall constantly keep himself furnished with a good Musket, well fitted with a Bayonet, a Worm, a Cartridge-Box, twenty-three Rounds of Cartridges sized to his Musket, a Priming Wire, Brush, six Flints, a Knapsack and Canteen, under the Forfeiture of Seven Shillings and Sixpence for Want of a Musket, and One Shilling for Want of any other of the aforesaid Articles, whenever called out to Training or Service . . . Provided always, That if any Person be furnished as aforesaid with a good Rifle-Gun, the Apparatus necessary for the same, and a Tomahawk, it shall be accepted in Lieu of the Musket and the Bayonet and other Articles belonging thereto.²⁸¹

²⁷⁹ 1778 N.J. Laws 44-45. This Act excluded “the Delegates representing this State in the Congress of the United States, the Members of the Legislative-Council and General Assembly, the Judges and Justices of the Supreme and Inferior Courts, the Judge of the Court of Admiralty, the Attorney-General, the Secretary, the Treasurer, the Clerks of the Council and General Assembly, the Clerks of the Courts of Record, the Governor’s private Secretary, Ministers of the Gospel of every Denomination, the Presidents, Professors and Tutors of Colleges, Sheriffs and Coroners, one Constable for each Township, to be selected by the Court of Quarter-Sessions of the County, two Ferrymen for each publick Ferry on the *Delaware*, below the Falls at *Trenton*, and one for every other publick Ferry in this State, and Slaves.”

²⁸⁰ 1 JOURNAL OF THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES, BEING THE FIRST SESSION OF THE FIRST CONGRESS-3RD SESSION OF THE 13TH CONGRESS, MARCH 4, 1789–SEPT. 13, 1814, at 313-14 (1826).

²⁸¹ 1780 N.J. Laws 42-43.

The act further required that “each Person enrolled...also keep at his Place of Abode one Pound of good merchantable Gunpowder and three Pounds of Ball sized to his Musket or Rifle...”²⁸² At least three times a year, a Sergeant would inspect the home of every man between sixteen and fifty to ensure he had the proper “Arms, Accoutrements, and Ammunition.”²⁸³

In 1792, Congress enacted the UMA, organizing the militia of the United States, pursuant to enumerated powers under Article I, section 8, clause 16.²⁸⁴ It provided a detailed list of equipment and defined the federal militia as free white males aged 18 to 45.²⁸⁵ (The Act is discussed in Part IV, *infra*.) Over the next several years, most states revised their militia statutes to bring their state militias into conformity with the federal militia. Since individuals were subject to a militia summons from their state or the federal government, the state governments were making it easier for state militiamen to simultaneously comply with federal requirements.

New Jersey was one of the first states to take account of the federal law, enacting a new militia law in 1792.²⁸⁶ The minimum age was raised to 18, and maximum age lowered to 45.²⁸⁷ Copying the federal law, New Jersey required that “every non-commissioned Officer and Private of the Infantry (including Grenadiers, Light Infantry and Artillery) until supplied with Ordnance and Field Artillery, shall have a good Musket or Firelock, a sufficient Bayonet and Belt, two spare Flints and a Knapsack, a Pouch with a Box not less than twenty-four Cartridges suited to the Bore of his Musket or Firelock, each Cartridge containing a proper Quantity of Powder and Ball; or with a good Rifle, Knapsack, Pouch and Powder-Horn, twenty Balls suited to the Bore of his Rifle, and a Quarter of a Pound of Powder; and shall appear so armed, accoutred and provided, when called out to exercise or into Service.”²⁸⁸

As for commissioned officers, they had to be “armed with a Sword or Hanger and Espontoon.”²⁸⁹ And for “those of Artillery . . . with a Sword or Hanger, a fuzee, bayonet and belt, and a Cartridge-Box containing twelve Cartridges.”²⁹⁰ Troops of Horse had to provide themselves with “a Sword and Pair of Pistols.”²⁹¹ Light-Horsemen and Dragoons had to provide themselves with “a Pair of Pistols, a Sabre and Cartouch-Box containing twelve Cartridges for Pistols.”²⁹²

A 1797 supplement required the assessor of each town to compare the list of 18-to-45-year-olds in the community to the list of persons enrolled for military duty, and to ensure that everyone 18 and older who was not exempted was keeping the proper arms and fulfilling his militia duties.²⁹³

A 1799 revision eliminated non-whites from the militia.²⁹⁴ Persons who were granted militia exemptions (e.g., physicians, clergy) had to pay a three-dollar annual fee.²⁹⁵ In case the militia were “called into actual service,” exempted persons too would be liable to serve.²⁹⁶

²⁹⁵ WILLIAM PATERSON, LAWS OF THE STATE OF NEW JERSEY 441 (1800).

²⁹⁶ *Id.*

As with all militia acts, there was financial punishment for people who neglected their duties to acquire requisite arms, to meet for training, and to serve.²⁹⁷ For militiamen who were “minors, living with their parents, and others having the proper care of charge of them, and those of apprentices,” the fines were to “be paid by their respective parents, guardians, masters or mistresses, or levied of their respective goods and chattels.”²⁹⁸

Military forces of the period used music for morale and for signals during the heat of combat. New Jersey provided rules for voluntary enlistment of military musicians: “any youth of the age of twelve years, and not exceeding the age of eighteen years, shall, with the consent of approbation of his parents, attach himself to any company of militia for the purpose of learning to beat the drum, play on the fife or blow the trumpet.”²⁹⁹

B. Maryland: “his her or their house”

Maryland’s arms mandate extended to every head of a house, regardless of sex or age. A 1638/9 act required

that every house keeper or housekeepers within this Province shall have ready continually upon all occasions within his her or their house for him or themselves and for every person within his her or their house able to bear armes one Serviceable fixed gunne of bastard muskett boare one pair of bandealers or shott bagg one pound of good powder foure pound of pistol or muskett shott and Sufficent quantity of match for match locks and of flints for firelocks and before Christmas next shall also find a Sword and Belt for every such person as aforesaid.³⁰⁰

Further, “every householder of every hundred haveing in his family three men or more able to beare armes shall Send one man completely armed for every such three men and two men for every five and so proportionately.”³⁰¹ The act contemplated many persons within a family, including minors, bearing arms.³⁰²

A 1654 act mandated “that all persons from 16 yeares of age to Sixty shall be provided with Serviceable Armes & Sufficent Amunition of Powder and Shott ready upon all occasions.”³⁰³

³⁰⁰ 1 PROCEEDINGS AND ACTS OF THE GENERAL ASSEMBLY OF MARYLAND JANUARY 1637/8—SEPTEMBER 1664, at 77 (William Hand Browne ed, 1883). For dates in this article, readers should be aware that in the English-speaking countries, the calendar changed from Old Style (Julian) to New Style (Gregorian) in 1752. Under the Old Style, the New Year began on March 25 (the traditional date of the Annunciation to the Virgin Mary), not January 1. So, the people of Maryland considered the above date to be 1638, not 1639. We have generally rendered dates in New Style. Scholars using Western European date citations between 1582 (when France adopted the New Style calendar) and 1752 should be aware that the days between January 1 and March 24 may be assigned to a different year, depending on the country. The shift can also move the calendar date as far forward as 11 days; for example, July 1 Old Style can become July 12 New Style. The shift occurs because New Style remedied the incorrect number of leap year days in Old Style. New Style omits leap years every 100 years, except for every 400th year. So, under New Style, there was no leap year day in 1800 or 1900, but there was one in 2000.

In 1658, the Council of Maryland adopted “Instructions directed by the Governor and Councill to the severall Captaines of the respective Commissions.”³⁰⁴ Captains had to make “a perfect list” of “all persons able to beare Armes within theyr respective divisions that is of all men betweene 16 and 60 yeares of Age.” From that list, the “fittest” people were to be selected to form the “constant Trayned Band.”³⁰⁵ In addition, every householder had to provide himself and “every man able to beare Armes in his house” with sufficient ammunition and a well-fixed gun.³⁰⁶

Twenty years later, a new militia act kept the ages “between sixteen and sixty yeares of age.”³⁰⁷ Like its predecessors, it required that each “appeare and bring with him one good serviceable fixed Gunn and six shoots of Powder.”³⁰⁸ Troopers were required to bring their own horses, and “to find themselves with sword Carbine Pistolls Holsters & Amunition.”³⁰⁹

The 1681 militia law retained the age and arms requirements,³¹⁰ and was continued in 1682.³¹¹ Ages and arms remained the same in successor acts of 1692,³¹² 1695,³¹³ 1698,³¹⁴ 1699,³¹⁵ 1704,³¹⁶ 1708,³¹⁷ 1709,³¹⁸ 1711,³¹⁹ 1714,³²⁰ 1715,³²¹ 1719,³²² 1722,³²³ and 1733.³²⁴

In 1756, Maryland passed another militia act, and kept the militia age at 16 to 60.³²⁵ This act changed the ammunition requirement to “nine Charges of Gun-powder and nine Sizeable Bullets.” Troopers needed to provide themselves with “a pair of good Pistols a good Sword or Hanger half a pound of Gun-powder and twelve Sizeable Bullets and a Carbine --well fixed with a good Belt Swivel and Bucket.”³²⁶

The Conventions of the Province of Maryland that took place in Annapolis in 1775 and 1776 produced two militia laws. Both Conventions determined “[t]hat every able bodied effective freeman within this province, between sixteen and fifty years of age . . . enroll himself in some

³²⁶ *Id.* at 458.

company of militia.”³²⁷ The 1777 convention retained the new maximum of 50 years and excluded non-whites.³²⁸ A 1778 militia act did not change the ages or arms requirements.³²⁹

Then in 1781, the legislature passed “An Act to raise two battalions of militia for reinforcing the continental army, and to complete the number of select militia.” The minimum age remained sixteen.³³⁰ The new law ordered local governments to draft one or two men to serve the Continental Army. It allowed lieutenants to play favorites: “to ease the good people, from the draught, every free male idle person, above 16 years of age, who is able bodied, and hath no visible means of an honest livelihood, may be adjudged a vagrant by the lieutenant, and by such adjudication he is to be considered as an enlisted soldier.”³³¹

When Maryland ratified the Second Amendment on December 19, 1789,³³² every militia it had ever assembled consisted of men sixteen and older, who provided their own firearms.

The first time Maryland increased its militia age was in 1793, when it modified its laws to align with the federal Uniform Militia Act of 1792. This new militia statute raised the minimum age to eighteen and lowered the maximum age to forty-five.³³³

A 1793 supplement included a provision for a “one complete company of infantry annexed to each regiment within this state, to be furnished with arms and accoutrements at the expense of the state ... composed of men between the ages of twenty-one and thirty years.”³³⁴ This provision for select companies of infantry did not change the requirement for all other able bodied males between 18 and 45 to enroll in the general militia, and to provide their own personal arms.³³⁵ As

³³² 1 JOURNAL OF THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES, *supra* note 280, at 307-09.

³³³ WILLIAM KILTY, THE LAWS OF MARYLAND: 1785-1799, ch. LIII, at 455 (1800), <https://play.google.com/books/reader?id=SZxaAAAAYAAJ&hl=en&pg=GBS.PT447>. There were exemptions for “quakers, menonists and tunkers, and persons conscientiously scrupulous of bearing arms, and the apprentices of their trade.” Excusal on grounds of disability required a certificate from “the surgeon of the regiment to which he shall belong, or some reputable physician in his neighbourhood.” *Id.* at 460. Quakers, Mennonites, and Dunkers are pacifist Protestant denominations. The Dunkers are also known as the Church of the Brethren and have Baptist roots.

³³⁴ A Supplement to the Act, Entitled, An Act to Regulate and Discipline the Militia of this State, 1798 Md. Laws, Ch. C, Section XXIII, ARCHIVES MD. ONLINE, <http://aomol.msa.maryland.gov/megafile/msa/speccol/sc4800/sc4872/003181/html/m3181-1319.html> (last visited Jan. 13, 2019). These state-provided arms were to be used only for militia duty. If used for “hunting, gunning or fowling” or not kept “clean and in neat order,” the firearm would be forfeited to the state and the militiaman would be forced to obtain a private firearm, which by comparison, was perfectly legal and expected to be used for non-militia purposes. *Id.* at Ch. C, Section XXX.

³³⁵ Since the supplemental act did not address the arms requirement established in the original act passed earlier that year, the following provision still applied:

That every citizen so enrolled and notified, shall, within six months thereafter, provide- himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints, and a knapsack; a pouch with a box therein, to contain not less than twenty-four cartridges suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and, ball; or with a good rifle,

the Act explained, “the privates and non-commissioned officers of the said company, as they shall respectively arrive at the age of thirty years, shall be dismissed from the company ... and shall be subject to militia duty in the same manner as other citizens above the age of thirty years.”³³⁶

In 1799, Maryland’s final militia act of the eighteenth century copied federal law by calling for “all able bodied white male citizens between 18 and 45 years of age.”³³⁷

C. North Carolina: Land grants for properly armed persons “above the age of fourteen years”

In 1663, eight noblemen were granted the Carolina territory—which included what is now North Carolina and South Carolina—as a reward for their support of King Charles II as he was “restored” to the throne. The Charter of Carolina gave these men the authority to “to levy, muster and train all sorts of men, of what condition or wheresoever born ... to make war and pursue the enemies.”³³⁸

Pursuant to “Concessions and Agreements” in 1664, “All inhabitants and freemen of Carolina above seventeen years of age and under sixty shall be bound to bear arms and serve as soldiers whenever the grand council shall find it necessary.”³³⁹ To encourage settlement and to ensure that the settlers would be able to protect themselves, land grants were given to every properly armed freeman, every freewoman with an armed servant, plus additional land for each armed person produced who was “above the age of fourteen years” and had “a good firelock or matchlock bore, twelve bullets to the pound, ten pounds of powder, and twenty pounds of bullets.”³⁴⁰ The Fundamental Constitutions of Carolina in 1669 repeated the 1664 Concessions and Agreements rules for people 17-60.³⁴¹

A 1712 letter from North Carolina’s acting Governor Thomas Pollock to Lord John Carteret recalled that “at the last assembly with much struggling we obtained a law that every person between 16 and 60 years of age able to carry arms that would not go out to the war against the Indians, should forfeit and pay £5.”³⁴²

The minimum militia age of sixteen was maintained in a 1715 act, declaring that “the Militia of this Governmt. shall consist of all the Freemen within the same between the years of Sixteen

knapsack, shot-pouch and powder-horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder, and shall appear so armed, accoutred and provided, when called out to exercise or into service.

DUNAWAY, LORD JOHN CARTERET, EARL GRANVILLE: FAMILY HISTORY AND THE GRANVILLE GRANTS IN NORTH CAROLINA 56 (2013).

years & Sixty.”³⁴³ This included free blacks. Each militiaman had to provide himself with “a good Gun well-fixed Sword & at least Six Charges of Powder & Ball.”³⁴⁴

The enrollment of all freemen of all colors aged 16 to 60 was retained in a 1740 act.³⁴⁵ These freemen had to appear with “a good Gun well fixed and a Sword or Cutlass and at least twelve Charges of powder and Ball or Swan Shot”³⁴⁶ (Swan shot is large shotgun pellets.)

The next act in 1746 kept the same ages, but included servants in addition to freemen.³⁴⁷ It also slightly modified the arms requirement, mandating that each militiaman appear with “a Gun, fit for service, a Cartouch Box, and a Sword, Cutlass, or Hanger [a type of sword], and at least Twelve Charges of Powder and Bail, or Swan Shot, and Six Spare Flints”³⁴⁸ This act was extended for another five years in 1749,³⁴⁹ and another three years in 1754.³⁵⁰ The 1756 act slightly modified the necessary arms and equipment, specifically requiring tools for gun cleaning.³⁵¹ When this act was amended and continued in 1759, the arms and ages were unchanged.³⁵²

The 1760 law introduced different arms mandates for mounted militiamen, including a pair of handguns plus a lightweight long gun. Every trooper (horseman) needed “Holsters, Housing, Breast-Plate and Crupper, a Case of good Pistols, a good Broad Sword, Twelve Charges of Powder, Twelve sizeable Bullets, a Pair of Shoe-Boots, with suitable Spurs, and a Carbine well fixed, with a good Belt, Swivel and Bucket.”³⁵³

The militia act of 1764 had similar age and arms requirements, except that swan shot was now mandatory for infantry.³⁵⁴ The act was continued in 1766.³⁵⁵ Then in 1768, “sizeable Bullets” were restored as an acceptable alternative to swan shot.³⁵⁶

³⁵⁴ *An Act for appointing a Militia*, 1764 N.C. Sess. Laws 596, <http://docsouth.unc.edu/csr/index.php/document/csr23-0044>.

³⁵⁵ *An Act to amend & Continue An Act, Intituled An Act for Appointing a Militia*, 1766 N.C. Sess. Laws 496, <http://docsouth.unc.edu/csr/index.php/document/csr25-0049>.

³⁵⁶ *An Act for establishing a Militia in this Province*, 1768 N.C. Sess. Laws 761, <http://docsouth.unc.edu/csr/index.php/document/csr23-0049>.

The 1770 act eliminated a conscientious objector exemption and ordered “all Male Persons of the people called Quakers, between the age of Sixteen and Sixty” to enlist in the militia.³⁵⁷ Additionally, the act provided that “the Father or where there is no Father living, the Mother of each and every Person under the age of Twenty One Years, shall be liable to the Payment of the Fines becoming due from their respective sons so under age.”³⁵⁸

The 1774 militia act retained the age and arm requirements.³⁵⁹ Perhaps reflecting wartime arms shortages, the 1777 act was less specific about particular firearms, requiring only that “each Militia soldier shall be furnished with a good Gun, shot bag and powder horn, a Cutlass or Tomahawk.”³⁶⁰ The maximum age was reduced: “the Militia of every County shall consist of all the effective men from sixteen to fifty years of age.”³⁶¹

With the American Revolution raging, the 1779 act kept the maximum age of 50 and the minimum of 16.³⁶² Religious exemptions were restored for “Quakers, Menonists, Dunkards, and Moravians.”³⁶³ “[E]ach Militia Soldier [had to] be furnished with a Good Gun, Shot bag a Cartouch Box or powder Horn, a Cutlass or Tomahawk.”³⁶⁴

The 1781 act was more flexible on the requisite arms. Infantry needed “a good gun and shot bag, and powder horn or cartouch box, and havre sack.”³⁶⁵ Cavalry troopers needed “a gun, sword, and cartouch box.”³⁶⁶

The following year, “An Act for Raising troops to compleat the Continental Battalions of this State, and other purposes” was passed. This was a draft for the Continental Army. Subject to the draft were “all the inhabitants . . . between the ages of sixteen and fifty.”³⁶⁷ To prevent the widespread community practice of filling draft ranks with the most vulnerable and least motivated, the act specified that “no British or Hessian deserter who hath not been a resident of this State twelve months, or orphan or apprentice under eighteen years of age, Indian, sailor or negro slave, shall be received as a substitute for any class volunteer or draft whatever.”³⁶⁸ So a 19-year-old who was drafted could hire an older man to serve as a substitute, but could not hire a 17-year-old orphan.

After the war was over, the 1785 act raised the minimum militia age to 18. Militiamen included “all freemen and indented servants” (but not servants for life, a/k/a slaves). Militiamen had to arm themselves with “a well fixed gun and cartouch-box, with nine charges of powder made into cartridges and sizeable bullets or swan-shot, and one spare flint, worm and picker.”³⁶⁹

North Carolina’s 1787 militia law³⁷⁰ was in effect when it ratified the Second Amendment on December 22, 1789.³⁷¹ The militia law kept the militia as “all freemen and indented servants within this State, from eighteen to fifty years of age.”³⁷² The required arms and equipment were now more specific and varied by role in the militia.³⁷³

For commissioned officers in the infantry, “side arms” (handguns) “or a spontoon” (a pole arm). For private and non-commissioned officers, a musket or rifle, plus a cartridge box, powder horn, shot pouch “in good condition,” “nine charges of powder made into cartridges with sizeable balls or swan-shot,” a spare flint, and one worm and picker.³⁷⁴ As for artillerymen, they “shall be armed and accoutred with small arms in the same manner of the infantry, except the non-commissioned officers, who shall have swords instead of fire-arms.”³⁷⁵

Horsemen, whether officers or privates, needed “a strong, serviceable horse, at least fourteen hands high, with a good saddle, bridle, holsters, one pistol, horseman’s sword and cap, a pair of shoe boots and spurs,” plus “a proper cartouch-box and cartridges all in good order.”³⁷⁶

North Carolina’s next militia bill, passed on December 29, 1792, conformed to the federal Uniform Militia Act of 1792. The minimum age remained 18, while the maximum dropped to 45. The mandatory arms paralleled the federal statute. Each infantryman was required to “provide himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints, a knapsack, a pouch with a box therein to contain not less than 24 cartridges suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball ; or with a good rifle, knapsack, shot-pouch and powder-horn, 20 balls suited to the bore of his rifle, and a quarter of a pound of powder.”³⁷⁷

The state’s final militia act of the eighteenth century was passed in 1796. It improved consistency with federal law and kept the previous age and arms requirements.³⁷⁸

³⁷⁸ 1796 N.C. Sess. Laws 57, <https://babel.hathitrust.org/cgi/pt?id=nc01.ark:/13960/t6n02562t;view=lup;seq=57>.

South Carolina was formally separated from North Carolina in 1729 but began making its own laws before that. Its first militia statute was enacted in 1703.³⁷⁹ It included “all and every the inhabitants from the age of sixteen years to sixty.”³⁸⁰ It required “each person or soldier” to appear “with a good sufficient gun, well fixed, a good cover for their lock, one good cartridge box, with at least twenty cartridges of good powder and ball, and one good belt or girdle, one ball of wax sticking at the end of the cartridge box, to defend the arms in rain, one worm, one wiew and four good spare flints, also a sword, bayonet or hatchet.”³⁸¹

The arms and age requirements were retained in the 1707 militia act.³⁸² This act was revived and continued in 1721.³⁸³ The 1721 act made only minor changes for arms; militiamen now had to bring at least a quarter pound of powder, and only twelve cartridges instead of twenty.³⁸⁴ Additionally, troops of horse or dragoons had to provide themselves with “holsters and a pair of pistols, a carbine and sword.”³⁸⁵ The next act, in 1734, was identical to 1721.³⁸⁶

South Carolina’s 1737/8 militia act is lost.³⁸⁷ A 1739 supplement did make it clear that militia arms were to be kept at home: “all persons who are liable to bear arms, shall constantly keep in their houses such arms, furniture, ammunition and accoutrements.”³⁸⁸

A 1747 act affirmed that it was “lawful to . . . call together all male persons in this Province, from the age of sixteen to sixty years.” It also made “every person liable to appear and bear arms . . . keep in his house, or at his usual place of residence, and bring with him to such muster, exercise or training, one gun or musket, fit for service, a cover for his lock, one cartridge box,” twelve cartridges, horn or flask filled with at least a quarter pound of gun powder, a shot pouch with appropriate bullets, “one girdle or belt, one ball of wax . . . to defend his arms in rain, one worm and picker, four spare flints, a bayonet, sword or hatchet.”³⁸⁹

The next militia act was passed over four decades later, in 1778.³⁹⁰ It applied to “all male free inhabitants . . . from the age of sixteen to sixty years.”³⁹¹ Every militiaman had to “constantly keep in good repair, at his place of abode . . . one good musket and bayonet, or a good substantial smooth bore gun and bayonet, a cross belt and cartouch box” that could hold thirty-six rounds, “twelve rounds of good cartridges,” plus “half a pound of spare powder and twenty-four spare rounds of leaden bullets or buck-shot,” a cover for the gunlock, wax, worm picker, and “one screw driver or substantial knife.” Instead of the musket plus bayonet, a militiaman could choose “one good rifle-gun and tomahawk or cutlass.”³⁹²

South Carolina's 1782 militia act kept the minimum age at 16 but lowered the maximum age to 50.³⁹³ A temporary act in 1783 left the age and arms requirements unchanged.³⁹⁴

The minimum age was raised for the first time in South Carolina's history in the militia act of 1784, which defined the militia when the state ratified the Second Amendment on January 19, 1790.³⁹⁵ The 1784 act "excused from militia duty, except in times of alarm . . . all persons under the age of eighteen years or above the age of fifty years."³⁹⁶ Thus, men under 18 or over 50 could still be forced to serve in an emergency.

The necessary arms were revised in 1791. Firearms were "a good musket and bayonet . . . or other sufficient gun."³⁹⁷ Edged arms were "a good and sufficient small sword, broad sword, cutlass or hatchet."³⁹⁸ Along with the usual cartouch box, powder horn or flask, shot bag or pouch, spare flint, and ammunition.³⁹⁹

Almost exactly one year later, on December 21, 1792, an act⁴⁰⁰ was passed that continued the Acts of 1784 and 1791, until the state could "arrange the militia agreeable to the Act of the United States in Congress."⁴⁰¹ The South Carolina militia expressly included free people of every color within the state: "all free negroes and Indians, (nations of Indians in amity with the State excepted,) Moors, mulattoes and mestizoes,⁴⁰² between the ages of eighteen and forty-five, shall be obliged to serve in the said militia."⁴⁰³

Finally, in 1794, the state organized its militia "in conformity with the act of Congress."⁴⁰⁴ The South Carolina militia was "every citizen who shall, from time to time, arrive at the age of eighteen years."⁴⁰⁵ It excluded "all persons under the age of eighteen, and above the age of forty-five years."⁴⁰⁶ Additionally, "all free white aliens or transient persons, above the age of eighteen and under the age of forty-five years, who have resided or hereafter shall or may reside in this state for the term of six months [were] subject and liable to do and perform all patrol and militia duty

which shall or may be required by the commanding officer” of the district.”⁴⁰⁷ The required arms were the same as the federal Uniform Militia Act.⁴⁰⁸

E. New Hampshire: males under seventy

New Hampshire’s first militia act was passed in 1687.⁴⁰⁹ It demanded “that no person whatsoever above Sixteene yeares of age remaine unlisted.”⁴¹⁰ Equipment was “a well fixed musket” with a barrel at least three feet.⁴¹¹ The caliber was large: “the bore for a bullett of twelve to the pound.”⁴¹² Also necessary were bandoliers and a cartridge box, plus bullets and powder.⁴¹³ Officers had the option of allowing their men to have “a good pike and sword” instead of the musket.⁴¹⁴

As for horsemen, “every soldier belonging to the horse” had to bring “a good serviceable horse covered with a good saddle with holsters breastplate and crupper a case of good pistolls and sword and halfe a pound of powder and twenty sizable bullets . . . And every trooper have at his usuall place of abode a well fixed Carabine with belt and swivel.”⁴¹⁵

The next act, in 1692, changed the militia from all “persons” over sixteen to all males over 16.⁴¹⁶ For arms, everyone had to be “well provided w’th a well fixed gun or fuse,” plus “Sword or hatchet.”⁴¹⁷ Along with the typical colonial requirements for gunpowder and bullets, a knapsack, a cartridge box, a powder horn, and flints.⁴¹⁸

The above had stated how much ammunition the militiaman had to bring when called to muster—the periodic militia inspections for sufficiency of arms. Besides that, every militiaman had to keep more at home: “every Sooider Shall have at his habitation & abode one pound of good powder & twenty Sizable bullets.”⁴¹⁹

⁴⁰⁷ *Id.* at 493. The “patrol” was the slave patrol—nighttime patrols to catch slaves who were off their master’s land, and to search slave quarters for weapons. The patrol and the militia had separate origins and were legally distinct. However, as the text indicates, below the Mason-Dixon line, the patrol and the militia were related. *See generally* SALLY E. HADDEN, *SLAVE PATROLS: LAW AND VIOLENCE IN VIRGINIA AND THE CAROLINAS* (2001).

⁴⁰⁸ 8 THE STATUTES AT LARGE OF SOUTH CAROLINA: CONTAINING THE ACTS RELATING TO CORPORATIONS AND THE MILITIA, *supra* note 404, at 498. This law was supplemented later in 1794, but the supplement did not affect the age limits nor arms requirements. *Id.* at 501-02.

⁴¹⁹ *Id.*

A 1704 act did not change the militia ages or arms.⁴²⁰ But the following act did. “An Act for the Regulating of the Militia” in 1718 established New Hampshire’s first upper militia age limit, providing that “all Male Persons from Sixteen Years of Age to Sixty [] shall bear Arms.”⁴²¹

The primary arms mandate applied to “every Listed Souldier and Housholder (except Troopers).”⁴²² In other words, the head of a house was required to have the specified arms, even if the head were not militia-eligible. These arms were “a well fix’d, Firelock Musket, of Musket or Bastard-Musket bore, the Barrel not less than three foot and a half long; or other good Fire-Arms, to the satisfaction of the Commission Officers of the Company.”⁴²³ Now, the mandatory equipment included gun cleaning tools: “a Worm and Priming Wire fit for his Gun.”⁴²⁴ Mandatory edged arms were “a good Sword or Cutlash.”⁴²⁵

As for horsemen, they needed “a Carbine, the Barrel not less than Two Foot and half long, with a Belt and Swivel, a Case of good Pistols with a Sword or Cutlash, a Flask or Cartouch Box, One Pound of good Powder, Three Pound of sizeable Bullets, Twenty Flints, and a good pair of Boots, and Spurs.”⁴²⁶

Acts passed in 1719⁴²⁷ and 1739/40⁴²⁸ did not affect the age limits or arms requirements. A 1754 revision made the parents over persons under twenty-one liable for fines imposed for their sons’ militia delinquency or neglect.⁴²⁹

Thus, the social expectation of the time was that parents would ensure that their sons sixteen and older had particular guns, swords, and so on, and that the sons would keep the arms in good condition and practice with them.

In 1773, New Hampshire lowered the maximum militia age from 60 to 50, “it having been found by Experience that persons attending after the Age of Fifty Years was not for the Publick advantage.”⁴³⁰

After the Revolution began, a comprehensive new militia law was enacted.⁴³¹ It retained the recently established age limits of 16 to 50.⁴³²

Any “good Fire Arm” was acceptable. Also mandatory was a “good Ramrod.”⁴³³ The latter was used to ram the bullet down the muzzle, into the firing chamber. It was essential to the use of a muzzle-loading gun. While some militia statutes specified a ramrod, many left it to implication.

⁴³³ *Id.* at 42.

By requiring that a gun be “well fixed” or “good,” the less specific statutes implicitly required all appropriate accoutrements, including the ramrod.

For gun cleaning, the worm and priming wire had long been mandated. The new laws had an additional item: a brush.⁴³⁴

Two types of edged weapons were needed. First, “a Bayonet fitted to his Gun.”⁴³⁵ In close quarters fighting, an infantryman would attach the bayonet to the front of his gun. Then the gun would be used as a spear. Since there was a bayonet, there had to be “a Scabbard and Belt therefor.”⁴³⁶

Besides the bayonet, one additional edged weapon was mandatory: “a Cutting Sword, or a Tomahawk or Hatchet.”⁴³⁷

The ammunition items were: “Pouch containing a Cartridge Box, that will hold fifteen Rounds of Cartridges at least, a Hundred Buck Shot, a Jack Knife and Tow for Wadding, six Flints, one Pound of Powder, forty Leaden Balls fitted to his Gun.”⁴³⁸

Finally, field supplies: “Knapsack and Blanket, a Canteen or Wooden Bottle sufficient to hold one Quart.”⁴³⁹

Persons who were self-sufficient had to supply themselves with the required items. As for others, “all Parents, Masters, and Guardians, shall furnish and equip those of the Militia which are under their Care and Command.”⁴⁴⁰

In the War of Independence—for national survival—arms duties were expanded even to 65-year-olds. All men “from Sixteen years of Age to Sixty five” who were *not* part of the militia (“the Training Band”) were required to provided themselves the same “Arms and Accoutrements.” This applied to men “of sufficient Ability” (able-bodied).⁴⁴¹

Later, four years into the war, in 1780, New Hampshire enacted a new militia law.⁴⁴² The militia was ages sixteen and fifty.⁴⁴³ The militiamen had to attend musters and drills, and sometimes had to march off to fight in distant locations.

Under the 1780 law, all males under 70 who were capable of bearing arms were put on the “alarm list.”⁴⁴⁴ This meant that they had to have all the same arms and gear as militiamen.⁴⁴⁵ If there were an attack on their town, or nearby, they would come forth with their arms.

The New Hampshire statute reflected a common American practice. Whenever a small town was attacked, everybody who was able would fight as needed, including women, children, and the elderly.⁴⁴⁶

The 1780 firearms requirement was more specific than its 1776 predecessor, requiring “a good Musquet.”⁴⁴⁷ The bayonet was still mandatory, but a second edged weapon was not.⁴⁴⁸ Captains and Subalterns were to be “furnished with a half pike or Espontoon” (pole arms) or a “Fussee [lightweight long gun] and Bayonet and also with a Sword or Hanger.”⁴⁴⁹

In 1786, New Hampshire repealed all previous militia laws, and enacted a comprehensive new statute.⁴⁵⁰ This was the state’s militia law when it ratified the Second Amendment on January 25, 1790.⁴⁵¹ The minimum age remained at 16—where it had been throughout all of New Hampshire’s history. The maximum age fell to 40, its lowest yet.⁴⁵² Older men were on the alarm list until age 60.⁴⁵³

Arms were the same as in 1780.⁴⁵⁴ As before, militiamen “under the care of parents masters or Guardians” were “to be furnished by them with such Arms and accoutrements.”⁴⁵⁵

A 1792 militia law introduced a racial element; the militia consisted of “every free, able bodied white male citizen of this State resident therein who is, or shall be of the age of eighteen years and under the age of Forty years.”⁴⁵⁶

The 1792 arms requirements were mostly the same as before, with some additional details. For example, commissioned officers had to have “a pair of Pistols, the holsters of which to be covered with bear-skin Caps.”⁴⁵⁷ Commissioned officers might have an espontoon (a pole arm often used for signaling), but field officers would not.⁴⁵⁸ Again, “parents, Masters, or Guardians” had to furnish their charges with “Arms and Accoutrements.”⁴⁵⁹ And again they were “liable for the neglect and non appearance of such persons . . . under their care.”⁴⁶⁰

In 1795 the starting militia age was lowered back to sixteen, where it had been until recently.⁴⁶¹ Perhaps the 1792 age-eighteen law was in deference to the federal Uniform Militia Act passed earlier that year. Later, the people decided that they wanted to keep their traditional lower age.

And every citizen enrolled and liable as aforesaid; shall, while under the age of twenty one years be exempt from a poll tax.”).

Other additions to the 1792 militia law were enacted in 1793. *Id.* at 110 (assigning certain militia units to regiments), 1795 (*id.* at 279), and 1798 (*id.* at 545).

F. Delaware: “every Freeholder and taxable Person”

First a colony of Sweden and then the Netherlands, Delaware was taken by the English in 1664. Initially, New York claimed it. A statute New York passed in 1671 to defend against Indian attacks along the Delaware River became Delaware’s first militia act. It required “That every Person that can beare Arms from 16 to 60 years of Age, bee allways provided with a convenient proportion of Powder & Bullett fit for Service, and their mutual Defence.”⁴⁶²

Eventually, Delaware got its own legislature, but the three compact counties were too small to merit a royal governor. Consequently, the Governor of Pennsylvania was also the Governor of Delaware. Delaware did not enact a militia statute until 1740.⁴⁶³ It required “all the inhabitants and freemen” aged fifteen to sixty-three to “provide and keep . . . a well-fixed firelock or musket,” plus ammunition supplies and cleaning tools.⁴⁶⁴

The next year, a new law required males from 17 to 50 years to enlist. Besides that, everyone else who was living self-sufficiently (“every Freeholder and taxable Person”) had to have the same arms as militiamen.⁴⁶⁵

Because “the Subjects of the French King, and their Savage Indian Allies . . . in the most cruel and barbarous Manner, attacked and murdered great Numbers” of colonists, the Assembly of the Counties of New Castle, Kent, and Sussex enacted a militia law in 1756.⁴⁶⁶ This militia law for the French & Indian War was for the people to “assert the just Rights, and vindicate the Honour, of His Majesty’s Crown, but also to defend themselves and their Lives and Properties, and preserve the many invaluable Rights and Privileges that they enjoy under their present Constitution and Government.”⁴⁶⁷

The militia law covered every male “above Seventeen and under Fifty Years of Age (except bought Servants, or Servants adjudged to serve their Creditors).”⁴⁶⁸ The gun was to be a musket or rifle.⁴⁶⁹ The next year the militia act was extended “so long as the War proclaimed by his Majesty against the French King shall continue and no longer.”⁴⁷⁰

After the Revolution began, Delaware enacted several militia statutes in 1778. The foundational act “establishing a Militia within this State” included “each and every able-bodied, effective, Male white Person between the Ages of Eighteen and Fifty.”⁴⁷¹ Militiamen had to provide their own “Musket or Firelock with a Bayonet,” plus the cartridge box, cartridges, priming

⁴⁷¹ AN ACT of the General Assembly of the Delaware State for establishing a militia within the said state, 1778 Del. Acts, March Adjourned Session 3-4. The several acts from the March 1778 session are separately paginated, so each new act begins on its own page 1.

wire, brush, and six flints. For 18-to-20-year-olds who could not afford the mandatory arms, the parents had to provide them, if the parents could afford them.⁴⁷²

Another law punished people who bought from militiamen the arms or accoutrements that militiamen were supposed to always keep. If the illicit buyer were a man 18 to 50, the punishment could include six months' service in the militia.⁴⁷³ The third act in 1778 provided regulations for the militia "whilst under Arms or embodied" (i.e., in active service).⁴⁷⁴ A 1779 supplement specified the punishment for persons between 18 and 50 who failed to appear for militia duty with the required arms.⁴⁷⁵

A comprehensive new militia act in 1782 included "every able-bodied effective Male white Inhabitant between the Ages of eighteen and fifty years."⁴⁷⁶ Again, parents who could afford to had to provide the required arms to persons aged 18-to-20 who could not afford them.⁴⁷⁷ Arms were the same as before.⁴⁷⁸

The act that established the militia when Delaware ratified the Second Amendment on January 28, 1790,⁴⁷⁹ was passed in 1785.⁴⁸⁰ Each white male 18-50 whose taxes were at least twenty shillings a year had to provide equipment "at his own expence."⁴⁸¹ As for apprentices and persons over 18 and under 21, their parent or guardian would provide the arms—if the militiaman's estate were at least eighty pounds, or if the parent paid "six pounds annually towards the public taxes."⁴⁸²

Arms were "a musket or firelock, with a bayonet," a cartridge box with twenty-three cartridges, "a priming wire, a brush and six flints, all in good order."⁴⁸³ Fines for neglect were to be paid by militiamen "of full age or by the parent or guardian of such as are under twenty-one years."⁴⁸⁴ The guardian could charge his ward for the expense when the time came for "settling the accounts of his guardianship."⁴⁸⁵

Like most states, Delaware enacted a new militia law after the federal Uniform Militia Act passed in 1792. Delaware's 1793 act included "each and every free able bodied white male citizen of this state, who is or shall be of the age of eighteen years, and under the age of forty-five years."⁴⁸⁶ However, "all young men under the age of twenty-one years, and all servants purchased *bona fide*, and for a valuable consideration, [were] exempted from furnishing the necessary arms,

⁴⁸⁶ 2 LAWS OF THE STATE OF DELAWARE 1134 (1797),

<https://babel.hathitrust.org/cgi/pt?num=1134&u=1&seq=641&view=image&size=100&id=njp.32101042903870&q1=twenty-one>.

ammunition and accoutrements . . . and [were] exempted from militia duties and fines during such minority or servitude, except in cases of rebellion, or an actual or threatened invasion.”⁴⁸⁷

In other words, servants and males 18 to 20 would not be fined if they did not participate in drills. Additionally, they would not be fined if they lacked the requisite equipment. Of course, if they wanted to keep arms and train, they could.

Required arms mostly tracked the federal law, with some more detail for horsemen.⁴⁸⁸

A 1796 supplement revised the organization and regulation of the militia, and again included able-bodied white males from 18 to 45.⁴⁸⁹ The act also forbade volunteer militias, because there were “a number of free able bodied white men in this state, between the ages of eighteen and forty-five years, who neglect and refuse to muster and do militia duty, in the companies in which they have been enrolled . . . and yet meet together with arms in bodies distinguished and known by the name of Volunteer Companies.”⁴⁹⁰

Delaware’s hostility to volunteer companies was not the national norm. In fact, the federal Uniform Militia Act expressly recognized independent volunteer companies.⁴⁹¹ The UMA set forth the conditions and regulations for independent militia service in the federal militia.⁴⁹²

⁴⁸⁷ *Id.* at 1135. In other words, hired servants were part of the enrolled militia. Indentured servants were not, except in emergencies. Textually, slaves were “purchased . . . for a valuable consideration,” but we are not certain whether they too would be part of the militia during an emergency. *Cf. supra* note 221 (distinguishing “bought” servants from African slaves).

⁴⁸⁸ *Id.* at 1136.

[E]very non-commissioned officer and private of the infantry (including grenadiers and light infantry, and of the artillery shall have a good musket or firelock, a sufficient bayonet and belt, two spare flints and a knapsack, a pouch, with a box therein to contain not less than twenty-four cartridges suited to the bore of his gun, each cartridge to contain a proper quantity of powder and ball, or with a good rifle, knapsack, shot pouch and powder horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder; the commissioned officers of the infantry shall be armed with a sword or hanger, and an esponton, and those of artillery with a sword or hanger, a fuzee, bayonet and belt, and a cartridge box to contain twelve cartridges; the commissioned officers of the troops of horse shall furnish themselves with good horses of at least fourteen hands and a half high, and shall be armed with a sword and pair of pistols, the holsters of which shall be covered with bear skin caps; each light-horseman or dragoon shall furnish himself with a serviceable horse at least fourteen hands and an half high, a good saddle, bridle, mail pillion and valise holsters, and a breast plate and crupper, a pair of boots and spurs, a pair of pistols, a sabre, and cartouch box to contain twelve cartridges for pistols; the artillery and horse shall be uniformly clothed in regimentals, to be furnished at their own expence.

⁴⁸⁹ *Id.* at 1225.

⁴⁹⁰ *Id.* at 1234 (noting that besides the concern about the state militia, Delaware also worried about “the assembling of large bodies of armed men, who do not acknowledge, and refuse to submit to, the legal military establishment.”).

⁴⁹¹ More effectually to provide for the National Defence by establishing an Uniform Militia throughout the United States (Uniform Militia Act) (UMA), 1 Stat. 271, 274, §§ 10-11.

⁴⁹² *Id.* (providing “And whereas sundry corps of artillery, cavalry, and infantry now exist in several of the said states, which by the laws, customs, or usages thereof have not been incorporated with, or subject to the general regulations of the militia: SEC. 11. Be it enacted, That such corps retain their accustomed privileges, subject, nevertheless, to all other duties required by this Act, in like manner with the other militia”).

Delaware passed its final militia act of the eighteenth century in 1799.⁴⁹³ The scope of the militia remained the same.⁴⁹⁴ The arms were mostly the same: for the infantryman, “a good musket” plus a bayonet, or “a good rifle.” Commissioned officers needed “a sword or hanger, a fusee, bayonet,” and troopers had to be “armed with a sabre and pair of pistols.”⁴⁹⁵

Men 18 to 20 were again exempted from fines for non-performance of militia duties “during such minority, except in cases of rebellion or any actual invasion of this State.”⁴⁹⁶

G. Pennsylvania: No service “without the consent of his or their parents or guardians, masters or mistresses”

In the days when Pennsylvania was claimed by New York, a 1671 law required “every person that can bear arms from 16 to 60 years of age, be always provided with a convenient proportion of powder and bullet fit for service, and their mutual defence.”⁴⁹⁷ This meant “at least one pound of powder and two pounds of bullet.”⁴⁹⁸ As backup to insufficient armament by the people, “his Royal Highness’ Governor [N.Y. Gov. Francis Lovelace] is willing to furnish them out of the magazine or stores, they being accountable and paying for what they shall receive, to the Governor or his order.”⁴⁹⁹

Five years later, it was mandated that:

Every Male within this Government from Sixteen to Sixty years of age, or not freed by public Allowance, shall if freeholders at their own, if sons or Servants at their Parents and Masters Charge and Cost, be furnished from time to time and so Continue well furnished with Armes and other Suitable provition hereafter mentioned . . . Namely a good Serviceable Gun, allowed Sufficent by his Military Officer to be kept in Constant fitness for present Service, with a good sword bandealers or horne a worme a Scowerer a priming wire Shott Badge and Charger one pound of good powder, four pounds of Pistol bullets or twenty four bullets fitted to the gunne, four fathom of Serviceable Match for match lock gunn four good flints fitted for a fire lock gunn.⁵⁰⁰

As for horsemen, their mandatory arms were “Holsters, Pistolls, or Carbine, and a good Sword.”⁵⁰¹

⁵⁰⁰ CHARTER TO WILLIAM PENN, AND LAWS OF THE PROVINCE OF PENNSYLVANIA, PASSED BETWEEN THE YEARS OF 1682 AND 1700, PRECEDED BY DUKE OF YORK’S LAWS IN FORCE FROM THE YEAR 1676 TO THE YEAR 1682, at 39 (1676).

⁵⁰¹ *Id.* at 43.

Pennsylvania became a separate colony in 1681, following a royal grant to the Quaker aristocrat William Penn.⁵⁰² Early Pennsylvania was the only colony without an organized functional militia.⁵⁰³ Political power was in the hands of Quakers, many of whom (not all) were pacifists.⁵⁰⁴ Additionally, the Quakers had generally non-violent relations with Indians, and thus less need for collective self-defense.⁵⁰⁵

However, after the French & Indian War began in 1754, George Washington raised and paid for an army of Virginians to fight the French in the Ohio River Valley, and attitudes began to change.⁵⁰⁶ Because of non-Quaker immigration, Quaker hegemony over Pennsylvania politics had been challenged in the previous decades.⁵⁰⁷ Then in 1755 Pennsylvania passed an act to formalize voluntary militias wanting to defend the colony.⁵⁰⁸ The 1755 militia law explained the assembly was respecting the conscience rights of Quakers (most of whom were unwilling to fight) *and* the conscience rights of people of other faiths, who did want to join in associations for community defense.⁵⁰⁹

Minors and indentured servants could not join the new militia without the consent of their superiors: “no youth under the age of twenty-one years nor any bought servant or indented apprentice shall be admitted to enroll himself or be capable of being enrolled in the said companies or regiments without the consent of his or their parents or guardians, masters or mistresses, in writing under their hands first had and obtained.”⁵¹⁰ Later in 1755, as the pressures of war were growing, the assembly adopted a non-binding resolution “that it be recommended to all male white persons within this province, between the ages of sixteen and fifty years, who have not already associated, and are not conscientiously scrupulous of bearing arms, to join the said [militia] association immediately.”⁵¹¹

Five months later, Pennsylvania imposed a special tax on “every male white person capable of bearing arms, between the ages of sixteen and fifty years” who had *not* joined a militia.⁵¹² This

⁵¹² *Id.* at 539.

penalty was reaffirmed by “Resolutions directing the Mode of Levying Taxes on Non-Associators in Pennsylvania” two months later.⁵¹³ Finally, the entire militia act was repealed on July 7, 1756.⁵¹⁴

In 1755, and the first half of 1756, Quakers had been under pressure.⁵¹⁵ They were willing to pay taxes in general, knowing that some of the revenue would be used for military activity.⁵¹⁶ Most of them were pacifists, and they were not only unwilling to fight, but they were also unwilling to pay a special tax levied on them for not fighting, especially because they knew the tax would be used for the military.⁵¹⁷

During the eighteenth century, Americans grappled with how to deal with conscientious objectors.⁵¹⁸ Sometimes a mutually acceptable accommodation was found.⁵¹⁹

Once the Revolutionary War began, Pennsylvania had to create a formidable militia. By this time, non-Quakers held the political power.⁵²⁰ The new militia law of 1777 was for “every male white person usually inhabiting or residing within his township, borough, ward or district between the ages of eighteen and fifty-three years capable of bearing arms.”⁵²¹

For conscientious objectors, Pennsylvania adopted a variant of the practice used in some other colonies: the reluctant man subject to militia service could pay for a substitute to serve in his stead. In some states, this would be simply be a negotiated contract between the conscript and the substitute. In Pennsylvania, the fee or penalty was apparently to be paid to the militia itself, which could then hire a substitute.⁵²² Pennsylvania allowed for appeals if the objector thought the fee too high.⁵²³ For militiamen 18 to 20, the parents could appeal the fee, as could masters of indentured servants who were 18 to 20.⁵²⁴

⁵¹³ *Id.* at 512.

⁵¹⁴ 5 STATUTES AT LARGE OF PENNSYLVANIA, *supra* note 508, at 201,

<https://babel.hathitrust.org/cgi/pt?view=image;size=125;id=mdp.39015050623548;q1=militia;page=root;seq=207;num=201>.

⁵¹⁸ See LIBERTY AND CONSCIENCE: A DOCUMENTARY HISTORY OF CONSCIENTIOUS OBJECTORS IN AMERICA THROUGH THE CIVIL WAR 3-67 (Peter Brock ed. 2002). For example, the constitutions of Vermont, New Hampshire, Kentucky, and Tennessee included specific protections for conscientious objectors. JOHNSON ET AL., *supra* note 18, at 293, 296, 386. When ratifying the Constitution, the states of Maryland, Virginia, North Carolina, and Rhode Island asked for conscientious objector protections for the federal militia power. *Id.* at 313, 322, 327, 328. James Madison included such a protection in his draft of what became the Second Amendment, but the clause was removed in the Senate, based on the argument that that matter was best left to legislative discretion. *Id.* at 335-37.

⁵¹⁹ See generally LIBERTY AND CONSCIENCE, *supra* note 518 (describing examples of persecution and tolerance). Accommodations were easier for the non-Quaker pacifists, who did not object to paying war taxes or special fees for exemptions from military duty. *Id.* at 48.

⁵²⁰ MARIETTA, *supra* note 507, at 219-20 (noting that from 1774 onward the Pennsylvania Assembly was under control of non-Quakers who advocated vigorous confrontation with Great Britain).

⁵²¹ 9 THE STATUTES AT LARGE OF PENNSYLVANIA FROM 1682 TO 1801, at 77 (1903); MARIETTA, *supra* note 507, at 225-29.

⁵²² 9 STATUTES AT LARGE OF PENNSYLVANIA, *supra* note 521, at 77.

⁵²³ *Id.*

⁵²⁴ *Id.* at 87 (“[I]f any parent, guardian, master or mistress of any person between the ages of eighteen and twenty-one years or of any other person made liable to serve in the militia by this act shall think him or herself aggrieved by any of the rates, fines or sum or sums of money agreed for in the procuring of substitutes . . . he, she or they may appeal”).

The 1777 Act was non-specific on equipment, requiring only a militiaman's "arms and accoutrements" be "in good order."⁵²⁵ This Act was supplemented in 1777, without affecting age limits or arms.⁵²⁶

A new Act in 1780, five years into the Revolutionary War, kept the ages at 18 to 53, and reiterated the non-specific mandate for arms and accoutrements "in good order."⁵²⁷ This Act was Pennsylvania's militia act when it ratified the Second Amendment on March 10, 1790.⁵²⁸ There was a supplement in 1780,⁵²⁹ repeal and replacement of that supplement in 1783,⁵³⁰ more supplements in 1783⁵³¹ and 1788,⁵³² and a repeal of parts of those supplements in 1790.⁵³³ None of these changed the ages or the arms.

During the Revolutionary War, not long after the 1780 Militia Act had been enacted, the assembly established the Pennsylvania Volunteers.⁵³⁴ The Pennsylvania Volunteers were a state army, similar to the armies raised by other states. Every militia company had to "provide or hire one able-bodied man not less than eighteen or more than forty-five years of age" to serve in the Pennsylvania Volunteers.⁵³⁵ Notably, the whites-only provision from the militia law was omitted. As was true throughout the seventeenth and eighteenth centuries in America, whatever racial limits existed on militia or other military service tended to be repealed or overlooked under the pressure of wartime exigencies.⁵³⁶

After Congress passed the federal UMA in 1792, Pennsylvania enacted conforming legislation in 1793.⁵³⁷ The Act tracked the federal militia definition: free white males 18 to 45.⁵³⁸ The mandatory arms and accoutrements within the Act copied the extensive federal list.⁵³⁹

Like neighboring Delaware, Pennsylvania relaxed the peacetime requirements for young adults.⁵⁴⁰ "[A]ll young men under the age of twenty-one years, and all servants purchased bona fide and for a valuable consideration," had to enroll in the militia.⁵⁴¹ But "during such minority or servitude," they were exempt from training and from fines for not having the requisite

equipment.⁵⁴² The exception did not apply “in cases of rebellion, or an actual or threatened invasion of this or any of the neighboring states.”⁵⁴³

Pennsylvania’s final militia act of the eighteenth century was passed in 1799.⁵⁴⁴ It kept the previous act’s age limits of 18 and 45,⁵⁴⁵ as well as the peacetime exemptions.⁵⁴⁶ However, the new act explicitly allowed “sons who are not subject to the militia law may be admitted as substitutes for their fathers.”⁵⁴⁷ In other words, if a 42-year-old father were summoned into the militia, the 17-year-old son could choose to serve in his stead. The arms requirements were slightly modified, with more elaboration of accoutrements for horsemen, and making sure handgunners had “bear skin caps” for their holsters.⁵⁴⁸

H. New York: “every able bodied male person Indians and slaves excepted”

New York’s first militia act came among The Duke of York’s Laws in 1665.⁵⁴⁹ It provided that:

Every Male within this Government from Sixteen to Sixty years of age, or not freed by public Allowance, shall if freeholders at their own, if sons or Servants at their Parents and Masters Charge and Cost, be furnished from time to time and so Continue well furnished with Armes and other Suitable provition hereafter mentioned: under the penalty of five Shillings for the least default therein Namely a good Serviceable Gun, allowed Sufficent by his Military Officer to be kept in Constant fitness for present Service, with a good sword bandeleers or horne or worme a Scowerer a priming wire Shott Badge and Charger one pound of good powder, four pounds of Pistol bullets or twenty four bullets fitted to the gunne, four fathom of Serviceable Match for match lock gunn four good flints fitted for a fire lock gunn.⁵⁵⁰

Troopers had to “keepe and maintaine a good Horse Fitted with Sadle, bridle, Holsters, Pistolls or Carbine, and a good Sword.”⁵⁵¹

The act additionally provided that: “In defence of himself his wife Father or Mother Children or Servants a man may Lawfully use force to resist any attempt made to that purpose.”⁵⁵² Thus, the right of 18-to-20-year-olds to use arms in self-defense was expressly guaranteed.

A 1684 law ensured that persons exempted from the militia still kept the militia arms in their homes.⁵⁵³

In 1691, New York lowered the minimum militia age, so that “noe person whatsoever from fifteen to Sixty years of Age remaine unlisted.”⁵⁵⁴

The arms were typical of the time: For every foot soldier, “a well fixed muskett or fuzee” for officers, “a good pike or Sword or lance and pistoll.”⁵⁵⁵ At home, every foot soldier was to have “one pound of good powder and three pound of Sizeable bullets,” and every Trooper (horseman) had to “have at his usuall place of abode a well fixed Carabine with belt and Swivell and two pounds of fine powder with Six pounds of Sizeable bullets.”⁵⁵⁶

The minimum age for militia service was raised back to 16 in 1702.⁵⁵⁷ The militia arms remained unchanged.⁵⁵⁸ The 1702 act was continued in 1706,⁵⁵⁹ 1708,⁵⁶⁰ 1709,⁵⁶¹ 1710,⁵⁶² 1711,⁵⁶³ 1712,⁵⁶⁴ 1713,⁵⁶⁵ 1715,⁵⁶⁶ 1716,⁵⁶⁷ 1717,⁵⁶⁸ 1718,⁵⁶⁹ and 1720.⁵⁷⁰

A new act in 1721 applied to every “[p]erson whatsoever from Sixteen to Sixty Years of Age.”⁵⁷¹ Foot soldier equipment was nearly the same as before.⁵⁷² Many subsequent acts kept the same age limits and arms requirements. There were new acts (all which had interim continuations) in 1724,⁵⁷³ 1739,⁵⁷⁴ 1743,⁵⁷⁵ and 1744.⁵⁷⁶ The 1746 act told soldiers to appear with nine rounds of ammunition, rather than the previous minimum of six.⁵⁷⁷ The requirement was lowered back to

six in 1755.⁵⁷⁸ The age and arms requirements remained the same in the acts of 1764⁵⁷⁹ and 1772.⁵⁸⁰

On April 1, 1775, less than three weeks before the Revolutionary War would begin, New York enacted a new militia law.⁵⁸¹ This act retained the same arms requirements as its predecessors, and kept the minimum age at 16, but lowered the maximum age to 50.⁵⁸²

The 1775 law was for “every Person.”⁵⁸³ In the middle of the war, in 1778, the 1775 law was narrowed to “every able bodied male person Indians and slaves excepted.”⁵⁸⁴ The new arms requirement was “a good musket or firelock fit for service,” plus the bayonet, sixteen rounds of ammunition, and the usual accoutrements.⁵⁸⁵

In 1778, the British, “adopted terror tactics across upstate New York to divert American forces away from more southern battle fields and to inhibit American’s ability to produce food and supplies from the large war effort.”⁵⁸⁶ A statute that year established “a night watch in the counties of Ulster, Tryon, Charlotte, Dutchess, and Albany.”⁵⁸⁷ Service on the watch was required of “every able bodied male inhabitant, Indians and slaves excepted . . . from sixteen years of age till sixty.”⁵⁸⁸

A 1780 act “to raise troops for the defence of the frontiers” required “all the male inhabitants (slaves excepted) of the age of sixteen years and upwards” to provide themselves with “a good musket or firelock” plus seventeen rounds of ammunition.⁵⁸⁹

Militia acts of 1780 and 1782 retained the age limits and arms requirements of 1778.⁵⁹⁰

In 1783, New York passed “AN ACT to authorize his excellency the governor to raise troops for the defence of the frontiers.”⁵⁹¹ It included “all the male inhabitants and sojourners of the age of sixteen years and upwards . . . excepting slaves,” and ordered each of them to possess the usual equipment.⁵⁹²

In 1786, New York passed the law defining its militia.⁵⁹³ That was the definition in effect when the state ratified the Second Amendment on February 24, 1790.⁵⁹⁴ The law defined the New York militia as “every able-bodied male person, being a citizen of this state, or of any of the United States, and residing in this state (except such persons as are herein after excepted) and who are of the age of sixteen, and under the age of forty-five years.”⁵⁹⁵

The arms were “a good musket or firelock,” 24 bullets, “a sufficient bayonet” and other standard items.”⁵⁹⁶ In 1787, New York amended the 1786 law without change to ages or arms.⁵⁹⁷

Finally, in 1793 New York aligned with the federal UMA.⁵⁹⁸ The minimum age rose to 18, while the maximum remained at 45—both ages the same as for the federal militia.⁵⁹⁹ The arms requirement copied the federal statute.⁶⁰⁰

I. Rhode Island: parents and masters must furnish arms

Rhode Island established a militia in 1673, consisting of persons from 16 to 60 years old.⁶⁰¹ Each militiaman was required to “at all times hereafter have on[e] good gun or muskitt Fitt for Service one pound of good powder & thirty bullits at Least.”⁶⁰² If a son or servant had no valuable estate of his own, his parents or master would be liable for any fines imposed upon him.⁶⁰³ A 1677 revision retained the laws for ages and arms.⁶⁰⁴

A 1700 statute specified that persons subject to militia service also had to serve on watch and ward (day and night guard duty in towns).⁶⁰⁵ The Act elaborated on the arms requirements, mandating that each militiaman appear with a “Good & Sufficent muskett or Fuze a Sword or

⁶⁰² *Id.*

⁶⁰³ *Id.*

⁶⁰⁴ *Id.* at 25.

⁶⁰⁵ *Id.* at 48. The statute was miswritten: “all persons wthn this Colony Above ye Age of Sixteen Years & Under ye Age of Sixteen Yeares as well housekeepers as others Shall be Obliged to watch or ward.” Read literally, no one was required for perform watch and ward, since no one can be “Above” and “Under” the “Age of Sixteen Years.” Presumably the intended and understood upper age limit remained 60.

Bayonet, Catooch box or Banelers wth twelve Bulets fit for his Piece half a Pound of Powder & Six good Flints.”⁶⁰⁶

A 1718 law provided that “all male Persons . . . from the Age of Sixteen, to the Age of Sixty Years, shall bear Arms.”⁶⁰⁷ Arms were “one good Musket, or Fuzee, the Barrel whereof not to be less than three foot and an half in length,” plus a sword or bayonet, a pound of gunpowder, thirty bullets, six flints, and a cartridge box.⁶⁰⁸

The next act appeared in 1755, at the beginning of the French & Indian War.⁶⁰⁹ It did not revise ages or arms.⁶¹⁰ An addition in 1756 made the parents of militiamen under 21 liable for unpaid fines for neglect of duty.⁶¹¹ A 1774 amendment left arms and ages unchanged.⁶¹²

Rhode Island created a state army in 1776, a regiment to serve for three months.⁶¹³ The Rhode Island army was to be “composed of six Men as Soldiers of every Hundred of the male Inhabitants of Sixteen Years of Age, and upwards.”⁶¹⁴ As the quota indicates, at least some of the soldiers were to be raised by conscription, with each town to supply a quota if there were not sufficient volunteers. The soldiers of this regiment had the option of having the town provide their arms, or an enlistment bonus was available for soldiers who furnished their own arms.⁶¹⁵

This policy of soldiers providing their own arms was typical during the Revolution.⁶¹⁶ The Continental Army generally refused volunteers who could not supply their own arms.⁶¹⁷ State armies sometimes accepted unarmed volunteers, while offering bonuses to recruits with their own arms.⁶¹⁸

A new militia law was enacted in 1779.⁶¹⁹ The new law would be Rhode Island’s militia act when it ratified the Second Amendment on June 7, 1790.⁶²⁰ The lower age limit remained at 16, but the upper age limit dropped to 50.⁶²¹ “[E]ach and every effective Man as aforesaid [had to] provide, and at all times be furnished, at his own Expence (excepting such Persons as the Town-Councils of the Towns in which they respectively dwell or reside shall adjudge unable to purchase the same) with one good Musquet, and a Bayonet fitted thereto, with a Sheath and Belt, or Strap, for the same, one Ram-rod, Worm, Priming-wire and Brush, and one Cartouch-Box.”⁶²²

Then in 1781 Rhode Island passed a law to raise a militia force of 1,200 men, with the statutory guarantee that the term of service would be only one month, and they were “not to be marched out of” the state.⁶²³ The number of men each county raised depended on the number of militia-aged men (16 to 50) within that county.⁶²⁴ “[E]ach of the non-commissioned Officers and Soldiers” had to “furnish himself with a good Musket, Bayonet, Cartouch-Box, Knapsack, and Blanket.”⁶²⁵ Later that year, a similar law aimed to raise another 500 “able-bodied effective Men.”⁶²⁶ Again, the number of required recruits per county was based on the number of militia-aged men within the county.⁶²⁷ Arms were the same as before, except that “a good Fire-Arm,” was sufficient, rather than only a musket.⁶²⁸

Following the 1792 federal UMA, a 1794 law adopted the federal ages and arms.⁶²⁹ More militia laws were passed in 1795, 1796, 1798, and 1799, none of them altering ages or arms.⁶³⁰

J. Vermont: “the freemen of this Commonwealth, and their sons”

Vermont declared its independence from the competing claims of New York and New Hampshire in January 1777.⁶³¹ A constitution was adopted in July.⁶³² Because New York and New Hampshire still claimed Vermont, Vermont was rebuffed from its attempt to send delegates to Congress. So, starting in 1777, it operated as something of an independent republic. Vermont had its own currency and postal service, and exchanged ambassadors with France and the Netherlands.⁶³³ In 1791, Vermont applied to join the Union, and was admitted.⁶³⁴

The 1777 Vermont Constitution drew on Pennsylvania’s 1776 Constitution, which was the first state constitution adopted after the Declaration of Independence.⁶³⁵ Vermont copied

Pennsylvania's right to hunt: "that the inhabitants of this State, shall have liberty to hunt and fowl, in seasonable times, on the lands they hold, and on other lands (not enclosed)."⁶³⁶

Vermont's Declaration of Rights included human rights language, based on models from Pennsylvania, Massachusetts, and Virginia, that would, with variations in wording, become ubiquitous in American state constitutions:

That all men are born equally free and independent, and have certain natural, inherent and unalienable rights, amongst which are the enjoying and defending life and liberty; acquiring, possessing and protecting property, and pursuing and obtaining happiness and safety.⁶³⁷

and

That every member of society hath a right to be protected in the enjoyment of life, liberty and property, and therefore, is bound to contribute his proportion towards the expense of that protection, and yield his personal service, when necessary, or an equivalent thereto.⁶³⁸

This language is irreconcilable with a law that requires a person to contribute his personal service but deprives that person of the right to protect his own life.

The Constitution further provided "[t]hat the people have a right to bear arms for the defence of themselves and the State."⁶³⁹ This language is irreconcilable with a law that requires a person to bear arms for the defense of the state but would prohibit that person from bearing arms for defense of himself.

The Vermont Constitution's Declaration of Rights was separate from the Plan or Frame of Government.⁶⁴⁰ The latter provided that "[t]he freemen of this Commonwealth, and their sons, shall be trained and armed for its defence, under such regulations, restrictions and exceptions, as the General Assembly shall, by law, direct."⁶⁴¹

In 1779, Vermont enacted a statute "for forming and regulating the militia; and for encouragement of military skill, for the better defence of this state."⁶⁴² It provided that "all male persons, from sixteen years of age to fifty, shall bear arms."⁶⁴³ The arms mandate was not militia-only; it applied to "every listed soldier and other householder."⁶⁴⁴

The firearm could be "a well fixed firelock, the barrel not less than three feet and a half long, or other good fire-arms."⁶⁴⁵ The edged arm was to be "a good sword, cutlass, tomahawk or

⁶⁴⁵ *Id.*

bayonet.”⁶⁴⁶ For cleaning, a soldier or “other householder” needed “a worm, and priming-wire, fit for each gun.” Suitable ammunition storage for a soldier could be with “a cartouch box, or powder-horn and bullet-pouch.”⁶⁴⁷ Adequate supplies were at least a pound of gun powder, four pounds of bullets, “and six good flints.”⁶⁴⁸

Militia regulations were changed twice in 1780, and again in 1781,⁶⁴⁹ but the age limits and arms requirements were not impacted.⁶⁵⁰

In 1786, Vermont wrote a new constitution.⁶⁵¹ The convention entertained and rejected a proposal to change the 1777 language of “a right to bear arms for the defence of themselves and the State” into “a right to bear arms for the defence of the community.”⁶⁵²

The same year, a new militia act kept the minimum militia age at 16, but lowered the maximum age to 45.⁶⁵³ The gun mandate was changed to “a good musket or firelock.”⁶⁵⁴ The bayonet was now mandatory.⁶⁵⁵ The new law made separate provisions for horsemen; each dragoon had to provide “a case of good pistols, a sword or cutlass not less than three and one half feet in length,” plus a pound of gunpowder, “three pounds of sizeable bullets,” and eight flints.⁶⁵⁶ Since horsemen would have at least two guns (the pair of handguns) they needed a bigger supply of flints.⁶⁵⁷

Ages and arms were kept the same in the 1787 militia act.⁶⁵⁸ This was the act in effect when Vermont ratified the Second Amendment on November 3, 1791.⁶⁵⁹

In 1793, Vermont revised its constitution again and also passed a militia act in response to the federal UMA. Vermont’s 1793 constitution kept the same arms guarantees as before.⁶⁶⁰ The new militia act repealed all previous militia laws.⁶⁶¹ The new law applied to “each and every free, able-bodied white male citizen . . . who is, or shall be of the age of sixteen years, and under the age of forty-five.”⁶⁶² Like New Hampshire, Vermont diverged from the federal act by keeping a minimum militia age of sixteen.⁶⁶³

Every non-commissioned officer and private had to “constantly keep himself provided with a good musket, with an iron or steel rod, a sufficient bayonet and belt, two spare flints, a priming wire and brush, and a knapsack ; a cartridge box and pouch, with a box therein, sufficient to contain

not less than twenty-four cartridges suited to the bore of his musket.”⁶⁶⁴ Horsemen were required to provide themselves with “a pair of pistols, and sabre, and cartridgebox to contain twelve cartridges for pistols.”⁶⁶⁵ Cavalry officers needed “a pair of pistols, and sword.”⁶⁶⁶

K. Virginia: “ALL men that are fittinge to beare armes, shall bringe their peices to the church”

Virginia enacted a myriad of laws in the seventeenth century regarding firearms ownership, many of which allowed or required 18-to-20-year-olds to bear arms. It was not until 1639 that Virginia enacted a statute expressly requiring arms ownership.⁶⁶⁷ Previous statutes simply assumed that everyone already did possess arms, and thus ordered arms-carrying when traveling, going to church, or working in the fields. The church mandate reflected the general risks of travel, and the more specific risk that when a large number of people are densely gathered indoors, they are easy targets for hostiles intent on mass killing.

- 1623: “That no man go or send abroad without a sufficient partie will armed.”⁶⁶⁸
- 1624: “That men go not to worke in the ground without their arms (and a centinell upon them).”⁶⁶⁹

⁶⁶⁷ 1 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 226 (1809).

⁶⁶⁸ *Id.* at 127.

The above dates are listed by the New Style year, whose new year begins on January 1. Until 1752, Englishmen used the Old Style calendar, whose new year begins on March 25. Thus, the above enactment in March is 1624 to the modern reader but was considered 1623 by Virginians of the time.

⁶⁶⁹ *Id.*

⁶⁷⁰ *Id.*

⁶⁷¹ *Id.* at 173.

⁶⁷² *Id.*

⁶⁷³ *Id.*

- 1632: “NOE man shall goe to worke in the grounds without theire armes, and a centinell upon them places where the commander shall require it”⁶⁷⁴
- 1632: “ALL men that are fittige to beare armes, shall bringe their peices to the church”⁶⁷⁵
- 1639: “ALL persons except negroes to be provided with arms and ammunion or be fined at pleasure of the Governor and Council”⁶⁷⁶
- 1643: “masters of every family shall bring with them to church on Sundays one fixed and serviceable gun with sufficient powder and shott”⁶⁷⁷
- 1645: “all negro men and women, and all other men from the age of 16 to 60” could be drafted to carry on war against the Indians.⁶⁷⁸ This indicates that persons over 16 were considered capable of bearing arms.
- 1659: “That every man able to beare armes have in his house a fixt gunn two pounds of powder and eight pound of shott at least”⁶⁷⁹
- 1662: “that every man able to beare armes have in his house a fixed gun, two pound of powder and eight pound of shot at least”⁶⁸⁰
- 1676: “that in goeing to churches and courts in those tymes of danger, all people be enjoyned and required to goe armed for their greate security”⁶⁸¹

Also in 1676, Virginia enacted a law “for the safeguard and defence of the country against the Indians.”⁶⁸² The number of militiamen to be supplied by the counties was based on “the number of tytheables of each county.”⁶⁸³ Persons over 16 were considered titheable (required to pay a tax), thus indicating that the minimum age for the militia was 16.⁶⁸⁴

Laws in 1676 expressly authorized persons to carry arms anywhere, but not in large groups. After a short-lived rebellion involving crowds of armed men, the legislature prohibited armed gatherings of more than five people:

whereas by a branch of an act of assembly made in March last, liberty is granted to all persons to carry their armes wheresoever they goe, which liberty hath beene

⁶⁸⁰ 2 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 126 (1823).

⁶⁸¹ *Id.* at 333.

⁶⁸² *Id.* at 326.

⁶⁸³ *Id.* at 350.

⁶⁸⁴ *Id.* at 84 (defining what persons are tithable).

found to be very prejudicial to the peace and wellfaire of this colony. Bee it therefore further enacted by this present grand assembly, and the authority thereof, and it is hereby enacted, that if any person or persons shall, from and after publication of this act, presume to assemble together in armes to the number of five or upwards without being legally called together in armes the number of five or upwards, they be held deemed and adjudged as riotous and mutinous, and that they be proceeded against and punished accordingly.⁶⁸⁵

Acts passed in 1679⁶⁸⁶ and 1682⁶⁸⁷ made no changes to the ages or arms requirements of militiamen. In 1684, arms requirements were made more specific, and separate standards were enacted for mounted militiamen:⁶⁸⁸

every trooper of the respective colonies of this country, shall furnish and supply himself with a good able horse, saddle, and all arms and furniture, fitt and compleat for a trooper, and that every foot soldier, shall furnish himselfe, with a sword, musquet and other furniture fitt for a soldier, and that each trooper and foot soldier, be provided with two pounds of powder, and eight pounds of shott, and shall continually keep their armes well fixt, cleane, and fitt for the king's service.⁶⁸⁹

These more specific arms requirements were complemented by another law establishing troops of horsemen.⁶⁹⁰ Horsemen's arms requirements were now more detailed, requiring three guns: "a case of pistolls, a carbine, sword and all other furniture usuall and necessary for horse souldiers or troopers."⁶⁹¹

Militia-related acts were passed in 1692,⁶⁹² 1693,⁶⁹³ 1695,⁶⁹⁴ and 1699,⁶⁹⁵ but none of them addressed age limits or arms requirements.

In 1701, "An act for the better strengthening the frontiers and discovering the approaches of an enemy" was passed.⁶⁹⁶ It provided 500-acre land grants, with the proviso that the grantee keep "upon the said land one christian man between sixteen and sixty years of age perfect of limb, able and fitt for service."⁶⁹⁷ Such men should be "continually provided with a well fixt musquett or fuzee, a good pistoll, sharp simeter, tomahauk and five pounds of good clean pistoll powder and

⁶⁸⁵ *Id.* at 381. The precipitating event was Bacon's Rebellion, a short-lived uprising of frontiersman who marched on the capital because they were disgruntled with the colonial government's failure to protect them from Indians. *See* JAMES D. twenty pounds of sizable leaden bullets or swan or goose shott to be kept within the fort directed by this act besides the powder and shott for his necessary or usefull shooting at game...”⁶⁹⁸ In other words, the frontier guardians would keep at home small quantities of gunpowder for ordinary use, but their larger reserves of gunpowder would be kept in a fort. The gunpowder of the time was blackpowder, which is volatile, so large quantities often were centrally stored, ideally in reinforced brick buildings.⁶⁹⁹

Virginia’s first elaborate militia act was passed in 1705.⁷⁰⁰ The militia included “all male persons whatsoever, from sixteen to sixty years of age . . . to serve in horse or foot.”⁷⁰¹ An infantryman needed “a firelock, muskett or fusee well fixed, a good sword,” cartridge box, and ammunition.⁷⁰² He had to bring six rounds of ammunition to muster. Additionally, he had to “have at his place of abode two pounds of powder and eight pounds of shott, and bring the same into the field with him when thereunto specially required.”⁷⁰³

A horseman needed the usual tack and ammunition accoutrements along with a pair of pistols and a sword.⁷⁰⁴ He had to bring eight rounds of ammunition to muster.⁷⁰⁵ At his usual place of abode, he also had to keep a well fixed carabine, two pounds of powder and eight pounds of shot.⁷⁰⁶

The act made it unlawful for creditors to seize a militiaman’s arms as payment for debts.⁷⁰⁷ If a creditor nevertheless took someone’s militia equipment, the seizure would “be unlawful and void.”⁷⁰⁸ Any “officer or person that presumes to make or serve the same” (e.g., a sheriff serving a writ of attachment) would “be lyable to the suit of the party grieved, wherein double damages shall be given upon recovery.”⁷⁰⁹ Later in the century, the federal UMA would likewise make militia equipment immune from seizure for debts.⁷¹⁰

Subsequent Virginia acts of 1705⁷¹¹ and 1711⁷¹² kept the age and arms rules. A 1720 act appropriated one thousand pounds to distribute “to each christian titheable [subject to taxation], one firelock, musket, one socket,⁷¹³ bayonet fitted thereto, one cartouch box, eight pounds bullet, two pounds powder, until the whole one thousand pounds be laid out.”⁷¹⁴

⁷⁰⁹ *Id.*

⁷¹⁰ 1 Stat. 271, § 1 (1792) (“And every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements, required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales, for debt or for the payment of taxes.”).

⁷¹¹ 3 HENING, *supra* note 688, at 362.

⁷¹² 4 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 9 (1823).

⁷¹³ Located near the muzzle of a gun, the socket was used to attach the bayonet to the gun, so that the gun could be used as a pole-arm at close quarters. J.N. GEORGE, ENGLISH GUNS AND RIFLES 80-81 (1947).

⁷¹⁴ 4 HENING, *supra* note 712, at 77-78.

A 1723 act made “the colonel, or chief officer of the militia of every county, have full power and authority to list all free male persons whatsoever, from twenty-one to sixty years of age, within his respective county, to serve in horse or foot.”⁷¹⁵ However, “nothing in this act contained, shall hinder or debar any captain from admitting any able-bodied white person, who shall be above the age of sixteen years, to serve in his troop or company, in the place of any person required by this act to be listed.”⁷¹⁶ In other words, 16-20-year-olds could be hired or could volunteer as substitutes for older men.

The arms requirements were elaborate. For horsemen, a good serviceable horse, tack accoutrements, “holsters, and a case of pistols, cutting sword, or cutlance, and double cartouch box.”⁷¹⁷ At home, they had to keep a carbine, plus “one pound of powder, and four pounds of shot.”⁷¹⁸

Infantry needed “a firelock, musquet, or fuzee, well fixed, and bayonet fitted to such musquet or fuzee, or a good cutting sword or cutlance,” along with the cartridge box.⁷¹⁹ Reserves to be kept at home were the same powder and shot as for horsemen.⁷²⁰

Again, militiamen’s arms were immune from creditors.⁷²¹

Acts passed in 1727,⁷²² 1732,⁷²³ and 1734⁷²⁴ made no changes to the militia ages or arms.

Virginia’s 1738 act “for the settling and better Regulation of the Militia,”⁷²⁵ appears to be the only militia act in the colonial or founding era that excluded persons aged 18-to-20. The militia under this act consisted of “all male persons, above the age of one and twenty years.”⁷²⁶

With the French & Indian War underway, Virginia passed several militia-related acts in 1757. The first act augmented the already-existing forces in the field by allowing officers to add certain men between 18 and 50.⁷²⁷ Reflecting a still greater need for additional forces, Virginia’s 1757 militia act restored the minimum age to 18 and set the maximum age at 60.⁷²⁸ Soldiers had to

⁷²⁸ *Id.* at 93.

furnish themselves with “a firelock well fixed, a bayonet fitted to the same,” and keep an extra pound of powder and “four pounds of ball” at home.⁷²⁹

Three other acts were passed in 1757; the first preventing mutiny and desertion,⁷³⁰ the second preventing invasions and insurrections,⁷³¹ and the third protecting against Indian attacks.⁷³² None addressed militia ages.

Acts passed in 1758⁷³³ and 1759⁷³⁴ made no changes to the militia’s age limits or arms requirements.

Like other colonies, Virginia had various exemptions from militia duty. A 1762 amendment ensured that “every person so exempted shall always keep in his house or place of abode such arms, accoutrements, and ammunition, as are by the [1757] act required to be kept by the militia.”⁷³⁵ The 1757 act was continued in 1771.⁷³⁶

The American Revolution began on April 19, 1775, when armed Americans resisted British attempts to seize firearms and gunpowder at Lexington and Concord, Massachusetts. In Virginia, A Convention of Delegates for the Counties and Corporations in the Colony of Virginia was held in the summer of 1775. The first enactment of the Convention was “An ordinance for raising and embodying a sufficient force, for the defence and protection of this colony.”⁷³⁷ The ordinance established militia age limits of 16 and 50.⁷³⁸ Every militiaman had to “furnish himself with a good rifle, if to be had, or otherwise with a tomahawk, common firelock, bayonet, pouch, or cartouch box, three charges of powder and ball, and appear with the same at the place appointed for mustering, and shall constantly keep by him one pound of powder and four pounds of ball.”⁷³⁹

In 1777, Virginia passed its first militia act as a state, with Patrick Henry as governor.⁷⁴⁰ “An Act for regulating and disciplining the Militia” applied to “all free male persons, hired servants [not indentured], and apprentices, between the ages of sixteen and fifty years.”⁷⁴¹ “The county lieutenant, colonels, lieutenant colonels, and major” had to appear “with a sword.”⁷⁴² Every

⁷³⁶ 8 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 503 (1823).

⁷³⁷ 9 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 9 (1823). According to the statutory compiler, “In the original, the title of this ordinance is wanting; nor are any of the chapters numbered. The title is here inserted from the Chancellors’ Revisal, edi 1785, p. 30, and the late edition of the Ordinances of 1816, p. 29.” *Id.*

⁷³⁸ *Id.* at 16.

⁷³⁹ *Id.* at 28. A militia ordinance passed at the Convention held the following year did not change the militia ages. *Id.* at 139. Nor did an act passed in October of 1776. *Id.* at 267.

A report from July 28, 1775, mentioned a British major who was killed in action, and had four balls lodged in his body. “The Americans load their rifle-barrel guns with a ball slit almost in four quarters, which when fired out of those guns breaks into four pieces and generally does great execution.” Alexander Purdie, VA. GAZETTE (Oct. 20, 1775), <http://research.history.org/DigitalLibrary/va-gazettes/VGSinglePage.cfm?IssueIDNo=75.P.74>.

⁷⁴⁰ 9 HENNING, *supra* note 737, at 267.

⁷⁴¹ *Id.* This act was amended in 1781, but the amendment did not change the required arms or ages. 10 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 416 (1823).

⁷⁴² 9 HENING, *supra* note 737, at 268.

captain and lieutenant needed a “firelock and bayonet, a cartouch box, a sword, and three charges of powder and ball.”⁷⁴³ Ensigns needed a sword.⁷⁴⁴ Non-commissioned officers and privates had to have

a rifle and tomahawk, or good fire-lock and bayonet, with a pouch and horn, or a cartouch or cartridge box, and with three charges of powder and ball; and, moreover, each of the said officers and soldiers shall constantly keep one pound of powder and four pounds of ball, to be produced whenever called for by his commanding officer.⁷⁴⁵

Virginia also passed an act in 1777 to raise troops for the Continental Army.⁷⁴⁶ “[A]ble bodied young men above the age of sixteen years” were eligible for enlistment.⁷⁴⁷

Another 1777 act required “all free born male inhabitants of this state, above the age of sixteen years” to “renounce and refuse all allegiance to George the third” and swear to “be faithful and bear true allegiance to the commonwealth of Virginia, as a free and independent state.”⁷⁴⁸ Because 16-year-olds were old enough to fight, they were old enough to decide whether their loyalty lay with the king or the commonwealth.

Another statewide law in 1777 left arms and ages unchanged.⁷⁴⁹

The militia laws had educational exemptions, but these were tightened in May 1777, by “An act for regulating and disciplining the militia of the city of Williamsburg and borough of Norfolk.”⁷⁵⁰ Its purpose was “FOR forming the citizens of Williamsburg, borough of Norfolk, and the professors and students of William and Mary college, into a militia.” The William & Mary militia included “all male persons between the ages of sixteen and fifty years.”⁷⁵¹

Later that year, an October 1777 “Act for speedily recruiting the Virginia Regiments on the continental establishment and for raising additional troops of Volunteers” called for drafting single men above eighteen and with no children for the Continental Army.⁷⁵²

Virginia passed many militia laws in 1778, but none of these changed the militia ages or arms.⁷⁵³ Nor did the militia-related acts passed in 1779.⁷⁵⁴

Three acts regarding the militia were passed in 1781. The first was “to raise two legions for the defence of the state.”⁷⁵⁵ Neither this act, nor its amendment added that same year, altered the arms or ages of militiamen.⁷⁵⁶

⁷⁵⁴ 10 HENING, *supra* note 741, at 18, 23, 28, 32, 83. One act, entitled “An Act for raising a body of Volunteers for the defence of the commonwealth,” allowed two battalions responsible for protecting the western frontiers to furnish themselves “with such clothing, arms, and accoutrements, as are most proper for that service.” *Id.* at 20.

⁷⁵⁵ *Id.* at 391.

⁷⁵⁶ *Id.* at 410.

The second 1781 act was “for ascertaining the number of militia in this state.”⁷⁵⁷ It ordered “captains or commanding officers of the respective companies in their several counties,” to make “an exact list of each company, distinguishing all such as are under eighteen years of age.”⁷⁵⁸

The third 1781 act was “for enlisting soldiers to serve in the continental army.”⁷⁵⁹ It made no mention of arms or ages, but it did require that a Continental soldier be at least “five feet four inches tall.”⁷⁶⁰

A 1782 act added some equipment detail for cavalry: “horseman’s sword and cap, one pistol, and a pair of holsters.”⁷⁶¹

In 1784, Virginia increased its militia’s minimum age to 18, and kept the maximum age at 50.⁷⁶² Militiamen were required to appear “armed, equipped, and accoutred” according to rank.⁷⁶³ “The county lieutenants, lieutenant colonels commandant, and majors, with a sword; the captains, lieutenants, and ensigns, with a sword and esponton.”⁷⁶⁴ Noncommissioned officers and privates needed to supply themselves “with a good clean musket, carrying an ounce ball,⁷⁶⁵ and three feet eight inches long in the barrel, with a good bayonet and iron ramrod well fitted thereto.”⁷⁶⁶ Plus also “a cartridge box properly made, to contain and secure twenty cartridges” and “a good knapsack and canteen.”⁷⁶⁷

Previously, militiamen had simply been told to keep an extra pound of powder and four pounds of lead at home, and to bring it with them if they were called into action. Now, to prove that they possessed such quantities, they had to bring to “every muster . . . twenty blind cartridges.”⁷⁶⁸ Further “each sergeant shall have a pair of moulds fit [to] cast balls for their respective companies.”⁷⁶⁹

Finally, “the militia of the counties westward of the Blue Ridge, and the counties below adjoining thereto,” could forego the muskets, and instead choose “good rifles with proper accoutrements.”⁷⁷⁰

The following year, Virginia passed the act⁷⁷¹ that defined its militia when it ratified the Second Amendment on December 15, 1791,⁷⁷² making the Amendment part of the Constitution. Virginia ratified nine other amendments on the same day, enshrining them in the Constitution, and making December 15 the birthday of the Bill of Rights.⁷⁷³

⁷⁷¹ 12 WILLIAM WALLER HENING, THE STATUTES AT LARGE: BEING A COLLECTION OF ALL THE LAWS OF VIRGINIA, FROM THE FIRST SESSION OF THE LEGISLATURE, IN THE YEAR 1619, at 9 (1823). This act was amended in 1786, but it did not impact the age limits or arms requirements. *Id.* at 234.

⁷⁷² JOURNAL OF THE FIRST SESSION OF THE SENATE OF THE UNITED STATES OF AMERICA, *supra* note 659, at 361.

⁷⁷³ U.S. CONST. amends. I-X.

The 1785 Virginia act included in the general militia “all free male persons between the ages of eighteen and fifty years.”⁷⁷⁴ Some young men would get extra training in a

light company to be formed of young men, from eighteen to twenty-five years old, whose activity and domestic circumstances will admit of a frequency of training, and strictness of discipline, not practical for the militia in general, and returning to the main body, on their arrival at the latter period, will be constantly giving thereto a military pride and experience, from which the best of consequences will result.⁷⁷⁵

These light companies were “in all respects [] subject to the same regulations and orders as the rest of the militia.”⁷⁷⁶ For all the militia, the requisite arms were the same as before.⁷⁷⁷

On December 22, 1792, Virginia passed a new militia law in response to the federal Uniform Militia Act, to “carry the same into effect.”⁷⁷⁸ The act provided for the continuation of the same “light company” “of young men from eighteen to twenty-five years age” that had been established in Virginia’s previous militia act.⁷⁷⁹ The 1792 Virginia law made no changes in the age limits. A 1799 amendment did not address ages or arms.⁷⁸⁰

L. Massachusetts Bay: “from ten yeares ould to the age of sixsteen yeares”

Virginia’s ratification of the Second Amendment and of nine other Amendments made the Bill of Rights the supreme law of the land, effective December 15, 1791.⁷⁸¹ The three states that had not yet acted—Massachusetts, Georgia, and Connecticut—therefore had no reason to take up the issue. Yet in all three of these states, ratification of the Second Amendment and the rest of the Bill of Rights was placed on the legislative agenda in early 1939. These 1939 ratifications were apparently enacted to make a statement at a time when right-wing fascists (e.g., Mussolini, Hitler, Franco), and left-wing fascists (e.g., Stalin, Mao) were wantonly murdering disarmed victims. The first state to ratify in 1939 was Massachusetts, on March 2.⁷⁸²

In the colonial period and Founding Era, the Bay State had especially strong laws for mass armament. In 1631, Massachusetts Bay enacted a law mandating that all adult males be armed.⁷⁸³

⁷⁸⁰ 2 THE STATUTES AT LARGE OF VIRGINIA: FROM OCTOBER SESSION 1792, TO DECEMBER SESSION 1806 [I.E. 1807], INCLUSIVE, IN THREE VOLUMES, (NEW SERIES,) BEING A CONTINUATION OF HENING 141 (1835).

⁷⁸¹ U.S. CONST. amends. I-X.

⁷⁸² JOURNAL OF THE SENATE OF THE COMMONWEALTH OF MASSACHUSETTS 369 (1939). For the essential similarity of the totalitarian “fascist,” “communist,” or “national socialist” regimes, *see, e.g.*, Arthur M. Schlesinger, Jr., *The Vital Center: The Politics of Freedom* (1949).

⁷⁸³ KYLE F. ZELNE, *A RABBLE IN ARMS: MASSACHUSETTS TOWNS AND MILITIAMEN DURING KING PHILIP’S WAR 28* (2009).

A 1637 statute required everyone 18 and older to “come to the publike assemblies with their muskets, or other peeces fit for servise, furnished with match, powder, & bullets.”⁷⁸⁴

Young people of both sexes were expected to be proficient with arms. A 1645 statute mandated that “all youth within this jurisdiction, from ten yeares ould to the age of sixteen yeares, shalbe instructed, by some one of the officers of the band,⁷⁸⁵ or some other experienced souldier...upon the usuall training dayes, in the exercise of armes, as small guns, halfe pikes, bowes & arrows.”⁷⁸⁶ There was an exemption for conscientious objectors; youths would not have to train “against their parents minds.”⁷⁸⁷

In the 1770 Boston Massacre, British soldiers fired on a crowd that was pelting them with stones and ice balls. John Adams served as defense attorney.⁷⁸⁸ Both sides agreed that the soldiers and the crowd each had the right to carry arms for self-defense. “The court’s charge to the jury asserted the traditional duty of private persons to respond to the hue and cry and to carry arms: ‘It is the duty of all persons (except women, decrepit persons, and infants under fifteen) to aid and assist the peace officers to suppress riots & c. when called upon to do it. They may take with them such weapons as are necessary to enable them effectually to do it.’”⁷⁸⁹

As political tensions mounted, the British tried to suppress political meetings. They could not do so, for the Redcoats were far outnumbered by armed Americans, including teenagers. When British General sent two companies of Redcoats to dissolve an illegal town meeting in Salem, soldiers backed down when swarms of armed patriots began to appear.⁷⁹⁰ Gage’s aide John Andrews wrote:

there was upwards of three thousand men assembled there from the adjacent towns, with full determination to rescue the Committee if they should be sent to prison, even if they were Oblig’d to repel force by force, being sufficiently provided for such a purpose; as indeed they are all through the country—every male above the age of 16 possessing a firelock with double the quantity of powder and ball enjoin’d by law.⁷⁹¹

At the time Massachusetts ratified the Constitution on February 6, 1788, its militia laws provided for “the train-band to contain all able-bodied men, from sixteen to forty years of age, and the alarm-list all other men under fifty years of age.”⁷⁹²

Every militiaman “not under the control of parents, masters or guardians, and being of sufficient ability therefore in the judgment of the selectmen of the town in which he shall dwell,”

had to “equip himself, and be constantly provided with a good fire-arm,” plus a ramrod, cleaning tools, a bayonet and scabbard, a cartridge box to hold “fifteen cartridges at least,” plus six flints, one pound of powder, forty leaden balls suitable for this firearm, a haversack, blanket, and canteen.”⁷⁹³ Officers and cavalymen had to provide themselves with horses plus associated equipment, and a carbine (a shorter, lighter-weight long gun, well-suited for use while mounted).⁷⁹⁴

Militiamen who failed to equip themselves with the required arms could be fined.⁷⁹⁵

Regarding militiamen who *were* “under the control of parents, masters or guardians,” the parent, master, or guardian was responsible for providing the equipment, and could be fined for failure to do so.⁷⁹⁶ Both servants and young people who were living at home were, presumably, not yet earning enough income to live independently, so they might not be able to afford their own arms.

For older militiamen who were genuinely unable to afford arms, the town would be responsible for providing them.⁷⁹⁷ The donated arms remained town property and could not be sold by the militiaman.⁷⁹⁸

M. Plymouth Colony: “each man servant”

By 1939, Plymouth had long ceased to exist as an independent political entity. Even in the early days, it had been overshadowed by its larger and culturally similar neighbor, the Massachusetts Bay Colony. In 1691, Plymouth chose assimilation with Massachusetts; it was a defensive measure, since New York was trying to annex Plymouth.⁷⁹⁹ So we cover Plymouth Colony in order with Massachusetts Bay.

Plymouth’s first written arms mandate came in 1632.⁸⁰⁰ “[E]very freeman or other inhabitant must provide for himselfe and each under him able to beare arms a musket and other serviceable peece with bandeleroes and other apurtanances,” plus two pounds of powder and 10 pounds of bullets.⁸⁰¹ This was reenacted in 1636, specifying that it included “each man servant.”⁸⁰² As in Massachusetts, the master had to provide the arms for the servants, many of whom presumably could not afford their own.⁸⁰³

A 1643 update revised the required firearms.⁸⁰⁴ A comprehensive recodification in 1671 specified that the militia is “every man from the age sixteen and upwards.”⁸⁰⁵ It also required smiths to repair arms and to charge the same rates they charged for other work.⁸⁰⁶ In 1676, old-

⁸⁰⁶ *Id.* at 286.

fashioned matchlocks (ignited by burning cord) were no longer acceptable for the militia; the gun had to be a flintlock or a snaphaunce (ignited by a spark from flint striking steel).⁸⁰⁷ A 1681 revision added the requirement to possess a sword or cutlass.⁸⁰⁸

Like the other colonies, Plymouth had many indentured servants. After their term of service was completed, they became legally free. The age of attaining freedom would vary of course, but it could include people in their late teens or early twenties. Former male servants, or other male single persons, could not set up their own households unless they possessed the requisite arms and ammunition.⁸⁰⁹ If they did not, they had to work for someone who would buy the arms and ammunition for them.⁸¹⁰

N. Georgia: No going to church without arms

Georgia did not get around to ratifying the Second Amendment until March 18, 1939.⁸¹¹ It was only three days after Hitler had invaded Czechoslovakia. As was the typical Nazi practice, one of the first acts of the dictatorship was to confiscate arms from the new subjects.⁸¹²

In 1791, when the Second Amendment became part of the Constitution, Georgia required males between 16 and 50 to serve in the militia and provide their own arms.⁸¹³ The arms requirement was “one rifle musket, fowling-piece or fusee fit for action, with a cartridge box or powder-horn answerable for that purpose with six cartridges or powder and lead equal thereto and three flints.”⁸¹⁴

A 1770 Georgia law, copied from South Carolina, imposed fines on those in the militia who came to church unarmed.⁸¹⁵

⁸⁰⁷ *Id.* at 184.

⁸⁰⁸ *Id.* at 192.

⁸⁰⁹ *Id.* at 35.

⁸¹⁰ *Id.* On top of the individual requirement to possess arms, towns had to have their own: two flintlocks and two swords per 30 men. *Id.* at 84. These could be available as a reserve in case of breakage during war; they could also be furnished to persons who could not afford their own.

⁸¹¹ ACTS AND RESOLUTIONS OF THE GENERAL ASSEMBLY OF THE STATE OF GEORGIA 1414 (1939).

⁸¹² *See, e.g.*, THE TIMES (London), Mar. 16, 1939, at 16b.

Immediately a proclamation, bordered in red and bearing the German eagle and swastika which is now familiar to every Czech town and village, was posted...Under this proclamation no one was allowed in the streets after 8 p.m. . . .; all popular gatherings were forbidden; and weapons, munitions, and wireless sets were ordered to be surrendered immediately. Disobedience of these orders, the proclamation ended, would be severely punished under military law.

⁸¹⁴ *Id.* at 353.

⁸¹⁵ 19 (pt. 1), *id.* at 137-40. Georgia continued to mandate the carrying of arms in non-militia contexts in the nineteenth century. An 1806 law required “All male white inhabitants . . . from the age of eighteen to forty-five years . . . to appear and work upon the several roads, creeks, causeways, water-passages, and bridges” and to “carry with him one good and sufficient gun or pair of pistols, and at least nine cartridges to fit the same, or twelve loads of powder and ball, or buck shot.” OLIVER H. PRINCE, DIGEST OF THE LAWS OF THE STATE OF GEORGIA 407, 409 (1822), <https://books.google.com/books?id=9tUtYuEuWC0C&pg=PA339&dq=georgia+1786+laws&hl=en&sa=X&ved=0ahUKewjj9Ym0nafeAhVhpoMKHaLIC0IQ6AEIRzAF#v=onepage&q=%22gun%22&f=false>.

O. Connecticut: “all persons shall beare Armes that are above the age sixteene yeeres”

The Nutmeg State was also slow in its Second Amendment ratification, finally acting on April 19, 1939.⁸¹⁶ The date was the anniversary of the battles of Lexington and Concord, when the American Revolution had begun in 1775.⁸¹⁷ On that date, American militia and irregulars had repulsed British efforts to confiscate arms. But 164 years later, totalitarianism was on the march. Italian tyrant Mussolini had invaded Albania on Good Friday, April 7, 1939, and conquered the small nation in a few days.⁸¹⁸

When Connecticut was founded in 1636, its government ordered that “every souldier” should have “in his own howse in a readiness” two pounds of gunpowder and twenty lead bullets.⁸¹⁹ A more detailed law in 1637 ordered “that all persons shall beare Armes that are above the age sixteene yeeres.”⁸²⁰ Commissioners and church officers were exempt.⁸²¹ “[E]very military man” had to have “continually in his house” half a pound of powder and two pounds of bullets.⁸²² Towns were required to have specified reserves of gunpowder and lead bullets.⁸²³

Central stores of bullets and gunpowder were important in case of extended fighting. The colonists’ personal supplies of ammunition might run out. During wartime, roads might be captured by the enemy, so a town might not be able to bring in more gunpowder and lead from outside.

In 1650, the colony ordered “[t]hat all persons that are above the age of sixteene yeares, except magistrates and church officers, shall beare Armes...; and every male person ... aboute the said Age, shall have in continuall readines, a good muskitt or other gunn, fitt for service, and allowed by the Clark of the Band.”⁸²⁴

New Haven, a separate colony until 1662, required males 16 to 60 to have “a good serviceable gun... to be kept in a constant fitness in all Respects for service.”⁸²⁵ Also necessary were a “a good sword,” bandoleers, a powder horn, worm, scourer, priming wire, shot bag, charger, “and whatsoever else is necessary for such service.”⁸²⁶ The ammunition minimum was at least “a pound of good powder” plus “four pounds of pistol bullets” or twenty-four long gun bullets, plus match

for a matchlock or flints for a flintlock.⁸²⁷

Connecticut ratified the Constitution a week after Georgia on January 9, 1788. Under the state law of the time, “[A]ll male Persons, from sixteen Years of Age to Forty-five, shall constitute the Military Force of this State.”⁸²⁸ Although not part of “the military force,” all “Householders under fifty-five Years of Age” had to “be furnished at their own Expence” with the same arms as the militia.⁸²⁹

These arms were “a well fixed Musket, the Barrel not less than three Feet and an Half long, and a Bayonet fitted thereto, with a Sheath and Belt or Strap for the same.”⁸³⁰ Militiamen, males under fifty-five, and householders also needed a ramrod, worm, priming-wire, and cartridge box with “fifteen rounds of Cartridges, made with good Musket Powder and Ball, fitting his Gun.”⁸³¹ Also needed were “six good Flints” and “one Canteen holding not less than three Pints.”⁸³²

Light-Dragoons (horsemen) had to have “a Case of good Pistols...one Pound of good Powder, three Pounds of sizable Bullets, twelve Flints, a good pair of Boots and Spurs.”⁸³³

IV. Federal Laws

The Continental Congress, consisting of delegates from the thirteen colonies,⁸³⁴ began exercising powers of national sovereignty in 1774.⁸³⁵ Independence was formally declared in 1776. In 1781, the Continental Congress turned into the Confederation Congress, when the Articles of Confederation were ratified.⁸³⁶ During the Revolution, the Congress did its best to provide for the Continental Army. But management of the wartime militia was far beyond the administrative capacity of the Congress.

Under the Articles of Confederation, every state was obliged to “always keep up a well regulated and disciplined militia, sufficiently armed and accoutered.”⁸³⁷ While the militias were a state responsibility, the Confederation Congress could requisition the states to supply land forces “for the common defense.”⁸³⁸ Also, Congress could appoint militia officers above the rank of colonel when the state militia forces were in national service.⁸³⁹ Under a federal requisition, the state legislature had the duty to “raise the men and cloath, arm and equip them in a soldier like manner,” with the Confederation Congress paying the expense.⁸⁴⁰

The Confederation Congress drew up a militia plan, putting married men and single men in

different classes. The militia were to be “All the free male inhabitants of each state from 20 to fifty, except such as the laws of the State shall exempt, to be divided into two general classes; one class to consist of married and the other class of single men.”⁸⁴¹ Required arms for infantry and dragoons were similar to, although less detailed than, the state laws.⁸⁴²

The Articles of Confederation gave Congress few powers to legislate directly on the people, instead requiring Congress to act through the state governments. As far as we can tell, the 1783 congressional militia plan did not have much influence.

The United States Constitution, proposed in 1787 and ratified in 1789, was intended to change things. Congress was given a list of enumerated powers, by which it could directly act on the people.⁸⁴³ Article I, section 8 contained two militia clauses.⁸⁴⁴ Clause 15 (the Calling Forth Clause) gave Congress power “To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions.”⁸⁴⁵ Clause 16 (the Arming Clause) gave Congress power:

To provide for organizing, arming, and disciplining, the Militia, and for governing such Part of them as may be employed in the Service of the United States, reserving to the States respectively, the Appointment of the Officers, and the Authority of training the Militia according to the discipline prescribed by Congress.⁸⁴⁶

After several years of prodding by President Washington, Congress exercised its power to organize and to provide for arming the federal militia. The Militia Act of 1792 (Uniform Militia Act) was signed into law by President Washington on May 8, 1792.⁸⁴⁷ The Act provided:

That each and every free able-bodied white male citizen of the respective States, resident therein, who is or shall be of age of eighteen years, and under the age of forty-five years (except as is herein after excepted) shall severally and respectively

⁸⁴¹ 25 JOURNALS OF THE CONTINENTAL CONGRESS 741 (Oct. 23, 1783), [https://memory.loc.gov/cgi-bin/query/r?ammem/hlaw:@field\(DOCID+@lit\(jc02544\)\)](https://memory.loc.gov/cgi-bin/query/r?ammem/hlaw:@field(DOCID+@lit(jc02544))).

⁸⁴² Each class to be formed into corps of Infantry and Dragoons, organized in the same manner as proposed for regular troops.

Those who are willing to be at the expense of equipping themselves for Dragoon service to be permitted to enter into that corps, the residue to be formed into the Infantry; this will consult the convenience and inclinations of different classes of citizens.

Each officer of the Dragoons to provide himself with a horse, saddle &c. pistols and sabre, and each non-commissioned officer and private with the preceding articles and these in addition, a carbine and cartouch box, with twelve rounds of powder and ball for his carbine, and six for each pistol.

Each officer of the Infantry to have a sword, and each non-commissioned officer and private, a musket, bayonet and cartouch box, with twelve-rounds of powder and ball.

⁸⁴⁷ More effectually to provide for the National Defence by establishing an Uniform Militia throughout the United States, 1 Stat. 271 (1792) (Uniform Militia Act) (UMA). The UMA was sometimes called the Second Militia Act, since a statute enacted earlier that year had provided a system for calling forth the militia in times of necessity. To provide for calling forth the Militia to execute the laws of the Union, suppress insurrections and repel invasions, 1 Stat. 264 (1792).

be enrolled in the militia, by the Captain or Commanding Officer of the company, within whose bounds such citizen shall reside, and that within twelve months after the passing of this Act. And it shall at all time hereafter be the duty of every such Captain or Commanding Officer of a company, to enroll every such citizen as aforesaid, and also those who shall, from time to time, arrive at the age of 18 years, or being at the age of 18 years, and under the age of 45 years (except as before excepted) shall come to reside within his bounds; and shall without delay notify such citizen of the said enrollment, by the proper non-commissioned Officer of the company, by whom such notice may be proved. That every citizen, so enrolled and notified, shall, within six months thereafter, provide himself with a good musket or firelock, a sufficient bayonet and belt, two spare flints, and a knapsack, a pouch, with a box therein, to contain not less than twenty four cartridges, suited to the bore of his musket or firelock, each cartridge to contain a proper quantity of powder and ball; or with a good rifle, knapsack, shot-pouch, and powder-horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder; and shall appear so armed, accoutred and provided, when called out to exercise or into service, except, that when called out on company days to exercise only, he may appear without a knapsack. That the commissioned Officers shall severally be armed with a sword or hanger, and espartoon; and that from and after five years from the passing of this Act, all muskets from arming the militia as is herein required, shall be of bores sufficient for balls of the eighteenth part of a pound; and every citizen so enrolled, and providing himself with the arms, ammunition and accoutrements, required as aforesaid, shall hold the same exempted from all suits, distresses, executions or sales, for debt or for the payment of taxes.⁸⁴⁸

The legislative history of the Militia Act reveals why eighteen was selected as the minimum age. Secretary of War Henry Knox had presented an ambitious militia plan to Congress in 1790.⁸⁴⁹ Knox wanted to create a national select militia, founded on intensive training of males aged 18 to 20.⁸⁵⁰ Even in a Federalist-dominated Congress, the idea was anathema. As opponents pointed out, the nascent federal government did not have the administrative capability to establish an effective national militia.

For the more realistic 1792 statute, Knox explained that “[t]he period of life in which military service shall be required of the citizens of the United States [was] to commence at eighteen.”⁸⁵¹ Knox acknowledged that “military age has generally commenced at sixteen,” but Knox instead set the bar at 18 because “the youth of sixteen do not commonly attain such a degree of robust strength as to enable them to sustain without injury the hardships incident to the field.”⁸⁵² Knox also stated that “all men of the legal military age should be armed.”⁸⁵³ Representative Jackson of Georgia agreed “that from eighteen to twenty-one was found to be the best age to make soldiers of.”⁸⁵⁴

Knox’s first, rejected, plan had implied that the select militia of 18-20 would be armed by the federal government. This brought stern objection:

⁸⁴⁸ *Id.*

⁸⁴⁹ 1 ANNALS OF CONG. app. 2141-61 (Jan. 18, 1790).

⁸⁵⁰ *Id.* at 2146.

⁸⁵¹ *Id.*

⁸⁵² *Id.* at 2153.

⁸⁵³ *Id.* at 2145-46.

⁸⁵⁴ *Id.* at 1860.

Representative Wadsworth warned that supporters of the federal arming proposal seemed to be suggesting that large segments of the population would be armed by the government, with the attendant dangers: “At first it appeared to be intended for the benefit of poor men who were unable to spare money enough to purchase a firelock: but the gentleman from Delaware (Mr. Vining) had mentioned apprentices and young men in their non-age: he would be glad to know whether there was a man within these walls, who wished to have so large a proportion of the community by the United States, and liable to be disarmed by the government, whenever it should be thought proper.” Masters could be expected to furnish arms to their apprentices. As to other young men, “their parents would rather give them guns of their own, than let them take others from the U.S. which were liable to be taken away at the very moment they were most wanted.”⁸⁵⁵

The notion that the federal government might be able to take provided arms away from 18-to-20-year-olds set off alarm bells.

The idea that 18-year-olds should be part of the militia was hardly controversial. They had been part of every colonial and state militia from the very beginning, except for a nineteen-year period in Virginia in the middle of the eighteenth century. George Washington believed that 18 was the ideal age for militia enrollment.⁸⁵⁶ Nearly a decade before he signed the Militia Act of 1792, he wrote to Alexander Hamilton that, “the Citizens of America ... from 18 to 50 Years of Age should be borne on the Militia Rolls” and “so far accustomed to the use of [arms] that the Total strength of the Country might be called forth at a Short Notice on any very interesting Emergency.”⁸⁵⁷

Congress made no changes to the 1792 Militia Act until the Civil War, when an 1862 revision removed the word “white” from the definition of the militia.⁸⁵⁸

By the early twentieth century, the 1792 Act was in obvious need of revision. Muskets, powderhorns, and flints were no longer the appropriate equipment for militiamen. President Theodore Roosevelt, a gun enthusiast and National Rifle Association (NRA) member,⁸⁵⁹ declared: “Our militia law is obsolete and worthless.”⁸⁶⁰

A new law, the Dick Act (named for its sponsor, Charles Dick) repealed the 1792 Act and replaced it with the modern definition of the militia of the United States.⁸⁶¹ This militia consisted of all able-bodied male citizens between 18 and 45 years of age, and also aliens who have declared intent to naturalize.⁸⁶² The “organized militia” was the National Guard of the several States.⁸⁶³

⁸⁶³ *Id.*

Everyone else was part of the “reserve militia,” which later statutes labeled the “unorganized militia.”⁸⁶⁴

There was no mandate for personal possession of arms. Nor, except for the National Guard, was there any provision for the federal government to provide arms.

In the current version of the statute:

(a) The militia of the United States consists of all able-bodied males at least 17 years of age and, except as provided in section 313 of title 32, under 45 years of age who are, or who have made a declaration of intention to become, citizens of the United States and of female citizens of the United States who are members of the National Guard.

(b) The classes of the militia are--

(1) the organized militia, which consists of the National Guard and the Naval Militia; and

(2) the unorganized militia, which consists of the members of the militia who are not members of the National Guard or the Naval Militia.⁸⁶⁵

In 1903, Congress created the National Board for the Promotion of Rifle Practice (NBPRR).⁸⁶⁶ It did not require citizens to possess arms or to practice with them, but it encouraged them to do so. The NBPRR developed a close relationship with the NRA, which had been founded in 1871, growing from concerns about the poor marksmanship of Union soldiers during the Civil War.⁸⁶⁷ By statute, the NBPRR and the NRA were linked.⁸⁶⁸ The NRA was the NBPRR’s agent for distributing heavily discounted surplus arms to the American public, via NRA gun clubs.⁸⁶⁹

The National Guard Association (an association of state entities), the National Board for the Promotion of Rifle Practice (a federal entity), and the National Rifle Association (a membership organization) developed a close and mutually supportive relationship. Their boards of directors often overlapped.⁸⁷⁰

Through this relationship, over the course of the twentieth century the federal government put millions of military-grade firearms into the hands of private American citizens, including young adults aged 18 to 20. This bore fruit in World War II. With the National Guard federalized and

sent into overseas service, coastal security was provided by the unorganized militia, “whose ages ranged from 16 to 65, served without pay and provided their own arms.”⁸⁷¹

The federal Gun Control Act of 1968 required all persons “engaged in the business” of selling firearms to obtain a Federal Firearms License.⁸⁷² (“FFL”; the term is used for both the license and the licensee.) An FFL may not deliver a handgun to a person under 21, or a rifle or shotgun to a person under 18.⁸⁷³ As the Supreme Court later noted, the 1968 Act aimed to keep guns away from “juveniles, criminals, drug addicts, and mental incompetents.”⁸⁷⁴

The FFL rule for handgun deliveries will be discussed in Part V.B., which examines the unsuccessful challenge to the statute in *NRA v. BATF* (5th Cir.).

In 1994, Congress prohibited handgun possession by minors (under 18), with certain exceptions.⁸⁷⁵ That law was upheld by the First Circuit in *Rene E.*, which is discussed below in Part V.A.

V. Nineteenth and Early Twentieth Century State Laws and Cases—and Their Role in Modern Litigation

Our article in the previous issue of the *Southern Illinois University Law Journal* surveyed nineteenth and early twentieth century state laws and cases about firearms restrictions on young people.⁸⁷⁶ We also examined the five leading post-*Heller* federal circuit cases involving challenges to state or federal arms laws aimed at young people. In this Part, we will summarize the findings from that Article. In the interests of concision, many of the footnotes and many details of the discussion from the original article are omitted in this summary.

A. State Laws and Cases

As in the colonial period and the Founding Era, there were no age-based arms restrictions in the early republic or the Jacksonian period. The first age restrictions appear in the South shortly before the Civil War. In 1856 Alabama prohibited giving handguns to male minors. In 1860 Kentucky outlawed providing handguns to minors, free blacks, or slaves. Other than these two laws, age-based restrictions did not appear until the last quarter of the nineteenth century.

As of 1899, there were forty-six states in the Union. Nineteen of them had some sort of law involving handguns and minors and the other twenty-seven had no such laws. No state criminalized handgun possession by minors. Ten states generally prohibited handgun transfers to

⁸⁷¹ Don B. Kates, *Handgun Prohibition*, 82 MICH. L. REV. 204, 272, (1983) (citing Office of the Assistant Secretary of Defense, U.S. Dept. of Defense, *U.S. Home Defense Forces Study*, 58, 62-63 (1981)).

⁸⁷² Gun Control Act of 1968, Pub. L. No. 99-308, 100 Stat. 449, 450 (1968); 18 U.S.C. § 923, 27 C.F.R. § 478.41.

⁸⁷³ 18 U.S.C. § 922(b)(1) (2019).

⁸⁷⁴ *Huddleston v. United States*, 415 U.S. 814, 828 (1974). The federal legislation aimed to curb crime by keeping “firearms out of the hands of those not legally entitled to possess them because of age, criminal background, or incompetency.” *Id.* at 824.

A study of the 1968 law found that it had no impact on the share of 18-to-20-year-olds arrested for homicide, robbery, or aggravated assault. Gary Kleck, *The Impact of the 1968 Gun Control Act’s Restrictions on Handgun Purchases by Persons Age 18 to 20* (2011), <https://ssrn.com/abstract=1843526>.

⁸⁷⁵ 18 U.S.C. 922(x)(2) (2019).

minors; four of those ten had exceptions for self-defense, hunting, or home possession, and Alabama's law was only for males. Of these ten statutes, five expressly prohibited loans, while the other five were phrased in terms that could be construed to refer only to permanent dispositions.

Three other states did not restrict transfers in general, but did restrict sales (Delaware, Mississippi) or dealer sales (Wisconsin). Five states required parental consent for handgun transfers to minors (Illinois, Iowa, Kentucky, Missouri, and Texas). Nevada simply prohibited concealed carry.

No state restricted long gun purchases by minors, long gun loans to minors, or other long gun transfers to minors, such as gifts.

Modern courts have cited about a dozen cases that involved these statutes. We examined each of those cases, as well as precedents used in those cases. The majority of those cases did not involve constitutional issues. Instead, the decisions were about rules for issues on appeal, the facts of tort liability in a particular situation, and so on.

Four cases did have some substantive analysis of the rights of young people. Tennessee's *State v. Callicutt* (1878) upheld a statute against giving handguns to minors.⁸⁷⁷ *Callicutt* was explicitly founded on the Tennessee Supreme Court's 1840 *Aymette v. State*.⁸⁷⁸ According to *Aymette*, the Second Amendment right to "bear" arms only means bearing arms while actively serving in a militia.⁸⁷⁹ The *Heller* Court expressly denounced *Aymette*: "This odd reading of the right is, to be sure, not the one we adopt."⁸⁸⁰ Accordingly, *Callicutt* should have little weight as a modern precedent.

The Georgia Supreme Court in 1911 upheld a 1910 statute that prohibited the carrying of firearms without a license and did not make licenses available to persons under 18.⁸⁸¹ The same statute made it illegal to "knowingly sell, or furnish, any minor with 'any pistol, dirk, bowie knife, or sword cane, except under circumstances justifying their use in defending life, limb, or property.'"⁸⁸²

The Georgia court in *Glenn v. State* made numerous errors. First, it interpreted the statute as a complete prohibition on persons under 18 from possessing pistols.⁸⁸³ The interpretation is plainly incorrect, since the statute expressly allowed possession for self-defense.

Second, the Georgia court asserted in dicta that all modern handguns could be banned for everyone.⁸⁸⁴ Of course, that assertion is contrary to *Heller*.⁸⁸⁵ That assertion was also contrary to the Georgia Supreme Court's 1846 decision in *Nunn v. State*, which struck down a state ban on almost all handguns.⁸⁸⁶ The *Nunn* decision is quoted and lauded by *Heller* more than any other

⁸⁷⁷ *State v. Callicutt*, 69 Tenn. 714 (1878).

⁸⁸⁶ *Nunn v. State*, 1 Ga. 243 (1846).

precedent.⁸⁸⁷ As of 1846, repeating handguns were already well-established and common in the market.

Most egregiously, the *Glenn* court upheld the statute under the theory that minors have *no* rights that the legislature is bound to respect:

It is entirely within the province of the Legislature, in the exercise of the police power of the state, to prohibit, on the part of minors, the exercise of any right, constitutional or otherwise, although it might only have the right in the case of adults to regulate and restrict such rights.⁸⁸⁸

Glenn's ratio decidendi is contrary to modern precedent.⁸⁸⁹ It is also plainly wrong under the law of the time. If *Glenn* were correct that minors have no constitutional rights, then the Georgia Constitution of 1877, which was still in effect in 1911, would have been no barrier to the Georgia legislature enacting laws against some or all minors: to take their property without due process of law, to banish them from the state, to inflict cruel and unusual punishments on them, to require Georgia minors to profess belief in an official state religion, to punish their dissent from said religion as heresy, to forbid them from criticizing government officials of Georgia, to search their houses without warrants, to forbid them to petition government, and to punish them with ex post facto laws and bills of attainder.⁸⁹⁰ The absurdity of the proposition is self-evident.

The most thorough analysis of the arms rights of young people came from the Kansas Supreme Court in *Parman v. Lemmon*.⁸⁹¹ The case was initially decided one way, then reversed following rehearing, so that the original dissent became the opinion of the court.

The issue was whether a 20-gauge Winchester pump-action shotgun was a “dangerous weapon” prohibited by the Kansas statute that made it a misdemeanor to “sell, trade, give, loan or otherwise furnish any pistol, revolver or toy pistol, by which cartridges or caps may be exploded, or any dirk, bowie knife, brass knuckles, sling shot, or other dangerous weapons, to any minor, or to any person of notoriously unsound mind.”⁸⁹²

Applying *ejusdem generis*, the court held that long guns are not covered by the phrase “dangerous weapons.”⁸⁹³ The shotgun “is such a common implement that, if the lawmakers intended to include it in the prohibited list, it is extremely unlikely they would have failed to mention it.”⁸⁹⁴

⁸⁸⁷ *Heller*, 554 U.S. 570.

⁸⁸⁸ *Glenn*, 72 S.E. at 928-29.

⁸⁸⁹ *See, e.g.*, Application of Gault, 387 U.S. 1, 13 (1967) (holding that “neither the Fourteenth Amendment nor the Bill of Rights is for adults alone” and that juveniles have the right to counsel, right to notice of charges, right to confront and cross-examine witnesses, and right against self-incrimination); *Tinker v. Des Moines Indep. Cty. Sch. Dist.*, 393 U.S. 503, 511 (1969) (“Students in school as well as out of school are ‘persons’ under our Constitution. They are possessed of fundamental rights which the State must respect...”).

⁸⁹⁰ *See* GA. CONST. of 1877, art. I, § 1, parts 3, 7, 12, 15, 16, 24, § 3, part 2 (enumerating prohibitions on aforesaid types of government action, and not limiting the protections to only adults).

⁸⁹¹ *Parman v. Lemmon*, 244 P. 227 (Kan. 1925).

⁸⁹² *Id.* at 228 (citing R. S. 38-701). R.S. 38–702 made it unlawful for minors to possess these “dangerous weapons.” *Id.*

⁸⁹³ “The rule, ‘*ejusdem generis*’ ordinarily limits the meaning of general words to things of the same class as those enumerated under them.” *Id.* at 229 (citing 2 Words and Phrases, Second Series, 225).

⁸⁹⁴ *Id.* at 232 (Mason, J., dissenting) (later became opinion of the court).

Moreover, “the right of the people to keep and bear arms ... is a basic principle of statecraft of deep concern to all who are clothed with authority and who feel their responsibility to hand on undiminished to future generations those liberties which are our proud American heritage.”⁸⁹⁵

The experience from the first days of the Atlantic colonies through the Indian Wars of the late nineteenth century in Kansas had meant that

the rifle over the fireplace and the shotgun behind the door were imperatively necessary utensils of every rural American household. And it was just as imperative that the members of such household, old and young, should know how to handle them. And it was almost equally true that, unless a man were trained in the use of the rifle and shotgun in his boyhood, he seldom learned to use them.⁸⁹⁶

Announcing the reversal following the petition for rehearing, the Kansas Court explained:

[I]t is reasonable to conclude that the Legislature did not intend to make law violators of 60 per cent. of the militia of the state, it being estimated that 60 per cent. of the personnel of that body are minors; that it did not intend to prohibit students under 21 years of age in the colleges from taking military training; that it did not intend to prohibit young men under 21 years of age from taking out hunters’ licenses and hunting, that it did not intend to prohibit young men who have not yet reached the age of 21, who reside on the farms and ranches, from carrying and using shotguns and rifles when necessity requires.

These suggestions and many others have had the consideration of the court. We do not deem it necessary to discuss the question at length, nor to analyze the cases. We are of the opinion that, if the Legislature of 1883 had intended to include shotguns in the prohibited list of dangerous weapons, it would have specifically mentioned them.

. . .

By a change of view on the part of some of the Justices, the dissenting opinion at the time of the first decision has now become the controlling voice of the court, and further discussion is needless.⁸⁹⁷

None of the Justices in *Parman* seemed to see a problem with the law against giving handguns to minors, which the Justices characterized as being needed occasionally for self-defense; the court’s focus was on long guns, which it characterized as the typical arm of rural self-defense, the ordinary arm of the militia, and a daily tool for rural life.

The final case that involved arms and minors was Virginia’s *United States v. Blakeney*.⁸⁹⁸ It did not involve any law that targeted the arms rights of minors. Instead, the issue was application of the general rule that minors could not enter into enforceable contracts without the consent of their parent or guardian.⁸⁹⁹ (In the latter twentieth century, the age of majority for exercise of

⁸⁹⁵ *Id.* at 231 (Dawson, J., dissenting) (later became opinion of the court).

⁸⁹⁶ *Id.*

⁸⁹⁹ *Id.*

contract and property rights without parental consent would be lowered to 18 in most states, the age that continues to prevail as the national norm.)

The Supreme Court of Appeals of Virginia held that 18-to-20-year-old “minors” were to be treated as adults in the context of bearing arms.⁹⁰⁰ Blakeney was a 19-year-old who volunteered for military duty, and regretting his decision, argued that a minor could not enter into a valid contract.⁹⁰¹ The court held the contract valid, based in part on the fact that as a 19-year-old, Blakeney had the mental and physical capacity to bear arms.⁹⁰²

The court explained that “children” were exempted from military service because they are incapable of handling arms:

No person is naturally exempt from taking up arms in defence of the State; the obligation of every member of society being the same. They only are excepted who are incapable of handling arms, or supporting the fatigues of war. This is the reason why old men, children, and women are exempted.⁹⁰³

By contrast, “We know, as a matter of fact, that at the age of eighteen, a man is capable intellectually and physically of bearing arms.”⁹⁰⁴ And since 18-year-olds were just as capable as 21-year-olds of both carrying arms and consenting to military service, the court held that 18-to-20-year-olds were bound by military enlistments just as adults over 21 were.⁹⁰⁵ The general rule about contracts

has no application to the subject. The capacity of all citizens or subjects able to bear arms to bind themselves to do so by voluntary enlistment, is in itself a high rule of the public law, to which the artificial and arbitrary rule of the municipal law forms no exception.⁹⁰⁶

In sum, the statutory and case law record on the nineteenth and early twentieth centuries provide no support for age-based restrictions on long guns. There were a minority of states with age-based restrictions on handguns. The largest group in the minority would be those that either banned retail sales or required parental permission for sales. Laws broad enough to prohibit parents from letting minors use handguns existed in five states. Few cases from the period address the arms rights of minors, and of those, hardly any can be considered valid precedents in light of *Heller* and other modern doctrine.

B. Modern Circuit Cases

⁹⁰⁵ *Id.* at 416.

⁹⁰⁶ *Id.* at 409-10.

Our Article in the previous issue reviewed the nineteenth and early twentieth century history and tradition in the context of their use by the five post-*Heller* Circuit Court of Appeals cases examining the arms rights of young people. We will summarize the analysis of those cases.

1. Rene E.

In *United States v. Rene E.*, the First Circuit upheld the 1994 federal statute (discussed in Part IV) that prohibits handgun possession by persons under 18.⁹⁰⁷ The court emphasized the importance of the statute's exceptions, such as self-defense in the home, ranching, hunting, militia service, and so on.⁹⁰⁸

For historical support, *Rene E.* relied primarily on the state cases discussed above.⁹⁰⁹ This is thin support, for reasons that we summarized above, and detailed in the previous Article.

Regarding the Founding, *Rene E.* could not cite any original American source—hardly surprising in light of the many statutes detailed in Part III, *supra*. The colonial and early state governments had repeatedly mandated that persons 16 and older (or sometimes 18, 15, or 10) be armed.

Instead, the First Circuit cited some modern law review articles stating that the Founders believed that unvirtuous persons could be disarmed.⁹¹⁰ The paradigmatic examples in these articles were persons who were disloyal to the government during wartime, as well as slaves and hostile Indians. The point of the article is true enough, but nothing from the colonial or founding periods indicates that young people were considered unvirtuous people who should be disarmed. The statutory evidence is quite the opposite.

2. National Rifle Association v. Bureau of Alcohol, Tobacco, Firearms, Explosives

In this case, the Fifth Circuit upheld the 1968 federal statute that prohibits persons 18-20 from buying handguns in retail stores.⁹¹¹ The statute does not prohibit young adults from acquiring firearms from persons who are *not* “engaged in the business of selling arms.”⁹¹² The statute allows persons 18 and older to buy long guns from stores (and from others).

The strongest part of the court's historical analysis was its list of state statutes. As discussed above, by 1899 there were fifteen states that prohibited minors from buying handguns in stores, and three more that required parental permission. These restrictions were not the majority approach, but neither were they eccentric.

For earlier history, the opinion was weaker. As the court stated (without citation), gun control laws did exist at the time of the Second Amendment and before.⁹¹³ This was true, but there were no age restrictions on buying, owning, or carrying firearms.

⁹⁰⁷ *United States v. Rene E.*, 583 F.3d 8 (1st Cir. 2009).

⁹⁰⁸ *Id.* at 13-14.

⁹⁰⁹ *Id.* at 14-15.

⁹¹⁰ *Id.* at 15-16.

⁹¹¹ *Nat'l Rifle Ass'n v. Bureau of Alcohol, Firearms, and Explosives*, 700 F.3d 185 (5th Cir. 2012); 18 U.S.C. § 922(x)(2) (2019).

⁹¹² *NRA v. BATF*, *supra* note 911, 700 F.3d at 189.

⁹¹³ *Id.* at 200.

There were laws that “targeted particular groups for public safety reasons.”⁹¹⁴ These were laws aimed at slaves, Indians, and, during wartime, “laws that confiscated weapons owned by persons who refused to swear an oath of allegiance to the state or to the nation.”⁹¹⁵ The disarmament of persons not considered citizens (slaves and Indians), or who demonstrated disloyalty, should not create precedent for targeting other “particular groups” whose loyalty is unquestioned.⁹¹⁶ The Fifth Circuit also cited William Rawle, whose 1825 constitutional law treatise was cited with approval in *Heller*.⁹¹⁷ Rawle, as fully quoted in *Heller*, wrote that persons who “abused” the right to arms could be disarmed.⁹¹⁸ The Fifth Circuit chopped Rawle to make it appear that he supported disarmament of people who had never abused the right, but whom the government might consider prospectively dangerous.⁹¹⁹

Like the Georgia Supreme Court in the 1911 *Glenn* case, the Fifth Circuit resorted to the claim that minors lack constitutional rights.⁹²⁰ As the court pointed out, the age majority at common law was 21.⁹²¹ Therefore,

If a representative citizen of the founding era conceived of a ‘minor’ as an individual who was unworthy of the Second Amendment guarantee, and conceived of 18-to-20-year-olds as ‘minors,’ then it stands to reason that the citizen would have supported restricting an 18-to-20-year-old’s right to keep and bear arms.⁹²²

The Fifth Circuit’s speculation is contrary to all the evidence. Persons under 21 were certainly minors under the common law of the Founding Era. Thus, their independent exercise of contract and property rights was limited. However, there is no evidence “a representative citizen” (or anyone else) in the Founding Era considered all minors “unworthy of the Second Amendment guarantee.”⁹²³ To the contrary, state and federal laws of the Founding Era are unanimous that minors aged 18-to-20 *were* considered worthy of the Second Amendment guarantee. As had been the case from the earliest colonial days, they were part of the militia and were required to possess their own arms. Massive and uncontradicted evidence from the Founding Era shows that 18-to-20-year-olds *did* have the right to keep and bear arms, and indeed were required by law to exercise that right.

Assuming *arguendo* that young adults have Second Amendment rights, the Fifth Circuit applied intermediate scrutiny. The court chose intermediate scrutiny in part because the federal

⁹²³ *Id.*

law did not prohibit minors from acquiring handguns for home defense or for other lawful purposes.⁹²⁴

The Fifth Circuit found laws against 18-20-year-olds supportable by *Heller*'s emphasis on arms possession by "responsible" citizens.⁹²⁵ As the Fifth Circuit accurately stated, persons 18-to-20 commit gun crimes at a higher rate than do older people.⁹²⁶ The same can be said of persons 21-to-25, who commit crimes at a higher rate than do people over 25. The same is true for persons 60-to-65, who commit crimes at a higher rate than do persons over 65. The same point can also be made based on race. Americans of some races commit violent crimes at higher rates than persons of other races. Likewise, males perpetrate violent crimes at a much higher rate than females.

As the Fifth Circuit acknowledged, law-abiding, responsible citizens are at the core of the Second Amendment right.⁹²⁷ Their rights should not be forfeited because of irresponsible behavior by other persons of the same age, race, or sex.

3. National Rifle Association v. McCraw

Here the Fifth Circuit upheld the Texas statute that prevented 18-to-20-year-olds from applying for a license to carry handguns for lawful protection in public places.⁹²⁸ Having recently decided *NRA v. BATF*, the Fifth Circuit did not engage in further historical analysis.⁹²⁹ The court reiterated the *BATF* theory that "the conduct burdened by the Texas scheme likely 'falls outside the Second Amendment's protection.'" ⁹³⁰ Also like the *BATF* court, the *McCraw* court applied intermediate scrutiny in an abundance of caution and upheld the law for similar reasons.⁹³¹

However, the court skipped part of the intermediate scrutiny analysis. In strict scrutiny, the government must prove that there is no "less restrictive alternative." Under the more relaxed standard of intermediate scrutiny, the government must prove that there is no "substantially less burdensome alternative." The plaintiffs had argued that instead of banning licensed carry for young adults, Texas could have a more rigorous licensing system for young adults, compared to applicants over 21. The *McCraw* court dismissed that alternative and said that "less restrictive alternative" is not part of intermediate scrutiny.⁹³² True enough, but "substantially less burdensome alternative" is part of intermediate scrutiny, and the court offered no explanation for refusing to consider it.

4. *Horsley v. Trame*

⁹³¹ *Id.*

⁹³² *Id.* at 349.

Illinois requires that residents obtain a firearm owner's identification (FOID) card before acquiring or possessing a firearm.⁹³³ In *Horsley v. Trame*, the plaintiff challenged the requirement that FOID card applicants between 18 and 21 obtain the consent of a parent or guardian.⁹³⁴ The parental permission rule has a safety valve, by which an applicant can instead apply for consent from the Director of the Illinois firearms license office.⁹³⁵ If the office denies the permission, the applicant can appeal to a court.⁹³⁶

The Seventh Circuit decided that it need not decide whether it agreed with the Illinois Attorney General that the Second Amendment does not apply to persons under 21.⁹³⁷ Regardless, the law was valid since it is not prohibitory, since young adults have a higher crime rate, and since the parental permission law has a safety valve similar to what has been allowed for abortion.⁹³⁸

5. Ezell v. City of Chicago

Ezell challenged a Chicago ordinance that prohibited anyone under 18 from entering a shooting range.⁹³⁹ Chicago argued that persons under 18 have no Second Amendment rights.⁹⁴⁰ But the nineteenth century statutes on handgun sales were not much help for a total ban on practice with any firearm. As the Seventh Circuit observed, "There's zero historical evidence that firearm training for this age group is categorically unprotected. At least the City hasn't identified any, and we've found none ourselves."⁹⁴¹

Chicago was "left to rely on generalized assertions about the developmental immaturity of children, the risk of lead poisoning by inhalation or ingestion, and a handful of tort cases involving the negligent supervision of children who were left to their own devices with loaded firearms."⁹⁴² Since the government could address these concerns with "a more closely tailored age restriction—one that does not *completely extinguish* the right of older adolescents and teens in Chicago to learn how to shoot in an appropriately supervised setting at a firing range," the law violated the Second Amendment.⁹⁴³

VI. Current State Laws

⁹³³ 430 ILL. COMP. STAT. 65 (2013).

⁹³⁴ *Horsley v. Trame*, 808 F.3d 1126 (7th Cir. 2015). The law, 430 ILL. COMP. STAT. 65/4(a)(2)(i), requires an applicant to submit evidence that "[h]e or she is 21 years of age or over, or if he or she is under 21 years of age that he or she has the written consent of his or her parent or legal guardian to possess and acquire firearms and firearm ammunition and that he or she has never been convicted of a misdemeanor other than a traffic offense or adjudged delinquent, provided, however, that such parent or legal guardian is not an individual prohibited from having a Firearm Owner's Identification Card..."

⁹³⁹ *Ezell v. City of Chicago (Ezell II)*, 846 F.3d 888 (7th Cir. 2017). The *Ezell I* case held unconstitutional the city's ban on all shooting ranges within city limits. *Ezell v. City of Chicago (Ezell I)*, 651 F.3d 684 (7th Cir. 2011).

⁹⁴⁰ *Id.* at 896.

⁹⁴¹ *Id.*

⁹⁴² *Id.* at 898.

⁹⁴³ *Id.* (emphasis in original).

Part VI surveys current state laws that impose special limits on arms possession or acquisition by young adults. We do not include state statutes that mimic federal law (such as preventing gun stores from selling handguns to young adults). We do not address state laws that apply only to persons under 18. Nor do we address laws, such as the Texas law discussed in the *McCraw* case above, that set the minimum age for a defensive handgun carry license at 21. The majority of states do set 21 as the carry permit age, while a minority set the age at 18. A few states, such as Texas, which have a general rule of 18, allow carry permits for young adults in certain circumstances, such as a young adult who is currently serving in, or has been honorably discharged from, the armed forces.⁹⁴⁴

As has been true throughout American history, state militia laws include 18-to-20-year-olds. Fifteen state constitutions specify that the starting age for militia service is 18.⁹⁴⁵ Two state constitutions, Indiana and Wyoming, specify the starting militia age as 17.⁹⁴⁶ Uniquely, the Kansas Constitution makes 21 the starting militia age.⁹⁴⁷ The constitutions of Illinois and Montana used to declare that the militia was males 18 to 45; the constitutions were revised to broaden the militia obligation to all able-bodied persons, regardless of age or sex.⁹⁴⁸ For many other states, the constitution grants the legislature authority to define the militia, and the legislature has passed laws including 18-to-20-year-olds.

Section A of Part VI describes state laws imposing special limits on firearms acquisition or possession by young adults. Section B discusses the varying age limits for different activities, past and present.

A. State laws with special arms restrictions on young adults

California. “No person, corporation, or firm shall sell, loan, or transfer a firearm to a minor, nor sell a handgun to an individual under 21 years of age.”⁹⁴⁹ The only circumstance under which a Californian aged 18-20 may purchase a handgun is if the handgun is an antique.⁹⁵⁰

⁹⁴⁴ TEX. CODE ANN. § 411.172(g).

⁹⁴⁵ ARIZ. CONST. art. XVI, § 1; ARK. CONST. art. XI, § 10; COLO. CONST. art. XVII, § 1; IDAHO CONST. art. XIV, § 1; IOWA CONST. art. VI, § 1; KY. CONST. § 219; ME. CONST. art. VII, § 5; MISS. CONST., § 214; N.M. CONST. art. XVIII, § 1; N.D. CONST. art. XI, § 16; OHIO CONST. art. IX, § 1; S.C. CONST. art. XIII, § 1; S.D. CONST. art. XV, § 1; UTAH CONST. art. XV, § 1; WASH. CONST. art. X, § 1.

⁹⁴⁶ IND. CONST. art. XII, § 1; WYO. CONST. art. XVII, § 1.

⁹⁴⁷ KAN. CONST. art. VIII, § 1.

⁹⁴⁸ ILL. CONST. of 1870, art. XII, § 1; MONT. CONST. of 1889, art. XIV, § 1. Illinois now provides that “The State militia consists of all able-bodied persons residing in the State except those exempted by law.” ILL. CONST. art. XII, § 1; MONT. CONST. art. VI, § 13(2).1.

In both states, current laws show that the newer provisions still include 18-to-20-year-olds. *See* 20 ILL. COMP. STAT. 1805/1 (“All able-bodied citizens of this State . . . between the ages of 18 and 45 . . . shall be subject to military duty and designated as the Illinois State Militia”); MONT. CODE ANN. § 10-1-103(1) (“the organized militia [] consists of the national guard and the Montana home guard”); 32 U.S.C. § 313 (“To be eligible for original enlistment in the National Guard, a person must be at least 17 years of age and under 45”).

⁹⁴⁹ CAL. PENAL CODE § 27505(a) (West 2011).

⁹⁵⁰ *Id.* (b)(1).

Parents and grandparents (with parental permission) may loan long guns to minors for indefinite periods.⁹⁵¹ Other persons may loan long guns to minors (with parental permission) for up to 30 days.⁹⁵²

A parent may loan a handgun to a minor for sporting activities, agriculture, ranching, or theatrical and entertainment events that use firearms props.⁹⁵³ The loan may last no longer than “the amount of time that is reasonably necessary to engage in” the activity.⁹⁵⁴

Other persons may loan handguns to minors for the same purposes, if written permission from the parent or legal guardian is presented to the lender.⁹⁵⁵ The same time limits apply, with the addition proviso that the loan may never exceed ten days.⁹⁵⁶

Thus, a minor may never be transferred a handgun for lawful defense of self and others, even in the parental home, and even in situations of imminent peril.

Connecticut. A state certificate is necessary to own a handgun, and only persons at least 21 years old may apply for the certificate.⁹⁵⁷

Delaware. No person shall sell to someone under 21 “any pistol or revolver, or stiletto, steel or brass knuckles, or other deadly weapon made especially for the defense of one’s person.”⁹⁵⁸ The prohibition does not apply “to toy pistols, pocket knives or knives used for sporting purposes and in the domestic household, or surgical instruments or tools of any kind.”⁹⁵⁹

District of Columbia. Persons may only possess firearms that have been registered with the Municipal Police Department.⁹⁶⁰ Persons under 18 may not register. Persons 18 to 20 may register if the registrant provides a notarized permission statement from a parent or guardian.⁹⁶¹ In the notarized statement, the parent or guardian must “assume[] civil liability for all damages resulting from the actions of such applicant in the use of the firearm to be registered; provided further, that such registration certificate shall expire on such person’s 21st birthday.”⁹⁶²

Florida. “A person younger than 21 years of age may not purchase a firearm. The sale or transfer of a firearm to a person younger than 21 years of age may not be made or facilitated by a licensed importer, licensed manufacturer, or licensed dealer.”⁹⁶³ Thus, persons under 21 may borrow firearms, or receive them as gifts from private persons. The restrictions on persons under 21 do not apply to servicemembers.⁹⁶⁴

Hawaii. Permits to acquire firearms may be issued “to citizens of the United States of the age of twenty-one years or more.”⁹⁶⁵ Permits may also be issued to aliens under certain circumstances,

including to aliens 18 or older “for use of rifles and shotguns for a period not exceeding sixty days, upon a showing that the alien has first procured a hunting license.”⁹⁶⁶

Illinois. To purchase or own a firearm, a person must have a Firearm Owner’s Identification (FOID) Card.⁹⁶⁷ Applicants under 21 must have written permission from a parent or guardian.⁹⁶⁸ The parent giving permission must not be someone who is prohibited from owning a firearm (e.g., a convicted felon).⁹⁶⁹ The under-21 applicant must, in addition to satisfying generally applicable eligibility requirements, have no misdemeanor convictions other than traffic offenses, and must never have been adjudged delinquent.⁹⁷⁰

As discussed in the section on *Horsely v. Trame, supra*, there is a safety valve provision for situations in which parental permission is denied or is unavailable. Any applicant who is denied can petition the Director of State Police for relief.⁹⁷¹ The applicant may present evidence, and the State Attorney must be notified and have an opportunity to oppose the petition for relief. The applicant must prove that “granting relief would not be contrary to the public interest.”⁹⁷² A rejected applicant may appeal to state court.⁹⁷³

Iowa. In 2017, the legislature repealed a law that had forbidden minors under 14 from temporarily possessing a handgun under any circumstances, even while under direct parental supervision at a target range.⁹⁷⁴

Under current law, anyone who “sells, loans, gives, or makes available a rifle or shotgun or ammunition for a rifle or shotgun to a minor” is guilty of a serious misdemeanor.⁹⁷⁵ Anyone who does the same for a handgun or handgun ammunition is guilty of a serious misdemeanor.⁹⁷⁶

However, a parent, guardian, spouse (if over 18), or anyone else with express permission from such persons may allow a minor to possess rifles, shotguns, and ammunition therefor.⁹⁷⁷

For handguns, the authorizing parent, guardian, or spouse must be over 21, and the person under 21 may possess the handgun only while under direct supervision.⁹⁷⁸ Alternatively, the supervision may be provided by an instructor.⁹⁷⁹ Any supervisor or instructor who is intoxicated at the time is guilty of child endangerment.⁹⁸⁰

If the minor with the handgun is under 14, the parent, guardian, or spouse is strictly liable for any resulting damages.⁹⁸¹

Persons 18-to-20 may possess firearms and ammunition without need for parental or spousal permission “while on military duty or while a peace officer, security guard or correctional officer”

if the job requires it.⁹⁸² They may also possess arms while receiving instruction from an instructor who is at least 21.⁹⁸³

It is unlawful to store a loaded gun in such a manner that “a minor under the age of fourteen years is likely to gain access to the firearm” without the permission of the minor’s parent.⁹⁸⁴ Storage is *per se* compliant with the statute if the gun has a trigger lock or is “placed in a securely locked box or container, or placed in some other location which a reasonable person would believe to be secure from a minor under the age of fourteen years.”⁹⁸⁵ There is no violation of the law unless a minor does actually access the firearm, and then unlawfully exhibits the firearm in a public place or injures someone by using the firearm unlawfully.⁹⁸⁶ There is no violation “if the minor obtains the firearm as a result of an unlawful entry by any person.”⁹⁸⁷

Maryland. Under Maryland law, a “regulated firearm” is a handgun or certain long guns that have been labeled “assault weapons.”⁹⁸⁸ Of course there are still laws for other guns, namely rifles and shotguns that are not “assault weapons,” but these laws are less stringent than the laws for “regulated firearms.”

In general, a person under 21 may not possess a regulated firearm.⁹⁸⁹ Possession is allowed for temporary transfers if the person under 21 will be “under the supervision of another who is at least 21 years old” and the parents or guardian consent.⁹⁹⁰ Possession is also allowed if the person needs the firearm for employment.⁹⁹¹ Temporary transfers are also permitted to participants in marksmanship training who are supervised by an instructor.⁹⁹² Also lawful is “the possession of a [regulated] firearm for self-defense or the defense of others against a trespasser into the residence of the person in possession or into a residence in which the person in possession is an invited guest.”⁹⁹³

Massachusetts. A “Class A” license is necessary to possess a handgun or long guns that are dubbed “assault weapons.”⁹⁹⁴ The Class A license also functions as a license to carry; the issuing law enforcement agency has the discretion to issue the license to allow carrying only for sports and target practice, or to issue as a defensive carry permit.⁹⁹⁵ Class A licenses may not be issued to persons under 21.⁹⁹⁶

New Jersey. In general, persons under 18 may not “purchase, barter or otherwise acquire a firearm” and persons under 21 may not do so for handguns.⁹⁹⁷ Further, no one under 18 “shall possess, carry, fire or use a firearm.”⁹⁹⁸ The same is true for handguns for persons under 21.⁹⁹⁹

Exceptions are for gun use “[i]n the actual presence or under the direct supervision of his father, mother or guardian, or some other person” who has the appropriate gun possession permit from the state.¹⁰⁰⁰ Also allowed is “competition, target practice, instruction, and training” at a firing range.¹⁰⁰¹ Finally, persons can possess the guns “during the regularly designated hunting season,” if they have a hunting license and have passed a hunter safety course.¹⁰⁰²

New York. A license is necessary to possess a handgun.¹⁰⁰³ Licenses may be issued only to persons who are at least 21.¹⁰⁰⁴ But if the applicant has been honorably discharged from the armed forces, no age restriction applies.¹⁰⁰⁵

Ohio. No one shall sell any firearm to a person under 18, or a handgun to a person under 21.¹⁰⁰⁶ Nor shall anyone “furnish” such guns to such persons, “except for lawful hunting, sporting, or educational purposes, including, but not limited to, instruction in firearms or handgun safety, care, handling, or marksmanship under the supervision or control of a responsible adult.”¹⁰⁰⁷ Persons 18-to-20 may acquire handguns if they are law enforcement officers or active duty members of the armed forces who have received certain training.¹⁰⁰⁸

Rhode Island. A permit is necessary to purchase or acquire a handgun.¹⁰⁰⁹ Permits are not issued to persons under 21.¹⁰¹⁰

B. Policy

In American law, different activities have been subject to different age limits. Under the U.S. and state constitutions, the age for service in elective offices is sometimes 18, but also may be 21, 25, 30, or (for President) 35.¹⁰¹¹ Activities that are considered by some to be vices—such as alcohol, tobacco, recreational marijuana, and gambling—have sometimes been prohibited, sometimes unregulated, and sometimes had age limits of 18 or 21.¹⁰¹² The trend of the 1960s and

¹⁰¹² *See, e.g.*, Michael Phillip Rosenthal, *The Minimum Drinking Age for Young People: An Observation*, 92 DICK. L. REV. 649 (1988).

the 1970s was for lower age limits for vices, while in recent decades many states have moved to 21.

Perhaps the most important decision a person will ever make is marriage. Certainly, the decision to marry is more momentous than the decision about whether to drink a beer. Today, in every state, the age for marriage *without* parental consent is 16, 17, or 18.¹⁰¹³ The age is lower (or there is no age limit) when there is parental consent.¹⁰¹⁴

In every state, the age at which a criminal defendant can be prosecuted as an adult is no older than eighteen, and usually younger. Eighteen-year-olds are subject to conscription into the U.S. military, notwithstanding vehement parental objection. With parental consent, persons under 18 may enlist in the U.S. Armed Forces.¹⁰¹⁵

For voting, the usual starting age used to be 21. That was lowered to 18 by the Twenty-Sixth Amendment, ratified in 1971, and applying to all federal and state elections.¹⁰¹⁶ That young adults did not have voting rights in the Founding Era is not evidence that young adults lacked arms rights. Some states had property requirements for voting, and higher property requirements for election to the legislature or the governorship.¹⁰¹⁷ No one would contend that people who did not own a certain amount of property were excluded from the Second Amendment.

After the Nineteenth Amendment in 1920 guaranteed women the right to vote, Justice Sutherland, writing for the Court, praised “the great—not to say revolutionary—changes which have taken place since that utterance, in the contractual, political, and civil status of women, culminating in the Nineteenth Amendment.”¹⁰¹⁸ Although laws could still take into account the physical differences between men and women, laws could not treat women like children, by imposing special restrictions on female contract rights that could not constitutionally be imposed on men.¹⁰¹⁹

Although Justice Sutherland’s strong defense of the competence and free choices of women was later swept away when the New Deal Supreme Court abandoned nearly all judicial protection of the right of contract, Justice Sutherland turned out to be on the right side of history. Since the 1970s, very few laws that impose special disabilities on account of sex are considered constitutional.

Similar observations can be made about the rights of young adults, and the constitutional guarantee of their voting rights in 1971. The trend over the last half-century has been towards recognizing that people who bear the burdens of adulthood—including military conscription and liability to criminal prosecution as an adult—also have the rights of adulthood. In general, the rights of young adults include the same contract and property rights as of older persons. The only notable exception to the trend of recognizing young adult rights has been re-raising the age for

¹⁰¹⁸ See *Adkins v. Children’s Hospital*, 261 U.S. 525, 553 (1923), *overruled by West Coast Hotel Co. v. Parrish*, 300 U.S. 379 (1937); U.S. CONST. amend. XIX.

¹⁰¹⁹ *Adkins*, *supra* note 1018, at 401 (“nor is there ground for distinction between women and men, for, certainly, if women require a minimum wage to preserve their morals men require it to preserve their honesty”).

various “vices,” such as alcohol. Under American law, none of these vices are constitutionally protected; instead, these vices can be—and sometimes have been—prohibited for the entire population, regardless of age.¹⁰²⁰

The right to arms is just the opposite. While the Twenty-First Amendment affirms very broad state power over alcohol, up to and including prohibition, the Second Amendment guarantees the right to keep and bear arms.¹⁰²¹ As has been detailed above, the original meaning of the Second Amendment recognized that young adults have a right and duty to keep and bear arms.

VII. Conclusion

If the Second Amendment is interpreted according to the original public meaning, as *Heller* says it must be, the Constitution contains a clear rule for the arms rights of young adults. It is beyond dispute that when the Second Amendment was ratified, young adults had the right to keep and bear arms. State and colonial assemblies collectively legislated on the militia hundreds of times, revising many subjects. The militia entry age was 15-18. Sixteen was the most common. The only 21-year-old law existed for two decades in colonial Virginia; that law was repealed long before the Second Amendment was adopted. From the first federal militia laws to the present, the militia of the United States has always included eighteen-year-olds. During the nineteenth and twentieth centuries, the federal government worked to put arms in their hands.

According to *Heller*, the innermost core of the Second Amendment is the right to keep a handgun in the home for lawful self-defense. Laws that prohibit or nearly prohibit young adults from doing so are unconstitutional.

¹⁰²⁰ See Rosenthal, *supra* note 1012.

¹⁰²¹ U.S. CONST. amends. II, XXI.

EXHIBIT "18"

SATURDAY JULY 8, 1775

The Congress met according to adjournment.

The Petition to the King being engrossed, was compared, and signed by the several members.¹

To the king's most excellent Majesty:

MOST GRACIOUS SOVEREIGN,

We, your Majesty's faithful subjects of the colonies of new Hampshire, Massachusetts bay, Rhode island and Providence Plantations, Connecticut, New York, New Jersey, Pennsylvania, the counties of New Castle, Kent, and Sussex, on Delaware, Maryland, Virginia, North Carolina, and South Carolina, in behalf of ourselves, and the inhabitants of these colonies, who have deputed us to represent them in general Congress, entreat your Majesty's gracious attention to this our humble petition.

The union between our Mother country and these colonies, and the energy of mild and just government, produced benefits so remarkably important, and afforded such an assurance of their permanency and increase, that the wonder and envy of other Nations were excited, while they beheld Great Britain riseing to a power the most extraordinary the world had ever known.

Her rivals, observing that there was no probability of this happy connexion being broken by civil dissensions, and apprehending its future effects, if left any longer undisturbed, resolved to prevent her receiving such continual and formidable accessions of wealth and strength, by checking the growth of these settlements from which they were to be derived.

In the prosecution of this attempt, events so unfavourable to the design took place, that every friend to the interests of Great Britain and these colonies, entertained pleasing and reasonable expectations of seeing an additional force and extention² immediately given to the operations of the union hitherto experienced, by an enlargement of the dominions of the Crown, and the removal of ancient and warlike enemies to a greater distance.

At the conclusion, therefore, of the late war, the most glorious and

¹ "Congress gave a signal proof of their indulgence to Mr. Dickinson, and of their great desire not to go too fast for any respectable part of our body, in permitting him to draw their second petition to the King according to his own ideas, and passing it with scarcely any amendment." Jefferson, *Autobiography*, in his *Writings* (Ford), I, 17.

² In the printed version this word is *exertion*.

July, 1775

159

advantageous that ever had been carried on by British arms, your loyal colonists having contributed to its success, by such repeated and strenuous exertions, as frequently procured them the distinguished approbation of your Majesty, of the late king, and of parliament, doubted not but that they should be permitted, with the rest of the empire, to share in the blessings of peace, and the emoluments of victory and conquest. While these recent and honorable acknowledgments of their merits remained on record in the journals and acts of that august legislature, the Parliament, undefaced by the imputation or even the suspicion of any offence, they were alarmed by a new system of statutes and regulations adopted for the administration of the colonies, that filled their minds with the most painful fears and jealousies; and, to their inexpressible astonishment, perceived the dangers of a foreign quarrel quickly succeeded by domestic dangers, in their judgment, of a more dreadful kind.

Nor were their anxieties alleviated by any tendency in this system to promote the welfare of the Mother country. For tho' its effects were more immediately felt by them, yet its influence appeared to be injurious to the commerce and prosperity of Great Britain.

We shall decline the ungrateful task of describing the irksome variety of artifices, practised by many of your Majesty's Ministers, the delusive pretences, fruitless terrors, and unavailing severities, that have, from time to time, been dealt out by them, in their attempts to execute this impolitic plan, or of tracing, thro' a series of years past, the progress of the unhappy differences between Great Britain and these colonies, which have flowed from this fatal source.

Your Majesty's Ministers, persevering in their measures, and proceeding to open hostilities for enforcing them, have compelled us to arm in our own defence, and have engaged us in a controversy so peculiarly abhorrent to the affections of your still faithful colonists, that when we consider whom we must oppose in this contest, and if it continues, what may be the consequences, our own particular misfortunes are accounted by us only as parts of our distress.

Knowing to what violent resentments and incurable animosities, civil discords are apt to exasperate and inflame the contending parties, we think ourselves required by indispensable obligations to Almighty God, to your Majesty, to our fellow subjects, and to ourselves, immediately to use all the means in our power, not incompatible with our safety, for stopping the further effusion of blood, and for averting the impending calamities that threaten the British Empire.

Thus called upon to address your Majesty on affairs of such moment to America, and probably to all your dominions, we are earnestly desirous of performing this office, with the utmost deference for your Majesty; and we therefore pray, that your¹ royal magnanimity and benevolence may make the most favourable construction of our expressions on so uncommon an occasion. Could we represent in their full force, the sentiments that agitate the minds of us your dutiful subjects, we are persuaded your Majesty would ascribe any seeming deviation from reverence in our language, and even in our conduct, not to any reprehensible intention, but to the impossibility of reconciling the usual appearances of respect, with a just attention to our own preservation against those artful and cruel enemies, who abuse your royal confidence and authority, for the purpose of effecting our destruction.

Attached to your Majesty's person, family, and government, with all devotion that principle and affection can inspire, connected with Great Britain by the strongest ties that can unite societies, and deploring every event that tends in any degree to weaken them, we solemnly assure your Majesty, that we not only most ardently desire the former harmony between her and these colonies may be restored, but that a concord may be established between them upon so firm a basis as to perpetuate its blessings, uninterrupted by any future dissensions, to succeeding generations in both countries, and to transmit your Majesty's Name to posterity, adorned with that signal and lasting glory, that has attended the memory of those illustrious personages, whose virtues and abilities have extricated states from dangerous convulsions, and, by securing happiness to others, have erected the most noble and durable monuments to their own fame.

We beg leave further to assure your Majesty, that notwithstanding the sufferings of your loyal colonists, during the course of the present controversy, our breasts retain too tender a regard for the kingdom from which we derive our origin, to request such a reconciliation as might in any manner be inconsistent with her dignity or her welfare. These, related as we are to her, honor and duty, as well as inclination, induce us to support and advance; and the apprehensions that now oppress our hearts with unspeakable grief, being once removed, your Majesty will find your faithful subjects on this continent ready and willing at all times, as they ever have been, with their lives and fortunes, to assert and maintain the rights and interests of your Majesty, and of our Mother country.

¹ The word *Majesty's* is here inserted in the printed version.

July, 1775

161

We, therefore, beseech your Majesty, that your royal authority and influence may be graciously interposed to procure us relief from our afflicting fears and jealousies, occasioned by the system before mentioned, and to settle peace through every part of your dominions, with all humility submitting to your Majesty's wise consideration whether it may not be expedient for facilitating those important purposes, that your Majesty be pleased to direct some mode, by which the united applications of your faithful colonists to the throne, in pursuance of their common councils, may be improved into a happy and permanent reconciliation; and that, in the mean time, measures may be taken for preventing the further destruction of the lives of your Majesty's subjects; and that such statutes as more immediately distress any of your Majesty's colonies may be repealed.

For by such arrangements as your Majesty's wisdom can form, for collecting the united sense of your American people, we are convinced your Majesty would receive such satisfactory proofs of the disposition of the colonists towards their sovereign and parent state, that the wished for opportunity would soon be restored to them, of evincing the sincerity of their professions, by every testimony of devotion becoming the most dutiful subjects, and the most affectionate colonists.

That your Majesty may enjoy a long and prosperous reign, and that your descendants may govern your dominions with honor to themselves and happiness to their subjects, is our sincere and fervent prayer.

The committee appoint[ed] to prepare a Letter to the Lord Mayor, reported the same, which was read.

On motion, *Resolved*, That the above Committee prepare a letter to ~~Mr. Bellan, Mr. Lee and Mr. R[ichard]~~ Penn, Esq^r and the colony Agents by name in England.²

The Congress resumed the Consideration of the address to the Inhabitants of Gt Britain, which being read and debated by paragraphs, was approved and ~~ordered to be printed~~ is as follows:

[here insert it]

¹ Endorsed: "Petition of the Congress to The King. Sept^r 1st 1775—Delivered to the Earl of Dartmouth by Mess^{rs} Penn and Lee." The text is taken from the original petition, reproduced in facsimile in Stevens's *Facsimiles of Manuscripts in European Archives relating to America*, No. 454.

² Penn sailed for England four days later, and arrived in London August 14. A copy of the petition was not received by Lord Dartmouth until the 26th.

July, 1775

163

*The Twelve United Colonies, by their Delegates in Congress, to the Inhabitants of Great Britain.*¹

FRIENDS, COUNTRYMEN, AND BRETHREN!

By these, and by every other Appellation that may designate the Ties, which bind *us* to each other, we entreat your serious Attention to this our second Attempt to prevent their Dissolution. Rememberance of former Friendships, Pride in the glorious Atchievements of our common Ancestors, and Affection for the Heirs of their Virtues, have hitherto preserved our mutual Connexion; but when that Friendship is violated by the grossest Injuries; when the Pride of Ancestry becomes our Reproach, and we are no otherwise allied than as Tyrants and Slaves; when reduced to the melancholy Alternative of renouncing your Favour or our Freedom; can we hesitate about the Choice? Let the Spirit of *Britons* determine.

In a former Address we asserted our Rights, and stated the Injuries we had then received. We hoped, that the mention of our Wrongs would have roused that honest Indignation which has slept too long for your Honor, or the Welfare of the Empire. But we have not been permitted to entertain this pleasing expectation. Every Day brought an accumulation of Injuries, and the Invention of the Ministry has been constantly exercised, in adding to the Calamities of your *American* Brethren.

After the most valuable Right of Legislation was infringed; when the Powers assumed by your Parliament, in which we are not represented, and from our local and other Circumstances cannot properly be represented, rendered our Property precarious; after being denied that mode of Trial, to which we have long been indebted for the safety of our Persons, and the preservation of our Liberties; after being in many instances divested of those Laws, which were transmitted to us by our common Ancestors, and subjected to an arbitrary Code, compiled under the auspices of *Roman* Tyrants; after those Charters, which encouraged our Predecessors to brave Death and Danger in every Shape, on unknown Seas, in Deserts unexplored, amidst barbarous and inhospitable Nations, were annulled; when, without the form of Trial, without a public Accusation, whole Colonies were condemned, their Trade destroyed, their Inhabitants impoverished; when Soldiers were encouraged to embrue their Hands in the Blood of *Americans*, by offers

¹The Address is not entered in the MS. Journals, and I have used the text given in the first printed edition of the Journal.

of Impunity; when new modes of Trial were instituted for the ruin of the accused, where the charge carried with it the horrors of conviction; when a despotic Government was established in a neighbouring Province, and its Limits extended to every of our Frontiers; we little imagined that any thing could be added to this black Catalogue of unprovoked Injuries: but we have unhappily been deceived, and the late Measures of the *British* Ministry fully convince us, that their object is the reduction of these Colonies to Slavery and Ruin.

To confirm this Assertion, let us recal your attention to the Affairs of *America*, since our last Address. Let us combat the Calumnies of our Enemies; and let us warn you of the dangers that threaten you in our destruction. Many of your Fellow-Subjects, whose situation deprived them of other Support, drew their Maintenance from the Sea; but the deprivation of our Liberty being insufficient to satisfy the resentment of our Enemies, the horrors of Famine were super-added, and a *British* Parliament, who, in better times, were the Protectors of Innocence and the Patrons of Humanity, have, without distinction of Age or Sex, robbed thousands of the Food which they were accustomed to draw from that inexhaustible Source, placed in their neighbourhood by the benevolent Creator.

Another Act of your Legislature shuts our Ports, and prohibits our Trade with any but those States from whom the great Law of self-preservation renders it absolutely necessary we should at present withhold our Commerce. But this Act (whatever may have been its design) we consider rather as injurious to your Opulence than our Interest. All our Commerce terminates with you; and the Wealth we procure from other Nations, is soon exchanged for your Superfluities. Our remittances must then cease with our trade; and our refinements with our Affluence. We trust, however, that Laws which deprive us of every Blessing but a Soil that teems with the necessaries of Life, and that Liberty which renders the enjoyment of them secure, will not relax our Vigour in their Defence.

We might here observe on the Cruelty and Inconsistency of those, who, while they publicly Brand us with reproachful and unworthy Epithets, endeavour to deprive us of the means of defence, by their Interposition with foreign Powers, and to deliver us to the lawless Ravages of a merciless Soldiery. But happily we are not without Resources; and though the timid and humiliating Applications of a *British* Ministry should prevail with foreign Nations, yet Industry, prompted by necessity, will not leave us without the necessary Supplies.

July, 1775

165

We could wish to go no further, and, not to wound the Ear of Humanity, leave untold those rigorous Acts of Oppression, which are daily exercised in the Town of *Boston*, did we not hope, that by disclaiming their Deeds and punishing the Perpetrators, you would shortly vindicate the Honour of the *British* Name, and re-establish the violated Laws of Justice.

That once populous, flourishing and commercial Town is now garrisoned by an Army sent not to protect, but to enslave its Inhabitants. The civil Government is overturned, and a military Despotism erected upon its Ruins. Without Law, without Right, Powers are assumed unknown to the Constitution. Private Property is unjustly invaded. The Inhabitants, daily subjected to the Licentiousness of the Soldiery, are forbid to remove in Defiance of their natural Rights, in Violation of the most solemn Compacts. Or if, after long and wearisome Solicitation, a Pass is procured, their Effects are detained, and even those who are most favoured, have no Alternative but Poverty or Slavery. The Distress of many thousand People, wantonly deprived of the Necessaries of Life, is a Subject, on which we would not wish to enlarge.

Yet, we cannot but observe, that a *British* Fleet (unjustified even by Acts of your Legislature) are daily employed in ruining our Commerce, seizing our Ships, and depriving whole Communities of their daily Bread. Nor will a Regard for your Honour permit us to be silent, while *British* Troops sully your Glory, by Actions, which the most inveterate Enmity will not palliate among civilized Nations, the wanton and unnecessary Destruction of *Charlestown*, a large, ancient, and once populous Town, just before deserted by its Inhabitants, who had fled to avoid the Fury of your Soldiery.

If you still retain those Sentiments of Compassion, by which *Britons* have ever been distinguished, if the Humanity, which tempered the Valour of our common Ancestors, has not degenerated into Cruelty, you will lament the Miseries of their Descendants.

To what are we to attribute this Treatment? If to any secret Principle of the Constitution, let it be mentioned; let us learn, that the Government, we have long revered, is not without its Defects, and that while it gives Freedom to a Part, it necessarily enslaves the Remainder of the Empire. If such a Principle exists, why for Ages has it ceased to operate? Why at this Time is it called into Action? Can no Reason be assigned for this Conduct? Or must it be resolved into the wanton Exercise of arbitrary Power? And shall the Descendants of *Britons* tamely submit to this?—No, Sirs! We never will,

while we revere the Memory of our gallant and virtuous Ancestors, we never can surrender those glorious Privileges, for which they fought, bled, and conquered. Admit that your Fleets could destroy our Towns, and ravage our Sea-Coasts; these are inconsiderable Objects, Things of no Moment to Men, whose Bosoms glow with the Ardor of Liberty. We can retire beyond the Reach of your Navy, and, without any sensible Diminution of the Necessaries of Life, enjoy a Luxury, which from that Period you will want—the Luxury of being Free.

We know the Force of your Arms, and was it called forth in the Cause of Justice and your Country, we might dread the Exertion: but will *Britons* fight under the Banners of Tyranny? Will they counteract the Labours, and disgrace the Victories of their Ancestors? Will they forge Chains for their Posterity? If they descend to this unworthy Task, will their Swords retain their Edge, their Arms their accustomed Vigour? *Britons* can never become the Instruments of Oppression, till they lose the Spirit of Freedom, by which alone they are invincible.

Our Enemies charge us with Sedition. In what does it consist? In our Refusal to submit to unwarrantable Acts of Injustice and Cruelty? If so, shew us a Period in your History, in which you have not been equally Seditious.

We are accused of aiming at Independence; but how is this Accusation supported? By the Allegations of your Ministers, not by our Actions. Abused, insulted, and contemned, what Steps have we pursued to obtain Redress? We have carried our dutiful Petitions to the Throne. We have applied to your Justice for Relief. We have retrenched our Luxury, and withheld our Trade.

The Advantages of our Commerce were designed as a Compensation for your Protection: When you ceased to protect, for what were we to compensate?

What has been the Success of our Endeavours? The Clemency of our Sovereign is unhappily diverted; our Petitions are treated with Indignity; our Prayers answered by Insults. Our Application to you remains unnoticed, and leaves us the melancholy Apprehension of your wanting either the Will, or the Power, to assist us.

Even under these Circumstances, what Measures have we taken that betray a Desire of Independence? Have we called in the Aid of those foreign Powers, who are the Rivals of your Grandeur? When your Troops were few and defenceless, did we take Advantage of their Distress and expel them our Towns? Or have we permitted them to fortify, to receive new Aid, and to acquire additional Strength?

July, 1775

167

Let not *your* Enemies and *ours* persuade you, that in this we were influenced by Fear or any other unworthy Motive. The Lives of *Britons* are still dear to us. They are the Children of our Parents, and an uninterrupted Intercourse of mutual Benefits had knit the Bonds of Friendship. When Hostilities were commenced, when on a late Occasion we were wantonly attacked by your Troops, though we repelled their Assaults and returned their Blows, yet we lamented the Wounds they obliged us to give; nor have we yet learned to rejoice at a Victory over *Englishmen*.

As we wish not to colour our Actions, or disguise our Thoughts, we shall, in the simple Language of Truth, avow the Measures we have pursued, the Motives upon which we have acted, and our future Designs.

When our late Petition to the Throne produced no other Effect than fresh Injuries, and Votes of your Legislature, calculated to justify every Severity; when your Fleets and your Armies were prepared to wrest from us our Property, to rob us of our Liberties or our Lives; when the hostile Attempts of General *Gage* evinced his Designs, we levied Armies for our Security and Defence. When the Powers vested in the Governor of *Canada*, gave us Reason to apprehend Danger from that Quarter; and we had frequent Intimations, that a cruel and savage Enemy was to be let loose upon the defenceless Inhabitants of our Frontiers; we took such Measures as Prudence dictated, as Necessity will justify. We possessed ourselves of *Crown Point* and *Ticonderoga*. Yet give us leave most solemnly to assure you, that we have not yet lost Sight of the Object we have ever had in View, a Reconciliation with you on constitutional Principles, and a Restoration of that friendly Intercourse, which, to the Advantage of both, we till lately maintained.

The Inhabitants of this Country apply themselves chiefly to Agriculture and Commerce. As their Fashions and Manners are similar to yours, your Markets must afford them the Conveniences and Luxuries, for which they exchange the Produce of their Labours. The Wealth of this extended Continent centres with you; and our Trade is so regulated as to be subservient only to your Interest. You are too reasonable to expect, that by Taxes (in Addition to this) we should contribute to your Expence; to believe, after diverting the Fountain, that the Streams can flow with unabated Force.

It has been said, that we refuse to submit to the Restrictions on our Commerce. From whence is this Inference drawn? Not from our

Words, we have repeatedly declared the Contrary; and we again profess our Submission to the several Acts of Trade and Navigation, passed before the Year 1763, trusting, nevertheless, in the Equity and Justice of Parliament, that such of them as, upon cool and impartial Consideration, shall appear to have imposed unnecessary or grievous Restrictions, will, at some happier Period, be repealed or altered. And we cheerfully consent to the Operation of such Acts of the *British* Parliament, as shall be restrained to the Regulation of our external Commerce, for the Purpose of securing the commercial Advantages of the whole Empire to the Mother Country, and the commercial Benefits of its respective Members; excluding every Idea of Taxation internal or external, for raising a Revenue on the Subjects in *America*, without their Consent.

It is alledged that we contribute nothing to the common Defence. To this we answer, that the Advantages which *Great Britain* receives from the Monopoly of our Trade, far exceed our Proportion of the Expence necessary for that Purpose. But should these Advantages be inadequate thereto, let the Restrictions on our Trade be removed, and we will cheerfully contribute such Proportion when constitutionally required.

It is a fundamental Principle of the *British* Constitution, that every Man should have at least a Representative Share in the Formation of those Laws, by which he is bound. Were it otherwise, the Regulation of our internal Police by a *British* Parliament, who are and ever will be unacquainted with our local Circumstances, must be always inconvenient, and frequently oppressive, working our wrong, without yielding any possible Advantage to you.

A Plan of Accommodation (as it has been absurdly called) has been proposed by your Ministers to our respective Assemblies. Were this Proposal free from every other Objection, but that which arises from the Time of the Offer, it would not be unexceptionable. Can Men deliberate with the Bayonet at their Breast? Can they treat with Freedom, while their Towns are sacked; when daily Instances of Injustice and Oppression disturb the slower Operations of Reason?

If this Proposal is really such as you would offer and we accept, why was it delayed till the Nation was put to useless expence, and we were reduced to our present melancholy Situation? If it holds forth nothing, why was it proposed? Unless indeed to deceive you into a Belief, that we were unwilling to listen to any Terms of Accommodation. But what is submitted to our Consideration? We contend for

July, 1775

169

the Disposal of our Property. We are told that our Demand is unreasonable, that our Assemblies may indeed collect our Money, but that they must at the same Time offer, not what your Exigencies or ours may require, but so much as shall be deemed sufficient to satisfy the Desires of a Minister and enable him to provide for Favourites and Dependants. A Recurrence to your own Treasury will convince you how little of the Money already extorted from us has been applied to the Relief of your Burthens. To suppose that we would thus grasp the Shadow and give up the Substance, is adding Insult to Injuries.

We have nevertheless again presented an humble and dutiful Petition to our Sovereign, and to remove every imputation of Obstinacy, have requested his Majesty to direct some Mode, by which the united Applications of his faithful Colonists may be improved into a happy and permanent Reconciliation. We are willing to treat on such Terms as can alone render an accommodation lasting, and we flatter ourselves that our pacific Endeavours will be attended with a removal of ministerial Troops, and a repeal of those Laws, of the Operation of which we complain, on the one part, and a disbanding of our Army, and a dissolution of our commercial Associations, on the other.

Yet conclude not from this that we propose to surrender our Property into the Hands of your Ministry, or vest your Parliament with a Power which may terminate in our Destruction. The great Bulwarks of our Constitution we have desired to maintain by every temperate, by every peaceable Means; but your Ministers (equal Foes to *British* and *American* freedom) have added to their former Oppressions an Attempt to reduce us by the Sword to a base and abject submission. On the Sword, therefore, we are compelled to rely for Protection. Should Victory declare in your Favour, yet Men trained to Arms from their Infancy, and animated by the Love of Liberty, will afford neither a cheap or easy Conquest. Of this at least we are assured, that our Struggle will be glorious, our Success certain; since even in Death we shall find that Freedom which in Life you forbid us to enjoy.

Let us now ask what Advantages are to attend our Reduction? the Trade of a ruined and desolate Country is always inconsiderable, its Revenue trifling; the Expence of subjecting and retaining it in subjection certain and inevitable. What then remains but the gratification of an ill-judged Pride, or the hope of rendering us subservient to designs on your Liberty.

Soldiers who have sheathed their Swords in the Bowels of their *American* Brethren, will not draw them with more reluctance against

you. When too late you may lament the loss of that freedom, which we exhort you, while still in your Power, to preserve.

On the other hand, should you prove unsuccessful; should that Connexion, which we most ardently wish to maintain, be dissolved; should your Ministers exhaust your Treasures and waste the Blood of your Countrymen in vain Attempts on our Liberty; do they not deliver you, weak and defenceless, to your natural Enemies?

Since then your Liberty must be the price of your Victories; your Ruin, of your Defeat: What blind Fatality can urge you to a pursuit destructive of all that *Britons* hold dear?

If you have no regard to the Connexion that has for Ages subsisted between us; if you have forgot the Wounds we have received fighting by your Side for the extention of the Empire; if our Commerce is not an object below your consideration; if Justice and Humanity have lost their influence on your Hearts; still Motives are not wanting to excite your Indignation at the Measures now pursued; Your Wealth, your Honour, your Liberty are at Stake.

Notwithstanding the Distress to which we are reduced, we sometimes forget our own Afflictions, to anticipate and sympathize in yours. We grieve that rash and inconsiderate Councils should precipitate the destruction of an Empire, which has been the envy and admiration of Ages, and call God to witness! that we would part with our Property, endanger our Lives, and sacrifice every thing but Liberty, to redeem you from ruin.

A Cloud hangs over your Heads and ours; 'ere this reaches you, it may probably burst upon us; let us then (before the remembrance of former Kindness is obliterated) once more repeat those Appellations which are ever grateful in our Ears; let us entreat Heaven to avert our Ruin, and the Destruction that threatens our Friends, Brethren and Countrymen, on the other side of the *Atlantic*.

Ordered, That the Address be published and a number of them sent by M^r Penn to England.¹

The Letter to the Lord Mayor, &c., being read again and debated, was approved, and is as follows:

MY LORD,

Permitt the Delegates of the people of twelve antient colonies, to pay y^r Lordship, and the very respectable body of which you are head,

¹This address was printed as a Postscript to the *Pennsylvania Packet*, 17 July, 1776.

July, 1775

171

the just tribute of gratitude and thanks, for the virtuous and unsolicited resentment you have shewn to the violated rights of a free people. The city of London, my Lord, having in all ages, approved itself the patron of liberty, and the support of just government, against lawless tyranny and oppression, cannot fail to make us deeply sensible of the powerful aid, our cause must receive from such advocates. A cause, my Lord, worthy the support of the first city in the world, as it involves the fate of a great continent, and threatens to shake the foundations of a flourishing, and, until lately, a happy empire.

North America, my Lord, wishes most ardently for a lasting connection with Great Britain on terms of just and equal liberty; less than which generous minds will not offer, nor brave and free ones be willing to receive.

A cruel war has at length been opened agst us, and whilst we prepare to defend ourselves like the descendants of Britons, we still hope that the mediation of wise and good citizens, will at length prevail over despotism, and restore harmony and peace, on permanent principles, to an oppressed and divided empire.

We have the honor to be, my Lord,
With great esteem, y^r Lordship's
Faithful friends and fellow-subjects.

Signed by order of the Congress,

JOHN HANCOCK
*President.*¹

Ordered, That the above Letter be fairly transcribed, and signed by the president, and sent by M^r Penn.

The Committee appointed to prepare a letter to M^r Penn and the Colony Agents, bro^t in the same, which being read was approved:

GENTLEMEN,

The perseverance of the British ministry in their unjust and cruel system of colony administration, has occasioned the meeting of another Congress.

We have again appealed to the justice of our sovereign for protection agst the destruction which his Ministers meditate for his American subjects. This Petition to his Majesty you will please, Gentlemen, to present to the King with all convenient expedition, after which we

¹This letter was printed in the *Pennsylvania Packet*, 11 December, 1775.

desire it may be given to the public. We likewise send you our second application to the equity and interest of our fellow subjects in G B, and also a Declaration setting forth the causes of our taking up arms: Both which we wish may be immediately put to press, and communicated as universally as possible.

The Congress entertain the highest sense of the wise and worthy interposition of the Lord Mayor and Livery of London, in favour of injured America. They have expressed this, their sense, in a letter to his Lordship and the livery, which we desire may be presented in the manner most agreeable to that respectable body.

You will oblige us, Gentlemen, by giving the most early information to the Congress, and to the speakers of our respective assemblies, of your proceeding in this business, and such further intelligence as you may judge to be of importance to America in this great contest.

We are, with great regard, gentlemen, y^r most obedient and very humble serv^{ts}.

By order of the Congress,

[JOHN HANCOCK,
Pres.]

Ordered, That the above be fairly transcribed, and to be signed by the pres^t, and then by him sent under cover, with the petition to the King, and address to the Inhabitants of G B, and letter to the L^d Mayor of London to R[ichard] Penn, Esq^t and to request him, in behalf of the Congress, to join with the Colony Agents in presenting the petition to the King.

Order of the day put off, and adjourned till Monday at 9 o'Clock.¹

MONDAY, JULY 10, 1775

The Congress met according to adjournment.

It being suggested, that there was a gentleman in town well acquainted with the situation and disposition of the Indians,

¹A letter from General Schuyler, dated June 30, was received by express and read this day. The letter is in *Papers of the Continental Congress*, No. 153, I, folio 10.

The History of the American Revolution, Foreword by Lester H. Cohen (Indianapolis: Liberty Fund 1990). Vol. 1.

Author: [David Ramsay](#)

Editor: [Lester H. Cohen](#)

About This Title:

Vol. 1 of a 2 volume work. David Ramsay's *History of the American Revolution* appeared in 1789 during an enthusiastic celebration of nationhood. It is the first American national history written by an American revolutionary and printed in America. Ramsay, a well-known Federalist, was an active participant in many of the events of the period and a member of the Continental Congress from South Carolina. Ramsay discusses the events and ideas of the American Revolution (from the outbreak of turbulence in the 1760s to the onset of Washington's administration) and makes an ardent Federalist defense of the Constitution of 1787. Based on the original and authorized 1789 version, this is the first new modern edition of the work.

Foreword

David Ramsay's *The History of the American Revolution* appeared in 1789, during an enthusiastic celebration of American nationhood. "Nationhood," moreover, was beginning to take on new cultural and intellectual connotations. The United States had declared its *political* independence more than a decade earlier, and a rising group of "cultural nationalists" was asserting that it was now time to declare *cultural* independence as well. The American people would never be truly autonomous otherwise. "However they may boast of Independence, and the freedom of their government," wrote Noah Webster, lexicographer, historian, and the nationalists' most brilliant spokesman, "yet their opinions are not sufficiently independent." Instead of liberating themselves from the influences of English culture, as they had from England's arms and government, the Americans were continuing to manifest "an astonishing respect for the arts and literature of their parent country, and a blind imitation of its manners." While such "habitual respect" for England was once understandable, even laudable, it had become an impediment to creating an independent American character and therefore posed dangers for the future.¹

Cultural nationalism was almost inevitable in the aftermath of a revolution that seemed to require Americans to define not only their political identity, but their spiritual identity as well. Such nationalism manifested itself in a variety of ways in literature and the arts, science, and education. In its superficial manifestations, it testified to an American inferiority complex, consisting mainly of defensive protests against the notion, common in eighteenth-century Europe, that the New World was a physically and morally debased version of the Old, and of mushy effusions of patriotic sentiment over any product of American literature, art, or science. Thus one commentator gushed over Ramsay's *The History of the Revolution of South-Carolina* (1785), saying that it "reflects honour on this country, and gives room for hope that her literary will in time equal her military reputation," and Rev. James Madison enthused that the work's "Dress is altogether American." Another reviewer, praising *The History of the American Revolution*, observed that it is a "necessity that the history of the American revolution be written in our own country, by a person of suitable abilities, who has witnessed the incidents attendant on that great event."² Thus did patriotism pass for culture, and Ramsay's work obviously measured up.

On a more sophisticated level, some cultural nationalists—Ramsay among them—developed greater insight into the idea of American cultural identity. These nationalists recognized that, along with the richly deserved celebration and self-congratulation, the new nation needed a strong unifying culture. Without a culture that articulated the fundamental tenets of liberty, constitutionalism, virtue, and simplicity, the principles of the American Revolution would soon become corrupted. Such corruption could come from without, through the people's continued reliance on English cultural values; it could also come from within, through the disintegrating forces already operating to dissolve the new nation into a multitude of disparate fragments. This realization prompted the nationalists anxiously to develop a notion of American identity that rested on two major premises: that politics, culture, and society

were inextricably intertwined, so that a change in any one would subtly alter the others; and that culture was a significant force in shaping human consciousness, an idea which offered a powerful incentive to use literature as a means of exhortation.

Like all the historians of the Revolutionary era, Ramsay saw historical writing as a vehicle for fostering nationhood, an instrument for promoting the kind of unity, even homogeneity, that the cultural nationalists desired.³ Almost all the leading cultural nationalists were also political nationalists, the surest sign of which was that they saw the Constitution as the great vehicle for both creating and preserving American unity. And, although it was possible to be a nationalist culturally while opposing the Constitution for political reasons (as the historian, poet, and playwright Mercy Otis Warren made clear), Ramsay's reasons for writing a peculiarly consensual or national history were intimately tied to his Federalist political views.

Those reasons were motivated by Ramsay's perception that the new nation faced two sorts of danger: on the one hand, the danger of political divisions between the states and within each state, divisions which had already given rise to factions with competing economic interests; and on the other, the threat of social and cultural divisions among the people of the several states and regions, which could readily lead to insularity and hostility.

Thus, for example, he wrote in political terms about his fellow South Carolinians who put local interests ahead of national unity and opposed ratification of the Constitution. "To write, to speak, or even to think of a separation of the states is political blasphemy," he wrote to Jedidiah Morse. " 'One Indivisible' is my motto."⁴ He even postponed publication of his history of the Revolution until the fate of the Constitution had been decided, for "The revolution cannot be said to be completed till that or something equivalent is established."⁵ But Ramsay continued to fear the potential for disunity even after the Constitution had been operating for years. "We should, above all things, study to promote the union and harmony of the different states," he cautioned in 1794. "We should consider the people of this country ... as forming one whole, the interest of which should be preferred to that of every part."⁶

While it is impossible to separate his political from his cultural motives, Ramsay was at his best when he spoke of the importance of historical writing with his cultural concerns in mind. In fact, in his Federalist pamphlet, "An Address to the Freemen of South-Carolina (1788)," he cast one of his strongest political arguments for the Constitution in cultural terms. He called upon his fellow Carolinians to "consider the people of all the thirteen states, as a band of brethren, speaking the same language, professing the same religion, inhabiting one undivided country, and designed by heaven to be one people."⁷ Ramsay was as sensitive as any intellectual of his era to the kinds of divisions, real and potential, that tended to separate Americans and undermine the unity he sought. Even ratification of the Constitution was less a culmination than a beginning, less a sign of unity than a foundation for it. "We are too widely disseminated over an extensive country & too much diversified by different customs & forms of government to feel as one people[,] which we are," he confided to John Eliot in 1795. But through historical writings, such as Jeremy Belknap's *History of New Hampshire* (1792), "we might become better acquainted with each

other in that intimate familiar manner which would wear away prejudices—rub off asperities & mould us into a homogenous people.” Belknap’s achievement was all the more remarkable, for Belknap had written about a single state, yet his work breathed a national spirit.⁸ In short, even in ostensibly local history, it was possible—indeed, necessary—to write of the nation and its character, for such writings tended to unify the people. “I long to see Dr. [Hugh] Williamson’s history of North Carolina,” Ramsay wrote to Belknap in 1795. “Indeed I wish to see a history of every state in the Union written in the stile and manner of yours & Williams’s history of Vermont. We do not know half enough of each other. Enthusiastic as I am for the Unity of our republic[,] I wish for every thing that tends to unite us as one people who know[,] esteem & love each other.”⁹ In 1809, Ramsay’s own *The History of South-Carolina* would join the list of nationalistic state histories.

Ramsay’s passion for unity and his fear of fragmentation prompted him to invent a national past characterized by consensus. This is not to say that Ramsay was a dissembler or deceiver who created a past out of whole cloth. It is, rather, to emphasize that for Ramsay, as for all the historians of the Revolution, historical writing was not so much an end in itself as it was a means to cultivate the political and moral consciousness of the present and future generations. Sensitive to divisions within America—political, ethnic, racial, religious, economic—Ramsay genuinely feared chaos, and his experience in both state and confederation politics led him to believe that only by generating a constellation of commonly held values and principles could the nation resist the forces that tended to pull it apart. Ramsay did not invent those values and assumptions; he drew them out of the intellectual climate of Revolutionary America and found clues to them in America’s past. But he focused upon them and molded them into the story of the new nation, so that his version of the past appeared to be inevitable. Thus, when Ramsay spoke of using history as an instrument of national unity, he meant to incite future generations to commit themselves to the principles of revolutionary republicanism.¹⁰

Ramsay, even more than his contemporary historians, was experienced in politics, knowledgeable about world affairs, sensitive to the economic and political interests of his compatriots, and had access to a vast number of historical records. He knew that America’s past had been marked by tensions that from time to time had erupted into open conflict. Yet he purposefully created an image of the colonial past that diminished the importance of conflicts and portrayed the colonists as revolutionaries—an image of consensus, unity, and an unfaltering commitment to republican principles. In short, he attempted to create a national future by inventing a consensual past—to provide an instant tradition for a revolutionary people.

Ramsay’s principal strategy was to establish a republican lineage, an unbroken succession of American generations that were strenuously committed to the principles of revolutionary republicanism from the moment of settlement in the seventeenth century. The colonists’ chief characteristic was that they formed an intellectual, even spiritual, consensus on three major principles: they were politically dedicated to an ordered liberty within the context of law and balanced, representative government; they were ethically committed to the obligations of conscience and the public good, so that social life was simple and felicitous and individual conduct marked by industry

and prudence; and they were convinced philosophically that people are free and efficacious beings who are responsible for their actions and for the consequences their actions bring about. It was this constellation of fundamental principles that constituted the American national character as Ramsay depicted it; and it was to this constellation that he pointed when he exhorted members of his own and future generations to develop cultural unity as a bulwark against division.

Again, Ramsay insisted that these principles were not new to the Revolutionary generation; the conflicts between the Americans and the British during the 1760s and '70s had merely called forth the original settlers' character. The complex coincidence of geography, politics, social arrangements, and values in colonial America had "produced a warm love for liberty, a high sense of the rights of human nature, and a predilection for independence."¹¹

"From their first settlement, the English Provinces received impressions favourable to democratic forms of government." Colonization generally coincided with the struggles in England between Parliament and the crown, so that the issue of popular government based on consent, as contrasted with the divine rights of kings, was a current topic of debate. The colonists who emigrated to the New World consisted mainly of people who were "hostile to the claims of [monarchical] prerogative." They "were from their first settlement in America, devoted to liberty, on English ideas, and English principles." Crucially, these ideas were not mere abstractions. The colonists "not only conceived themselves to inherit the privileges of Englishmen, but though in a colonial situation, actually possessed them."¹²

By showing that republican principles and practices had been deeply ingrained in the people for generations, Ramsay vivified the image of a revolutionary past so far as to suggest that the colonists had been *independent* from the beginning. "The circumstances under which New-England was planted, would a few centuries ago have entitled them, from their first settlement, to the privileges of independence." The colonists had set out at their own expense, with no prospects other than hard work, to build homes and plant civilization in a wilderness. They purchased their lands from "the native proprietors" and exerted themselves to reap the bounties of nature. One hardly needed John Locke to make the argument that people who expended their own labor, paid for their own lands, and voluntarily formed their own governments owed no obligations to Britain except those that "resulted from their voluntary assent" as revealed in "express or implied compact." And those were manifestly limited. The people knew that government rested upon contracts freely entered; that taxation and representation were indissolubly joined; that they held and alienated their property only by consent; that the end of government was the happiness of the people; that the people were free to assemble and petition the government for redress of grievances; and that, all proximate means failing, the people had the natural right to rebel against tyrannical rule.¹³ Thus did the colonizing generation consist of proto-revolutionaries.

The colonists were not only republicans in politics, they were also dedicated to personal and social practices that conduced to individual happiness and to the public good. "The state of society in the Colonies favoured a spirit of liberty and independence," Ramsay wrote. Here, the "inhabitants were all of one rank. Kings,

Nobles, and Bishops, were unknown to them.” The people were “unaccustomed to that distinction of ranks” which characterized European society, and they were “strongly impressed with an opinion, that all men are by nature equal.” The colonists’ religious practices “also nurtured a love for liberty.” The majority were Protestants, Ramsay noted, “and all protestantism is founded on a strong claim to natural liberty, and the right of private judgment.” There were, of course, numerous sects, but “they all agreed in the communion of liberty, and all reprobated the courtly doctrines of passive obedience, and non-resistance.” Nor were the colonists subjected to the pernicious effects of the luxury and opulence indulged in by the courts of Europe. Instead, “inured from their early years to the toils of a country life, they dwelled in the midst of rural plenty.”

Colonial American society, in short, was characterized by simplicity of manners, and habits of industry, prudence, and morality. The colonists’ experience thus “gave a cast of independence to the manners of the people” and diffused among them “the exalting sentiments” of liberty.¹⁴

Given the colonists’ ingrained political and social values and their commitment to the principles of liberty and democratic government, it was obvious that the American Revolution was not a sudden upsurge of resentment against particular acts of Parliament. Resistance and revolution were the inevitable and justifiable responses of a people long habituated to such values. “The genius of the Americans”—that is, their original “republican habits and sentiments”—had prepared them to resist encroachments on their rights and to form popular governments during the Revolutionary era. This was the final element in Ramsay’s message to future generations: confronted with arbitrary power, the colonists had established a tradition of showing the courage of their convictions, resisting inroads against their liberties, and taking responsibility for the future.¹⁵

But why should Ramsay have presented this manifestly one-dimensional image of the colonists as strenuous republicans, committed to simplicity, industry, prudence, equality, and natural rights? To some extent he actually did see them as American revolutionaries in the making, for so powerful was the “republican synthesis” in his own day that it shaped his ideas and experience and predisposed him to see all of history in its terms.¹⁶ Yet this will not entirely explain Ramsay’s oversimplifications, which seem drastic insofar as his history contains little or no intercolonial rivalry, popular uprisings against proprietary governors, political strife among competing interest groups, ethnic tensions, religious intolerances, or class divisions. Even slavery appears in Ramsay’s *History* as a mitigated evil, which, while manifestly wrong, at least had produced sentiments of liberty and independence among the masters.¹⁷ If for five or six generations the Americans had held the deeply ingrained political, social, moral, and philosophical principles that Ramsay described and if they had experienced a minimum of conflict, then why did Ramsay have to remind his readers of the American tradition above all else?

The answer contains three parts. First, as noted earlier, there were Ramsay’s apprehensions. He feared that disunity would rend the fabric of the new nation—indeed, that without shared assumptions, principles, and values, as well as a

federal Constitution, America might even separate into thirteen autonomous states or into two or three regional governments. In either case, it would become prey to the great European powers, even if it did not destroy itself from within.¹⁸

Second, Ramsay feared that the great tradition, particularly its powerful moral elements, had been badly damaged by the war. Throughout the war years and into the 1780s, Ramsay expressed his doubts whether the people had sufficient moral courage to make a republican experiment work. Within a year of delivering his stirring vision of an American republican future in his “Oration on the Advantages of American Independence” (1778), he wrote to William Henry Drayton that “A spirit of money-making has eaten up our patriotism.” To Benjamin Rush he added: “I most devoutly wish for peace. Our morals are more depreciated than our currency, & that is bad enough.” By 1783 he was worried that “This revolution has introduced so much anarchy that it will take half a century to eradicate the licentiousness of the people. I wish for the honor of human nature that in these last ages of the world it may appear that mankind are capable of enjoying the blessings of freedom without the extravagancies that usually accompany it.” By 1785 the theme of internal corruption had become more insistent and urgent. “I feel with you the declension of our public virtue,” he wrote to John Eliot. “Liberty which ought to produce every generous principle has not in our republics been attended with its usual concomitants. Pride[,] Luxury[,] dissipation & a long train of unsuitable vices have overwhelmed our country.” And within a year he expressed the ultimate fear: “We have neither honesty nor knowledge enough for republican governments. ... During the war we thought the termination of that would end all our troubles. It is now ended three years & our public situation is as bad as ever.”¹⁹ ~ ~

The third part of the answer is that historical writings, like Fourth of July orations, sermons, and “all the powers of Eloquence” had the capacity to shape thought, and thus historians, like ministers and politicians, had an *obligation* to use their writings “to counter-act that ruinous propensity we have for foreign superfluities & to excite us to the long neglected virtues of Industry & frugality.”²⁰ History, in short, was a moral art. That was why Ramsay praised Belknap’s and Williams’s histories; that was why he believed that John Eliot’s *Biographical Dictionary* “rendered an essential service to the living by holding up so many excellent models for their imitation from the illustrious dead”; and that was why he deliberately omitted conflict and strife in the colonial past.²¹ Indeed, Ramsay once drew an instructive analogy between history and fiction: “Novelists take fiction & make it a vehicle of their opinions on a variety of subjects,” he observed. “I take truth & the facts of history for the same purpose.”²² Ramsay was well aware that he was using “art” in the service of history and history in the service of morality and national unity. “Had I a voice that could be heard from New Hampshire to Georgia,” he said in 1794, “it should be exerted in urging the necessity of disseminating virtue and knowledge among our citizens.” His histories represented that voice.

Ramsay’s voice was, in fact, heard all over America and over much of Europe as well.²³ Between 1785, when he was thirty-six, and his death in 1815, he published three histories—two on South Carolina and *The History of the American Revolution*—that remain significant after two hundred years. He also wrote numerous

other works, ranging from an analysis of yellow fever and well water in Charleston, to a eulogy on the death of his friend and mentor, Benjamin Rush, to a memoir of his wife, Martha Laurens Ramsay, to two examples of that distinctively American genre, the Fourth of July oration.

Even in an age dominated by such *philosophes* as Benjamin Franklin and Thomas Jefferson, Ramsay is notable for his fertile and restless intellect. He entered the sophomore class of the College of New Jersey (later renamed Princeton) in 1762 and was graduated three years later at age sixteen. For the next five years he taught school in Maryland and Virginia. Deciding finally to pursue a career in medicine, he enrolled in the newly reorganized medical school of the College of Philadelphia, which boasted an excellent faculty that included the brilliant twenty-four-year-old Rush. Ramsay received his Bachelor of Physic in 1773. On Ramsay's graduation Rush summarized the talents of his young friend, whom he esteemed as "far superior to any person we ever graduated at our college; his abilities are not only good, but great; his talents and knowledge are universal; I never saw so much strength of memory and imagination, united to so fine a judgment."²⁴

In 1774, after practicing medicine for a year in Cecil County, Maryland, Ramsay set out for Charleston, where he made his home for the rest of his life. Charleston was then a leading Southern city, with some 12,000 inhabitants, a growing commerce, and a well-defined social hierarchy that divided whites from one another along class lines and whites from blacks along racial lines—clear evidence of the divisions in society to which he was so sensitive and which he deemphasized in his *History*. Yet within a year of his arrival, this outsider from Pennsylvania, the son of immigrants and a Presbyterian in the midst of an Anglican elite, had married Sabina Ellis, daughter of a prominent merchant,²⁵ and within three years, he was elected to the South Carolina assembly. By 1778 Ramsay had a seat on the state's prestigious privy council. He served in the Continental Congress in 1785, returned to his seat in the state assembly in 1786, served as a delegate to the convention that ratified the South Carolina state constitution in 1788. From 1791 to 1797 Ramsay was president of the state senate. His only disappointment in politics was his resounding defeat by William Loughton Smith for a seat in the first federal congress.²⁶

Neither his political nor his medical and scientific careers, however, seemed to satisfy his intellectual curiosity. Ramsay turned to historical writing, he explained to Thomas Jefferson, "when I was in confinement in St. Augustine in the year 1781 and [it] has employed my leisure hours ever since."²⁷ But Ramsay was drawn to history and to his national vision by his political experience, which convinced him that state government was, by turns, too timid and too wild to solve many of the problems that arose in the post-Revolutionary era. "There is a languor in the States that forebodes ruin," he complained to Rush in 1786. He also noted the "temporising" of the Southern states in particular, and feared the disintegration of the United States if the Constitutional Convention did not produce "an efficient federal government."²⁸ Politics and government were no better in South Carolina; they may have been worse:

The eight years of war in Carolina were followed by eight years of disorganization, which produced such an amount of civil distress as diminished with some their

respect for liberty and independence. Several apprehended that the same scenes which had taken place in England in the seventeenth century after a long and bloody civil war, would be acted over again in America by a fickle people who had neither the fortitude nor the wisdom to govern themselves. ... Peace and liberty were found inadequate to promote public happiness without the aid of energetic government.

The state legislature either languished and did nothing or legislated too much. The best and most courageous act performed by state officials, finally, was to agree to the Constitution that would constrain some of their own power! [29](#)

With first-hand experience of the inefficiencies and vacillations of state government and an urge to cultivate eloquence, Ramsay began writing history. He announced optimistically in his “Oration on the Advantages of American Independence” (1778) that the very presence of free, republican institutions was bound to produce an exalted literature. In an oppressive regime, “ignorance,” after all, “was better than knowledge,” whereas “Eloquence is the child of a free state.” America, he predicted, “will produce poets, orators, criticks, and historians, equal to the most celebrated of the ancient commonwealths of Greece and Italy.”[30](#)

Despite his optimism about the prospects of culture in the new nation, Ramsay soon faced a grim reality. Although he became known as America’s “Tacitus” and “Polybius,” he learned all too quickly that “the trade of an author is a very poor one in our new world.” Concerning *The History of the Revolution of South-Carolina*, he lamented to fellow historian William Gordon: “My advances will not be replaced till I have sold 500 copies & my debts contracted and yet unpaid will require the sale of 700 more. The edition has cost me 5,000 dollars. The printers bill is 2500 dollars. The engravings 800[,] the binding 4/ 10 a copy. In short I have no brilliant pecuniary prospects before me.”[31](#)

Yet despite the financial failure of his South Carolina history, Ramsay immersed himself in *The History of the American Revolution* during his tenure in the Continental Congress. Here he had access to people prominent on a national level and to an enormous archive. He predicted to Rush that “I can write the general history of the revolution with more ease than I have wrote a part of it. Indeed, I have got the facts already collected.” He had ready to hand, he said, a great many documents: “from my access to papers ... and the regularity of records in the offices of Congress[,] I have been enabled to do a great deal in a little time.”[32](#) His facts may have been substantially collected, but Ramsay made the effort to pose numerous detailed questions to several people about various aspects of the Revolution. He wrote to Rush on several occasions; to Elias Boudinot (commissary general of prisoners for the Continental Army and a member of Congress for five years); to Gouverneur Morris (member of the New York provincial congress and for four years an assistant minister of finance under Robert Morris); to Charles Thomson (secretary of the Continental Congress from 1774 to 1789); and to John Adams. He also sent his manuscript to Charles Thomson, who read it, made comments on it, and promised to circulate it among other knowledgeable readers.[33](#)

No doubt these inquiries made for a better history. But Ramsay fared almost as poorly on this work as he had on the previous one. He had problems with his printer, Robert Aitken, whose work, said Ramsay, “offends against every principle of good printing. The printing[,] the spelling[,] the ink[,] the form of the lines are in many cases execrable.” In addition, asked the outraged Ramsay, “What think you of his stopping the work on the pretence of want of money[,] though 760 dollars were advanced in the time of the work[,] the whole of which was only to cost 1200 dollars?”³⁴ He also complained that he had been “cheated by booksellers & printers,” who were taking far too much of the proceeds of the sales in advertising. Ramsay was eventually reduced to barter: “If my books that are unsold could be exchanged for a copy of your state laws or of the laws of the neighboring states,” he wrote to John Eliot, “I would be most pleased. I would exchange them for any good books rather than [that] they should remain on hand.” Finally, Ramsay had to swallow the fact that his *History* had been pirated by John Stockdale in London. It was bad enough that “The errors & blunders of Aitkens edition are many and cannot be corrected,” he wrote to John Eliot. Worse yet, “Stockdale has printed one in London without my consent & many of the copies of Aitkens edition are yet on hand.” Ramsay had not yet seen the London edition in April 1793, nor had he “any knowledge of it till it was nearly executed.” Needless to say, he realized no profit on Stockdale’s editions or on the several that were based on it.³⁵

Ramsay’s reputation as a historian was excellent throughout his life and for decades afterwards. *The History of the American Revolution* has enjoyed a resurgence of interest in the last twenty-five years. The only significant dissenting voice in the last two centuries was that of Orrin Grant Libby, who showed that Ramsay had plagiarized portions of both it and *The History of the Revolution of South-Carolina* from the *Annual Register*.³⁶ Each issue of the *Annual Register*, published continuously from 1758, contained a superb “History of Europe” section which for some years was written by Edmund Burke. This section contained a narrative of the most important events in contemporary English history. Thus, during the years between 1765 and 1783, it was filled with news of American affairs—political, military, economic. Along with the sections known as “State Papers” and “Appendix to the Chronicle,” both of which contained the texts of contemporary documents, the “History of Europe” was a comprehensive, beautifully written narrative that had the additional merit of being written from an English Whig (and, therefore, an anti-war or pro-American) standpoint. Each issue of the *Annual Register* went through numerous editions and circulated widely in America.³⁷

Ramsay did, in fact, lift passages verbatim from the *Annual Register*, though Libby certainly exaggerated in suggesting that Ramsay “plagiarized a large part” of his book on the American Revolution either from it or from William Gordon’s work.³⁸ But even if all the examples are conceded, they amount to a very small part of the seven hundred pages. More important, the plagiarism has no substantial impact on its value to modern readers; there is no reason for us to agree with Libby’s conclusion that, because of the plagiarism, the *History* is “well-nigh worthless.”³⁹

First, scholarly citation as we know it was not an issue for eighteenth-century writers, who honored the practice, if at all, only in the most irregular and idiosyncratic

manner. Second, eighteenth-century American histories were performances, not proofs; they more nearly resemble sermons, which inspire by enunciating principles and applying them to human situations, than scientific or legal discourses, which depend for their cogency and persuasiveness on their marshalling of evidence. Finally, and most importantly, Libby's criticism, which spoke to the advocates of "scientific" historicism at the start of the twentieth century, has become largely irrelevant to most modern readers. While we still learn factual information from some of our "ancient" histories—Cotton Mather's *Magnalia Christi Americana* (1702), incredibly rich with detail, leaps to mind—we do not similarly value the factual nature of Ramsay's histories with the possible exception of *The History of South-Carolina* (1809). Hence, we are less concerned with having precise information about Ramsay's sources.

Instead, we learn from Ramsay the *interpreter* of his present and his past. We learn about the intellectual predilections of the eighteenth-century historian: the values, assumptions, principles, and expectations of one who lived and wrote amidst the events he narrated. We learn from the ways in which he shaped *history*: his use of language, his sense of the significance of people and events, his narrative style, his use of history as propaganda, as exhortation, and as fiction. We do not, in short, rely on Ramsay to tell us what happened during the Revolution, any more than we rely on him for medical advice, which included Benjamin Rush's recommended practice: bleeding. In most respects we know a great deal more about what happened than he did, particularly since *we* are now the arbiters of what is significant. We rely on Ramsay not for information, but for the ways in which he reveals the sensibility through which the events of his era were filtered.

History of the United States, from their first Settlement, as English Colonies, in 1607, to the Year 1808, or the thirty-third of their Sovereignty ... Continued to the Treaty of Ghent, by S.S. Smith ... and other Literary Gentlemen (3 vols.; Philadelphia, 1818).

Universal History Americanised; or, an Historical View of the World, from the earliest Records to the Year 1808. With a particular reference to the State of Society, Literature, Religion and Form of Government, in the United States of America . . . (12 vols.; Philadelphia, 1819).

A list of Ramsay's articles published in the *Medical Repository*, 1801–1808, is in Brunhouse, *Selections*, 230–231.

SECONDARY SOURCES

The starting point for Ramsay studies is Robert L. Brunhouse, ed., *David Ramsay, 1749–1815: Selections from His Writings*, American Philosophical Society, *Transactions*, New Series, 55 (1965), Part IV. Brunhouse's superb collection includes

a biography of Ramsay, some three hundred letters, and reprints of “A Sermon on Tea” (1774), “An Oration on the Advantages of American Independence” (1778), “An Oration ... on the Fourth of July, 1794,” and “A Review of ... Medicine in the XVIIIth Century” (1800). Robert Y. Hayne, Ramsay’s friend and the executor of Ramsay’s estate, published a view of Ramsay’s life and work in “Biographical Memoir of David Ramsay, M.D.” *Analectic Magazine*, 6 (1815): 204–224.

Studies of historical writing in the Revolutionary Era include Arthur H. Shaffer, *The Politics of History: Writing the History of the American Revolution, 1783–1815* (Chicago, 1975), in which Ramsay figures prominently; William Raymond Smith, *History as Argument: Three Patriot Histories of the American Revolution* (The Hague, 1966), which focuses on Ramsay, John Marshall, and Mercy Otis Warren; and Lester H. Cohen, *The Revolutionary Histories: Contemporary Narratives of the American Revolution* (Ithaca, N.Y., 1980); “Creating a Useable Future: The Revolutionary Historians and the National Past,” in Jack P. Greene, ed., *The American Revolution: Its Character and Limits* (New York, 1987): 309–330; and Mercy Otis Warren’s *History of the Rise, Progress and Termination of the American Revolution* (Indianapolis, 1988): xvi–xxxvii. Wesley Frank Craven’s *The Legend of the Founding Fathers* (Ithaca, N.Y., n.d.) remains a lively and provocative study of the image of the founding of America in the writings of successive generations of American histories.

The best interpretation of Ramsay’s historical writings and political thought include Page Smith, “David Ramsay and the Causes of the American Revolution,” *William and Mary Quarterly*, 3d Series, 17 (January 1960): 51–77 (this was reprinted in Page Smith, *The Historian and History* (New York, 1960), which rescued Ramsay and his work from the pall cast over them by Orrin Grant Libby); Lawrence J. Friedman and Arthur H. Shaffer, “David Ramsay and the Quest for an American Historical Identity,” *Southern Quarterly*, 14 (July 1976): 351–371, and “History, Politics, and Health in Early American Thought: The Case of David Ramsay,” *Journal of American Studies*, 13 (April 1979): 37–56; and Arthur H. Shaffer, “Between Two Worlds: David Ramsay and the Politics of Slavery,” *Journal of Southern History*, 50 (May 1984): 175–196.

Editor'S Note

This edition of Ramsay's *The History of the American Revolution* is the first to reprint the original 1789 edition printed by R. Aitken and Son in Philadelphia. That was the only edition that Ramsay actually authorized. The others, including the popular London edition of 1793, printed by John Stockdale, were pirated before the promulgation of effective copyright laws.

Aitken's and Stockdale's editions vary only minutely. In numbering the pages, Aitken omitted page numbers 321 and 322 of the first volume, so that the text flows directly from page 320 to page 323. Stockdale did not preserve Aitken's error; we did, in order to conform to the pagination of the first edition. Aitken also rendered page 32 of volume I as page "13." We have corrected that error, since it has no bearing on the actual pagination and since preserving it would have no value for modern readers. Stockdale's copy of Aitken's edition, like the one we used here, may have contained a few illegible passages. Stockdale must have interpolated at those points and occasionally misread the text. We have stayed with the wording of the original by comparing it with another printing.

Ramsay was substantially correct about Aitken's "execrable" printing. Aitken's punctuation is wildly irregular and his spelling idiosyncratic. He transposed letters and abbreviated titles inconsistently and, apparently, according to some inner vision. Thus, we were faced with numerous choices. We have tried here to fulfill the ideal of remaining as faithful to the original text as possible while producing a volume that is accessible to modern readers. We have silently corrected the text where errors were obviously the result of the printer—transposed letters, misspelled words—and where to preserve the errors would have no realistic scholarly or aesthetic value. In a number of instances Ramsay's punctuation has been modernized. Most of the time this meant removing dashes erratically placed (by today's standards) and extraneously placed (duplicating a directly preceding or succeeding punctuation mark). In rarer instances, periods and commas were inserted or removed to correct a glaring omission or a usage that strongly clashed with modern conventions of punctuation. As already implied, our policy was to make such alterations in as conservative a manner as possible—and thus a number of the original quirks and errors, which do have the merit of preserving something of the flavor of the first edition, still reside in this one.

We have, in addition, rendered lengthy quotations in block-indented form, rather than run quotation marks down both sides of paragraphs as in the original.

We have preserved the page numbers of the original, which here appear in brackets in the text. We have also preserved Ramsay's and Aitken's marginalia, although we have silently corrected dates appearing in the margins where the originals were clearly erroneous and deleted some of the most redundant of the dates that were repeated. We have added an index for the convenience of modern readers and researchers. Four appendices, interspersed between chapters rather than included together at the end of

the book, have been kept in the place originally assigned to them by Ramsay and Aitken.

Acknowledgments

In addition to sharing with me his knowledge and writings on Ramsay, Arthur H. Shaffer graciously read an early version of the introduction and offered useful suggestions. I am currently reviewing Shaffer's authoritative biography of Ramsay, the manuscript of which arrived unfortunately too late for me to borrow from as liberally as I would have liked. Upon publication, Shaffer's biography will be as indispensable as Brunhouse's excellent collection of sources. Linda Levy Peck proved again the value of her friendship and her keen eye for bad writing. She favored the foreword with several readings, helping me to eliminate the gaffes that no longer appear. Dan McInerney and Bruce Kahler, two former Ph.D. students, also read this material and made numerous valuable suggestions. Bill Dennis, Barbara Reynolds, and Chuck Hamilton of Liberty Fund were, as always, a delight to work with. They took a chance on publishing two early American histories—first Mercy Otis Warren's and then David Ramsay's—and made the experiences gratifying for me.

In preparing Ramsay's *History* for publication, I had the extraordinary experience of coming full circle. At the beginning of my graduate career in 1966, I was blessed by having Page Smith as my mentor and friend; at the end of my teaching career, there was David Ramsay, whom Page introduced to me, along with his passion for the beauty and deceptive simplicity of narrative. I have always identified the two, David Ramsay and Page Smith, no doubt because Page has always exemplified for me the finest spirit of the eighteenth century. If these volumes were mine, rather than Ramsay's, to dedicate, I would dedicate them with admiration and respect to Page Smith.

Preface [To The First Edition]

The materials for the following sheets were collected in the year 1782, 1783, 1785, and 1786; in which years, as a member of Congress, I had access to all the official papers of the United States. Every letter written to Congress by General Washington, from the day he took the command of the American army till he resigned it, was carefully perused, and it's contents noted. The same was done with the letters of other general officers, ministers of Congress, and others in public stations. It was intended to have enlarged the work by the insertion of state papers, as proofs and illustrations of my positions. This I could easily have done, and shall do at a future time, and in a separate work, if the public require it. At present I thought it prudent to publish little more than a simple narrative of events, without introducing my authorities. Several of these are already in my *History of the Revolution of South-Carolina*, and such as are printed may be found in the periodical publications of the day. I have endeavoured to give much original matter at a small expence. As I write about recent events, known to thousands as well as myself, proofs are at present less necessary than they will be in future.

I appeal to the actors in the great scenes which I have described for the substantial truth of my narrative. Intentional misrepresentations, I am sure there are none. If there are any from other sources, I trust they will be found in small circumstances, not affecting the substance.

CHAPTER I

Of The Settlement Of The English Colonies, And Of The Political Condition Of Their Inhabitants.

[1] The Extensive Continent which is now called America, was three hundred years ago unknown to three quarters of the globe. The efforts of Europe during the fifteenth century to find a new path to the rich countries of the East, brought on the discovery of a new world in the West.

Christopher Columbus acquired this distinguished honor in the year 1492, but a later navigator Americus Vesputius who had been employed to draw maps of the new discoveries, robbed him of the credit he justly merited of having the country called by his name.

1492

In the following year 1493, Pope Alexander the sixth, with a munificence that cost him nothing, gave the whole Continent to Ferdinand and Isabella of Spain. This grant was not because the country was uninhabited, but because the nations existing there were infidels; and therefore in the opinion of the infallible donor not entitled to the possession of the territory in which their Creator had placed them. This extravagant claim of a right to dispose of the countries of heathen nations, was too absurd to be universally regarded, even in that superstitious age. And in defiance of it, several European sovereigns though devoted to the See of Rome undertook and successfully prosecuted further discoveries in the Western hemisphere.

1493

[2]

Henry the seventh of England, by the exertion of an authority similar to that of Pope Alexander, granted to John Cabot and his three sons a commission, "to navigate all parts of the ocean for the purpose of discovering Islands, Countries, Regions or Provinces, either of Gentiles or Infidels, which have been hitherto unknown to all christian people, with power to set up his standard and to take possession of the same as Vassals of the crown of England."

1496

By virtue of this commission, Sebastian Cabot explored and took possession of a great part of the North American continent, in the name and on behalf of the king of England.

1498

The country thus discovered by Cabot was possessed by numerous tribes or nations of people. As these had been till then unknown to all other Princes or States, they could not possibly have owed either allegiance or subjection to any foreign power on earth; they must have therefore been independent communities, and as such capable of acquiring territorial property, in the same manner as other nations. Of the various principles on which a right to soil has been founded, there is none superior to immemorial occupancy. From what time the Aborigines of America had resided therein, or from what place they migrated thither, were questions of doubtful solution, but it was certain that they had long been sole occupants of the country. In this state no European prince could derive a title to the soil from discovery, because that can

give a right only to lands and things which either have never been owned or possessed, or which after being owned or possessed have been voluntarily deserted. The right of the Indian nations to the soil in their possession was founded in nature. It was the free and liberal gift of Heaven to them, and such as no foreigner could rightfully annul. The blinded superstition of the times regarded the Deity as the partial God of christians, and not as the common father of saints and savages. The pervading influence of philosophy, reason, and truth, has since that period, given us better notions of the rights of mankind, and of the obligations of morality. These unquestionably are not confined [3] to particular modes of faith, but extend universally to Jews and Gentiles, to Christians and Infidels.

1496

Unfounded however as the claims of European sovereigns to American territories were, they severally proceeded to act upon them. By tacit consent they adopted as a new law of nations, that the countries which each explored should be the absolute property of the discoverer. While they thus sported with the rights of unoffending nations, they could not agree in their respective shares of the common spoil. The Portuguese and Spaniards, inflamed by the same spirit of national aggrandizement, contended for the exclusive sovereignty of what Columbus had explored. Animated by the rancour of commercial jealousy, the Dutch and Portuguese fought for the Brazils. Contrary to her genuine interests, England commenced a war in order that her contraband traders on the Mexican coast, claimed by the king of Spain might no longer be searched. No farther back than the middle of the present century, a contest concerning boundaries of American territory belonging to neither, occasioned a long and bloody war between, France and England.

Though Queen Elizabeth and James the first denied the authority of the pope of Rome to give away the country of Infidels; yet they so far adopted the fanciful distinction between the rights of heathens and the rights of christians, as to make it the foundation of their respective grants. They freely gave away what did not belong to them with no other proviso, than that “the territories and districts so granted, be not previously occupied and possessed by the subjects of any other christian prince or State.”

The first English patent which was given for the purpose of colonising the country discovered by the Cabots, was granted by Queen Elizabeth to Sir Humphry Gilbert, but this proved abortive.

1578

Soon after she licensed Walter Raleigh, “to search for heathen lands not inhabited by christian people,” and granted to him in fee all the soil “within 200 leagues of the places where his people should make their dwellings and abidings.” [4]

1584

Under his auspices an inconsiderable colony took possession of a part of the American coast, which now forms North-Carolina. In honor of the Virgin Queen his sovereign, he gave to the whole country the name of Virginia. These first settlers and several others who followed them, were either destroyed by the natives, removed by succeeding navigators, or died without leaving any behind to tell their melancholy story, for they were never more heard of. No permanent settlement was effected till the reign of James the first. The national ardor which sprung from the long and vigorous administration of Queen Elizabeth,

1585

continued to produce its effects for some time after she had ceased to animate the whole. Her successor though of an indolent disposition, possessed a laudable genius for colonisation. Naturally fond of novelty, he was much pleased with a proposal made to him by some of the projectors of that age “for deducing a colony into that part of America commonly called Virginia.”

He therefore granted letters patent to Thomas Gates and his associates, by which he conferred on them “all those territories in America, which were not then possessed by other christian princes or people, and which lay between the 34th and 45th degree of north latitude.” They were divided into two companies, the first consisting of adventurers of the city of London, was called the London company, the second consisting of merchants of Plymouth and some other Western towns, was called the Plymouth company. The adventurers were empowered to transport thither as many English subjects as should willingly accompany them; and it was declared “that the colonists and their children should enjoy the same liberties as if they had remained, or were born, within the realm.”

The month of April 1607, is the epoch of the first permanent settlement on the coast of Virginia, the name then given to all that extent of country which now forms thirteen States. The emigrants took possession of a peninsula on the Northern side of James-river, and erected a town which in honor of their sovereign they called James-Town. They soon experienced the embarrassments [5] which are the usual lot of new settlers. In a few months diseases swept away one half of their number. Those who survived were greatly chagrined by the many vexations incidental to their new and forlorn situation.

In 1609, the Southern or London company surrendered their rights to the crown and obtained a new patent. There were then added to the former adventurers, many of the first nobility and gentry. To them and their successors were granted, in absolute property, the lands extending from Cape Comfort along the sea coast, southward 200 miles, from the same promontory 200 miles northward, and from the Atlantic westward to the South sea. Licence was given to transport to Virginia, all persons willing to go thither. The colonists and their posterity were declared “to be entitled to the rights of subjects, as if they had remained within the realm.” The company being thus favoured by their sovereign, were encouraged to proceed with spirit in supporting and extending their settlement, but before this was thoroughly accomplished, a great waste of the human species had taken place. Within 20 years after the foundation of James-Town was laid upwards of 9000 English subjects had, at different times, migrated thither, but diseases, famine, wars with the natives, and the other inconveniences of their new settlement, had made such havoc among these adventurers, that by the end of that period, there remained alive only about 1800 of that large number. The same and other causes continued to operate so forcibly that, notwithstanding frequent accessions from new adventurers, Virginia in 1670, sixty three years after the settlement of James-Town contained no more than 40,000 inhabitants.

Thirteen years elapsed after James-Town began to be built before any permanent establishment was effected in the Northern or second Colony. Various attempts for that purpose had failed, nor was the arduous business accomplished, till it was undertaken by men who were influenced by higher motives than the extension of agriculture or commerce.

These men had been called Puritans in England, from their earnest desires of farther [6] reformation in the established church, and particularly for their aversion to certain popish habits and ceremonies, which they deemed sinful from their having been abused to idolatry. Such was the intolerance of the times, and so violent the zeal for uniformity, that popular preachers of this sect, though men of learning and piety were suspended, deprived, imprisoned, and ruined, for their not using garments or ceremonies which their adversaries acknowledged to be indifferent. Puritanism nevertheless gained ground. On experiment it was found that no attempts are more fruitless than those which are made with the view of bringing men to think alike on the subject of religion. The leaders both of Church and State were too little acquainted with the genuine principles of policy and christianity, to apply the proper remedy for preserving peace among discording sects. Instead of granting a general liberty of conscience, compulsory methods were adopted for enforcing uniformity.

1620

An act was passed for punishing all who refused to come to church or were present at any conventicle or meeting. The punishment was imprisonment till the convicted agreed to conform, and made a declaration of his conformity. If that was not done in three months, he was to quit the realm, and go into perpetual banishment. In case, he did not depart within the time limited, or returned afterwards without a license, he was to suffer death. Such is the renitency of the human mind to all impositions on conscience, that the more the Puritans were oppressed, the more were they attached to their distinguishing opinions, and the more did their sect prevail. Several of them suffered death, in preference to purchasing an exemption from legal penalties, by doing what, in their opinion, was wrong. It was afterwards resolved to send others, who had equally persevered in their non-conformity, into banishment. Many chose to avoid these evils by voluntarily exiling themselves from their native country.

1593

A congregation of these Puritans, under the pastoral care of Mr. John Robinson, being extremely harassed for their religious opinions, resolved to elude their persecutors by removing to Holland.

1606

They continued there [7] ten years, and by hard labor, earned a living. Though they were much esteemed and kindly received by the Hollanders, they were induced by very cogent reasons to think of a second removal. The morals of the Dutch were in their opinion too dissolute; and they were afraid that their offspring would conform to the bad examples daily before them. They had also an ardent desire of propagating religion in foreign lands, and of separating themselves from all the existing establishments in Europe, that they might have an opportunity without interruption of handing down to future ages the model of a pure church, free from the admixture of human additions. America, the colonising of which, then excited a considerable share of public attention, presented a proper theatre for this purpose. After serious and repeated addresses to Heaven for direction, they resolved to cross the Atlantic. An application on their behalf, was made to their native sovereign King James, for full liberty and freedom of conscience, but nothing more could be obtained than a promise, that he would connive at and not molest them. The hope that, when at the distance of 3000 miles, they would be out of the reach of ecclesiastical courts, induced them nevertheless to venture. They sailed 101 in number from Plymouth, in September and arrived at Cape Cod in the November following.

1620

Before landing they formed themselves into a body politic, under the crown of England, for the purpose of “framing just and equal laws, ordinances, acts, constitutions and offices,” to which forty one of their number subscribed their names, and promised all due submission and obedience. After landing they employed themselves in making discoveries till the 20th of December. They then fixed on a place for settlement, which they afterwards called New-Plymouth and purchased the soil from its native proprietors.

These adventurers were now at the commencement of a long and dreary winter, at an immense distance from their former habitations, on the strange coast of an uncultivated country, without a friend to welcome their arrival, or a house to shelter them. In settling down on bare creation they had every [8] obstacle to surmount that could prove their firmness, or try their patience. The climate was unfavourable; the season cold and pinching. The prospect of obtaining a supply of provisions, by cultivating the stubborn soil, required an immensity of previous labor, and was both distant and uncertain. From the disorders occasioned by their tedious voyage, with insufficient accommodations, together with those brought on them by the fatigues and exertions unavoidable in a new settlement, and the rigor of the season, they buried forty four persons, nearly one half of their original number, within six months after their landing. Animated with a high degree of religious fervor, they supported these various hardships with unabated resolution. The prospect of an exemption from the tyranny of ecclesiastical courts, and of an undisturbed liberty to worship their creator in the way that was agreeable to their consciences, was in their estimation a sufficient counterbalance to all that they underwent.

This handful of people laid the foundation of New-England. From them and their subsequent associates have sprung the many thousands that have inhabited Massachusetts, New-Hampshire, Connecticut and Rhode-Island. The Puritans, to which sect these primitive emigrants belonged, were a plain, frugal, industrious people, who were strict observers of moral and social duties. They held, that the Bible was the sole rule both of faith and practice—that every man was bound to study it and to judge of its meaning for himself, and to follow that line of conduct and mode of worship, which he apprehended to be thereby required. They were also of opinion that no churches or church officers had any power over other churches or officers, so as to control them—that all church members had equal rights and privileges—that the imposition of articles of faith, modes of worship, habits or ceremonies, was subversive of natural rights and an usurpation of power, not delegated to any man or body of men. They viewed church hierarchy, and especially the lordly pomp of Bishops, as opposed to the pure[,] simple, and equal spirit, of christianity. Their sufferings for non-conformity disposed them to reflect on the nature [9] and extent of civil authority, and led to a conviction that tyranny, whether in church or state, was contrary to nature, reason and revelation. There was a similarity between their opinions of government, and those which they held on the subject of religion. Each strengthened the other. Both were favourable to liberty, and hostile to all undue exercise of authority.

It is matter of regret, that these noble principles of liberty ceased to operate on these emigrants soon after they got power into their hands.

In the eleventh year after their settlement in America they resolved, “that no man should be admitted to the freedom of their body politic, but such as were members of some of their churches,” and afterwards, “that none but such should share in the administration of civil government, or have a voice in any election.” In a few years more, they had so far forgot their own sufferings, as to press for uniformity in religion, and to turn persecutors, in order to accomplish it. No better apology can be made for this inconsistent conduct, than that the true grounds of liberty of conscience were then neither understood, nor practiced by any sect of christians. Nor can any more satisfactory account of so open a dereliction of former principles be offered, than that human nature is the same in all bodies of men, and that those who are in, and those who are out of power, insensibly exchange opinions with each other on a change of their respective situations. These intemperate proceedings were overruled for good. As the intolerance of England peopled Massachusetts, so the intolerance of that Province made many emigrate from it, and gave rise to various distant settlements, which in the course of years were formed into other Provincial establishments. Connecticut, Rhode-Island, and New-Hampshire, were in a great measure shoots from the old venerable trunk Massachusetts, and their early growth was much accelerated by her impolitic zeal for uniformity. The country which was subdivided into these four Provinces had been called New-England ever since the year 1614. The propriety of classing them under one general name became more evident from their being settled by the same kind of people, who were [10] strongly connected with each other by blood, uniformity of manners, and a similarity of religious and political sentiments. The early population of this Northern country was rapid. The Puritans, harrassed for their non-conformity in England, passed over to it in great numbers. In the short space of twenty years from its first settlement 21,200 settlers arrived in 298 vessels. About the year 1640, from a change of affairs, the emigration from Old to New-England in a great measure ceased.

1631

Maryland was the third English colony settled in North America, but the first which from its beginning, was erected into a Province of the empire. The first and second colonies were many years governed by corporations, and in a manner subversive of natural liberty, but the third was from its first settlement ruled by laws enacted in a provincial legislature. The first emigration to Maryland consisting of about two hundred gentlemen, chiefly of the Roman Catholic religion, sailed from England in November, 1632, and landed near the river Potowmack in the beginning of the subsequent year.

Calvert their leader purchased the right of the Aborigines, and with their consent took possession of a town, which he called St. Mary’s. He continued carefully to cultivate their friendship, and lived with them on terms of perfect amity. The lands which had been thus ceded were planted with facility, because they had already undergone the discipline of Indian tillage. Food was therefore easily procured. The Roman Catholics, unhappy in their native land, and desirous of a peaceful asylum, went over in great numbers to Maryland. Lord Baltimore, to whom the Province had been granted, laid the foundation of its future prosperity on the broad basis of security to property, and of freedom in religion. The wisdom of these measures converted a dreary wilderness into a prosperous colony, because men exert themselves in their several pursuits in proportion as they are assured of enjoying in safety those blessings which they wish for most. Never did a

1633

people enjoy more happiness than the inhabitants of Maryland under Cecilius the founder of the Province. While Virginia persecuted the Puritans, her [11] severity compelled many to pass over into this new Province, the Assembly of which had enacted, "that no persons, professing to believe in Christ Jesus should be molested in respect of their religion, or in the free exercise thereof." The prudence of the one colony, acquired what the folly of the other had thrown away. Mankind then beheld a new scene on the theatre of English America. They saw in Massachusetts the Puritans persecuting various sects, and the church of England in Virginia, actuated by the same spirit, harassing those who dissented from the established religion, while the Roman Catholics of Maryland tolerated and protected the professors of all denominations. In consequence of this liberal policy, and the other prudent measures adopted by the rulers of this Province, it rapidly increased in wealth and population.

The distractions which convulsed England for 25 years preceding the restoration in 1660, left no leisure for colonising; but no sooner was Charles the Second restored to the throne of his ancestors, than it was resumed with greater spirit than ever.

Soon after that event the restored monarch granted a charter to Connecticut, which had been previously settled by a voluntary association of persons, who held the soil by an Indian title, without any authority from England. By this charter King Charles established a pure democracy. Every power, legislative, judicial and executive, was invested in the freemen of the corporation, or their delegates, and the colony was under no obligation to communicate its legislative acts to the national sovereign.

1662

In the year following, a royal charter, with a grant of similar powers, was conferred on Rhode-Island and Providence plantations. These, like Connecticut, had been previously settled by emigrants chiefly from Massachusetts, who as an independent people had seated themselves on land fairly obtained from the native proprietors, without any authority from the parent state. This colony was originally planted on the Catholic principle, "That every man who submits peaceably to the civil authority, may [12] worship God according to the dictates of his own conscience, without molestation," and under all the changes it has undergone, there has been no departure from that broad basis of universal toleration.

1663

In the same year a patent was granted to Lord Clarendon and others, comprehending that extent of country, which now forms the States of North Carolina, South Carolina, and Georgia. Carolina though settled originally as one government, was about the year 1728 divided into two. Georgia was, in the year 1732, formed by George the Second into a distinct Province.

1663

In the year 1664, King Charles the Second gave to his brother James Duke of York, a patent which included New-York and New-Jersey. These Provinces had been previously settled by Dutch Colonists, and held as territories of the United Netherlands, but they were easily reduced to the obedience of the King of England, who claimed the country by the right of prior discovery.

The Duke of York in the same year, gave a deed of New-Jersey to Lord Berkely and Sir George Carteret.

1664

Seventeen years afterwards King Charles gave to William Penn, 1681 a patent for Pennsylvania. Mr. Penn some time posterior to this, obtained a farther grant of the land on the Western side of the River Delaware, and South of Pennsylvania, which was formed into a separate Government, and is now the State of Delaware. Notwithstanding these charters Mr. Penn did not think himself invested with the right of the soil, till he had purchased it from the native proprietors. In the charter of Pennsylvania; there was no express stipulation as had been inserted in all other Colonial patents “that the Pennsylvanians and their descendants should be considered as subjects born within the realm.” But clauses were inserted, providing that “acts of Parliament concerning trade and navigation, and the customs, should be duly observed.” And it was also stipulated, [“]that no custom or other contribution should be laid on the inhabitants or their estates, unless by the consent of the Proprietary, or Governor and Assembly, or *by act of Parliament in England.*” The omission of the first clause, the insertion [13] of the second, and the reservation in favor of Parliament, in the last, may have been occasioned by difficulties which had then arisen about the rights of the Colonists and the power of Parliament over them. Massachusetts had before that time questioned the authority of Parliament to tax them and legislate for them. The general clause that the Colonists should retain all the privileges of Englishmen had already been made, the basis of claims against which some in the Mother Country had many objections. Perhaps the ruling powers of England were sensible, that they had previously delegated too much of independence to their Colonies, and intended to be more guarded in future, but their caution was too late. Had it been seriously intended to control the natural order of events, by the feeble force of words and clauses in a charter, the experiment ought to have been tried from the first, and not reserved for that of Pennsylvania, which was one of the last granted to the Colonies. Near a century after, Dr. Franklin, when examined at the Bar of the British House of Commons explained the matter by saying “that the inhabitants from the first settlement of the Province relied, that the Parliament never would or could by virtue of that reservation tax them, till it had qualified itself constitutionally for the exercise of such right, by admitting Representatives from the people to be taxed.”

In the rapid manner just related, was the English North American Continent parcelled out into distinct Governments. Little did the wisdom of the two preceding Centuries foresee of the consequences both good and evil, that were to result to the old world from discovering and colonising the new. When we consider the immense floods of gold and silver, which have flowed from it into Europe—the subsequent increase of industry and population, the prodigious extension of commerce, manufactures, and navigation, and the influence of the whole on manners and arts[—]we see such an accumulation of good, as leads us to rank Columbus among the greatest benefactors of the human race: but when we view the injustice done the natives, the extirpation of many of [14] their numerous nations, whose names are no more heard—the havoc made among the first settlers—the slavery of the Africans, to which America has furnished the temptation, and the many long and bloody wars which it has occasioned, we behold such a crowd of woes, as excites an apprehension, that the evil has outweighed the good.

In vain do we look among ancient nations, for examples of Colonies established on principles of policy, similar to those of the Colonies of Great-Britain. England did not, like the republics of Greece, oblige her sons to form distant communities in the wilds of the earth. Like Rome she did not give lands as a gratuity to soldiers, who became a military force for the defence of her frontiers: She did not, like Carthage, subdue the neighbouring States, in order to acquire an exclusive right to their commerce. No conquest was ever attempted over the Aborigines of America. Their right to the soil was disregarded, and their country looked upon as a waste, which was open to the occupancy and use of other nations. It was considered that settlements might be there formed for the advantage of those who should migrate thither, as well as of the Mother Country. The rights and interests of the native proprietors were, all this time, deemed of no account.

What was the extent of obligations by which Colonies planted under these circumstances, were bound to the Mother Country, is a subject of nice discussion. Whether these arose from nature and the constitution, or from compact, is a question necessarily connected with many others. While the friends of Union contended that the King of England had a property in the soil of America, by virtue of a right derived from prior discovery; and that his subjects by migrating from one part of his dominions to another, did not lessen their obligations to obey the supreme power of the nation, it was inferred, that the emigrants to English America, continued to owe the same obedience to the King and Parliament, as if they had never quitted the land of their nativity. But if as others contended, the Indians were [15] the only lawful proprietors of the country in which their Creator had placed them, and they sold their right to emigrants who, as men, had a right to leave their native country, and as subjects, had obtained chartered permission to do so, it follows from these premises, that the obligations of the Colonists to their parent State, must have resulted more from compact, and the prospect of reciprocal advantage, than from natural obligation. The latter opinions seem to have been adopted by several of the Colonists particularly in New-England. Sundry persons of influence in that country always held, that birth was no necessary cause of subjection, for that the subject of any Prince or State, had a natural right to remove to any other State or quarter of the Globe, especially if deprived of liberty of conscience, and that, upon such removal, his subjection ceased.

The validity of charters about which the emigrants to America were universally anxious, rests upon the same foundation. If the right of the sovereigns of England to the soil of America was ideal, and contrary to natural justice, and if no one can give what is not his own, their charters were on several accounts a nullity. In the eye of reason and philosophy, they could give no right to American territory. The only validity which such grants could have, was that the grantees had from their sovereign, a permission to depart from their native country, and negotiate with the proprietors for the purchase of the soil, and thereupon to acquire a power of jurisdiction subject to his crown. These were the opinions of many of the settlers in New-England. They looked upon their charters as a voluntary compact between their sovereign and themselves, by which they were bound neither to be subject to, nor seek protection from any other Prince, nor to make any laws repugnant to those of England: but did not consider them as inferring an obligation of obedience to a Parliament, in which they were unrepresented. The prospects of advantage which the emigrants to America expected

from the protection of their native sovereign, and the prospect of aggrandizement which their native sovereign expected from [16] the extension of his empire, made the former very solicitous for charters, and the latter very ready to grant them. Neither reasoned clearly on their nature nor well understood their extent. In less than eight years 1500 miles of the sea coast were granted away, and so little did they who gave, or they who accepted of charters, understand their own transactions, that in several cases the same ground was covered by contradictory grants, and with an absurdity that can only be palliated by the ignorance of the parties, some of the grants extended to the South Sea, over a country whose breadth is yet unknown, and which to this day is unexplored.

Ideal as these charters were, they answered a temporary purpose. The colonists reposed confidence in them, and were excited to industry on their credit. They also deterred foreign European powers from disturbing them, because agreeably to the late law of nations, relative to the appropriation of newly discovered heathen countries, they inferred the protection of the sovereign who gave them. They also opposed a barrier to open and gross encroachments of the mother country on the rights of the colonists; a particular detail of these is not now necessary; some general remarks may, nevertheless, be made on the early periods of colonial history, as they cast light on the late revolution. Long before the declaration of independence, several of the colonies on different occasions, declared, that they ought not to be taxed but by their own provincial assemblies, and that they considered subjection to acts of a British parliament, in which they had no representation, as a grievance. It is also worthy of being noted, that of the 13 colonies, which have been lately formed into States, no one (Georgia excepted) was settled at the expence of government. Towards the settlement of that Southern frontier, considerable sums have at different times been granted by parliament, but the twelve more Northern provinces, have been wholly settled by private adventurers, without any advances from the national treasury. It does not appear, from existing records, that any compensation for their lands was ever made to the [17] Aborigines of America, by the crown or Parliament of England; but policy as well as justice led the colonists to purchase and pay for what they occupied. This was done in almost every settlement, and they prospered most, who by justice and kindness took the greatest pains to conciliate the good will of the natives.

It is in vain to look for well balanced constitutions in the early periods of colonial history. Till the revolution in the year 1688, a period subsequent to the settlement of the colonies, England herself can scarcely be said to have had a fixed constitution. At that eventful era the line was first drawn between the privileges of subjects, and the prerogatives of sovereigns. The legal and constitutional history of the colonies, in their early periods, therefore, affords but little instruction. It is sufficient in general to observe, that in less than eighty years from the first permanent English settlement in North America; the two original patents granted to the Plymouth and London companies were divided, and subdivided, into twelve distinct and unconnected provinces, and in fifty years more a thirteenth, by the name of Georgia, was added to the Southern extreme of previous establishments.

To each of these, after various changes, there was ultimately granted a form of government resembling, in its most essential parts, as far as local circumstances

would permit, that which was established in the parent state. A minute description of constitutions, which no longer exist, would be both tedious and unprofitable. In general, it may be observed, that agreeably to the spirit of the British constitution, ample provision was made for the liberties of the inhabitants. The prerogatives of royalty and dependence on the Mother Country, were but feebly impressed, on the colonial forms of government. In some of the provinces the inhabitants chose their governors, and all other public officers, and their legislatures were under little or no controul. In others the crown delegated most of its power to particular persons, who were also invested with the property of the soil. In those which were most immediately dependent on the King, he exercised no higher prerogatives over the colonists than over their fellow [18] subjects in England, and his power over the provincial legislative assemblies, was not greater than what he was constitutionally vested with, over the house of commons in the Mother Country. From the acquiescence of the parent state, the spirit of her constitution and daily experience, the colonists grew up in a belief, that their local assemblies stood in the same relation to them, as the parliament of Great Britain, to the inhabitants of that island. The benefits of legislation were conferred on both, only through these constitutional channels.

It is remarkable, that though the English possessions in America were far inferior in natural riches to those which fell to the lot of other Europeans, yet the security of property and of liberty, derived from the English constitution, gave them a consequence to which the colonies of other powers, though settled at an earlier day, have not yet attained. The wise and liberal policy of England towards her colonies, during the first century and [a] half after their settlement, had a considerable influence in exalting them to this pre-eminence. She gave them full liberty to govern themselves, by such laws as their local legislatures thought necessary, and left their trade open to every individual in her dominions. She also gave them the amplest permission to pursue their respective interests in such manner, as they thought proper, and reserved little for herself, but the benefit of their trade, and that of a political union under the same head. The colonies, founded by other powers, experienced no such indulgences. Portugal and Spain burdened theirs with many vexatious regulations, gave encouragement only to what was for their own interest, and punished whatever had a contrary tendency. France and Holland did not adopt such oppressive maxims, but were in fact not much less rigorous and coercive. They parted, as it were, with the propriety of their colonies to mercantile associations, which sold to the colonists the commodities of Europe, at an enormous advance, and took the produce of their lands, at a low price, and, at the same time, discouraged the growth of any more than they could dispose of, at excessive profits. These oppressive regulations were followed [19] with their natural consequences: The settlements thus restricted advanced but slowly in population and in wealth.

The English colonies participated in that excellent form of government, with which their parent isle was blessed, and which had raised it to an admirable height of agriculture, commerce, and manufactures. After many struggles, it had been acknowledged to be essential to the constitution of Great-Britain, that the people could not be compelled to pay any taxes, nor be bound by any laws, but such as had been granted, or enacted, with the consent of themselves, or of their representatives. It was also one of their privileges, that they could not be affected either in their

property, their liberties or their persons, but by the unanimous consent of twelve of their peers.

From the operation of these general principles of liberty, and the wise policy of Great Britain, her American settlements increased in number, wealth, and resources, with a rapidity which surpassed all previous calculations. Neither antient nor modern history can produce an example of colonies governed with equal wisdom, or flourishing with equal rapidity. In the short space of 150 years their numbers increased to three millions, and their commerce to such a degree, as to be more than a third of that of Great Britain. They also extended their settlements 1500 miles on the sea coast, and 300 miles to the westward. Their rapid population, though partly accelerated by the influx of strangers, was principally owing to internal causes. In consequence of the equality of fortune and simplicity of manners, which prevailed among them, their inhabitants multiplied far beyond the proportion of old nations, corrupted and weakened by the vices of wealth, and above all, of vanity, than which, perhaps, there is no greater enemy to the increase of the human species.

The good effects of a wise policy and equal government, were not only discernible in raising the colonies of England to a pre-eminence over those of other European powers, but in raising some among themselves to greater importance than others. Their relative population and wealth, were by no means correspondent to their respective [20] advantages of soil and climate. From the common disproportion between the natural and artificial wealth of different countries, it seems to be a general rule, that the more nature does for any body of men, the less they are disposed to do for themselves.

The New-England Provinces, though possessed of comparatively a barren country, were improved much faster than others, which were blessed with a superior soil and milder climate. Their first settlers were animated with a high degree of that religious fervor which excites to great undertakings. They also settled their vacant lands on principles of the wisest policy. Instead of granting large tracts to individuals, they sold the soil in small farms, to those who personally cultivated the same. Instead of disseminating their inhabitants over an extensive country, they formed successive settlements, in townships of six miles square. They also made such arrangements, in these townships, as co-extended the blessings of education and of religious instruction, with their settlements. By these means industry and morality were propagated, and knowledge was generally diffused.

In proportion to their respective numbers, it is probable that no other country in the world contained more sober orderly citizens, and fewer who were profligate and abandoned. Those high crimes which are usually punished with death, were so rare in New-England, that many years have elapsed, in large populous settlements, without a single execution. Their less fertile soil disposed them to a spirit of adventure, and their victorious industry rose superior to every obstacle. In carrying on the whale fishery, they not only penetrated the deepest frozen recesses of Hudson's Bay, and Davis' straits: But pierced into the opposite regions of polar cold. While some of them were striking the harpoon on the coast of Africa, others pursued their gigantic game, near the shores of Brazil. While they were yet in their infancy as a political society, they

carried on this perilous business to an extent exceeding all that the perseverance of Holland, the activity of France, or the vigor of English enterprize, had ever accomplished. A spirit of liberty prompted their [21] industry, and a free constitution guarded their civil rights. The country was settled with yeomanry, who were both proprietors, and cultivators, of the soil. Luxury was estranged from their borders. Enervating wealth and pinching poverty, were both equally rare. Early marriages, and a numerous offspring, were common—thence population was rapid, and the inhabitants generally possessed that happy state of mediocrity, which favors the improvement both of mind and body.

New-York adjoined New-England, but did not encrease with equal rapidity. A few by monopolizing large tracts of land, reduced many to the necessity of being tenants, or of removing to other Provinces, where land could be obtained on more favourable terms. The encrease of population, in this Province, was nevertheless great, when compared with that of old countries. This appears from the following statement of their numbers at different periods. In 1756, the Province of New-York contained 83,233 whites, and in 1771, 148,124, an increase of nearly two for one, in the space of fifteen years.

Pennsylvania was at first settled under the auspices of the celebrated William Penn, who introduced a number of industrious inhabitants, chiefly of the sect of Quakers. The population of this country advanced, equally, with that, of the New-England Provinces. Among the inducements operating on foreigners to settle in Pennsylvania, was a most excellent form of provincial government, which secured the religious as well as the civil rights of its inhabitants. While the Mother Country laboured under an oppressive ecclesiastical establishment, and while partialities of the same kind, were sanctioned by law, in some of the American Provinces, perfect liberty of conscience, and an exact equality of all sects was, in every period, a part of the Constitution of Pennsylvania.

Quaker simplicity, industry, and frugality, contributed, in like manner, to the flourishing of that Province. The habits of that plain people correspond, admirably, with a new country, and with republican constitutions. Opposed to idleness and extravagance, they combined the whole [22] force of religion, with customs and laws, to exile these vices, from their society. The first Quaker settlers were soon followed by Germans, whose industry was not inferior to their own. The emigrants from other countries who settled in Pennsylvania, followed these good examples, and industry and frugality became predominant virtues, over the whole Province.

The policy of a Loan-Office was also eminently beneficial. The Proprietaries of Pennsylvania, sold their lands in small tracts, and on long credit. The purchasers were indulged with the liberty of borrowing, on interest, paper bills of credit, out of the Loan-Office, on the mortgage of their lands. Perhaps there never was an institution which contributed more to the happiness of the people, or to the flourishing of a new country, than this land Loan-Office scheme. The Province being enriched by the clear interest of its loaned paper, was thereby enabled to defray the expences of government, with moderate taxes. The industrious farmer was furnished with the means of cultivating and stocking his farm. These improvements, by increasing the

value of the land, not only established the credit of the paper, but enabled the borrower, in a few years, to pay off the original loan with the productions of the soil. The progressive improvements of Pennsylvania may be estimated from the increase of its trade. In the year 1704, that Province imported goods from the Mother Country, amounting in value only to £11,499 sterling, but in 1772, to the value of £507,909, an encrease of nearly fifty for one, in little more than half a century.

In Maryland and Virginia, a policy less favourable to population, and somewhat different from that of Pennsylvania, took place. The Church of England was incorporated with the first settlement of Virginia, and in the lapse of time, it also became the established religion of Maryland. In both these Provinces, long before the American Revolution, that church possessed a legal preeminence, and was maintained at the expence, not only of its own members, but of all other denominations. These deterred great numbers, especially of the Presbyterian [23] denomination, who had emigrated from Ireland from settling within the limits of these governments, and fomented [a] spirit of discord between those who belonged to, and those who dissented from, the established church.

In these and the other Southern Provinces, domestic slavery was common. Though it was not by law forbidden any where, yet there were comparatively few slaves any where, to the Northward of Maryland. The peaceable and benevolent religion of the Quakers, induced their united opposition to all traffic of the human race. Many individuals of other denominations, in like manner discountenanced it, but the principal ground of difference on this head between the Northern and Southern Provinces, arose, less, from religious principles, than from climate, and local circumstances. In the former, they found it to be for their interest to cultivate their lands with white men, in the latter with those of an opposite colour. The stagnant waters, and low lands, which are so frequent on the shores of Maryland and Virginia, and on the coasts, and near the rivers in the Southern Provinces, generate diseases, which are more fatal to whites than blacks. There is a physical difference in the constitution of these varieties of the human species. The latter secrete less by the kidneys, and more by the glands of the skin than the former. This greater degree of transpiration renders the blacks more tolerant of heat, than the whites. The perspirable matter, thrown off by the former, is more foetid than that of the latter. It is perhaps owing to these circumstances, that blacks enjoy better health, in warm and marshy countries, than whites.

It is certain, that a great part of the low country in several of the provinces must have remained without cultivation, if it had not been cultivated by black men. From imagined necessity, founded on the natural state of the country, domestic slavery seemed to be forced on the Southern provinces. It favored cultivation, but produced many baneful consequences. It was particularly hostile to the proper education of youth. Industry, temperance, and abstinence, virtues essential to the health and vigor of both mind and body, were with difficulty [24] practised, where the labour of slaves procured an abundance, not only of the necessaries, but of the delicacies of life, and where daily opportunities and facilities were offered, for early, excessive, and enervating indulgences. Slavery also led to the engrossing of land, in the hands of a few. It impeded the introduction of labouring freemen, and of course diminished the

capacity of the country for active defence, and at the same time endangered internal tranquility, by multiplying a species of inhabitants, who had no interest in the soil. For if a slave can have a country in the world, it must be any other in preference to that, in which he is compelled to labour for a master. Such is the force of habit, and the pliancy of human nature, that though degrading freemen to the condition of slaves, would, to many, be more intolerable than death, yet Negroes who have been born and bred in habits of slavery, are so well satisfied with their condition, that several have been known to reject proffered freedom, and as far as circumstances authorize us to judge, emancipation does not appear to be the wish of the generality of them. The peasantry of few countries enjoy as much of the comforts of life, as the slaves, who belong to good masters. Interest concurs with the finer feelings of human nature, to induce slave-holders to treat with humanity and kindness, those who are subjected to their will and power. There is frequently more happiness in kitchens than parlours, and life is often more pleasantly enjoyed by the slave, than his master. The political evils of slavery do not so much arise from the distresses it occasions to slaves, as from its diminishing the incitements to industry, and from its unhappy influence on the general state of society. Where it is common, a few grow rich, and live in ease and luxury, but the community is deprived of many of its resources for independent happiness, and depressed to a low station on the scale of national greatness. The aggregate industry of a country, in which slaves and freemen are intermixed, will always be less than where there is a number of freemen equal to both. Nothing stimulates to industry so much as interest. The man who works for another, will contrive many artifices to make [25] that work as little as possible, but he who has an immediate profit from his labor, will disregard tasks, times and seasons. In settlements where the soil is cultivated by slaves, it soon becomes unfashionable for freemen to labor, than which no greater curse can befall a country. The individuals, who by the industry of their slaves are released from the necessity of personal exertions, will be strongly tempted to many practices injurious to themselves and others. Idleness is the parent of every vice, while labor of all kinds, favours and facilitates the practice of virtue. Unhappy is that country, where necessity compels the use of slaves, and unhappy are the people, where the original decree of heaven “that man should eat his bread in the sweat of his face” is by any means whatever generally eluded.

The influence of these causes was so extensive, that though the Southern Provinces possessed the most fruitful soil and the mildest climate, yet they were far inferior to their neighbours in strength, population, industry, and aggregate wealth. This inferiority, increased or diminished, with the number of Slaves in each Province, contrasted with the number of freemen. The same observation held good between different parts of the same Province. The sea coast which, from necessity, could be cultivated only by black men, was deficient in many of the enjoyments of life, and lay at the mercy of every bold invader, while the Western Country, where cultivation was more generally carried on by freemen, though settled at a later period, sooner attained the means of self defence, and, relatively, a greater proportion of those comforts with which a cultivated country rewards its industrious inhabitants.

In the Southern Provinces, the long credit given by British merchants, was a principal source of their flourishing. The immense capitals of the merchants trading to the

North American Continent, enabled them to extend credit to the term of several years. They received a profit on their goods, and an annual interest of five per cent on the sums for which they were sold. This enabled the American merchant to extend credit to the [26] planter, from whom he received a higher interest than he paid in Great-Britain. The planters being furnished, on credit, with slaves and every thing necessary for the cultivation of their lands, when careful and industrious, cleared so much more than the legal interest with which they were charged, that in a few years of successful planting, the difference enabled them to pay their debts and clear their capital. By the help of credit, a beneficial intercourse was established, which redounded to the benefit of both parties.

These causes eminently contributed to the prosperity of the English Provinces. Others, besides co-operating, to the same end, produced a warm love for liberty, a high sense of the rights of human nature, and a predilection for independence.

The first emigrants from England for colonising America, left the Mother Country at a time when the dread of arbitrary power was the predominant passion of the nation. Except the very modern charter of Georgia, in the year 1732, all the English Colonies obtained their charters and their greatest number of European settlers, between the years 1603 and 1688. In this period a remarkable struggle between prerogative and privilege commenced, and was carried on till it terminated in a revolution highly favourable to the liberties of the people. In the year 1621, when the English House of Commons claimed freedom of speech, "as their ancient and undoubted right, and an inheritance transmitted to them from their ancestors;" King James the First replied, "that he could not allow of their style, in mentioning their ancient and undoubted rights, but would rather have wished they had said, that their privileges were derived from the grace and permission of their sovereign." This was the opening of a dispute which occupied the tongues, pens and swords, of the most active men in the nation, for a period of seventy years. It is remarkable that the same period is exactly co-incident with the settlement of the English Colonies. James, educated in the arbitrary sentiments of the divine right of Kings, conceived his subjects to be his property, and that their privileges were [27] matters of grace and favour flowing, from his generosity. This high claim of prerogative excited opposition in support of the rights of the people. In the progress of the dispute, Charles the First, son of King James, in attempting to levy ship-money, and other revenues without consent of Parliament, involved himself in a war with his subjects, in which, after various conflicts, he was brought to the block and suffered death as an enemy to the constitution of his country. Though the monarchy was restored under Charles the Second, and transmitted to James the Second, yet the same arbitrary maxims being pursued, the nation, tenacious of its rights, invited the Prince of Orange to the sovereignty of the island, and expelled the reigning family from the throne. While these spirited exertions were made, in support of the liberties of the parent isle, the English Colonies were settled, and chiefly with inhabitants of that class of people, which was most hostile to the claims of prerogative. Every transaction in that period of English history, supported the position that the people have a right to resist their sovereign, when he invades their liberties, and to transfer the crown from one to another, when the good of the community requires it.

The English Colonists were from their first settlement in America, devoted to liberty, on English ideas, and English principles. They not only conceived themselves to inherit the privileges of Englishmen, but though in a colonial situation, actually possessed them.

After a long war between King and Parliament, and a Revolution—these were settled on the following fundamental principles.

That it was the undoubted right of English subjects, being freemen or freeholders, to give their property, only by their own consent. That the House of Commons exercised the sole right of granting the money of the people of England, because that house alone, represented them. That taxes were the free gifts of the people to their rulers. That the authority of sovereigns was to be exercised only for the good of their subjects. That it was the right of the people to meet together, and peaceably to consider of their grievances—[28] to petition for a redress of them, and finally, when intolerable grievances were unredressed, to seek relief, on the failure of petitions and remonstrances, by forcible means.

Opinions of this kind generally prevailing, produced, among the colonists, a more determined spirit of opposition to all encroachments on their rights, than would probably have taken place, had they emigrated from the Mother Country in the preceding century, when the doctrines of passive obedience, non resistance, and the divine right of kings, were generally received.

That attachment to their sovereign, which was diminished in the first emigrants to America, by being removed to a great distance from his influence was still farther diminished, in their descendants. When the American revolution commenced, the inhabitants of the colonies were for the most part, the third and fourth, and sometimes the fifth or sixth generation, from the original emigrants. In the same degree as they were removed from that parent stock, they were weaned from the partial attachment, which bound their forefathers to the place of their nativity. The affection for the Mother Country, as far as it was a natural passion, wore away in successive generations, till at last it had scarcely any existence.

That mercantile intercourse, which connects different countries, was in the early periods of the English Colonies, far short of that degree, which is necessary to perpetuate a friendly union. Had the first great colonial establishments been made in the Southern Provinces, where the suitableness of native commodities would have maintained a brisk and direct trade with England—the constant exchange of good offices between the two countries, would have been more likely to perpetuate their friendship. But as the Eastern Provinces were the first, which were thickly settled, and they did not for a long time cultivate an extensive trade with England, their descendants speedily lost the fond attachment, which their forefathers felt to their Parent State. The bulk of the people in New England knew little of the Mother Country, having only heard of her as a distant kingdom, the rulers [29] of which, had in the preceding century, persecuted and banished their ancestors to the woods of America.

The distance of America from Great Britain generated ideas, in the minds of the colonists, favourable to liberty. Three thousand miles of ocean separated them from the Mother Country. Seas rolled, and months passed, between orders, and their execution. In large governments the circulation of power is enfeebled at the extremities. This results from the nature of things, and is the eternal law of extensive or detached empire. Colonists, growing up to maturity, at such an immense distance from the seat of government, perceived the obligation of dependence much more feebly, than the inhabitants of the parent isle, who not only saw, but daily felt, the fangs of power. The wide extent and nature of the country contributed to the same effect. The natural seat of freedom is among high mountains, and pathless deserts, such as abound in the wilds of America.

The religion of the colonists also nurtured a love for liberty. They were chiefly protestants, and all protestantism is founded on a strong claim to natural liberty, and the right of private judgement. A majority of them were of that class of men, who, in England, are called Dissenters. Their tenets, being the protestantism of the protestant religion, are hostile to all interference of authority, in matters of opinion, and predispose to a jealousy for civil liberty. They who belonged to the Church of England were for the most part independents, as far as church government and hierarchy, were concerned. They used the liturgy of that church, but were without Bishops, and were strangers to those systems, which make religion an engine of state. That policy, which unites the lowest curate with the greatest metropolitan, and connects both with the sovereign, was unknown among the colonists. Their religion was their own, and neither imposed by authority, nor made subservient to political purposes. Though there was a variety of sects, they all agreed in the communion of liberty, and all reprobated the courtly doctrines of passive obedience, and non-resistance. The same dispositions were fostered by the usual [30] modes of education in the colonies. The study of law was common and fashionable. The infinity of disputes, in a new and free country, made it lucrative, and multiplied its followers. No order of men has, in all ages, been more favourable to liberty, than lawyers. Where they are not won over to the service of government, they are formidable adversaries to it. Professionally taught the rights of human nature, they keenly and quickly perceive every attack made on them. While others judge of bad principles by the actual grievances they occasion, lawyers discover them at a distance, and trace future mischiefs from gilded innovations.

The reading of those colonists who were inclined to books, generally favoured the cause of liberty. Large libraries were uncommon in the New World. Disquisitions on abstruse subjects, and curious researches into antiquity, did not accord with the genius of a people, settled in an uncultivated country, where every surrounding object impelled to action, and little leisure was left for speculation. Their books were generally small in size, and few in number: A great part of them consisted of those fashionable authors, who have defended the cause of liberty. Catos' letters, the Independent Whig, and such productions, were common in one extreme of the colonies, while in the other, histories of the Puritans, kept alive the remembrance of the sufferings of their forefathers, and inspired a warm attachment, both to the civil and the religious rights of human nature.

In the Southern Colonies, slavery nurtured a spirit of liberty, among the free inhabitants. All masters of slaves who enjoy personal liberty will be both proud and jealous of their freedom. It is, in their opinion, not only an enjoyment, but a kind of rank and privilege. In them, the haughtiness of domination, combines with the spirit of liberty. Nothing could more effectually animate the opposition of a planter to the claims of Great-Britain, than a conviction that those claims in their extent, degraded him to a degree of dependence on his fellow subjects, equally humiliating with that which existed between his slaves and himself.

[31] The state of society in the Colonies favoured a spirit of liberty and independence. Their inhabitants were all of one rank. Kings, Nobles and Bishops, were unknown among them. From their first settlement, the English Provinces received impressions favourable to democratic forms of government. Their dependent situation forbade any inordinate ambition among their native sons, and the humility of their society, abstracted as they were from the splendor and amusements of the Old World, held forth few allurements to invite the residence of such from the Mother Country as aspired to hereditary honors. In modern Europe, the remains of the feudal system have occasioned an order of men superior to that of the commonality, but, as few of that class migrated to the Colonies, they were settled with the yeomanry. Their inhabitants, unaccustomed to that distinction of ranks, which the policy of Europe has established, were strongly impressed with an opinion, that all men are by nature equal. They could not easily be persuaded that their grants of land, or their civil rights, flowed from the munificence of Princes. Many of them had never heard of Magna Charta, and those who knew the circumstances of the remarkable period of English history, when that was obtained, did not rest their claims to liberty and property on the transactions of that important day. They looked up to Heaven as the source of their rights, and claimed, not from the promises of Kings but, from the parent of the universe. The political creed of an American Colonist was short but substantial. He believed that God made all mankind originally equal: That he endowed them with the rights of life, property, and as much liberty as was consistent with the rights of others. That he had bestowed on his vast family of the human race, the earth for their support, and that all government was a political institution between men naturally equal, not for the aggrandizement of one, or a few, but for the general happiness of the whole community. Impressed with sentiments of this kind, they grew up, from their earliest infancy, with that confidence which is well calculated to inspire a love for liberty, and a prepossession in favour of independence.

[32] In consequence of the vast extent of vacant country, every colonist was, or easily might be, a freeholder. Settled on lands of his own, he was both farmer and landlord—producing all the necessaries of life from his own grounds, he felt himself both free and independent. Each individual might hunt, fish, or fowl, without injury to his neighbours. These immunities which, in old countries, are guarded by the sanction of penal laws, and monopolized by a few, are the common privileges of all, in America. Colonists, growing up in the enjoyment of such rights, felt the restraint of law more feebly than they, who are educated in countries, where long habits have made submission familiar. The mind of man naturally relishes liberty—where from the extent of a new and unsettled country, some abridgements thereof are useless, and

others impracticable, the natural desire of freedom is strengthened, and the independent mind revolts at the idea of subjection.

The Colonists were also preserved from the contagion of ministerial influence by their distance from the metropolis. Remote from the seat of power and corruption, they were not over-awed by the one, nor debauched by the other. Few were the means of detaching individuals from the interest of the public. High offices, were neither sufficiently numerous nor lucrative to purchase many adherents, and the most valuable of these were conferred on natives of Britain. Every man occupied that rank only, which his own industry, or that of his near ancestors, had procured him. Each individual being cut off from all means of rising to importance, but by his personal talents, was encouraged to make the most of those with which he was endowed. Prospects of this kind excited emulation, and produced an enterprising laborious set of men, not easily overcome by difficulties, and full of projects for bettering their condition.

The enervating opulence of Europe had not yet reached the colonists. They were destitute of gold and silver, but abounded in the riches of nature. A sameness of circumstances and occupations created a great sense of equality, and disposed them to union in any common cause, [33] from the success of which, they might expect to partake of equal advantages.

The colonies were communities of separate independent individuals, under no general influence, but that of their personal feelings and opinions. They were not led by powerful families, nor by great officers, in church or state. Residing chiefly on lands of their own, and employed in the wholesome labours of the field, they were in a great measure strangers to luxury. Their wants were few, and among the great bulk of the people, for the most part, supplied from their own grounds. Their enjoyments were neither far-fetched, nor dearly purchased, and were so moderate in their kind, as to leave both mind and body unimpaired. Inured from their early years to the toils of a country life, they dwelled in the midst of rural plenty. Unacquainted with ideal wants, they delighted in personal independence. Removed from the pressures of indigence, and the indulgence of affluence, their bodies were strong, and their minds vigorous.

The great bulk of the British colonists were farmers, or planters, who were also proprietors of the soil. The merchants, mechanics and manufacturers, taken collectively, did not amount to one fifteenth of the whole number of inhabitants. While the cultivators of the soil depend on nothing but heaven and their own industry, other classes of men contract more or less of servility, from depending on the caprice of their customers. The excess of the farmers over the collective numbers of all the other inhabitants, gave a cast of independence to the manners of the people, and diffused the exalting sentiments, which have always predominated among those, who are cultivators of their own grounds. These were farther promoted by their moderate circumstances, which deprived them of all superfluity for idleness, or effeminate indulgence.

The provincial constitutions of the English colonies nurtured a spirit of liberty. The King and government of Great-Britain held no patronage in America, which could

create a portion of attachment and influence, sufficient to counteract that spirit in popular assemblies, which, when left to itself, illy brooks any authority, that interferes with its own.

[34] The inhabitants of the colonies from the beginning, especially in New-England, enjoyed a government, which was but little short of being independent. They had not only the image, but the substance of the English constitution. They chose most of their magistrates, and paid them all. They had in effect the sole direction of their internal government. The chief mark of their subordination consisted in their making no laws repugnant to the laws of their Mother Country—their submitting such laws as they made to be repealed by the King, and their obeying such restrictions, as were laid on their trade, by parliament. The latter were often evaded, and with impunity. The other small checks were scarcely felt, and for a long time were in no respects injurious to their interests.

Under these favourable circumstances, colonies in the new world had advanced nearly to the magnitude of a nation, while the greatest part of Europe was almost wholly ignorant of their progress. Some arbitrary proceedings of governors, proprietary partialities, or democratical jealousies, now and then, interrupted the political calm, which generally prevailed among them, but these and other occasional impediments of their prosperity, for the most part, soon subsided. The circumstances of the country afforded but little scope for the intrigues of politicians, or the turbulence of demagogues. The colonists being but remotely affected by the bustlings of the old world, and having but few objects of ambition or contention among themselves, were absorbed in the ordinary cares of domestic life, and for a long time exempted from a great proportion of those evils, which the governed too often experience, from the passions and follies of statesmen. But all this time they were rising higher, and though not sensible of it, growing to a greater degree of political consequence.

One of the first events, which as an evidence of their increasing importance, drew on the colonies a share of public attention, was 1745 the taking of Louisbourg from France, while that country was at war with Great-Britain. This enterprize was projected by Governor Shirley, of Massachusetts, and undertaken by the sole authority of [35] the legislature of that Colony. It was carried by only a single vote to make the attempt, but after the adoption of the measure, there was an immediate union of all parties, and all were equally zealous in carrying it into execution. The expedition was committed to General Pepperell, and upwards of 5000 men were speedily raised for the service, and put under his command. This force arrived at Canso, on the 4th of April: A British marine force from the West-Indies, commanded by Commodore Warren, which arrived in the same month, acted in concert with these land forces. Their combined operations were carried on with so much judgment, that on the 17th of June the fortress capitulated.

The war in which Louisbourg was taken, was scarcely ended when another began, in which the colonies were distinguished parties. The reduction of that fortress, by colonial troops, must have given both to France and England, enlarged ideas of the value of American territory, and might have given rise to that eagerness for extending the boundaries of their respective colonies, which soon after, by a collision of claims

to the same ground, laid the foundation of a bloody war between the two nations. It is neither possible nor necessary to decide on the rights of either to the lands about which this contest began. It is certain that the prospects of convenience and future advantage, had much more influence on both, than the considerations of equity. As the contending powers considered the rights of the native inhabitants of no account, it is not wonderful that they should not agree in settling their own. The war was brought on in the following manner. About the year 1749, a grant of 600,000 acres of land in the neighbourhood of the Ohio, was made out in favour of certain persons in Westminster, London, and Virginia, who had associated under the title of the Ohio company. At this time France was in possession of the country, on both sides of the mouth of the Mississippi, as well as of Canada, and wished to form a communication between these two extremities of her territories in North-America. She was therefore alarmed at the scheme in agitation by the Ohio company [36] in as much as the land granted to them, lay between her Northern and Southern settlements.

Remonstrances against British encroachments, as they were called, having been made in vain by the Governor of Canada, the French, at length, seized some British subjects who were trading among the Twightwees, a nation of Indians near the Ohio, as intruders on the land of his most Christian Majesty, and sent them to a fort on the South side of Lake Erie. The Twightwees, by way of retaliation for capturing British traders, whom they deemed their allies, seized three French traders and sent them to Pennsylvania. The French persisting in their claims to the country on the Ohio, as part of Canada, strengthened themselves by erecting new forts in its vicinity, and at length began to seize and plunder every British trader, found on any part of that river. Repeated complaints of those violences being made to the Governor of Virginia, it was at length determined to send a suitable person to the French commandant near the Ohio, to demand the reason of his hostile proceedings, and to insist on his evacuating a fort he had lately built. Major Washington, being then but little more than 21 years of age, offered his service, which was thankfully accepted. The distance to the French settlement was more than 400 miles, and one half of the rout led through a wilderness, inhabited only by Indians. He nevertheless set out in an uncommonly severe season, attended only by one companion. From Winchester, he proceeded on foot, with his provisions on his back. When he arrived and delivered his message, the French commandant refused to comply, and claimed the country as belonging to the King his master, and declared that he should continue to seize and send as prisoners to Canada, every Englishman that should attempt to trade on the Ohio, or any of its branches. Before Major Washington returned, the Virginians had sent out workmen and materials, to erect a fort at the conflux of the Ohio, and the Monongahela. While they were engaged in this work, the French came upon them—drove them out of the country, and erected a regular fortification on the same spot. These spirited [37] proceedings upset the schemes of the Ohio company, but its members both in England and America, were too powerful to brook the disappointment. It was therefore resolved to instruct the colonies to oppose with arms, the encroachments of the French on the British territories, as these Western lands were called. In obedience to these instructions, Virginia raised three hundred men, put them under the command of Colonel Washington, and sent them on towards the Ohio.

An engagement between them and a party of French, took place, in which the latter were defeated. On this Mr. de Villier, the

1753

May 28, 1754

French commandant marched down with 900 men, besides Indians, and attacked the Virginians. Colonel Washington made a brave defence, behind a small unfinished intrenchment; called Fort Necessity; but at length accepted of honorable terms of capitulation.

From the eagerness discovered by both nations for these lands, it occurred to all, that a rupture between France and England, could not be far distant. It was also evident to the rulers of the latter, that the colonies would be the most convenient centre of operation, for repressing French encroachments. To draw forth their colonial resources, in an uniform system of operations, then, for the first time, became an object of public attention.

To digest a plan for this purpose, a general meeting of the Governors, and most influential members of the Provincial Assemblies, was held at Albany. The commissioners, at this Congress, were unanimously of opinion, that an union of the colonies was necessary, and they proposed a plan to the following effect, “that a grand Council should be formed of members, to be chosen by the Provincial Assemblies, which Council, together with a Governor, to be appointed by the Crown, should be authorised to make general laws, and also to raise money from all the colonies for their common defence.”] The leading members of the Provincial Assemblies, were of opinion, that if this plan was adopted, they could defend themselves from the French, without any assistance from Great-Britain. This plan, when sent to England, was not acceptable to the Ministry, and in lieu thereof, they [38] proposed “that the Governors of all the colonies, attended by one or two members of their respective Councils,” which were for the most part of royal appointment, “should from time to time concert measures for the whole colonies—erect forts, and raise troops with a power to draw upon the British treasury in the first instance: but to be ultimately re-imbursed by a tax to be laid on the colonies by act of Parliament.” This was as much disrelished by the colonists, as the former plan had been by the British Ministry. The principle of some general power, operating on the whole of the colonies, was still kept in mind, though dropped for the present.

1754

The ministerial plan laid down above, was transmitted to Governor Shirley; and by him communicated to Dr. Franklin, and his opinion thereon requested. That sagacious patriot, sent to the Governor an answer in writing, with remarks upon the proposed plan, in which by his strong reasoning powers, on the first view of the new subject, he anticipated the substance of a controversy, which for twenty years employed the tongues, pens and swords, of both countries.

The policy of repressing the encroachments of the French on the British colonies, was generally approved, both in England and America. It was therefore resolved to take effectual measures for driving them from the Ohio, and also for reducing Niagara, Crown-Point, and the other posts, which they held within the limit claimed by the King of Great-Britain.

To effect the first purpose, General Braddock was sent from Ireland to Virginia, with two regiments, and was there joined by as many more, as amounted, in the whole, to 2200 men. He was a brave man, but destitute of the other qualifications of a great

officer. His haughtiness disgusted the Americans, and his severity made him disagreeable to the regular troops. He particularly slighted the country militia, and the Virginia officers. Colonel Washington begged his permission to go before him, and scour the woods with his provincial troops, who were well acquainted with that service, but this was refused.

The General with 1400 men pushed on incautiously, till he [39] fell into an ambushade of French and Indians, by whom he was defeated, and mortally wounded. The regulars, as the British Troops at that time were called, were thrown into confusion, but the Provincials more used to Indian fighting, were not so much disconcerted. They continued in an unbroken body under, Colonel Washington, and by covering the retreat of the regulars, prevented their entirely being cut off.

1755 June 9

Notwithstanding these hostilities, war had not yet been formally declared. Previous to the adoption of that measure, Great-Britain, contrary to the usages of nations, made prisoners of 8000 French sailors. This heavy blow for a long time, crippled the naval operations of France, but at the same time, inspired her with a desire, to retaliate, whenever a proper opportunity should present itself. For two or three years, after Braddock's defeat, the war was carried on against France, without vigor or success, but when Mr. Pitt was placed at the head of the ministry, public affairs assumed a new aspect.

Victory, every where, crowned the British arms, and, in a short time, the French were dispossessed, not only of all the British territories, on which they had encroached, but also of Quebec, the capital of their ancient Province, Canada.

1759

In the course of this war, some of the colonies made exertions so far beyond their reasonable quota, as to merit a re-imbusement from the national treasury; but this was not universally the case. In consequence of internal disputes, together with their greater domestic security, the necessary supplies had not been raised in due time, by others, of the Provincial Assemblies. That a British Minister should depend on colony legislatures, for the execution of his plans, did not well accord with the vigorous and decisive genius of Mr. Pitt, but it was not prudent, by any innovation, to irritate the colonies, during a war, in which, from local circumstances, their exertions were peculiarly beneficial. The advantages that would result from an ability, to draw forth the resources of the colonies, by the same authority, which commanded the wealth of the Mother Country, might in these circumstances [40] have suggested the idea of taxing the colonies by authority of the British Parliament. Mr. Pitt is said to have told Mr. Franklin, "that when the war closed, if he should be in the ministry, he would take measures to prevent the colonies from having a power to refuse or delay the supplies that might be wanted for national purposes," but did not mention what those measures should be. As often as money or men were wanted from the colonies, a requisition was made to their legislatures. These were generally and cheerfully complied with. Their exertions with a few exceptions were great, and manifested a serious desire to carry into effect the plans of Great-Britain, for reducing the power of France.

In the prosecution of this war, the advantages which Great-Britain derived from the colonies, were severely felt by her enemies. Upwards of 400 privateers which were

fitted out of the ports of the British colonies, successfully cruised on French property. These not only ravaged the West-India islands, belonging to his most Christian Majesty, but made many captures on the coast of France. Besides distressing the French nation by privateering, the colonies furnished 23,800 men, to co-operate with the British regular forces, in North-America. They also sent powerful aids, both in men and provisions, out of their own limits, which facilitated the reduction of Martinique, and of the Havannah. The success of their privateers—the cooperation of their land forces—the convenience of their harbours, and their contiguity to the West-India islands, made the colonies great acquisitions to Britain, and formidable adversaries to France. From their growing importance, the latter had much to fear. Their continued union with Great-Britain, threatened the subversion of the commerce, and American possessions, of France.

After hostilities had raged nearly eight years—a general peace was concluded, on terms, by which France ceded Canada to 1763 Great-Britain. The Spaniards having also taken part in the war, were, at the termination of it, induced to relinquish to the same power, both East and West-Florida. This peace gave Great-Britain possession [41] of an extent of country equal in dimensions to several of the kingdoms of Europe. The possession of Canada in the North, and of the two Floridas in the South, made her almost sole mistress of the North-American Continent.

This laid a foundation for future greatness, which excited the envy and the fears of Europe. Her navy, her commerce, and her manufactures had greatly increased, when she held but a part of the Continent; and when she was bounded by the formidable powers of France and Spain. Her probable future greatness, when without a rival, and with a growing vent for her manufactures, and increasing employment for her marine, threatened to destroy that balance of power, which European sovereigns have for a long time endeavored to preserve. Kings are republicans with respect to each other, and behold with democratic jealousy, any one of their order towering above the rest. The aggrandizement of one, tends to excite the combination, or at least the wishes of many, to reduce him to the common level. From motives of this kind, a great part of Europe not long since combined against Venice; and soon after against Louis the XIVth of France. With the same suspicious eye, was the naval superiority of Great-Britain, viewed by her neighbours. They were, in general, disposed to favour any convulsion which promised a diminution of her overgrown power.

The addition to the British empire of new provinces, equal in extent to old kingdoms, not only excited the jealousy of European powers, but occasioned doubts in the minds of enlightened British politicians, whether or not, such immense acquisitions of territory would contribute to the felicity of the parent State. They saw, or thought they saw, the seeds of disunion, planted in the too widely extended empire. Power like all things human, has its limits, and there is a point beyond which the longest and sharpest sword fails of doing execution. To combine in one uniform system of Government, the extensive territory then subjected to the British sway appeared to men of reflection, a work of doubtful practicability: [42] Nor were they mistaken in their conjectures.

The seeds of discord were soon planted, and speedily grew up to the rending of the empire. The high notions of liberty and independence, which were nurtured in the colonies, by their local situation, and the state of society in the new world, were increased by the removal of hostile neighbours. The events of the war, had also given them some experience in military operations, and some confidence in their own ability. Foreseeing their future importance, from the rapid increase of their numbers, and extension of their commerce; and being extremely jealous of their rights, they readily admitted, and with pleasure indulged, ideas and sentiments which were favourable to independence. While combustible materials were daily collecting, in the new world, a spark to kindle the whole was produced in the old. Nor were there wanting those who, from a jealousy of Great-Britain, helped to fan the flame.

CHAPTER II

The Origin Of The Disputes Between Great-Britain And Her Colonies, In The Year 1764, And Its Progress Till 1773.

From the first settlement of English America, till the close of the war of 1755, the conduct of Great-Britain towards her colonies, affords an useful lesson to those who are disposed to colonisation. From that era, it is equally worthy of the attention of those who wish for the reduction of great empires to small ones. In the first period, Great-Britain regarded the provinces as instruments of commerce. Without charging herself with the care of their internal police, or seeking a revenue from them; she contented herself with a monopoly of their trade. She treated them as a judicious mother does her dutiful children.

They shared in every privilege belonging to her native sons, and but slightly felt the inconveniences of subordination. Small was the catalogue of grievances, with which even democratical jealousy charged the parent state, antecedent to the period before [43] mentioned. The following appear to have been the chief. An act of the British parliament for prohibiting the cutting down pitch and tar trees, not being within a fence or enclosure, and sundry acts which operated against colonial manufactures. By one of these, it was made illegal after the 24th of June, 1750, to erect in the colonies, any mill or other engine for slitting or rolling of iron, or any plating forge, to work with a tilt-hammer, or any furnace for making steel. By another, hatters were restrained from taking more than two apprentices at a time, or any for less than seven years, and from employing negroes in the business. The colonists were also prohibited from transporting hats, and home manufactured woolens, from one province to another. These regulations were for the most part evaded, but if carried into execution, would have been slightly inconvenient, and only to a few. The articles, the manufacturing of which, were thus prohibited, could be purchased, at a cheaper rate, from England, and the hands who made them, could be as well employed in agriculture.

1750

Though these restrictions were a species of affront, by their implying, that the colonists had not sense enough to discover their own interest, and though they seemed calculated to crush their native talents, and to keep them in a constant state of inferiority, without any hope of arriving at those advantages, to which, by the native riches of their country, they were prompted to aspire, yet if no other grievances had been superadded, to what existed in 1763, these would have been soon forgotten, for their pressure was neither great, nor universal. The good resulting to the colonies, from their connection with Great-Britain, infinitely outweighed the evil.

1763

Till the year 1764, the colonial regulations seemed to have no other object, but the common good of the whole empire.

1764

Exceptions, to the contrary, were few, and had no appearance of system. When the approach of the colonies to manhood, made them more capable of resisting

impositions, Great-Britain changed the ancient system, under which her colonies had long flourished. When policy would rather have dictated a relaxation of authority, she rose in her demands, and multiplied her restraints.

[44] From the conquest of Canada, in 1759, some have supposed, that France began secretly to lay schemes, for wresting those colonies from Great-Britain, which she was not able to conquer. Others alledge, that from that period, the colonists, released from all fears of dangerous neighbours, fixed their eyes on independence, and took sundry steps, preparatory to the adoption of the measure. Without recurring to either of these opinions, the known selfishness of human nature is sufficient to account for that demand on the one side, and that refusal on the other, which occasioned the revolution. It was natural for Great-Britain, to wish for an extension of her authority over the colonies, and equally so for them, on their approach to maturity, to be more impatient of subordination, and to resist every innovation, for increasing the degree of their dependence.

The sad story of colonial oppression commenced in the year 1764. Great-Britain, then, adopted new regulations, respecting her colonies, which, after disturbing the ancient harmony of the two countries, for about twelve years, terminated in a dismemberment of the empire.

These consisted in restricting their former commerce, but more especially in subjecting them to taxation, by the British Parliament. By adhering to the spirit of her navigation act, in the course of a century, the trade of Great-Britain had increased far beyond the expectation of her most sanguine sons, but by rigidly enforcing the strict letter of the same, in a different situation of public affairs, effects, directly the reverse, were produced.

1764

From the enterprising, commercial spirit of the colonists, the trade of America, after filling all its proper channels to the brim, swelled out on every side, overflowed its proper banks, with a rich redundance. In the cure of evils, which are closely connected with the causes of national prosperity, vulgar precaution ought not to be employed. In severely checking a contraband trade, which was only the overflowing of an extensive fair trade, the remedy was worse then the disease.

For some time before and after the termination of the war of 1755, a considerable intercourse had been carried [45] on between the British and Spanish colonies, consisting of the manufactures of Great Britain, imported by the former, and sold to the latter, by which the British colonies acquired gold and silver, and were enabled to make remittances to the Mother Country. This trade, though it did not clash with the spirit of the British navigation laws, was forbidden by their letter. On account of the advantages, which all parties, and particularly Great-Britain, reaped from this intercourse, it had long been winked at, by persons in power, but at the period beforementioned, some new regulations were adopted, by which it was almost destroyed. This was effected by armed cutters, whose commanders were enjoined to take the usual custom-house oaths, and to act in the capacity of revenue officers. So sudden a stoppage of an accustomed and beneficial commerce, by an unusually rigid execution of old laws, was a serious blow to the Northern colonies. It was their

misfortune, that though they stood in need of vast quantities of British manufactures, their country produced very little, that afforded a direct remittance, to pay for them. They were, therefore, under a necessity of seeking elsewhere, a market for their produce, and by a circuitous route, acquiring the means of supporting their credit, with the Mother Country. This they found, by trading with the Spanish and French colonies, in their neighbourhood. From them they acquired gold, silver, and valuable commodities, the ultimate profits of which, centered in Great-Britain. This intercourse gave life to business of every denomination, and established a reciprocal circulation of money and merchandize, to the benefit of all parties concerned. Why a trade, essential to the colonies, and which, so far from being detrimental, was indirectly advantageous to Great-Britain, should be so narrowly watched, and so severely restrained, could not be accounted for by the Americans, without supposing, that the rulers of Great-Britain were jealous of their adventurous commercial spirit, and of their increasing number of seamen. Their actual sufferings were great, but their apprehensions were greater.

Instead of viewing the parent state, as formerly, in the light of an affectionate [46] mother, they conceived her, as beginning to be influenced by the narrow views of an illiberal stepdame.

1764

After the 29th of September, 1764, the trade between the British, and the French, and Spanish colonies, was in some degree legalised, but under circumstances, that brought no relief to the colonists, for it was loaded with such enormous duties, as were equivalent to a prohibition. The preamble to the act, for this purpose, was alarming. “Whereas it is just and necessary, that a revenue be raised in America, for defraying the expences, of defending, protecting, and securing the same, We, the commons, &c. towards raising the same, give, and grant unto your Majesty, the sum of” (here followed a specification of duties upon foreign clayed sugar, indigo, and coffee, of foreign produce, upon all wines, except French, upon all wrought silk, and all calicoes, and upon every gallon of melasses, and syrups, being the produce of a colony, not under the dominion of his Majesty). It was also enacted, that the monies, arising from the importation of these articles, into the colonies, should be paid into the receipt of his Majesty’s exchequer, there to be entered separate, and reserved, to be disposed of by Parliament, toward defraying the necessary expences, of defending, protecting, and securing America. Till that act passed, no act avowedly for the purpose of revenue, and with the ordinary title and recital of such, was to be found in the parliamentary statute book. The wording of it made the colonists fear, that the Parliament would go on, in charging them with such taxes, as they pleased, and for the support of such military force, as they should think proper. The act was the more disgusting, because the monies, arising from it, were ordered to be paid in specie, and regulations were adopted, against colonial paper money. To obstruct the avenues of acquiring gold and silver, and at the same time to interdict the use of paper money, appeared to the colonists as a farther evidence, that their interests were either misunderstood, or disregarded. The imposition of duties, for the purpose of raising a revenue, in America, was considered as a dangerous innovation, but the methods adopted, for securing their collection, [47] were resented as arbitrary and unconstitutional. It was enacted by Parliament, that whenever offences should be committed against the acts, which imposed them, the prosecutor might bring his action for the penalty, in the courts of admiralty, by which means the defendant lost

the advantage of being tried by a jury, and was subjected to the necessity of having his case decided upon, by a single man, a creature of the crown, whose salary was to be paid out of forfeitures, adjudged by himself; and also according to a course of law, which exempted the prosecutor from the trouble of proving his accusation, and obliged the defendant, either to evince his innocence, or to suffer. By these regulations, the guards, which the constitution had placed round property, and the fences, which the ancestors of both countries had erected, against arbitrary power, were thrown down, as far as they concerned the colonists, charged with violating the laws, for raising a revenue in America.

They who directed public affairs in Great-Britain feared, that if the collection of these duties was enforced, only in the customary way, payment would be often eluded. To obviate that disposition which the colonists discovered to screen one another, in disobeying offensive acts of parliament, regulations were adopted, bearing hard on their constitutional rights. Unwilling as the colonists were to be excluded by the imposition of enormous duties, from an accustomed and beneficial line of business; it is not wonderful that they were disposed to represent these innovations of the Mother Country, in the most unfavourable point of view. The heavy losses to which many individuals were subjected, and the general distress of the mercantile interest, in several of the oldest colonies, soured the minds of many. That the Mother Country should infringe her own constitution, to cramp the commerce of her colonies, was a fruitful subject of declamation: but these murmurings would have evaporated in words, had Great-Britain proceeded to no farther innovations. Instead of this, she adopted the novel idea of raising from the colonies, an efficient revenue, by direct internal taxes, laid by authority of her parliament.

[48] Though all the colonists disrelished, and many, from the pressure of actual sufferings, complained of the British restrictions on their manufactures and commerce, yet a great majority was disposed to submit to both. Most of them acknowledged that the exercise of these powers was incident to the sovereignty of the Mother Country, especially when guarded by an implied contract, that they were to be only used for the common benefit of the empire. It was generally allowed, that as the planting of colonies was not designed to erect an independent government, but to extend an old one, the Parent State had a right to restrain their trade in every way, which conduced to the common emolument.

They for the most part considered the Mother Country as authorised to name ports and nations, to which alone their merchandize should be carried, and with which alone they should trade: but the novel claim of taxing them without their consent, was universally reprobated, as contrary to their natural, chartered, and constitutional rights. In opposition to it, they not only alledged the general principles of liberty, but ancient usage. During the first 150 years of their existence, they had been left to tax themselves and in their own way. If there were any exceptions to this general rule, they were too inconsiderable to merit notice. In the war of 1755, the events of which were fresh in the recollection of every one, the parliament had in no instance attempted to raise either men or money in the colonies, by its own authority. As the claim of taxation on one side, and the refusal of it on the other, was the very hinge on which the revolution turned, it merits a particular discussion.
